INTRODUCTION TO THE PUBLIC ACCOUNTS OF MANITOBA

The Public Accounts of the Province of Manitoba are prepared by statutory requirement, in accordance with *The Financial Administration Act*, which is Chapter F55 of the Continuing Consolidation of the Statutes of Manitoba. The Public Accounts for the fiscal year ended March 31, 2009 consist of the following volumes:

Volume 1

- Volume 1 is published as part of the Government's Annual Report and contains:
  - The Economic Report.
  - The Financial Statement Discussion and Analysis.
  - The audited Summary Financial Statements of the Government focusing on the entire reporting entity.
  - Other audited Financial Reports.

Volume 2

- Contains the audited Schedule of Public Sector Compensation Payments of $50,000 or more as paid through the Government Departments as well as those paid by Special Operating Agencies.
- Contains details of unaudited Consolidated Fund and Special Operating Agencies' payments in excess of $5,000 to corporations, firms, individuals, other governments and government agencies.

Volume 3

- Contains a reconciliation of core government results to summary results.
- Contains the details of selected core government financial information.
- Contains the details of the core government borrowings and guarantees.
- Contains the details of the core government revenue and expense.
- Contains information provided under statutory requirement.

These statements are all unaudited with the exception of the following:
- The Report of Amounts Paid or Payable to Members of the Assembly; and
- The Northern Affairs Fund.

Volume 4

- Contains unaudited financial statements of special funds and audited financial statements of organizations, agencies and enterprises included in the Government Reporting Entity, but is not considered to be part of the Public Accounts of Manitoba.

VOLUME 4

AUDITORS' REPORT

To the Board of Governors of Addictions Foundation of Manitoba

We have audited the statement of financial position of Addictions Foundation of Manitoba as at March 31, 2009 and the statements of revenue and expenses, changes in net assets, and cash flows for the year then ended. These financial statements are the responsibility of the Foundation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Foundation as at March 31, 2009 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

See accompanying notes to financial statements.

Nature of the Foundation:

The Foundation is incorporated under the *Addictions Foundation of Manitoba Act*. The Foundation is the provincial authority for providing prevention, education and treatment programs related to addictions to individuals and communities and for promoting the health and well-being of Manitobans. In this respect, the Foundation is dependent upon funding from the Government of the Province of Manitoba. The Foundation is a registered charity within the meaning of the *Income Tax Act*.

1. Continuity of operations:

These financial statements have been prepared on a going concern basis in accordance with Canadian generally accepted accounting principles. The going concern basis of presentation assumes that the Foundation will continue in operation for the foreseeable future and be able to realize its assets and discharge its liabilities and commitments in the normal course of business. There is doubt about the appropriateness of the use of the going concern assumption because as at March 31, 2009, the Foundation has a working capital deficiency, an unrestricted net asset deficiency of $2,057,699, and deficiencies in revenues over expenses in fiscal 2009 and prior periods.

The ability of the Foundation to continue as a going concern, to realize the carrying value of its assets and to discharge its liabilities when due is dependent on the continued support of the Government of the Province of Manitoba and the Foundation achieving a break-even or surplus position in future years. There is no certainty that these and other strategies will be achieved or that they will be sufficient to permit the Foundation to continue as a going concern.

The financial statements do not reflect adjustments that would be necessary if the "going concern" assumption were not appropriate. If the "going concern" basis was not appropriate for these financial statements, then adjustments would be necessary in the carrying value of assets and liabilities, the reported revenues and expenses, and the balance sheet classifications used.

2. Significant accounting policies:

(a) Capital assets:

Purchased capital assets are recorded at cost and contributed capital assets are recorded at their fair value at the date of contribution. The amortization methods and annual rates applicable to the various classes of assets are as follows:

Asset	Method	Rate
Buildings	Declining balance	5%
Computer equipment	Declining balance	30%
Furniture and equipment	Declining balance	20%
Leasehold improvements	Straight-line	Over term of lease

During the construction of new buildings, third party borrowing costs are capitalized as incurred. Buildings under construction are not depreciated.

(b) Revenue recognition:

The Foundation follows the deferral method of accounting for contributions. Restricted contributions are recognized as deferred contributions until the year in which the related expenses are incurred, at which time they are recognized as revenue. Unrestricted contributions are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured. Recovery of wages, medical and treatment services is recognized as revenue upon completion of the related treatment.

(c) Vacation pay:

The Foundation records a liability with respect to vacation pay entitlements accrued and unused as at year end. This amount is based on current remuneration.

(d) Pension costs:

Pension payments are recognized as operating expenses as payments are made under provisions of *The Manitoba Civil Service Superannuation Act*. The provisions of this Act require the Foundation to contribute 50 percent of the pension payments being made to retired employees. For employees hired after October 1, 2002, the Foundation makes annual matching contributions based on 6% of the employees' salary, which are also recognized as operating expenses. In addition, a provision has been recorded in the accounts of the Foundation for the employer's share of current and past service pension obligations.

2. Significant accounting policies:

(e) Restricted cash:

Restricted cash represents cash held in trust in connection with the buildings under construction.

(f) Use of estimates:

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates.

(g) Financial instruments:

Financial assets and liabilities held-for-trading are measured at fair value with gains and losses recognized in excess of revenue over expenses. Financial instruments classified as held-to-maturity, loans and receivables and other liabilities are measured at amortized cost. Available-for-sale financial instruments are measured at fair value, with unrealized gains and losses recognized directly in unrestricted net assets.

The Foundation has designated cash as held-for-trading; accounts receivable, vacation pay recoverable, pre-retirement pay recoverable and long-term pension funding recoverable as loans and receivables; and accounts payable and accrued liabilities, bank indebtedness related to capital assets and accrued vacation pay as other liabilities. The Foundation has neither available-for-sale nor held-to-maturity instruments.

Except for held-for trading designated financial instruments, transaction costs that are directly attributable to the acquisition or issuance of financial assets or liabilities are accounted for as part of the respective asset or liability's carrying value at inception and amortized over the expected life of the financial instrument using the effective interest method. For held-for-trading financial assets and liabilities, transaction costs are recorded in the statement of revenue and expenses as incurred.

3. Future accounting changes:

The Canadian Institute of Chartered Accountants (CICA) issued the following accounting standards that will come into effect for the Foundation's next fiscal year. The Foundation is in the process of determining the impact that these standards will have on its financial reporting.

CICA Section 3862, *Financial Instruments - Disclosures* and Section 3863, *Financial Instruments - Presentation* were to replace the existing Section 3861, *Financial Instruments - Disclosure and Presentation,* effective April 1, 2009 for the Foundation. These new sections revise and enhance disclosure requirements, and carry forward, unchanged, existing presentation requirements. These new sections place increased emphasis on disclosures about the nature and extent of risks arising from financial instruments and how the entity manages those risks. However, the CICA subsequently amended these sections to eliminate the requirement for not-for-profit entities to adopt these sections. Not-for-profit entities are permitted to continue to apply Section 3861 in place of Section 3862 and 3863. An entity that does so must disclose the fact.

In September 2008, a number of standards applicable to not-for-profit organizations were amended and new Section 4470 - *Disclosures of Allocated Expenses by Not-for-Profit Organizations,* was issued. The new Section 4470 requires entities that make allocations of general support and fundraising costs to other functions to disclose the policies adopted for the allocation of expenses among functions, the nature of the expenses being allocated, the basis on which such allocations have been made, and the functions to which they have been allocated. In addition, the amendments to the not-for-profit organization standards include clarification of when revenues and expenses are to be reported on a gross basis; clarification of the treatment of internal and external restriction on net assets; and improved guidance related to application of GAAP hierarchy, capital asset standards and statement of cash flows. The Foundation will adopt these standards on April 1, 2009.

4. Vacation pay recoverable from the Province of Manitoba:

The Province of Manitoba funds a portion of the vacation pay benefits of the Foundation, limited to the amount estimated at March 31, 1995. Accordingly, the Foundation has recorded a receivable in the amount of $667,567 from the Province of Manitoba which reflects the estimated liability for accumulated vacation pay benefits at March 31, 1995. The Foundation is expected to fund the change in the liability from annual funding provided by the Province of Manitoba.

5. Capital assets:

	Cost	Accumulated amortization	2009 Net book value	2008 Net book value
Land	$ 535,065	$ –	$ 535,065	$ 535,065
Computer equipment	1,117,085	776,379	340,706	278,268
Furniture and equipment	282,992	169,216	113,776	102,215
Leasehold improvements	640,575	250,216	390,359	413,362
Building under construction	8,706,990	–	8,706,990	2,388,599
Buildings	4,041,660	2,712,551	1,329,109	1,397,247
	$ 15,324,367	$ 3,908,362	$ 11,416,005	$ 5,114,756

Interest capitalized to date in building under construction as at March 31, 2009 totaled $174,117 (2008 -$28,372).

6. Province of Manitoba pre-retirement pay:

The Foundation maintains an employee pre-retirement benefit plan for substantially all of its employees. The plan provides benefit payments to eligible retirees based on length of service and on career earnings from initial eligibility. At March 31, 2009, the obligation under the pre-retirement pay is estimated to be approximately $1,991,581 (2008 - $1,865,611) for which the Foundation has recorded an accrued pre-retirement pay liability on the statement of financial position.

The amount of funding which will be provided by the Province of Manitoba for pre-retirement pay was initially determined based on the pre-retirement pay liability as at April 1, 1998 and was recorded as a receivable from the Province of Manitoba. Since fiscal 1999, the Foundation has received funding on an annual basis from the Province, which includes funding for the change in the pre-retirement pay liability and retirement payments in the year, including an interest component on the pre-retirement pay receivable. The pre-retirement pay recoverable from the Province at March 31, 2009 aggregates $1,153,316 (2008 - $1,153,316) and has no specified terms of repayment.

The fair value of the pre-retirement pay receivable from the Province approximates its carrying value as the interest component described above is comparable to current market rates.

7. Provision for employee pension benefits:

The Foundation records the actuarial pension liability and the related pension expense including an interest component, in its financial statements. Based on extrapolation from the most recent actuarial report dated December 31, 2007, the Foundation has recorded an amount of $18,460,363 (2008 - $18,556,423) in its financial statements, representing the estimated unfunded liability for the Foundation's employees as at March 31, 2009. Total pension expense of $738,565 (2008 - $1,802,631) has been recorded in the statement of revenue and expenses.

The Province of Manitoba has accepted responsibility for the pension liability and the related expense including the interest component. The Foundation has therefore recorded an amount recoverable from the Province of Manitoba of $18,460,363 (2008 - $18,556,423) equal to the estimated value of its actuarially determined liability in its financial statements, and has recorded the associated net revenue or expense for the change in the liability in the period. The Province makes payments on the receivable when it is determined that the funding is required to discharge the related pension obligation.

Provision for employer's share of employees' pension plan:

	2009	2008
Balance, beginning of year	$ 18,556,423	$ 17,474,908
Benefits accrued	955,483	932,820
Interest accrued (7 percent; 2008 - 7 percent)	1,251,493	1,244,232
Benefits paid	(1,317,971)	(1,095,537)
Actuarial gains[1]	(985,065)	–
Balance, end of year	$ 18,460,363	$ 18,556,423

[1] The actuarial valuation as at December 31, 2007 was completed in April 2009, and the resulting adjustment recorded in the year ended March 31, 2009. This has resulted in lower pension expense and a corresponding adjustment to long-term pension revenue, net in the statement of revenue and expenses.

8. Bank indebtedness related to capital assets:

The Foundation has an operating interim construction loan credit facility with a maximum limit of $9,134,454 as amended effective April 15, 2009. Advances on this credit facility are payable on demand and bear interest at bank prime less 1.00 percent per annum. The facility is secured by a letter of comfort from Manitoba Health and assignment of specific contracts by the Foundation. Interest only is payable until commencement of repayment initiated by Manitoba Health. Principal payments are to begin effective for April 1, 2009. As at March 31, 2009, the Foundation utilized $8,057,905 of the available line of credit.

9. Deferred contributions:

		2009		2008
Balance, beginning of year	$	52,800	$	58,500
Contributions received in the current year		60,000		–
Amount recognized as revenue in the current year		(15,000)		(5,700)
Balance, end of year	$	97,800	$	52,800

10. Internally restricted net assets:

Internally restricted net assets represent commitments for future expenditures on projects and capital expenditures. At the time the commitments are settled, expenditures are recorded in the balance sheet or statement of revenue and expenses as appropriate and the restrictions are reversed.

		2009		2008
Balance, beginning of year	$	994,000	$	1,338,300
Internal restrictions settled in the current year		(200,000)		(530,400)
Internal restrictions imposed for future years		185,300		186,100
		(14,700)		(344,300)
Balance, end of year	$	979,300	$	994,000

Internal restrictions have been imposed for the following:

		2009		2008
Ontario Health referrals potential cancellation	$	325,000	$	325,000
Pathways conference		13,700		13,700
Provincial technology program		–		200,000
Youth services		374,400		321,500
Problem gambling services special projects		25,600		–
Impaired drivers' program		240,600		133,800
	$	979,300	$	994,000

11. Commitments:

The Foundation leases buildings and equipment under long-term operating leases which expire at various dates between 2010 and 2014. Certain leases contain renewal options at rates to be negotiated. Future minimum lease payments required under operating leases that have initial lease terms in excess of one year are as follows:

2010	$ 340,849
2011	230,953
2012	169,069
2013	143,978
2014	134,771
	$ 1,019,620

12. Fair value:

The fair value of the pre-retirement pay recoverable and the long-term pension funding recoverable from the Province of Manitoba approximates the carrying value as the interest component (see notes 6 and 7) is comparable to current market rates.

The fair value of accounts receivable, vacation pay recoverable, bank indebtedness, accounts payable and accrued liabilities and accrued vacation pay approximates their carrying value due to the short-term nature of these instruments.

13. Comparative figures:

Certain comparative figures have been reclassified to conform with the financial statement presentation adopted in the current year.

Operations

Assiniboine Community College operates under the authority of The Colleges Act, Chapter C150.1 of the Continuing Consolidation of the Statutes of Manitoba and is a registered charity under the Income Tax Act.

In accordance with the activities or objectives specified by donors and other sources outside the College and in keeping with their mandate to operate the College, the Board of Governors may approve transfers between funds to achieve the financial objectives of the College. Effective June 1998, the Assiniboine Community College Foundation was created to administer the collection and disbursement of endowment funds and undertake fundraising events.

Financial Instruments

The organization's financial instruments consist of cash, accounts receivable, short-term investments, accounts payable, and severance liabilities. Unless otherwise noted, it is management's opinion that the organization is not exposed to significant interest, currency or credit risks arising from these financial instruments. The fair values of these financial instruments approximate their carrying values, unless otherwise noted.

Effective July 1, 2007, the company adopted the new recommendations of the Canadian Institute of Chartered Accountants (CICA) under CICA Handbook Section 1530, Comprehensive Income, Section 3251, Equity, Section 3855, Financial Instruments - Recognition and Measurement and Section 3861, Financial Instruments - Disclosure and Presentation. These new Handbook Sections provide requirements for the recognition and measurement of financial instruments. Section 1530 establishes standards for reporting and presenting comprehensive income which is defined as the change in equity from transactions and other events from non-owner sources. Other comprehensive income refers to items recognized in comprehensive income but that are excluded from net income calculated in accordance with Canadian generally accepted accounting principles.

Under Section 3855, all financial instruments are classified into one of five categories: held-for-trading, held-to-maturity, loans and receivables, available-for-sale financial assets or other financial liabilities. All financial instruments are measured in the balance sheet at fair value except for loans and receivables, held-to-maturity instruments and other financial liabilities, which are measured at amortized cost. Subsequent measurement and changes in fair value will depend on their initial classification. Held-for-trading financial assets and liabilities are measured at fair value and changes in fair value are recognized into net income. Available-for-sale financial instruments are measured at their fair value with changes in fair value recorded in other comprehensive income

As a result of the adoption of these new standards, the entity has classified its cash and short-term investments as held-for-trading, receivables as loans and receivables and its accounts payable and accrued liabilities as other liabilities, which are measured at amortized cost. As a result of application of Section 3855, the Company's surplus was not affected.

Inventories

Inventories are valued at the lower of cost or net realizable value. Cost is determined by the first-in, first-out method.

Assiniboine Community College
Summary of Significant Accounting Policies

June 30, 2008

Capital Assets

Capital assets are stated at cost less accumulated amortization. Amortization is provided using the straight-line method at 20% per annum for acquisitions prior to June 30, 2002. For acquisitions after 2002, amortization is provided using the straight-line method at the following rates:

Buildings	2 %
Leasehold improvements	Term equal to the length of the lease plus one renewal term, or 2% per annum if no specified lease term
Computer systems	20 %
Computer equipment	33 %
Furniture and equipment	20 %
Laptop program	50 %

No amortization is taken in the year of acquisition, except for the laptop program assets that have a full year of amortization applied in the year of acquisition. Contributed capital assets are recorded at the fair value at the date of contribution.

A base library was established at April 1, 1993. Library holdings are accounted for using the "base stock" method with current library acquisitions not capitalized because annual library acquisitions net of annual library dispositions are not significant. An adjustment to the "base stock" method has been applied in the current year to reflect a decrease in the books maintained by the library.

Leases

A lease that transfers substantially all of the benefits and risks of ownership is classified as a capital lease. The College evaluates all leases at the inception of the lease agreement to determine if it should be classified as a capital or operating lease. Where a capital lease is identified, the amount of the payment made each year is capitalized and amortized using the straight-line method over the lesser of five years or the remaining lease term. All other leases are accounted for as operating leases and rental payments are expensed as incurred.

Deferred Revenue

Revenue received in the current year, but not spent until the following fiscal year, is deferred and matched with the related expenditures.

Revenue Recognition	Government grants are recognized when the final amount to be received is readily determinable. Tuition and other training revenue is recognized when the final amount to be received is readily determinable. In the case of funding received for programs taking place over a period of time longer than 1 year, the revenues are recognized when the related expenditures are incurred. The deferral method of accounting for contributions is used. Restricted contributions are deferred and matched with the related expenses when incurred. Donations are reported when received. Donations of Capital Assets are reported at fair market value.
Use of Estimates	The preparation of financial statements in accordance with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management's best estimates as additional information becomes available in the future.

1. Cash and Short-term Investments

	2008	2007
Cash	**785**	920
Term deposits - Manitoba Finance	**2,408**	2,738
	3,193	3,658

2. Accounts Receivable

	2008	2007
Tuition and contract training	**1,399**	1,245
Goods and Services Tax rebate	**45**	58
Allowance for doubtful accounts	**(14)**	(21)
	1,430	1,282

3. Due from Province of Manitoba

	2008	2007
Current		
Property taxes	**331**	331
Accommodation cost-recovery system	**180**	180
10% tuition rebate	**11**	11
	522	522
Non-current		
Vacation pay	**875**	875
Severance pay	**1,124**	1,124
	1,999	1,999
	2,521	2,521

The Province of Manitoba has guaranteed the receivable for severance and vacation pay in the amount of $1,999,250 (in actual $). The amount of this deferred funding was established in 1998 and was calculated as the severance and vacation pay owing at that time to employees for pre-1998 employee service. The amount of this receivable will not change as the liability for vacation and severance pay increases or decreases on an annual basis. The receivable is non-interest bearing and no payment terms have been established. To date, the College has paid out $727,418 in severance pay relating to pre-1998 employee service (in actual $). No payments have been received from the Province with respect to this receivable.

4. Inventories

	2008	2007
Books and supplies	**34**	47

5. Capital Assets

	2008		2007	
	Cost	**Accumulated Amortization**	Cost	Accumulated Amortization

	2008	2007
Library holdings, at estimated value	**811**	911

6. Accounts Payable and Accrued Liabilities

	2008	2007
Trade payables	**1,262**	1,333
Accrued vacation pay	**1,937**	1,829
	3,199	3,162

7. Deferred Revenue

	2008	2007
Opening tuition and commitment fees	241	244
Opening contract training fees	975	712
Opening classroom rentals, parking and other deferrals	169	204
Total opening deferred revenue	1,385	1,160
Tution and commitment fees received	3,085	2,979
Contract training fees received	1,659	1,224
Classroom rentals, parking and other revenue received	589	244
Total received	5,333	4,447
Tuition and commitment fees recognized	(2,987)	(2,982)
Contract training fees recognized	(1,640)	(961)
Classroom rentals, parking and other deferrals recognized	(475)	(279)
Total recognized	(5,102)	(4,222)
Ending tuition and commitment fees	339	241
Ending contract training fees	994	975
Ending classroom rentals, parking and other deferrals	283	169
	1,616	1,385

8. Long-term Debt

	2008	2007
Loan payable to Province of Manitoba at the rate of 4.75%, due in 2017, repayable in monthly instalments of $11,193 principal and interest.	967,413	1,060,533
Less amounts due within one year included in current liabilities	89,596	93,120
	877,817	967,413

8. Long-term Debt (continued)

Principal repayments for the next five years and thereafter are as follows:

2009	89,596
2010	93,946
2011	98,507
2012	103,289
2013	108,304
Thereafter	384,175
	877,817

9. Accrued Severance Liability

The service to date obligation is calculated based on an actuarial report as at March 31, 2005. The calculations used in the actuarial report to determine the liability outstanding as at March 31, 2005 are applied to the current year to determine the estimated accrued severance liability at June 30, 2008.

10. Deferred Contributions Related to Capital Assets

Deferred contributions related to capital assets represent the unamortized portion of contributed capital assets and restricted contributions received from the Manitoba Council for Post-Secondary Education that were used to purchase the College's capital assets. Recognition of these amounts as revenue is deferred to periods when the related capital assets are amortized.

	2008	2007
Net book value, beginning of year	**2,787**	2,845
Add: Capital contributions during the year		
Government grant	**1,065**	695
Add: Donations in kind	**132**	262
Less: Current year amortization	**(982)**	(1,015)
Net book value, end of year	**3,002**	2,787

Appropriations	-	-	-	-
Withdrawals	-	-	-	-
Ending balance	**435**	**64**	**341**	**840**

12. Grants

	2008	2007
Grants Received	**21,058**	19,733
Add:		
10% rebate	**4**	-
Less:		
Deferred capital contributions	**(1,095)**	(930)
	19,967	18,803
Represented by:		
Base	**19,483**	18,538
Market Driven Training	**265**	265
Continuing Studies	**219**	-
	19,967	18,803

13. Pension Costs and Obligations

The College's employees are eligible for membership in the Civil Service Superannuation Plan operated by the Province of Manitoba. Although this is a defined benefit pension plan, any experience gains or losses determined by actuarial valuations are the responsibility of the Province of Manitoba. Accordingly, no disclosure has been made in the financial statements relating to the effects of participation in the pension plan by the College and its employees. Effective October 1, 2002, the College is responsible for paying their portion of the current pension costs on behalf of all employees enrolled in the Civil Service Superannuation Plan.

14. Related Party Transactions

During the year the College provided a grant of 7,850 (2007 - 7,850) to Assiniboine Community College Foundation Inc. (in actual $), a grant of 5,000 (2007 - 8,500) to Assiniboine Campus Radio Society Inc. (in actual $), and a grant of 17,600 (2007 - 17,600) to the student association (in actual $). Transactions with the Assiniboine Community College Foundation Inc., Assiniboine Campus Radio Society Inc., and the Assiniboine Community College Student Association are measured at the exchange amount. The above entities are not controlled or significantly influenced by the College and are governed by their own Board of Directors. There were no intercompany payables or receivables outstanding at fiscal year-end.

15. Commitments

The College has entered into various leases for classroom space, office equipment and a maintenance agreement for the Colleague computer system. The following represents the future payments:

2008/09	353
2009/10	329
2010/11	204

16. Economic Dependence

The College presently receives annual funding of approximately 21,057,504 (19,732,821 in 2007) from the Province of Manitoba to finance operations and capital acquisitions (in actual $). Without such funding, future viability of the College is not assured. Transactions with the Province of Manitoba are measured at the exchange amount.

17. Income Taxes

The College is exempt from income taxes.

18. Surplus Restatement Adjustment

A loan to the Province of Manitoba that was used to purchase capital assets was recorded as an Operating Fund loan in the prior year. As this loan was utilized to purchase capital assets, the loan was moved to the Capital Fund in the current year and out of operating surplus, resulting in a decrease in Invested in Capital Assets of 1,061 and an increase in Unrestricted Net Assets of 1,061. A transfer from Unrestricted Net Assets to Invested in Capital Assets will occur each year for the principle repayment on this loan.

19. Prior Year's Figures

The prior year's figures have been adjusted to conform to the current year's presentation standards.

20. Consolidation

The activities of the Assiniboine Community College Foundation Inc. and the Assiniboine Campus-Radio Society Inc. have not been consolidated with the accounts of Assiniboine Community College. The above entities are not controlled or significantly influenced by the College and are governed by their own Board of Directors. The effect of these entities on the financial statements of the College, had these entities been consolidated, would be as follows (in actual dollars):

	Increase (Decrease)
Cash	38,136
Accounts receivable	34,111
Prepaid expenses	2,752
Other assets	1,017
Investments	1,381,314
Equipment	3,248
Accounts payable	5,716
Deferred revenue	34,156
Deferred contributions	541,559
Unrestricted net assets	(12,124)
Endowment funds	888,023
Invested in capital assets	3,248
Revenue	514,842
Expenditures	520,375

THE BOARD OF ADMINISTRATION UNDER THE EMBALMERS AND FUNERAL DIRECTORS ACT

MANAGEMENT REPORT

December 31, 2008

The accompanying financial statements are the responsibility of the Board and have been prepared in accordance with Canadian generally accepted accounting principles. In the Board's opinion, the financial statements have been properly prepared.

As the Board is responsible for the integrity of the financial statements, the Board has established systems of internal control to provide assurance that assets are properly accounted for and safeguarded from loss and that revenues are complete.

Susan Boulter Chairperson	E.C. Norrington C.A. Accountant

March 16, 2009

III – AUDITORS' REPORT

OFFICE OF THE
AUDITOR GENERAL
MANITOBA

AUDITORS' REPORT

To the Legislative Assembly of Manitoba
To the Board of Directors under the Embalmers and Funeral Directors Act

We have audited the statement of financial position of the Board of Administration under the Embalmers and Funeral Directors Act as at December 31, 2008 and the statements of operations and changes in unrestricted net assets and cash flows for the year then ended. These financial statements are the responsibility of the Board's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Board as at December 31, 2008, and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

THE BOARD OF ADMINISTRATION
UNDER THE FUNERAL DIRECTORS AND EMBALMERS ACT

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2008

1) Nature of Operations

The Funeral Directors and Embalmers Act established The Board of Administration (The Board) to licence and regulate Funeral Directors and Embalmers and to prescribe the courses of training and instruction for articling students.

2) Significant Accounting Policies:

a. General

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles (GAAP) for not-for-profit organizations.

b. New Accounting Policies Adopted

Effective April 1, 2008 the Board adopted the following new accounting standards issued by the Canadian Institute of Chartered Accountants (CICA).

i. Sections 3862 and 3863 Financial Instruments - Disclosures and Presentation

The CICA has issued two new standards, CICA 3862: *Financial Instruments - Disclosures* and CICA 3863: *Financial Instruments - Presentation*, which enhance the abilities of users of financial statements to evaluate the significance of financial instruments to an entity, related exposures and the management of these risks. CICA eliminated the requirement for not-for-profit entities to adopt these sections. The Board has continued to apply Section 3861 "*Financial Instruments - Disclosure and Presentation*" in place of sections 3862 and 3863.

ii. Section 1535 Capital Disclosures

Section 1535 establishes standards for disclosing information about an entity's capital and how it is managed. These standards require an entity to disclose its objectives, policies and processes for managing capital, a summary of quantitative data about what it manages as capital and whether it complied with any externally imposed capital requirements to which it is subject and, if not, the consequences of such non-compliance. The adoption of this revised standard had no material impact on the Board's financial statements for the year ended December 31, 2008. (note 6)

c. Financial Instruments

Financial assets and liabilities are initially recorded at fair value. Measurement in subsequent periods depends on the financial instrument's classification. Financial instruments are classified into one of the following five categories: held for trading; available for sale; held to maturity; loans and receivables; and other financial liabilities. All financial instruments classified as held for trading or available for sale are subsequently measured at fair value with any change in fair value recorded in net earnings and net assets, respectively. All other financial instruments are subsequently measured at amortized cost. The financial assets and liabilities of the Board are classified and measured as follows:

Financial Asset/Liability	Category	Subsequent measurement
Cash	Held for trading	Fair value
Interest Receivable	Loans and receivables	Amortized Cost
Investments	Held for trading	Fair value
Accounts Payable and Accrued Liabilities	Other financial liabilities	Amortized Cost

Gains and losses on financial instruments subsequently measured at amortized cost are recognized in the statement of operations in the period the gain or loss occurs. Changes in fair value on the financial instruments classified as held for trading are recognized in the statement of operations for the current period. Changes in fair value on financial instruments classified as available for sale are recorded in the statement of changes in unrestricted net assets until realized, at which time they are recorded in the statement of operations.

Fair value of financial instruments

The fair value of a financial instrument is the estimated amount that the Board would receive or pay to settle a financial asset or financial liability as at the reporting date.

Due to the redeemable nature of cash, carrying value is considered to be fair value.

The carrying values of short-term investments approximate their fair values due to the relatively short period to maturity. The carrying values of long-term investments approximate their fair values based on recent investment transactions.

The fair values of interest receivable and accounts payable and accrued liabilities approximate their carrying values due to their short term maturity.

Unless otherwise noted, it is management's opinion that the entity is not exposed to significant interest, currency or credit risk arising from these financial instruments.

d. Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingencies at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

e. Revenue Recognition

The Board recognizes revenue for Funeral Home Licences and Funeral Director and Embalmer Licenses on an accrual basis. Any license fees which are received prior to December 31 and are applicable to the subsequent fiscal year are recorded as deferred revenue.

f. Contributed Services

During the year, the Province of Manitoba provided the services of administrative and accounting staff to the Board at no cost. Because of the difficulty in estimating the fair value of such services, no contributed services are recognized in these financial statements.

g. Future Accounting Policy Changes

Not-For-Profit Organizations

The CICA amended a number of standards applicable to not-for-profit organizations (NFPOs) and issued new standard, CICA 4470 *Disclosures of Allocated Expenses by Not-For-Profit Organizations*.

CICA 4400 *Financial Statement Presentation by Not-For-Profit Organizations* was amended to:

- eliminate the requirement to treat net assets invested in capital assets as a separate component of net assets and, instead, permit a not-for-profit organization to present such an amount as a category of internally restricted net assets when it chooses to do so;

- clarify that revenues and expenses must be recognized and presented on a gross basis when a not-for-profit organization is acting as a principal in transactions;
- make Section 1540 *Cash Flow Statements* applicable to NFPOs; and

- make Section 1751 *Interim Financial Statements* applicable to NFPOs that prepare interim financial statements in accordance with GAAP.

Section 4430 *Capital Assets Held by Not-For-Profit Organizations* was amended to provide additional guidance with respect to the appropriate use of the scope exemption for smaller entities.

Section 4460 *Disclosure of Related Party Transactions by Not-For-Profit Organizations* was amended to make the language in Section 4460 consistent with Section 3840 Related Party Transactions.

New Section CICA 4470 *Disclosure of Allocated Expenses by Not-For-Profit Organizations* establishes disclosure standards for not-for-profit organizations that choose to classify their expenses by function and allocate expenses from one function to another. The main features of the new section are:

- a requirement for an entity that allocates its fundraising and general support expenses to other functions to disclose the policies adopted for the allocation of expenses among functions, the nature of the expenses being allocated and the basis on which such allocations have been made; and

- a requirement for an entity to disclose the amounts allocated from each of its fundraising and general support functions and the amounts and functions to which they have been allocated.

These new requirements are effective January 1, 2009 and will only require additional disclosure in the financial statements.

3) Investments

Investments are invested in Guaranteed Investment Certificates (GICs) with various maturities and interest rates as follows:

	2008	2007
i.) CIBC Flexible GIC Maturity Date: January 9, 2009 Interest Rate 3.25%	$33,466	
ii.) CIBC Cashable Escalating Rate GIC Maturity Date: January 5, 2010 Interest Rate 3.10% , cashable at option of holder		$16,232
iii.) CIBC Cashable Escalating Rate GIC Maturity Date: January 5, 2009 Interest Rate 3.50%, cashable at option of holder		15,000
iv.) CIBC Non-Cashable Escalating Rate GIC Maturity Date: January 5, 2010 Interest Rate 3.40 %	21,954	21,954
	$55,420	$53,186

4) The Public Sector Compensation Disclosure Act

In accordance with Section 2 of *The Public Sector Compensation Disclosure Act*, the following summarizes compensation paid during the year ended December 31, 2008:

ii. No individual received compensation of $50,000 or more;
iii. The Board has no employees;
iv. The aggregate amount paid to Board members was:

	2008	2007
Honoraria, Board Members	$5,886	$7,303
Honoraria, Registrar	$10,000	$10,000

5) Related Party Transactions

The Board is related in terms of common ownership to all Province of Manitoba created Departments, Agencies, Boards and Crown Corporations. The Board enters into transactions with these entities in the normal course of operations and they are measured at the exchange rate amount agreed to by the related parties.

6) Capital Management

The Board's objective when managing capital is to maintain sufficient capital to cover its costs of operations. Capital consists only of the unrestricted net assets in the amount of $46,529 (2007 - $49,816). The Board's capital management policy is to maintain sufficient capital to meet its objectives. The Board is not subject to externally imposed capital requirements. There are no changes in the Board's approach to capital management during the period.

BRANDON UNIVERSITY

Responsibility for Financial Statements

The Office of the Vice-President (Administration & Finance) of Brandon University is responsible for the preparation and presentation of the financial statements and accompanying notes. The financial statements are prepared in conformity with the accounting policies noted in the financial statements, and are reviewed and approved by the Board of Governors. The statements are examined by the Provincial Auditor of the Province of Manitoba, whose opinion is included herein.

To fulfil its responsibility, the University maintains internal control systems to provide reasonable assurance that relevant and reliable financial information is produced.

OFFICE OF THE
AUDITOR GENERAL
MANITOBA

AUDITOR'S REPORT

To the Lieutenant Governor in Council
To the Legislative Assembly of Manitoba
To the Board of Governors of Brandon University

We have audited the statement of financial position of Brandon University as at March 31, 2009, and the statements of operations, changes in net assets and cash flow for the year then ended. These financial statements are the responsibility of the University's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the University as at March 31, 2009, and the results of its operations and its cash flow for the year then ended in accordance with Canadian generally accepted accounting principles.

Cash equivalents	986,699	940,499
	$ 4,056,026	$ 3,677,837

The accompanying notes are an integral part of these financial statements.

1. Authority and Purpose

Brandon University operates under the authority of the Brandon University Act of the Province of Manitoba. Brandon University offers undergraduate programs in arts, science, education, music, and health studies; and offers graduate programs in education, music and rural development. The University is a registered charity and is exempt from the payment of income taxes.

2. Summary of Significant Accounting Policies and Reporting Practices

A. General

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles for not-for-profit organizations.

B. Revenue Recognition

Operating grants are recognized as revenue in the period received. Revenues received for the provision of goods and services are recognized in the period in which the goods are provided or the services rendered or substantially rendered and collection is reasonably assured.

The University accounts for contributions using the deferral method. Deferred contributions are externally restricted non-capital contributions which are deferred and are recognized as revenue in the period in which the related expenses are incurred. Externally restricted amounts can only be used for the purposes designated by external parties.

Externally restricted contributions for the acquisition of capital assets having limited lives are recorded as deferred capital contributions in the period in which they are received and, when expended, are transferred to unamortized deferred capital contributions. Unamortized deferred capital contributions are recognized as earned revenue in the periods in which the related amortization expense of the funded capital asset is recorded.

C. Capital Grants

The University entered into promissory notes with the Provincial Government, for the the construction of a capital asset and for deferred maintenance projects. These will be repaid from future funding provided by the Provincial Government through the Council on Post Secondary Education (COPSE) and are, in substance, capital grants. These grants, under the deferral method of accounting, are reflected as deferred capital contributions and unamortized deferred capital contributions in the statement of financial position. The related funding from COPSE, over the terms of the promissory notes, to offset the principal payments and interest expense is excluded from the statement of operations.

D. Short Term Investments

Short term investments are recorded at fair value and are unspent operating, capital and restricted funds that are invested to generate income used to fund general operations of the University. Short term investments are classified as held for trading. These investments are acquired principally for the purpose of selling in the near term and are part of a portfolio of identified instruments that are managed together and for which there is evidence of a recent pattern of short-term profit taking. The valuation of publicly traded investments is based on quoted market bid prices at the close of business as of March 31, 2009.

E. Brandon University Foundation

Funds transferred from the Brandon University Foundation to the University are recorded as revenue in the period they were received by the University.

The accounts of the Brandon University Foundation do not form part of the financial statements of the University. The financial statements of the Foundation are audited on an annual basis.

F. Capital Assets and Collections

Capital assets purchased by the University are recorded at cost. Donated assets are recorded at the fair market value on the date received. On the disposition of a capital asset, both the cost and any accumulated amortization are removed from the accounts.

Capital assets are amortized on a straight line basis over the estimated useful lives of the assets. Amortization rates are as follows:

Buildings	50 years
Furniture & equipment	10 years
Computer equipment	5 years
Vehicles	5 years
Library collections	10 years

The capital assets include collections of works of art, gemstones and rare books which have been donated to the University. These collections are not amortized.

G. Inventories

Inventories are measured at the lower of cost and net realizable value. When circumstances which previously caused an inventory to be written down below cost no longer exists, the amount of the write-down will be reversed.

H. Pension Plan

The University contributes to the Brandon University Retirement Plan which is a trustee-administered pension plan for University employees. The pension expense is determined actuarially using the projected unit credit actuarial cost method and management's best estimates of investment performance, salary escalation, retirement ages of employees and member mortality. Actuarial gains and losses are amortized on a straight line basis over the expected average remaining service life of active employees (EARSL).

The accounts of the Brandon University Retirement Plan do not form part of the financial statements of the University. The Auditor General audits the financial statements of the Plan.

I. Employee Future Benefits

The University provides severance and retiring allowance benefits based on length of service and final earnings, payable on retirement. Accounting standards require the recognition of a liability and an expense for such employee future benefits in the period in which the employee renders service in return for the benefits. The recognition date for rendered service begins on the hiring date or the date when credited service begins, and runs until the date when full eligibility is attained. The cost of these future benefits earned by employees is determined by an actuary using the projected benefit method pro rated on service and management's best estimates for the discount rate for liabilities, the rate of salary escalation and the retirement ages of employees. The discount rate used to determine the accrued benefit obligation was determined by reference to market interest rates at the measurement date on high-quality debt instruments with cash flows that match the timing and amount of expected benefit payments. There are no assets supporting the plan benefits.

The transitional obligation arising from the adoption of the accounting standard was fully recognized as at the adoption date of April 1, 2000. Subsequent actuarial gains or losses are fully recognized in the year immediately following the year in which they arise.

J. Use of Estimates

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Significant areas requiring the use of management estimates relate to the allowance for doubtful accounts, determination of useful lives of capital assets for amortization and of the liabilities for pension and severance and retiring allowances. Actual results could differ from these estimates.

K. Financial Instruments

The financial instruments of the University consist of cash and short term investments, accounts receivable, accounts payable and accrued liabilities and long-term debt.

Initially, all financial assets and liabilities must be recorded on the Statement of Financial Position at fair value. Subsequent measurement is determined by the classification of each financial asset and liability. Under this standard, all financial instruments are classified as one of: held-for-trading; loans and receivables; held-to-maturity; available-for-sale or other liabilities. Financial assets and liabilities held-for-trading are measured at fair value with gains and losses recognized in net earnings. Financial instruments classified as held-to-maturity, loans and receivables and other liabilities are measured at amortized cost. Available-for-sale financial instruments are measured at fair value, with unrealized gains and losses recognized directly in unrestricted net assets.

The University has classified its cash and short term investments as held-for-trading which is measured at fair market value, receivables as loans and receivables which are measured at amortized cost and its accounts payable and accrued liabilities and mortgages payable as other liabilities, which are measured at amortized cost.

L. Future Accounting Policy Changes

Disclosure and Presentation of Financial Instruments
The CICA has issued two new standards, Sections 3862 Financial Instruments - Disclosures and Section 3863 Financial Instruments - Presentation. These new standards are intended to enhance the abilities of users of financial statements to evaluate the significance of financial instruments to an entity, related exposures and the management of risks.

These new sections, which were effective January 1, 2008, would require additional disclosure in the financial statements. However, the CICA subsequently amended these sections to eliminate the requirement for non-publicly accountable enterprises to adopt these sections. These entities are permitted to continue to apply Section 3861 Financial Instruments - Disclosures and Presentation in place of sections 3862 and 3863. An entity that does so must disclose this fact.

Not-For-Profit Organizations
The CICA amended a number of standards applicable to not-for-profit organizations (NFPOs) and issued new standard, CICA 4470 Disclosures of Allocated Expenses by Not-for-Profit Organizations.

CICA 4400 Financial Statement Presentation by Not-For-Profit Organizations was amended to:

- eliminate the requirement to treat net assets invested in capital assets as a separate component of net assets and, instead, permit a NFPO to present such an amount as a category of internally restricted net assets when it chooses to do so;
- clarify that revenues and expenses must be recognized and presented on a gross basis when a not-for-profit organization is acting as a principal in transactions;
- make Cash Flow Statements, Section 1540 applicable to NFPOs; and
- make Interim Financial Statements, Section 1751, applicable to NFPOs that prepare interim financial statements in accordance with GAAP.

CICA 4430 Capital Assets Held by Not-For-Profit Organizations was amended to provide additional guidance with respect to the appropriate use of the scope exemption for smaller entities.

CICA 4460 Disclosure of Related Party Transactions by Not-For-Profit Organizations was amended to make the language in Section 4460 consistent with Related Party Transactions, Section 3840.

New standard CICA 4470 Disclosure of Allocated Expenses by Not-For-Profit Organizations establishes disclosure standards for not-for-profit organizations that choose to classify their expenses by function and allocate expenses from one function to another. The main features of the new Section are:

- A requirement for an entity that allocates its fundraising and general support expenses to other functions to disclose the policies adopted for the allocation of expenses among functions, the nature of the expenses being allocated and the basis on which such allocations have been made; and
- A requirement for an entity to disclose the amounts allocated from each of its fundraising and general support functions and the amounts and functions to which they have been allocated.

These new requirements are effective April 1, 2009 and will only require additional disclosure in the financial statements.

3. Cash and Short Term Investments

Cash and short term investments are summarized as follows:

	2009	2008
Cash	$ 3,069,327	$ 2,737,338
Short term investments	10,072,890	2,856,916
	$ 13,142,217	$ 5,594,254

The fair market value of the short term investments is $10,072,890 (2008 - $2,856,916).

4. Financial Instruments

Fair Value
The fair value of cash and short term investments, accounts receivable, accounts payable and accrued liabilities approximates their carrying values due to their short term nature. The determination of the fair value of mortgages payable is not practical due to their underlying terms and conditions.

Financial Risk Management
Financial instruments are exposed to risk through the normal course of operations. These risks are managed through the University's collection procedures, investment guidelines and other internal policies, guidelines and procedures.

i) Market Risk

Market risk is the risk the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices.

Interest rate risk is the risk that fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates.

Foreign exchange risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates.

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices, other than those arising from interest rate risk or currency risk.

ii) Liquidity Risk

Liquidity risk is the risk that the University will encounter difficulty in having available sufficient funds to meet its commitments.

The cash flow of operating funds is prepared on a just in time basis. The short term funds of the University are invested so that maturity dates coincide with cash requirements. As well the University has access to a short-term line of credit with CIBC that is designed to ensure sufficient funds are available as required.

iii) Credit Risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk as at March 31 was:

	Carrying Amount	
	2009	2008
Financial assets held for trading:		
Cash and short term investments	$13,142,217	$ 5,594,254
Loans and receivables:		
Accounts receivable	1,749,472	3,547,530
Totals	$14,891,689	$ 9,141,784

The investments of the University are purchases made with excess cash intended to be for short periods of time. Short term investments are held in high quality instruments with a guaranteed credit rating of R1 or backed by an extremely strong borrower.

The credit risk from accounts receivable is relatively low as the majority of receivables are from students and the balance from government agencies. Credit risk from student receivables is managed through registration cancellations and by maintaining standard collection procedures.

There have been no substantive changes in the University's exposure to financial instrument risks, its objectives, policies and processes for managing those risks or the methods used to measure them from previous periods unless otherwise stated in this note.

5. Capital Management

The capital of Brandon University is comprised of its deferred contributions, unamortized deferred capital contributions and net assets.

The long term objective of the University is to manage the capital in such a way as to protect the value of the investments.

Restricted contributions for non-capital and capital purposes are received with externally imposed stipulations. The University has complied with the externally imposed stipulations of any capital grants or donations received and to those placed on deferred contributions.

	2009	2008
Total Liabilities	$ 5,728,955	$ 5,521,630
Total Net Assets & Deferred Contributions	$ 47,504,322	$ 47,427,977
Debt to capital ratio	12.06 %	11.64 %

There have been no significant changes to the University's capital management objectives, policies and processes in the year nor had there been any changes in what the University considers to be its capital

6. Brandon University Foundation

The Brandon University Foundation operates under the authority of the Brandon University Foundation Act. The Foundation is dedicated to promoting the advancement of higher education at Brandon University and improving the quality of its facilities and activities by raising funds for future operation and capital expenditures, research and student awards.

Brandon University Foundation is not a controlled entity of Brandon University however, in the event of the dissolution of the Foundation, after the payment of all debts and liabilities, any remaining rights, property and assets of the Foundation shall be transferred or assigned to Brandon University as long as it is at that time a charitable, non-profit corporation.

The Foundation follows the deferral method of accounting for contributions. The investments of the Foundation are recorded at fair market value. The financial position of the Foundation as at December 31 is summarized as follows:

Statement of Financial Position

	2008	2007
Assets	$34,304,979	$35,328,651
Liabilities	$ 698,040	$ 1,215,938
Deferred contributions	7,536,627	6,697,881
Net Assets		
Unrestricted and internally restricted net assets	74,090	229,700
Endowment funds	25,996,222	27,185,132
	26,070,312	27,414,832
Total Liabilities and Net Assets	$34,304,979	$35,328,651

Statement of Operations

	2008	2007
Revenue		
Realized income/(loss)	$ (65,715)	$ 2,262,558
Unrealized loss	(3,616,285)	(2,095,233)
Net investment income/(loss)	(3,682,000)	167,325
Donations	5,183,577	1,290,106
Other contributions	215,845	145,940
	1,717,422	1,603,371
Expense		
Grants to Brandon University	1,016,721	903,272
Scholarships and bursaries	828,343	802,572
Campaign expenses	9,574	36,854
Other expenses	33,090	51,244
	1,887,728	1,793,942
Net loss for the year	$ (170,306)	$ (190,571)

The net result of the transactions from January 1, 2009 to March 31, 2009 was a loss of $205,765 (2008 - $269,901 loss) and an unrealized investment loss of $984,833 (2008 - $774,738 loss).

The value of outstanding pledges to the Foundation as at March 31, 2009 is $860,544 (2008 - $544,109). These will be recorded as revenue in the Foundation when received.

7. Internally Restricted Net Assets

Internally restricted net assets represent amounts set aside by the University for the following specific purposes:

	Opening Balance	Current Provision	Purchases	2009 Closing Balance
Ancillary Services	$ 493,222	$ 168,885	$ (1,247)	$ 660,860
Mail/Print services	(26,439)	10,000		(16,439)
Presidential robes		5,976		5,976
Telephone replacement	142,469	152,628	(145,420)	149,677
Vehicle replacement	14,289	10,000		24,289
	$ 623,541	$ 347,489	$ (146,667)	$ 824,363

8. Inventories

Inventories are measured at the lower of cost and net realizable value. The year end carrying values and the amounts recognized as expense during the year were as follows:

	2009 Cost of Sales	2008 Cost of Sales	2009 Carrying Values	2008 Carrying Values
Bookstore	$ 1,361,444	$ 1,312,375	$ 357,116	$ 362,067
Food Services	655,874	595,778	40,207	40,613
Print Shop	52,127	33,053	26,115	36,373
	$ 2,069,445	$ 1,941,206	$ 423,438	$ 439,053

9. Capital Assets and Collections

	Cost	Accumulated Amortization	2009 Net Book Value	Cost	Accumulated Amortization	2008 Net Book Value
Land	$ 498,680	$	$ 498,680	$ 498,680	$	$ 498,680
Buildings	64,358,695	(33,692,752)	30,665,943	64,275,916	(32,467,722)	31,808,194
Furniture & equipment	19,407,141	(12,352,610)	7,054,531	19,002,509	(11,951,335)	7,051,174
Library collections	9,157,221	(6,513,894)	2,643,327	8,616,921	(6,055,231)	2,561,690
Collections	1,195,647		1,195,647	1,192,712		1,192,712
	$ 94,617,384	$ (52,559,256)	$ 42,058,128	$ 93,586,738	$ (50,474,288)	$ 43,112,450

Capital asset additions during the year included donations in kind in the amount of $2,935 (2008- $6,496).

10. Deferred Contributions and Unamortized Deferred Capital Contributions

Deferred contributions and deferred capital contributions represent contributions received for special purposes and unspent funds for restricted purposes. Unamortized deferred capital contributions represent the funded portion of capital assets which will be recognized as revenue in future periods and matched against the applicable amortization charged in that period. Changes in the deferred contributions, deferred capital contributions and unamortized deferred capital contributions balances are as follows:

	2009 Deferred Contributions	2009 Unamortized Deferred Capital Contributions	2008 Deferred Contributions	2008 Unamortized Deferred Capital Contributions
Balance, beginning of year as restated (Note 18)	$ 3,226,643	$ 32,987,937	$ 2,865,905	$ 34,160,208
Contributions received	11,468,862		9,222,102	
Transfers to revenue				
Tuition, grants and contributions	(6,796,156)		(7,783,334)	
Amortization of assets acquired from capital assets		(2,067,960)		(2,250,301)
Transferred to acquire capital assets	(642,687)	642,687	(1,078,030)	1,078,030
Balance, end of year	$ 7,256,662	$ 31,562,664	$ 3,226,643	$ 32,987,937
Balance consists of:				
Research	$ 2,163,827		$ 2,652,952	
Special programs	708,347		573,691	
Deferred contributions	2,872,174		3,226,643	
Deferred capital contributions	4,384,488			
	$ 7,256,662		$ 3,226,643	

11. Pension Plan

The Brandon University Retirement Plan is a final average contributory defined benefit pension plan established April 1, 1974 for the benefit of the employees of Brandon University. The assets of the Plan are held in trust in the name of ten Trustees - eight elected by and from the Plan membership and two appointed by the Board of Governors. The Trustees oversee the administration of the Plan and set forth the investment guidelines. Their obligations and responsibilities are defined in a trust agreement with Brandon University. An asset manager invests the Plan assets according to the terms of an agreement with the trustees and as required by law. The Plan is registered with the Pension Commission of Manitoba and meets the requirements of the Pension Benefits Act of Manitoba and the Income Tax Act (Canada). Unless otherwise stated, all Brandon University employees are eligible to become members of the Plan on their date of employment. Full-time and certain part-time employees are required to join the Plan. Membership is optional for other part-time and certain specified employees. The Plan receives its funds from the contributions of members, the required and special contributions of Brandon University and the income from investments.

An actuarial valuation of the plan was conducted by Eckler Ltd., a firm of consulting actuaries, as at December 31, 2007. The results of this valuation have been extrapolated by them to December 31, 2008. The next actuarial valuation is required as at December 31, 2010 and will be completed in 2011.

The defined benefit obligation has been calculated pursuant to CICA Handbook section 3461, using the projected unit credit actuarial method and assumptions developed using management's best estimates of investment performance, salary escalation, retirement ages of employees and member mortality.

The University uses a December 31, measurement date for reporting plan assets and obligations.

The actuarial present value of benefits and the fair value of plan assets, as of December 31, were as follows:

	(in thousands of dollars)	
	December 31 2008	**December 31 2007**
Accrued Benefit Obligation		
Actuarial present value of accrued pension benefits, beginning of year	$ 96,125	$ 91,657
Interest accrued on benefits	5,508	5,248
Benefits accrued	3,962	3,562
Benefits paid	(4,614)	(4,342)
Actuarial gain	846	
Plan amendments	5,814	
Actuarial present value of accrued pension benefits, end of year	$ 107,641	$ 96,125

	(in thousands of dollars)	
	December 31 2008	**December 31 2007**
Plan Assets		
Fair value, beginning of year	$ 103,956	$ 103,318
Actual return on plan assets (net of expenses)	(17,528)	1,747
Employer contributions	2,139	1,655
Employee contributions	1,588	1,494
Transfers from other plans	235	84
Benefits paid	(4,614)	(4,342)
Fair value, end of year	$ 85,776	$ 103,956

	(in thousands of dollars)	
	December 31 2008	**December 31 2007**
Pension Liability		
Accrued benefit obligation	$ (107,641)	$ (96,125)
Plan assets	85,776	103,956
Plan surplus/(deficit)	(21,865)	7,831
Unamortized plan amendments	5,814	
Unamortized net actuarial (gains)/losses	16,051	(7,831)
Pension liability	$ -	$ -

	(in thousands of dollars) December 31	 December 31
Pension Liability		
Pension liability, beginning of year	-	-
Employer contributions	(2,139)	(1,655)
Net benefit plan expense	2,139	1,655
Pension, Liability, end of year	$ -	$ -

	(in thousands of dollars) December 31 2008	 December 31 2007
Current service cost, net of employee contributions	$ 2,139	$ 1,984
Interest accrued on benefits	5,508	5,248
Expected return on plan assets	(5,959)	(5,909)
Amortization of actuarial loss	451	4,162
Decrease in valuation allowance		(3,830)
Net benefit plan expense	$ 2,139	$ 1,655
Significant Long Term Actuarial Assumptions		
Discount rate	5.75 %	5.75 %
Expected rate of return on assets	5.75 %	5.75 %
Rate of general salary increase	4.0 %	4.0 %

The unamortized net actuarial losses will be amortized over the expected average remaining service life which is 10 years, starting in the 2009-10 fiscal year.

As a result of negotiations in the collective agreement between Brandon University and the Brandon University Faculty Association (BUFA) the plan improved the normal form of the pension for members who have a spouse at retirement, increased the maximum pension from $1722 per year of credited service to $1975 per year of credited service and increased member contributions by 0.5% of salary. These plan amendments are reflected in the pension obligation as at December 31, 2008.

Solvency Deficiency Exemption

The Brandon University Retirement Plan is subject to the Manitoba Pension Benefits Act and Regulations. The University Pension Plans Exemption Regulation 141/2007 allows the University to make an election to be exempt from solvency and transfer deficiency payments. "2(1) an employer in relation to a university plan may, by filing an election with the plan administrator, elect to be exempt from the solvency and transfer deficiency provisions." On January 19, 2009 the University filed such an election.

Funding of Going-Concern Deficiencies

With the exemption, the Plan will continue to be subject to the going-concern funding provisions of the Act. The University will be required to fund the matching contributions, as well as the actuarial cost of the defined benefits in excess of the matching costs, if applicable, and any funding deficits will have to be funded over a maximum of 15 years. The next going-concern valuation will be performed as at December 31, 2010 and will be completed in 2011.

12. Long Term Liabilities

Mortgages Payable	2009	2008
Darrach Hall & Flora Cowan Hall Canada Mortgage and Housing Corporation 5 1/8% mortgage, $41,608 combined principal and interest payable semi-annually July 1 and January 1 to 2012.	$ 263,565	$ 330,682
McMaster Hall Canada Mortgage and Housing Corporation 8 1/4% mortgage, $66,686 combined principal and interest payable semi-annually April 1 and October 1 to 2021.	1,051,557	1,095,442
	1,315,122	1,426,124
Current portion of long term debt	118,181	111,002
	$ 1,196,941	$ 1,315,122
Interest expense	$ 105,585	$ 112,306

Principal payments in the next five years are as follows:

2010	$ 118,181
2011	$ 125,852
2012	$ 134,050
2013	$ 101,217
2014	$ 65,745

13. Brandon Centennial Auditorium Corporation Inc.

Under an arrangement between the University, the Province of Manitoba and the City of Brandon, the University built an Auditorium on its property for the benefit of the citizens of Western Manitoba. The expenditures for the building and furnishings were financed from contributions by the Governments of Canada and Manitoba, the City of Brandon and citizens through fundraising campaigns.

The Auditorium has been leased to the Brandon Centennial Auditorium Corporation Inc. for a nominal consideration of $1 under a 99 year lease which expires 2064 A.D. The University is reimbursed for services supplied to the auditorium as required by the agreement.

14. Knowles-Douglas Student Union Centre

The Knowles-Douglas Student Union Centre has been leased to the Knowles- Douglas Student Union Centre Inc. for the nominal consideration of $1 per year under a 50 year lease which expires 2035 A.D. The University supplies certain services to the Centre as required by the lease.

15. Contractual Obligations

An agreement between the University and the Brandon University Students' Union Inc. provides for the equal sharing of profits of the University's bookstore operations. The Students' Union share of profits amounted to $25,349 for the year ended March 31, 2009 (2008 - $32,752).

16. Employee Future Benefits

Brandon University provides certain severance and retiring allowance benefits payable upon retirement. An actuarial valuation, using the accrued benefit method, to determine the value of severance pay and retiring allowance benefits is carried out every four years. The most recent actuarial valuation was as at March 31, 2009 with the next valuation due at at March 31, 2013.

The accrued benefit liability for employee future benefits is reported in the University's Statement of Financial Position under accounts payable and accrued liabilities.

Information about the University's employee future benefits is as follows:

	2009	2008
Accrued benefit liability	$ 1,016,000	$ 893,000
Accrued benefit obligation	1,002,000	950,000
Unamortized actuarial (gain)/loss	$ 14,000	$ (57,000)
Net benefit cost	$ 151,000	$ 105,000
Employer's contributions	28,000	93,000
Benefits paid	28,000	(58,000)

The significant actuarial assumptions adopted in measuring the University's accrued benefit liability and benefit costs are as follows:

	2009	2008
Discount rate (accrued benefit obligation)	7.0%	5.5%
Rate of compensation increase (weighted average)	5.3%	5.4%

17. Disclosure and Presentation of Financial Instruments

The University continues to apply Section 3861 Financial Instruments - Disclosure and Presentation in place of Sections 3862 and 3863.

18. Restatement

The calculation of building amortization has been adjusted to a 50 year straight line basis. Previously, the calculation had been a combination of straight line and declining balance. As a result of this adjustment, to restate all prior periods for a total adjustment to capital assets and collections of $2,440,522, the following adjustments have been made retroactively:

	Unamortized Deferred Capital Contributions	
	2008	2007
Balances, as previously reported March 31	$30,983,780	$32,156,051
Adjustment to unamortized deferred capital contributions	2,004,157	2,004,157
Restated balances, March 31	$32,987,937	$34,160,208

	Investment in Capital Assets	
	2008	2007
Balances, as previously reported March 31	$ 8,262,026	$ 7,259,192
Adjustment to internally funded capital assets	436,365	282,240
Restated balances, March 31	$ 8,698,391	$ 7,541,432

19. Change in Accounting Policy

In prior years, actuarial gains and losses related to the determination of the expense for the pension liability were recognized in the year they occurred. This fiscal year, actuarial gains and losses will be deferred and amortized over the expected average remaining service life (EARSL) of active employees of active employees covered by the plan. EARSL for the Brandon University Pension Plan is 10 years. This change in accounting policy is applied prospectively as it is not practicable to determine the cumulative effect on prior periods.

20. Comparative Figures

Comparative figures for the year ended March 31, 2008 have been reclassified where necessary to conform with the presentation adopted for the year ended March 31, 2009.

AUDITORS' REPORT

To the Members of CancerCare Manitoba

We have audited the statement of financial position of CancerCare Manitoba as at March 31, 2009 and the statements of operations and changes in fund balances and cash flows for the year then ended. These financial statements are the responsibility of the organization's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the organization as at March 31, 2009 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Cash and short-term investments, end of year	$ 11,169,059	$ –	$ 214,035	$ 11,383,094	$ 11,093,213
Cash and short-term investments are comprised of:					
Cash	$ 9,680,494	$ –	$ 11,675	$ 9,692,169	$ 6,873,853
Short-term investments	1,488,565	–	202,360	1,690,925	4,219,360
Cash and short-term investments, end of year	$ 11,169,059	$ –	$ 214,035	$ 11,383,094	$ 11,093,213

See accompanying notes to financial statements.

1. Purpose of the organization:

CancerCare Manitoba (the organization) is an agency established under the *CancerCare Manitoba Act*. The organization maintains and co-ordinates a province-wide program for cancer prevention, diagnosis, treatment, education and research.

The organization is a registered charity under the *Income Tax Act* and, accordingly, is exempt from income taxes provided certain requirements of the *Income Tax Act* are met.

2. Significant accounting policies:

The financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles.

(a) Fund accounting:

The organization follows the deferral method of accounting for contributions.

The General Fund accounts for the organization's revenues and expenses related to program delivery and administrative activities. In fiscal 2009, the organization internally restricted $2,000,000 for future expansion.

The Capital Fund reports the assets, liabilities, revenues and expenses related to the organization's building expansion, renovations and equipment acquisitions.

Effective April 1, 2008, the organization transferred the General Fund's balance of capital assets ($9,401,607), deferred contributions related to capital assets ($8,986,032) and invested in capital assets fund balance ($415,575) to the Capital Fund in order to consolidate all capital asset activity within the Capital Fund. During fiscal 2009, the General Fund received $255,126 in funding for the invested in capital assets fund balance, which was transferred to the Capital Fund as deferred contributions related to capital assets.

The Clinical, Basic Research and Special Projects Fund reports grants received for specific clinical and basic research projects undertaken by the organization. Externally restricted funds are held for research projects, education purposes and other specific purposes. Internally restricted funds represent funds that the organization has designated for specific purposes.

(b) Revenue recognition:

Restricted contributions are recognized as revenue in the appropriate fund in the year in which the related expenses are incurred. Unrestricted contributions are recognized as revenue in the appropriate fund when received if the amount to be received can be estimated and collection is reasonably assured.

2. Significant accounting policies (continued):

Restricted and unrestricted investment income is recognized as revenue of the appropriate fund in the year in which the income was earned, unless transferred to deferred contributions related to expenses of future periods. Investment income includes interest income, change in unrealized gains or (losses) on investments and realized gains on investments.

Grant revenue is recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

(c) Financial instruments:

All financial instruments are classified as one of: (a) held-for-trading; (b) loans and receivables; (c) held-to-maturity; (d) available for sales; or (e) other liabilities. Financial assets and liabilities held-for-trading are measured at fair value with gains and losses recognized in investment income. Financial instruments classified as held-to-maturity, loans and receivables and other liabilities are measured at amortized cost. Available-for-sale financial instruments are measured at fair value, with unrealized gains and losses recognized directly in fund balances.

The organization has designated cash, restricted cash, short-term investments and investments as held-for-trading; due from Manitoba Health, accounts receivable, vacation entitlements receivable, and retirement entitlement obligation receivable as loans and receivables; and accounts payable and accrued liabilities and due to Manitoba Health as other liabilities. The organization has neither available-for-sale nor held-to-maturity instruments.

Except for held-for-trading designated financial instruments, transaction costs that are directly attributable to the acquisition of financial assets or liabilities are accounted for as part of the respective asset or liability's carrying value at inception and amortized over the expected life of the financial instrument using the effective interest method. For held-for-trading financial assets and liabilities, transaction costs are recorded in the statement of operations and changes in fund balances as incurred.

(d) Investments:

Short-term and long-term investments (investments) are classified as held-for-trading and are carried at fair value. Fair value of investments is determined based on period end quoted market prices. Unrealized gains or losses on investments, representing the change in the difference between the fair value and the cost of investments at the beginning and end of each year, are reflected in investment income in the statement of operations and changes in fund balances.

2. Significant accounting policies (continued):

(e) Capital assets:

Purchased capital assets are recorded at cost. Incremental interest incurred during the construction of capital assets is included in cost. Contributed capital assets are recorded at fair value at the date of contribution.

Amortization is recorded on a straight-line basis over the assets' estimated useful lives, which for equipment is 3 to 20 years. Amortization of the building is recorded on a straight-line basis over 40 years.

(f) Contributed services:

A number of volunteers contribute a significant amount of their time each year. Because of the difficulty of determining their fair value, contributed services are not recognized in the financial statements.

(g) Future employee benefits:

Retirement entitlement obligations are accrued as earned based on an actuarial estimation and vacation entitlement benefits are accrued as employees earn the benefits. Due to the nature of the benefits, the retirement entitlement obligation receivable and payable are classified as long-term whereas the vacation entitlements receivable and payable are classified as current.

(h) Deferred contributions:

Debt owing to the Province of Manitoba and external lenders is reflected as deferred contributions in the statement of financial position. The related revenue earned from Manitoba Health to offset the interest expense and the related interest expense are both excluded from the statement of operations and changes in fund balances.

(i) Use of estimates:

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates.

3. Recent accounting pronouncements issued and not yet applied:

The Canadian Institute of Chartered Accountants (CICA) issued the following accounting standards that will come into effect for the organization's fiscal year ending March 31, 2010. The organization is in the process of determining the impact that these standards will have on its financial reporting upon adoption on April 1, 2009.

(a) Financial Instruments - Disclosures and Presentation:

Sections 3862 - *Financial Instruments - Disclosures* and 3863 - *Financial Instruments - Presentation* were to replace the existing Section 3861 - *Financial Instruments - Disclosure and Presentation*. These new sections revise and enhance disclosure requirements, and carry forward, unchanged, existing presentation requirements. These new sections require disclosures about the nature and extent of risks arising from financial instruments and how the entity manages those risks. However, the CICA subsequently amended these sections to eliminate the requirement for not-for-profit entities to adopt these sections. Not-for-profit entities are permitted to continue to apply Section 3861 in place of Section 3862 and 3863. An entity that does so must disclose this fact.

(b) Not-for-Profit Organizations:

In September 2008, a number of standards applicable to not-for-profit organizations were amended and new Section 4470 - *Disclosures of Allocated Expenses by Not-for-Profit Organizations*, was issued. Section 4470 requires entities that make allocations of general support and fundraising costs to other functions to disclose the policies adopted for the allocation of expense among functions, the nature of the expenses being allocated, the basis on which such allocations have been made, and the functions to which they have been allocated. In addition, the amendments to the not-for-profit organization standards include clarification of the treatment of internal and external restrictions on net assets; and improved guidance related to the application of the GAAP hierarchy, capital assets standards and statement of cash flows.

4. Restricted cash:

As at March 31, 2009, the organization has restricted cash of $2,000,000 (2008 – nil) for future expansion and $1,825,687 (2008 - nil) for future payment of retirement entitlement obligations.

5. Manitoba Health funding:

(a) In-globe funding:

In-globe funding is funding approved by Manitoba Health for the organization's operations unless otherwise specified as out-of-globe funding. All costs must be absorbed from within the global funding provided.

The portion of an operating surplus that exceeds 2 percent of the in-globe funding is recorded in the statement of financial position as a payable to Manitoba Health until such time as Manitoba Health reviews the financial statements. At that time, Manitoba Health determines what portion of the surplus may be retained by the organization, or repaid to Manitoba Health.

Under Manitoba Health policy, the organization is responsible for in-globe deficits, unless otherwise approved by Manitoba Health.

(b) Out-of-globe funding:

Out-of-globe funding is funding approved by Manitoba Health for specific programs such as medical remuneration, Provincial Oncology Drug Program approved drug costs, and capital and interest costs.

Any operating surplus related to out-of-globe funding arrangements is recorded in the statement of financial position as a payable to Manitoba Health until such time as Manitoba Health reviews the financial statements. At that time, Manitoba Health determines what portion of the approved surplus may be retained by the organization or repaid to Manitoba Health.

Conversely, any operating deficit related to out-of-globe funding arrangements is recorded in the statement of financial position as a receivable from Manitoba Health until such time as Manitoba Health reviews the financial statements. At that time, Manitoba Health determines their final funding approvals which indicate the portion of the deficit that will be paid to the organization. Any unapproved costs not paid by Manitoba Health are absorbed by the organization.

5. Manitoba Health funding (continued):

At March 31, 2009, the organization had a balance of $2,974,655 (2008 - $1,998,136) payable to Manitoba Health, representing repayment of 2008 out-of-globe medical remuneration and 2009 Provincial Oncology Drug Program costs and a balance of $2,620,442 (2008 - $3,166,482) receivable from Manitoba Health as follows:

	2009	2008
Out-of-globe 2008/2009	$ 881,938	$ –
Out-of-globe 2007/2008	–	908,326
Colorectal screening program	343,844	–
Wait time funding	792,988	350,163
Approved capital funding	555,092	1,778,936
Other	46,580	129,057
	$ 2,620,442	$ 3,166,482

6. Accounts receivable:

			2009	2008
	General Fund	Clinical, Basic Research and Special Projects Fund	Total	Total
CancerCare Manitoba Foundation Inc. (note 17)	$ –	$ 4,399,620	$ 4,399,620	$ 5,019,338
Winnipeg Regional Health Authority	–	275,862	275,862	136,614
Government of Canada	–	107,923	107,923	57,563
University of Manitoba		183,198	183,198	102,190
University Medical Group	–	–	–	1,537,232
Other	68,932	960,428	1,029,360	507,891
	$ 68,932	$ 5,927,031	$ 5,995,963	$ 7,360,828

7. Retirement entitlement obligation receivable:

The organization has a contractual commitment to pay out to employees four days per year of service upon retirement. At March 31, 2009, based on an actuarial estimate, the retirement entitlement obligations are estimated to be approximately $3,294,572 (2008 - $2,742,612) for which the organization has recorded retirement entitlement obligations on the statement of financial position (note 16).

7. Retirement entitlement obligation receivable (continued):

The amount of funding which will be provided by Manitoba Health for these retirement entitlement benefits was initially determined based on the retirement entitlement obligations at March 31, 2004, and was recorded as retirement entitlement obligation receivable from Manitoba Health. Since fiscal 2004, the organization receives in-globe funding on an annual basis from Manitoba Health, which includes funding for the change in retirement entitlement obligations and retirement entitlement payments in the year, including an interest component on the retirement entitlement obligation receivable. The retirement entitlement obligation receivable from Manitoba Health aggregates $1,419,400 (2008 - $1,419,400) and has no specific terms of repayment.

The fair value of the retirement entitlement obligation receivable from Manitoba Health approximates its carrying value as the interest component is comparable to current market rates.

8. Capital assets:

			2009	2008
	Cost	Accumulated amortization	Net book value	Net book value
Capital Fund:				
Building	$ 60,762,927	$ 11,957,834	$ 48,805,093	$ 50,320,883
Equipment	30,668,588	19,352,718	11,315,870	13,380,555
Construction in progress (note 13)	2,117,689	–	2,117,689	–
	93,549,204	31,310,552	62,238,652	63,701,438
Clinical, Basic Research and Special Projects Fund:				
Equipment	3,013,840	2,040,696	973,144	1,303,309
	$ 96,563,044	$ 33,351,248	$ 63,211,796	$ 65,004,747

Interest capitalized during construction was nil (2008 - $39,334).

9. Deferred contributions:

(a) Expenses of future periods:

Deferred contributions related to expenses of future periods represent contributions for specific projects and other purposes.

	2009	2008
Balance, beginning of year	$ 1,849,144	$ 1,887,505
Add amount received related to future periods	1,849,393	1,039,381
Add General Fund investment income transferred to deferred contributions - expenses of future periods	661,184	–
Less amounts transferred to deferred contributions - capital assets	(1,383,375)	(1,077,742)
	$ 2,976,346	$ 1,849,144

During 2009, the organization elected to transfer unrestricted investment income in the General Fund of $661,184 (2008 – nil) to deferred contributions - expenses of future periods.

(b) Capital assets:

Deferred contributions related to capital assets represent the unamortized amount and unspent amount of contributions and grants received for the purchase of capital assets. The amortization of deferred contributions is recorded as revenue in the statement of operations.

	2009	2008
Balance, beginning of year	$ 65,505,228	$ 66,404,456
Additional contributions received	2,749,440	3,717,293
Add amounts transferred from deferred contributions - expenses of future periods	1,383,375	1,077,742
Less amounts amortized to revenue	(5,622,103)	(5,694,263)
	$ 64,015,940	$ 65,505,228

9. Deferred contributions (continued):

The balance of unamortized capital contributions related to capital assets consists of the following:

	2009	2008
Unamortized capital asset contributions used to purchase capital assets	$ 63,189,461	$ 65,079,933
Unspent contributions	826,479	425,295
	$ 64,015,940	$ 65,505,228

Unamortized capital contributions of $64,015,940 (2008 - $65,505,228) include contributions received from Manitoba Health for the purchase of capital assets in the form of demand loans payable to the Bank of Montreal. The balances of the demand loans are as follows:

	2009	2008
Bearing interest at prime less 0.50 percent, repayable in monthly instalments of $28,765, plus interest	$ 2,817,259	$ 3,156,746
Bearing interest at prime less 0.50 percent, repayment terms to be established	1,739,093	–
Bearing interest at prime less 0.50 percent, repayment terms to be established	169,567	–
	$ 4,725,919	$ 3,156,746

9. Deferred contributions (continued):

Unamortized capital contributions of $64,015,940 (2008 - $65,505,228) also include contributions received from the Province of Manitoba to pay down third party borrowings that were utilized for the purchase of capital assets. The organization has executed promissory notes for these contributions. The promissory notes are payable to the Department of Finance of the Province of Manitoba, and the payment of these liabilities is guaranteed and funded by Manitoba Health. No further funding is expected to be received with respect to these obligations and no revenue or expense is recorded in connection with their extinguishment, except for the amortization of the deferred contributions. The balances of the promissory notes are as follows:

	2009	2008
6.25% maturing March 31, 2020, repayable in monthly instalments of $76,754, plus interest	$ 10,208,333	$ 11,129,386
Variable rate (30-day bankers' acceptance plus 25 basis points), maturing February 28, 2022, repayable in monthly instalments of $50,439, plus interest	7,868,421	8,473,684
4.80% maturing November 30, 2016, repayable in monthly instalments of $50,000, plus interest	4,600,000	5,200,000
	$ 22,676,754	$ 24,803,070

During 2005, the organization established arrangements for a bridge facility of non-revolving demand loans to a maximum of $15,000,000 to assist with the construction or expansion costs of approved projects or the acquisition of equipment and specialized equipment as approved by Manitoba Health. Interest is charged at the prime rate, repayment terms are established for each individual demand loan and the facility is secured by letters of authorization and comfort from Manitoba Health. The organization has utilized $4,725,919 of this facility as of March 31, 2009 (2008 - $3,156,746).

10. Invested in capital assets:

(a) Invested in capital assets is calculated as follows:

	2009	2008
Capital assets	$ 63,211,796	$ 65,004,747
Amounts financed by:		
Unamortized deferred contributions	(64,015,940)	(65,505,228)
Inter-fund and working capital	1,937,737	2,219,365
	$ 1,133,593	$ 1,718,884

10. Invested in capital assets (continued):

(b) Change in invested in capital assets fund balance is calculated as follows:

	2009	2008
Surplus (deficit) for the year:		
Amortization of deferred contributions related to capital assets	$ 5,622,103	$ 5,694,263
Amortization of capital assets	(6,124,991)	(6,230,441)
	$ (502,888)	$ (536,178)
Invested in capital assets:		
Purchase of capital assets	$ 4,332,040	$ 4,288,428
Amounts funded by:		
Deferred contributions	(2,749,440)	(3,717,293)
Inter-fund and working capital	(281,628)	646,965
Amount transferred from deferred contributions - expenses of future periods	(1,383,375)	(1,077,742)
	$ (82,403)	$ 140,358

11. Externally restricted fund balances:

The major category of externally imposed restrictions on fund balances is as follows:

	2009	2008
Restricted for research projects, education purposes and other specific purposes	$ 7,359,044	$ 5,202,545

12. Fair value of financial instruments:

The fair value of cash, restricted cash, due from Manitoba Health, accounts receivable, vacation entitlements receivable, accounts payable and accrued liabilities and due to Manitoba Health approximates their carrying value because of the relatively short period to maturity of the instruments.

13. Commitments:

The organization has committed to spend US $17,464,800 over a two year period commencing in 2009 to purchase four linear accelerators and the related training and software. These expenditures will be debt financed, with loan payments, principal and interest to be provided by Manitoba Health. In 2009, the organization made a deposit on the purchase of the linear accelerators of US $1,418,850 (CDN $1,739,094) which is recorded as construction in progress (note 7). As at March 31, 2009, the organization's remaining commitment is US$16,045,950.

In addition, the organization has committed to purchase a CT scanner at a cost of $920,200.

14. Contingencies - HIROC:

On July 1, 1987, a group of health care organizations (subscribers) formed Healthcare Insurance Reciprocal of Canada (HIROC). HIROC is registered as a reciprocal under provincial insurance acts, which permit persons to exchange with other persons reciprocal contracts of indemnity insurance. HIROC facilitates the provision of liability insurance coverage to health care organizations in the provinces of Ontario, Manitoba, Saskatchewan and Newfoundland. Subscribers pay annual premiums, which are actuarially determined, and are subject to assessment for losses in excess of such premiums, if any, experienced by the group of subscribers for the years in which they were a subscriber. No such assessments have been made to March 31, 2009.

15. Economic dependence:

The organization received approximately 79 percent (2008 - 82 percent) of its total revenue from Manitoba Health and is economically dependent on Manitoba Health for continued operations.

16. Employee future benefits:

(a) Retirement entitlement obligations:

The organization has a contractual commitment to pay out to employees four days per year of service upon retirement if the employee complies with one of the following conditions:

(i) have ten years service and have reached age 55; or

(ii) qualify for the "eighty" rule which is calculated by adding the number of years of service to the age of the employee; or

16. Employee future benefits (continued):

(iii) retire at or after age 65; or

(iv) terminate employment at any time due to permanent disability.

The organization undertook an actuarial valuation of the accrued retirement entitlements as at March 31, 2009. The significant actuarial assumptions adopted in measuring the organization's accrued retirement entitlements include mortality, disability and withdrawal rates, a discount rate of 6.7 percent (2008 - 5.50 percent) and a rate of salary increase of 3.5 percent plus age-related merit/promotion scale (2008 - rate of salary increase of 3.5 percent plus age related merit/promotion scale). The actuarial valuation established the retirement entitlement obligations in the amount of $3,294,572 (2008 - $2,742,612) (note 6).

(b) Pension plans:

Most of the employees of the organization are members of the Healthcare Employees Pension Plan - Manitoba (the Plan), which is a multi-employer defined benefit pension plan available to all eligible employees. Plan members will receive benefits based on the length of service and on the average annualized earnings calculated on the best five of the eleven consecutive years prior to retirement, termination or death, that provide the highest earnings. The costs of the benefit plan are not allocated to the individual entities within the related group. As a result, individual entities within the related group are not able to identify their share of the underlying assets and liabilities. Therefore, the Plan is accounted for as a defined contribution plan in accordance with the requirements of the Canadian Institute of Chartered Accountants' Handbook, Section 3461.

Pension assets consist of investment grade securities. Market and credit risk on these securities are managed by the Plan by placing Plan assets in trust and through the Plan investment policy. Pension expense is based on Plan management's best estimates, in consultation with its actuaries, of the amount, together with the 5 percent of basic annual earnings up to the Canada Pension Plan ceiling contributed by employees, required to provide a high level of assurance that benefits will be fully represented by fund assets at retirement, as provided by the Plan. The funding objective is for employer contributions to the Plan to remain a constant percentage of employee contributions.

16. Employee future benefits (continued):

Variances between actuarial funding estimates and actual experience may be material and any differences are generally to be funded by the participating members or through a reduction of benefits. The most recent actuarial valuation of the Plan as at December 31, 2007, reported that the Plan had a solvency deficiency. This deficiency will be funded by special payments out of current contributions. Any contribution deficiencies in the plan would be addressed through pension benefit reductions or contribution rate increases from the participating members.

Actual contributions to the Plan made during the year by the organization on behalf of its employees amounted to $2,493,132 (2008 - $2,150,506) and are included in the statement of operations and changes in fund balances. Contribution rates increased on July 1, 2007 to 6.8 percent of pensionable earnings up to the yearly maximum pensionable earnings limit (YMPE) and 8.4 percent on earnings in excess of the YMPE.

Some of the employees of the organization are eligible for membership in the provincially operated Civil Service Superannuation Plan. The pension liability for organization employees is included in the Province of Manitoba's liability for Civil Service Superannuation Fund. Accordingly, no provision is required in the financial statements relating to the effects of participating in the Civil Service Superannuation Plan by the organization and its employees. No contributions were made during 2009 or 2008 by the organization to the Civil Service Superannuation Plan on behalf of its employees.

17. CancerCare Manitoba Foundation Inc.:

The organization has an economic interest in CancerCare Manitoba Foundation Inc. (CCMF Inc.). At March 31, 2009, net resources of CCMF Inc. amounted to $28,665,850, of which $9,039,278 are restricted contributions. CCMF Inc.'s purpose is to support the organization in its provision of a program of diagnosis of, treatment of, and research in respect of cancer. CCMF Inc. will solicit, receive, maintain and accumulate funds for distribution on a periodic basis to the organization, to support principally research activities that are supplementary to those funded by Manitoba Health. During the year, CCMF Inc. contributed funds in the amount of $5,166,967 (2008 - $5,470,144) to the organization which are recorded in grant revenue in the statement of operations and changes in fund balances.

18. Change in non-cash operating working capital:

The change in non-cash operating working capital consists of the following:

	2009	2008
General Fund		
Due from Manitoba Health	$ 546,040	$ 2,924,259
Accounts receivable	1,587,927	(854,037)
Prepaid expenses	(173,314)	(24,969)
Vacation entitlements receivable	(49,454)	(65,590)
Accounts payable and accrued liabilities	1,655,325	(9,962,548)
Due to Manitoba Health	976,519	1,890,498
	4,543,043	(6,092,387)
Capital Fund		
Accounts payable and accrued liabilities	5,623	(89,972)
Clinical, Basic Research and Special Projects Fund		
Accounts receivable	(223,062)	(464,973)
Accounts payable and accrued liabilities	(14,486)	3,595
	(237,548)	(461,378)
	$ 4,311,118	$ (6,643,737)

OFFICE OF THE
AUDITOR GENERAL
MANITOBA

AUDITORS' REPORT

To the Legislative Assembly of Manitoba
To the Board of Directors of Le Centre culturel franco-manitobain

We have audited the statement of financial position of Le Centre culturel franco-manitobain as at March 31, 2009, and the statements of operations and changes in fund balances and cash flows for the year then ended. These financial statements are the responsibility of the corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the corporation as at March 31, 2009, and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

The accompanying notes are an integral part of these financial statements.

1. General Information

Le Centre culturel franco-manitobain was incorporated under Chapter C45 of the Statutes of the Province of Manitoba. The corporation's objectives are to maintain, encourage, foster and sponsor, by all means available, all types of cultural activities in the French language and to make French-Canadian culture known to all residents of the province.

2. Change in Accounting Policy

Capital Disclosures - Effective April 1, 2008, CCFM adopted CICA Section 1535 Capital Disclosures which establishes standards for disclosing information about an entity's capital and how it is managed (See note 15).

3. Accounting Policies

Basis of Accounting

These financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles for not-for-profit organizations established by the Canadian Institute of Chartered Accountants (CICA) using the deferral method of accounting.

Revenue Recognition

Grants received for specific projects are recognized as revenue of the appropriate fund in the year in which the related expenses are incurred. The remaining balance of grants received is accounted for as deferred contributions in the statement of financial position.

Catering and bar services, hall, office and other rentals, technical services and miscellaneous revenue are recognized as revenue when the services are rendered if the amount to be received can be reasonably estimated and collection is reasonably assured.

Admission fees are recognized as revenue when the event has occurred if the amount to be received can be reasonably estimated and collection is reasonably assured.

Financial Instruments

The corporation's financial instruments consist of cash and bank, grants receivable, accounts receivable, accounts receivable - Province of Manitoba, bank indebtedness, and accounts payable and accrued liabilities.

All transactions related to financial instruments are recorded on a settlement date basis.

3. Accounting Policies (continued)

Financial Instruments (continued)

The corporation has designated its financial instruments as follows:

Cash and bank and bank indebtedness are classified as financial assets held for trading and are measured at fair value with gains and losses recognized in the statement of operations.

Grants receivable, accounts receivable and accounts receivable - Province of Manitoba are classified as loans and receivables. These financial assets are recorded at their amortized cost using the effective interest rate method.

Accounts payable and accrued liabilities are classified as other financial liabilities. These financial liabilities are recorded at their amortized cost using the effective interest rate method.

Inventory

Inventory is valued at the lower of cost, using the first-in-first-out method, and net realizable value.

Capital Assets

Acquired capital assets are stated at their acquisition cost less accumulated amortization and are amortized using the diminishing balance method at the following annual rates:

Technical equipment	20%
Computer equipment	30%
Kitchen equipment	20%
Cash registers	20%
Furniture and fixtures	20%
Security system	20%
Maintenance equipment	20%

Use of Building

The use of the building is accounted for as described in Note 12.

Use of Estimates

The preparation of financial statements in accordance with Canadian generally accepted accounting policies requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management's best estimates, as additional information becomes available in the future.

3. Accounting Policies (continued)

New Accounting Pronouncements

Recent accounting pronouncements that have been issued but are not yet effective, and have a potential implication for the corporation, are as follows:

Financial Statement Concepts - CICA Handbook Section 1000, Financial Statement Concepts has been amended to focus on the capitalization of costs that truly meet the definition of an asset and de-emphasizes the matching principle. The revised requirements are effective for annual and interim financial statements relating to fiscal years beginning on or after October 1, 2008. The corporation is currently evaluating the impact of the adoption of this change on the disclosure within its financial statements.

Financial Instruments - Disclosure and Presentation - On October 15, 2008 the CICA deferred indefinitely the requirement of not-for-profit organizations to implement new standards dealing with certain financial instrument disclosures and presentation. The corporation elected to defer application of these standards.

Financial Statements by Not-for-Profit Organizations - In September 2008, a number of standards applicable to not-for-profit organizations were amended and issued. The changes are intended to improve financial reporting by not-for-profit organizations and make not-for-profit standards consistent with those of profit-oriented enterprises when they address the same issues. These amendments which are effective for fiscal years beginning on or after January 1, 2009 will not have a significant impact on the results of operations or financial position.

In December 2008, the AcSB and the Public Sector Accounting Board issued a joint Invitation to Comment, "Financial Reporting by Not-for-Profit Organizations," to invite feedback on the future of financial reporting by not-for-profit organizations. The financial reporting options under consideration by the AcSB include IFRSs, private enterprise standards and public sector standards. Until the strategy has been determined and implemented, not-for-profit organizations will continue to apply current accounting standards.

The corporation continues to monitor the developments in this area and evaluate the implications of the potential changes in financial reporting standards.

4. Capital Assets

	2009		2008	
	Cost	Accumulated Amortization	Cost	Accumulated Amortization
Technical equipment	$ 161,306	$ 130,140	$ 136,932	$ 122,348
Computer equipment	124,008	121,959	124,008	121,081
Kitchen equipment	14,107	10,813	14,107	9,989
Cash registers	5,200	5,000	5,200	4,950
Furniture and fixtures	16,735	10,543	11,673	9,099
Security system	30,420	18,261	17,580	15,221
Maintenance equipment	26,411	20,566	26,411	19,106
	$ 378,187	$ 317,282	$ 335,911	$ 301,794
Net book value		$ 60,905		$ 34,117

5. Bank Indebtedness

The corporation has a line of credit with a maximum of $100,000 bearing interest at prime rate. The line of credit is secured by a general security agreement. At March 31, 2009, the line of credit had a balance of nil before deduction of outstanding cheques.

6. Deferred Contributions

Deferred contributions represent unspent resources received during the year related to matching expenses of subsequent periods.

	2009	2008
Balance, beginning of year	$ 18,399	$ 6,059
Grants and other amounts received during the year		
Operations Fund	1,000	12,500
Capital Fund	74,708	124,987
Less amounts recognized as revenue during the year		
Operations Fund	(15,475)	(160)
Capital Fund (Note 10)	(32,432)	(124,987)
Transfer to capital assets (Note 7)	(42,276)	-
Balance, end of year	$ 3,924	$ 18,399

7. Deferred Contributions Related to Capital Assets

Deferred contributions related to capital assets represent the unamortized portion of grants received with which capital assets have been purchased.

Changes in deferred contributions related to capital assets are as follows:

	2009	2008
Balance, beginning of year	**$ 29,552**	$ 37,463
Grants received during the year	**42,276**	-
Amount amortized to revenue	**(14,658)**	(7,911)
Balance, end of year	**$ 57,170**	$ 29,552

8. Commitments

The corporation has a joint line of credit with Le Cercle Molière with a maximum of $400,000 bearing interest at prime plus 0.5%. The line of credit will provide temporary financing to reimburse costs related to preliminary stages of Le Cercle Molière theatre construction. The line of credit is secured by a general security agreement. At March 31, 2009, the line of credit was unutilized.

9. Operations Fund and Cultural Programs Fund Expenses

			2009	2008
	Operations	Cultural Programs	Total	Total
Advertising and promotion	$ 4,127	$ 36,240	$ 40,367	$ 27,438
Bad debts	-	-	-	2,094
Bank charges and interest	4,716	-	4,716	3,405
Employment contracts	9,620	43,384	53,004	27,262
Equipment purchases	6,333	-	6,333	7,795
Equipment rental and maintenance	104,646	20,632	125,278	76,366
Insurance and permits	22,604	2,519	25,123	22,651
Meetings and travel	6,677	23,816	30,493	24,760
Miscellaneous	-	2,307	2,307	5,145
Office expenses	20,262	13,894	34,156	19,460
Pension	8,051	3,632	11,683	12,600
Professional fees	25,247	-	25,247	26,992
Salaries and benefits (Note 13)	423,115	179,071	602,186	584,518
Service contracts	-	59,165	59,165	57,269
Supplies	48,031	18,868	66,899	18,653
Training	1,176	-	1,176	1,539
Utilities and outside maintenance (Note 13)	130,086	-	130,086	137,024
	$ 814,691	$ 403,528	$ 1,218,219	$ 1,054,971

10. Capital Fund Expenses

	2009	2008
Asbestos removal and renovation of main building	$ -	$ 73,583
Material	3,500	9,735
Repairs and maintenance	28,932	41,668
	$ 32,432	$ 124,986

11. Vacation Pay Receivable

The amount recorded as a receivable from the Province of Manitoba for vacation pay expenses was initially based on the estimated value of the corresponding liability as at March 31, 1995. Subsequent to March 31, 1995, the Province of Manitoba has included in its ongoing annual funding to the corporation an amount equal to the current year's expense for vacation pay entitlements.

12. Use of Building

The building used by the corporation is owned by the Province of Manitoba and is made available to the corporation rent-free. The corporation is responsible for all operating and maintenance costs including third party liability insurance.

The corporation charges rent to all tenants, groups and organizations that make use of the building. This rental revenue is retained by the corporation and recorded as revenue in the Operations Fund, thereby reducing the corporation's reliance on funding from the Province.

13. Centre du Patrimoine

The capital costs of this archival centre were funded equally by the Governments of Canada and Manitoba. Ownership of the corporation is that of the Province of Manitoba. The corporation is operated by La Société historique de Saint-Boniface (SHSB).

Le Centre culturel franco-manitobain (CCFM) pays utility and maintenance costs related to the archival centre. Those utility and maintenance costs are recorded in utilities and salaries and benefits expenses (Note 9). CCFM recovers the utility and maintenance costs from the SHSB. Those recoveries are recorded in miscellaneous revenue and amount to $45,747 in 2009 ($49,416 in 2008).

14. Financial Risk Management

The corporation is exposed to different types of risk in the normal course of operations, including credit risk and market risk. The corporation's objective in risk management is to optimize the risk return trade-off, within set limits, by applying integrated risk management and control strategies, policies and procedures throughout the corporation's activities.

Credit Risk

Credit risk is the risk that one party to a financial instrument fails to discharge an obligation and causes financial loss to another party. Financial instruments which potentially subject the corporation to credit risk consist principally of accounts receivable.

14. Financial Risk Management (continued)

The corporation's maximum exposure to credit risk without taking account of any collateral or other credit enhancements is as follows:

		2009		2008
Grants receivable	$	100,212	$	109,498
Accounts receivable		83,404		71,840
Accounts receivable - Province of Manitoba		25,891		25,891
	$	209,507	$	207,229

Accounts receivable: The corporation is not exposed to significant credit risk as the receivable is spread among a large client base and geographic region and payment in full is typically collected when it is due. The corporation establishes an allowance for doubtful accounts that represents its estimate of potential credit losses. The allowance for doubtful accounts is based on management's estimates and assumptions regarding current market conditions, customer analysis and historical payment trends. These factors are considered when determining whether past due accounts are allowed for or written off.

Grants receivable and accounts receivable - Province of Manitoba: The corporation is not exposed to significant credit risk as these receivables are from the Provincial and Federal Government.

Market Risk

Market risk is the risk the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk: interest rate risk and foreign exchange risk.

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. The corporation is not exposed to significant interest rate risk. Cash is held in short-term or variable rate products and bank indebtedness is also at variable rates.

The corporation is not exposed to significant foreign currency risk as it does not have any financial instruments denominated in foreign currency and the number of transactions in foreign currency are minimal.

Fair Value

The carrying values of cash and bank, bank indebtedness, grants receivable, accounts receivable, accounts receivable - Province of Manitoba and accounts payable and accrued liabilities approximate their fair value due to the relatively short periods to maturity of these items or because they are receivable or payable on demand.

15. Capital Management

The corporation considers its capital to be comprised of its Fund Balances Invested in Capital Assets in the amount of $3,734 ($4,565 in 2008) and its Unrestricted Fund Balances, which include its Operations Fund Balance totalling $219,825 ($89,003 in 2008) and Cultural programs Fund Balance totalling $(115,357) ($(44,618) in 2008). There have been no changes to what the corporation considers to be its capital since the previous period.

The Board's capital management policy is to maintain sufficient capital to cover its costs of operations and to meet its objectives. As a not-for-profit entity, the corporation's operations are reliant on revenues generated annually. The corporation has accumulated unrestricted funds over its history, which are included in the Operations Fund balance in the Statement of Operations and Changes in Fund Balances. A portion of the accumulated unrestricted funds is retained as working capital (current assets less current liabilities) which may be required from time to time due to timing delays in receiving its primary funding. The remaining unrestricted funds are available for the use of the corporation at the Board's discretion.

The financial resources of the corporation are allocated to four funds corresponding to the corporation's activities and objectives as follows:

Unrestricted Funds

Operations - Includes transactions related to the maintenance of facilities and the general operations of the corporation.

Cultural Programs - Includes transactions related to the delivery of cultural programs as outlined in the objectives of the corporation.

Restricted Funds

Capital - Involves external restrictions and is used for recording capital asset additions, major repairs related to the building's operations, amortization of deferred contributions related to capital assets and amortization of capital assets. At year end, an interfund transfer is recorded from the Operations Fund to the Capital Fund representing the corporation's net investment in capital assets.

Fundraising - Includes transactions related to fundraising activities. The fund balance must be used to subsidize cultural activities and is included in the interfund transfers.

16. Comparative Amounts

Certain comparative amounts have been restated to conform to the current year's presentation.

Auditors' Report

To the Directors of
Child and Family Services of Central Manitoba Inc.

We have audited the non-consolidated statement of financial position of **Child and Family Services of Central Manitoba Inc.** as at March 31, 2009, and the non-consolidated statements of operations and changes in fund balances, and cash flows for the year then ended. These financial statements are the responsibility of the Agency's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these non-consolidated financial statements present fairly, in all material respects, the financial position of the Agency as at March 31, 2009 and the results of its operations and the changes in cash flows for the year then ended, in accordance with Canadian generally accepted accounting principles.

The accompanying summary of significant accounting policies and notes are an integral part of these financial statements

Child and Family Services of Central Manitoba Inc.
Summary of Significant Accounting Policies

For the year ended March 31, 2009

Nature of Business

The Agency is incorporated under the laws of Manitoba and its primary business purpose is providing child and family services to those in need in the Central Region of Manitoba. The Agency is a registered charitable agency under the Income Tax Act.

Use of Estimates and Measurement Uncertainty

The preparation of financial statements in accordance with Canadian generally accepted accounting principles requires management to make certain estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the period. These estimates are reviewed periodically and, as adjustments become necessary, they are reported in earnings in the period in which they become known.

The most significant estimates included in these non-consolidated financial statements are the deferred severence/retirement entitlement, its amortization and the accrued severence/retirement entitlement payable as calculated actuarily. Actual results could differ from the estimates used.

Fund Accounting

The Agency follows the deferral method of accounting for contributions.

Revenues and expenses related to program delivery and administrative activities are reported in the Central Program Support Fund.

Revenues and expenses directly related to children in care are reported in the Ward Care Fund.

Revenues and expenses directly related to children not in care are reported in the Family Support Fund.

Revenues and expenses related directly to the In Home Support Program are reported in the Family Support Innovations Fund.

The Capital Fund reports the assets, liabilities, revenues and expenses related to the Agency's capital assets.

Revenue Recognition

Restricted contributions are deferred and recognized as revenue of the appropriate fund in the year in which the related expenses are incurred. Unrestricted contributions are recognized as revenue of the Central Program Support Fund when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

For the year ended March 31, 2009

Financial Instruments

The Agency utilizes various financial instruments. Unless otherwise noted, it is management's opinion the Agency is not exposed to significant interest, currency or credit risks arising from these financial instruments and the carrying amounts approximate fair values.

The fair values of cash, accounts receivable and accounts payable approximate their carrying value because of the short-term maturity of these instruments.

The Agency classifies its financial instruments into one of the following categories based on the purpose for which the item was acquired. The accounting policy for each category is as follows.

Receivables - These assets are non-derivative financial assets resulting from the delivery of cash or other assets by a lender to a borrower in return for a promise to repay on a specified date or dates, or on demand. They arise principally through the provision of services (accounts receivable), but also incorporate other types of contractual monetary assets. They are initially recognized at fair value and subsequently carried at amortized cost, using the effective interest rate method, less any provision for impairment.

Held-for-trading - This category is comprised of cash and short-term investments. They are carried in the balance sheet at the fair value with changes in fair value recognized in the income statement. Transaction costs related to instruments classified as held-for-trading are expensed as incurred.

Other financial liabilities - Other financial liabilities include accounts payable, accrued severence/benefits obligation, other accrued liabilities, and bank indebtedness. These liabilities are initially recognized at fair value and subsequently carried at amortized cost using the effective interest rate method. Transaction costs related to other financial liabilities are expensed as incurred.

Investments

Investments are recorded at fair value and are comprised of guaranteed investment certificates $102,000 (2008 - $99,270) with effective interest rates of 3.20% to 4.40% (2008 - 4.35%), with maturity dates of June 2009 to June 2010 (2008 - June 2008). Interest is received annually and upon maturity.

Child and Family Services of Central Manitoba Inc.
Summary of Significant Accounting Policies

For the year ended March 31, 2009

Capital Assets

Purchased capital assets are recorded in the Capital Fund at cost. Contributed capital assets are recorded in the Capital Fund at fair value at the date of contribution. Amortization is provided on a straight-line basis over their estimated useful lives, as follows.

Buildings	2%
Leasehold improvements	10%
Furniture and equipment	20%

Amortization expense is reported in the Capital Fund.

Contributed Services

Volunteers contribute numerous hours annually to assist the Agency in carrying out its service delivery activities. Because of the difficulty of determining their fair value, contributed services are not recognized in the financial statements.

Vacation Entitlement

Vacation entitlement is recorded in the period that the service to which it relates is provided. Accrued vacation entitlement is recorded to the extent that a vacation entitlement liability exists at the period end.

Funding for the vacation entitlement is accrued in the period that the vacation entitlement is accrued. To the extent that this vacation entitlement funding has not been received by the period end, it is recorded as a receivable from the Department of Family Services.

Defined Contribution Pension Plan

The Agency's pension plan is administered by the Municipal Employee's Benefit Program (MEBP).

During the year, the Agency made contributions of $69,386 (2008 - $85,740) with respect to this plan.

During the year, the pension plan was transferred to the Municipal Employee's Benefit Program (MEBP) from the previous United Way administered plan.

Severance/Retirement Entitlement

Severance/retirement entitlement is recorded in the period the service to which it relates is provided. Accrued severance/retirement is recorded to the extent that a severance/retirement liability exists at the period end. At the date of the last actuarial valuation, March 31, 2008, the economic assumptions used to determine benefit obligations and periodic expenses were a discount rate of 5.5% and future salary increases of 1.79%.

The net present value of the liability as at April 1, 2000, being the date at which the Agency became liable for the severance/retirement entitlement has been recorded as a deferred severance/retirement entitlement and is being amortized to expense on the straight-line basis over 10 years, being the average number of years until the original employee group became entitled to an amount.

Plan amendments are recorded as a deferred severance/retirement entitlement when a new Union contract is signed that improves the benefit. Any amendment is amortized over the average number of years until the employee group would become entitled to a benefit and included in severance/retirement expense in the Central Program Support Fund.

During the year $22,152 (2008 - $24,403) was paid out to retiring employees.

Capital Disclosures

The Agency considers its capital to be its unrestricted, restricted net assets, and amounts invested in capital assets. The Agency's objectives when managing its capital are to safeguard its ability to continue as a going concern so it can continue to provide child and family services to the community in the Central Region of Manitoba. Annual budgets are developed and monitored to ensure the Agency's capital is maintained at an appropriate level.

New Accounting Pronouncements

Recent accounting pronouncements that have been issued but are not yet effective, and have a potential implication for the Agency, are as follows.

Financial Statement Concepts

CICA Handbook Section 1000, Financial Statement Concepts has been amended to focus on the capitalization of costs that truly meet the definition of an asset and de-emphasizes the matching principle.

The revised requirements are effective for annual and interim financial statements relating to fiscal years beginning on or after October 1, 2008. The Agency is currently evaluating the impact of the adoption of this change on the disclosure within its financial statements.

Cash Flow Statements

Section 1540 was amended to include not-for-profit organizations within its scope. This standard is effective for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2009. The Agency is currently assessing the impact of the new standard.

Financial Statement Presentation by Not-for-Profit Organizations

Section 4400 has been amended for the treatment of net assets invested in capital assets and for the presentation of revenues and expenses. The new standard is effective for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2009. The Agency is currently assessing the impact of the new standard.

Disclosure of Related Party Transactions by Not-for-Profit Organizations

Section 4460 includes modifications to the scope of the standards. The changes are effective for interim and annual financial statements beginning on or after January 1, 2009. The Agency is currently assessing the impact of the new standard.

1. Accounts Receivable

	2009			2008

	$ 1,217,769	$ 434,743	$ 783,026	$ 568,470

3. Severance/Retirement Entitlement

Changes in the deferred severance/retirement entitlement and accrued severance/retirement entitlement payable are as follows.

	2009		2008	
	Deferred Severance/ Retirement Entitlement	**Accrued Severance/ Retirement Entitlement Payable**	Deferred Severance/ Retirement Entitlement	Accrued Severance/ Retirement Entitlement Payable
Balance, March 31, 2008	**$ 104,030**	**$ (382,769)**	$ 119,458	$ (313,123)
Paid during the year	**-**	**22,152**	-	24,403
Current cost	**-**	**(46,074)**	-	(94,049)
Amortization	**(15,428)**	**-**	(15,428)	-
Balance, March 31, 2009	**$ 88,602**	**$ (406,691)**	$ 104,030	$ (382,769)

4. Bank Indebtedness

The Agency has an operating line of credit authorized to a maximum of $425,000, which is due on demand and bears interest at the bank's prime rate minus 0.50% calculated and payable monthly. It is secured by a line of credit agreement.

5. Deferred Contributions Relating to Capital Assets

Deferred contributions reported in the Capital Fund include the unamortized portions of contributed capital assets and restricted contributions relating to the Agency's furniture and equipment, building and leasehold improvements.

Changes in the deferred contributions balance reported in the Capital Fund are as follows.

	2009	2008
Balance, beginning of year	**$ 344,493**	$ 359,285
Add contributions received in the year	**177,790**	-
Less amount recognized as revenue in the year	**32,053**	14,792
Balance, end of year	**$ 490,230**	$ 344,493

6. Commitments

The Agency leases office premises and certain equipment under operating leases, which expire between 2010 and 2014. The following is a schedule of approximate future minimum lease payments due in each of the next five years under these leases.

2010	$ 110,800
2011	97,700
2012	69,700
2013	50,700
2014	46,900
Thereafter	7,000
	$ 382,800

7. Interfund Transfers

During the year, $68,819 was transferred to the Capital Fund to fund the net purchases of capital assets acquired during the year.

8. Related Party Transactions

During the year, the following transactions took place.

The Agency received program funding of $36,627 (2008 - $32,755) from Child and Family Services of Central Manitoba Foundation Inc.

The Agency is involved with the Tupper Street Family Resource Centre Inc. (TSFC), an incorporated entity created for the assistance of young parents in the Central Manitoba Region, through participation in the start up and policy-making processes. As at March 31, 2009, the Agency had an amount of $6,590 (2008 - $31,590) included in accounts receivable from the Department of Family Services and Housing for assistance with this Centre.

During the year, a partnership agreement was signed whereby, Child and Family Services of Central Manitoba Agency Inc., would lease a building on Tupper Street, Portage la Prairie for $3,500 per month, which is included in note 6. In turn, several other organizations, including the TSFC, sublet space for $1,900 per month. The Agency is commited to the lease for 5 years ending May 2013.

The transactions above are in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the parties involved.

9. Controlled Organization Not Consolidated

Child and Family Services of Central Manitoba Inc. controls Child and Family Services of Central Manitoba Foundation Inc. which is operated for the purpose of receiving donations to enhance the lives of underprivileged children not in ward care in the Central Region of Manitoba and to promote well-being and happiness. The Foundation is incorporated under the laws of the Province of Manitoba and is a registered Public Foundation under the Income Tax Act. Child and Family Services of Central Manitoba Inc.'s Board of Directors serves as the Board of Directors for Child and Family Services of Central Manitoba Foundation Inc. in accordance with the bylaws of Child and Family Services of Central Manitoba Foundation Inc.

Child and Family Services of Central Manitoba Foundation Inc. has not been consolidated in the Child and Family Services of Central Manitoba Inc.'s financial statements. Financial summaries of the unconsolidated entity as at March 31, 2009 and 2008 and for the years then ended are as follows. These numbers are based upon the unaudited financial statements of the Foundation.

Child and Family Services of Central Manitoba Foundation Inc.

Financial position

	2009	2008
Total assets	$ 534,800	$ 521,119
Total liabilities	38,777	42,223
Total net assets	496,023	478,896
	$ 534,800	$ 521,119

Results of operations

	2009	2008
Total revenue	$ 81,366	$ 80,158
Total expenses	64,239	73,562
Excess of revenue over expenses	$ 17,127	$ 6,596

Cash flows

	2009	2008
Cash provided by (used in) operations	$ 2,321	$ (1,980)
Cash provided by (used in) investing and financing activities	(10,394)	1,601
Decrease in cash	$ (8,073)	$ (379)

10. Contingencies

There is a potential claim against the Agency with respect to issues arising out of a roofing project. Management has denied any liability for this matter. The ultimate outcome of this matter can not be reasonably determined at this time. The loss, if any, will be charged to operations when the amount is known.

Subsequent to year end, a claim was made by an employee against the Agency alleging wrongful termination. Management has offered the terminated employee compensation in accordance with the contract signed by both parties when the individual was hired. Management is of the opinion that they will not experience a loss in excess of this amount. Any additional amount, if necessary, will be charged to operations in the period the amount becomes known.

Auditors' Report

To the Board of Directors of
Child & Family Services of Western Manitoba

We have audited the statement of financial position of **Child & Family Services of Western Manitoba** as at **March 31, 2009** and the statement of surplus and operations for the year then ended. These financial statements are the responsibility of the organization's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the organization as at **March 31, 2009** and the results of its operations and cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

The accompanying summary of significant accounting policies and notes are an integral part of these financial statements.

Due from Province of Manitoba - Vacation Pay	The amount receivable represents future grant revenue from the Province of Manitoba that will be used to fund earned vacation pay by employees that has been recorded as a liability at March 31.
Investments	Investment are recorded as the lower of cost or market value. The market value of all investments held equals their cost at March 31.
Capital Assets	Capital assets purchased by the Operating Fund are recorded as a transfer to the Capital Fund with the amounts being recorded at cost in the Capital Fund. Assets purchased are recorded as an increase in capital assets and an increase in investment in capital assets. For assets that have been purchased through a debt obligation, the cost has been recorded as an increase in capital assets in the Capital Fund with the debt obligation being recorded as a liability in the Capital Fund. As the loan is repaid, the principal component of the loan payments paid by the Operating Fund is recorded as a transfer to the Capital Fund in the Operating Fund and an increase in investment in capital assets in the Capital Fund. Amortization is recorded on a straight-line basis as a decrease in investment in capital assets in accordance with the following rates:

Buildings	2.5%
Equipment	5%
Furniture	5%
Automobiles - First 12 months	30%
- After	15%

Fund Accounting

Child and Family Services of Western Manitoba follows the restricted method of accounting for contributions.

The Operating Fund accounts for the program delivery and administration activities.

The Capital Fund records the assets, liabilities, revenues and expenses related to Child and Family Services of Western Manitoba's property, plant and equipment.

The Trust Fund reports resources held in trust for purposes outside of normal program delivery and administration purposes. Investment income and money received by the Trust Fund is reported as revenue in the Trust Fund and expenses relating directly to the trust funds are recorded as expenses in the Trust Fund.

Child and Family Services of Western Manitoba
Summary of Significant Accounting Policies

March 31, 2009

Financial Instruments

The organization's financial instruments consist of cash, short-term investments, accounts receivable, accounts payable and long-term debt. Unless otherwise noted, it is management's opinion that the company is not exposed to significant interest, currency or credit risks arising from these financial instruments.

The entity has classified its cash and short-term investments as held-for-trading, receivables as loans and receivables and its accounts payable and accrued liabilities as other liabilities, which are measured at amortized cost.

Use of Estimates

The preparation of financial statements in accordance with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management's best estimates as additional information becomes available in the future.

Revenue Recognition

This organization follows the deferral method of accounting for contributions. Restricted contributions are recognized as revenue in the year in which the related expenses are incurred. Unrestricted contributions are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

New Accounting Pronouncements

Recent accounting pronouncements that have been issued but are not yet effective, and have a potential implication for the organization, are as follows:

Financial Statement Presentation by Not for Profit Organizations
Section 4400 has been amended for the treatment of net assets invested in capital assets and for the presentation of revenues and expenses. The new standard is effective for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2009. The organization is currently assessing the impact of the new standards.

Disclosure of Related Party Transactions by Not for Profit Organizations
Section 4460 has been amended to make the language in Section 4460 consistent with Related Party Transactions, Section 3840. The changes are effective for interim and annual financial statements beginning on or after January 1, 2009. The organization is currently assessing the impact of the new standards.

Disclosure of Allocated Expenses by Not for Profit Organizations
This new Section 4470 establishes disclosure standards for not-for-profit organizations that choose to classify their expenses by function and allocate expenses from one function to another. The changes are effective for interim and annual financial statements beginning on or after January 1, 2009. The organization is currently assessing the impact of the new standards.

Capital Assets Held by Not for Profit Organizations
Section 4430 has been amended to provide additional guidance with respect to the appropriate use of the exemption from recognizing capital assets for smaller entities. The changes are effective for interim and annual financial statements beginning on or after January 1, 2009. The organization is currently assessing the impact of the new standards.

Cash Flow Statements
Section 1540 was amended to include not-for-profit organizations within its scope. The changes are effective for interim and annual financial statements beginning on or after January 1, 2009. The organization is currently assessing the impact of the new standards.

1. Entity Definition

The organization is a registered charity providing family services in Western Manitoba. Any surplus it may generate is non-taxable.

2. Capital Assets

			2009	2008
	Cost	Accumulated Amortization	Net Value	Net Value
800 MacTavish Avenue				
Building and land	$ 812,774	$ (199,371)	$ 613,403	$ 631,347
Office equipment and furniture	341,854	(266,572)	75,282	69,642

Automobiles	621,521	(382,037)	239,484	166,523
	$ 3,438,539	$ (1,573,603)	$ 1,864,936	$ 1,844,820

3. Bank Indebtedness

The Royal Bank account carries an overdraft limit of $350,000 and carries interest at prime. As at March 31, 2009, the unused credit facility was $350,000. The overdraft limit is secured by a comfort letter from the Province of Manitoba.

4. Deferred Revenue

Deferred contributions consists of contributions received for operating purposes and unexpended funds. The following is a summary of changes to this account:

	2009	2008
Balance, beginning of year	$ 149,110	$ 55,264
Contributions deferred	2,500	149,110
Deferred revenue recognized in year	(135,693)	(55,264)
Balance, end of year	$ 15,917	$ 149,110

5. Working Capital Advance

Working Capital Advance has been provided to the Agency by the Province of Manitoba. The Province provides the advance for child maintenance expenditures. The advance is non-interest bearing and is repayable at the time that the agency is no longer providing services on behalf of the Department of Family Services and Housing

6. Long Term Debt

	2009	2008
Royal Trust demand mortgage, repayable at $5,878 monthly including interest at 7.65%, secured by land and building, matures 2021	$ 566,747	$ 602,149
Current portion	566,747	602,149
	$	$

7. Commitments

The organization leases office equipment under operating leases. Minimum lease payments due in the next five years are as follows:

2009	-	$ 6,498
2010	-	3,249
2011	-	
2012	-	
2013	-	

8. Financial Risk Management

There have been no substantive changes in the entity's exposure to financial instrument risks. The board monitors the financial statements including its financial instruments on a montly basis to determine if there any increases or changes in its risk.

The principal financial instruments used by the entity, from which financial risk arises, are as follows: cash and short-term investments, receivables and payables, and long-term debt.

Market Risk

Market risk is the risk the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, foreign exchange risk and other price risk.

Interest rate risk is the risk that fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The investments of the entity are held for trading instruments which are exposed to interest rate risk. The long term debt is also affected by interest rate risk.

Foreign exchange risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The entity is not exposed to foreign exchange risk.

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices, other than those arising from interest rate risk or currency risk. The entity is not exposed to other price risk.

Liquidity Risk

Liquidity risk is the risk that the entity will encounter difficulty in having available sufficient funds to meet its commitments. It is the entity's policy to ensure that it will have sufficient cash and short term investments to allow it to meet its liabilities when they come due.

Credit Risk

Credit risk arises principally from receivables. The entity's receivables are the result of GST that is refundable. The credit risk is minimal.

9. Capital

The organization considers its capital to be its net assets. The organization's objectives when managing its capital are to safeguard its ability as a going concern so it can continue to provide family services in Western Manitoba. Annual budgets are developed and monitored to ensure the organization's capital is maintained at an appropriate level.

10. Economic Dependence

Child and Family Services of Western Manitoba is economically dependent upon the Provincial Government of Manitoba for funding.

11. Statement of Cash Flows

A Statement of Cash Flows has not been provided as it would not provide any further information to the users of the financial statements. The organization paid $33,290 (2008 - $40,865) in interest on long-term debt in the year.

12. Comparative Figures

Certain number of the comparative amounts presented in the financial statements have been restated to conform to the current year's presentation.

L'Assemblée législative du Manitoba
Le Bureau des gouverneurs du **Collège universitaire de Saint-Boniface**

Nous avons vérifié le bilan du **Collège universitaire de Saint-Boniface** au 31 mars 2009 et les états de l'évolution des soldes de fonds, des résultats, et des flux de trésorerie pour l'exercice terminé à cette date. La responsabilité de ces états financiers incombe à la direction du **Collège universitaire de Saint-Boniface**. Notre responsabilité consiste à exprimer une opinion sur ces états financiers en nous fondant sur notre vérification.

Notre vérification a été effectuée conformément aux normes de vérification généralement reconnues du Canada. Ces normes exigent que la vérification soit planifiée et exécutée de manière à fournir l'assurance raisonnable que les états financiers sont exempts d'inexactitudes importantes. La vérification comprend le contrôle par sondages des informations probantes à l'appui des montants et des autres éléments d'information fournis dans les états financiers. Elle comprend également l'évaluation des principes comptables suivis et des estimations importantes faites par la direction, ainsi qu'une appréciation de la présentation d'ensemble des états financiers.

À notre avis, ces états financiers donnent, à tous les égards importants, une image fidèle de la situation financière du **Collège universitaire de Saint-Boniface** au 31 mars 2009, ainsi que des résultats de son exploitation et de ses flux de trésorerie pour l'exercice terminé à cette date selon les principes comptables généralement reconnus du Canada.

1. Autorité et objectifs

Le **Collège universitaire de Saint-Boniface** (CUSB) est constitué en corporation dans la province du Manitoba depuis 1871. Le CUSB est régi par son Bureau des gouverneurs sous l'autorité de la *Loi sur le Collège universitaire de Saint-Boniface*, C.P.L.M. cC150.2.

Le CUSB est un organisme de bienfaisance enregistré et bénéficie à ce titre de l'exonération d'impôt sur le revenu prévue à l'article 149 de la *Loi de l'impôt sur le revenu.*

Le capital du CUSB est composé des fonds suivants : fonds non grevés d'affectations; fonds d'affectations d'origine interne; fonds investis en immobilisations; et fonds de dotation. Il n'y a eu aucun changement à ce que le CUSB considère être son capital depuis l'année précédente.

Le CUSB a pour objectifs de répondre aux besoins éducatifs des collectivités francophones du Manitoba et du Canada et de favoriser leur mieux-être sur les plans linguistique, culturel, économique et social. Pour atteindre ces objectifs, il offre, en français, une vaste gamme de possibilités en matière d'éducation et de recherche.

Le CUSB gère son capital afin de s'assurer qu'il maintient les ressources nécessaires pour satisfaire ses objectifs. Le CUSB veille aussi à maintenir les ressources nécessaires pour satisfaire ses obligations telles que les dépenses générales et administratives, les réparations majeures et l'achat des immobilisations requises.

2. Modification des conventions comptables

Le 1er avril 2008, le CUSB a adopté une condition du chapitre 1535 du manuel de l'ICCA, « Gestion du capital », qui exige la divulgation des objectifs, des politiques et des processus appliqués par le CUSB pour gérer ses actifs nets. (Voir les notes 1 et 11)

3. Sommaire des principales politiques comptables et des méthodes de présentation utilisées

Méthode de comptabilité

Les présents états financiers ont été dressés conformément aux principes comptables généralement reconnus du Canada. Le CUSB a adopté la méthode de comptabilité par fonds, et a comptabilisé les apports selon la méthode de comptabilité par fonds affectés. Les apports affectés sont comptabilisés à titre de revenus pour l'exercice au cours duquel les dépenses relatives sont engagées. Les apports non affectés sont comptabilisés à titre de revenus pour l'exercice au cours duquel ils sont reçus.

Il existe trois fonds principaux au CUSB : le Fonds de fonctionnement général, le Fonds de dotation et le Fonds des immobilisations.

3. Sommaire des principales politiques comptables et des méthodes de présentation utilisées (suivi)

Méthode de comptabilité (suivi)

Fonds de fonctionnement général

Le Fonds de fonctionnement général couvre la prestation des programmes et les activités administratives. Il est constitué des ressources non affectées et des subventions de fonctionnement affectées. Il s'étend notamment aux opérations et aux activités suivantes :

- Secteur universitaire;
- École technique et professionnelle;
- Éducation permanente;
- Institut Joseph-Dubuc;
- Centre de recherche qui comprend le Centre d'études franco-canadiennes de l'Ouest et les apports affectés à la recherche;
- Fonds administratif qui comprend des projets spéciaux et certaines opérations administratives, soit les activités relatives à l'informatique et aux résidences ainsi qu'à des fins particulières autres que l'acquisition et le développement d'immobilisations;
- Les affectations d'origine interne.

Fonds de dotation

Le Fonds de dotation est constitué des apports destinés par exemple aux bourses et prix pour les étudiants et étudiantes. Les produits financiers générés par ces ressources sont comptabilisés dans le Fonds de dotation.

Fonds des immobilisations

Le Fonds des immobilisations représente les actifs nets du CUSB qui ne sont pas disponibles pour d'autres buts parce qu'ils ont été investis en immobilisations.

Immobilisations

Les immobilisations acquises par le CUSB sont comptabilisées au coût, alors que celles qui sont reçues en dons sont comptabilisées à leur juste valeur marchande à la date du don. Les immobilisations font l'objet d'un amortissement linéaire en fonction de leur durée de vie utile estimative, laquelle est établie comme suit :

Immeubles et améliorations	60 ans
Équipement et ameublement	10 ans
Équipement informatique et logiciels	5 ans

L'amortissement est comptabilisé dans le Fonds des immobilisations.

3. Sommaire des principales politiques comptables et des méthodes de présentation utilisées (suivi)

Les acquisitions relatives à la bibliothèque (livres, périodiques, vidéodisques numériques, disques compacts, etc.) sont cataloguées et imputées à l'exercice au cours duquel ces acquisitions ont lieu. La collection de livres rares, dont la plupart constituent des dons, est inventoriée et assurée; toutefois, ces livres rares ne sont ni comptabilisés à titre d'immobilisations ni amortis. Une évaluation de la valeur des collections n'est pas disponible.

Le CUSB reçoit quelquefois des dons en nature qui sont comptabilisés à leur juste valeur lorsque celle-ci peut faire l'objet d'une estimation raisonnable. Toutefois, ces dons en nature ne sont pas amortis. La valeur des dons reçus en nature au cours de l'exercice terminé le 31 mars 2009 a été d'environ 13 000 $, et la valeur de ceux qui ont été reçus antérieurement n'a pas été jugée significative.

Inventaires

Les achats de fournitures sont imputés à l'exercice au cours duquel ces achats ont lieu, et la valeur des inventaires à la fin de l'exercice n'est pas comptabilisée, car elle est jugée négligeable. Le CUSB n'exploite pas de librairie, et ses services alimentaires sont donnés à contrat au secteur privé.

Instruments financiers

Les instruments financiers du CUSB comprennent l'encaisse, les placements, les comptes à recevoir, le découvert bancaire, les comptes à payer et les frais courus.

Les justes valeurs de l'encaisse ou découvert bancaire, des comptes à recevoir et des comptes à payer et frais courus se rapprochent de leurs valeurs comptables en raison des échéances à court terme de ces instruments.

Les justes valeurs des placements à court terme et à long terme sont estimées soit d'après le cours du marché pour des émissions similaires, soit d'après le taux actuel prévu pour des dettes similaires garanties par le gouvernement, de même échéance.

Le CUSB classe ses instruments financiers comme suit :

- L'encaisse et les placements à court et à long termes sont classés comme actifs financiers détenus à des fins de transactions et sont reportés au bilan à la juste valeur avec les intérêts, les dividendes, les gains et les pertes réalisés et non réalisés comptabilisés sous la rubrique « Produits financiers » dans l'état des résultats.

- Les comptes à recevoir sont classés comme prêts et créances. Ces instruments financiers sont comptabilisés à leur coût.

- Le découvert bancaire et les comptes à payer et frais courus sont classés comme autres passifs financiers. Ces passifs financiers sont comptabilisés à leur coût amorti.

3. Sommaire des principales politiques comptables et des méthodes de présentation utilisées (suivi)

Les coûts des transactions liées aux instruments financiers sont portés aux dépenses à mesure qu'ils sont engagés selon leur date de transaction.

Le CUSB n'a fait l'acquisition d'aucun produit financier dérivé, que ce soit à titre d'instruments de couverture des risques de change ou de taux d'intérêt ou pour gérer les positions de change.

Conversion de devises étrangères

Les montants relatifs à l'achat et à la vente de placements ainsi qu'aux revenus de dividendes et intérêts dans une devise étrangère sont convertis en dollars canadiens au taux de change en vigueur à la fin de l'année. Les actifs et les passifs monétaires détenus dans une devise étrangère sont convertis en dollars canadiens au taux de change en vigueur à la fin de l'année. Les pertes ou les gains réalisés ou non réalisés sur des placements détenus dans une devise étrangère sont comptabilisés sous la rubrique « Produits financiers » dans l'état des résultats.

Constatation des revenus

Les apports affectés au fonctionnement général sont comptabilisés dans le Fonds de fonctionnement général, à titre de revenus pour l'exercice financier au cours duquel les dépenses visées ont été engagées ou, selon le cas, au cours duquel l'activité ou le projet visé a pris fin. Tous les autres apports affectés sont comptabilisés à titre de revenus soit du Fonds de dotation, soit du Fonds d'immobilisations, selon le cas.

Les apports non affectés sont comptabilisés dans le Fonds de fonctionnement général à titre de revenus pour l'exercice financier au cours duquel ils ont été reçus.

Les apports destinés à la dotation sont comptabilisés à titre de revenus du Fonds de dotation. Quant aux produits financiers générés par les ressources du Fonds de dotation, peu importe que ceux-ci aient été affectées ou non, ils sont comptabilisés à titre de revenus du Fonds de dotation.

Tous les autres produits financiers qui ne sont pas générés par les ressources du Fonds de dotation sont comptabilisés à titre de revenus du Fonds de fonctionnement général.

3. Sommaire des principales politiques comptables et des méthodes de présentation utilisées (suivi)

Fonds grevés d'affectations d'origine interne

Le Bureau des gouverneurs a établi des provisions pour divers besoins, situations et événements connus et imprévus. Ces provisions résultent de transferts de fonds non affectés du Fonds de fonctionnement général.

Chaque année, le Bureau décide de majorer ces provisions ou d'y effectuer des retraits. Une politique du Bureau régit la procédure relative à l'établissement, à la majoration et à la suppression de telles provisions et aux retraits qui en sont faits.

Main-d'œuvre bénévole

Des bénévoles consacrent chaque année des centaines d'heures à collaborer aux programmes et aux activités du CUSB. Les états financiers n'en rendent pas compte, car malgré la valeur considérable de ce travail bénévole, il est très difficile d'en établir la juste valeur marchande.

Emploi des estimations

Selon les principes comptables généralement reconnus du Canada, la préparation des états financiers exige que la direction établisse des estimations et formule des hypothèses qui affectent la valeur de l'actif et du passif en date des états financiers, et la valeur des revenus et des dépenses de l'exercice en cours. Les résultats réels pourraient différer des meilleures estimations faites par la direction, au fur et à mesure que des informations supplémentaires seront disponibles.

Nouvelles prises de position en comptabilité

Les nouvelles prises de position en comptabilité qui ont été publiées mais qui ne sont pas encore en vigueur et qui ont une conséquence possible pour le CUSB sont les suivantes :

Fondements conceptuels des états financiers

Le chapitre 1000 du manuel de l'ICCA, Fondements conceptuels des états financiers, a été modifié afin de mettre l'accent sur la capitalisation des coûts qui répondent réellement à la définition d'un actif au lieu de se focaliser sur le principe de rapprochement des revenus et des dépenses.

Ces modifications entrent en vigueur pour les exercices débutant à partir du 1er octobre 2008. L'incidence de ces nouvelles normes sur les états financiers du CUSB reste à déterminer.

3. Sommaire des principales politiques comptables et des méthodes de présentation utilisées (suivi)

Instruments financiers - Informations à fournir et présentation

Le 15 octobre 2008, l'ICCA a reporté indéfiniment, pour les organismes sans but lucratif, l'application de nouvelles normes traitant certaines informations et présentations d'instruments financiers. L'application de ces normes doit permettre aux utilisateurs et aux utilisatrices des états financiers de comprendre l'importance et l'effet des instruments financiers sur la situation financière, la performance et les flux de trésorerie de l'organisation. Le CUSB a choisi de reporter l'application de ces normes.

En décembre 2008, le Conseil des normes comptables (CNC) et le Conseil sur la comptabilité dans le secteur public (CCSP) ont publié conjointement un appel à commentaires pour solliciter des commentaires sur l'avenir de l'information financière des organismes sans but lucratif (OSBL). Les deux Conseils étudient la possibilité que les OSBL suivent les Normes internationales d'information financière (IFRS), les normes relatives aux entreprises à capital fermé ou les normes du secteur public. Jusqu'à ce qu'une stratégie soit déterminée et en vigueur, les OSBL continueront à appliquer les normes comptables courantes.

Le CUSB continue à suivre les développements dans ces domaines et à évaluer les implications des changements potentiels des normes de l'information financière.

Présentation des états financiers des organismes sans but lucratif

Le chapitre 4400 du manuel de l'ICCA, « Présentation des états financiers des organismes sans but lucratif », a été modifié :

- afin d'éliminer l'obligation de traiter les actifs nets investis en immobilisations comme un composant séparé des soldes de fonds. Maintenant, les organismes sans but lucratif peuvent présenter ces montants comme un composant séparé des soldes de fonds, s'ils le désirent;
- afin de clarifier que les revenus et les dépenses doivent être identifiés et présentés sur une base brute quand une organisation sans but lucratif agit en tant que principal dans les transactions;
- pour rendre le chapitre 1540, « États des flux de trésorerie », applicable aux organismes sans but lucratif; et
- pour rendre le chapitre 1751, « États financiers intermédiaires », applicable aux organismes sans but lucratif qui préparent des états financiers intermédiaires selon les principes comptables généralement reconnus.

Ces normes entrent en vigueur pour les années fiscales commençant à partir du 1er avril 2009. L'incidence de ces nouvelles normes sur les états financiers reste à être déterminée.

4. Découvert bancaire

Le découvert bancaire en date du 31 mars 2009 est de 316 000 $ en raison des chèques en circulation. Le CUSB dispose d'une marge de crédit d'un montant autorisé de 3 000 000 $ portant des intérêts au taux préférentiel plus 0,25 %. Le CUSB n'utilise pas sa marge de crédit en date du 31 mars 2009.

5. Placements

	2009	2008
	000 $	000 $
À court terme		
Encaisse et titres à revenus fixes à court terme	**885**	2 290
À long terme		
Titres à revenus fixes à long terme	**11 871**	11 366
Actions canadiennes	**3 096**	3 083
Actions américaines	**1 099**	1 213
Actions étrangères	**976**	1 178
Autres	**12**	12
	17 054	16 852
	17 939	19 142

Les titres à revenus fixes à long terme portent des intérêts variant de 4 % à 10 % (de 4 % à 10 % en l'année 2008) et venant à échéance entre le 19 mai 2010 et le 31 décembre 2053 (le 15 juin 2009 et le 31 décembre 2053 en l'année 2008).

6. Immobilisations

			2009	2008
	Coût	**Amortissement cumulé**	**Valeur comptable nette**	Valeur comptable nette
	000 $	**000 $**	**000 $**	000 $
Immeubles et améliorations	**18 640**	**7 747**	**10 893**	9 952
Équipement et ameublements	**5 138**	**3 276**	**1 862**	1 950
Équipement informatique et logiciels	**5 982**	**5 540**	**442**	444
	29 760	**16 563**	**13 197**	12 346

7. Contributions reportées

Les contributions reportées sont constituées des apports qui ont été reçus aux fins d'activités et de projets particuliers, et des affectations d'origine externe qui n'ont pas encore été dépensées. Le tableau ci-dessous présente sommairement l'évolution des contributions reportées :

	2009	2008
	000 $	000 $
Solde, au début de l'exercice	**1 121**	978
Apports reçus	**2 000**	970
Virements aux revenus	**(2 077)**	(827)
Changement net de l'exercice	**(77)**	143
Solde, à la fin de l'exercice	**1 044**	1 121

8. Obligations relatives aux avantages sociaux et au régime de pension des employés

Les obligations relatives aux avantages sociaux futurs, sauf le régime de pension, se rapportent à l'assurance vie et invalidité et à l'assurance médicale et dentaire des employés. Il s'agit de régimes d'assurance privés dont les primes sont assumées conjointement par le CUSB et ses employés. Le CUSB administre en outre son propre régime d'assurance invalidité de courte durée, dont il assume les frais à titre de congés pour cause de maladie ou d'accident. Les dépenses relatives aux congés sabbatiques et d'étude du personnel enseignant sont comptabilisées dans l'exercice au cours duquel ces congés sont pris. Le CUSB comptabilise les congés annuels à venir de tous les membres de son personnel, ainsi que les congés administratifs.

Le régime de pension du CUSB est un régime à cotisations déterminées, et les cotisations patronales qu'il y verse constituent sa seule obligation, car il n'encourt aucune responsabilité quant au rendement des placements effectués dans le cadre du régime.

9. Engagements

Location d'équipement

Le CUSB est locataire de pièces d'équipement inhérentes à ses activités. Les dates d'expiration des contrats de location visés s'échelonneront sur les cinq prochains exercices financiers. Les loyers ainsi exigibles s'élèvent à moins de 80 000 $ par année.

Autoassurance

Le CUSB est membre du Mécanisme d'assurance réciproque pour les universités canadiennes (CURIE), une coopérative d'autoassurance qui comprend au-delà de quarante universités et collèges canadiens. CURIE assure les dommages à la propriété, la responsabilité civile et les risques d'erreur et d'omission. Si les primes perçues et les réserves cumulées sont insuffisantes pour couvrir les dépenses et les réclamations des membres, le CUSB pourrait se voir dans l'obligation de payer des sommes additionnelles.

10. Soldes des fonds d'affectations d'origine interne

	Début de l'exercice	Opérations majorations	Retraits	Fin de l'exercice
	000 $	000 $	000 $	000 $
Bourses et prix	2 207	38	-	2 245
Campagne de levée de fonds/ appariement des dons	1 101	17	(29)	1 089
Projets stratégiques	1 256	20	(78)	1 198
Projets d'immobilisations importantes	1 704	29	-	1 733
Financement de transition de programmes et de services	2 441	42	-	2 483
	8 709	146	(107)	8 748

Selon la politique en vigueur, les fonds d'affectations d'origine interne portent l'intérêt au taux annuel de l'indice des prix à la consommation de 1,7 % (1,6 % en 2007-2008). Cette mesure vise à protéger les soldes contre les effets de l'inflation.

Les fonds d'affectations d'origine interne comprennent des soldes de fonds non affectés du Fonds de fonctionnement général qui font l'objet d'une affectation d'origine interne par le Bureau des gouverneurs.

Les principales catégories et la nature des affectations d'origine interne sont les suivantes :

Bourses et prix - les produits financiers générés par le solde de ce fonds sont destinés à augmenter le montant annuellement disponible pour l'attribution des bourses aux étudiants et aux étudiantes qui proviennent des fonds d'affectations d'origine externe du Fonds de dotation ainsi que des subventions et des dons annuels.

10. Soldes des fonds d'affectations d'origine interne (suivi)

Campagne de levée de fonds/appariement des dons - ces fonds sont prévus pour suppléer, au besoin, aux ressources disponibles, dans le cadre de l'organisation d'une importante campagne de financement et au programme d'appariement de dons et de contributions.

Projets stratégiques - ces fonds sont destinés à combler la différence entre les montants requis et les ressources disponibles dans le but de compléter des projets ou d'entamer des projets de nature stratégique mais de courte durée. Quoique non exhaustives, les catégories de projets suivantes ont été retenues :

a) recherche : les fonds destinés à suppléer au Fonds de fonctionnement général pour effectuer les projets de recherche entrepris par les professeurs et les professeures;

b) bibliothèque : les fonds destinés à suppléer au Fonds de fonctionnement général pour l'achat de matériel documentaire nécessaire dans le but d'appuyer l'enseignement et la recherche;

c) recrutement, marketing, encadrement de la clientèle étudiante, soutien linguistique, programme de sécurité et autres projets de fonctionnement : les fonds destinés à suppléer, de façon ponctuelle, aux besoins de base dans une situation où les ressources disponibles sont insuffisantes.

Projets d'immobilisations importantes - ces fonds sont destinés au financement des étapes préliminaires de projets d'agrandissement des espaces physiques du CUSB, à la contribution d'une partie des coûts en capital d'un projet ou à l'acquisition de futures immobilisations.

Financement de transition de programmes et de services - ces fonds sont destinés au maintien de certains programmes ou services pour une période de courte durée, touchés par une baisse dans le financement accordé par les gouvernements ou un retrait partiel ou total d'un financement donné.

11. Fonds de dotation

Le Fonds de dotation est considéré comme étant totalement constitué d'affectations d'origine externe et est destiné à l'attribution de bourses et de prix aux étudiants et aux étudiantes. Le Fonds de dotation comprend les dons qui font l'objet d'une affectation d'origine externe et dont le don principal doit être maintenu à perpétuité. Le revenu de placement généré par le Fonds de dotation doit être utilisé en accord avec les diverses intentions exprimées par les donateurs.

Dans le cadre de ses responsabilités fiduciaires, le CUSB s'assure que tous les fonds accompagnés de restrictions qui ont été reçus sont dépensés aux fins pour lesquels ils ont été donnés. Le CUSB a établi une politique visant à protéger la valeur réelle des fonds de dotation. Le montant du revenu pouvant être dépensé est limité et un montant est ajouté pour la préservation du capital.

12. Gestion des risques financiers

Le CUSB, dans le cours normal de ses activités, est exposé à différents risques, notamment le risque de crédit, du marché et des variations aux taux d'échange. L'objectif du CUSB en matière de gestion des risques est de favoriser l'optimisation du rapport risque-rendement, à l'intérieur de limites définies, en appliquant des stratégies, des politiques ainsi que des processus de gestion et de contrôle des risques intégrés à l'ensemble des activités du CUSB.

Risque de crédit

Le risque de crédit est le risque de perte couru par le CUSB lorsqu'une contrepartie à un instrument financier ne réussit pas à respecter ses obligations contractuelles. Le CUSB est exposé principalement au risque de crédit au niveau des placements et des comptes à recevoir.

L'exposition maximale du CUSB au risque de crédit, qui ne tient compte d'aucune garantie ni d'autres améliorations des termes de crédit, est la suivante :

	2009	2008
	000 $	000 $
Placements	**17 939**	19 142
Comptes à recevoir - inscriptions et autres	**493**	418
Comptes à recevoir - subventions	**5 193**	4 488
	23 625	24 048

Il y a concentration du risque au niveau des placements lorsqu'une portion importante du portefeuille est constituée de placements dans des valeurs présentant des caractéristiques semblables ou sensibles aux mêmes facteurs économiques, politiques ou autres. Les énoncés de la politique et des procédures de placements du CUSB, qui sont revus chaque année, spécifient les placements admissibles ainsi que les lignes directrices et les restrictions concernant chaque catégorie de placements admissibles, de manière à réduire le risque. Le CUSB contrôle la santé financière de ses placements de manière continue avec l'aide de son comité de finances, son sous-comité de placements et de ses conseillers en placements.

Le CUSB n'est pas exposé au risque de crédit significatif pour les comptes à recevoir – subventions parce qu'ils sont principalement recevables du gouvernement.

Le CUSB n'est pas exposé au risque de crédit significatif puisque les comptes à recevoir – inscriptions et autres viennent d'une grande base de clients et le paiement est typiquement entièrement acquitté lorsqu'il est dû. Le CUSB a établi une provision pour créances douteuses qui représente son évaluation des pertes de crédit potentielles. La provision pour créances douteuses est fondée sur les évaluations et les hypothèses de la gestion concernant les conditions de marché courantes, l'analyse des clients et les tendances historiques de paiement.

12. Gestion des risques financiers (suivi)

Risque du marché

Le risque du marché correspond au risque de variation de la juste valeur d'instruments financiers découlant d'une fluctuation des paramètres affectant cette valeur, notamment les taux d'intérêt, les taux de change et leur volatilité.

Les titres négociables détenus par le CUSB sont soumis aux risques du marché. La valeur de ces instruments financiers fluctuera selon l'évolution des cours du marché ou des facteurs influant sur la valeur des placements qui les sous-tendent, tels que les taux d'intérêt, l'indice des prix à la consommation, l'incertitude économique, les modifications législatives, et la conjoncture politique à l'échelle nationale et internationale.

Risque de change

Les fluctuations de la valeur du dollar canadien par rapport aux devises étrangères se répercuteront sur la valeur, en dollars canadiens, de tout titre négociable détenu par le CUSB. Ces fluctuations pourraient réduire, voire effacer, tout rendement obtenu sur des titres étrangers. La position de change pourrait accroître la volatilité des investissements étrangers par rapport aux investissements canadiens.

13. Chiffres comparatifs

Certains chiffres de l'année précédente ont été modifiés afin de refléter les changements apportés à la présentation de l'année courante.

Auditors' Report

To the Directors of
COMMUNITIES ECONOMIC DEVELOPMENT FUND

We have audited the statement of financial position of the **COMMUNITIES ECONOMIC DEVELOPMENT FUND** as at March 31, 2009 and the statements of operations and cash flows for the year then ended. These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Fund as at March 31, 2009 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Interest received	1,800,738	2,180,387

The accompanying summary of significant accounting policies and notes are an integral part of these financial statements.

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reported period. Significant estimates are involved in the valuation of loans receivable. Actual results may differ from those estimates. The significant accounting policies used in these financial statements are as follows:

Financial Instruments

The Fund recognizes and measures financial assets and financial liabilities on the Statement of Financial Position when they become a party to the contractual provisions of a financial instrument. All transactions related to financial instruments are measured at fair value on initial recognition. Measurement in subsequent periods depends on whether the financial instrument has been classified as held-for-trading, loans and receivables, held-to-maturity, available for sale or other financial liabilities.

Transaction costs for financial instruments are capitalized and then amortized over the term of the instrument using the effective interest rate method.

The corporation classifies its financial instruments as follows based on the purpose for which the asset was acquired and follows the disclosed accounting policy for each category.

Assets/Liability	Category	Measurement
Cash	Held for trading	Fair value
Trust deposits	Held for trading	Fair value
Accounts receivable	Loans and receivables	Amortized cost
Loans receivable	Loans and receivables	Amortized cost
Due to/from related parties	Loans and receivables	Amortized cost
Accounts payable	Other financial liabilities	Amortized cost

- Held for trading items are carried at fair value, with changes in their fair value recognized in the statement of operations.

- Other financial liabilities are carried at amortized cost, using the effective interest method.

Financial Instruments (continued)

- Loans and receivables are carried at amortized cost, using the effective interest rate method, less any provision for impairment. Loans considered uncollectible are written-off. Recoveries on loans previously written-off are taken into income. In the absence of readily ascertainable market values, management has estimated that fair value would not differ materially from carrying value. Factors considered in this determination include underlying collateral, market conditions, financial data and projections of the borrowers. Because of the inherent uncertainty of valuation, the estimate of fair value may differ significantly from the values that would have been used had a ready market for the assets existed.

Allowance for Doubtful Loans

Business Loan Program - The loans are reviewed quarterly to assess potential impairment or loss of value. Impaired loans are defined as those which are greater than two payments in arrears and for which the value of realizable security is less than the value of the loan outstanding. In these cases, a "specific" allowance is accrued equal to the value of the potential security shortfall or impairment. In all other cases, including loans that are both current and for which there is excess security value, a "non-specific" allowance equal to 5% of the outstanding loan balance is recorded.

Fisheries Loan Program - The allowance for doubtful loans on fisheries loans and interest receivable is calculated based on the present value of future cash flows for those loans which, if they maintain their past payment history, will fail to retire their debt completely within the agreed term. The net present value ("NPV") formula used for calculating the allowance for doubtful loans is recognized by the Canadian Institute of Chartered Accountants, however, it does not account for closure of a fishery or regulated reduction of production. In the event of the closure of a fishery or regulated reduction of production, the NPV formula may not adequately provide for doubtful loans.

Revenue Recognition

Interest on loans is recorded as income on an accrual basis except for loans which are considered impaired. When a loan becomes impaired, recognition of interest ceases when the carrying amount of the loan (including accrued interest) exceeds the estimated realizable amount of the underlying security. The amount of initial impairment and any subsequent changes are recorded through the provision for doubtful loans as an adjustment of the specific allowance.

Pension Expense and Obligation

The employees of the Fund are not members of the Civil Service of the Province of Manitoba but they contribute to, and are pensionable under, the Civil Service Superannuation Fund. In accordance with the provisions of the Manitoba Civil Service Superannuation Act, the Fund will contribute 50% of the pension payments made to retired employees. The current pension expense consists of the employer's share of pension benefits paid to retired employees, as well as the increase in the unfunded pension liability during the fiscal year. This liability is determined actuarially every three years with the balances for the intervening years being determined by a formula provided by the actuary. The most recent actuarial valuation as at December 31, 2007 indicated the accrued liability is in line with the obligation forecast in the report.

In fiscal years prior to 1989, the Fund charged to operations contributions to the Manitoba Civil Service Superannuation Fund which amounted to 50% of the pension payments made to retired employees. Beginning in the 1989 fiscal year, the Fund has recorded a provision to fund current service obligations.

The total liability as at March 31, 2009 amounts to $1,994,336 (2008 - $1,895,420).

Capital Assets

Capital assets are stated at cost less accumulated amortization. Amortization based on the estimated useful life of the asset is calculated on a straight-line basis as follows:

Building	2%
Office furniture and equipment	10 to 30%
Parking Lot	50%

Future Accounting Pronouncements

Recent accounting pronouncements that have been issued but are not yet effective, and have a potential implication for the Fund, are as follows:

Financial Statement Concepts

CICA Handbook Section 1000, Financial Statement Concepts has been amended to focus on the capitalization of costs that truly meet the definition of an asset and de-emphasizes the matching principle.

The revised requirements are effective for annual and interim financial statements relating to fiscal years beginning on or after October 1, 2008. The Fund is currently evaluating the impact of the adoption of this change on the disclosure within its financial statements.

Future Accounting Pronouncements (continued)

Financial Statement Presentation by Not-for-Profit Organizations

Section 4400 has been amended for the treatment of net assets invested in capital assets and for the presentation of revenues and expenses. The new standard is effective for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2009. The Fund is currently assessing the impact of the new standard.

Disclosure of Related Party Transactions by Not-for-Profit Organizations

Section 4460 has been amended to make the language in Section 4460 consistent with related Party Transactions, Section 3840. The changes are effective for interim and annual financial statements beginning on or after January 1, 2009. The Fund is currently assessing the impact of the new standard.

1. Nature of the Fund

The Communities Economic Development Fund was established in 1971 (Ch. C155) as a Crown Corporation to encourage the optimum economic development of remote and isolated communities within the Province of Manitoba. With an act revision passed in July 1991 the objective of the Fund was set to encourage economic development in Northern Manitoba, to act as a lending authority in the fishing industry in the Province of Manitoba and to provide financial assistance to Aboriginal people in the Province outside the City of Winnipeg. The Business and Fisheries Loan Programs are administered under the C.E.D.F. Act.

2. Change in Accounting Policy

On April 1, 2008, the Fund adopted Section 1535, "Capital Disclosures". This Section requires that an entity disclose information that enables the users of its financial statements to evaluate an entity's objectives, policies and processes for managing capital, including disclosure of any externally imposed capital requirements and the consequences of non-compliance. The adoption of this Section required that information on capital management be included in the notes to the financial statements. This disclosure has been made in Note 12, Capital Management.

3. Due from the Province of Manitoba

Annually, the Province of Manitoba provides a grant to cover the Fund's anticipated subsidy requirements for the year. The amount of $2,350,535 (2008 - $1,970,351) represents additional funds needed to cover the actual requirements for the year including coverage for the pension liability. The balance is comprised of the following:

	2009	2008
Department of Aboriginal and Northern Affairs		
Subsidy (refundable)	**$ 188,429**	$ (248,032)
Order in Council pending	**107,281**	258,244
Pension (unfunded)	**1,973,284**	1,876,021
Pension (funded)	**16,141**	18,718
Severance accrual (unfunded)	**65,400**	65,400
	$ 2,350,535	$ 1,970,351

4. Loans Receivable

	2009	2008
Business Loan Program		
- Interest rates applied range from 4.125% to 5.5%		
Principal	$ 11,189,982	$ 11,849,346
Accrued interest	793,581	700,878
	11,983,563	12,550,224
Allowance for doubtful loans (Note 8)	2,050,981	2,019,245
	9,932,582	10,530,979
Fisheries Loan Program		
- Interest rates applied range from 4.125% to 5.25%		
Principal	12,904,372	12,665,450
Accrued interest	1,050,348	1,091,302
	13,954,720	13,756,752

5. Capital Assets

	2009			2008
	Cost	Accumulated Amortization	Net Book Value	Net Book Value
Office furniture and equipment	$ 148,640	$ 115,847	$ 32,793	$ 13,156
Building	931,236	4,656	926,580	-
Land	92,482	-	92,482	92,482
Parking Lot	73,000	36,500	36,500	-
Total	$ 1,245,358	$ 157,003	$ 1,088,355	$ 105,638

6. Commitments

Loan Commitments

	2009	2008
Undisbursed balance of approved loans	$ 1,578,621	$ 467,280

7. Advance by the Province of Manitoba

	2009	2008
Business Loan Program (Note 9)	$ 11,261,380	$ 10,705,422
Fisheries Loan Program (Note 9)	9,711,405	10,118,183
Building mortgage	1,000,000	-
	$ 21,972,785	$ 20,823,605

The Fund obtains capital for the purpose of carrying out its mandate of providing financial assistance in the form of loans and guarantees through loans provided by the Department of Finance. Term loans bear interest at the rates posted by the Department of Finance at time of issue. The Fund also has the option to draw funds on floating rates set periodically at the Royal Bank prime rate minus 3/4%. At year end, the Fund's instruments bore rates ranging from 4.10% to 5.75% with a weighted cost of capital of 4.56%.

8. Allowance for Doubtful Loans

The change in the allowance is accounted for as follows:

			2009	2008
	Specific	Non-Specific	Total	Total
Business Loan Program				
Balance, beginning of year	$ 1,571,687	$ 447,558	$ 2,019,245	$ 1,739,027
Provision for the year	179,675	(3,843)	175,832	706,893
	1,751,362	443,715	2,195,077	2,445,920
Loans written-off	(144,096)	-	(144,096)	(426,675)
Balance, end of year	$ 1,607,266	$ 443,715	$ 2,050,981	$ 2,019,245
Fisheries Loan Program				
Balance, beginning of year			$ 3,026,327	$ 3,140,168
Provision for the year			105,000	-
			3,131,327	3,140,168
Loans written-off			-	(113,841)
Balance, end of year			$ 3,131,327	$ 3,026,327

The provision for fish loan losses recorded by the Fund exceeds the value derived by the net present value formula as at March 31, 2009 by $374,081 (2008 - $266,810).

	2009	2008
Loan Loss Provision		
Per accounts	$ 3,131,327	$ 3,026,327
Per net present value calculation	(2,757,246)	(2,759,517)
	$ 374,081	$ 266,810

The commercial fishing industry is cyclical in nature and as a result, no adjustment has been made to the loan loss provision as at March 31, 2009.

9. Loan Programs

Business Loan Program

The Communities Economic Development Fund is included under the Province of Manitoba's Loan Act Authority. Advances from the Province of Manitoba bear interest at rates established by the Minister of Finance pursuant to "The Loan Act, 2008". The advances are repayable at any time in whole or in part at the option of the Lieutenant Governor in Council.

Advances from the Business Loans Program are accounted for as follows:

	2009	2008
Advances, beginning of year	**$ 12,887,269**	$ 11,737,235
Loan advances	**2,590,197**	1,687,381
Loan advance repayments	**(1,950,543)**	(406,925)
Loan write-offs	**(107,281)**	(130,422)
	13,419,642	12,887,269
Unfunded allowance, beginning of year	**2,181,847**	1,830,354
Provision for doubtful loans	**175,832**	706,893
Write-offs (Order in Council approved)	**(199,417)**	(355,400)
	2,158,262	2,181,847
Net balance, end of year (Note 7)	**$ 11,261,380**	$ 10,705,422

Fisheries Loan Program

Advances to the Fisheries Loan Program are accounted for as follows:

	2009	2008
Advances, beginning of year	**$ 13,240,135**	$ 14,279,620
Loan advance repayments	**(301,778)**	(1,012,243)
Loan (write-offs)	**(95,641)**	(27,242)
	12,842,716	13,240,135
Unfunded allowance, beginning of year	**3,121,952**	3,149,194
Provision for doubtful loans	**105,000**	-
Write-offs (Order in Council approved)	**(95,641)**	(27,242)
	3,131,311	3,121,952
Net balance, end of year (Note 7)	**$ 9,711,405**	$ 10,118,183

10. Loan Act Authority

Amounts authorized for advances under "The Loan Act, 2008" are as follows:

	2009
Per Schedule A of "The Loan Act, 2008"	$ 5,150,100
Per Schedule B of "The Loan Act, 2007"	8,149,912
Direct loans	13,300,012
Authority used	6,850,000
Unused Loan Act capital available	$ 6,450,012

11. Economic Dependence

The ongoing operations of the Communities Economic Development Fund depends on obtaining adequate financing and funding. The Fund is dependent upon the Province of Manitoba for funding of operations.

12. Capital Management

The Fund considers its capital to be comprised of advances from the Province of Manitoba. There has been no change to what the Fund considers to be its capital since the prior period.

The Fund manages its capital to ensure it retains sufficient cash resources to enable it to carry out its strategic plan. The Fund endeavours to manage its subsidy from the Province of Manitoba within $1,500,000 on an annual basis.

13. Contingency

The Fund has been named as a defendant in a statement of claim. At the time of preparation of these financial statements, the outcome of this claim is not determinable and, accordingly, no provision for settlement (if any) has been recorded in these financial statements. Settlement amounts (if any) will be charged to operations in the year of settlement.

14. Financial Instrument Risk Management and Exposures

There have been no substantive changes in the Fund's exposure to financial instrument risks, its objectives, policies and processes for managing those risks or methods used to measure them from previous periods.

The Board has overall responsibility for the determination of the Fund's risk management objectives and policies and has identified significant exposure to credit risk.

Credit Risk

Credit risk is the risk of loss to the Fund if a counterparty to a financial instrument fails to meet its contractual obligations. The Fund has significant outstanding loans and is mainly exposed to credit risk through the credit quality of the individuals and businesses to whom the fund has loaned funds.

Credit risk rating systems are designed to assess and quantify the risk inherent in credit activities in an accurate and consistent manner. To assess credit risk, the Fund takes into consideration the individual's ability to pay, and value of collateral available to secure the loan. The Fund's maximum exposure to credit risk, without taking into account any collateral or other credit enhancements is $20,755,975 ($21,261,404 in 2008).

Interest Rate Risk

Interest rate risk is the impact that changes in market interest rates will have on the operations of the Fund. The Fund holds $21,269,270 ($21,542,601 in 2008) in interest bearing deposits and loans receivable at March 31, 2009. The Fund has mitigated this risk by adjusting interest rates for fish loans on a quarterly basis and interest rates for business loans on a monthly basis based on its weighted average cost of capital.

Fair Value

The carrying values of cash, trust deposits amounts due from the Province of Manitoba, advances, accounts receivable and accounts payable and accrued liabilities and interest payable to the Province of Manitoba approximate their fair value due to the relatively short periods to maturity of these items or because they are receivable or payable on demand.

The fair value of loans receivable are not practical to determine due to the limited amount of comparable market information available and the uncertainty of the timing of cash flows of the loans. The carrying value of the accrued pension liability approximates the fair value as an annual calculation and update of the liability is done.

COMMUNITIES ECONOMIC DEVELOPMENT FUND

The Co-operative Loans and Loans Guarantee Board

Responsibility for Financial Reporting

The accompanying Schedule of Loan Guarantee Transactions, and other financial information in the Annual Report for the year ended March 31, 2009, are the responsibility of management and have been approved by the Board. This Schedule was prepared by management in accordance with the accounting policies set out in Note 2 to the Schedule. Any financial information contained elsewhere in the Annual Report conforms to the Schedule of Loan Guarantees.

As management is responsible for the integrity of the Schedule, management has established systems of internal control to provide reasonable assurance that assets are properly accounted for and safeguarded from loss.

The responsibility of the Office of the Auditor General is to perform an independent examination of the Schedule of Loan Guarantee Transactions of the Board in accordance with Canadian generally accepted auditing standards. The Auditors' Report outlines the scope of the audit examination and provides the audit opinion.

AUDITORS' REPORT
On the Schedule of Loan Guarantee Transactions

To the Legislative Assembly of Manitoba
To the Members of The Co-operative Loans and Loans Guarantee Board

We have audited the schedule of loan guarantee transactions of The Co-operative Loans and Loans Guarantee Board as at March 31, 2009. This financial information is the responsibility of the Board's management. Our responsibility is to express an opinion on this schedule based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial information is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial information. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial information.

In our opinion, this schedule presents fairly, in all material respects, the loan guarantee transactions of the Board as at March 31, 2009, in accordance with Canadian generally accepted accounting principles.

Approved by the Board:

Chairperson

Secretary

The Co-operative Loans and Loans Guarantee Board

Notes to the Schedule
for the year ended March 31, 2009

1. Nature of Operations

The Co-operative Associations Loans and Loans Guarantee Act established the Board with the primary objective of ensuring that cooperative organizations have access to basic financial services. The Board is empowered to make loans or guarantee loans to cooperative organizations in Manitoba. Manitoba Agriculture, Food and Rural Initiatives administers the activities of the Board. The Department pays all administrative and general operating costs of the Board. The Board may charge a fee for its loans and loan guarantees. The Department records all revenue received.

2. Accounting Policies

a) Loan guarantees are stated at the amount guaranteed.
b) The Government of the Province of Manitoba provides the services of support staff, other administrative support services, office space and utilities. The cost of support staff services for 2009 is estimated at $4678 (2008 - $6,920) with another $2107 (2008 - $2,255) for provincially paid identified expenses. The costs of other administrative support services, office space and utilities are deemed too difficult to estimate and as such no amount has been determined.
c) In the event of a default on a loan guarantee, the Province of Manitoba is responsible for the payout of the guaranteed amount.

3. Loan Guarantees

a) S M W Workers Co-op Ltd.

On March 15, 1999, the Board approved an offer of a ten-year loan guarantee for S M W Workers Co-op Ltd. of $120,000. The loan guarantee was to reduce by $12,000 per year, beginning on July 31, 2000. The Assiniboine Credit Union Limited and the S M W Workers Co-op Ltd. accepted the loan guarantee, in July 1999.

On June 25, 2002, the Board approved a new $110,000 loan guarantee to replace the outstanding $96,000 loan guarantee. The Minister of Industry, Trade and Mines approved the new loan guarantee on June 27, 2002. The Assiniboine Credit Union Limited and the S M W Workers Co-op Ltd. accepted the loan guarantee, on January 7, 2003. The loan guarantee shall reduce by $11,000 per year beginning February 4, 2004.

On May 6, 2008, the lender returned its original copy of the guarantee and having advised that it had released its interest. This guarantee has been cancelled effective on the date of the notice from the lender.

3. Loan Guarantees (Continued)

b) Lakeview Consumer Co-op Ltd.
On December 19, 2006, the Board approved a $30,000 loan guarantee. The Winnipeg River Brokenhead Community Futures Development Corporation accepted the loan guarantee and signed an agreement with Lakeview Consumer Co-op Ltd dated March 5, 2007. The loan guarantee shall reduce by $6,000 per year beginning on May 3, 2008.

The Co-op ceased operation on September 12th, 2008 and the lender subsequently advised that the loan had not been repaid. The amount to be paid out in respect of this guarantee is not determinable at this time. The amount could be from $0 to $24,000 plus interest.

4. Loan Act Authority

The Government of the Province of Manitoba has authorized the following amounts to be expended for funding loans and loan guarantees:

Authority	Outstanding Expenditure Authority
The Loan Act, 2008 (Schedule B)	
Guarantees	$3,500,000
Less: Amounts committed by the Board	24,000
	$3,476,000

5. Compensation Disclosure

The Public Sector Compensation Disclosure Act requires disclosure of the aggregate compensation paid to The Co-operative Loans and Loans Guarantee Board members and of individual compensation paid to board members or staff where such compensation exceeds $50,000 per year. For the period from April 1, 2008 to March 31, 2009, The Co-operative Loans and Loans Guarantee Board paid Board members an aggregate of $ 0 (2008 $395). This amount is included in Note 2 b).

AUDITORS' REPORT

To the Legislative Assembly of Manitoba
To the Members of The Cooperative Promotion Board

We have audited the balance sheet of The Cooperative Promotion Board as at March 31, 2009, the General Account statement of revenue and expense and fund balance and the Commercial Fishing Account statement of revenue and expense and fund balance for the year then ended. These financial statements are the responsibility of the Board's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Board as at March 31, 2009, and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

1. Nature and Objectives of the Board

The Cooperative Promotion Board (the Board) operates under the terms of The Cooperative Promotion Trust Act (The Act), which came into force on December 20, 1988. The Board is a continuation of the Board established under The Wheat Board Money Trust Act. The Wheat Board Money Trust Act was repealed when the Cooperative Promotion Trust Act came into force. The Department of Agriculture, Food and Rural Initiatives administers the activities of the Board.

General Account

The General Account funds controlled by the Board consist of surplus funds of the original Canadian Wheat Board, apportioned to Manitoba by the Government of Canada (recorded as Contributed Capital), assets vested in the Board when the Cooperative Promotion Trust Act came into force, and assets acquired by the Board.

The objectives of the Board with regard to the General Account are to assist in the development of cooperative organizations, to promote the general welfare of cooperative organizations and rural residents in Manitoba and to make recommendations to the Minister responsible with respect to cooperative organizations and related legislation.

Commercial Fishing Account

The Commercial Fishing Account consists of funds donated by Northern Cooperative Services Ltd. As a condition of the donation, these funds are to be used exclusively for the promotion and development of commercial fishing in Manitoba.

2. Accounting Policies

a) General

These financial statements are prepared in accordance with Canadian generally accepted accounting principles (GAAP).

b) New Accounting Policies

Effective April 1, 2008 the Board adopted the following new accounting standards issued by the Canadian Institute of Chartered Accountants (CICA):

Section 1535 Capital Disclosure

Section 1535 establishes standards for disclosing information about an entity's capital and how it is managed. These standards require an entity to disclose its objectives, policies and processes for managing capital, a summary of quantitative data about what it manages as capital and whether it complied with any externally imposed capital requirements to which it is subject and, if not, the consequences of such non-compliance.

c) **Financial Instruments**

Financial assets and liabilities are initially recorded at fair value. Measurement in subsequent periods depends on the financial instrument's classification. The Board is required to designate its financial instruments into one of the following five categories: held for trading; available for sale; held to maturity; loans and receivables; and other financial liabilities. All financial instruments classified as held for trading or available for sale are subsequently measured at fair value with any change in fair value recorded in net earnings and other comprehensive income, respectively. All other financial instruments are subsequently measured at amortized cost.

The financial instruments of the Board consist of cash, accounts receivable, investments and accounts payable.

The Board has designated its financial instruments as follows:

Cash is classified as financial assets held for trading and is measured at fair value with gains and losses recognized in net earnings. Due to the redeemable nature of this financial asset, carrying value is considered to be fair value.

Investments are classified as financial assets held for trading and are measured at fair value with gains and losses recognized in net earnings. Due to the lack of an active market, cost is considered to be fair value.

Accounts receivable are classified as loans and receivables. These financial assets are recorded at their amortized cost using the effective interest rate method.

Accounts payable are classified as other financial liabilities. These financial liabilities are recorded at their amortized cost using the effective interest rate method.

It is management's opinion that the Board is not exposed to significant interest, currency or credit risk arising from these financial instruments.

The fair value of accounts receivable and accounts payable approximates their carrying values due to their short-term nature.

d) **Use of Estimates**

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingencies at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

e) **Future Accounting Policy Changes**

Disclosure and Presentation of Financial Instruments

The CICA has issued two new standards, Sections 3862 *Financial Instruments – Disclosures* and Section 3863 *Financial Instruments – Presentation*. The new standards are intended to enhance the abilities of users of financial statements to evaluate the significance of financial instruments to an entity, related exposures and the management of these risks.

These new sections, which were effective April 1, 2008, would require additional disclosure in the financial statements. However, the CICA subsequently amended these sections to eliminate the requirement for not-for-profit entities and rate-regulated enterprises to adopt these sections. These entities are permitted to continue to apply Section 3861 *Financial Instruments - Disclosure and Presentation* in place of sections 3862 and 3863. An entity that does so must disclose this fact.

Not-For-Profit Organizations
The CICA amended a number of standards applicable to not-for-profit organizations (NFPOs) and issued new standard, CICA 4470 *Disclosures of Allocated Expenses by Not-for-Profit Organizations.*

CICA 4400 *Financial Statement Presentation by Not-For-Profit Organizations* was amended to:

- clarify that revenues and expenses must be recognized and presented on a gross basis when a not-for-profit organization is acting as a principal in transactions; and
- make Section 1540 *Cash Flow Statements* applicable to NFPOs.

Section 4430 *Capital Assets Held by Not-For-Profit Organizations* was amended to provide additional guidance with respect to the appropriate use of the scope exemption for smaller entities.

Section 4460 *Disclosure of Related Party Transactions by Not-For-Profit Organizations* was amended to make the language in Section 4460 consistent with Section 3840 *Related Party Transactions.*

New Section CICA 4470 *Disclosure of Allocated Expenses by Not-For-Profit* Organizations establishes disclosure standards for not-for-profit organizations that choose to classify their expenses by function and allocate expenses from one function to another. The main features of the new Section are:

- A requirement for an entity that allocates its fundraising and general support expenses to other functions to disclose the policies adopted for the allocation of expenses among functions, the nature of the expenses being allocated and the basis on which such allocations have been made; and
- A requirement for an entity to disclose the amounts allocated from each of its fundraising and general support functions and the amounts and functions to which they have been allocated.

These new requirements are effective April 1, 2009 and will only require additional disclosure in the financial statements.

f) **Revenue Recognition**
Interest Revenue – Interest revenue earned from cash balances on hand is recorded on an accrual basis.

Administrative Expenses Paid For by the Province of Manitoba – The Province of Manitoba provides the services of support staff, other administrative support services, office space and utilities. The cost of support staff for 2009 is estimated at $22,390 (2008-$18,760) with another $4,999 (2008-$440) for provincially paid identified expenses. The costs of other administrative support services, office space and utilities are deemed too difficult to estimate and as such no amount has been determined.

3. Cash

General Account

The cash balance for the General Account includes $321,174 (2008 - $333,099) held in a high yield savings account at Assiniboine Credit Union at a fixed rate of 1.4% effective March 31, 2009. Interest is paid monthly.

Commercial Fishing Account

The cash balance for the Commercial Fishing Account is held in a high yield savings account at Assiniboine Credit Union at a fixed rate of .65% effective March 31, 2009. Interest is paid monthly.

4. Investments, Commercial Fishing Account

	2009	2008
Assiniboine Credit Union – Surplus Shares	$523	$507

5. Commercial Fishing Account

During 1993 and 1994, Northern Cooperative Services Ltd. donated $41,724 to the Board subject to the condition that these funds are to be used exclusively for the promotion and development of commercial fishing in Manitoba. These funds have earned interest and the balance available at March 31, 2009 is $72,808 (2008 - $71,448).

6. Statement of Cash Flows

A statement of cash flows has not been presented in these financial statements, as no additional information would be provided by its inclusion.

7. Compensation Disclosure

The Public Sector Compensation Disclosure Act requires disclosure of the aggregate compensation paid to the Cooperative Promotion Board members and of individual compensation paid to board members or staff where such compensation exceeds $50,000 per year. For the period of April 1, 2008 to March 31, 2009, the Cooperative Promotion Board paid Board members an aggregate of $1,361. No individuals received compensation greater than $50,000.

8. Commitments

As of March 31, 2009, the Board has approved grants in the amount of $22,500, for which the grant applicants had not yet met the payment conditions. If the payment conditions relating to these grants are met in the future, the commitments will be funded by the General Account.

9. Capital Disclosures

The Board's objective when managing its capital is to maintain sufficient capital to cover its costs of operations. The Board's capital consists of Contributed Capital, the General Account Fund Balance as well as the Commercial Fishing Account Fund Balance.

The Board meets its capital objectives through interest revenue earned.

The Board is subject to externally imposed capital requirements as imposed by Section 4(6) of The Act. This Section requires that the Board maintain a minimum realizable value of $129,000, essentially the amount of the Contributed Capital. The Board complied with the externally imposed capital requirements during the year.

The Cooperative Promotion Board

THE COUNCIL ON POST-SECONDARY EDUCATION

Responsibility for Financial Statements

The management of the Council on Post-Secondary Education is responsible for the financial reporting process that produces the financial statements and accompanying notes. The financial statements are prepared in accordance with Canadian generally accepted accounting principles.

The Council is responsible for overseeing management's performance of its financial reporting responsibilities. The statements are audited by the Auditor General of Manitoba, whose opinion is included herein.

In order to fulfill this responsibility, management maintains systems of internal control over the financial reporting process designed to provide assurance that relevant and reliable financial information is produced.

AUDITORS' REPORT

To the Legislative Assembly of Manitoba, and
To The Council on Post-Secondary Education

We have audited the statement of financial position of The Council on Post-Secondary Education as at March 31, 2009, and the statements of operations, changes in net assets and cash flows for the year then ended. These financial statements are the responsibility of the Council's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of The Council on Post-Secondary Education as at March 31, 2009, and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Total administrative and other expenses	$ 1,434,651	$ 1,392,545

Notes to Financial Statements
for the year ended March 31, 2009

1. Nature of Operations

The Council on Post-Secondary Education (COPSE) was established by an Act of the Legislature passed in 1997 and is composed of 11 members appointed by the Lieutenant-Governor-in-Council.

The Universities Grants Commission Act was repealed effective April 28, 1997 by the Council on Post-Secondary Education Act.

The Council on Post-Secondary Education Act provided that the University Grants Fund be continued as the Post-Secondary Grants Fund. All assets and liabilities of the Universities Grants Commission were transferred to the Council on Post-Secondary Education.

Primarily, the Council on Post-Secondary Education provides funding to Manitoba's universities and community colleges for approved programs and capital projects from funds received from the Province of Manitoba.

On April 11, 2006, Treasury Board authorized the reorganization of the Council on Post-Secondary Education Secretariat. This included the integration of the College Expansion Initiative into the Council on Post-Secondary Education Secretariat.

2. Significant Accounting Policies

A. Basis of Accounting

The Council on Post-Secondary Education's annual financial statements are prepared in accordance with Canadian generally accepted accounting principles using accounting standards for not-for-profit organizations.

B. Grant Payments

Operating, support program, college expansion initiative, tuition rebate, access, and strategic initiatives grants reflect payments to Manitoba universities and community colleges for their annual operations. These grants are funded on the basis of scheduled payments to meet the operating requirements of the universities and community colleges. Operating grants are also provided to private religious colleges and to the Winnipeg Technical College.

Major capital grants based on shared cost agreements are funded on a reimbursement basis. The university must first incur eligible costs as defined in the terms of the agreement, which the Council then reimburses.

Major capital grants to universities that are discretionary grants are funded when the university has met the eligibility criteria and fulfilled the conditions set out by the Council.

Equipment and renovation grants are provided to Manitoba universities and community colleges based on the cash flow requirements of those institutions.

C. Revenue Recognition

Revenue is recognized as funds are drawn from Province of Manitoba appropriations.

D. Vacation and Severance Benefits

Employees of the Council are entitled to vacation and severance benefits in accordance with the terms of the collective agreement. The liability for vacation is recorded based on the Council's best estimates. The liability for severance benefits is based on an actuarial valuation using the accrued benefit cost method and management's best estimates of salary escalation, retirement ages of employees and employee mortality. Actuarial gains or losses are recognized in the year they are incurred.

E. Employer's Share of Employees' Pension Benefits

Employees of the Council are pensionable under the Civil Service Superannuation Act. The Council accrues a provision for the liability for the employer's share of employee pension benefits, including future cost of living adjustments, based on an actuarial valuation using the accrued benefit cost method and management's best estimates of salary escalation, retirement ages of employees and employee mortality. Actuarial gains or losses are recognized in the year they are incurred.

F. Capital Assets

Capital assets are recorded at cost. Amortization is provided on a straight-line basis over the assets' estimated useful lives, in accordance with the Province of Manitoba guidelines, as follows:

Furniture	10 years
Leasehold Improvements	10 years
Computer Software	4 years
Machinery and Equipment	10 years
Computer Equipment	4 years

G. Measurement Uncertainty

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingencies at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from these estimates.

H. Financial Instruments

Initially, all financial assets and liabilities must be recorded on the balance sheet at fair value. Subsequent measurement is determined by the initial classification of each financial asset and liability. All financial instruments are classified as one of: (a) held-for-trading; (b) loans and receivables; (c) held-to-maturity; (d) available-for-sale or (e) other liabilities. Financial assets and liabilities classified as held-for-trading are measured at fair value with gains and losses recognized in net income (loss). Financial instruments classified as held-to-maturity, loans and receivables and other liabilities are measured at amortized cost. Available-for-sale financial instruments are measured at fair value, with unrealized gains and losses recognized directly in net assets.

The Council on Post-Secondary Education's financial instruments consist of cash, accounts receivable, long-term receivable, accounts payable, accrued liabilities and grants payable. The Council has designated cash as held-for-trading, accounts receivable and long-term receivable as loans and receivables, accounts payable and accrued liabilities, and grants payable as other liabilities.

I. Future Accounting Policy Changes

Disclosure and Presentation of Financial Instruments
The CICA has issued two new standards, CICA 3862 "Financial Instruments – Disclosures" and CICA 3863 Financial Instruments – Presentation" which are intended to enhance the abilities of users of financial statements to evaluate the significance of financial instruments to an entity, related exposures and the management of these risks.

These new standards, which were effective April 1, 2008, would require additional disclosure in the financial statements. However, the CICA subsequently amended these sections to eliminate the requirement for not-for-profit entities, and rate-regulated enterprises to adopt these sections. These entities are permitted to apply CICA 3861 "Financial Instruments - Disclosure and Presentation" in place of sections 3862 and 3863. An entity that does so must disclose this fact.

Not-For-Profit Organizations
The CICA amended a number of standards applicable to not-for-profit organizations (NFPOs) and issued new standard, CICA 4470 "Disclosures of Allocated Expenses by Not-for-Profit Organizations."

CICA 4400 "Financial Statement Presentation by Not-For-Profit Organizations" was amended to:

- eliminate the requirement to treat net assets invested in capital assets as a separate component of net assets and, instead, permit a NFPO to present such an amount as a category of internally restricted net assets when it chooses to do so;
- clarify that revenues and expenses must be recognized and presented on a gross basis when a not-for-profit organization is acting as a principal in transactions;
- make Cash Flow Statements, Section 1540 applicable to NFPOs; and
- make Interim Financial Statements, Section 1751, applicable to NFPOs that prepare interim financial statements in accordance with GAAP.

CICA 4430 "Capital Assets Held by Not-For-Profit Organizations" was amended to provide additional guidance with respect to the appropriate use of the scope exemption for smaller entities.

CICA 4460 "Disclosure of Related Party Transactions by Not-For-Profit Organizations" was amended to make the language in Section 4460 consistent with Related Party Transactions, Section 3840.

New standard CICA 4470 "Disclosure of Allocated Expenses by Not-For-Profit Organizations" establishes disclosure standards for not-for-profit organizations that choose to classify their expenses by function and allocate expenses from one function to another. The main features of the new Section are:

- A requirement for an entity that allocates its fundraising and general support expenses to other functions to disclose the policies adopted for the allocation of expenses among functions, the nature of the expenses being allocated and the basis on which such allocations have been made; and
- A requirement for an entity to disclose the amounts allocated from each of its fundraising and general support functions and the amounts and functions to which they have been allocated.

These new requirements are effective April 1, 2009 and will only require additional disclosure in the financial statements.

3. Change in Accounting Policies

Capital Disclosures

Section 1535, Capital Disclosures, establishes standards for disclosing information about an entity's capital to enable an evaluation of the entity's objectives, policies and processes for managing capital. These standards require an entity to disclose its objectives, policies and processes for managing capital, a summary of quantitative data about what it manages as capital and whether it complied with any externally imposed capital requirements to which it is subject and, if not, the consequences of such non-compliance. Adoption of this new standard has resulted in additional note disclosure (Note 11).

Disclosure and Presentation of Financial Instruments

The Council continues to apply Section 3861 *Financial Instruments - Disclosure and Presentation* in place of Sections 3862 and 3863.

4. Long-term Receivable – Province of Manitoba

The long term receivable from the Province of Manitoba represents the following recoverable amounts.

Severance Pay	$ 104,141	$ 104,141
Pension	1,065,560	1,138,793
	$ 1,169,701	$ 1,242,934

The amount recorded as a receivable from the Province for funding of the severance pay liability was initially based on the estimated value of the corresponding actuarially determined liability for severance pay as at March 31, 1998. Subsequent to March 31, 1998, the Province provides annual grant funding for severance expense. As a result, the change in the severance pay liability each year is fully funded. The interest component related to the receivable is reflected in the funding for severance expense. The receivable for severance pay will be paid by the Province when it is determined that the cash is required to discharge the related severance pay liabilities.

The Province has accepted responsibility for providing the funding for the Council's pension liability and related expense which includes an interest component. The Council has therefore recorded a receivable from the Province equal to the estimated value of its actuarially determined pension liability of $1,065,560 (2008 - $1,138,793) and has recorded revenue (expense) for the year ended March 31, 2009 equal to its pension expense (recovery) of ($16,474) (2008 - $123,388). The Province will make payments on the receivable when it is determined that the cash is required to discharge the related pension obligations.

5. Financial Instruments

Fair Value
The fair values of accounts receivable, accounts payable and accrued liabilities approximate their respective carrying values due to their short-term maturities. The fair value of the long-term receivable approximates its carrying value because the annual interest accretion is funded.

Risk Management

Interest Rate and Foreign Currency Risk

The Council's exposure to interest rate risk is considered low because of the short-term nature of its cash and accounts receivable. The majority of the balance of the long-term receivable is not subject to interest rate risk because it is derived from the provision for employer's share of employees' pension benefits.

The Council is not exposed to foreign currency risk as it has no foreign currency denominated financial instruments.

Credit Risk

Credit risk is the risk of potential loss to the Council if a counterparty to a financial instrument fails to discharge an obligation. The Council's credit risk is primarily attributable to its cash, accounts receivable and long-term receivable. The credit risk on cash is considered low as the counterparty is a high credit quality institution. The credit risk on accounts receivables and the long-term receivable is considered low because the counterparty is the Province of Manitoba.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at March 31 was:

	Carrying Amount	
	2009	**2008**
Financial Assets Held-For-Trading:		
Cash	$264,343	$335,417
Loans and Receivables:		
Accounts Receivable	1,265,915	746,108
Long-term Receivable – Province of Manitoba	1,169,701	1,242,934
	$2,699,959	$2,324,459

6. Capital Assets

	2009		
	Cost	Accumulated Amortization	Net Book Value
Furniture	$ 60,157	$ 56,287	$ 3,870
Leasehold Improvements	42,760	17,539	25,221
Computer Software	5,590	3,494	2,096
Office Equipment	10,685	10,057	628
Computer Equipment	25,422	22,848	2,574
	$ 144,614	$ 110,225	$ 34,389

	2008		
	Cost	Accumulated Amortization	Net Book Value
Furniture	$ 59,089	$ 53,653	$ 5,436
Leasehold Improvements	25,019	14,150	10,869
Computer Software	5,590	2,096	3,494
Office Equipment	10,685	9,437	1,248
Computer Equipment	24,196	20,776	3,420
	$ 124,579	$ 100,112	$ 24,467

7. Severance Benefits

Provision for Employees' Severance Benefits

	2009	2008
Balance at beginning of year	$ 106,539	$ 107,943
Benefits accrued	4,378	4,709
Interest accrued on obligations	7,458	7,568
Benefits paid	-	(13,681)
Balance at end of year	$ 118,375	$ 106,539

Severance Benefit Expenses

	2009	2008
Current service costs	$ 4,378	$ 4,709
Interest costs	7,458	7,568
Total	$ 11,836	$ 12,277

An actuarial valuation of the severance obligations as at March 31, 2005 was conducted by Ellement & Ellement Ltd., Consulting Actuaries. The key actuarial assumptions used were a rate of return of 7% (2008 – 7%), inflation 2.5% (2008 – 2.5%) and salary rate increases of 3.25% (2008 – 3.25%). The liability has been extrapolated to March 31, 2009 using a formula provided by the actuary.

8. Pension Benefits

Provision for Employer's Share of Employees' Pension Benefits

	2009	2008
Balance at beginning of year	$ 1,138,793	$ 1,070,551
Actuarial (gain)	(128,733)	-
Benefits accrued	41,069	47,552
Interest accrued on obligations	71,190	75,836
Benefits paid	(56,759)	(55,146)
Balance at end of year	$ 1,065,560	$ 1,138,793

Net Pension Benefit Expense (Recovery)

	2009	2008
Current service costs, net of employee contributions	$ 41,069	$ 47,552
Interest costs	71,190	75,836
Amortization of actuarial gain	(128,733)	-
Net Pension Benefit Expense (Recovery)	$ (16,474)	$ 123,388

An actuarial valuation of the pension obligations as at December 31, 2007 was conducted by Ellement & Ellement Ltd., Consulting Actuaries. The key actuarial assumptions used were a rate of return of 7% (2008 – 7%), inflation 2.5% (2008 – 2.5%), salary rate increases of 3.25% (2008 – 3.25%) and post retirement indexing at 2/3 of the inflation rate. The liability has been extrapolated to March 31, 2009 using a formula provided by the actuary.

9. Contractual Obligations

The Council on Post-Secondary Education has approved incremental funding to be provided in fiscal years 2009/10 to 2012/13 for the following new programs:

System Restructuring Envelope	$ 300,000
Strategic Program Envelope	1,322,800
Total	$ 1,622,800

10. Related Party Transactions

In addition to those related party transactions disclosed elsewhere in these financial statements, the Council on Post-Secondary Education is related in terms of common ownership to all Province of Manitoba created departments, agencies and Crown corporations. The Council on Post-Secondary Education enters into transactions with these entities in the normal course of business. These transactions are recorded at the exchange amount.

11. Capital Disclosures

The Council's capital is comprised of its net assets, which include Unrestricted Net Assets and Investment in Capital Assets. The Council manages its capital through an approved operating budget. The Council has been successful in achieving a balanced budget by restricting spending to within the funded amounts. The Council is not subject to any externally imposed capital requirements.

The Council's Statement of Changes in Net Assets sets out the balances in Unrestricted Net Assets and the Investment in Capital Assets at the beginning and end of the year.

12. Economic Dependence

The Council is economically dependent on funding received from the Province of Manitoba.

Auditors' Report

To the Members of
CROWN CORPORATIONS COUNCIL

We have audited the balance sheet of **CROWN CORPORATIONS COUNCIL** as at December 31, 2008 and the statement of income and reserve reflecting net investment in capital assets for the year then ended. These financial statements are the responsibility of the Council's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Council as at December 31, 2008 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

1. Nature of organization

The Crown Corporations Council (the "Council") is a body corporate established on June 5, 1989 under the Crown Corporations Public Review and Accountability Act.

The mandate of the Council is to facilitate clear mandates, development of performance measures and consistent practices and to review corporate plans of Crown corporations under its purview.

2. Significant accounting policies

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles. Outlined below are those principles considered particularly significant for the Council.

a) Financial Instruments

The Council utilizes various financial instruments. Unless otherwise noted, it is management's opinion that the organization is not exposed to significant interest, currency or credit risks arising from these financial instruments and the carrying amounts approximate fair values.

All transactions related to financial instruments are recorded on a trade date basis.

The Council classifies its financial instruments as follows based on the purpose for which the asset was acquired and follows the disclosed accounting policy for each category.

Assets/Liability	Category	Measurement
Cash	Held for trading	Fair value
Accounts receivable	Loans and receivables	Amortized cost
Accounts payable and accrued liabilities	Other financial liabilities	Amortized cost
Due to Manitoba Crown Corporations	Other financial liabilities	Amortized cost

- Held for trading items are carried at fair value, with changes in their fair value recognized in the statement of operations.
- Other financial liabilities are carried at amortized cost, using the effective interest method.
- Loans and receivables are carried at amortized cost, using the effective interest rate method, less any provision for impairment.

Transition costs are expensed as incurred.

b) Recoveries of expenses from Crown corporations

Operating expenses are recovered from the Crown corporations through the assessment of levies allocated on a pro rata basis determined by the revenues of each Crown corporation. The levies are recognized in these financial statements at the time the related costs are incurred. In addition, certain direct costs incurred on behalf of particular corporations are recovered directly from the respective Crown corporations.

c) Reserve reflecting the net investment in capital assets

The purchase of capital assets is funded through operating expense levies assessed to Crown corporations. The reserve reflects levies assessed to the Crown corporations with respect to the Council's capital assets.

d) Capital Assets

Capital assets are recorded at cost. Depreciation is provided on a straight line basis over five years on the office furniture and equipment and over three years on the computer equipment.

e) Retirement allowances and other employee future benefits

The Council provides retirement allowance and pension benefits to its employees.

Retirement allowances are provided to certain qualifying employees. The benefits are provided under a final pay plan. The costs of benefits earned by employees are charged to expenses as services are rendered. The costs are actuarially determined using the projected benefit method and reflect management's best estimates of the length of service, salary increases and ages at which employees will retire. In addition, adjustments arising from plan amendment, changes in assumptions, and the actuarial present value of the accrued entitlement as at January 1, 2000 are being amortized to expenses on a straight line basis over the expected average remaining service life of the employee group. Actuarial gains and losses are recognized in income immediately.

Employees of the Council are provided pension benefits by the Civil Service Superannuation Fund ("the Fund"). Under paragraph 6 of the Civil Service Superannuation Act, the Council is described as a "matching employer" and its contribution toward the pension benefits is limited to matching the employees' contributions to the Fund. The cost for the year was $23,100 (2007 - $23,800).

In addition, one employee is entitled to enhanced pension benefits. The plan is based on final pay and is indexed. The cost of the benefits earned by the employee is charged to expenses as services are rendered. The cost is actuarially determined using the projected benefit method and reflects management's best estimate of salary increases and the age at which the employee will retire.

f) Use of estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect amounts reported in the financial statements. Actual amounts could differ from those estimates.

g) New Accounting Pronouncements

Recent accounting pronouncements that have been issued but are not yet effective, and have a potential implication for the Council, are as follows:

Financial Statement Concepts

CICA Handbook Section 1000, Financial Statement Concepts has been amended to focus on the capitalization of costs that truly meet the definition of an asset and de-emphasizes the matching principle.
The revised requirements are effective for annual and interim financial statements relating to fiscal years beginning on or after October 1, 2008. The Council is currently evaluating the impact of the adoption of this change on the disclosure within its financial statements.

Cash Flow Statements

Section 1540 was amended to include not-for-profit organizations within its scope. This standard is effective for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2009. The Council is currently assessing the impact of the new standard.

Interim Financial Statements

Section 1751 was amended to include not-for-profit organizations within its scope. This standard is effective for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2009. The Council is currently assessing the impact of the new standard.

Financial Instruments - Disclosures and Presentation

CICA Handbook Section 3862, Financial Instruments - Disclosure, increases the disclosures currently required to enable users to evaluate the significance of financial instruments for an entity's financial position and performance, including disclosures about fair value. CICA Handbook Section 3863, Financial Instruments - Presentation, replaces the existing requirements on the presentation of financial instruments, which have been carried forward unchanged. These standards are effective for interim and annual financial statements relating to fiscal years beginning on or after October 1, 2008. The Council is currently evaluating the impact of the adoption of these changes on the disclosure and presentation within its financial statements.

Financial Statement Presentation by Not-for-Profit Organizations

Section 4400 has been amended for the treatment of net assets invested in capital assets and for the presentation of revenues and expenses. The new standard is effective for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2009. The Council is currently assessing the impact of the new standard.

3. Due to Manitoba Crown corporations

These amounts are non-interest bearing and represent a retroactive adjustment to levies based on Council's actual expenses.

4. Capital assets

These are comprised entirely of office furniture and equipment and computer equipment.

	December 31 **2008**	 2007
	(in thousands of dollars)	
Cost		
Office furniture and equipment	**$ 59**	$ 61
Computer equipment	**44**	46
	$103	$107
Accumulated depreciation		
Office furniture and equipment	**$ 59**	$ 60
Computer equipment	**44**	46
	$103	$106
Net book value	**$ 0**	$ 1

5. Retirement allowances and enhanced pension benefits

The Council measures its accrued benefit obligation for each of the retirement allowance and enhanced pension benefits as at December 31 of each year. The most recent actuarial valuation report for the retirement allowance was at December 31, 2008 and the most recent finalized and approved actuarial valuation report for the enhanced pension benefits was at December 31, 2004. The December 31, 2007 actuarial valuation for the enhanced pension benefits was not approved as of the date of this report.

(a) Information about the Council's retirement allowance benefit plan is as follows:

	2008 **$**	**2007** **$**
Accrued benefit obligation		
Balance, beginning of year	**110**	100
Current service cost	**4**	4
Interest cost	**7**	6
Experience loss on triennial adjustment	**0**	0
Accrued benefit obligation, December 31	**121**	110
Unamortized transitional amount, December 31	**(5)**	(10)
Accrued retirement allowance, December 31	**116**	100

The Council's retirement allowance expense consists of the following:

	2008 $	2007 $
Current service costs	**4**	4
Interest cost	**7**	5
Accrued earned interest	**(3)**	(1)
Experience loss on triennial adjustment	**0**	0
Amortization of transitional amount	**5**	5
Total retirement allowance expense	**13**	13

The significant actuarial assumptions adopted in measuring the Council's retirement allowance obligation are as follows:

	2008 %	2007 %
Benefit costs for the year ended December 31		
Discount rate	**6.50**	6.50
Rate of compensation increase	**4.00**	4.00

(b) Information about the Council's enhanced pension benefit plan is as follows:

	2008 $	2007 $
Accrued benefit obligation and accrued pension liability		
Balance, beginning of year	**80**	64
Current service cost	**14**	11
Interest cost	**6**	5
Experience gain on triennial adjustment	**0**	0
Accrued benefit obligation and accrued pension liability, December 31	**100**	80

The Council's enhanced pension expense (income) consists of the following:

	2008 $	2007 $
Current service costs	**14**	11
Interest cost	**6**	5
Experience gain on triennial adjustment	**0**	0
Employee contributions	**(2)**	(2)
Total enhanced pension expense	**18**	14

The significant actuarial assumptions adopted in measuring the Council's pension obligation are as follows:

	2008 %	2007 %
Benefit costs for the year ended December 31		
Discount rate	**6.50**	6.50
Rate of compensation increase	**4.00**	4.00

6. Lease commitments

The Council is committed under a premises lease expiring on April 30, 2010 to annual basic rental payments of approximately $35,400 and annual common area and operating costs of approximately $36,800.

The lease payments excluding annual common area and operating costs are as follows:

Year	Base Rent
2009	$35,379
2010	$11,793
	$47,172

7. Statement of cash flows

A statement of cash flows has not been presented in these financial statements as no additional useful information would be provided by its inclusion.

8. Capital Management

The Council considers its capital to comprise its Reserve reflecting net investment in capital assets. There have been no changes to what the Council considers to be its capital since the previous period.

The Council manages its capital to break even with the reserve reflecting funding of unamortized balance capital assets owned by the Council.

AUDITORS' REPORT

To the Member of
Diagnostic Services of Manitoba Inc.

We have audited the statement of financial position of **Diagnostic Services of Manitoba Inc.** as at March 31, 2009 and the statements of operations, net assets and cash flows for the year then ended. These financial statements are the responsibility of the organization's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the organization as at March 31, 2009 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

NOTES TO FINANCIAL STATEMENTS

[Expressed in thousands of dollars]

March 31, 2009

1. NATURE OF BUSINESS

Diagnostic Services of Manitoba Inc. ["DSM"] is a not-for-profit organization incorporated under the laws of Manitoba on the 20th of December 2002. The Minister of Health is the sole member of the corporation. DSM was created with the intention of providing lab services throughout the province of Manitoba, and imaging services within the rural environment. Currently DSM is in a period of transition which will culminate in the transfer of all staff and assets with respect to the operations described above to DSM.

Effective April 1, 2005, agreements were signed with 11 Regional Health Authorities of Manitoba ["RHAs"] and 7 non-devolved facilities ["Facilities"]. This agreement addressed the transfer of non-union staff, management, scientists, and physicians to DSM.

Effective April 1, 2006, DSM entered into an agreement with the Winnipeg Regional Health Authority ["WRHA"] and 7 non-devolved facilities to transfer to DSM all unionized staff, existing lab assets and contracts of the facilities and outline the provision of services between the signators. Pursuant to the agreement, employees, contracts and assets have been transferred and costs specified in the agreement recovered from the RHAs or Facilities.

Effective November 1, 2007, DSM entered into an agreement with 10 Regional Health Authorities to transfer to DSM all unionized staff, existing diagnostic services assets and contracts of the facilities and outline the provision of service between signators.

Pursuant to the agreement all assets and contracts have been transferred at costs specified in the agreement. Consistent with the terms of the agreement, staff will be transferred in the upcoming year.

DSM is a not-for-profit organization under the Income Tax Act and, accordingly, is exempt from income taxes, provided certain requirements of the Income Tax Act are met.

NOTES TO FINANCIAL STATEMENTS

[Expressed in thousands of dollars]

March 31, 2009

2. SIGNIFICANT ACCOUNTING POLICIES

The financial statements have been prepared in accordance with Canadian generally accepted accounting principles for not-for-profit organizations as follows:

[a] Basis for accounting

These financial statements were prepared using the accrual basis of accounting. The accrual basis recognizes revenues as they become available and measurable; expenses are recognized as they are incurred and measurable as a result of receipts of goods or services and the creation of a legal obligation to pay.

[b] Revenue recognition

DSM follows the deferral method of accounting for contributions. Unrestricted contributions are recorded as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured. Externally restricted contributions are recognized as revenue in the year in which the related expenses are recognized and are recorded as deferred contributions until that time. Contributions restricted for the purchase of capital assets are deferred and amortized into revenue at a rate corresponding with the amortization rate for the related capital assets.

[c] Cash and cash equivalents

Cash and cash equivalents consist of cash on hand and short-term deposits with maturities [at time of purchase] of less than 90 days.

[d] Capital assets

Purchased capital assets are recorded at cost less accumulated amortization. Capital assets are amortized on a straight-line basis using an annual rate of:

Computer hardware/software	20%
Furniture and equipment	10%
Equipment under capital lease	10%

[e] Pre-retirement benefits

The costs of pre-retirement benefits earned by employees are charged to expense as services are rendered. The costs are actuarially determined using the projected benefit method and reflect management's best estimate of the length of service, salary increases and ages at which employees will retire.

[f] Use of estimates

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods presented. Actual results could differ from these estimates.

[g] Financial instruments

The Canadian Institute of Chartered Accountants ["CICA"] Handbook Section 3861, "Financial Instruments – Disclosure and Presentation" requires that all financial instruments are classified into one of the following five categories: held-for-trading, held-to-maturity investments, available-for-sale financial assets, loans and receivables, and other financial liabilities.

DSM's financial assets and financial liabilities are measured as follows:

- Cash and cash equivalents are classified as financial assets held for trading and are measured at fair value with gains and losses recognized in excess of revenue over expenses for the year. Due to the relatively short period to maturity of these financial assets, the carrying values approximate their fair values.

- Accounts receivable, vacation pay and pre-retirement benefits recoverable from Manitoba Health and the RHAs are classified as loans and receivables. These financial assets are recorded at their amortized cost using the effective interest rate method.

- Accounts payable and accrued liabilities, accrued vacation pay and accrued pre-retirement benefits are classified as other financial liabilities. These liabilities are recorded at their amortized cost using the effective interest rate method.

The fair value of these financial instruments approximates the carrying value. It is management's opinion that DSM is not exposed to significant interest, currency or credit risk arising from these financial instruments.

During the previous year, DSM disclosed that it had intended to adopt the CICA Handbook Section 3862, "Financial Instruments – Disclosure", Section 3863, "Financial Instruments – Presentation", and Section 1535, "Capital Disclosures". However, during the current year adoption of Sections 3862 and 3863 was not required if Section 3861 was maintained. As such, management has not adopted these standards in the financial statements and has continued to use Section 3861. Note 15 outlines the additional disclosures required upon adopting Section 1535.

3. ACCOUNTS RECEIVABLE

Accounts receivable consist of the following:

	2009 **$**	**2008** **$**
Due from Manitoba Health	**364**	612
Due from RHAs	**10,068**	5,992
Other	**772**	652
	11,204	7,256

4. CAPITAL ASSETS

Capital assets consist of the following:

	2009		
	Cost **$**	**Accumulated amortization** **$**	**Net book value** **$**
Computer hardware/software	**3,150**	**1,259**	**1,891**
Furniture and equipment	**23,261**	**6,067**	**17,194**
System software-in-progress	**25,225**	**—**	**25,225**
Equipment under capital lease	**1,677**	**235**	**1,442**
	53,313	**7,561**	**45,752**

NOTES TO FINANCIAL STATEMENTS
[Expressed in thousands of dollars]

	2008		
	Cost **$**	**Accumulated amortization** **$**	**Net book value** **$**
Computer hardware/software	3,126	630	2,496
Furniture and equipment	18,670	2,364	16,306
System software-in-progress	17,555	—	17,555
Equipment under capital lease	1,290	114	1,176
	40,641	3,108	37,533

System software-in-progress will not be amortized until such time as it becomes available for use.

5. PRE-RETIREMENT BENEFITS RECOVERABLE

	2009 **$**	**2008** **$**
Pre-retirement benefits recoverable from		
Manitoba Health	**113**	111
RHAs	**8,195**	6,727
	8,308	6,838

Pre-retirement benefits recoverable from Manitoba Health are recovered as benefits are provided and are guaranteed by the Province of Manitoba.

The amount recorded as a receivable for pre-retirement costs was initially determined based on the value of the corresponding actuarial liability for pre-retirement costs as at March 31, 2004. Subsequent to March 31, 2004, the Province of Manitoba [through Manitoba Health] has included in its ongoing annual funding to DSM, an amount equivalent to the change in the pre-retirement liability, which includes annual interest accretion related to the receivable. The receivable will be paid by the Province of Manitoba when it is determined that the funding is required to discharge the related pre-retirement liabilities.

Pre-retirement benefits recoverable from the RHAs will be repaid as benefits are provided.

The pre-retirement benefits recoverable is a financial instrument and has been classified as loans and receivables, and is valued at amortized cost using the effective interest rate method. The carrying value of the pre-retirement benefits recoverable approximates its fair value, because the annual interest accretion is funded.

6. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Accounts payable and accrued liabilities consist of the following:

	2009 $	2008 $
Accounts payable and accrued liabilities	**6,154**	5,597
Due to Manitoba Health	**5**	—
Due to RHAs	**4,874**	4,895
	11,033	10,492

7. OBLIGATIONS UNDER CAPITAL LEASE

The acquisition of electron microscopes and the installation of the liquid chromatograph tandem mass spectrometer were financed through separate leasing agreements. The leases have implicit rates of interest in the range of 5% - 6.5%, and are repayable in fixed blended monthly amounts of approximately $21. The obligations will be fully paid in June 2012 and May 2014, respectively.

In December 2008, DSM entered into another lease contract for the acquisition and installation of a toxicology screening system in one of their facilities. The lease has an implicit rate of interest of 5.671%, and is repayable in fixed blended monthly payments of $7. The lease contract expires February 28, 2014.

The following is a schedule of future minimum annual lease payments under capital leases, together with the balance of the obligations:

	$
2010	348
2011	347
2012	347
2013	255
2014	228
Balance	25
	1,550
Less interest	(225)
	1,325
Less current portion	(348)
	977

8. DEFERRED CONTRIBUTIONS

Deferred contributions consist of the following:

	2009 $	2008 $
Deferred contributions		
Expenses	**612**	356
Capital	**43,624**	33,026
	44,236	33,382

[a] Deferred contributions, future expenses

Deferred contributions related to future expenses represent the unspent amount of funding received for DSM's operating expenses. The deferred contributions for these expenses are recognized as revenue in the statement of operations at the time the related operating expenses are incurred.

Deferred contributions, future expenses consist of the following:

	2009 $	2008 $
Balance, beginning of year	**356**	326
Deferred contributions received	**355**	289
Recognized in revenue	**(99)**	(259)
Balance, end of year	**612**	356

[b] Deferred contributions, capital

Deferred capital contributions related to capital assets represent the unamortized amount and unspent amount of grants and donations received for the purchase of capital assets. The amortization of capital contributions is recorded as revenue in the statement of operations.

	2009 $	2008 $
Balance, beginning of year	**33,026**	8,689
Debt assumed by the Province of Manitoba	**9,000**	11,813
Deferred contributions received	**5,929**	1,960
Deferred contributions transferred	**—**	12,971
Amounts amortized to revenue	**(4,331)**	(2,407)
Balance, end of year	**43,624**	33,026

Debt that has been incorporated in deferred contributions includes $9,000 of a committed term facility that is now held by the Province of Manitoba. This facility is available by way of prime based loans, bearing interest at prime minus 1.25%.

9. COMMITMENTS

[a] Lease payments

Future aggregate minimum annual lease payments under the terms of the operating lease agreements for office facilities are as follows:

	$
2010	211
2011	213
2012	213
2013	107
	744

In addition, pursuant to the agreements dated April 1, 2006 and November 1, 2007, DSM entered into leases with the RHAs for premises totalling $4,296 per year. These leases have no expiry dates.

[b] Radiology Information System and Picture Archiving and Communication System ["RIS/PACS"]

Manitoba Health has approved $41,569 in relation to the RIS/PACS project. As custodian of $6,559 of funding for the Provincial RIS/PACS project, DSM may enter into commitments with respect to project requirements. These commitments are fully funded by the province.

10. DIRECT OPERATING EXPENSES

Direct operating expenses consist of the following:

	2009 $	2008 $
Salaries and benefits	**60,088**	48,217
Communications	**1**	6
Equipment	**2,514**	386
External consulting	**92**	285
Grants	**51**	—
Insurance	**87**	52
Interest on capital lease obligations	**63**	70
Lab and diagnostic supplies	**17**	10
Legal and audit	**164**	76
Meetings	**23**	22
Miscellaneous	**10**	8
Printer, paper and office supplies	**71**	61
Recruitment	**167**	115
Rent	**4,487**	3,097
Staff training and development	**321**	325
Telephone	**25**	17
Travel	**202**	165
	68,383	52,912

11. EMPLOYEE FUTURE BENEFITS

[a] Pension plan

Substantially all full-time and part-time employees of DSM are members of the Healthcare Employees' Pension Plan ["HEPP"] or the Civil Service Superannuation Plan ["CSSP"].

HEPP is a multi-employer, defined benefit pension plan. Employer contributions made to the plan during the year by DSM and expensed amounted to $2,892 [2008 - $2,414]. The most recent actuarial value of the plan as at January 1, 2009 indicates the plan is fully funded.

DSM is considered a "non-matching employer" in the CSSP under the Civil Service Superannuation Act. Employers with this status are not required to make contributions towards the pension benefits.

[b] Accrued pre-retirement benefits

DSM has a commitment to provide pre-retirement leave benefits for employees that meet certain eligibility criteria. If eligibility criteria are met, pre-retirement leave of four days per year of service is earned and paid out in a lump sum at retirement or at any time due to permanent disability. The earned amounts, at the option of the employee, may also be taken as a continuation of salary, bridging the leave date to the retirement date.

DSM measures its accrued obligation for the pre-retirement benefits as at March 31 of each year. The most recent actuarial valuation report was as at March 31, 2009.

During the current year, the pre-retirement obligation incurred (recoverable) amounted to $467 [2008 - $553] and has been recorded as an expense of the period. An offsetting recovery of $416 [2008 - $438] with respect to transferred employees has also been recorded.

The significant actuarial assumptions adopted in measuring DSM's pre-retirement benefit obligation are as follows:

	2009 %	**2008** %
Discount rate	**6.70**	5.50
Rate of base compensation increase	**3.50**	3.50

12. INVESTED IN CAPITAL ASSETS

Change in net assets invested in capital assets is calculated as follows:

	2009 $	2008 $
[a] Surplus (deficit)		
Amortization of capital assets	**(4,452)**	(2,521)
Amounts funded by deferred capital contributions, amortized to revenue	**4,331**	2,407
	(121)	(114)
[b] Purchase of capital assets		
Acquisition	**12,671**	26,796
Amounts funded by:		
Accounts payable	**(1,497)**	(3,581)
Deferred contributions	**(10,598)**	(21,925)
Capital lease obligations	**(386)**	(1,139)
	190	151
Change in net assets	**69**	37

13. RELATED PARTY TRANSACTIONS

DSM had transactions and balances with the following related parties during the year:

Entity	**Relationship**
Manitoba Health	Controlling entity
RHAs	Entities under common control

Related party transactions are recorded at the exchange amount and are in the normal course of operations. In addition to those disclosed elsewhere in these financial statements, DSM had the following transactions with Manitoba Health and the RHAs:

	2009 **$**	**2008** **$**
Salaries and benefits	**56,035**	44,851
Equipment	**2,506**	432
External consulting	**37**	174
Insurance	**56**	33
Lab and diagnostic supplies	**17**	10
Legal and audit	**58**	11
Meeting	**1**	—
Printer, paper and office supplies	**18**	6
Recruitment	**56**	75
Rent	**4,304**	2,958
Staff training and development	**217**	215
Telephone	**3**	1
Travel	**114**	95
	63,422	48,861

14. ECONOMIC DEPENDENCE

During the year, DSM received all of its revenue from Manitoba Health directly or indirectly through the RHAs and is economically dependent on Manitoba Health for continued operations.

NOTES TO FINANCIAL STATEMENTS

[Expressed in thousands of dollars]

15. CAPITAL MANAGEMENT

In managing capital, DSM focuses on liquid resources available for operations. DSM's objective is to have sufficient liquid resources to continue operating despite adverse events with financial consequences and to provide it with flexibility to take advantage of opportunities that will advance its purposes. The need for sufficient liquid resources is considered in the preparation of an annual budget and in the monitoring of cash flows and actual operating results compared to the annual budget. As at March 31, 2009, DSM has met its objective of having sufficient liquid resources to meet its current obligations.

16. SUBSEQUENT EVENT

Effective April 1, 2009, DSM entered into an agreement with Westman Regional Laboratory Services ["WRL"] and Brandon Regional Health Authority to assign the responsibilities to DSM with respect to the management and operation of diagnostic laboratory services. Similar to the prior agreements with the 11 RHAs in the province, WRL will transfer to DSM all lab staff, existing assets and contracts of the facilities and outline the provision of service between signators.

17. FUTURE CHANGES IN ACCOUNTING POLICIES

The CICA has issued revisions to the 4400 series and certain other sections to amend or improve certain parts of the CICA Handbook that relate to not-for-profit organizations. With respect to presentation, these changes include making the disclosure of net assets invested in capital assets optional; making CICA Handbook Section 1540, "Cash Flow Statements", applicable to not-for-profit organizations; and requiring the reporting of revenues and expenses on a gross basis in the statement of operations unless not required by other guidance. A new section, CICA Handbook Section 4470, "Disclosure of Allocated Expenses by Not-for-Profit Organizations", was included in the revisions which requires certain disclosures when fundraising and general support expenses are allocated to other functions. These changes in accounting policies must be adopted by years beginning on or after January 1, 2009, with earlier adoption permitted. Management is assessing the impact of these revisions and the timing for their adoption. However, the impact will be limited to reclassification of figures in the financial statements and additional disclosures.

MANAGEMENT REPORT

The accompanying financial statements are the responsibility of management and have been prepared in accordance with Canadian generally accepted accounting principles. In management's opinion, the financial statements have been properly prepared within reasonable limits of materiality, incorporating management's best judgment regarding all necessary estimates and all other data available up to July 17, 2009. The financial information presented elsewhere in the Annual Report is consistent with that in the financial statements.

Management maintains internal controls to provide reasonable assurance that the financial information is reliable and accurate and that the assets of the Economic Innovation and Technology Council are properly safeguarded.

The responsibility of the Auditor General is to express an independent, professional opinion on whether the financial statements are fairly stated in accordance with the accounting policies stated in the financial statements. The Auditor's Report outlines the scope of the audit examination and provides the audit opinion.

Economic Innovation and Technology Council has reviewed and approved these financial statements and the Annual Report in advance of its release and has approved its content and authorized its release.

John Clarkson
Vice-Chairperson

OFFICE OF THE
AUDITOR GENERAL
MANITOBA

AUDITORS' REPORT

To the Legislative Assembly of Manitoba, and
To the Members of the Economic Innovation and Technology Council

We have audited the balance sheet of the Economic Innovation and Technology Council as at March 31, 2009 and the statements of revenue, expenditure and funds retained, project revenue and expenditures and the statement of cash flows for the year then ended. These financial statements are the responsibility of the Council's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Council as at March 31, 2009 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

See accompanying notes to the financial statements.

Economic Innovation and Technology Council
Notes to the Financial Statements
March 31, 2009

1. Establishment of the Council and nature of operations

The Economic Innovation and Technology Council (EITC) was established by the Economic Innovation and Technology Council Act on September 1, 1992. Pursuant to the Act, the purpose of EITC is to foster economic development and to support economic restructuring and commercialization in technology so as to enable Manitoba to compete effectively in a global market economy. EITC's mission statement is "to promote and enhance a climate of innovation, entrepreneurship, and technological development that spurs responsible economic development for the benefit of Manitobans".

EITC is economically dependent upon the Province of Manitoba.

2. Change in accounting policies

Effective April 1, 2008 the Council adopted the following new handbook sections issued by the Canadian Institute of Chartered Accountants (CICA):

Section 1535, *Capital Disclosures*
Section 1535 establishes standards for disclosing information about an Council's capital and how it is managed. These standards require an Council to disclose its objectives, policies and processes for managing capital, a summary of quantitative data about what it manages as capital and whether it complied with any externally imposed capital requirements to which it is subject and, if not, the consequences of such non-compliance.

Section 3862, *Financial Instruments – Disclosures*
Section 3862 modifies the disclosure requirements for financial instruments that were included in Section 3861, *Financial Instruments – Disclosure and Presentation.* The new standards require an Council to provide disclosures in its financial statements that enable users to evaluate the significance of financial instruments on its financial position and performance, the nature and extent of the risks to which it is exposed during the period and at the balance sheet date, and how those risks are managed.

Section 3863, *Financial Instruments – Presentation*
Section 3863 carries forward the presentation requirements of Section 3861, *Financial Instruments – Disclosure and Presentation*, unchanged.

The above noted new standards have no impact on the recognition, measurement or presentation of financial instruments in the Council's yearend financial statements.

3. Significant accounting policies

a) Basis of reporting

The financial statements are prepared in accordance with Canadian generally accepted accounting principles.

3. Significant accounting policies (continued)

b) Cash and funds on deposit

Cash and funds on deposit include cash on hand, Term deposits, balances with the Minister of Finance and short-term deposits with original maturities of three months or less.

c) Use of estimates

In preparing the Council's financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenue and expenses during the period. Actual results could differ from these estimates.

d) Revenue recognition

Revenue is recognized as program expenditures are incurred.

e) Comprehensive income

The Council has not recognized any adjustments through other comprehensive income for the year ended March 31, 2009. Because the Council has no items related to other comprehensive income, comprehensive income is equivalent to net income.

f) Capital disclosures

The Council's capital consists of funds retained from operations.

The Council's capital management policy is to maintain sufficient capital to meet its objectives through its retained earnings by managing transfers of surplus funds to the Province of Manitoba; meet short-term capital needs with working capital advances from the Province of Manitoba; and meet long-term capital needs through long-term debt with the Province of Manitoba. There were no changes in the Council's approach to capital management during the period.

The Council is not subject to externally imposed capital requirements.

4. Financial instruments and financial risk management

Financial assets and liabilities are initially recorded at fair value. Measurement in subsequent periods depends on the financial instrument's classification. Financial instruments are classified into one of the following five categories: held for trading; available for sale; held to maturity; loans and receivables; and other financial liabilities. All financial instruments classified as held for trading or available for sale are subsequently measured at fair value with any change in fair value recorded in net earnings and other comprehensive income, respectively. All other financial instruments are subsequently measured at amortized cost.

4. Financial instruments and financial risk management (continued)

The financial assets and liabilities of the Council are classified and measured as follows:

Financial Asset/Liability	Category	Subsequent Measurement
Cash and funds on deposit	Held for trading	Fair value
Accounts receivable	Loans and receivables	Amortized cost
Investment in related party	Available for sale	Cost
Accounts payable	Other financial liabilities	Amortized cost
Accrued liabilities	Other financial liabilities	Amortized cost

Amortized cost is determined using the effective interest rate method.

Gains and losses on financial instruments subsequently measured at amortized cost are recognized in the statements of revenue, expenditure and funds retained in the period the gain or loss occurs. Changes in fair value on financial instruments classified as held for trading are recognized in the statements of revenue, expenditure and funds retained for the current period. Changes in fair value on financial instruments classified as available for sale would be recorded in other comprehensive income until realized, at which time they are recorded in the statements of revenue, expenditure and funds retained.

Fair value of financial instruments

The fair values of cash, accounts receivable, accounts payable and accrued liabilities approximate their carrying values due to their short-term maturity.

The fair value of the investment in related party cannot be reliably measured as there is no quoted market price available, and therefore, it is not disclosed.

Financial risk management - overview

The Council has exposure to the following risks from its use of financial instruments: credit risk; liquidity risk; market risk; interest risk; and foreign currency risk.

Credit risk
Credit risk is the risk that one party to a financial instrument fails to discharge an obligation and causes financial loss to another party. Financial instruments which potentially subject the Council to credit risk consist principally of cash and term deposits and accounts receivable.

The maximum exposure of the Council to credit risk at March 31, 2009 is:

Cash and funds on deposit	$ 84,208
Accounts receivable	52,125
Receivable from the Province of Manitoba	350
	$ 136,683

Cash and funds on deposits: The Council is not exposed to significant credit risk as the cash and term deposits are primarily held by the Minister of Finance.

Receivable from the Province of Manitoba: The Council is not exposed to significant credit risk as the receivable is from the Province of Manitoba.

4. Financial instruments and financial risk management (continued)

Accounts receivable: The Council is not exposed to significant credit risk as the receivables are from the Government of Canada and payment in full is typically collected when it is due. The Council establishes an allowance for doubtful accounts that represents its estimate of potential credit losses. The allowance for doubtful accounts is based on management's estimates and assumptions regarding current market conditions, customer analysis and historical payment trends. These factors are considered when determining whether past due accounts are allowed for or written off. Consistent with the previous year, there is no allowance for doubtful accounts as all receivables are expected to be collected.

Liquidity risk

Liquidity risk is the risk that the Council will not be able to meet its financial obligations as they come due.

The Council manages liquidity risk by maintaining adequate cash balances and by review from the Province of Manitoba to ensure adequate funding will be received to meet the obligations.

Market risk

Market risk is the risk that changes in market prices, such as interest rates and foreign exchange rates, will affect the Council's income or the fair values of its financial instruments. The significant market risks the Council is exposed to are interest rate risk and foreign currency risk.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The interest rate exposure relates to funds on deposit.

The interest rate risk on funds on deposit is considered to be low because of their short-term nature.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Council is not exposed to significant foreign currency risk as it does not have any financial instruments denominated in foreign currency.

5. Investment in Manitoba Technology Centre Ltd.

Effective June 1, 1996, EITC discontinued its role in the operations of the Environmental Sciences Centre (ESC). Prior to June 1, 1996, the financial activities of ESC were reflected in the financial statements of EITC. On June 1, 1996, EITC entered into a public/private partnership with Enviro-Test Laboratories, a division of ETL Chemspec Analytical Limited (ETL). A new corporation, Manitoba Technology Centre Ltd. (MTC), was incorporated and certain assets of EITC, namely the assets of ESC, were transferred to MTC pursuant to an Asset Purchase Agreement in exchange for 25 Class A Common Shares with a paid-up capital value of $25, 1,500,000 Class A Special Preferred Shares with a redemption and paid-up capital value of $875,000, and 1 Class B Special Preferred Share with a paid-up capital value of $1. Subsequent to the Asset Purchase Agreement, MTC issued 75 Class A Common Shares with a paid-up capital value of $75 to ETL. A Unanimous Shareholders Agreement between EITC and ETL sets out the rights and obligations in respect of the shares of MTC. The regular operations and management of MTC are the responsibility of ETL.

5. Investment in Manitoba Technology Centre Ltd. (continued)

Class A Special Preferred Shares

Each Class A Special Preferred Share was non-voting, redeemable and retractable on a semi-annual basis, with one share cancelled for each dollar contributed or invested by ETL in equipment, facilities, management and marketing. The redemption amount of the shares was equal to the agreed value of ESC's contributed assets of $875,000 divided by 1,500,000 or $.5833 per share. As part of the Unanimous Shareholders Agreement, ETL was committed to contributing $1,500,000 over the first three years of the agreement.

All Class A Special Preferred Shares were redeemed prior to May 31, 2002.

Class B Special Preferred Share

The Class B Special Preferred Share is non-voting, retractable and redeemable at $1.00 per share.

Effective May 31, 2002, EITC has the option of retaining ownership of the Class B Special Preferred Share as long as it may wish and be entitled for so long as it holds this share to nominate one director to the Board of Directors provided that:

1. EITC no longer holds any common shares;
2. MTC continues to occupy premises owned by the Province of Manitoba; and
3. MTC has material contracts with the Province of Manitoba.

Common Shares

On May 31, 1999, MTC redeemed EITC's 25 common shares with a paid up capital value of $25 for $434,200.

A gain of $434,175 resulting from this redemption was recorded.

6. Related party transactions

EITC is related in terms of common ownership to all departments, agencies and Crown corporations created by the Province of Manitoba. EITC enters into transactions with these entities in the normal course of business.

AUDITORS' REPORT

To the Directors of First Nations of Northern Manitoba Child and Family Services Authority

We have audited the statement of financial position of First Nations of Northern Manitoba Child and Family Services Authority as at March 31, 2009 and the statements of revenues and expenses, changes in net assets and cash flows for the year then ended. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Authority as at March 31, 2009 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Interest received	$ 840	$ 77,002

1. DESCRIPTION OF OPERATIONS

The First Nations of Northern Manitoba Child and Family Services Authority (Northern Authority) has been incorporated under the Child and Family Services Authority Act, which was proclaimed by the Province of Manitoba on November 24, 2003.

The mandate of the Northern Authority is to administer and provide for the delivery of child and family services in Manitoba to people who are members of the northern First Nation, people who identify with those northern First Nations and others as determined in accordance with protocols established in the regulations which form part of the Child and Family Services Authority Act. The Northern Authority is exempt from income taxes under Section 149(1)(l) of the Income Tax Act.

On June 10, 2002 legislation to create the First Nations of Northern Manitoba Child and Family Services Authority was introduced in the Legislative Assembly. Royal Assent was received on August 9, 2002. The Child and Family Services Authorities Act came into force upon proclamation. Proclamation occurred on November 30, 2003. All assets and liabilities of 4601149 Manitoba Association Inc. as of November 30, 2003 were transferred to the First Nations of Northern Manitoba Child and Family Services Authority on December 1, 2003.

2. CHANGE IN ACCOUNTING POLICIES

Effective April 1, 2008, the Agency adopted the following new handbook sections issued by the Canadian Institute of Chartered Accountants (CICA):

Section 1535, Capital Disclosures

Section 1535 establishes standards for disclosing information about an entity's capital and how it is managed. These standards require an entity to disclose its objectives, policies and processes for managing capital, a summary of quantitative data about what it manages as capital, and whether it complied with any externally imposed capital requirements to which it is subject and, if not, the consequences of such non-compliance.

Section 3862, Financial Instruments - Disclosures

Section 3862 modifies the disclosure requirements for financial instruments that were included in Section 3861, Financial Instruments - Disclosure and Presentation. The new standards require an entity to provide disclosures in its financial statements that enable users to evaluate the significance of financial instruments on its financial position and performance, the nature and extent of the risks to which it is exposed during the period and at the balance sheet date, and how those risks are managed.

Section 3863, Financial Instruments - Presentation

Section 3863 carries forward the presentation requirements of Section 3861, Financial Instruments - Disclosure and Presentation, unchanged.

The three standards listed above have no impact on the recognition, measurement or presentation of financial instruments in the Agency's financial statements for the year ended March 31, 2009.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of reporting

The financial statements of the Authority have been prepared in accordance with Canadian generally accepted accounting principles.

Use of estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingencies at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Equipment

Equipment is initially recorded at cost. Amortization is provided using the straight-line method at rates intended to amortize the cost of assets over their estimated useful lives.

Computer equipment	3 years
Computer software	5 years
Equipment	5 years
Furniture and fixtures	5 years

In the year of acquisition, amortization is taken at one-half of the above rates.

Revenue recognition

The Authority follows the deferral method of accounting for contributions. Restricted contributions are recognized as revenue in the year in which the related expenses are incurred. Unrestricted contributions are recognized as revenue when they are received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Authority funding from the Province of Manitoba is recognized when earned.

Capital disclosures

The Authority's capital consists of net assets provided by operations.

The Authority's capital management policy is to maintain sufficient capital in net assets to meet its objectives, meet short term capital needs through working capital advances from the Province of Manitoba; and meet long term capital needs through long term debt with the Province of Manitoba. There were no changes in the Authority's approach to capital management during the 2008/09 year.

The Authority is not subject to externally imposed capital requirements.

4 FINANCIAL INSTRUMENTS

Financial assets and liabilities are initially recorded at fair value. Measurement in subsequent periods depends on a financial instrument's classification.

Financial instruments are classified into one of the following five categories: held for trading; available for sale; held to maturity; loans and receivables; and other financial liabilities. All financial instruments classified as held for trading or available for sale are subsequently measured at fair value, with any change in fair value recorded in net earnings and other comprehensive income, respectively. All other financial instruments are subsequently measured at amortized cost.

The financial assets and liabilities of the Authority are classified and measured as follows:

Financial asset/liability	Category	Subsequent measurement
Cash	Held for trading	Fair value
Accounts receivable from the Province	Loans and receivable	Amortized cost
Working capital receivable from agencies	Loans and receivable	Amortized cost
Accounts receivable	Loans and receivable	Amortized cost
Accounts payable and accrued liabilities	Other financial liabilities	Amortized cost
Working capital payable to the Province	Other financial liabilities	Amortized cost

Amortized cost is determined using the effective interest rate method.

Gains and losses on financial instruments subsequently measured at amortized cost are recognized in the statement of earnings and retained earnings in the period the gain or loss occurs. Changes in fair value on financial instruments classified as held for trading are recognized in the statement of earnings and retained earnings for the current period. Changes in fair value on financial instruments classified as available for sale would be recorded in other comprehensive income until realized, at which time they would be recorded in the statement of earnings and retained earnings.

Fair value of financial instruments

The fair value of accounts receivable from the Province, working capital receivable from agencies, accounts receivable, accounts payable and accrued liabilities and working capital payable to the Province approximates their carrying values due to their relatively short term maturity.

Financial risk management

The Authority has exposure to the following risks from its use of financial instruments: credit risk; liquidity risk; market risk; interest risk; and foreign currency risk.

(continues)

4. FINANCIAL INSTRUMENTS *(continued)*

Credit Risk

Credit risk is the risk that one party to a financial instrument fails to discharge an obligation and causes financial loss to another party. Financial instruments which potentially subject the Authority to credit risk consist principally of cash, cash equivalents and receivables.

The maximum exposure of the Authority to credit risk as of March 31, 2009, is:

Accounts receivable from the Province	$ 719,163
Working capital receivable from agencies	203,000
Accounts receivable	88,681
	$ 1,010,844

Receivables: The Authority is not exposed to significant credit risk since the receivables are with agencies and Province of Manitoba. An allowance for doubtful accounts was not recorded as of March 31, 2009.

Liquidity risk

Liquidity risk is the risk that the Authority will not be able to meet its financial obligations as they come due.

The Authority manages liquidity risk by balancing its cash flow requirements through its available working capital payable and its cash balance. Regular determinations of the Authority's working capital payable and cash requirements are reviewed by the Province of Manitoba to ensure that adequate funding is available as required to enable the Authority to meet its obligations as they come due.

Market risk

Market risk is the risk that changes in market prices, such as interest rates and foreign exchange rates, will affect the Authority's net earnings or the fair values of its financial instruments. The significant market risks the Authority is exposed to are interest rate risk and foreign currency risk.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The interest rate exposure relates to cash

The interest rate risk on cash is considered to be low because of their short term nature.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Authority is not exposed to significant foreign currency risk as it does not have any financial instruments denominated in foreign currency.

5. EQUIPMENT

	2009		2008	
	Cost	Accumulated amortization	Cost	Accumulated amortization
Computer equipment	$ 77,272	$ 53,023	$ 63,339	$ 29,587
Computer software	11,317	8,465	10,214	6,311
Equipment	98,308	53,991	78,267	36,334
Furniture and fixtures	43,343	23,255	33,330	15,587
	$ 230,240	$ 138,734	$ 185,150	$ 87,819
Net book value	$ 91,506		$ 97,331	

During the year ended March 31, 2009, the Authority incurred the following capital expenditures:

	2009	2008
Computer equipment	$ 13,932	$ 34,025
Computer software	1,104	-
Equipment	20,041	28,648
Furniture and fixtures	10,012	16,217
	$ 45,089	$ 76,883

6. INTERNALLY RESTRICTED NET ASSETS

The Board approved the following internal restrictions:

	2009	2008
Copier replacement	$ 9,270	$ 9,270
Furniture replacement	9,270	9,270
Transitional expenses to Northern location	50,600	50,600
Winnipeg projects	57,339	57,339
Communication strategy	-	100,000
Statistical development	-	100,000
Agency development work	-	105,000
CME report contract	-	25,000
Executive assistant term position	-	50,000
Furniture, computers and equipment	16,900	55,000
Repatriation	35,000	35,000
Authority and agency development	300,000	-
Joint training unit	79,905	79,905
Family support innovations	224,823	111,723
	$ 783,107	$ 788,107

7. EXTERNALLY RESTRICTED NET ASSETS

Externally restricted net assets represents the unspent portion of Transition Grant Funding received from the Province of Manitoba. The grant is to be used for the Aboriginal Justice Inquiry - Child Welfare Initiative one-time transition activities connected to the establishment of the Northern Authority and to assist Family Service Agencies in extending their operations and have the ability to accept the scheduled transfer of cases.

8. ECONOMIC DEPENDENCE

First Nations of Northern Manitoba Child and Family Services Authority is solely dependent on the Province of Manitoba for revenue to fund its operations.

9. LEASE COMMITMENT

The Authority has entered into a five year lease for one of their premises that expires on January 31, 2012. Under the lease, the Authority is required to pay a base annual rent of $39,963.

Auditors' Report

To the Board of Directors of First Nations of Southern Manitoba Child and Family Services Authority

We have audited the statement of financial position of First Nations of Southern Manitoba Child and Family Services Authority as at March 31, 2009 and the statements of revenues and expenses and the related schedules for the year then ended. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Authority as at March 31, 2009 and the results of its operations for the year then ended in accordance with Canadian generally accepted accounting principles.

	33,849,507	63,630	(33,887,925)	**25,212**	(62,083)

The accompanying notes are an integral part of these financial statements

1. Incorporation and operations

The Authority was incorporated on November 24, 2003 under the Province of Manitoba through The Child and Family Services Authority Act, S.M. 2002, c. 35 except section 20; the Act came into force by proclamation on November 24, 2003.

Operations

The Authority was established as a non-profit organization with the responsibility for administering and providing for the delivery of a system of child and family services to Southern First Nations people who are members of the Southern First Nations and other persons who are identified with those Southern First Nations. In partnership with the Province of Manitoba, the Organization is committed to establishing a jointly coordinated child and family services system that recognizes the distinct rights and authorities of First Nations and Metis people in Manitoba.

2. Accounting policies

The financial statements have been prepared in accordance with Canadian generally accepted accounting principles and include the following significant accounting policies:

Capital assets

Capital assets are recorded at cost. Amortization is provided using the declining balance and straight-line methods at rates intended to amortize the cost of assets over their estimated useful lives.

	Method	Rate
Computer equipment	declining balance	30 %
Furniture and fixtures	declining balance	20 %
Leasehold improvements	straight-line	5 years

In the year of acquisition, amortization is taken at one-half of the above rates.

Revenue recognition

The Authority follows the deferral method of accounting for contributions. Restricted contributions are recognized as revenue in the year in which the related expenses are incurred. Unrestricted contributions are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Measurement uncertainty

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

Accounts receivable are stated after evaluation as to their collectibility and an appropriate allowance for doubtful accounts is provided where considered necessary. Amortization is based on the estimated useful lives of capital assets. These estimates and assumptions are reviewed periodically and, as adjustments become necessary they are reported in earnings in the periods in which they become known.

2. **Accounting policies** *(Continued from previous page)*

Fund accounting

In order to ensure observance of limitations and restrictions placed on the use of resources available to the First Nations of Southern Manitoba Child and Family Services Authority , the accounts are maintained on a fund accounting basis. Accordingly, resources are classified for accounting and reporting purposes into funds. These funds are held in accordance with the objectives specified by the contributors or in accordance with the directives issued by the Board of Directors. Three funds are maintained: Operating Fund, Capital Fund, Repatriation Fund.

The Operating Fund is used to account for all revenue and expenditure related to general and ancillary operations of the First Nations of Southern Manitoba Child and Family Services Authority.

The Capital Fund is used to account for all capital assets of the organization and to present the flow of funds related to their acquisition and disposal, unexpended capital resources and debt commitments.

The Repatriation Fund is a restricted fund used to account for monies for specific purposes.

Long-lived assets

Long-lived assets consist of capital assets. Long-lived assets held for use are measured and amortized as described in the applicable accounting policies.

The Authority performs impairment testing on long-lived assets held for use whenever events or changes in circumstances indicate that the carrying value of an asset, or group of assets, may not be recoverable. Impairment is measured as the amount by which the asset's carrying value exceeds its fair value. Any impairment is included in earnings for the year.

Recent accounting pronouncements

Financial instruments deferral of section 3862 and 3863

In December 2006, the Canadian Institute of Chartered Accountants (CICA) issued Section 3862 Financial Instruments – Disclosures and Section 3863 Financial Instruments – Presentation to replace Section 3861 Financial Instruments – Disclosure and Presentation. The effective date for these new Sections was for interim and annual financial statements with fiscal years beginning on or after October 1, 2007, with earlier adoption permitted. However, in light of the uncertainty regarding the future direction in setting standards for not-for-profit organizations, the CICA released a decision to allow deferral of Sections 3862 and 3863 for this sector. Not-for-profit organizations should continue to apply Section 3861 until interim and annual financial statements with fiscal years beginning on or after October 1, 2008.

Financial statement presentation by not-for-profit organizations

In September 2008, amendments were made to CICA Handbook Section 4400 *Financial Statement Presentation by Not-for-profit Organizations*. Amendments to the section included removal of the requirement to treat net assets invested in capital assets as a separate component of net assets and, instead, permitting such an amount to be presented as a category of internally restricted net assets. In addition, the requirement to recognize and present revenues and expenses on a gross basis when a not-for-profit organization is acting as a principal in the transaction was clarified. Finally, guidance was included to reflect that Section 1540 Cash Flow Statements and Section 1751 Interim Financial Statements are applicable to not-for-profit organizations.

This amendment applies to interim and annual financial statements relating to fiscal years beginning on or after January 1, 2009. The Authority does not expect the change to this standard to have a material impact on its financial statements.

2. Accounting policies *(Continued from previous page)*

Capital assets held by not-for-profit organizations

CICA Handbook Section 4430 *Capital Assets Held by Not-for-profit Organizations* has been amended to provide additional guidance with respect to the appropriate use of the scope exemption for smaller entities that expense their capital assets. It was clarified that the exemption does not allow not-for-profit organizations to capitalize but not amortize their capital assets, nor does it allow different methods of accounting for various types of capital assets.

This amendment applies to interim and annual financial statements relating to fiscal years beginning on or after January 1, 2009. The Authority does not expect the change to this standard to have a material impact on its financial statements.

Disclosure of allocated expenses by non-for-profit organizations

In September 2008, the Canadian Institute of Chartered Accountants issued new recommendations for disclosures regarding allocated expenses by not-for-profit organizations. CICA Handbook Section 4470 *Disclosure of Allocated Expenses by Not-for-profit Organizations* requires disclosure by not-for-profit organizations that allocate fundraising and general support expenses to other functions of the policies adopted for the allocation of such expenses among functions, the nature of the allocated expenses, and the basis on which allocations are made. The section also requires disclosure of the amounts allocated from each of its fundraising and general support functions and the amounts and functions to which they have been allocated.

This amendment applies to interim and annual financial statements relating to fiscal years beginning on or after January 1, 2009. The Authority does not expect the change to this standard to have a material impact on its financial statements.

Financial instruments

Held for trading:

The Authority has classified cash and short-term deposits as held for trading. These instruments are initially recognized at their fair value. Fair value is approximated by the instrument's initial cost in a transaction between unrelated parties.

Held for trading financial instruments are subsequently measured at their fair value. Gains and losses arising from changes in fair value are recognized immediately in income.

Loans and receivables:

The Authority has classified accounts receivable and advances as loans and receivables. These assets are initially recognized at their fair value. Fair value is approximated by the instrument's initial cost in a transaction between unrelated parties.

Loans and receivables are subsequently measured at their amortized cost. Amortized cost is the amount at which the financial asset is measured at initial recognition less principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, and less any reduction for impairment or uncollectability. Gains and losses arising from changes in fair value are recognized in net income upon derecognition or impairment.

Other financial liabilities:

The Authority has classified accounts payable and accruals and due to Province of Manitoba as other financial liabilities. These liabilities are initially recognized at their fair value. Fair value is approximated by the instrument's initial cost in a transaction between unrelated parties.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Under this method, estimated future cash payments are exactly discounted over the liability's expected life, or other appropriate period to its net carry value. Amortized cost is the amount at which the financial liability is measured at initial recognition less principal repayments, and plus or minus the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount. Gains and losses arising from changes in fair value are recognized in net income upon derecognition or impairment.

2. Accounting policies *(Continued from previous page)*

Comprehensive income (loss)

The Authority does not have any items giving rise to other comprehensive income, nor is there any accumulated balance of other comprehensive income. All gains and losses, including those arising from measurement of all financial instruments have been recognized in net income for the period.

3. Capital assets

	Cost	*Accumulated amortization*	*2009 Net book value*	*2008 Net book value*
Computer equipment	706,651	388,985	317,666	219,770
Furniture and fixtures	196,851	77,122	119,729	129,366
Leasehold improvements	15,112	4,534	10,578	13,601
	918,614	470,641	447,973	362,737

4. Due from Agencies/Due to Province of Manitoba

The Province of Manitoba advanced the Authority a working capital advance in the amount of $2,306,320, which in turn was advanced by the Authority to the Agencies. The advances are repayable by the Authority if the Authority's operations cease. The amounts due from the Agencies have no fixed terms of repayment and are non-interest bearing.

	2009	*2008*
Animikii-Ozoson CFS	406,890	406,890
Child and Family All Nations Coordinated Response Network	538,400	538,400
Dakota Ojibway CFS	393,510	393,510
Sandy Bay CFS	158,700	158,700
Southeast CFS	362,000	362,000
West Region CFS	225,000	225,000
Peguis CFS	221,820	-
	2,306,320	2,084,500

5. Deferred revenue

Deferred revenue represents funds received during the year which have been deferred to periods when their specified expenditures are expected to be incurred.

6. Income taxes payable

The Authority is registered as a non-profit organization under the Income Tax Act (the "Act") and as such is exempt from income taxes. In order to maintain its status as a non-profit organization under the Act, the Authority must meet certain requirements within the Act. In the opinion of management, these requirements have been met.

7. Commitments

The Authority has entered into various lease agreements with estimated minimum annual payments as follows:

2010	1,090,105
2011	1,090,105
2012	1,050,784
2013	1,037,577
2014	1,011,490

8. Economic dependence

The Authority's primary source of income is the grant funding received from the Province of Manitoba Department of Family Services and Housing. The Authority's ability to continue viable operations is dependent upon maintaining its ability to obtain funding. As at the date of these financial statements, the Authority believes that the grant funding from the Province of Manitoba will continue.

9. Statement of cash flows

The statement of cash flows has not been prepared as the source and use of cash is readily apparent from the financial statements.

10. Capital management

The Authority's objectives when managing capital are to safeguard the Authority's ability to continue as a going concern, so that it can continue with the improvement of the financial situation of families through the provision of services and information on a range of financial issues.

The Authority sets the amount of capital in proportion to risk and manages the capital structure and makes adjustments to it in light of changes to economic conditions and the risk characteristics of the underlying assets.

The Authority monitors capital quarterly through Board of Directors meetings. During the year, the Authority's strategy is to protect the capital through managing revenues and expenses as well as through maintaining a balanced investment portfolio. The strategy remained unchanged from prior year.

11. Comparative figures

Certain comparative figures have been reclassified to conform with current year presentation.

CHARTERED ACCOUNTANTS

AUDITORS' REPORT

To the Board of Directors of
The General Child and Family Services Authority

We have audited the statement of financial position of the General Child and Family Services Authority as at March 31, 2009 and the statements of revenues and expenses, fund balances and cash flow for the year then ended. These financial statements are the responsibility of the authority's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the General Child and Family Services Authority as at March 31, 2009 and the results of its operations and cash flow for the year then ended in accordance with Canadian generally accepted accounting principles

Magnus & Buffie

GENERAL CHILD AND FAMILY SERVICES AUTHORITY
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2009

1. ORGANIZATION

The General Child and Family Services Authority (the "Authority") was established November 24, 2003 under The Child and Family Services Authorities Act. The authority is a non-profit organization responsible for the administration and provision of child and family services by the agencies under its jurisdiction, being Child and Family Services of Western Manitoba, Child and Family Services of Central Manitoba, Jewish Child and Family Service, Churchill Child and Family Services, Winnipeg Child and Family Services Branch and Rural and Northern Services Branch (Interlake, Eastman, Parkland, Northern).

2. CHANGE IN ACCOUNTING POLICIES

Effective April 1, 2008, the Authority adopted the following new handbook sections issued by the Canadian Institute of Chartered Accountants (CICA):

Section 1535 Capital Disclosures

Section 1535 establishes standards for disclosing information about an entity's capital and how it is managed. These standards require an entity to disclose its objectives, policies and processes for managing capital, a summary of quantitative data about what it manages as capital and whether it compiled with any externally imposed capital requirements to which it is subject and, it not, the consequences of such non-compliance. (See disclosure in Note 3)

Section 3862 Financial Instruments - Disclosures

Section 3862 modifies the disclosure requirements for financial instruments that were included in Section 3861, Financial Instruments – Disclosure and Presentation. The new standards require an entity to provide disclosures in its financial statements that enable users to evaluate the significance of financial instruments on its financial position and performance, the nature and extent of the risks to which it is exposed during the period and at the balance sheet date, and how those risks are managed. (See disclosure in Note 10)

Section 3863 Financial Instruments - Presentation

Section 3863 carries forward the presentation requirements of Section 3861, Financial Instruments – Disclosure and Presentation, unchanged.

The above noted new standards have no impact on the recognition, measurement or presentation of financial instruments in the Authority's year end financial statements.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles using the following significant accounting policies:

(a) Fund accounting

The authority records its activities in the following funds:

(i) Operating fund

This fund accounts for the activity relating to the principal activity of the authority (Note 1).

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(ii) Transition fund

The Province of Manitoba has provided one-time transition funding in support of the restructuring of the child and family services system, as initiated under the Aboriginal Justice Inquiry - Child Welfare Initiative. Funding is to be used to support the resource transfer process and the development of the corporate infrastructure of the authority and mandated child and family services agencies under the jurisdiction of the authority. The resource transfer process involves the transfer of cases from agencies under the jurisdiction of the authority to the Metis Child and Family Services Authority, Northern First Nations Child and Family Services Authority, and First Nations of Southern Manitoba Child and Family Services Authority. All contributions to this fund are externally restricted for this purpose.

(iii) Agency fund

The Province of Manitoba provides the authority with grant payments for the private mandated child and family services agencies under its jurisdiction. As set out in Section 19 of The Child and Family Services Authorities Act, the authority is responsible for determining funding allocations among its mandated agencies. The mandated agencies include both private agencies and government offices, which have different funding arrangements with the Authority. Private agencies receive all of their funding from the authority (excluding child maintenance), while government offices receive funding directly from the government based on the approval of allocations by the authority. All contributions to this fund are externally restricted for this purpose.

(b) Revenue recognition

The authority follows the deferral method of accounting for contributions.

Externally restricted contributions are deferred and recognized as revenue in the applicable fund in the year in which the related expenses are incurred. Unrestricted contributions are recognized as revenue in the applicable fund when received or receivable.

Externally restricted contributions for the purchase of capital assets are deferred and recognized as revenue on the same basis as the amortization expense related to the acquired capital assets.

(c) Capital assets

Capital assets are recorded at cost and are amortized over their estimated useful lives based on the following rates and methods:

	Rate	Method
Computer software	3 years	Straight line
Furniture and fixtures	5 years	Straight line
Leaseholds	5 years	Straight line

(d) Income taxes

The authority is a non-profit entity and is exempt from income taxes.

(e) Capital disclosures

The Authority's capital management policy is to maintain sufficient capital to meet its objectives through its fund balances by managing transfers of surplus funds to the Province of Manitoba; meet short-term capital needs with working capital advances from the Province of Manitoba; and meet long-term capital needs through long-term debt with the Province of Manitoba. There were no changes in the Authority's approach to capital management during the period.

The Authority is not subject to externally imposed capital requirements.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(f) Financial instruments - recognition and measurement

Financial assets and liabilities are initially recorded at fair value. Measurement in subsequent periods depends on the financial instrument's classification. Financial instruments are classified into one of the following five categories: held for trading; available for sale; held to maturity; loans and receivables; and other financial liabilities. All financial instruments classified as held for trading or available for sale are subsequently measured at fair value with any change in fair value recorded in net earnings and other comprehensive income, respectively. All other financial instruments are subsequently measured at amortized cost.

The Authority has designated its financial instruments as follows:

Cash and short term deposits are classified as financial assets held for trading and are measured at fair value with gains and losses recognized in net earnings. Due to the relatively short period to maturity of these financial assets, the carrying values approximate their fair values.

Accounts receivable and advance receivable are classified as loans and receivables. These financial assets are recorded at their amortized cost using the effective interest rate and method.

Accounts payable and accrued liabilities and working capital advances are classified as other financial liabilities. These financial liabilities are recorded at their amortized cost using the effective interest rate method.

Gains and losses on financial instruments subsequently measured at amortized cost are recognized in the statement of earnings and retained earnings in the period the gain or loss occurs. Changes in fair value on financial instruments classified as held for trading are recognized in the statement of earnings and retained earnings for the current period. Changes in fair value on financial instruments classified as available for sale would be recorded in other comprehensive income until realized, at which time they are recorded in the statement of earnings and retained earnings.

(g) Fair value of financial instruments

The fair value of accounts receivable, advance receivable, accounts payable and accrued liabilities and working capital advances approximates their carrying values due to their short-term maturity.

(h) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

4. WORKING CAPITAL ADVANCES

Working capital advances are provided to the Authority's agencies through the Province of Manitoba. The Province has approved the advance based on two twelfths of the yearly expenditures an agency invoices Family Services and Housing for child maintenance. The advance is non-interest bearing and is repayable at the time that the agency no longer is providing services on behalf of the department.

5. CAPITAL ASSETS

	Cost	Accumulated Amortization	Net Book Value 2009	Net Book Value 2008
Computer software	$ 18,475	$ 6,587	$ 11,888	$ 5,853
Furniture and fixtures	40,265	20,655	19,610	25,717
Leaseholds	74,791	53,121	21,670	34,264
	$ 133,531	$ 80,363	$ 53,168	$ 65,834

6. DEFERRED CONTRIBUTIONS

Deferred contributions in the operating fund relate to various grants from the Province of Manitoba and the Children's Aid Foundation. The balance continuities are as follows:

(i) Deferred contributions

	2009	2008
Beginning balance	$ 378,647	$ 50,000
Add contributions:		
Province of Manitoba	896,700	454,400
Children's Aid Foundation	-	8,402
	1,275,347	512,802
Less: amounts amortized to revenue	449,284	134,155
Ending balance	$ 826,063	$ 378,647

Deferred contributions in the transition fund relate to a one-time grant from the Province of Manitoba for transition funding. The balance continuities are as follows:

(ii) Deferred contributions

	2009	2008
Beginning balance	$ 5,111	$ 54,510
Less: - amounts transferred from deferred contributions to capital assets (Note 6(iii))	5,111	37,362
- amounts recognized as revenue in the year	-	12,037
Ending balance	$ -	$ 5,111

(iii) Deferred contributions relating to capital assets

	2009	2008
Beginning balance	$ 65,834	$ 48,871
Add contributions:		
Amounts transferred from deferred contributions (Note 6(ii))	5,111	37,362
	70,945	86,233
Less: amounts amortized to revenue	26,851	20,399
Ending balance	$ 44,094	$ 65,834

7. AGENCY GRANTS

The authority received funding from the Province of Manitoba in the amount of $7,656,090 (2008 - $7,322,109) to be allocated to the agencies under its jurisdiction. The Agency grants were allocated as follows:

	Child and Family Services Division			
Agency	Child Protection Branch	Strategic Initiatives Branch	Total 2009	Total 2008
Child and Family Services of Central Manitoba	$ 2,739,782	$ -	$ 2,739,782	$ 2,675,659
Child and Family Services of Western Manitoba	4,667,108	-	4,667,108	4,402,550
Jewish Child and Family Services	237,600	-	237,600	232,600
Churchill Regional Health Authority	11,600	-	11,600	11,300
Total	$ 7,656,090	$ -	$ 7,656,090	$ 7,322,109

Child maintenance is paid directly to the above agencies from the Province of Manitoba and is not included in the accounts of the authority.

8. INTERNALLY RESTRICTED

In 2009, the Authority internally restricted $400,000 to be used as follows:

	Operating Fund
Critical Incident Stress Management Project	$ 40,000
After Care Program - Pilot Project	50,000
Staff Engagement Initiatives	27,000
Youth Engagement Initiatives	40,000
Youth Retreat in partnership with VOICES	20,000
Recruitment & Retention Initiatives	25,000
All Agency Staff Summit	20,000
Life Book Project	25,000
Age of Majority Celebrations	21,000
Research Project related to Children in Foster Care	20,000
French Language Services Plan Review	15,000
Children Transitioning out of Care Fund	97,000
	$ 400,000

These internally restricted amounts are not available for unrestricted purposes without the approval of the Board of Directors.

9. LEASE COMMITMENTS

The Authority has entered into an agreement to lease premises at 180 King Street until November 30, 2012. Occupancy charges for the year ending March 31, 2010 are estimated to be $74,185 (2009 - $64,165).

10. FINANCIAL INSTRUMENTS - RISK MANAGEMENT

In the normal course of operations the Authority is exposed to various financial risks. The financial risk management objectives and policies are as follows:

Credit risk

Credit risk is the risk that one party to a financial instrument fails to discharge an obligation and causes financial loss to another party. Financial instruments which potentially subject the Authority to credit risk consist principally of cash and short term deposits, accounts receivable and advance receivable.

The maximum exposure of the Authority to credit risk at March 31, 2009 is:

Cash and short term deposits	$ 1,421,219
Accounts receivable	233,163
Advance receivable	116,600
	$ 1,770,982

Cash and short term deposits: The Authority is not exposed to significant credit risk as the cash and term deposits are primarily held by a financial institution.

Accounts receivable and advance receivable: The Authority is not exposed to significant credit risk as the nature of the accounts receivable and advance receivable are with related entities and consists of a large client base and payment in full is typically collected when it is due. The Authority establishes an allowance for doubtful accounts that represents its estimate of potential credit losses. The allowance for doubtful accounts is based on management's estimates and assumptions regarding current market conditions, customer analysis and historical payment trends. These factors are considered when determining whether past due accounts are allowed for or written off. The balance in the allowance for doubtful accounts at 2009 was $nil (2008 - $nil)

Liquidity risk

Liquidity risk is the risk that the Authority will not be able to meet its financial obligations as they come due.

The Authority manages liquidity risk by maintaining adequate cash balances and by review from the Province of Manitoba to ensure adequate funding will be received to meet the obligations.

Market risk

Market risk is the risk that changes in market prices, such as interest rates and foreign exchange rates, will affect the Authority's income or the fair values of its financial instruments. The significant market risk the Authority is exposed to is interest rate risk.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The interest rate exposure relates to funds on deposit.

The interest rate risk on short term deposits are considered to be low because of their short-term nature.

11. COMPARATIVE FIGURES

Certain of the comparative figures have been reclassified to conform with the current year classifications.

HELEN BETTY OSBORNE MEMORIAL FOUNDATION

RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying financial statements of the Helen Betty Osborne Memorial Foundation are the responsibility of the Board of Trustees and have been prepared in accordance with Canadian generally accepted accounting principles. In the Board of Trustees' opinion, the financial statements have been properly prepared within reasonable limits of materiality, incorporating the Board's best judgment regarding all necessary estimates and all other data available up to June 19, 2009. The financial information presented elsewhere in the Annual Report is consistent with that in the financial statements.

The Board of Trustees maintain internal controls to properly safeguard the assets and to provide reasonable assurance that the books and records from which the financial statements are derived accurately reflect all transactions , and that established policies and procedures are followed.

The responsibility of the Auditor General of Manitoba is to express an independent, professional opinion on whether the financial statements of Helen Betty Osborne Memorial Foundation are fairly stated in accordance with Canadian generally accepted accounting principles. The Auditors' Report outlines the scope of the audit examination and provides the audit opinion.

On behalf of the Board of Trustees,

AUDITORS' REPORT

To the Legislative Assembly of Manitoba and
To the Board of Trustees of the Helen Betty Osborne Memorial Foundation

We have audited the statement of financial position of The Helen Betty Osborne Memorial Foundation as at March 31, 2009, and the statement of operations and changes in net assets for the year then ended. These financial statements are the responsibility of the Foundation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

Except as explained in the following paragraph, we conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In common with many charitable organizations, the Foundation derives funds from donations, the completeness of which is not susceptible to satisfactory audit verification. Accordingly, our verification of these donations was limited to the amounts recorded in the records of the Foundation and we were not able to determine whether any adjustments might be necessary to donations, excess of revenues over expenses and net assets at the end of the year.

In our opinion, except for the effects of the adjustments, if any, which we might have determined to be necessary had we been able to satisfy ourselves concerning the completeness of donations referred to in the preceding paragraph, these financial statements present fairly, in all material respects, the financial position of the Foundation as at March 31, 2009, and the results of its operations and changes in net assets for the year then ended in accordance with Canadian generally accepted accounting principles.

Interest received	$ 5,339	8,087

1. ACCOUNTING ENTITY

The Helen Betty Osborne Memorial Foundation is incorporated under The Helen Betty Osborne Memorial Foundation Act, which received royal assent on December 15, 2000. The Foundation is a registered charitable organization exempt from income taxes under the provisions of the Income Tax Act of Canada.

The legislated purpose of the Foundation is to receive donations of real and personal property, including cash; to provide financial assistance to aboriginal persons residing in Manitoba who are enrolled in post secondary studies in Manitoba; and to promote the memory of Helen Betty Osborne.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) General

The financial statements have been prepared in accordance with Canadian generally accepted accounting principles for not-for-profit organizations.

(b) Revenue Recognition

The Foundation follows the deferral method in accounting for contributions. Restricted contributions are recognized as revenue in the year in which the related expenses are incurred. Unrestricted contributions are recognized as revenue when they are received or receivable, and when collectability is reasonably assured. Endowment contributions are recognized as direct increases in net assets. Investment income earned is restricted for bursary or scholarship purposes and is recognized on a time proportionate basis.

(c) Inventory

Inventory is stated at the lower of cost and net realizable value with cost being determined using the first-in, first-out/ average cost method.

(d) Fund Accounting

The Regulation of The Helen Betty Osborne Memorial Foundation Act directs that scholarships, bursaries and grants may be paid from the fund as long as the fund will contain at least $57,500 after the capital in question has been withdrawn from the fund. If the fund contains less than $57,500, the Foundation may only provide scholarships, bursaries and grants using income earned from the fund. The Foundation maintains the following funds:

- The Unrestricted Fund, which reports the general activities of the Foundation, including administration.
- The Restricted Fund, which reports the revenues and expenses related to bursaries and scholarships and other special projects.
- The Endowment Fund, which reports the investments and grants received is subject to externally imposed restrictions stipulating that the resources be maintained permanently.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(e) New Accounting Policies

Effective April 1, 2008 the entity adopted the following new accounting standards issued by the Canadian Institute of Chartered Accountants (CICA):

Section 1535 Capital Disclosure

Section 1535 establishes standards for disclosing information about an entity's capital and how it is managed. These standards require an entity to disclose its objectives, policies and processes for managing capital, a summary of quantitative data about what it manages as capital and whether it complied with any externally imposed capital requirements to which it is subject and, if not, the consequences of such non-compliance.

The entity has continued to apply Section 3861 "Financial Instruments - Disclosure and Presentation" in place of Sections 3862 and 3863.

Section 3031 Inventories

Section 3031, Inventories, replacing Section 3030, Inventories. It provides more guidance on the measurement and disclosure requirements for inventories. The adoption of Section 3031 did not have an impact on the recognition, measurement or presentation of inventory in the entity's year-end financial statements.

(f) Financial Instruments

Financial assets and liabilities are initially recorded at fair value. Measurement in subsequent periods depends on the financial instrument's classification. Financial instruments are classified into one of the following five categories: held for trading; available for sale; held to maturity; loans and receivables; and other financial liabilities. All financial instruments classified as held for trading or available for sale are subsequently measured at fair value with any change in fair value recoded in net earnings and other comprehensive income, respectively. All other financial instruments are subsequently measured at amortized cost.

The financial assets and liabilities of the Foundation are classified and measured as follows:

Financial Asset/Liability	Category	Subsequent Measurement
Cash and funds on deposit	Held for trading	Fair value
Accrued interest receivable	Loans and receivables	Amortized cost
Accounts receivable	Loans and receivables	Amortized cost
Accounts payable	Other financial liabilities	Amortized cost
Accrued liabilities	Other financial liabilities	Amortized cost
Deferred contributions	Other financial liabilities	Amortized cost

Amortized cost is determined using the effective interest rate method.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(f) Financial Instruments (Continued)

Gains and losses on financial instruments subsequently measured at amortized cost are recognized in the statement of operations in the period the gain or loss occurs. Changes in fair value on financial instruments classified as held for trading are recognized in the statement of operations for the current period. Changes in fair value on financial instruments classified as available for sale are recorded in statement of changes in net assets until realized, at which time they recorded in the statement of operations.

Fair value of financial instruments
The fair values of cash, short-term investments, accrued interest receivable, accounts receivable, accounts payable and deferred contributions approximates their carrying values due to their short-term maturity.

(g) Use of Estimates

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingencies at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods presented. Actual results could differ from these estimates.

(h) Capital Management

The Foundation's objective when managing capital is to maintain sufficient capital to cover its costs of operations. The Foundation's capital consists unrestricted, restricted and endowment funds.

The Foundation's capital management policy is to:

- Maintain sufficient capital to meet its objectives through its net assets by managing contributions from government entities, private organizations and individuals.
- Meet short-term capital needs with ongoing management of cash on hand and short-term investments.
- Meet long-term capital needs through allocation of revenue to the endowment fund.

The Foundation is not subject to externally imposed capital requirements.

There were no changes in the foundation's approach to capital management during the period.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Future Accounting Policy Changes

The CICA has issued two new standards, CICA 3862: Financial Instruments – Disclosures and CICA 3863: Financial Instruments – Presentation, which enhance the abilities of users of financial statements to evaluate the significance of financial instruments to an entity, related exposures and the management of these risks.

These new sections, which were effective April 1, 2008, would require additional disclosure in the financial statements. However, the CICA subsequently amended these sections to eliminate the requirement for not-for-profit entities and rate-regulated enterprises to adopt these sections. These entities are permitted to continue to apply Section 3861 Financial Instruments - Disclosure and Presentation in place of sections 3862 and 3863. An entity that does so must disclose this fact.

The CICA amended a number of standards applicable to not-for-profit organizations (NFPOs) and issued new standard, CICA 4470 Disclosures of Allocated Expenses by Not-for-Profit Organizations.

CICA 4400 Financial Statement Presentation by Not-For-Profit Organizations was amended to:

- eliminate the requirement to treat net assets invested in capital assets as a separate component of net assets and, instead, permit a not-for-profit organization (NFPO) to present such an amount as a category of internally restricted net assets when it chooses to do so;
- clarify that revenues and expenses must be recognized and presented on a gross basis when a not-for-profit organization is acting as a principal in transactions;
- make Section 1540 Cash Flow Statements applicable to NPO's; and
- make Section 1751 Interim Financial Statements applicable to NPO's that prepare interim financial statements in accordance with GAAP.

Section 4430 Capital Assets Held by Not-For-Profit Organizations was amended to provide additional guidance with respect to the appropriate use of the scope exemption for smaller entities.

Section 4460 Disclosure of Related Party Transactions by Not-For-Profit Organizations was amended to make the language in Section 4460 consistent with Section 3840 Related Party Transactions.

New Section CICA 4470 Disclosure of Allocated Expenses by Not-For-Profit Organizations establishes disclosure standards for not-for-profit organizations that choose to classify their expenses by function and allocate expenses from one function to another. The main features of the new Section are:

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Future Accounting Policy Changes (Continued)

- A requirement for an entity that allocates its fundraising and general support expenses to other functions to disclose the policies adopted for the allocation of expenses among functions, the nature of the expenses being allocated and the basis on which such allocations have been made; and
- A requirement for an entity to disclose the amounts allocated from each of its fundraising and general support functions and the amounts and functions to which they have been allocated.

These changes in accounting policies, which will be adopted effective April 1, 2009 will only require additional disclosures in the financial statements and will not have any impact on the the results of operation or financial position.

(j) Donated Services

The Foundation is economically dependent on the Province of Manitoba. No amount has been reflected in the financial statements for the Foundation's audit fees, certain expenses of trustees and other administrative services provided by the Province of Manitoba.

(k) Donations in Kind

Various individuals or organizations donate items that are used in the fundraising activities of the Helen Betty Osborne Memorial Foundation. These donations in kind have been included in the revenues and expenses where the fair value can be reasonably estimated except for design and marketing services provided by Cats in the Bag Design in the amount of $5,500 for March 31, 2009 (2008 - $7,750).

3. DEFERRED CONTRIBUTIONS

Deferred contributions represent unspent resources externally restricted for scholarship or bursary purposes or other externally funded projects. Changes in the deferred contributions balance are as follows:

		2009	2008
Balance, beginning of year	$	23,214	33,105
Add: Investment revenue restricted for scholarship purposes		4,333	8,056
Restricted contributions			
Bursaries and scholarships (Note 6)		104,400	53,600
Project		1,900	6,070
GST rebate		360	302
Subtotal		134,207	101,133
Deduct current year:			
Amounts recognized as restricted contributions			
Bursaries and scholarships		104,400	53,600
Project		25,474	16,263
Amounts recognized as investment income		4,333	8,056
Balance, end of year	$	-	23,214

4. INVESTMENT INCOME

		2009	2008
Total investment income recognized as revenue	$	4,333	8,056

5. CONTRACTUAL COMMITMENTS

During the fiscal year ended March 31, 2009, the Foundation has entered into a contractual arrangement with Planners Plus to organize the May 2009 Gala Dinner. A commitment of $6,600 exists under this arrangement for the 2010 fiscal year.

6. FUNDING COMMITMENT RESTRICTED TO SPECIFIC BURSARIES

During the fiscal year ended March 31, 2009, the Government of Canada provided a funding commitment of $45,000 to be used for bursaries and scholarships. An amount of $40,500 was received for March 31, 2009 and a hold back amount of $4,500 will be received in the next fiscal year upon the completion of final reports.

7. UNRESTRICTED FUNDING COMMITMENT

During the fiscal year ended March 31, 2009, the Government of Manitoba provided a funding commitment of $180,000 to be used for general operating purposes. An amount of $80,000 was received for March 31, 2009 and the remainder of the grant will be received in payments of $60,000 in 2009/10 and $40,000 in 2010/11, upon the terms of the agreement being met.

8. PUBLIC SECTOR COMPENSATION DISCLOSURE ACT

The requirement under the Public Sector Compensation Disclosure Act for an annual public disclosure be made of individual compensation in an amount exceeding $50,000 annually to any officer or employee of the Foundation is not necessary. All staff, Trustees and the Chairperson to the Board of Trustees are volunteers and receive no compensation for their services.

9. INTERFUND TRANSFERS

An interfund transfer of $15,394 has been made from the unrestricted fund to the restricted fund to cover the unfunded expenses of the restricted fund.

10. COMPARATIVE FIGURES

Certain of the comparative figures have been reclassified to reflect the financial statement presentation adopted for the current year.

Auditors' Report

To the Members of
INSURANCE COUNCIL OF MANITOBA

We have audited the statement of financial position of **INSURANCE COUNCIL OF MANITOBA** as at March 31, 2009 and the statements of operations and changes in net assets and cash flows for the year then ended. These financial statements are the responsibility of the Council's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Council as at March 31, 2009 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

INSURANCE COUNCIL OF MANITOBA
Summary of Significant Accounting Policies

March 31, 2009

Financial Instruments

The Council utilizes various financial instruments. Unless otherwise noted, it is management's opinion that the Council is not exposed to significant interest, currency or credit risks arising from these financial instruments and the carrying amounts approximate fair values.

All transactions related to financial instruments are recorded on a settlement date basis except for investments which are recorded on a trade date basis.

The Council classifies its financial instruments as follows based on the purpose for which the asset was acquired and follows the disclosed accounting policy for each category.

Assets/Liability	Category	Measurement
Cash	Held for trading	Fair value
Accounts receivable	Loans and receivables	Amortized cost
Short-term investments	Held for trading	Fair value
Long-term investments	Held for trading	Fair value
Accounts payable	Other financial liabilities	Fair value

- Held for trading items are carried at fair value, with changes in their fair value recognized in the statement of operations.
- Other financial liabilities are carried at amortized cost, using the effective interest method.
- Loans and receivables are carried at amortized cost, using the effective interest rate method, less any provision for impairment.

Transition costs are expensed as incurred.

Basis of Accounting

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles.

Capital Assets

Capital assets are recorded at cost and are amortized over their estimated useful lives as follows:

Furniture and fixtures	20 % diminishing balance basis
Computer hardware	30 % diminishing balance basis
Computer software	30 % diminishing balance basis
Website development costs	30 % diminishing balance basis

Information Technology Reserve

The Information Technology Reserve is to be used for funding future upgrades to the Council's information technology system.

Revenue Recognition

License fees are recognized as income over the term of the license period. Examinations revenue is recognized when the exam is administered. Interest revenue is recognized on an accrual basis. Other fee revenue is recognized as services are provided.

New Accounting Pronouncements

Recent accounting pronouncements that have been issued but are not yet effective, and have a potential implication for the Council, are as follows:

Financial Statement Concepts - CICA Handbook Section 1000, Financial Statement Concepts has been amended to focus on the capitalization of costs that truly meet the definition of an asset and de-emphasizes the matching principle.

The revised requirements are effective for annual and interim financial statements relating to fiscal years beginning on or after October 1, 2008. The Council is currently evaluating the impact of the adoption of this change on the disclosure within its financial statements.

Goodwill and Intangible Assets - Section 3064 incorporates guidance to clarify the recognition of intangible assets and address and recognition and measurement of internally developed intangible assets. The new standards are effective for interim and annual financial statements relating to fiscal years beginning on or after October 1, 2008. The Council is currently assessing the impact of the new standards.

INSURANCE COUNCIL OF MANITOBA
Notes to Financial Statements

March 31, 2009

1. Nature of Business

The Council was created under the provisions of the Insurance Act (Manitoba) on October 17, 1991 and commenced activities on May 6, 1992. The purpose of the Council is to administer the examinations for and licensing of insurance agents and adjusters in Manitoba. The Council is exempt from income taxes under section 149(1) of the *Income Tax Act*.

2. Employee Benefits

The Council matches employee RRSP contributions. Employees may contribute up to 5.1 percent on the first $35,400 of earnings and up to 7 percent on earnings thereafter up to the maximum level allowed under federal taxation regulations. The Council's contributions to employee RRSP's for the year ended March 31, 2009 were $15,319 ($16,495 in 2008).

3. Short-term Investments

	2009	2008
Bank of Montreal Money Market Fund	**$ 274,010**	$ 236,862

The fair value of the short-term investment approximates the carrying value.

4. Long-term Investments

	2009 Cost	2009 Fair Value	2008 Fair Value
Province of Manitoba Portfolio Allocation Notes, Series 1	$ 35,000	**$ 31,315**	$ 30,479
Manitoba Builder Bonds, 3.25%, due June 15, 2008	-	-	49,910
Manitoba Builder Bonds, 4.25%, due June 15, 2008	-	-	59,844
Maple Trust GIC, 4.20%, due March 10, 2009	-	-	35,063
Canadian Western Bank GIC, 4.45%, due August 4, 2009	30,000	**32,800**	30,029
AGF Trust Company GIC, 4.89%, due August 4, 2009	32,266	**33,890**	32,253
AGF Trust Company GIC, 4.175%, due October 20, 2009	60,000	**70,842**	62,948
Manitoba Builder Bonds, 3.70%, due June 15, 2010	100,000	**112,372**	102,685
Manitoba Builder Bonds, 4.60%, due June 15, 2010	161,300	**163,828**	161,412
Wells Fargo Fin Canada, 3.60%, due June 28, 2010	43,000	**42,067**	42,549
Manitoba Hydro Bonds 4.35%, due June 15, 2011	50,000	**57,056**	49,944
AGF Trust Company GIC, 4.82%, due November 7, 2011	60,688	**63,644**	60,663
Bank of Montreal GIC, 4.50%, due June 14, 2012	-	-	69,511
TD Mortgage Corp GIC, 4.65%, due June 25, 2012	50,000	**49,984**	-
Maple Trust GIC, 4.65%, due June 25, 2012	50,000	**49,984**	-
NTL BK of CDA GIC, 4.83%, due June 24, 2013	75,000	**74,975**	-
Advisor's Advantage Trust GIC, 4.8%, due June 24, 2013	20,038	**20,031**	-
TD Mortgage Corp GIC, 3.65%, due March 18, 2014	41,436	**41,431**	-
	$ 808,728	**$ 844,219**	$ 787,290

The investments are classified as held for trading and are recorded at fair market value. The investments are classified as long-term since it is the intent of the Council to reinvest the investments when they mature.

5. Related Party Transactions

The Council and the Office of the Superintendent of Insurance of Manitoba (OSIM) levy fees on members. The Council acts as agent and remits 44 percent of license and other fees and 15 percent of examination fees to the OSIM. These amounts are not included in the financial statements. In 2009, this amount is $620,942 ($597,609 in 2008).

6. Capital Assets

	2009			2008		
	Cost	Accumulated Amortization	Net Book Value	Cost	Accumulated Amortization	Net Book Value
Computer software	$ 99,642	$ 86,930	$ 12,712	$ 91,551	$ 82,486	$ 9,065
Furniture & fixtures	48,442	40,896	7,546	48,252	39,056	9,196
Computer hardware	138,192	95,561	42,631	98,497	82,555	15,942
Website development costs	27,353	4,103	23,250	-	-	-
	$ 313,629	$ 227,490	$ 86,139	$ 238,300	$ 204,097	$ 34,203

7. Transfer to Information Technology Reserve

In 2009, the Council adopted a motion to internally restrict an additional $100,000 of accumulated net assets into the Information Technology Reserve. The reserve is accumulating for future upgrades to the Council's information technology system.

	2009	2008
Information Technology Reserve, beginning of year	$ 100,000	$ 60,000
Transfer from unrestricted net assets	100,000	40,000
Information Technology Reserve, end of year	$ 200,000	$ 100,000

8. Commitments

The Council leases equipment and office premises under the provisions of operating leases which expire up to November 2011. Commitments to expiry are as follows:

2010	$ 69,452
2011	24,537

9. Use of Estimates

The preparation of financial statements in accordance with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management's best estimates as additional information becomes available in the future.

LEAF RAPIDS TOWN PROPERTIES LTD. AUDITED FINANCIAL STATEMENTS FOR MARCH 31, 2009 WERE NOT AVAILABLE AT THE TIME OF PRINTING THE PROVINCE OF MANITOBA PUBLIC ACCOUNTS VOLUME IV.

FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2008 ARE INCLUDED AS A PROXY.

OFFICE OF THE
AUDITOR GENERAL

AUDITORS' REPORT

To the Legislative Assembly of Manitoba, and
To the Board of Directors of Leaf Rapids Town Properties Ltd.

We have audited the balance sheet of Leaf Rapids Town Properties Ltd. as at March 31, 2008, and the statements of operations and deficit and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Company as at March 31, 2008, and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Office of the Auditor General

Office of the Auditor General

RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying financial statements are the responsibility of management and have been prepared in accordance with Canadian generally accepted accounting principles. In management's opinion, the financial statements have been properly prepared within reasonable limits of materiality, incorporating management's best judgment regarding all necessary estimates and all other data available.

Management maintains internal controls to provide reasonable assurance that the financial information is reliable and accurate and that the assets of the Company are safeguarded.

The Board of Directors is responsible for the review and approval of all financial statements and for overseeing management's performance of its financial reporting responsibilities.

The responsibility of the Auditor General of Manitoba is to express an independent professional opinion on these financial statements.

LEAF RAPIDS TOWN PROPERTIES LTD.
Summary of Significant Accounting Policies

March 31, 2008

Use of Estimates	Financial statements prepared in accordance with Canadian generally accepted accounting principles require management to make estimates and assumptions which can affect the reported balances of assets, liabilities, disclosure of contingent assets and contingent liabilities at the date of the financial statements and the reported amount of revenue and expenses during the reporting period. These estimates are reviewed periodically and, as adjustments become necessary, they are reported in income in the period in which they become known.
Developed Lots	Developed lots held for resale were written down, in a previous year, to a nominal value of $1. Property taxes and any other related costs are charged to operations.
Administrative Support	The Government of the Province of Manitoba provides the services of support staff, other administrative support services, office space and utilities. The cost of the services of support staff are estimated and included in the financial statements.
Income Taxes	These financial statements do not reflect any provision for corporation income taxes as the Company considers itself to be exempt from tax under Section 149(1)(d) of the Income Tax Act of Canada.
Revenue Recognition	Grant revenue is recognized over the period which it relates. Rental and interest revenue is recognized on an accrual basis when earned. Revenue from the Province for administrative expenses is recognized as the related expense is incurred.
Capital Assets	Capital assets are stated at cost, less accumulated amortization and write downs. Certain capital assets were written down in 2000 to their net realizable value. As well, in 2002, land, building and equipment were written down to reflect the reduction in their useful lives as explained in note 9. Accordingly, there is no amortization for 2008.

Financial Instruments

The Company's financial instruments consist of cash and short term deposits, accounts receivable, GST receivable, note receivable, accounts payable and accrued liabilities, and long-term debt.

Due to the redeemable nature of cash, carrying value is considered to be fair value.

The fair value of the short term deposits, accounts receivable, GST receivable, note receivable and accounts payable and accrued liabilities approximates their carrying values due to their short term maturity.

The fair value of the long-term debt is not practical to determine due to its underlying terms and conditions.

The Company is exposed to credit risk on the accounts receivable from its customers. An allowance for doubtful accounts has been established by the Company, based upon factors surrounding the credit risk of specific customers, historical records and other information.

New Accounting Policies

Effective April 1, 2007 the Company adopted the following new accounting standards issued by the Canadian Institute of Chartered Accountants (CICA).

Section 1506, Accounting Changes - Section 1506 requires that voluntary changes in accounting policies are made only if they result in the financial statements providing reliable and more relevant information. Additional disclosure is required when the entity has not yet applied a new primary source of Canadian GAAP that has been issued but is not yet effective, as well as when changes in accounting estimates and errors occur. The adoption of this revised standard had no material impact on the Company's financial statements for the year ended March 31, 2008.

New Accounting Policies (continued)

Section 1530, Comprehensive Income - Section 1530 requires the presentation of a statement of comprehensive income and provides guidance for the reporting and display of other comprehensive income. Comprehensive income represent the change in equity of an enterprise during a period from transactions and other events arising from non-owner sources including gains and losses arising on translation of self-sustaining foreign operations, gains and losses from changes in fair value of available for sale financial assets and changes in fair value of the effective portion of cash flow hedging instruments. The Company has not recognized any adjustments through other comprehensive income for the year ended March 31, 2008. Because the Company has no items related to other comprehensive income, comprehensive income is equivalent to net income.

Section 3855, Financial Instruments - Recognition and Measurement - Section 3855 prescribes the criteria for recognition and presentation of financial instruments on the balance sheet and measurement of financial instruments according to prescribed classifications. Under this section, financial assets and liabilities are initially recorded at fair value. This section also addresses how financial instruments are measured subsequent to initial recognition and how the gains and losses are recognized.

The Company is required to designate its financial instruments into one the following five categories: held for trading; available for sale; held to maturity; loans and receivable; and other financial liabilities. All financial instruments classified as held for trading or available for sale are subsequently measured at fair value with any change in fair value recorded in net earnings and other comprehensive income, respectively. All other financial instruments are subsequently measured at amortized cost.

The Company has designated its financial instruments as follows:

Cash and short term deposits are classified as financial assets held for trading and are measured at fair value and gains and losses recognized in net earnings. These financial assets are recorded at values that approximate their fair values.

Accounts receivable, GST receivable and the note receivable are classified as loans and receivables. These financial assets are recorded at their amortized cost using the effective interest rate method.

New Accounting Policies (continued)

Accounts payable and accrued liabilities and long-term debt are classified as other financial liabilities. These financial liabilities are recorded at their amortized cost using the effective interest method.

The adoption of this revised standard had no material impact on the company's financial statements for the year ended March 31, 2008.

Future Accounting Policy Changes

The CICA has issued two new standards, CICA 3862: *Financial Instruments - Disclosures* and CICA 3863: *Financial Instruments - Presentation*, which enhances the abilities of users of financial statements to evaluate the significance of financial instruments to an entity, related exposures and the management of these risks:

The CICA has also issued a new standard, *CICA 1535: Capital Disclosures*, which requires the disclosure of qualitative and quantitative information that enables users of financial statements to evaluate the entity's objectives, policies and processes for managing capital.

These changes in accounting policies, which will be adopted effective April 1, 2008, will only require additional disclosures in the financial statements.

1. Nature of Operations

Leaf Rapids Town Properties Ltd. was incorporated in 1971 under the Manitoba Companies Act. It was charged with the responsibility for the planning, design and development of the community of Leaf Rapids. Since the completion of the development, the Company has managed, leased and operated its physical assets and properties in Leaf Rapids.

2. Note Receivable

In 2001, the Company provided financing to the Leaf Rapids Community Development Corporation for the renovations to the dental clinic. Effective March 31, 2002, the terms of the repayment were renegotiated. The note receivable was written down in 2002 by $49,687 to reflect the uncertainty regarding the ultimate collection due to the mine closure, as explained in note 9. The Company continued to collect based on the terms shown below for the past fiscal year. As such, the 2002 write down has been adjusted as of March 31, 2008 to reflect a $nil outstanding balance. This adjustment is reflected as a gain from prior write down on the statement of operations and deficit.

	2008	2007
Note receivable, non-interest bearing, repayable in monthly installments of $995, due May, 2007	$ -	$ 1

3. Capital Assets

				2008	2007
	Cost	**Accumulated Write Down**	**Accumulated Amortization**	**Net Book Value**	Net Book Value
Commercial Properties					
Land	$ 478,766	$ 478,765	$ -	$ 1	$ 1
Buildings	1,627,110	561,919	1,065,191	-	-
Equipment	14,246	4,110	10,136	-	-
Non-Commercial Properties					
Land	414,692	414,692	-	-	-
Buildings	4,701,479	-	4,701,479	-	-
Other Property					
Land	82,301	82,301	-	-	-
Buildings	857,752	321,652	536,100	-	-
Equipment	201,311	60,217	141,094	-	-
	$ 8,377,657	$ 1,923,656	$ 6,454,000	$ 1	$ 1

4. Long-term Debt

Long-term debt payable to the Province of Manitoba consists of $1,498,577 in 10% income debentures, secured by a floating charge on all assets of the Company. Annual installments against this debt are determined based on one-half of the prior year's cash flow from operations. Cash flow is defined as net income from operations, plus amortization expense, less the installment amount paid in the year.

Interest expense is recorded as an accrual each year, based on the required annual installment that becomes due and payable subsequent to each fiscal year. If the required annual installment exceeds 10% of the outstanding long-term debt, the amount of the required annual installment in excess of 10% of the outstanding long-term debt is applied against the outstanding long-term debt principal and the remainder is recorded as interest expense. If the required annual installment is less than 10% of the outstanding debt, the full amount of the installment is recorded as interest expense. The difference between that recorded interest expense and the 10% of the long-term debt is not recorded and is non-cumulative. For the year ended March 31, 2008, the accrued interest expense amounted to $38,878. The difference between the interest expense of $38,878 and 10% of the long-term debt is $110,980.

5. Share Capital

Authorized:

40,000 common shares, not to exceed $40,000
26,210 8.15% non-cumulative, redeemable, preferred voting shares, not to exceed $2,621,000 with a redemption price of $100 per share

The issued capital is as follows:

	2008	2007
100 common shares	$ 100	$ 100
26,210 preferred shares	2,621,000	2,621,000
	$ 2,621,100	$ 2,621,100

Ownership: All issued shares are held by the Minister of Finance of the Province of Manitoba.

6. Accounts Receivable

	2008	2007
Trade	$ 100,642	$ 113,315
Grant - Minister of Finance	400,000	-
Allowance for doubtful accounts	(81,411)	(81,411)
	$ 419,231	$ 31,904

7. Interest income (expense) - net

	2008	2007
Interest Income - short term deposits held by Province of Manitoba	$ 4,163	$ 14,837
Interest Expense - Income Debenture to Province of Manitoba	(38,878)	-
	$ (34,715)	$ 14,837

8. Related Party Transactions

All issued shares of the Company are held by the Minister of Finance of the Province of Manitoba. In addition, the long-term debt and related interest described in the long-term debt note are payable to the Province of Manitoba. The interest income is earned on short term deposits held by the Province of Manitoba. The Company also has the following balances with the Province of Manitoba and its agencies reflected in these financial statements as at March 31, 2008. These transactions and balances are in the normal course of operations and are measured at the exchange amount agreed to by the related parties.

	2008	2007
Short term deposits	$ 762	$ 191,472
Accounts receivable	2,472	839
Accounts payable	9,994	31,391

9. Write Down of Assets to Net Realizable Value

The viability of the Company was dependant on the ongoing successful operation of the Ruttan Mine. Based on information known in 2000, existing ore reserves were expected to continue for another four years. Accordingly, in 2000, management wrote down certain capital assets to reflect this uncertainty. In 2000, the Company determined the net realizable value of the Town Centre land to be $100,000, the equivalent of the maximum price it would receive should it sell the land. Accordingly in 2000, the Town Centre land was written down by $123,996. The industrial park land, the mobile home park land, the Town Centre buildings and the commercial buildings were written down in 2000 to estimated future cash flows from operations. The cost of these assets was written down in 2000 by $1,064,414.

On October 29, 2001, the owner of the Ruttan Mine announced that the mine would be shutting down in May, 2002. A number of alternatives are currently being reviewed by the Town of Leaf Rapids for the utilization of the mine and/or the utilization of available housing in the Town. The ongoing viability of the Company will depend on the outcome of the implementation of the alternatives currently being reviewed.

In 2002, the cost of land, buildings and equipment has been written down by $320,554 to reflect the reduction in their useful lives due to the closing of the Ruttan Mine. As well, due to the mine closure and the effect on the economy of Leaf Rapids, the following allowances and asset write downs, totaling $101,013 have been made as of March 31, 2008:

a) The allowance for doubtful accounts receivable balance as of March 31, 2008 is $81,411 to reflect the uncertainty of the ultimate collection of the accounts receivable.

b) The carrying value of maintenance inventory reflects a write down of $19,602.

10. Going Concern

The accompanying financial statements have been prepared on the going concern assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. Operating revenues have continued to drop since the closure of the Ruttan Mine in May, 2002. While the Company's severe cash flow problems have been alleviated with the additional funding provided by the Province, the Company continues to review their financial position and the long term plans for the Company.

11. Government Grants

The Minister of Finance is authorized to make payments of up to $1,900,000 from the Mining Community Reserve to Leaf Rapids Town Properties Ltd. to support it's continued operations consisting of $400,000 in the 2008 fiscal year and $500,000 in each of the following three years.

12. Subsequent Event

In February 2008, the Province of Manitoba had recommended that the long-term debt (income debenture) in the amount of $1,498,577 be written off. The actual write off did not occur during the year and Leaf Rapids Town Properties Ltd. has subsequently obtained a shareholder's resolution on October 20, 2008 to recommend that the income debenture be written off from Leaf Rapids Town Properties Ltd. records after the Province has written off their investment in the income debenture. On November 21, 2008, the Minister of Finance approved the write off of the Province's investment effective as of March 31, 2009.

13. Contingency

The Company has been named in a legal action. No provision has been made as at March 31, 2008 as the final result is uncertain. Should any loss result from the resolution of this claim, it will be charged to operations in the year of resolution.

14. Comparative Amounts

The comparative amounts presented in the financial statements have been restated to conform to the current year's presentation.

OFFICE OF THE
AUDITOR GENERAL
MANITOBA

AUDITORS' REPORT

To the Legislative Assembly of Manitoba
To the Management Council of Legal Aid Manitoba

We have audited the balance sheet of Legal Aid Manitoba as at March 31, 2009 and the statements of revenue and expense, changes in net assets and cash flow for the year then ended. These financial statements are the responsibility of Legal Aid Manitoba's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of Legal Aid Manitoba as at March 31, 2009 and the results of its operations and its cash flow for the year then ended in accordance with Canadian generally accepted accounting principles.

1. Nature of the Corporation

Legal Aid Manitoba (the Corporation) was established by an Act of the Legislative Assembly of Manitoba.

The purpose of the Corporation, as set out in the Act, is to service the public interest by:

a) Providing quality legal advice and representation to eligible low-income individuals;

b) Administering the delivery of legal aid in a cost-effective and efficient manner; and

c) Providing advice to the Minister on Legal Aid generally and on the specific legal needs of low-income individuals.

The Corporation is economically dependent upon the Province of Manitoba. Other revenue sources include The Manitoba Law Foundation, individual clients, and third party agencies.

2. Significant Accounting Policies

a) General

The financial statements are prepared in accordance with Canadian generally accepted accounting principles (GAAP).

b) New Accounting Policies

Effective April 1, 2008 the Corporation adopted the following new accounting standards issued by the Canadian Institute of Chartered Accountants (CICA):

Sections 3862 and 3863 Financial Instruments – Disclosures and Presentation
The CICA has issued two new standards, CICA 3862: Financial Instruments – Disclosures and CICA 3863: Financial Instruments – Presentation, which enhance the abilities of users of financial statements to evaluate the significance of financial instruments to an entity, related exposures and the management of these risks. CICA eliminated the requirement for not-for-profit entities to adopt these sections. The Corporation has continued to apply Section 3861: Financial Instruments – Disclosure and Presentation in place of sections 3862 and 3863.

Section 1535 Capital Disclosures
Section 1535 established standards for disclosing information about an entity's capital and how it is managed. These standards require an entity to disclose its objectives, policies and processes for managing capital, a summary of quantitative data about what it manages as capital and whether it complied with any externally imposed capital requirements to which it is subject and, if not, the consequences of such non-compliance. The adoption of this revised standard had no material impact on the Corporation's financial statements for the year ended March 31, 2009 (note 16).

Section 1400 General Standards of Financial Statement Presentation
Section 1400 has been amended to include requirements to assess and disclose an entity's ability to continue as a going concern. This amendment is effective for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2008. The adoption of these changes have no impact on the Legal Aid Manitoba's financial statements.

c) Financial Instruments

Financial assets and liabilities are initially recorded at fair value. Measurement in subsequent periods depends on the financial instrument's classification. Financial instruments are classified into one of the following five categories: held for trading; available for sale; held to maturity; loans and receivables; and other financial liabilities. All financial instruments classified as held for trading or available for sale are subsequently measured at fair value with any change in fair value recorded in net earnings. All other financial instruments are subsequently measured at amortized cost.

The financial assets and liabilities of Legal Aid Manitoba are classified and measured as follows:

Financial Asset/Liability	Category	Subsequent Measurement
Cash	Held for trading	Fair value
Short term investment	Held for trading	Fair value
Client accounts receivable	Loans and receivables	Amortized cost
Receivable from Province of Manitoba	Loans and receivables	Amortized cost
Receivable from Government of Canada	Loans and receivables	Amortized cost
Other receivables	Loans and receivables	Amortized cost
Long-term receivables:		
- Charges on land	Loans and receivables	Amortized cost
- Severance – Province of Manitoba	Loans and receivables	Amortized cost
- Pension – Province of Manitoba	Loans and receivables	Amortized cost
Accounts payable	Other financial liabilities	Amortized cost
Accrued vacation	Other financial liabilities	Amortized cost

Amortized cost is determined using the effective interest rate method.

Gains and losses on financial instruments subsequently measured at amortized cost are recognized in the statement of revenue and expense in the period the gain or loss occurs. Changes in fair value on financial instruments classified as held for trading are recognized in the statement of revenue and expense for the current period. Changes in fair value on financial instruments classified as available for sale are recorded in statement of changes in net assets until realized, at which time they are recorded in the statement of revenue and expense.

Fair value of financial instruments

The fair value of a financial instrument is the estimated amount that the Corporation would receive or pay to settle a financial asset or financial liability as at the reporting date.

Due to the redeemable nature of cash and short term investment, carrying value is considered to be fair value.

The fair values of the client accounts receivable, receivable from the Province of Manitoba , receivable from the Government of Canada, other receivables and accounts payable and accrued vacation pay approximates their carrying values due to their short-term maturity.

The fair value of the long-term receivable – Charges on land approximates the carrying value because it is estimated from an analysis of expected recoveries based on recent experience and discounted to reflect the time value of money.

The fair value of the long-term receivable from the Province of Manitoba-severance approximates its carrying value as the receivable includes an interest component as described in Note 7.

The fair value of the long-term receivable from the Province of Manitoba-pension approximates its carrying value as the receivable includes an interest component as described in Note 14.

The fair values of financial assets and liabilities, together with the carrying amounts shown in the balance sheet are as follows:

	2009		2008	
Financial Asset/Liability	**Carrying Amount**	**Fair Value**	**Carrying Amount**	**Fair Value**
Cash	$ 2,496,588	$ 2,496,588	$ 1,804,400	$ 1,804,400
Short term investment	1,400,000	1,400,000	-	-
Client accounts receivable	192,588	192,588	150,956	150,956
Receivable from Province of Manitoba	4,043,300	4,043,300	5,918,000	5,918,000
Receivable from Government of Canada	-	-	148,797	148,797
Other receivables	142,069	142,069	66,711	66,711
Long-term receivables:				
– Charge on land	757,549	757,549	726,238	726,238
– Severance – Province of Manitoba	716,166	716,166	716,166	716,166
– Pension – Province of Manitoba	13,244,586	13,244,586	12,063,756	12,063,756
Accounts payable	4,110,061	4,110,061	4,351,454	4,351,454
Accrued vacation	951,364	951,364	892,488	892,488

Financial risk management – overview

The Corporation has exposure to the following risks from its use of financial instruments:

- Credit risk;
- Liquidity risk;
- Interest rate risk; and
- Foreign currency risk

The Corporation manages its exposure to risks associated with financial instruments that have the potential to affect its operating performance. The Corporation's Management Council has overall responsibility for the establishment and oversight of the Corporation's objectives, policies and procedures for measuring, monitoring and managing these risks.

Credit risk

Credit risk is the risk that one party to a financial instrument fails to discharge an obligation and causes financial loss to another party. Financial instruments which potentially subject the Corporation to credit risk consist principally of cash, term deposits and accounts receivable.

The maximum exposure of Legal Aid Manitoba to credit risk at March 31, 2009 is:

Cash and short term investment	$ 3,896,588
Client accounts receivable	192,588
Receivable from the Province of Manitoba	4,043,300
Other receivables	142,069
Long-term receivables:	
– Charge on land	757,549
– Severance – Province of Manitoba	716,166
– Pension – Province of Manitoba	13,244,586
	$ 22,992,846

Cash and short term investment: The Corporation is not exposed to significant credit risk as the cash and short term investment are held by a large financial banking institution.

Clients accounts receivable includes clients that contribute toward the cost of their case under the agreements to pay and expanded eligibility payment programs based on a contract. The Corporation manages its credit risk on these accounts receivables which are primarily small amounts held by a large client base. It is typically expected that clients will settle their account based on their payment program. The Corporation establishes an allowance for doubtful accounts that represents its estimate of potential credit losses.

Receivables from the Province of Manitoba: The Corporation is not exposed to significant credit risk as the receivable is from the provincial government.

Other receivables includes court costs, Child and Family Services agencies, Employment and Income Assistance, and miscellaneous. The Corporation is not exposed to significant credit risk related to court costs as an allowance of 95% is set up to recognize the likelihood of collection. In the case of receivables from Child and Family Services agencies and Employment and Income Assistance, they are funded through the Province of Manitoba. Miscellaneous includes employee advances, GST and other recoverable costs. Employee advances are usually paid within one month, GST is received quarterly and other recoverable costs are usually paid within 90 days of receipt of an order to pay by the courts or other authority.

Long-term receivable – charges on land: The Corporation manages its credit risk on these accounts receivables which primarily consists of small amounts held by a large client base for which payment is secured by a lien on property. The Corporation establishes an allowance for doubtful accounts that represents its estimate of potential credit losses. The allowance for doubtful accounts is calculated on a specific identification basis and a general provision for the remainder.

Long-term receivables – severance and pension – Province of Manitoba: The Corporation is not exposed to significant credit risk as the receivables are with the provincial government.

Liquidity risk

Liquidity risk is the risk that Legal Aid Manitoba will not be able to meet its financial obligations as they come due.

Legal Aid Manitoba manages liquidity risk by maintaining adequate cash balances. The Corporation prepares and monitors detailed forecasts of cash flows from operations and anticipated investing and financing activities. Identified funding requirements are requested, reviewed and approved by the Minister of Finance to ensure adequate funding will be received to meet the obligations. The Corporation continuously monitors and reviews both actual and forecasted cash flows through periodic financial reporting.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The interest rate exposure relates to cash, short term investment and accounts payable.

The interest rate risk is considered to be low on cash and short term investment because of their short-term nature and low on accounts payable because they are typically paid when due.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Corporation is not exposed to significant foreign currency risk as it does not have any financial instruments denominated in foreign currency.

d) Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingencies at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

e) Future Accounting Policy Changes

Not-For-Profit Organizations

The CICA amended a number of standards applicable to not-for-profit organizations (NFPOs) and issued new standard, CICA 4470 *Disclosures of Allocated Expenses by Not-for-Profit Organizations.*

CICA 4400 *Financial Statement Presentation by Not-For-Profit Organizations* was amended to:

- eliminate the requirement to treat net assets invested in capital assets as a separate component of net assets and, instead, permit a not-for-profit organization (NFPO) to present such an amount as a category of internally restricted net assets when it chooses to do so;
- clarify that revenues and expenses must be recognized and presented on a gross basis when a not-for-profit organization is acting as a principal in transactions;

- make Section 1540 *Cash Flow Statements* applicable to NFPOs; and
- make Section 1751 *Interim Financial Statements* applicable to NFPOs that prepare interim financial statements in accordance with GAAP.

Section 4430 *Capital Assets Held by Not-For-Profit Organizations* was amended to provide additional guidance with respect to the appropriate use of the scope exemption for smaller entities.

Section 4460 *Disclosure of Related Party Transactions by Not-For-Profit Organizations* was amended to make the language in Section 4460 consistent with Section 3840 Related Party Transactions.

New Section CICA 4470 *Disclosure of Allocated Expenses by Not-For-Profit Organizations* establishes disclosure standards for not-for-profit organizations that choose to classify their expenses by function and allocate expenses from one function to another. The main features of the new Section are:

- A requirement for an entity that allocates its fundraising and general support expenses to other functions to disclose the policies adopted for the allocation of expenses among functions, the nature of the expenses being allocated and the basis on which such allocations have been made; and
- A requirement for an entity to disclose the amounts allocated from each of its fundraising and general support functions and the amounts and functions to which they have been allocated.

These new requirements are effective April 1, 2009 and will only require additional disclosure in the financial statements.

f) Revenue Recognition

The Corporation follows the deferral method of accounting for contributions. Restricted contributions are recognized as revenue in the year in which the related expenses are incurred. Unrestricted contributions are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

g) Recognition of Contributions from Clients

Clients may be required to pay a portion or all of the legal costs incurred on their behalf by Legal Aid Manitoba based on the clients' ability to pay.

i) Agreements to Pay
Clients who are able to pay, sign an agreement to pay for their portion of the applicable legal costs. The amount the client is required to pay is specified on the Legal Aid Certificate. The revenue and receivable are recognized when the certificate is signed.

ii) Expanded Eligibility
Under terms of expanded eligibility, clients are required to pay all of the legal costs and an administration fee of 25% of the Corporation's cost of the case up to a maximum of $250. The revenue and receivable are recognized based on the date of the lawyer's billing.

iii) Charges on Land
Charges on Land are registered under Section 17 of *The Corporations Act* in a Land Titles Office against property owned by clients. The revenue and receivable are recognized at the later of the date the lien is filed or the date of the lawyer's billing. Collection of these accounts in the future is dependent on the client disposing of the property or arranging for payment.

h) Allowance for Doubtful Accounts

The allowances for doubtful accounts are determined annually based on a review of individual accounts. The allowances represent management's best estimate of probable losses on receivables. Where circumstances indicate doubt as to the ultimate collectability of an account, specific allowances are established for individual accounts. In addition to the allowances identified on an individual account basis, the Corporation establishes a further allowance representing management's best estimate of additional probable losses in the remaining accounts receivable.

i) Capital Assets

Capital assets are recorded at cost less accumulated amortization. Amortization of capital assets is recorded on a straight-line basis over the estimated useful lives of the capital assets as follows:

- Furniture and office equipment – 10 years
- Computer hardware and software – 4 years
- Leasehold improvements – over the term of the lease

Work in progress assets are not amortized until the asset is available to be put into service.

j) Pension Plan

Employees of the Corporation are pensionable under *The Civil Service Superannuation Act*. The Civil Service Superannuation Plan is a defined benefit pension plan. Legal Aid Manitoba is a non-matching employer. Under provisions of *The Civil Service Superannuation Act* non-matching employers defer contributing their share of employee pension benefits until they are billed for 50% of the benefit payments processed. The Corporation accrues a provision for the liability for the employer's share of employee pension benefits, including future cost of living adjustments, based on actuarial calculations. When actual experience varies from actuarial estimates, the adjustment needed is recognized immediately in net revenue (expense) in the year that the actuarial gain or loss arises.

3. Client Accounts Receivable, net

	2009	2008
Charges on Land	$ 1,432,197	$ 1,452,475
Less: Allowance for Doubtful Accounts	674,648	726,237
Charges on Land, net	$ 757,549	$ 726,238

7. Long-term Receivable - Severance Benefits

The amount recorded as a receivable from the Province for severance pay was initially based on the estimated value of the corresponding actuarially determined liability for severance pay as at March 31, 1998. Subsequent to March 31, 1998, the Province provides annual grant funding for severance expense. As a result, the change in the severance liability each year is fully funded. The interest component related to the receivable is reflected in the funding for severance expense. The receivable for severance pay will be paid by the Province when it is determined that the cash is required to discharge the related severance pay liabilities.

8. Severance Liability

Effective April 1, 1998, Legal Aid commenced recording the estimated liability for accumulated severance pay benefits for their employees. The amount of this estimated liability is based on actuarial calculations. The periodic actuarial valuation of this liability may determine that an adjustment is needed to the actuarial calculation when actual experience is different from that expected and/or because of changes in actuarial assumptions used. The resulting actuarial gains or losses are recognized immediately in net revenue (expense) in the year that the actuarial gain or loss arises.

An actuarial report was completed for the severance pay liability as at March 31, 2009 by Ellement & Ellement Ltd., Consulting Actuaries. The Corporation's actuarially determined net liability for accounting purposes as at March 31, 2009 was $1,637,600 (2008 - $1,533,709). The report provides a formula to update liability on an annual basis.

Severance pay, at the employee's date of retirement, will be determined using the eligible employee's years of service and based on the calculation as set by the Province of Manitoba. The maximum payout is currently 23 weeks at the employee's weekly salary at the date of retirement. Eligibility will require that the employee has achieved a minimum of nine years of service and that the employee is retiring from the Corporation.

Significant long-term actuarial assumptions used in the March 31, 2009 valuation, and in the determination of the March 31, 2009 present value of the accrued severance benefit obligation were:

Annual rate of return	
Inflation component	2.50%
Real rate of return	4.00%
	6.50%
Assumed salary increase rates	
Annual productivity increase	0.75%
Annual general salary increase	2.50%
	3.25%

9. Revenue from the Province of Manitoba

	2009	2008
Grant	$ 11,473,617	$ 11,541,814
Salaries and other payments	8,861,749	8,322,630
Health and post secondary education tax levy	195,210	171,777
Employer portion of employee benefits	755,996	714,002
	$ 21,286,572	$ 20,750,223

Grant revenue from the Province of Manitoba includes the Corporation's share of provisions recorded for unfunded pension liabilities.

10. Revenue from The Manitoba Law Foundation

	2009	2008
Statutory Grant	$ 3,743,943	$ 3,021,134
Public Interest Law Centre	180,000	180,000
University Law Centre	86,000	89,500
	$ 4,009,943	$ 3,290,634

A statutory grant, pursuant to subsection 90(1) of *The Legal Profession Act*, is received annually from The Manitoba Law Foundation. The Corporation's share under the Act is 50% of the total interest on lawyers' trust accounts as received by the Foundation or a minimum of $1,007,629, whichever is greater. In the event that interest received by the Foundation in the preceding year, after deduction of the Foundation's operational expenses, is not sufficient to pay the statutory minimum of $1,007,629 to the Corporation, the Act provides for pro-rata sharing of the net interest.

Other grants from The Manitoba Law Foundation are received pursuant to subsection 90(4) of *The Legal Profession Act*. These grants are restricted for the Public Interest Law Centre and the University Law Centre. At March 31, 2009, there were no funds remaining from these grants.

11. Commitments

a) Lease

The Corporation rents facilities under operating leases. Unpaid remaining commitments under the leases, which expire at varying dates are:

2010	$	686,679
2011		687,029
2012		471,356
2013		120,229
2014		40,603
Thereafter		-
	$	2,005,896

b) Private Bar

Estimated total commitments for future billings on outstanding Legal Aid Certificates amount to $2,284,000 as at March 31, 2009 (2008 - $1,550,000).

12. Related Parties Transactions

The Corporation is related in terms of common ownership to all Province of Manitoba created departments, agencies and crown corporations. The Corporation enters into transactions with these entities in the normal course of business. These transactions are recorded at the exchange amount.

13. Private Bar Fees and Disbursements

	Fees	Disbursements	2009 Total	2008 Total
Legal Aid Certificates	$ 7,227,316	$ 667,954	$ 7,895,270	$ 7,941,564
Duty Counsel	1,032,273	-	1,032,273	696,933
Transcripts and Other	-	68,812	68,812	77,487
Total	$ 8,259,589	$ 736,766	$ 8,996,355	$ 8,715,984

The Management Council declared a hold back holiday for all certificates processed during the fiscal year April 1, 2008 - March 31, 2009. Certificates issued in this fiscal year were not subject to a hold back.

14. Provision for Employee Pension Benefits

Pension costs consist of benefits accrued, interest accrued on benefits and experience (gain) loss. This liability is determined by an actuarial valuation every three years with the balances for the intervening years being determined by a formula provided by the actuary. The most recent valuation was completed as at March 31, 2009 by Ellement & Ellement Ltd., Consulting Actuaries.

	2009	2008
Balance at beginning of year	$ 12,063,756	$ 11,051,780
Benefits accrued	573,555	532,517
Interest accrued on benefits	937,650	763,939
Benefits paid	(248,311)	(284,480)
Experience (Gain) Loss	(82,064)	-
Balance at end of year	$ 13,244,586	$ 12,063,756

The Corporation's pension costs consist of the following:

	2009	2008
Benefits accrued	$ 573,555	$ 532,517
Interest accrued on benefits	937,650	763,939
Experience (Gain) Loss	(82,064)	-
	$ 1,429,141	$ 1,296,456

The key actuarial assumptions were a rate of return of 6.50% (2004 – 6.50%), 2.50% inflation (2004 – 2.50%), salary rate increases of 4.25% (2004 – 4.25%) and post retirement indexing 2/3 of the inflation rate. The projected benefit method was used and the liability has been extrapolated to March 31, 2009 using a formula provided by the actuary.

The Province of Manitoba has accepted responsibility for funding of the Corporation's pension liability and related expense which includes an interest component. The Corporation has therefore recorded a receivable from the Province equal to the estimated value of its actuarially determined pension liability $13,244,586 (2008 - $12,063,756), and has recorded revenue for 2008/09 equal to its increase in the unfunded pension liability during the year of $1,180,830 (2008 - $1,011,976). The Province makes payments on the receivable when it is determined that the cash is required to discharge the related pension obligation.

15. Restricted Net Assets - Wrongful Conviction Cases

During the fiscal year ended March 31, 2006 the Province of Manitoba approved a reallocation of $130,000 from the Corporation's unrestricted net assets. This funding was provided for section 696 applications under the Criminal Code for wrongful conviction appeals. In the current fiscal year, the Corporation did not incur any expenses (2008 - $12,548) for private bar fees and disbursements related to wrongful conviction cases. The balance remaining is $78,559.

16. Capital Management

Legal Aid Manitoba's objective when managing capital is to maintain sufficient capital to cover its costs of operations.

Legal Aid Manitoba's capital consists of the total of the various net asset balances in the amount of $3,104,859 (2008 – $2,881,454).

Legal Aid Manitoba is not subject to externally imposed capital requirements.

There were no changes in Legal Aid Manitoba's approach to capital management during the period.

17. Public Sector Compensation Disclosure

For the purposes of *The Public Sector Compensation Disclosure Act*, all compensation for employees, Management Council members, and the private bar fees and disbursements from Legal Aid Manitoba is disclosed in a separate statement.

18. Legal Aid Manitoba Application System (LAMAS)

A new software application system was installed and implemented fiscal 2006/07 at a cost of $764,850. The system was paid for by the Department of Justice and therefore, a capital asset has not been recorded in these financial statements.

19. Comparative Figures

Certain comparative figures have been reclassified to conform to the current year's presentation.

Responsibility for Financial Statements

The management of the Manitoba Agricultural Services Corporation is responsible for the integrity, objectivity and reliability of the financial statements, accompanying notes and other financial information in the annual report.

Management maintains internal control systems to ensure that transactions are accurately recorded in accordance with established policies and procedures. In addition, certain best estimates and judgements have been made based on a careful assessment of the available information.

The financial statements and accompanying notes are examined by the Auditor General for Manitoba, whose opinion is included here. The Auditor General has access to MASC's Board of Directors, with or without management present, to discuss the results of their audit and the quality of MASC's financial reporting.

OFFICE OF THE
AUDITOR GENERAL
MANITOBA

AUDITORS' REPORT

To the Legislative Assembly of Manitoba
To the Board of Directors of Manitoba Agricultural Services Corporation

We have audited the balance sheet of the Manitoba Agricultural Services Corporation as at March 31, 2009, the statements of operations and funds retained and cash flows for the year then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 2009, and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

	$ 345,334	$ 196,544

NOTES TO FINANCIAL STATEMENTS

as at March 31, 2009 (tabular amounts in thousands of dollars)

1. Authority And Purpose

The Manitoba Agricultural Credit Corporation (MACC) was established under *The Agricultural Credit Corporation Act*. The Manitoba Crop Insurance Corporation (MCIC) was established under *The Crop Insurance Act*. As a result of the proclamation of *The Manitoba Agricultural Services Corporation Act*, C.C.S.M. c.A25 on September 1, 2005, MACC and MCIC were amalgamated to form the Manitoba Agricultural Services Corporation (MASC) and the legislation establishing the former corporations was repealed.

MASC provides lending, insurance and other programs and services. Its core programs include direct loans to agriculture producers, loan guarantees, AgriInsurance and Hail Insurance. MASC also delivers the Wildlife Damage Compensation Program, Farmland School Tax Rebate Program and other programs and services for the agricultural industry.

2. Basis Of Reporting

MASC's financial statements are presented in accordance with Canadian generally accepted accounting principles.

3. Changes In Accounting Policies

On April 1, 2008, MASC adopted three new sections of the Canadian Institute of Chartered Accountants ("CICA") Handbook, namely: Section 1535, Capital Disclosures; Section 3862, Financial Instruments – Disclosures; and Section 3863, Financial Instruments – Presentation. Section 3862 and 3863 consist of a comprehensive series of disclosures and presentation requirements applicable to financial instruments. They revise and enhance the disclosure requirements set out in Section 3861, Financial Instruments – Disclosure and Presentation, and carry forward unchanged its presentation requirements. Section 1535 consists of comprehensive disclosure requirements related to MASC's objectives, policies and processes for managing capital including required disclosures of externally imposed capital requirements.

The application of the aforementioned standards only impacted MASC's disclosures included in the financial statements.

4. Significant Accounting Policies

(A) Programs

Under the provisions of the applicable legislation, MASC delivers lending, insurance and other programs and services. For financial accounting purposes, all programs are treated as separate operations and are accounted for separately.

(B) Investments

Funds in excess of operational needs are invested with the Province of Manitoba, in accordance with Section 52(1) of *The Manitoba Agricultural Services Corporation Act*.

(C) Property and Equipment and Amortization

Property and equipment are reported at cost less accumulated amortization. Property and equipment are amortized on a straight-line basis over their estimated useful life, as follows:

Furniture and Equipment	10 years
Computer Hardware	4 years
Computer Software	4 years
Major Software Development	8 years
Leasehold Improvements	remaining term of lease

(D) Pensions

MASC employees are pensionable under *The Civil Service Superannuation Act.*

Effective April 1, 1998, the former Manitoba Crop Insurance Corporation (MCIC) became a fully funded matching employer. Upon the formation of the Manitoba Agricultural Services Corporation (MASC), the current pension obligations to the Civil Service Superannuation Board (CSSB) for former MCIC employees continued to be matched by MASC.

Prior to amalgamation, the Manitoba Agricultural Credit Corporation (MACC) did not match employees' current service contributions, and instead contributed 50% of the pension disbursements made to retired employees. Starting September 1, 2005, the current pension contributions for former MACC employees have been matched. MASC accrues a provision for its liability for the pensionable service that was earned by former MACC employees prior to the amalgamation on September 1, 2005, that includes future cost of living adjustments based on an actuarial valuation. The Province of Manitoba provides funding for this liability (Note 9). Details of the provision for the pension benefits are outlined in Note 18. Actuarial gains (losses) are recorded in the statement of operations in the fiscal year the actuarial valuation is completed.

As a matching employer, MASC discharges its pension liability on a current basis and, therefore, has no additional pension obligation. MASC's matching contributions for 2008/09 totalled $637,724.

(E) Vacation and Severance Pay

MASC employees are entitled to vacation and severance pay in accordance with the terms of the Collective Agreements and corporate policy. The severance pay liability is recorded based on an actuarial valuation and vacation pay is recorded based on MASC's best estimate. Actuarial gains (losses) on severance pay are recorded in the statement of operations in the fiscal year the actuarial valuation is completed.

(F) Provision for Losses on Loans and Loan Guarantees

The provision for loan losses is determined annually, through a review of individual accounts. The provision represents management's best estimate of probable losses on receivables. Where circumstances indicate doubt as to the ultimate collectability of principal or interest, specific provisions are established for individual accounts. These accounts are valued at the lower of their recorded value or the estimated net realizable value of the security held for the accounts. In addition to the provision for loss on loans identified on an individual loan basis, MASC establishes a general provision representing management's best estimate of additional probable losses based on other factors including the composition and credit quality of the portfolio and changes in economic and business conditions.

The provisions for losses on loan guarantees are determined annually by a review of each guarantee program. The provisions represent management's best estimate of probable claims against the guarantees. Such provisions are intended to cover principal; accrued and unpaid interest; and any additional amounts that are recoverable by the lender.

Current year provisions for losses on loans and loan guarantees are charged as expenses to provision for credit losses and provision for guaranteed loan losses, respectively. Actual loan accounts that have been written off and guaranteed claims paid are charged to the appropriate provision once all security has been realized and all other collection efforts have been exhausted.

(G) Real Estate Acquired in Settlement of Loans

Real estate that is acquired through foreclosure and voluntary transfers of titles in the settlement of loans is recorded at the lower of the recorded value of the loan or the appraised value of the real estate at acquisition date. Real estate is reported net of a provision for a decline in real estate values.

(H) Real Estate Under Long-Term Lease

Real estate that was acquired for the purpose of providing long-term leases to producers through the Land Lease Program is recorded at cost.

(I) Premiums and Government Contributions

MASC recognizes as revenue all premiums earned on insurance policies in force during the year.

The Canada-Manitoba AgriInsurance Agreement, which is consolidated in Annex B of "Growing Forward: A Federal-Provincial-Territorial Framework Agreement on Agriculture, Agri-Food and Agri-Based Products Policy", provides for the cost sharing of AgriInsurance premiums. Premiums for standard crop loss programs are shared between insured producers (40%), the Government of Canada (36%) and the Province of Manitoba (24%).

In addition to the general premium sharing noted above, alternative premium sharing arrangements apply for basic Excess Moisture Insurance (EMI), the EMI Zero Deductible Option and the Fall Frost Insurance pilot program.

(J) Administrative Expenses

Identifiable administrative expenses for all of the programs administered by MASC are charged directly to the specific program. Where the direct charging of administrative expenses to specific programs is not possible, these expenses are allocated to each program on a basis approved by MASC's Board of Directors.

The AgriInsurance Agreement referred to in Section (I) of this note, stipulates that administrative expenses, net of any administrative revenues, will be shared by the Government of Canada (60%) and the Province of Manitoba (40%).

(K) Use of Estimates

Preparing MASC's financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent liabilities as of the date of the financial statements, and reported amounts of revenue and expenses during the period. Actual results may differ from these estimates. Significant estimates are made by management in the following balances: accounts receivable, loans receivable, claims payable, accounts payable and the provision for losses on guaranteed loans.

(L) Financial Instruments

Financial assets and liabilities are initially recognized at fair value and their subsequent measurement is dependent on their classification as described below. Their classification depends on the purpose for which the financial instruments were acquired or issued, their characteristics and MASC's designation of such instruments.

Classifications
MASC has designated its financial instruments as follows:

Held for trading:	Cash
Held to maturity:	Investments
Loans and receivables:	Accounts receivable Loans receivable
Other liabilities:	Reinsurance premiums payable Claims payable Accounts payable and accrued liabilities Advances from the Province of Manitoba Provision for losses on guaranteed loans

Held for trading
Held for trading financial assets are financial assets typically acquired for resale prior to maturity or that are designated as held for trading. They are measured at fair value at the balance sheet date. Fair value fluctuations including interest earned, interest accrued, gains and losses realized on disposal and unrealized gains and losses are included in other income.

Held to maturity

Held to maturity financial assets are non-derivative financial assets with fixed or determinable payments and a fixed maturity, other than loans and receivables that an entity has the positive intention and ability to hold to maturity. These financial assets are measured at amortized cost using the effective interest method.

Loans and receivables

Loans and receivables are accounted for at amortized cost using the effective interest method.

Other liabilities

Other liabilities are recorded at amortized cost using the effective interest method and include all financial liabilities, other than derivative instruments.

MASC uses the effective interest method to recognize interest income or expense which includes discounts recognized on loans with concessionary terms. Transaction costs related to all financial instruments are expensed as incurred.

Fair Value of Financial Instruments

Certain financial instruments are valued at cost, with adjustments for any applicable allowance for doubtful accounts. This applies to investments, accounts receivable (excluding receivables related to pension and severance pay liabilities), reinsurance premiums payable, claims payable, accounts payable and accrued liabilities (excluding pension and severance pay liabilities). Cost approximates fair market value for these instruments due to their short-term nature.

The carrying values of MASC's pension and severance pay liabilities are based on actuarial valuations adjusted over time for the effect of interest and payouts since the valuations were performed. The carrying value of these liabilities approximates their fair values as the interest component is comparable to current market rates. The carrying values of the related pension and severance receivables approximates their fair values as their carrying values are derived from the related pension and severance liabilities.

Differences between the book value and the fair value of loans receivable and advances from the Province of Manitoba are caused by deviations between the interest rate at the time of the original loan and the current interest rate for the same loan product.

While fair value amounts are designed to represent estimates of the amounts at which assets and liabilities could be exchanged in a current transaction between arm's length willing parties, MASC normally holds all of its loans receivable and amounts received from the Province of Manitoba to their maturity date. Consequently, the fair values presented are estimates derived by taking into account changes in interest rates and may not be indicative of net realizable value. Furthermore, as many of MASC's financial instruments lack an available trading market, the fair value of loans with fixed rates are estimated using a discounted cash flow model with discount rates that are based on current market interest rates for similar types of loans. For loans receivable, the discount rate is MASC's current lending rates for similar loan products, and for advances from the Province of Manitoba, MASC's current borrowing rate for similar loan products is used.

The fair value of the provision for losses on guaranteed loans has also been calculated using a discounted cash flow model using the current Bank of Canada Treasury Bill rate as the discount rate.

The book values and the fair values for each category of financial instruments are presented in the table that follows:

	AS AT MARCH 31, 2009			AS AT MARCH 31, 2008		
	FINANCIAL ASSETS/ LIABILITIES AT COST OR AMORTIZED COST	ESTIMATED FAIR VALUE	FAIR VALUE GREATER (LESS THAN) BOOK VALUE	FINANCIAL ASSETS/ LIABILITIES AT COST OR AMORTIZED COST	ESTIMATED FAIR VALUE	FAIR VALUE GREATER (LESS THAN) BOOK VALUE
Financial assets:						
Loans receivable	$ 342,211	$ 373,236	$ 31,025	$ 317,986	$ 340,975	$ 22,989
Financial liabilities:						
Advances from the Province of Manitoba	346,394	365,661	19,267	324,698	347,863	23,165
Provision for losses on guaranteed loans	$ 15,146	$ 14,580	$ (566)	$ 13,240	$ 11,460	$ (1,780)

5. Wildlife Damage Compensation Program

MASC administers the Wildlife Damage Compensation Program, which pays producers for 80% of damage to agricultural crops and related products caused by waterfowl or wildlife (big game animals), and the injury or death of domestic livestock caused by natural predators. Compensation and all administrative expenses are shared by the Government of Canada (60%) and the Province of Manitoba (40%).

6. Farmland School Tax Rebate Program

In April 2005, MASC became responsible for administering the Farmland School Tax Rebate Program. The purpose of the program is to assist Manitoba farmland owners by providing a rebate of 70% of the school tax paid on farmland in 2008. The rebate was increased from 65% in 2007. The program provides a three-year time frame for claiming rebates. Recorded rebate payments of $25,121,000 include a provision of $3,154,000 for 2008 rebates that had not yet been applied for and a reduction in the amount of prior year provisions of $5,082,000. A provision of $1,142,000 remains for prior year rebates that remain unclaimed. The Province of Manitoba pays for the full cost of the Farmland School Tax Rebate Program.

7. Other Programs

Inspection Services

In support of Manitoba's agricultural sector, MASC provides inspection services at a reasonable cost (i.e. on a breakeven basis). These services encompass: grain audits for cash advances issued by the Canadian Wheat Board, field inspections in support of the ALUS Program, production loss assessments for windmill construction and maintenance, certificates of local production for vendors at the St. Norbert Farmers Market, third-party loss appraisals for private sector property insurers, and on farm livestock inspections for the Manitoba Livestock Cash Advance Program. Such services totalled $152,100 in 2008/09.

Manitoba Agriculture Weather Service Consortium

In March 2005, MASC became responsible for the administration of the Manitoba Agriculture Weather Service Consortium. The purpose of this initiative is to establish a network of weather stations, which will provide the regional weather data that is required to forecast pest and plant disease outbreaks and moisture conditions for crop production. A total of $137,000 in administrative expenses was incurred for the year ended March 31, 2009 (2008 – $216,000). Funding for this project was provided to MASC by the Manitoba Association of Agricultural Societies.

ALUS – An Ecological Goods and Services Research Project – Manitoba

In December 2005, MASC became responsible for the administration of ALUS (Alternative Land Use Services) which is a pilot project in the RM of Blanshard. The goal of the project is to test and evaluate the concept of paying producers for specified land management practices that are determined to produce/maintain environmental benefits. Producer payments and administrative expenses totalled $288,000 (2008 - $298,000) and $17,000 (2008 - $24,000), respectively. Funding was provided by Keystone Agricultural Producers (KAP).

Assiniboine Valley Producers Flood Assistance Program

In May 2007, MASC became responsible for the administration of the Assiniboine Valley Producers Flood Assistance Program. The purpose of the program is to provide assistance to agricultural producers along the Assiniboine River between the Shellmouth Reservoir and Brandon, for flood losses starting in 2005 that are attributable to the interaction of unexpected rainfall and the operation of the Shellmouth dam. At March 31, 2008, $1,827,000 was expensed as an estimate of the total cost of this program. Actual costs were determined to be $1,649,000 ($1,583,000 in program payments and $66,000 in administrative expenses). This resulted in a net recovery of $178,000 for the year ended March 31, 2009. Program funding was provided by the Manitoba Government.

Manitoba Ruminant Assistance Program

In March 2008, MASC became responsible for the administration of the Manitoba Ruminant Assistance Program. The program is being funded by the Government of Manitoba for the purpose of providing short-term financial assistance to Manitoba ruminant producers to help sustain the livestock industry during a period of high feed costs and weak market prices. Program payments are based on the higher of a participant's 2005 or 2006 eligible net sales of ruminant livestock. A provision of $14,700,000 was accrued at March 31, 2008 for the estimated cost of the program. Actual compensation payments and administrative expenses were $12,405,000 and $170,000, respectively; for a total cost of $12,575,000. This resulted in a net recovery of $2,125,000 for the year ended March 31, 2009.

Manitoba Bovine TB Mustering Compensation Program

In April 2008, MASC became responsible for the administration of the Manitoba Bovine TB Mustering Compensation Program. The program is being funded by the Government of Manitoba for the purpose of providing for the cost of gathering animals for the Canadian Food Inspection Agency (CFIA) testing for bovine tuberculosis (TB). Starting in 2006, compensation payments totalled $235,400 with administrative expenses of $10,000 to March 31, 2009.

Manitoba Forage Assistance Program

In September 2008, MASC became responsible for the administration of the Manitoba Forage Assistance Program. The purpose of the program is to provide financial assistance for the transport of feed and livestock for farmers affected by excess moisture and drought conditions. Funding is provided 60% by the Government of Canada and 40% by the Province of Manitoba (as an AgriRecovery initiative). Recorded program payments of $1,800,000 include a provision for remaining payments of $760,000. Recorded administrative expenses of $200,000 include a provision of $112,000 for the processing of the remaining payments.

Manitoba Livestock Feed Assistance Program

In March 2009, MASC became responsible for the administration of the Manitoba Livestock Feed Assistance Program. The purpose of the program is to provide assistance to livestock producers in the Interlake/ Westlake area who were short of feed due to excess moisture conditions in 2008. Funding is provided 60% by the Government of Canada and 40% by the Province of Manitoba (as an AgriRecovery initiative). A provision of $15,200,000 has been set up, comprised of $14,800,000 for program payments and $400,000 for administrative expenses.

Manitoba Forage Restoration Assistance Program

In March 2009, MASC became responsible for the administration of the Manitoba Forage Restoration Assistance Program. The purpose of the program is to provide assistance to forage producers in the Interlake/ Westlake area in order to restore forage crops damaged by excess moisture in 2008. Funding is provided 60% by the Government of Canada and 40% by the Province of Manitoba (as an AgriRecovery initiative). A provision of $10,284,000 has been set up, comprised of $9,884,000 for program payments and $400,000 for administrative expenses.

8. Investments

MASC's investments as of March 31, 2009 consist of the following:

INVESTMENT MATURITY TERMS	AVERAGE INTEREST RATE	LENDING PROGRAMS	AGRIINSURANCE PROGRAM	HAIL INSURANCE PROGRAM	FARMLAND SCHOOL TAX REBATE PROGRAM	OTHER PROGRAMS	2009 TOTAL	2008 TOTAL
1 year	0.652%	$ 6,935	331,892	32,456	2,138	261	$ 373,682	$ 258,158
2 years	3.874%	–	–	2,700	–	–	2,700	2,700
3 years	4.180%	–	–	1,500	–	–	1,500	2,700
4 years	4.474%	–	–	3,100	–	–	3,100	1,500
5 years	–	–	–	–	–	–	–	3,100
	0.720%	$ 6,935	331,892	39,756	2,138	261	$ 380,982	$ 268,158

9. Accounts Receivable

MASC's accounts receivable as of March 31, 2009 consist of the following:

	LENDING PROGRAMS	AGRIINSURANCE PROGRAM	HAIL INSURANCE PROGRAM	FARMLAND SCHOOL TAX REBATE PROGRAM	OTHER PROGRAMS	2009 TOTAL	2008 TOTAL
Insured producers	$ –	3,200	1,147	–	–	$ 4,347	$ 2,138
Government of Canada	–	7,381	–	–	16,379	23,760	4,691
Province of Manitoba	5,917	4,933	–	2,108	10,537	23,495	29,675
Accrued investment interest	8	232	158	3	–	401	1,225
Reinsurance receivable	–	11	–	–	–	11	149
Other	21	134	–	–	–	155	95
	$ 5,946	15,891	1,305	2,111	26,916	$ 52,169	$ 37,973

Receivables from the Province of Manitoba related to:

Pension liability

The Province of Manitoba has accepted responsibility for funding the Manitoba Agricultural Services Corporation's pension liability (for pensionable service earned by employees of the former Manitoba Agricultural Credit Corporation prior to amalgamation on September 1, 2005) and related expense which includes an interest component. The Manitoba Agricultural Services Corporation has therefore recorded a receivable from the Province of Manitoba equal to the estimated value of its actuarially determined pension liability of $5,917,000 as of March 31, 2009 (2008 – $6,212,000), and has recorded a reduction in revenue for 2008/09 equal to the related pension expense reduction of $295,000 (2008 – increase of $428,000). The Province of Manitoba makes payments on the receivable when it is determined that the cash is required to discharge the related pension obligation.

The carrying value of the receivable approximates its fair value as the interest component described above is comparable to current market rates.

Vacation pay liability

The amount recorded as a receivable from the Province of Manitoba for vacation pay expenses was initially based on the estimated value of the corresponding liability as of March 31, 1999. Subsequent to that date, the Province of Manitoba has included in its ongoing annual funding to the Manitoba Agricultural Services Corporation, an amount equal to its share of the current year's expense for vacation pay entitlements. As of March 31, 2009 the receivable for vacation pay liability was $169,000 (2008 – $169,000).

Severance pay liability

The amount recorded as a receivable from the Province of Manitoba for severance pay was initially based on the estimated value of the corresponding actuarially determined liability for severance pay as of March 31, 1999. Subsequent to that date, the Province of Manitoba has included in its ongoing annual funding to the Manitoba Agricultural Services Corporation an amount equal to its share of the current year's expense for severance. As a result, the change in the severance liability each year is fully funded. The interest component related to the receivable is reflected in the funding for severance pay expense. The receivable for severance pay will be paid by the Province when it is determined that the cash is required to discharge the related severance pay liabilities. As of March 31, 2009, the receivable for severance pay liability was $429,000 (2008 – $429,000).

The carrying value of the receivable approximates its fair value as the interest component described above is comparable to current market rates.

10. Loans Receivable

MASC's loans receivable as of March 31, 2009 consist of the following:

		2009			2008
		REGULAR PROGRAM LOANS	SPECIAL ASSISTANCE LOANS*	TOTAL	TOTAL
Amounts are due over the following terms:					
1 year	Accrued interest	$ 7,176	$ 1,628	$ 8,804	$ 9,215
	Arrears	7,512	5,072	12,584	13,957
	Prepayments	(6,899)	(841)	(7,740)	(8,888)
	Regular instalments	27,214	7,587	34,801	41,728
		35,003	13,446	48,449	56,012
2 years	Regular instalments	18,041	7,223	25,264	30,429
3 years	Regular instalments	17,195	8,712	25,907	29,603
4 years	Regular instalments	16,773	14,922	31,695	20,460
5 years	Regular instalments	16,178	15,374	31,552	19,205

		241,758	100,453	342,211	317,986
Less: Unamortized discount on loans with concessionary interest rates			1,690	1,690	221
		241,758	98,763	340,521	317,765
Less: Provisions for impaired loans *(Note 10)*		13,033	18,011	31,044	28,996
		$228,725	$ 80,752	$ 309,477	$288,769

*Includes Manitoba Hog Assistance, BSE Recovery, Producer Recovery, Flood Proofing Assistance and Comprehensive Refinancing loans.

A portion of the loans receivable will be paid through funding for the Young Farmer Rebate (YFR) Program that is provided by the Province of Manitoba. Clients earn the rebate in equal payments over the first five years of the loan. Over the next five years, YFR will provide approximately $5.7 million in payments towards the loan receivable balance.

Terms of Loans Receivable

All loans have fixed rates, with an interest rate breakdown as follows:

	REGULAR PROGRAM LOANS	SPECIAL ASSISTANCE LOANS*	2009	2008
2.0% and lower	$ 100	$ 3,090	$ 3,190	$ 386
2.01% to 3.0%	-	30,828	30,828	5,286
3.01% to 4.0%	2,318	4,199	6,517	1,017
4.01% to 5.0%	3,286	6,283	9,569	5,470
5.01% to 6.0%	23,267	37,173	60,440	56,657
6.01% to 7.0%	162,399	18,546	180,945	184,283
7.01% to 8.0%	47,682	324	48,006	60,901
More than 8.0%	2,706	10	2,716	3,986
Average rate is 5.995%	$ 241,758	$ 100,453	$ 342,211	$317,986

*Includes Manitoba Hog Assistance, BSE Recovery, Producer Recovery, Flood Proofing Assistance and Comprehensive Refinancing loans.

Loans maturities are as follows:

	REGULAR PROGRAM LOANS	SPECIAL ASSISTANCE LOANS*	2009	2008
Less than 5 years	$ 37,482	$ 28,891	$ 66,373	$ 85,991
5 years to up to 10 years	49,759	59,768	109,527	75,012
10 years to up to 15 years	71,132	6,769	77,901	78,250
15 years to up to 20 years	61,242	4,653	65,895	58,194
20 years to up to 25 years	22,143	372	22,515	20,539
	$ 241,758	$ 100,453	$ 342,211	$317,986

*Includes Manitoba Hog Assistance, BSE Recovery, Producer Recovery, Flood Proofing Assistance and Comprehensive Refinancing loans.

Impaired Loans

A loan becomes impaired as a result of deterioration in credit quality to the extent that MASC no longer has reasonable assurance of timely collection of the full amount of principal and interest. The table below provides the amount of impaired loans and the specific provisions for credit losses on these loans as of March 31, 2009.

	REGULAR PROGRAM LOANS	SPECIAL ASSISTANCE LOANS*	2009	2008
Total loans	$ 18,671	$ 15,216	$ 33,887	$ 38,483
Less: Specific provision	6,191	7,931	14,122	13,940
	$ 12,480	$ 7,285	$ 19,765	$ 24,543

*Includes Manitoba Hog Assistance, BSE Recovery, Producer Recovery, Flood Proofing Assistance and Comprehensive Refinancing loans

A total of $2,086,000 (2008 – $2,380,000) of interest on impaired loans was included in revenue for the year ended March 31, 2009.

Loans Receivable by Economic Sector

	REGULAR PROGRAM LOANS	SPECIAL ASSISTANCE LOANS*	2009	2008
Grains and oilseeds	$ 131,216	$ 15,882	$ 147,098	$ 138,458
Potatoes	556	694	1,250	1,289
Other crops	8,405	394	8,799	9,520
Cattle	83,942	43,354	127,296	144,690
Hogs	6,901	38,189	45,090	13,024
Poultry	55	51	106	652
Dairy	3,148	406	3,554	3,899
Other	7,535	1,483	9,018	6,454
	$ 241,758	$ 100,453	$ 342,211	$ 317,986

*Includes Manitoba Hog Assistance, BSE Recovery, Producer Recovery, Flood Proofing Assistance and Comprehensive Refinancing loans.

11. Unamortized Discount On Loans With Concessionary Interest

Loans receivable includes loans made under the Manitoba Hog Assistance Loan Program implemented in February 2008, which have an interest concession for the first three years of the eight year amortization period. Interest rates are 2.25% (with an additional 1% discount for young farmers under 40 years of age) for the first year, rising to 4.5% (with the additional 1% discount, if applicable, carried forward) for the next two years. The full amount of the net present value of the interest concessions was expensed when the loans were disbursed and is recorded as interest revenue over the term of the interest concession. The portfolio balance was $39,861,000 on March 31, 2009 and a present value discount of $1,690,000 (net of amortization for interest write-back) for the loan interest concessions was applied, reducing the carrying value of the portfolio to $38,171,000. The present value discount of $1,690,000 is the net of the total loan interest concession expense of $1,937,000 (2009 – $1,716,000 and 2008 – $221,000) less the present value discount amortization of $247,000 which was included in interest revenue as of March 31, 2009.

12. Provisions For Credit Losses

The provision for credit losses for the lending program consists of:

	REGULAR PROGRAM LOANS	SPECIAL ASSISTANCE LOANS*	2009	2008
Specific provision	$ 6,191	$ 7,931	$ 14,122	$ 13,940
General provision	6,842	10,080	16,922	15,056
Ending provision balance	$ 13,033	$ 18,011	$ 31,044	$ 28,996

*Includes Manitoba Hog Assistance, BSE Recovery, Producer Recovery, Flood Proofing Assistance and Comprehensive Refinancing loans

The expense for the provision of credit losses of $3,778,000 (2008 – $116,000) is made up of $3,286,000 (2008 – $15,000) for lending programs and a total of $492,000 (2008 - $101,000) for the AgriInsurance and Hail Insurance programs. The change in the provision for credit losses for the lending program is as follows:

	REGULAR PROGRAM LOANS	SPECIAL ASSISTANCE LOANS*	2009	2008
Beginning provision balance	$ 14,615	$ 14,381	$ 28,996	$ 29,751
Loans written off	(926)	(312)	(1,238)	(770)
Provision expense (recovery)	(656)	3,942	3,286	15
Ending provision balance	$ 13,033	$ 18,011	$ 31,044	$ 28,996

*Includes Manitoba Hog Assistance, BSE Recovery, Producer Recovery, Flood Proofing Assistance and Comprehensive Refinancing loans.

Loans Past Due But Not Impaired

Loans that are past due but not impaired are generally loans where it is thought that the client has sufficient cash flow to meet their payment obligations and the loan is adequately secured. The majority of MASC's term loans have semi-annual payments and therefore a loan that is in the less than 1 year category is generally only one payment in arrears. Two payments in arrears put the loan in the second category. In addition, Stocker Loans, which provide short-term financing for the purchase or retention of feeder cattle, are due at the end of their term, which is generally one year. Any delay in the sale of the cattle at the end of the term may put the loan in arrears; however these loans are normally paid in full once the cattle are sold.

	REGULAR PROGRAM LOANS	SPECIAL ASSISTANCE LOANS*	2009
Less than 1 year in arrears	$ 4,862	$ 3,680	$ 8,542
1 to 2 years in arrears	3,487	3,319	6,806
Over 2 years in arrears	310	358	668
Total past due	$ 8,659	$ 7,357	$ 16,016

*Includes Manitoba Hog Assistance, BSE Recovery, Producer Recovery, Flood Proofing Assistance and Comprehensive Refinancing loans.

13. Property And Equipment

	2009		2008	
	COST	ACCUMULATED AMORTIZATION	COST	ACCUMULATED AMORTIZATION
Furniture and equipment	$ 342	$ 213	$ 344	$ 194
Computer hardware	214	151	325	242
Computer software	195	157	189	132
Major software development	2,907	2,907	2,907	2,907
Leasehold improvements	344	302	298	298
	$ 4,002	$ 3,730	$ 4,063	$ 3,773
Net book value		$ 272		$ 290

14. Reinsurance – AgriInsurance Program

In accordance with the terms of the reinsurance agreement between the Government of Canada and the Province of Manitoba, the two levels of government maintain separate reinsurance accounts. MASC pays reinsurance premiums to the Crop Reinsurance Fund of Canada for Manitoba, and to the Crop Reinsurance Fund of Manitoba, based on the amount of premiums collected and the cumulative financial balance of the AgriInsurance Program.

When indemnities paid to insured producers exceed the funds retained by MASC, after accounting for private sector reinsurance recoveries, transfers are made from the reinsurance funds to MASC. Interest is not credited or charged to the respective reinsurance funds by the Government of Canada or the Province of Manitoba. Surpluses in the Crop Reinsurance Fund of Canada for Manitoba and the Crop Reinsurance Fund of Manitoba are held by the Government of Canada and the Province of Manitoba, respectively.

	CROP REINSURANCE FUND OF CANADA FOR MANITOBA		CROP REINSURANCE FUND OF MANITOBA	
	2009	2008	2009	2008
Opening surplus (deficit)	$ 2,174	$ 1,419	$ 24,193	$ 23,438
Current year premium contributions (net)*	978	755	978	755
Net book value	$ 3,152	$ 2,174	$ 25,171	$ 24,193

*Current year reinsurance premium contributions are shown net of an allowance for uncollectible accounts of $6,000 (2008-$3,000).

In addition to the financial protection provided by federal-provincial reinsurance as noted above, MASC entered into a one-year agreement with private sector reinsurers. The private sector reinsurance agreement involves 24 reinsuring companies assuming 90% of losses (including a deemed loss adjustment expense) from 15.0% to 27.5% of AgriInsurance liability (coverage). Reinsurance premiums were $30,171,000 (2008 – $22,701,000). Private sector reinsurance recoveries were $138,000 (2008 – Nil), which was for outstanding prior year claims.

15. Reinsurance – Hail Insurance Program

Starting in 2007/08, MASC entered into a three-year agreement with private sector reinsurers for the Hail Insurance Program. The agreement involves eight reinsuring companies assuming 80% of hail insurance losses (including actual loss adjustment expenses) from 4.25% to 7.00% of hail insurance liability (coverage). Reinsurance premiums were $1,361,000 (2008 - $1,022,000) with no reinsurance recoveries in 2009 (2008 – nil).

16. Claims Payable

Claims payable of $35,566,000 (2008 – $29,230,000) includes: a provision of $3,530,000 (2008 – $3,184,000) for the AgriInsurance Program, which represents the liability associated with unpaid claims and the over-winter deterioration of unharvested crops; a provision of $4,297,000 (2008 – $9,823,000) for outstanding Farmland School Tax Rebate payments; a provision of $539,000 (2008 - $276,000) for the Wildlife Damage Compensation Program, and provisions of $25,678,000 (2008 – $14,946,000) for outstanding payments for Other Programs. Of the $25,678,000 in Other Programs claims payable, $25,444,000 relates to the three AgriRecovery initiatives that are outlined at the end of Note 7.

17. Accounts Payable And Accrued Liabilities

Accounts payable at March 31, 2009 include the following:

	LENDING PROGRAMS	AGRIINSURANCE PROGRAM	WILDLIFE DAMAGE COMPENSATION PROGRAM	OTHER PROGRAMS	2009 TOTAL	2008 TOTAL
Province of Manitoba	$ 105	1,581	-	77	$ 1,763	$ 1,623
Accrued vacation pay	-	1,027	-	-	1,027	917
Provision for pension obligations *(Note 18)*	5,917	18	-	-	5,935	6,225
Provision for severance obligations	-	2,036	-	-	2,036	1,656
Other	441	1,650	29	930	3,050	2,167
	$ 6,463	6,312	29	1,007	$ 13,811	$ 12,588

18. Provision For Employee Pension Benefits

MASC's employees are eligible for defined benefit pensions under The Civil Service Superannuation Act. As outlined in Note 4(D), MASC contributes 50% of the pension disbursements made to retired employees of the former Manitoba Agricultural Credit Corporation (MACC) for service up to September 1, 2005. In addition, MASC has a pension liability for employees whose earnings are out of the scope of the Civil Service Superannuation Fund plan.

Actuarial valuations are to be carried out every three years to provide an estimate of the accrued liability for unfunded pension benefits. An actuarial valuation of the pension obligations as of December 31, 2007 was conducted by Ellement & Ellement. The key actuarial assumptions were a rate of return of 6.50% (2004 – 6.50%), inflation of 2.5% (2004 – 2.5%), salary rate increases of 3.25% (2004 – 3.25%) and post retirement indexing at two-thirds of the inflation rate. The accrued benefit cost method with salary projection was used and the liabilities have been extrapolated to March 31, 2009 using a formula provided by the actuary. The following table provides the calculation of the liability for pension benefits of $5,935,000 (2008 – $6,225,000):

	2009	2008
Accrued pension liability – beginning of year	$ 6,225	$ 6,124
Experience gain	(439)	
Benefits accrued	4	3
Interest accrued on benefits	398	429
Benefits paid	(253)	(331)
Accrued pension liability – end of year	$ 5,935	$ 6,225

19. Advances From The Province Of Manitoba

Following practices established by the Province of Manitoba, MASC must repay advances according to the amortization schedule or be subject to a prepayment penalty. The prepayment penalty is calculated as the net present value of the future cash flows of the loan being prepaid minus the net present value of a loan with the same terms, except for the interest rate, which is equal to the semi-annual, non-callable Province of Manitoba bond rate for a bond with the same term to maturity.

Advances are repayable in equal annual blended instalments of principal and interest, with interest rates ranging from 1% to 8%. The average interest rate of the entire portfolio as of March 31, 2009 was 4.973% (2008 – 5.394%).

MATURITIES OF PRINCIPAL OVER THE FOLLOWING TERMS	2009	2008
1 year	$ 72,790	$ 63,566
2 years	44,547	41,455
3 years	44,554	38,327
4 years	40,486	38,106
5 years	29,016	33,800
More than 5 years	115,001	109,444
	$ 346,394	$ 324,698

20. Deferred Revenue

Deferred revenue represents administrative subsidies provided by the Government of Canada and the Province of Manitoba and is used to acquire property and equipment. Deferred revenue is recognized as revenue when amortization is recorded on property and equipment.

21. Indemnities

AgriInsurance indemnities of $57,834,000 (2008 – $72,433,000) represent $58,982,000 for the 2008/09 crop year and a reduction of $1,148,000 as a result of an excess in the estimate of claims payable as of March 31, 2008.

22. Contractual Obligations

MASC has entered into a number of long-term lease agreements. The minimum payments under these leases are as follows:

YEAR ENDING MARCH 31ST	LEASE AGREEMENT AMOUNTS
2010	$ 122
2011	56
2012	15
2013 and beyond	-
	$ 193

23. Loan Guarantees And Contingencies

(A) Contingent liabilities and the corresponding provisions for MASC's loan guarantee programs as of March 31, 2009 are shown below.

	CONTINGENT LIABILITY		PROVISION FOR LOSSES	
	2009	2008	2009	2008
Operating Credit Guarantees	$ 11,156	$ 10,197	$ 1,343	$ 1,629
Manitoba Livestock Associations Loan Guarantees	5,234	5,671	1,308	1,418
Diversification Loan Guarantees	5,254	6,245	788	1,060
Enhanced Diversification Loan Guarantees	58,116	59,551	11,707	9,133
	$ 79,760	$ 81,664	$ 15,146	$ 13,240

The change in the provision for guaranteed loan losses is as follows:

	2009	2008
Beginning provision balance	$ 13,240	$ 12,244
Guaranteed loan claims paid (net)	(302)	-
Provision expense	2,208	996
Ending provision balance	$ 15,146	$ 13,240

Rural Entrepreneur Assistance (REA) guaranteed loan claims of $78,000 (2008 – $135,000) were added to the $2,208,000 (2008 – $996,000) in provision expense for a total cost of $2,286,000 (2008 – $1,131,000). (When REA administration was transferred to MASC in 2005, the Manitoba Government agreed to maintain the contingent liability associated with existing and future REA loan guarantees. Therefore, MASC's expenditure for REA is the guaranteed loan claims that are paid by MASC and subsequently recovered from the Province of Manitoba.)

The Operating Credit Guarantee (OCG) Program was introduced on April 1, 2003, replacing the Guaranteed Operating Loan Program. The OCG provides participating lending institutions with a guarantee of 25% of each individual loan made under the program. The maximum allowable loan is $450,000 for individuals, and $700,000 available for partnerships, corporations and co-operatives.

The Manitoba Livestock Associations Loan Guarantee Program was introduced in 1991. For each association, MASC provides a 25% guarantee to an association's lending institution with a maximum of $5,000,000 in loans for each association.

The Diversification Loan Guarantee Program was introduced in December 1995 to provide guarantees on loans made by participating lenders for diversification or farm value-added activities. Under this program, 25% of the private lender's total associated loan portfolio was guaranteed. The maximum allowable individual loan was $3.0 million.

In 2001, the Diversification Loan Guarantee Program was replaced by the Enhanced Diversification Loan Guarantee Program. Under the new program, guarantees are based on 25% of the original principal amount of each individual loan, with no maximum loan amount.

(B) As of March 31, 2009, MASC had approved but not disbursed loans in the amount of $22,179,566 (2008 – $15,520,963).

(C) Various legal actions for additional indemnity payments have been commenced by insured producers against MASC. The outcome of these claims cannot be determined at this time.

24. Capital Management

MASC's objective when managing capital is to maintain sufficient funds to cover current and future insurance and lending related cash outflows, and to fund its other initiatives. MASC's capital consists of its funds retained.

MASC meets its capital objectives through revenues taken in, grants, and advances from the Province of Manitoba and the Government of Canada. *The Manitoba Agricultural Services Corporation Act* establishes MASC's borrowing authority, based on the approval of the Lieutenant Governor in Council.

MASC is not subject to externally imposed capital requirements, however for the AgriInsurance Program, MASC must meet the financial self-sustaining criteria defined by the Government of Canada in its related regulations. The current financial self-sustaining criteria requires that premiums be set so that the AgriInsurance Program can recover from a defined worst case deficit within a specified number of years. MASC's most recent actuarial review (Note 26) indicates that the program meets the financial self-sustaining criteria.

There were no changes in MASC's approach to capital management during the period.

25. Risk Management

Financial instruments comprise the majority of MASC's assets and liabilities. For its lending operations, MASC borrows from the Province of Manitoba at fixed rates and then provides fixed term loans to its clients at rates that earn a reasonable interest rate margin. For its insurance operations, MASC invests the programs' funds retained mainly in short term funds, in order to have sufficient capital available to make insurance payments when losses exceed the current year's premium income.

MASC's risk management policies are designed to identify and analyse risk, to set appropriate risk limits and controls, and to monitor the risks and adherence to limits by means of reliable and up-to-date information systems. The Board of Directors approves these policies and management is responsible to ensure that the policies are properly carried out. The Board receives confirmation that the risks are being appropriately managed through regular reporting, third party compliance reporting and by reviews conducted by the internal audit department.

MASC has exposure to the following risks from it use of financial instruments:

- credit risk;
- liquidity risk; and
- market risk.

Credit Risk

Credit risk is the risk that one party to a financial instrument fails to discharge an obligation and causes financial loss to another party. Financial instruments which potentially subject MASC to credit risk consist principally of investments, accounts receivable, loans receivable and guarantees on loans.

The maximum exposure of MASC to credit risk at March 31, 2009 is:

Investments	$ 380,982
Accounts receivable	52,169
Loans receivable	309,477
Loan guarantees	79,760
	$ 822,388

Investments – MASC is not exposed to significant credit risk as the investments are held by the Province of Manitoba.

Accounts Receivable – MASC is not exposed to significant credit risk as 91% of the accounts receivable is comprised of amounts receivable from the Government of Canada and the Province of Manitoba and payment in full is typically collected when it is due. The remainder of the accounts receivable consists largely of insurance premiums due from producers. The insurance programs offer credit for producer premiums which are due and payable at the time of billing. Interest is charged on premiums that are not paid by October 31 of that crop year. March 31 is the final payment deadline. Producers who have not made acceptable arrangements to pay will have their contracts cancelled for the following year. The importance of insurance programs to an ongoing farming operation serves to mitigate the credit risk on insurance premiums.

Loans Receivable – Impairment provisions are provided for losses that have been incurred as of the balance sheet date. Significant changes in the agricultural economy of Manitoba or deterioration in sectors which represent a concentration within the loan portfolio may result in losses that are different from those provided for at the balance sheet date. Management of credit risk is an integral part of MASC's activities and is monitored and managed carefully.

The Board of Directors is responsible for approving and monitoring MASC's tolerance for credit exposures which it does through review and approval of the lending and guarantee program guidelines and setting limits on credit exposures to individual clients. MASC has comprehensive policy and procedure manuals in place for all programs.

In general, MASC emphasizes responsible lending which is comprised of a combination of adequate loan security and a client's ability to pay. MASC is also mandated to deliver higher risk special assistance loan programs on behalf of the Government of Manitoba which fall outside the normal limits set out in the regular loan policies. These special assistance loans have a provision for credit losses that is established at the inception of the program which represents a best estimate of probable losses. In addition, an increased level of monitoring is carried out in an effort to mitigate losses. Special assistance loans make up 29% of the MASC's lending portfolio.

MASC's lending exposure to the various agricultural sectors, as provided in Note 10, is summarized as follows:

Grains/oilseeds	43%
Cattle	37%
Hogs	13%
Dairy	7%
	100%

The Province of Manitoba provides funding for the full amount of loans that are written off; therefore, the risk to MASC is minimal.

Loan Guarantees – MASC also provides loan guarantees to financial institutions. These guarantees encourage the provision of credit that the private lenders consider to be higher risk. Each guarantee request is reviewed to assess its viability and to ensure a fit within the established program parameters. Loan guarantees are approved based on a delegated approval authority. MASC's loan guarantee activity involves three separate programs: Livestock Associations Guarantees directed at the cattle industry; and Operating Credit Guarantees (OCG) and Diversification Loan Guarantees (DLG) which are generally available to Manitoba's agricultural industry. MASC's loan guarantee exposure by agricultural sector is summarized below:

	DLG	**OCG**
Grains/oilseeds	-	52%
Cattle	-	17%
Hogs	48%	11%
Dairy	21%	-
Poultry	7%	1%
Potatoes	5%	13%
Other	19%	6%
	100%	100%

The Province of Manitoba provides funding for all claims on loan guarantees; therefore, the risk to MASC is minimal.

Liquidity Risk

Liquidity risk relates to MASC's ability to access sufficient funds to meet its financial commitments as they fall due.

Advances from the Province of Manitoba have a direct correlation to the loans receivable as the funds borrowed are directly lent to MASC clients. Funding is provided by the Province of Manitoba for the full amount of loans that are written off. Subsequently, MASC has minimal liquidity risk relating to MASC's lending portfolio and its relation to the advances from the Province of Manitoba.

MASC's primary liquidity risk relates to its liability for insurance claims. MASC does not have material liabilities that can be called unexpectedly at the demand of a lender or client, and has no material commitments for capital expenditures, or need for same, in the normal course of business.

Insurance claims payments are funded firstly out of current revenue, which normally exceeds cash requirements. In addition, insurance program funds are retained and invested in short-term investments that are available to pay excess claims. Private sector reinsurance is in place for AgriInsurance and Hail Insurance, providing significant protection against catastrophic losses. If all of the above are exhausted, the AgriInsurance Program has a reinsurance agreement with the Government of Canada and the Province of Manitoba which provides for any additional funding for claim payments. (Notes 14 and 15 provide a summary of the reinsurance programs). Both insurance programs also have the capacity to borrow funds from the Province of Manitoba, if required.

Market Risk
Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect MASC's income or the fair values of its financial instruments. The significant market risk MASC is exposed to is interest rate risk.

Interest rate risk
Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The interest rate exposure relates to investments, loans receivable, and advances from the Province of Manitoba.

Investments - MASC's investment portfolio is mainly in short-term interest bearing investments. The investments are classified as held to maturity financial instruments and therefore, changes in interest rates do not affect the value of the investments on the financial statements. All of MASC's investments are placed through Manitoba Finance.

Loans Receivable/Advances from the Province of Manitoba – MASC borrows funds for lending operations from the Province of Manitoba at fixed rates and normally lends those funds to clients at 1.5 percentage points above the corresponding borrowing rate. MASC offers only fixed interest rate loans to its clients, which are generally fixed for the full term of the loans. All advances from the Province of Manitoba have fixed interest rates for the full term of the advances. Due to this arrangement, MASC does not incur significant interest rate risk. However, some interest rate risk is involved in MASC's lending policy of allowing prepayment of loans without penalty, given that MASC does not have the ability to prepay its advances from the Province of Manitoba without penalty. MASC mitigates this risk by closely matching the cash flow from client loan payments, including estimated annual prepayments, to the cash flow required to repay advances from the Province of Manitoba.

26. Actuarial Review

An actuarial certification of MASC's AgriInsurance Program was completed by Tillinghast – Towers Perrin, consulting actuaries, in March 2008. The actuarial review concluded that the methodologies used to establish the probable yields for insured crops do not exceed productive capabilities; that the premium rate methodologies are actuarially sound and therefore sufficient to meet expected claim costs over time; and that the program meets the financial self-sustaining criteria as defined by the Government of Canada. Any new programs or program changes require actuarial review prior to implementation.

27. Related Party Transactions

MASC is related in terms of common ownership to all Province of Manitoba departments, agencies and Crown corporations. MASC enters into transactions with these entities in the normal course of business. These transactions are recorded at the exchange amount.

Interest earned on investments held by the Province of Manitoba amounted to $7,158,000 (2008 – $10,134,000). Included in accounts receivable (Note 9) is $401,000 (2008 – $1,225,000) of accrued interest related to these investments

28. Comparative Figures

Certain 2008 figures have been reclassified to conform to the 2009 financial statement presentation.

SCHEDULE 1

CONSOLIDATED SCHEDULE OF ADMINISTRATIVE EXPENSES

for the year ended March 31, 2009 (in thousands)

	2009	2008
Adjustors' wages, benefits and expenses	$ 4,824	$ 4,744
Advertising	302	307
Amortization expense	94	94
Appeal Tribunal	21	28
Audit fees and legal	320	229
Directors' remuneration and expenses	122	141
Furniture and equipment	108	116
Information technology	486	638
Office rental and utilities	1,032	920
Other administrative expenses	592	531
Other administrative recoveries	(623)	(560)
Postage	185	200
Printing and office supplies	209	217
Salaries and employee benefits	12,079	10,490
Telephone	211	216
Travel and vehicle expenses	463	474
Total administrative expenses	$ 20,425	$ 18,785
Administrative expenses allocation:		
Lending Programs	$ 5,146	$ 4,662
AgriInsurance Program	10,547	10,306
Hail Insurance Program	2,608	2,503

Management's Responsibility for Financial Reporting

The preparation of the financial statements and other information contained in this Annual Report is the responsibility of management of the Manitoba Arts Council.

The financial statements have been prepared in accordance with Canadian generally accepted accounting principles using management's estimates and judgments where appropriate. The financial information shown elsewhere in this Annual Report is consistent with information contained in the financial statements.

Management of the Manitoba Arts Council has developed and maintains accounting systems and internal controls designed to provide reasonable assurance of the reliability of the financial information, and that assets are appropriately accounted for and adequately safeguarded.

The financial statements for the year ended March 31, 2009 have been audited by Magnus & Buffie in accordance with Canadian generally accepted auditing standards. The Auditors' Report outlines the scope of their audit and their opinion on the presentation of the information included in the financial statements.

The Council, through its Audit/Finance/Human Resource Committee, carries out its responsibility for the review and approval of the financial statements and the Annual Report. The Audit/Finance/Human Resource Committee reports to Council who approves these financial statements and the Annual Report prior to release.

Douglas Riske
EXECUTIVE DIRECTOR

Auditors' Report

To the Members of the Council,
Manitoba Arts Council

We have audited the statement of financial position of Manitoba Arts Council as at March 31, 2009 and the statements of revenues and expenses and changes in fund balances for the year then ended. These financial statements are the responsibility of the Council's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Council as at March 31, 2009 and the results of its operations for the year then ended in accordance with Canadian generally accepted accounting principles.

Magnus and Buffie

The accompanying notes are an integral component of these financial statements.

Notes to Financial Statements

AS AT MARCH 31, 2009

1. Authority & Purpose

The Arts Council Act established the Manitoba Arts Council in 1965 to "…promote the study, enjoyment, production and performance of works in the arts." The Council is a registered charity (public foundation) and, as such, is exempt from income taxes under the Income Tax Act (Canada).

2. Change in Accounting Policies

Effective April 1, 2008, the Council adopted the following new handbook sections issued by the Canadian Institute of Chartered Accountants (CICA).

Section 1535 Capital Disclosures

Section 1535 establishes standards for disclosing information about an entity's capital and how it is managed. These standards require an entity to disclose its objectives, policies and processes for managing capital, a summary of quantitative data about what it manages as capital and whether it complied with any externally imposed capital requirements to which it is subject and, if not, the consequences of such non-compliance. (See disclosure in Note 3.)

Section 3862 Financial Instruments - Disclosure

Section 3862 modifies the disclosure requirements for financial instruments that were included in Section 3861, Financial Instruments - Disclosure and Presentation. The new standards require an entity to provide disclosures in its financial statements that enable users to evaluate the significance of financial instruments on its financial position and performance, the nature and extent of the risks to which it is exposed during the period and at the balance sheet date, and how those risks are managed. (See disclosure in Note 15.)

Section 3863 Financial Instruments - Presentation

Section 3863 carries forward the presentation requirements of Section 3861, Financial Instruments - Disclosure and Presentation, unchanged.

The above noted new standards have no impact on the recognition, measurement or presentation of financial instruments in the Council's year end financial statements.

3. Summary of Significant Accounting Policies and Reporting Practices

(a) Basis of Presentation

These financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles within the framework of the accounting policies summarized in these notes to the financial statements.

(b) Fund Accounting

The financial statements disclose the activities of the following funds maintained by the Council:

(i) Grants & Program Fund

This fund reflects the disbursement and administration of grants and programs in the spirit of the aims and objects of Council defined in The Arts Council Act.

(ii) Bridges Fund

This fund was established in June 1999 to generate new initiatives in art development and practice, enhance public access to the arts and enhance administrative and governance skills for arts organizations. As well, the program will encourage new partnerships, provide more opportunities for professional development and assist in audience development. The excess of revenues over expenditures, if any, is transferred to the Grants & Programs Fund at an amount determined by the Council to fulfill similar goals and objectives.

(c) Revenue Recognition

The Council follows the deferral method accounting for revenues. Externally restricted revenues are deferred and recognized as revenue in the applicable fund in the year in which the related expenses are incurred. Unrestricted and internally restricted revenues are recognized as revenue in the applicable fund when received or receivable.

(d) Grant Commitments

Grants and program commitments are reflected as expenses when funding is formally approved and committed by Council. Cancellations of prior years' grant expenses are reflected as rescinded grant commitments.

(e) Capital Assets
Capital assets are recorded at cost less accumulated amortization. Amortization is provided on a straight-line basis over the estimated useful lives of the assets as follows:

Office furniture and equipment	5-10 years
Computer hardware and software	3 years

(f) Musical instruments and works of visual art
Musical instruments and works of visual art are shown on the Statement of Financial Position as assets at cost with an offsetting credit to investments in musical instruments and works of visual art. The art bank collection was re-appraised in 2005, at a current market value of $449,222.00.

(g) Capital Disclosures

The Council's capital management policy is to maintain sufficient capital to meet its objectives through its fund balances by managing its grants and operational expenses against its funding revenue. There were no changes in the Council's approach to capital management during the period.

The Council is not subject to externally imposed capital requirements.

(h) Financial Instruments - recognition and measurement
Financial assets and liabilities are initially recorded at fair value. Measurement in subsequent periods depends on the financial instrument's classification. Financial instruments are classified into one of the following five categories: held for trading; available for sale; held to maturity; loans and receivables; and other financial liabilities.

(i) Financial assets Held-to-maturity, Loans and Receivables, and other financial liabilities are measured at amortized cost using the effective interest method of amortization. Gains and losses are recorded in earnings when the assets are derecognized or impaired, and through the amortization process.

(ii) Available-for-sale financial assets are measured at fair value with gains and losses recognized directly in net assets, except for impairment losses.

(iii) Financial assets and liabilities classified as held-for-trading are measured at fair value with changes in fair value recognized in earnings and are included in the category "fair value through earnings." Derivative instruments are classified as fair value through earnings, including those derivatives that are embedded in financial or non-financial contracts are not closely related to the host contracts.

The Council has designated its financial instruments as follows:

Cash and short-term investments, accrued interest income, accounts receivable, recoverable, Province of Manitoba, long term investments, accounts payable and accrued liabilities and commitments for grants and programs are classified as held for trading and are measured at fair value with gains and losses recognized in net earnings. Due to the relatively short period to maturity of these financial instruments, the carrying values approximate their fair values.

The organization does not have any financial instruments designated as loans and receivables or held-to-maturity investments and other liabilities.

(i) Fair Value of Financial Instruments
The fair value of the recoverable, Province of Manitoba is not practical to determine due to their underlying terms and conditions.

(j) Use of Estimates
The preparation of financial statements in accordance with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities at the date of the financial statements and the reported amounts of certain revenue and expenses during the year. Actual results could differ from these estimates.

4. Cash and Short Term Investments

Cash and short term investments consist of $30,601 cash (2008 - $34,097) and a short term investment of $287,362 (2008 - $496,947). The short term investment matures April 22, 2009 with a yield of 0.7%.

5. Long Term Investments

	2009		2008	
	COST	MARKET	COST	MARKET
Farm Credit Canada (Due Sept. 15, 2009, yielding 3.3%)	100,000	101,225	100,000	100,645
Golden Credit Card Trust (Due Oct. 15, 2008, yielding 4.159%)	0	0	100,000	102,180
Manitoba Hydro Bonds (Due June 15, 2011, yielding 4.2%)	103,000	106,168	100,000	105,922
Royal Bank of Canada Issuer Extendible Step-Up Med. Term Notes (Yielding 3.20%-4.25%, Maturing September 2006 to September 2010)	100,000	103,179	100,000	101,551
Manulife Bank Investment Savings	100,000	100,925		
	403,000	411,497	400,000	410,298

As the difference between costs and market is insignificant, Council has not adjusted its carrying value to market.

6. Capital Assets

	2009			2008
	COST	ACCUMULATED AMORTIZATION	NET BOOK VALUE	NET BOOK VALUE
Office furniture and equipment	129,105	91,456	37,649	53,141
Computer hardware and software	386,916	302,752	84,164	15,510
	516,021	394,208	121,813	68,651

7. Works of Visual Art

The Manitoba Arts Council moved selected works from the Visual Art Bank to the Art Gallery of Southwestern Manitoba. The Manitoba Foundation for the Arts awarded a grant to the Manitoba Arts Council to provide to the Art Gallery of Southwestern Manitoba for the care, storage and exhibition of those works. An art bank loan agreement between the Council and the Art Gallery of Southwestern Manitoba is currently being negotiated.

8. Interfund Transfers and Internally Restricted Fund Balances

In 2009, the Council members internally restricted $60,000 to be used as follows:

	GRANTS & PROGRAMS	BRIDGES
French Language Programs		20,000
ArtsSmarts		40,000
	0	60,000

These internally restricted amounts are not available for unrestricted purposes without the approval of the members of Council. In addition, $409,872 (2008 - $397,177) was transferred from the Bridges Fund to the Grants & Programs Fund in order to fund the cash outlays for Grants to Individual Artists and Arts Development Grants.

9. Lease Commitment

Council has entered into an agreement to lease office premises until March 31, 2012. The 2009 basic annual rent was $113,234. The 2010 basic annual rent is estimated to be the same as 2009 ($113,234). Expenses arising from an escalation clause for taxes, insurance, utilities and building maintenance are in addition to the basic rent.

10. Funding Agreement

The funding agreement with the Province of Manitoba established the terms and conditions of funding for five years ended March 31, 2000. During the term of the agreement, Council was entitled to retain proceeds up to $1,000,000 from the Province of Manitoba. Any proceeds retained in excess of $1,000,000 except for proceeds exempted in the funding agreement, would have been repaid to the Province of Manitoba on demand. In accordance with this Agreement, there were no proceeds repayable to the Province. As at March 31, 2009, the Council was in discussions with the Province regarding the terms of a new funding agreement.

11. Pension Plan

Eligible employees are participants in the Manitoba Civil Service Superannuation Fund. The Council participates on a fully funded basis and its contributions of $13,257 (2008 - $13,275) represent the total obligations for the year.

12. Severance Liability

Effective March 31, 1999, the Manitoba Arts Council, as a Crown organization, is required to record a severance liability. The Province of Manitoba has recognized an opening liability of $36,000 as at April 1, 1998. Any subsequent changes to the severance liability will be the responsibility of Council. As at March 31, 2009, Council recorded a liability of $34,706 (2008 - $29,476). This liability is included in accounts payable and accrued liabilities.

13. Statement of Cash Flow

A statement of cash flow is not presented as part of the financial statements as Council has determined that cash flow information is readily determinable from the other financial statements.

14. Economic Dependence

A substantial portion of the Council's total revenue is derived from the Province of Manitoba in the form of an operating grant.

15. Financial Instruments - Risk Management

In the normal course of operations the Council is exposed to various financial risks. The financial risk management objectives and policies are as follows:

Credit risk
Credit risk is the risk that one party to a financial instrument fails to discharge an obligation and causes financial loss to another party. Financial instruments which potentially subject the Council to credit risk consist principally of cash and short-term investments, accrued interest income, accounts receivable and long term investments.

The maximum exposure of the Council to credit risk at March 31, 2009 is:

Cash and short-term investments	$ 317,963
Accrued interest income	8,871
Accounts receivable	25,540
Long term investments	403,000
	$ 755,374

Cash and short-term investments and accrued interest income: The Council is not exposed to significant credit risk as these are primarily held by financial institutions and the Province of Manitoba.

Long term investments: The Council is not exposed to significant credit risk as these consist of interest bearing bonds and accounts from financial institutions and Manitoba Hydro, a provincial Crown corporation.

Accounts receivable: The Council is not exposed to significant credit risk as the nature of the accounts receivable is with the Province of Manitoba.

Liquidity risk

Liquidity risk is the risk that the Council will not be able to meet its financial obligations as they come due.

Management monitors the Council's liquidity and is of the opinion that it is unlikely that the Council will encounter difficulty in raising funds to meet commitments associated with financial instruments.

Market risk

Market risk is the risk that changes in market prices, such as interest rates and foreign exchange rates, will affect the Council's income or the fair values of its financial instruments. The significant market risks the Council is exposed to interest rate risk.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The interest rate exposure relates to short-term investments and long term investments.

The interest rate risk on short-term investments are considered to be low because of their short-term nature.

The interest rate risk on long term investments are considered to be low because this consists mainly of fixed interest bearing bonds.

Schedule of Administrative Expenses
FOR THE YEAR ENDED MARCH 31, 2009

AUDITORS' REPORT

To the Board of Commissioners
Manitoba Boxing Commission

We have audited the statement of financial position of Manitoba Boxing Commission as at March 31, 2009 and the statement of operations and changes in net assets and cash flows for the year then ended. These financial statements are the responsibility of the Commissioners. Our responsibility is to express an opinion on these financial statements based on our audit.

Except as explained in the following paragraph, we conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In common with many not-for-profit organizations the organization derives revenue from commissions, licenses and permits, the completeness of which is not susceptible of satisfactory audit verification. Accordingly, our verification of these revenues was limited to the amounts recorded in the records of the organization and we were not able to determine whether any adjustments might be necessary to these revenues, excess of revenue over expense, assets and surplus.

In our opinion, except for the effect of adjustments, if any, which we might have determined to be necessary had we been able to satisfy ourselves concerning the completeness of the revenues referred to in the preceding paragraph, these financial statements present fairly, in all material respects, the financial position of the organization as at March 31, 2009 and the results of its operations and the changes in its financial position for the year then ended in accordance with Canadian generally accepted accounting principles.

MANITOBA BOXING COMMISSION
NOTES TO THE FINANCIAL STATEMENTS
March 31, 2009

1. Statutes of Incorporation and Nature of Activities

The commission was incorporated under the provisions of the Province of Manitoba by a proclamation dated October 16, 1983.

The Manitoba Boxing Commission is a commission, pursuant to the Boxing Commission Act, Cap. B80, C.C.S.M., of the Province of Manitoba. The purpose of the organization is to regulate professional boxing matches in the Province of Manitoba in accordance with regulations as set down in the Act.

2. Significant Accounting Policies

These financial statements have been prepared in accordance with Canadian generally accepted accounting policies for not-for-profit organizations and reflect the following policies:

Financial Instruments

The company's financial instruments consist of cash, accounts receivable and accounts payable. Unless otherwise noted, it is management's opinion that the company is not exposed to significant interest, currency or credit risks arising from these financial instruments. The fair values of these financial instruments approximate their carrying values, unless otherwise noted.

Revenue recognition

Revenues are recognized when they are received or receivable if the amount can be reasonably estimated and its collection is reasonably assured.

Amortization

Property, plant and equipment are accounted for at cost and is amortized 100% in the year of acquisition.

Use of Estimates

The preparation of the financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. By their nature, these estimates are subject to measurement uncertainty and the effect on the financial statements of changes in such estimates in future periods could be significant.

MANITOBA BOXING COMMISSION
NOTES TO THE FINANCIAL STATEMENTS
March 31, 2009

3. Property, Plant And Equipment

	Original Cost	Accumulated Amortization	Net Book Value
March 31, 2009			
Computer equipment	$ 2,573	$ 2,573	$ -
March 31, 2008			
Computer equipment	$ 2,573	$ 2,573	$ -

4. Economic Dependence

The Commission is economically dependent on the Province of Manitoba which provides funding through an annual grant.

Management Report

The accompanying financial statements of the Manitoba Centennial Centre Corporation (the "Corporation") are the responsibility of management and have been prepared in accordance with Canadian generally accepted accounting principles. We understand that fair presentations of these financial statements include: providing sufficient information about certain transactions, or events, having an effect on the Corporation's financial position; results of operations and cash flows for the periods presented that are of such size, nature and incidence that their disclosure is necessary to understand that effect on the Corporation's financial statements; and providing information in a manner that is clear and understandable.

Management are responsible for the design, implementation and operation of internal controls to safeguard the assets of the corporation and to prevent, deter and detect fraud and error, including internal controls over the financial reporting process.

The responsibility of the Office of the Auditor General is to express an independent, professional opinion on whether the financial statements of the Corporation are fairly presented in accordance with Canadian generally accepted accounting principals. The Auditors' Report outlines the scope of the audit examination and provides their opinion.

On behalf of Management,

Bob Sochasky, CMA, FCMA
Chief Executive Officer

Laura Proulx, CMA
Director, Finance and Administration

OFFICE OF THE
AUDITOR GENERAL
MANITOBA

AUDITORS' REPORT

To the Legislative Assembly of Manitoba
To the Board of Directors of the Manitoba Centennial Centre Corporation

We have audited the statement of financial position of the Manitoba Centennial Centre Corporation as at March 31, 2009, and the statements of operations and changes in fund balances and cash flows for the year then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 2009, and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Purchase of capital assets in accounts payable	$ 130,535	$ 236,233

See accompanying notes to financial statements.

1. Nature of the Corporation's operations:

The Manitoba Centennial Centre Corporation (the Corporation) was established in 1968 for the development and management of the permanent arts centre in the City of Winnipeg as the principal memorial in the Province to the centennial anniversaries of the Confederation of Canada and the inclusion of Manitoba as a Province. Its aim and objectives are to maintain and enhance the properties and facilities available to organizations and individuals involved in various elements of the visual and performing arts. The Corporation is exempt from income taxes under Section 149(1) of the *Income Tax Act.*

In 1969, the Corporation established the Manitoba Centennial Foundation of the Future Fund in recognition of Manitoba's centennial year. In 1972, the Corporation established the Maitland Steinkopf Youth Fund with an original allocation of $25,000. The major purpose of this fund was to promote cultural opportunities for Manitoba youths at reasonable costs. During the year ended March 31, 2009, the Maitland Steinkopf Youth Fund and the Manitoba Centennial Foundation of the Future Fund were combined and will be used towards funding of arts and culture as the Board of Directors of the Corporation deems appropriate from time to time.

2. Properties of the Corporation:

The Corporation oversees properties on behalf of the Province of Manitoba. At March 31, 2009 registered titles to these properties, being the Concert Hall, Manitoba Production Centre, parkade, parking lots and other buildings, are held by the Province of Manitoba. These properties are made available at no direct charge to the Corporation.

The Corporation has included the financial results of the Manitoba Production Centre within its financial statements as per the Letter of Understanding between Manitoba Culture, Heritage, Tourism and Sport and the Manitoba Centennial Centre Corporation dated December 14, 2005, in which the Corporation agreed to manage the Manitoba Production Centre for the Province.

3. Significant accounting policies:

(a) Fund accounting:

The Corporation's financial statements have been prepared on a fund basis, using Canadian generally accepted accounting principles. The Corporation follows the deferral method of accounting.

The General Fund is used to account for the operations of the Corporation.

3. Significant accounting policies (continued):

Internally restricted funds cannot be expended without the approval of the Board of Directors. The Capital Asset Fund reports the assets, liabilities, revenues and expenses related to capital assets other than buildings that are funded by the Province of Manitoba (notes 2, 3 (e) and 9).

(b) Pension costs:

Pension payments are recognized as operating expenses as payments are made under provisions of *The Manitoba Civil Service Superannuation Act*. The provisions of this Act require the Corporation to contribute 50 percent of the pension payments being made to retired employees. In addition, a provision has been recorded in the accounts of the Corporation for the employer's share of current and past service pension obligations.

(c) Term deposits:

Term deposits are recorded at cost plus accrued interest, which approximates fair value due to the short-term nature of these deposits.

(d) Inventory:

Inventory is valued at the lower of cost, using the first-in, first-out method, and net realizable value.

(e) Capital assets:

Capital assets are recorded at cost and are being amortized using the straight-line method over their estimated useful lives as follows:

Asset	Rate
Computer equipment	20%
Concert hall refurbishments	10%
Concrete replacement	8%
Equipment and furnishings	20%
Fire alarm system and sprinkler system	10%
Marquee	20%
Mechanical/electrical equipment	20%
Office renovations	10%
Stage and rigging equipment	20%
Stage lighting equipment	20%
Stage sound equipment	20%
System and motor controls	10%

3. Significant accounting policies (continued):

The financial statements of the Corporation exclude capital assets related to buildings and associated assets, as title to these assets is held by the Province of Manitoba (note 2) and these assets are reflected in the financial statements of the Province of Manitoba. Expenditures on these excluded assets, and the related grants and receivables from the Province of Manitoba, are presented in note 11. Effective April 1, 2006, the Corporation began reflecting all other capital asset expenditures in its financial statements, and such assets have been accounted for in accordance with the requirements of Canadian Institute of Chartered Accountants (CICA) Handbook Section 4430.

(f) Cash:

Cash includes cash on hand and balances with banks.

(g) Revenue recognition:

Revenue is recognized when services are rendered and when collectibility is reasonably assured.

The Corporation follows the deferral method of accounting for contributions. Restricted contributions are recognized as revenue in the year in which the related expenses are incurred.

Deferred contributions related to capital assets represent the unamortized amount of capital grants received for the purchase of capital assets. The amortization of deferred contributions is recorded as revenue in the statement of operations on the same basis as the amortization of the related capital assets.

Unrestricted contributions are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

(h) Financial instruments:

Financial assets and liabilities classified as held-for-trading are measured at fair value with gains and losses recognized in excess of revenue over expenses. Financial instruments classified as held-to-maturity, loans and receivables and other liabilities are measured at amortized cost. Available-for-sale financial instruments are measured at fair value, with unrealized gains and losses recognized directly in unrestricted funds.

3. Significant accounting policies (continued):

The Corporation designated cash and term deposits as held-for-trading; accounts and grants receivable and amounts recoverable from the Province of Manitoba as loans and receivables; and accounts payable and accrued liabilities and accrued vacation pay as other liabilities. The Corporation has neither available-for-sale nor held-to-maturity instruments.

Except for held-for trading designated financial instruments, transaction costs that are directly attributable to the acquisition or issuance of financial assets or liabilities are accounted for as part of the respective asset or liability's carrying value at inception and amortized over the expected life of the financial instrument using the effective interest method. For held-for trading financial assets and liabilities, transaction costs are recorded in the statement of operations as incurred.

(i) Use of estimates:

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates.

(j) Future accounting changes:

The Canadian Institute of Chartered Accountants issued the following accounting standards that will come into effect for the Corporation's next fiscal year.

CICA Section 3862, *Financial Instruments - Disclosures* and Section 3863, *Financial Instruments - Presentation* were to replace the existing Section 3861, *Financial Instruments - Disclosure and Presentation*, effective April 1, 2009 for the Corporation. These new sections revise and enhance disclosure requirements, and carry forward, unchanged, existing presentation requirements. These new sections place increased emphasis on disclosures about the nature and extent of risks arising from financial instruments and how the entity manages those risks. However, the CICA subsequently amended these sections to eliminate the requirement for not-for-profit entities to adopt these sections. Not-for-profit entities are permitted to continue to apply Section 3861 in place of Section 3862 and 3863. An entity that does so must disclose the fact.

3. Significant accounting policies (continued):

In September 2008, a number of standards applicable to not-for-profit organizations were amended and new Section 4470, *Disclosures of Allocated Expenses by Not-for-Profit Organizations*, was issued. The new Section 4470 requires entities that make allocations of general support and fundraising costs to other functions to disclose the policies adopted for the allocation of expenses among functions, the nature of the expenses being allocated, the basis on which such allocations have been made, and the functions to which they have been allocated. In addition, the amendments to the not-for-profit organization standards include clarification of when revenues and expenses are to be reported on a gross basis; clarification of the treatment of internal and external restriction on net assets; and improved guidance related to application of GAAP hierarchy, capital asset standards and statement of cash flows. The Corporation will adopt these standards on April 1, 2009.

The Corporation is currently assessing the impact that these new standards will have on its financial statements for the year ended March 31, 2010.

4. New accounting policies:

Effective April 1, 2008, the Corporation adopted the following new Handbook sections issued by the CICA:

Section 1535, *Capital Disclosures*:

Section 1535 establishes standards for disclosing information about an entity's capital and how it is managed. These standards require an entity to disclose its objectives, policies and processes for managing capital, a summary of quantitative data about what it manages as capital and whether it complied with any externally imposed capital requirements to which it is subject and, if not, the consequences of such non-compliance.

The Corporation has continued to apply Section 3861, *Financial Instruments - Disclosure and Presentation* in place of Sections 3862 and 3863.

Section 3031, *Inventories*:

Section 3031, *Inventories*, replaces Section 3030, *Inventories*. It provides more guidance on the measurement and disclosure requirements for inventories. The adoption of Section 3031 did not have an impact on the recognition, measurement or presentation of inventory in the Corporation's year end financial statements.

5. Employee benefits:

(a) Accrued vacation pay:

The cost of the Corporation's vacation benefits is accrued when the benefits are earned by the employees.

The Province of Manitoba funds a portion of the vacation pay benefits of the Corporation, which is limited to the amount estimated at March 31, 1995. Accordingly, the Corporation has recorded a recoverable in the amount of $199,964 from the Province of Manitoba which reflects the estimated liability for accumulated vacation pay benefits at March 31, 1995. Each year the Corporation is expected to fund the change in the liability from annual funding provided by the Province of Manitoba.

(b) Severance:

Effective April 1, 1998, the Corporation commenced recording the estimated liability for accumulated severance pay benefits for its employees. At March 31, 2009, based on an actuarial estimate the obligation for accrued severance pay is $523,665 (2008 - $468,531). The significant actuarial assumptions include an interest rate of 7 percent (2008 - 7 percent).

Severance pay, at the employee's date of retirement, will be determined by multiplying the eligible employee's years of service (to a maximum of 23 years) by the employee's weekly salary at the date of retirement. Eligibility will require that the employee has achieved a minimum of nine years of service and that the employee is retiring from the Corporation.

The amount of funding which will be provided by the Province of Manitoba for severance pay benefits of $307,561, represents the amount accumulated to March 31, 1998 by the employees of the Corporation, and is recorded as amounts recoverable - Province of Manitoba on the statement of financial position. This receivable from the Province of Manitoba has no specified terms of repayment. The Corporation is responsible for funding liabilities for severance pay benefits accumulated after March 31, 1998 through its operating grants from the Province of Manitoba. As a result, the change in the accrued severance pay liability, including the interest accretion, is reflected in the funding for severance expense.

6. Pension liability:

The Corporation records the pension liability and the related pension expense, including an interest component, in its financial statements. Based on extrapolation from the most recent actuarial report as at December 31, 2007, the Corporation has recorded an amount of $5,283,000 (2008 - $5,301,000) in its financial statements, representing the estimated unfunded liability for the Corporation's employees as at March 31, 2009. Total pension expense of $258,030 (2008 - $502,925) has been recorded in the statement of operations (see schedule), or $168,180 net of expenses incurred on behalf of Manitoba Museum.

The Province of Manitoba has accepted responsibility for the pension liability and the related expense. The Corporation has therefore recorded an amount recoverable from the Province of Manitoba of $5,283,000 (2008 - $5,301,000) equal to the estimated value of its actuarially determined liability in its financial statements, and has recorded associated net expense of $33,282 (2008 - net revenue of $217,491). The Province makes payments on the receivable when it is determined that the funding is required to discharge the related pension obligation.

Provision for employer's share of employees' pension plan:

	2009	2008
Balance, beginning of year	$ 5,301,000	$ 5,069,000
Decrease (increase) in trust account held by the Province of Manitoba	27,620	(6,330)
Benefits accrued	155,191	159,231
Interest accrued (7 percent; 2008 - 7 percent)	353,852	362,142
Benefits paid	(288,463)	(283,043)
Actuarial gains[1]	(266,200)	–
Balance, end of year	$ 5,283,000	$ 5,301,000

[1] The actuarial valuation as at December 31, 2007 was completed in April 2009, and the resulting adjustment recorded in the year ended March 31, 2009.

7. Capital assets:

	Cost	Accumulated amortization	2009 Net book value	2008 Net book value
Computer equipment	$ 59,615	$ 23,846	$ 35,769	$ 47,692
Concert hall refurbishments	171,032	34,204	136,828	153,929
Concrete replacement	10,060	1,610	8,450	9,255
Equipment and furnishings	134,115	41,787	92,328	31,930
Fire alarm systems and sprinkler system	63,208	6,320	56,888	–
Marquee	382,230	152,892	229,338	305,784
Mechanical/electrical equipment	32,692	13,077	19,615	26,154
Office renovations	437,851	128,022	309,829	353,158
Stage and rigging equipment	100,482	42,359	58,123	33,393
Stage lighting equipment	90,615	33,572	57,043	61,795
Stage sound equipment	159,345	95,607	63,738	95,607
System and motor controls	71,158	7,116	64,042	–
	$ 1,712,403	$ 580,412	$ 1,131,991	$ 1,118,697

8. Deferred contributions:

	2009	2008
Balance, beginning of year	$ 947,318	$ 370,320
Capital grants received	279,784	776,057
Less amortized to revenue	(241,579)	(199,059)
Balance, end of year	$ 985,523	$ 947,318

9. Invested in capital assets:

	2009	2008
Capital assets (note 7)	$ 1,131,991	$ 1,118,697
Amounts financed by deferred contributions (note 8)	(985,523)	(947,318)
	$ 146,468	$ 171,379

10. Internally restricted funds:

The following funds are established and managed by the Corporation:

	2009	2008
The Maitland Steinkopf Youth Fund:		
Balance, beginning of year	$ 64,072	$ 64,410
Investment income	1,242	2,502
Grant expense	(2,950)	(2,840)
	62,364	64,072
The Manitoba Centennial Foundation of the Future Fund:		
Balance, beginning of year	52,917	50,846
Investment income	1,069	2,071
	53,986	52,917
Balance, end of year	$ 116,350	$ 116,989

During the year ended March 31, 2009, the Maitland Steinkopf Youth Fund and the Manitoba Centennial Foundation of the Future Fund were combined.

11. Capital advances and commitments:

Capital funds in the amount of $95,079 (2008 - $68,163) were drawn in advance on projects awarded but not yet undertaken by March 31, 2009 (as follows):

	2009	2008
Capital grants - Province of Manitoba:		
Advances brought forward from previous years	$ 68,163	$ 100,000
Received during the year	513,817	–
	581,980	100,000
Capital expenditures not reflected on the Corporation's financial statements [note 3(e)]:		
Concert hall roof	(486,901)	–
Capital expenditures reflected in the Corporation's financial statements [note 3(e)]	–	(31,837)
	(486,901)	(31,837)
Advances carried forward to future years	$ 95,079	$ 68,163

The Corporation had no outstanding contractual commitments to complete capital improvements at March 31, 2009 or 2008.

12. Grant of service:

The Manitoba Centennial Centre Corporation incurs expenses such as cleaning, utilities and maintenance on behalf of the Manitoba Museum. These expenses amount to $1,683,155 for the year ended March 31, 2009 (2008 - $1,604,321).

13. Financial instruments:

The Corporation's financial instruments consist of cash, term deposits, accounts receivable, amounts recoverable from the Province of Manitoba, accounts payable and accrued liabilities and accrued vacation pay. It is management's opinion that the Corporation is not exposed to significant interest, currency or credit risks arising from these financial instruments. The fair values of these financial instruments approximate their carrying values, unless otherwise noted. The carrying values of the amounts recoverable from the Province approximate their fair value because the annual interest accretion is funded, as described in notes 5(b) and 6.

14. Economic dependence:

The Corporation is economically dependent on funding received from the Province of Manitoba.

15. Capital management:

The Corporation's objective when managing its capital is to maintain sufficient capital to cover its costs of operations, while fulfilling its mandate under the *Manitoba Centennial Centre Corporations Act*. The Corporation's capital consists of unrestricted funds, internally restricted funds and funds invested in capital assets. The Corporation's ability to meet its capital objectives is dependent on its cash flows, including operating and capital grants received from the Province of Manitoba.

The Corporation is not subject to externally imposed capital requirements.

There were no changes in the Corporation's approach to capital management during the period.

16. Comparative figures:

Certain comparative figures have been reclassified to conform with the financial statement presentation adopted in the current year.

MANITOBA CENTENNIAL CENTRE CORPORATION

Schedule - Operating Expenses

Year ended March 31, 2009, with comparative figures for 2008

To the Members of
Manitoba Community Services Council Inc.

I have audited the balance sheet of Manitoba Community Services Council Inc. as at March 31, 2009 and the statements of changes in net assets and financial activities for the year then ended. These financial statements are the responsibility of the Council's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Manitoba Community Services Council Inc. as at March 31, 2009 and the results of its operations and the changes in its financial position for the year then ended in accordance with Canadian generally accepted accounting principles.

MANITOBA COMMUNITY SERVICES COUNCIL INC.

NOTES TO THE FINANCIAL STATEMENTS

MARCH 31, 2009

1. Incorporation

Manitoba Community Services Council Inc. (Council) was incorporated under The Corporations Act of Manitoba on March 13, 1990 without share capital, created for the purpose of distributing bingo events and provincial funds to non-profit community organizations on behalf of the Province of Manitoba.

2. Summary of significant accounting policies

The financial statements have been prepared in accordance with Canadian generally accepted accounting principles and include the following significant accounting policies:

a) Statement of cash flows

A statement of cash flows has not been presented since information concerning cash flows is evident from the financial statements presented.

b) Guaranteed investment certificates

Guaranteed investment certificates are carried at cost.

c) Capital assets

Capital asset acquisitions are recorded in the year of purchase at cost. Amortization is provided for on a straight-line basis at the following rates which will amortize the cost of the assets over their estimated useful lives:

Furniture and equipment	20%
Computer equipment	30%
Computer software	50%

d) Revenue recognition

Funding for programs and grant allocations comes from the Province of Manitoba, Minister of Culture, Heritage, Tourism and Sport. The fiscal period relates to the same fiscal period as the Province and is included in their fiscal budgets. If funding were approved and not received, it would be accrued at the end of the fiscal period.

Interest revenue is accrued based on the investment rate of return over the fiscal period.

Thomas Tasker
Chartered Accountant Inc.

MANITOBA COMMUNITY SERVICES COUNCIL INC.

NOTES TO THE FINANCIAL STATEMENTS, CONT'D

MARCH 31, 2009

2. Summary of significant accounting policies, cont'd

e) Measurement uncertainty (use of estimates)

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results may differ from management's best estimates.

These estimates and assumptions are reviewed periodically and, as adjustments become necessary they are reported in earnings in the periods in which they become known.

f) Financial instruments

The organization classifies its financial instruments into one of the following categories based on the purpose for which the asset was acquired or liability incurred. The organization's accounting policy for each category is as follows:

Financial instruments classified as assets held-for-trading are reported at fair value at each balance sheet date, and any change in fair value is recognized in net income (loss) in the period during which the change occurs. Transaction costs are expensed when incurred. In these financial statements, cash and cash equivalents have been classified as held-for-trading.

Financial instruments classified as held-to-maturity are financial assets with fixed or determinable payments and fixed maturities that the organization's management has the positive intention and ability to hold to maturity. These assets are initially recorded at fair value and subsequently carried at amortized costs, using the effective interest rate method. Transaction costs are included in the amount initially recognized. In these financial statements, guaranteed investment certificates have been classified as held-to-maturity.

Financial instruments classified as other financial liabilities are carried at amortized cost using the effective interest method. Transaction costs are expensed when incurred. In these financial statements, accounts payable, accrued liabilities and allocations not yet paid have been classified as other financial liabilities.

The company's financial instruments consist of cash, guaranteed investment certificates, accrued interest, accounts payable and allocations not yet paid. Unless otherwise noted, it is management's opinion that the Council is not exposed to significant interest, currency or credit risks arising from these financial instruments.

MANITOBA COMMUNITY SERVICES COUNCIL INC.

NOTES TO THE FINANCIAL STATEMENTS, CONT'D

MARCH 31, 2009

3. Guaranteed investment certificates

	2009	2008
Due within one year, interest rates of 1.25% to 5.3%	$ 622,471	$ 579,275
Long-term investment certificates, due October, 2010, interest rate of 5.35%.	$ 267,081	$ 504,605

4. Capital assets

	2009		2008	
	Cost	Accumulated Amortization	Cost	Accumulated Amortization
Furniture and equipment	$ 22,962	$ 22,917	$ 22,962	$ 22,828
Computer equipment	11,047	1,657	13,842	12,838
Computer software	11,040	9,713	9,270	6,953
	$ 45,049	$ 34,287	$ 46,074	$ 42,619
Cost less accumulated amortization		$ 10,762		$ 3,455

5. Provincial funding

The Province of Manitoba has committed funding in the amount of $2,004,000 for the year ended March 31, 2010.

6. Commitment

The Council has leased realty pursuant to a lease agreement, until May 31, 2010. Under the terms of the lease, the Council is responsible for base rent and its proportionate share of property taxes and operating costs of the building.

The minimum base rent payment for the next year is as follows:

2010	$ 11,854

Thomas Tasker
Chartered Accountant Inc.

MANITOBA COMMUNITY SERVICES COUNCIL INC.

NOTES TO THE FINANCIAL STATEMENTS, CONT'D

MARCH 31, 2009

7. Pension plan

The employees of the organization participate in the United Way Agencies' Employees Retirement Plan, a multi-employer, defined benefit pension plan, which is accounted for as a defined contribution plan. The Council's pension contribution and expense for the year was $8,443 (2008 - $6,679).

The most recent Actuarial Valuation at December 31, 2006 indicated a surplus on a going concern basis and on a solvency valuation basis.

8. Funds for Priority Area Strategy

At the September 16, 2008 meeting of Council, the Council approved the recovery of $295,024 from the Strategic Priority areas to be returned to general revenue for re-allocation.

9. Bingo earnings

The Council allocates a certain number of bingo events to various organizations that it funds.

The funds received from bingos are paid directly by the Manitoba Lotteries Corporations to the above organizations. These funds are not reflected on the statement of financial activities.

Auditors' Report

To the Shareholder of
MANITOBA DEVELOPMENT CORPORATION

We have audited the balance sheet of **MANITOBA DEVELOPMENT CORPORATION** as at March 31, 2009 and the statements of operations and retained earnings and cash flows for the year then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 2009 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

The accompanying summary of significant accounting policies and notes are an integral part of these financial statements.

MANITOBA DEVELOPMENT CORPORATION
Summary of Significant Accounting Policies

March 31, 2009

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results may differ from those estimates. The significant accounting policies used in these financial statements are as follows:

Loans Receivable Under Part II

Loans are carried at the unpaid principal plus accrued interest, less allowance for doubtful loans. Loans considered uncollectible are written-off.

Interest on loans is recorded as income on an accrual basis except for loans considered impaired. When a loan becomes impaired, recognition of interest ceases when the carrying amount of the loan (including accrued interest) exceeds the estimated realizable amount. The amount of initial impairment and any subsequent changes are recorded through the provision for doubtful loans as an adjustment of the specific allowance.

The allowance for doubtful loans is maintained at a level considered adequate to absorb credit losses existing in the portfolio. Specific allowances reduce the carrying value of loans identified as impaired to their net realizable amounts. In addition to specific allowances against identified impaired loans, the corporation maintains a non-specific allowance to cover impairment which is inherent in the loan portfolio which is consistent with industry practice.

Equity Investments Under Part II

The Corporation's equity in investments related to share capital investments are recorded at cost. The Corporation's investments in the Vision Capital Fund, CentreStone Vision Fund, Manitoba Capital Fund, Manitoba Science and Technology Fund, Renaissance Capital Fund, Western Life Sciences Venture Fund LLP and the Canterbury Park Capital Limited Partnership Fund are accounted for using the equity method of accounting. These investments were originally recorded at cost and the carrying value is adjusted thereafter to include the Corporation's pro-rata share of post acquisition earnings. Such adjustments are correspondingly reflected in the balance sheet caption "Funds provided by the Province of Manitoba under Part II."

An allowance for Equity Investments is maintained at a level considered adequate to absorb the investment risk in the portfolio. Specific allowances reduce the carrying value of individual fund investments to their net realizable amounts at year end.

Financial Instruments

The Corporation utilizes various financial instruments. Unless otherwise noted, it is management's opinion that the Corporation is not exposed to significant interest, currency or credit risks arising from these financial instruments and the carrying amounts approximate fair values.

The fair values of cash and cash equivalents, accounts receivable and accounts payable approximate their carrying value because of their short-term maturity of these instruments. The fair value of long-term investments is estimated based on current rates assumed for similar government guaranteed debt of the same maturity.

All transactions related to financial instruments are recorded on a trade date basis.

The Corporation classifies its financial instruments into one of the following categories based on the purpose for which the asset was acquired. The Corporation's accounting policy for each category is as follows:

Held-for-trading - This category is comprised of cash, cash held in trust and short-term investments. They are carried in the balance sheet at fair value with changes in fair value recognized in the income statement. Transaction costs related to instruments classified as held-for-trading are expensed as incurred.

Loans and Receivables - These assets are non-derivative financial assets resulting from the delivery of cash or other assets by a lender to a borrower in return for a promise to repay on a specified date or dates, or on demand. They arise principally through the provision of goods and services (accounts receivable), but also incorporate other types of contractual monetary assets (loans receivable). They are initially recognized at fair value and subsequently carried at amortized cost, using the effective interest rate method, less any provision for impairment.

Held-to-maturity Investments - These assets are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Corporation's management has the positive intention and ability to hold to maturity and comprises certain investments in debt securities held as Trust Funds. These assets are initially recognized at fair value and subsequently carried at amortized cost, using the effective interest rate method, less any provision for impairment. Fair values are determined directly by reference to published price quotations in an active market.

Financial Instruments (continued)

Available for Sale – Non-derivative financial assets not included in the above categories are classified as available-for-sale and comprises of all equity investments held by the Corporation. Given that the shares in all equity investments do not have a quoted market price in an active market, they are carried at cost. Transaction costs related to available-for-sale investments are expensed as incurred.

Other Financial Liabilities - Other financial liabilities include all financial liabilities other than those classified as held-for-trading and comprises trade accounts payable, Funds provided by the Province of Manitoba and trust liabilities. These liabilities are initially recognized at fair value and subsequently carried at amortized cost using the effective interest rate method.

The financial risk is the risk to the Corporation's Part I earnings that arise from fluctuations in interest rates and degree of volatility of these rates. Because Part II activities are directed by the Province of Manitoba, any exposure for these financial assets and liabilities to interest rate fluctuations or changes to their fair value would be borne by the Province. Credit risk relating to the realization of assets managed for the Province of Manitoba under Part II is borne by the Province.

All financial instruments are denominated in Canadian dollars.

The Corporation does not participate in derivative financial instrument trading.

Other comprehensive income includes, in particular, unrealized gains and losses on available for sale financial assets and the change in the effective portion of a cash flow hedge transaction. The Corporation had no other comprehensive income items for the year. Because the Corporation has no items related to other comprehensive income, comprehensive income is equivalent to net income.

Operating Losses

Losses under Part I and under Part II of the Corporation are the responsibility of the Province and are charged directly against advances received from the Province.

Cash and Cash Equivalents

For the purpose of the statement of cash flows, cash includes cash and term deposits with the Province of Manitoba with maturities of up to three months.

MANITOBA DEVELOPMENT CORPORATION
Summary of Significant Accounting Policies

March 31, 2009

Foreign Currency Translation

Foreign currency accounts are translated into Canadian dollars as follows:

At the transaction date, each asset, liability, revenue and expense is translated into Canadian dollars by the use of the exchange rate in effect at that date. At the year end date, monetary assets and liabilities are translated into Canadian dollars by using the exchange rate in effect at that date. The resulting foreign exchange gains and losses are included in income in the current period.

Contributed Services

During the year, the Province of Manitoba provided office space and other administrative services to the corporation at no cost. Because of the difficulty of estimating the fair value of such expenses, no contributed services are recognized in the financial statements.

Program Administration and Recoveries

Program administration expenses are recognized in the same period that they are incurred. Recovery of Program Administration Expenses revenue is recognized in the same period as the corresponding expense is incurred.

New Accounting Pronouncements

Recent accounting pronouncements that have been issued but are not yet effective, and have a potential implication for the Corporation, are as follows:

Financial Statement Concepts - CICA Handbook Section 1000, Financial Statement Concepts has been amended to focus on the capitalization of costs that truly meet the definition of an asset and de-emphasizes the matching principle.

The revised requirements are effective for annual and interim financial statements relating to fiscal years beginning on or after October 1, 2008.

Financial Instruments - Disclosure and Presentation - In September, 2008 the CICA deferred indefinitely the requirement of certain enterprises, including the Corporation to implement new standards dealing the certain financial instrument, disclosures and presentation. The Corporation has elected to defer application of these standards.

The Corporation is currently evaluating the impact of changing its basis of accounting from the standards of the Accounting Standards Board of the CICA to those of the Public Sector Accounting Board.

1. Nature of Operations and Economic Dependence

The Manitoba Development Corporation (the Corporation) provides loans and guarantees under Part I and Part II of the Development Corporation Act. The activities under Part I and Part II are accounted for separately. Part I activities are undertaken at the initiative of the Corporation, while Part II activities are at the direction of the Province of Manitoba.

The Corporation's lending operations under Part I were suspended effective November 15, 1977 except at the direction of the Province of Manitoba. The Corporation's lending and investment operations under Part II continue under the direction of the Province of Manitoba. The Province provides all financing for these initiatives and ultimately bears all costs, including any exposure for these financial assets to interest rate fluctuations, changes to their fair value or credit risk relating to the realization of these assets.

On March 15, 2005, the Province of Manitoba authorized the transfer of financial administration of the Provincial Nominee Program for Business from the Manitoba Trade and Investment Corporation (MTIC) to the Corporation effective April 1, 2005. The Manitoba Provincial Nominee Program for Business allows Manitoba to recruit, select, and nominate qualified business people from around the world who have the intent and ability to move to Manitoba and establish or purchase a business.

The Corporation considers its capital to comprise its shareholder's equity (including share capital, restricted surplus and retained earnings). There have been no changes to what the Corporation considers to be its capital since the previous period.

As a government enterprise, the Corporation's operations are reliant on revenues generated annually. The Corporation has accumulated retained earnings over its history, which are included in retained earnings in the statement of financial position. A portion of these accumulated funds is retained as working capital (current assets less current liabilities) which may be required from time to time due to timing delays in receiving its primary funding.

The Province of Manitoba has directed that the balance of restricted retained earnings for the year to be equal to three years operating expenses of the Business Immigration and Investment Branch (based on the most recent years actual expenses) plus 25% of the previous year's PNP-B forfeitures as a reserve which would not be available for annual distribution to the Province. Any excess beyond that amount, once it has been released by the Province would then be transferred to unrestricted retained earnings. For the year ended March 31, 2009, the Corporation has complied with these restrictions.

2. Change in Accounting Policy

Capital disclosures

On April 1, 2008 the Corporation adopted a requirement of the CICA to provide disclosure about how it manages its unrestricted net assets (See Note 1).

3. Accounts Receivable

	2009	2008
Other	$ 3,311	$ 86,013
Accrued Interest	36,389	93,117
	$ 39,700	$ 179,130

4. Loans Receivable Managed for the Province of Manitoba Under Part II

	2009	2008
Business Support		
Manitoba Industrial Opportunities Program - Repayable	$ 77,218,544	$ 55,652,594
Other Loans Receivable		
International Education Incentive Loan	130,000	50,000
Other	11,100,000	11,100,000
	11,230,000	11,150,000
	88,448,544	66,802,594
Allowance for doubtful accounts	(14,324,596)	(9,675,214)
	$ 74,123,948	$ 57,127,380

The Manitoba Industrial Opportunities Program provides flexible repayable financing to encourage companies to expand or locate in Manitoba. Loan principal is due as follows:

	2009	2008
2009	$ -	$ 3,818,578
2010	3,018,646	8,006,916
2011	14,555,356	13,625,884
2012	19,859,817	14,242,146
2013	8,860,514	2,620,335
Subsequent to 2013	-	13,140,841
2014	6,936,327	-
Subsequent to 2014	23,688,204	-
Accrued interest	299,680	197,894
	77,218,544	55,652,594
Allowance	(14,324,596)	(9,675,214)
	$ 62,893,948	$ 45,977,380

4. Loans Receivable Managed for the Province of Manitoba Under Part II (Continued)

Interest rates charged for Manitoba Industrial Opportunities loans are fixed in reference to the Corporation's cost of borrowing from the Province of Manitoba at the time of the first disbursement of the loan proceeds to the debtor. In some cases, per the terms of individual loan agreements, interest rates may be adjusted during the term of the loan based on the Corporation's cost of borrowing from the Province of Manitoba at a date(s) specified in the loan agreement. In certain cases, the Corporation charges interest rates which are less than its cost of borrowing to encourage investment and job creation in Manitoba. In other cases, the Corporation charges rates in excess of its cost of borrowing to reflect risk conditions. Interest rates charged on loans are as follows:

	2009	2008
Nil	$ 2,103,899	$ 2,104,255
Greater than Nil, less than 5%	27,248,661	24,562,006
5% or greater, less than 6%	27,517,761	15,996,077
6% or greater, less than 7%	4,791,667	4,967,708
7% or greater, less than 8%	2,000,000	3,466,667
8% or greater, less than 9%	12,530,256	3,308,425
9% or greater, less than 10%	726,620	1,049,562
Accrued interest	299,680	197,894
	77,218,544	55,652,594
Allowance	(14,324,596)	(9,675,214)
	$ 62,893,948	$ 45,977,380

When possible, the Corporation obtains various forms of security on the Manitoba Industrial Opportunities loans with priority ranking subject to any prior existing charges.

5. Equity Investments Managed for the Province of Manitoba Under Part II

	2009	2008
Share capital investments		
Inspyre Solutions Inc. (formerly Faneuil ISG Inc.)	$ 1	$ 1
Less: Allowance for forgiveness of shares	1	1
	-	-
Limited Partnership Investments		
Canterbury Park Capital Fund LLP	3,630,881	1,863,850
CentreStone Vision Fund	2,415,672	1,842,397
Manitoba Capital Fund	4,363,200	4,363,200
Manitoba Science and Technology Fund	1,780,103	1,745,703
Renaissance Capital Fund	3,000,000	3,000,000
Western Life Sciences Venture Fund LLP	5,800,000	5,800,000
Vision Capital Fund	1	1
	20,989,857	18,615,151
Less:		
Allowance for decline in value of investments	(10,179,575)	(9,869,129)
Pro-rata share of partnership losses	(4,669,301)	(2,304,091)
	(14,848,876)	(12,173,220)
	$ 6,140,981	$ 6,441,931

The investment in preference shares of Inspyre Solutions Inc. (formerly Faneuil ISG Inc.) has been recorded in the books of the Corporation at a nominal value of $1. Any funds received upon redemption of the preference shares will accordingly result in the recognition of an equal amount of income at that time.

6. Trust Funds / Liabilities - Provincial Nominee Program for Business

	2009	2008
Gross Trust Liabilities	**$ 40,018,383**	$ 33,342,643

The Corporation, Manitoba Competitiveness, Training and Trade and Labour and Immigration operate a program known as the Provincial Nominee Program for Business, which offers individuals who wish to immigrate to the Province of Manitoba to establish and operate a business the opportunity to obtain a nominee certificate. During the 2003 fiscal year, the Corporation first entered into agreements with qualified immigrants whereby the immigrants committed to invest specified amounts to establish approved businesses in Manitoba within specified periods of time. As evidence of their commitments, the immigrants are required to deposit $75,000 with the Corporation. These deposits are held in trust by the Corporation and are refundable to the immigrants based on the satisfaction of the conditions set out in the agreements. The final decision as to admission to Canada for permanent residence is made by the Government of Canada. In the event that the nominees are not granted permanent residency visas by the Government of Canada, the Corporation also refunds the deposits. The Corporation invests the deposits, retains all interest income earned on the deposits and, should immigrants fail to satisfy the conditions of the agreements, the Corporation also has the right, under the agreements, to retain the deposits.

At March 31, 2009, deposits held in trust under the Provincial Nominee Program for Business and invested with the Province of Manitoba totaled $40,018,383 (2008 - $33,342,643). Interest earned on these deposits during the year and retained by the Corporation totaled $1,115,088 (2008 - $1,627,148). Actual deposits retained during the year amounted to $4,425,269 (2008 - $2,250,000) and are presented net of an allowance adjustment of $100,000 (2008 - $100,000).

7. Recovery of Program Administration Expenses and Related Party Transactions

The Corporation receives recoveries for certain Program Administration Expenses, paid for by the Provincial Nominee Program for Business, from the following three sources.

	2009	2008
Departmental appropriations - Competitiveness, Training and Trade	$ -	$ 217,502
Manitoba Opportunities Fund Ltd.	-	350,604
Participants Program	20,053	20,170
	$ 20,053	$ 588,276

The Manitoba Opportunities Fund Ltd. also provided a recovery of $Nil (2008 - $83,186) to cover salary and occupancy costs related to a Corporation employee who worked exclusively on Manitoba Opportunities Fund Ltd. matters (this recovery has been netted against Program Administration Expenses). The Manitoba Opportunities Fund Ltd. operates under the control of a common Board of Directors.

In 2008 a program recovery of $350,604 was received from the Manitoba Opportunities Fund Ltd. for the expenses associated with the Business Settlement Office. In the current year, Treasury Board authorized the transfer of the Business Settlement Office expenses to the Corporation - PNP-B Program Administration.

8. Commitments

Commitments and undisbursed balances of approved loans and equity investments under Part II:

	2009	2008
Manitoba Industrial Opportunities Program	$ 26,162,759	$ 4,748,797
Manitoba Science & Technology Fund	719,897	754,297
Canterbury Park Capital	6,369,119	8,136,150
CentreStone Venture Fund Limited	2,374,374	2,947,650
Manitoba Capital Fund	353,334	353,334
	$ 35,979,483	$ 16,940,228

9. Growing Through Immigration Strategy Support

Funds transferred to support the Growing Through Immigration Strategy are made up of the following, as approved by the Treasury Board:

	2009	2008
Department of Labour and Immigration	$ 351,600	$ 383,800
Department of Competitiveness, Training and Trade	1,866,400	194,442
	$ 2,218,000	$ 578,242

10. Financial Instruments

The carrying amounts of PNP-B and Part I financial assets and liabilities are a reasonable estimate of the fair value because of the short-term maturity of those instruments. The carrying amount of Part II financial assets and liabilities approximate their fair value. In the absence of readily ascertainable market values, management has estimated that fair value would not differ materially from carrying value. Factors considered in this determination include underlying collateral, market conditions, financial data and projections of the borrowers. Because of the inherent uncertainty of valuation, the estimate of fair value may differ significantly from the values that would have been used had a ready market for the assets existed.

FINANCIAL STATEMENTS
MARCH 31, 2009

MANAGEMENT'S RESPONSIBILITY

To the Board of Directors of Manitoba Film and Sound Recording Development Corporation:

Management has the responsibility for preparing the accompanying financial statements and ensuring that information in the annual report is consistent with the statements. This responsibility includes selecting appropriate accounting principles and making objective judgments and estimates in accordance with Canadian generally accepted accounting principles.

In discharging its responsibility for the integrity and fairness of the financial statements, management designs and maintains the necessary accounting systems and related internal controls to provide reasonable assurance that transactions are authorized, assets are safeguarded and proper records are maintained.

The Board of Directors and the Finance and Planning Committee are composed entirely of directors who are neither management nor employees of the Organization. The Finance and Planning Committee also undertakes the responsibilities of an Audit Committee. The Finance and Planning Committee is appointed by the Board to review the financial statements in detail with management and to recommend them to the Board prior to their approval of the financial statements for publication.

External auditors are appointed to audit the financial statements and report directly to the Finance and Planning Committee; their report follows. The external auditors have full and free access to, and meet periodically and separately with, both the management and the Finance and Planning Committee to discuss their audit findings.

Carole Vivier

Carole Vivier, CEO

AUDITORS' REPORT

To the Board of Directors of
Manitoba Film and Sound Recording Development Corporation

We have audited the statement of financial position of Manitoba Film and Sound Recording Development Corporation as at March 31, 2009 and the statements of revenues and expenses and net assets and cash flows for the year then ended. These financial statements are the responsibility of the Organization's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Organization as at March 31, 2009 and the results of its operations and cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

NOTES TO FINANCIAL STATEMENTS

For the year ended March 31, 2009

1. NATURE OF BUSINESS

Manitoba Film and Sound Recording Development Corporation (the "Organization") is a statutory corporation created by the Province of Manitoba through The Manitoba Film and Sound Recording Development Corporation Act. The chief objective of the Organization is to foster growth of the Manitoba film and sound recording industries by providing financial and other assistance.

The Organization has been designated by the Minister of Finance to administer the Manitoba Film and Video Production Tax Credit Program, including registration of productions and review of tax credit applications.

2. CHANGE IN ACCOUNTING POLICIES

REVENUE RECOGNITION

The Organization receives funding from the Province of Manitoba. While the Province of Manitoba does not impose restrictions on how the funding is to be used, the Organization internally designates this funding to be used for specific purposes. Some of the funding received from the Province of Manitoba in a fiscal year does not get used until the following fiscal year.

In prior years, the Organization accounted for this unused funding as a liability. In the current year, the Organization changed its accounting policy and accounts for the unused funding as revenue with a corresponding amount recorded as internally restricted net assets. This change in accounting policy has been applied retrospectively and the prior year's financial statements have been restated. The effect of the change on the year ended March 31, 2008 is to increase internally restricted net assets by $41,500 and to decrease liabilities by $41,500.

CAPITAL DISCLOSURES

Effective April 1, 2008 the Organization adopted the Canadian Institute of Chartered Accountants' new recommendations for the disclosures about capital. Section 1535 Capital Disclosures establishes standards for disclosing what an entity regards as capital and an entity's objectives, policies and processes for managing its capital. The Section also prescribes disclosure regarding whether an entity has complied with any externally restricted imposed capital requirements, and if not, the consequences of such non-compliance.

The adoption of this new standard did not have a material impact on the Organization's financial statements.

3. SIGNIFICANT ACCOUNTING POLICIES

These financial statements are prepared in accordance with Canadian generally accepted accounting principles and include the following significant accounting policies:

EQUIPMENT

Equipment is recorded at cost. Amortization is provided using the straight-line method at rates intended to amortize the cost of the assets over their estimated useful lives. The annual rates are as follows:

Website	30%
Computer equipment	30%
Furniture	20%
Leasehold improvements	5%
Equipment	20%

PROGRAM FUNDING

The Organization provides grant funding to Manitoba companies and individuals in order to promote Manitoba's film and sound recording artists and industries. The grant may nominally take the form of equity financing from which, in the future, there may be a recovery of principal or return on investment.

REVENUE RECOGNITION

a) Program Recoupments

Any recovery of principal or return on investment of programs funded is recorded as program recoupment when received or reported by the applicant.

b) Province of Manitoba Funding

Province of Manitoba funding is based on the Province of Manitoba's annual allocation to the Organization and is recorded as revenue when received.

MEASUREMENT UNCERTAINTY

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

Accounts receivable are stated after evaluation as to their collectability and an appropriate allowance for doubtful accounts is provided where considered necessary. Amortization of equipment is provided based on the Organization's estimated useful lives of those assets.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

These estimates and assumptions are reviewed periodically and, as adjustments become necessary, they are reported in earnings in the periods in which they become known.

LONG-LIVED ASSETS

Long-lived assets consist of capital assets. Long-lived assets held for use are measured and amortized as described in the applicable accounting policies.

The Organization performs impairment testing on long-lived assets held for use whenever events or changes in circumstances indicate that the carrying value of an asset, or group of assets, may not be recoverable. Impairment losses are recognized when undiscounted future cash flows from its use and disposal are less than the asset's carrying amount. Impairment is measured as the amount by which the asset's carrying value exceeds its fair value. Any impairment is included in operations for the year.

FINANCIAL INSTRUMENTS

Held for trading:

The Organization has classified cash as held for trading. This instrument is initially recognized at fair value. Fair value is approximated by the instrument's initial cost in a transaction between unrelated parties.

Held for trading financial instruments are subsequently measured at their fair value. Net gains and losses arising from changes in fair value are recognized immediately in income.

Loans and receivables:

The Organization has classified accounts receivable as loans and receivables. These assets are initially recognized at their fair value. Fair value is approximated by the instrument's initial cost in a transaction between unrelated parties.

Loans and receivables are subsequently measured at their amortized cost, using the effective interest method. Amortized cost is the amount at which the financial asset is measured at initial recognition less any reduction for impairment or uncollectibility. Net gains and losses arising from changes in fair value are recognized in net income upon impairment.

Other financial liabilities:

The Organization has classified accounts payable as other financial liabilities. These liabilities are initially recorded at their fair value. Fair value is approximated by the instrument's initial cost in a transaction between unrelated parties.

Other financial liabilities are subsequently measured at amortized cost. Amortized cost is the amount at which the financial liability is measured at initial recognition less principal repayments. Net gains and losses arising from changes in fair value are recognized in net income upon derecognition.

Comprehensive income:

The Organization does not have any items giving rise to other comprehensive income, nor is there any accumulated balance of other comprehensive income. All gains and losses, including those arising from measurement of all financial instruments have been recognized in operations for the period.

Recent accounting pronouncements:

Financial Instrument Deferral of Section 3862 and 3863:

In December 2006, the Canadian Institute of Chartered Accountants (CICA) issued Section 3862 Financial Instruments – Disclosures and Section 3863 Financial Instruments – Presentation to replace Section 3861 Financial Instruments – Disclosure and Presentation. The effective date for these new Sections was for interim and annual financial statements with fiscal years beginning on or after October 1, 2007, with earlier adoption permitted. However, in light of the uncertainty regarding the future direction in setting standards for not-for-profit organizations, the CICA released a decision to allow deferral of Sections 3862 and 3863 for this sector. Not-for-profit organizations should continue to apply Section 3861 until interim and annual financial statements with fiscal years beginning on or after October 1, 2008.

Financial statement presentation by not-for-profit organizations

In September 2008, amendments were made to CICA Handbook Section 4400 Financial Statement Presentation by Not-for-profit Organizations. Amendments to the section included removal of the requirement to treat net assets invested in capital assets as a separate component of net assets, and, instead, permitting such an amount to be presented as a category of internally restricted net assets. In addition, the requirement to recognize and present revenues and expenses on a gross basis when a not-for-profit organization is acting as a principal in the transaction was clarified. Finally, guidance was included to reflect that Section 1540 Cash Flow Statements and Section 1751 Interim Financial Statements are applicable to not-for-profit organizations.

These amendments apply to interim and annual financial statements relating to fiscal years beginning on or after January 1, 2009. The Organization does not expect the changes to the standard to have a material impact on its financial statements.

CAPITAL ASSETS HELD BY NOT-FOR-PROFIT ORGANIZATIONS

CICA Handbook Section 4430 Capital Assets Held by Not-for-profit Organizations has been amended to provide additional guidance with respect to the appropriate use of the scope exemption for smaller entities that expense their capital assets. It was clarified that the exemption does not allow not-for-profit organizations to capitalize but not amortize their capital assets, nor does it allow different methods of accounting for various types of capital assets.

This amendment applies to interim and annual financial statements relating to fiscal years beginning on or after January 1, 2009. The Organization does not expect the change to this standard to have a material impact on its financial statements.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

DISCLOSURE OF ALLOCATED EXPENSES BY NOT-FOR-PROFIT ORGANIZATIONS

In September 2008, the Canadian Institute of Chartered Accountants issued new recommendations for disclosures regarding allocated expenses by not-for-profit organizations. CICA Handbook Section 4470 Disclosure of Allocated Expenses by Not-for-profit Organizations requires disclosure by not-for-profit organizations that allocate fundraising and general support expenses to other functions of the policies adopted for the allocation of such expenses among functions, the nature of the allocated expenses, and the basis on which allocations are made. The section also requires disclosure of the amounts allocated from each of its fundraising and general support functions and the amounts and functions to which they have been allocated.

This new Section is effective for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2009. The Organization does not expect this new standard to have a material impact on financial statements.

4. CASH

Cash on deposit earns monthly interest at the Chartered Bank's commercial rates. The Organization's internally restricted cash represents the carry-over commitments as described in Note 6 and the internally restricted net assets as described in Note 7.

5. CAPITAL ASSETS

	2009			2008
	Cost	Accumulated Amortization	Net Book Value	Net Book Value (restated)
Website/Database	$ 33,290	$ 24,752	$ 8,538	$ 13,661
Computer equipment	88,620	81,081	7,539	11,831
Furniture	55,363	50,700	4,663	1,014

Sound Recording – Out of Province Artists	27,500	5,000	32,500	**21,738**	
Record Product Marketing Fund	48,984	5,750	-	**54,734**	35,918
Recording Artist Touring Fund	23,713	-	-	**23,713**	6,239
Music Video Fund	7,779	2,400	-	**10,179**	16,500
Portfolio Investment Envelope	-	-	6,000	**6,000**	9,000
Market Access Fund	-	-	4,000	**4,000**	3,000
	$ 290,992	$ 28,650	$ 15,500	**$ 335,142**	$ 222,022
Total Commitments	$1,256,254	$ 174,301	$ 58,250	**$1,488,805**	$1,183,898

7. NET ASSETS

	Invested in capital assets	Internally restricted	Unrestricted	2009	2008 (restated)
Balance, beginning of year	$ 61,166	$ 41,500	$ 617,350	**$ 720,016**	$ 484,821
Change in accounting policy	-	-	-	-	41,500
Excess (deficiency) of revenues over expenses	(18,644)	86,290	(105,004)	**(37,358)**	193,695
Investment in capital assets	94,803	-	(94,883)	-	-
Balance, end of year	$ 137,405	$ 127,790	$ 417,463	**$ 682,658**	$ 720,016

Internally restricted assets are comprised of funding for activities of the Organization received from the Province of Manitoba. Of the total amount, $21,500 (2008–$21,500) has been directed to the Sound Portfolio Investment Envelope Program, $20,000 (2008–$20,000) to the Film Portfolio Investment Envelope Program and $86,290 (2008–$0) to the Film Production Funds.

8. INDUSTRY SUPPORT

The Organization indirectly supports the on-going development of creative talent, business skills and capacity building of various film, television and sound recording professionals by providing funding for specific programming administered by MARIA, On Screen Manitoba, the National Screen Institute Canada and the Winnipeg Film Group. Programs supported include the Aboriginal Music Program, Features First, Drama Prize, Totally Television, Global Marketing, New Voices, NSI Storytellers, Post-Production and Marketing funds.

9. LEASE COMMITMENTS

The Organization occupies leased premises subject to minimum monthly rent of $5,196 until August 2013 plus various equipment leases with quarterly payments until September 2014. Future minimum annual payments as are follows:

2010	89,774
2011	94,970
2012	89,774
2013	94,970
2014	53,400
2015	8,745

10. PROGRAM DELIVERY

Program delivery also includes the expenses associated with the delivery of the Manitoba Film & Video Production Tax Credit Program (MTC). While the value of the MTC does not flow through the Organization, the management of it does and is therefore determined to be worth noting. A total of 109 applications were received for processing during the 2009 fiscal year (2008 – 110), representing in excess of $205 million worth of production activity (2008–$195 million). Production activity includes projects which took place in current and prior years. The tax credits are subject to approval by the Province of Manitoba. The cost to administer the Program in the fiscal year was approximately $59,000.

11. ECONOMIC DEPENDENCE

The Organization's primary source of income is derived from the Province of Manitoba in the form of an operating grant.

12. CAPITAL MANAGEMENT

The Organization's objective when managing capital is to safeguard the entity's ability to continue as a going concern, so that it can continue to provide financial and other assistance to its members.

The Organization sets the amount of capital in proportion to risk and manages the capital structure and makes adjustments to it in light of changes to economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Organization may decrease expenses or seek other sources of funding.

The Organization manages the following as capital:

	2009	2008
		(restated)
Invested in capital assets	$ **137,405**	$ 61,166
Internally restricted net assets	**127,790**	41,150
Unrestricted net assets	**417,463**	617,350
	$ **682,658**	$ 720,016

The Organization monitors capital on a quarterly basis, as well as annually, including the Board's input as to the capital management approach to take.

13. COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform to current year's financial statement presentation.

AUDITORS' REPORT

To the Minister of Finance of the
Province of Manitoba and the Directors of the
Manitoba Floodway Authority

We have audited the balance sheet of the **Manitoba Floodway Authority** as at March 31, 2009 and the statements of operations and cash flows for the year then ended. These financial statements are the responsibility of the management of the Authority. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Authority as at March 31, 2009 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

(see accompanying notes and schedules to the financial statements)

Manitoba Floodway Authority
Notes to the Financial Statements
For the Year ended March 31, 2009

Note 1 - Nature of Operations

The Manitoba Floodway Authority Act was proclaimed into effect on November 1, 2004. The Act established a crown corporation, the Manitoba Floodway Authority (MFA) and dissolved the Manitoba Floodway Expansion Authority Inc. (MFEA) which had been incorporated October 3, 2003. The one outstanding share of the MFEA was redeemed upon dissolution for $1. The purpose of the Authority is to assume the existing operations of the MFEA and to act as the agent of the Manitoba Government in the construction and maintenance of the Red River Floodway.

The Government of Manitoba has introduced legislation that would enable the MFA to oversee construction of an all-season road on the east side of Lake Winnipeg. The proposed legislation would formally expand the MFA's mandate to assume responsibility for the East Side Transportation Initiative. The initiative includes construction of a 170-kilometre, all-season road from PR 304 near Manigotagan to Bloodvein First Nation and through to Berens River First Nation. The initiative also includes a study to examine potential transportation infrastructure improvements for the remainder of the entire region.

Note 2 - Significant Accounting Policies

The financial statements have been prepared in accordance with Canadian generally accepted accounting principles.

Capital Assets

Purchased capital assets in excess of $10,000 are recorded at cost and are amortized on a straight line basis according to their estimated useful life. Purchases under $10,000 are expensed in the year of purchase. The Authority follows the same capital asset policy as the Province of Manitoba.

Pension Plan

In accordance with the provisions of The Civil Service Superannuation Act (Act), employees of the Authority are eligible for pension benefits in accordance with the Civil Service Superannuation Act. Plan members are required to contribute to the Civil Service Superannuation Fund (Fund) at prescribed rates for defined benefits and will receive benefits based on the lengths of services and on the average of annualized earnings calculated on the best five years prior to retirement, termination or death that provides the highest earnings. The Authority is required to make contributions equal to the amounts contributed to the Fund by the employees. Under this Act, the Authority has no further pension liability. Contributions during the year amounted to $101,240 (2008 - $106,520).

Accounting Estimates

The preparation of financial statements in accordance with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenue and expenditures recorded in the period, and the disclosure of contingencies at the date of the financial statements. Actual results could differ from those estimates.

Financial Instruments

Financial instruments include funds on deposit with the Minister of Finance, amounts due to/from the Province of Manitoba, accounts payable and accrued liabilities. It is management's opinion that the Authority is not exposed to significant interest, currency or credit risks arising from these financial instruments. The book value of the Authority's financial assets and liabilities approximates their fair value.

Note 3 - Working Capital Advance and Due to the Province of Manitoba

a) Working Capital Advance

The Manitoba Floodway Authority is included under the provision of Manitoba's Loan Act Authority. Advances from the Province of Manitoba bear interest at rates established by the Minister of Finance. The advances are repayable on demand at the option of the Lieutenant Governor in Council. A maximum line of credit of $5 million has been established. At March 31, 2009, there were no advances outstanding.

b) Due to/from the Province of Manitoba

In addition, the Authority may receive interest bearing advances of approved funding from the Province of Manitoba at rates established by the Minister of Finance. At March 31, 2009, $2,034,944 was payable to the Province of Manitoba (2008 - $4,920,408 receivable from the Province of Manitoba).

Note 4 - Capital Assets Constructed on behalf of the Province of Manitoba

As an agent of the Province of Manitoba, capital expenditures incurred and transferred to the Province of Manitoba during 2009 and 2008 are as follows:

	2009	**2008**
Administration	$ 3,540,393	$ 3,478,215
Aqueduct Modifications	-	95,708
Contract Administration	7,461,983	8,508,403
Environmental Mitigation	1,184,691	2,915,351
Final Design	2,262,962	2,425,720
Floodway Channel	21,040,670	52,360,025
Inlet Structure	3,013,562	6,225,555
Insurance	389,131	134,720
Interest	1,124,082	1,195,275
Land	689,551	333,018
Miscellaneous Drainage Structures	-	818,928
Outlet Structure	25,405,545	10,718,557
Railway Bridges	35,210,982	27,899,018
Roadway Bridges	708,838	9,874,930
Seine River Siphon	34,745	-
Utility Relocations	984,122	4,697,705
West Dike	10,700,368	18,264,081
Total	**$113,751,625**	**$149,945,209**

Note 5 - Transactions related to Operations and Capital

The Province of Manitoba has a shared cost agreement with the Government of Canada for both capital and operating expenditures related to the Red River floodway expansion project. All eligible costs are shared equally. The Authority receives its funding from the Province of Manitoba. Claims under the shared cost agreement are submitted by the Authority on behalf of the Province of Manitoba with funds received from the Government of Canada recorded in the Operating Fund of the Province of Manitoba.

Government transfers from the Government of Canada under this shared cost agreement in the amount of $55,084,547 (2008 - $73,850,682) are recorded as revenue in the Operating Fund of the Province of Manitoba.

Grants from the Province of Manitoba of $462,226 (2008 - $475,337) related to operating expenses were reflected in the operations of the Authority. In addition, $422,969 (2008 - $399,528) of operating grants were received as government transfers under the shared cost agreement and were recorded as revenue of the Authority.

Note 6 – Contractual Obligations

As an agent of the Province of Manitoba, the Authority has entered into various contracts in the stages of the Floodway expansion project. Contractual obligations relating to the project total $45,855,971 at March 31, 2009 (2008 - $83,429,659).

Contractual obligations for the lease of office space to the Province of Manitoba Department of Transportation and Government Services for the next year is as follows:

2010	$ 152,930

Note 7 - Economic Dependence

The Authority is economically dependent on funding received from the Province of Manitoba.

Note 8 – Public Sector Compensation Disclosure

For the purpose of the Public Sector Compensation Disclosure Act, all compensation for employees is disclosed in a separate audited statement available on request.

Note 9 - Contingencies

Two individual accident claims are pending filing against the Authority. As the outcome of these matters are not determinable and amounts cannot be reasonably estimated at this time, liabilities have not been recorded in the financial statements.

Note: Due to changes in public sector accounting standards in 2007, applied on a prospective basis, Federal contributions are no longer netted against the cost of the assets.

Management Report

The Management of the Manitoba Gaming Control Commission (MGCC) is responsible for the integrity, objectivity and reliability of the financial statements, accompanying notes and other financial information that it has prepared for this report.

Management maintains internal control systems to ensure that transactions are accurately recorded in accordance with established policies and procedures. In addition, certain best estimates and judgments are made based on a careful assessment of the available data.

The financial statements and accompanying notes are examined by Manitoba's Office of the Auditor General (OAG), whose opinion is included herein. The OAG has access to the Board of Commissioners, with or without Management present, to discuss the results of their audit and the quality of financial reporting at the MGCC.

OFFICE OF THE
AUDITOR GENERAL
MANITOBA

AUDITORS' REPORT

To the Legislative Assembly of Manitoba, and
To the Board of Commissioners of the Manitoba Gaming Control Commission:

We have audited the balance sheet of the Manitoba Gaming Control Commission as at March 31, 2009, and the statements of operations and surplus and cash flows for the year then ended. These financial statements are the responsibility of the Commission's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Manitoba Gaming Control Commission as at March 31, 2009, and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Manitoba Gaming Control Commission

Notes to Financial Statements

FOR THE YEAR ENDED MARCH 31, 2009

1 Nature of Business

The Manitoba Gaming Control Commission (MGCC) was established by The Gaming Control Act. The organization's objectives are to regulate and control gaming activity in the province with the aims of ensuring that gaming activity is conducted honestly, with integrity and in the public interest. The organization began its operations on October 20, 1997.

2 Change in Accounting Policies.

Effective April 1, 2008, the MGCC adopted the following new handbook sections issued by the Canadian Institute of Chartered Accountants (CICA):

SECTION 1535 CAPITAL DISCLOSURE

Section 1535 establishes standards for disclosing information about an entity's capital and how it is managed. These standards require an entity to disclose its objectives, policies and processes for managing capital, a summary of quantitative data about what it manages as capital and whether it complied with any externally imposed capital requirements to which it is subject and, if not, the consequences of such non-compliance. (See Note 3e)

SECTION 3862 FINANCIAL INSTRUMENTS – DISCLOSURE

Section 3862 modifies the disclosure requirements for financial instruments that were included in Section 3861, Financial Instruments – Disclosures and Presentation. The new standards require an entity to provide disclosures in its financial statements that enable users to evaluate the significance of financial instruments on its financial position and performance, the nature and extent of the risks to which it is exposed during the period and at the balance sheet date, and how those risks are managed.

SECTION 3863 FINANCIAL INSTRUMENTS – PRESENTATION

Section 3863 carries forward the presentation requirements of Section 3861, Financial Instruments – Disclosure and Presentation, unchanged.

The above noted new standards have no impact on the recognition, measurement or presentation of financial instruments in the MGCC's year-end financial statements.

3 Significant Accounting Policies

A. GENERAL

These financial statements have been prepared in accordance with Canadian Generally Accepted Accounting Principles (GAAP).

B. USE OF ESTIMATES

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingencies at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

C. CAPITAL ASSETS

Capital assets are stated at cost less accumulated amortization. Amortization based on the estimated useful life of the asset is calculated as follows:

Equipment	20% declining balance basis
Furniture and fixtures	10% declining balance basis
Computer equipment	30% declining balance basis
Leasehold improvements	Straight-line method over remaining term of lease (82 months)

D. REVENUE RECOGNITION

Revenue and expenses are recorded on an accrual basis except for license and supplier registration fees, which are recognized on a cash receipt basis.

E. CAPITAL DISCLOSURES

In the context of the MGCC, capital is defined as the surplus of the MGCC. Externally-imposed capital requirements relate to the administration of the MGCC in accordance with The Gaming Control Act and accompanying regulations. The MGCC has developed appropriate risk management strategies, as described in note 4, to preserve the surplus of the MGCC. The MGCC has complied with externally-imposed capital requirements during the year.

4 Financial Instruments and Financial Risk Management

Financial assets and liabilities are initially recorded at fair value. Measurement in subsequent periods depends on the financial instrument's classification. Financial instruments are classified into one of the following five categories: held for trading; available for sale; held to maturity; loans and receivables; and other financial liabilities. All financial instruments classified as held for trading or available for sale are subsequently measured at fair value with any change in fair value recorded in net earnings and other comprehensive income, respectively. All other financial instruments are subsequently measured at amortized cost.

The financial assets and liabilities of MGCC are classified and measured as follows:

Financial Asset/Liability	Category	Subsequent Measurement
Cash and Short Term Investments	Held for trading	Fair value
Long Term Investment	Held for trading	Fair value
Accounts receivable	Loans and receivables	Amortized cost
Accounts payable	Other financial liabilities	Amortized cost
Accrued liabilities	Other financial liabilities	Amortized cost

Amortized cost is determined using the effective interest rate method.

Gains and losses on financial instruments subsequently measured at amortized cost are recognized in the statement of operations and surplus in the period the gain or loss occurs. Changes in fair value on financial instruments classified as held for trading are recognized in the statement of operations and surplus for the current period. Changes in fair value on financial instruments classified as available for sale would be recorded in a statement of changes in net assets or other comprehensive income until realized, at which time they recorded in the statement of operations and surplus.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair values of accounts receivable, receivable from the Province of Manitoba, accounts payable and accrued liabilities approximates their carrying values due to their short-term maturity.

The fair values of financial assets and liabilities, together with the carrying amounts shown in the Balance Sheet are as follows:

	2009		2008	
	Carrying Value	Fair Amount	Carrying Value	Fair Amount
Financial Asset/Liability				
Cash and STI	$ 1,176,816	$ 1,176,816	$ 3,160,768	$ 3,160,768
Accounts receivable	60,221	60,221	33,134	33,134
Long Term Investment	146,079	146,079		
Receivable from the Province of Manitoba			146,079	146,079
Accounts payable	116,062	116,062	51,953	51,953
Accrued liabilities	431,721	431,721	408,122	408,122

FINANCIAL RISK MANAGEMENT - OVERVIEW

The MGCC has exposure to the following risks from its use of financial instruments:

- credit risk;
- liquidity risk
- market risk
- interest risk; and
- foreign currency risk

The MGCC manages its exposure to risks associated with financial instruments that have the potential to affect its operating performance in accordance with its risk management framework. The MGCC's Board of Commissioners has overall responsibility for the establishment and oversight of the MGCC's objectives, policies and procedures for measuring, monitoring and managing these risks.

The MGCC has exposure to the following risks associated with its financial instruments. Analysis of sensitivity to specified risks is provided where there may be an effect on the results of operations or financial position. Sensitivity analysis is performed by relating the reasonably possible changes in risk variables as at March 31, 2009 to the financial instruments outstanding on that date.

CREDIT RISK

Credit risk is the risk that one party to a financial instrument fails to discharge an obligation and causes financial loss to another party. Financial instruments which potentially subject MGCC to credit risk consist principally of cash, short term investments and accounts receivable.

The maximum exposure of MGCC to credit risk at March 31, 2009 is:

Cash and Short Term Investments	$1,176,816
Accounts receivable	60,221
Long Term Investment	146,079
	$1,383,116

Cash and funds on deposits: MGCC is not exposed to significant credit risk as the cash, short term investments and long term investments are held by the Minister of Finance.

Accounts receivable: MGCC is not exposed to significant credit risk as license and registration fees from charities, Manitoba Lotteries Corporation (MLC), First Nations casinos, and suppliers are typically collected when they are due. Employee advances are collected upon retirement. Other trade receivables are not typical and have been collected subsequent to year end. As such, no specific allowance for doubtful accounts has been created as the potential for any receivable impairment is negligible.

LIQUIDITY RISK

Liquidity risk is the risk that MGCC will not be able to meet its financial obligations as they come due.

MGCC manages liquidity risk by maintaining adequate cash balances and by appropriately utilizing working capital advances if required. MGCC prepares and monitors detailed forecasts of cash flows from operations and anticipated investing and financing activities. Identified funding requirements are requested, reviewed and approved by the Minister of Finance to ensure adequate funding will be received to meet the obligations. MGCC continuously monitors and reviews both actual and forecasted cash flows through periodic financial reporting.

MARKET RISK

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect MGCC's income or the fair values of its financial instruments. The significant market risks MGCC is exposed to are: interest rate risk; foreign currency risk; and other price risk.

INTEREST RATE RISK

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The interest rate exposure relates to short term investments and long term debt.

The interest rate risk on short term investments is considered to be low because of their short-term nature.

FOREIGN CURRENCY RISK

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. MGCC is not exposed to significant foreign currency risk as it does not have any financial instruments denominated in foreign currency.

5 Accounts Receivable

	2009	2008
Charitable Licensees	$ 1,318	$ 34
Manitoba Lotteries Corporation	17,450	16,950
First Nations Casinos	3,600	2,100
Employee Advances	9,819	11,917
Supplier Investigations	2,777	2,133
Other trades	25,257	0
	$ 60,221	$ 33,134

6 Capital Assets

2009	Cost	Accumulated Amortization	Net Book Value
Equipment	$ 62,740	$ 51,282	$ 11,458
Furniture and fixtures	403,713	226,619	177,094
Computer equipment	994,775	854,486	140,289
Leasehold Improvements	57,318	699	56,619
	$ 1,518,546	$ 1,133,086	$ 385,460

2008	Cost	Accumulated Amortization	Net Book Value
Equipment	$ 67,270	$ 56,219	$ 11,051
Furniture and fixtures	398,712	207,434	191,278
Computer equipment	1,008,612	821,489	187,123
	$ 1,474,594	$ 1,085,142	$ 389,452

7 Deferred Revenue

Deferred revenue is no longer recorded as the annual registration fee period for video lottery terminals, lottery ticket terminals, and electronic gaming machines is now April 1 to March 31. MGCC now receives payment for these registration fees in April of each fiscal year. Previously, the annual registration fee period was November to October. Deferred revenue consisted of registration fees received which was recognized as revenue in the year in which the related expenses were incurred.

8 Long Term Investment - Provision for Employee Severance Benefits

Effective April 1, 1998, the Commission commenced recording the estimated liability for accumulated severance pay benefits for certain of its employees. During the last collective bargaining session it was negotiated that effective April 1, 2007 all employees would be eligible for severance pay benefits. The amount of this estimated liability is determined using the annual actuarial report of severance obligations as at March 31, 2009.

Severance pay, at the employee's date of retirement, will be determined using the eligible employee's years of service and based on the calculation as set by the Province of Manitoba. The maximum payout is currently 17 weeks at the employee's weekly salary at the date of retirement. Eligibility will require that the employee has achieved a minimum of nine years of service and that the employee is retiring from the Commission.

An actuarial report was completed for the severance pay liability as of March 31, 2009. The Commission's actuarially determined net liability for accounting purposes as at March 31, 2009 was $538,793 (2008 - $487,562). An actuarial gain of $11,245 will be amortized over the 15 year expected average remaining service life of the employee group.

Significant long-term actuarial assumptions used in the March 31, 2009 Valuation and in the determination of the March 31, 2009 present value of the accrued severance benefit obligation were:

Annual rate of return	
(i) inflation component	2.50%
(ii) real rate of return	4.00%
	6.50%

Annual salary escalation rates	
(i) general increases	
a) salary increase	2.50%
b) real rate	0.75%
	3.25%

The Province of Manitoba had accepted responsibility for the severance pay benefits of $146,079 accumulated to March 31, 1998 for certain of its employees. Effective March 31, 2009 the Province of Manitoba placed the amount of $146,079 into an interest bearing trust account to be held on the Commission's behalf until the cash is required to discharge the related liabilities.

9 Deferred Lease Inducements

The organization received lease inducements in the form of a rent-free period of approximately ten months. The benefits arising from these lease inducements were amortized over the term of the lease on a straight line basis as reductions of rental expense. Rental expense has been reduced by $0 for the period ending March 31, 2009 ($6,125 in 2008). The inducement has now been fully depleted.

10 Commitments

The organization has an operating lease for its premises expiring in 2016.

The minimum annual lease payment for the next five years is:

2010	266,076
2011	272,855
2012	281,329
2013	291,497
2014	291,497

11 Economic Dependence

A substantial portion of the organization's total revenue is derived from Manitoba Lotteries Corporation in the form of registration fees. The Manitoba Lotteries Corporation is related to the Commission through common ownership by the Province of Manitoba. The registration fees are recorded at the amount prescribed by MGCC regulation.

12 Pension Plans

Effective April 1, 2005, all employees are members of the Province of Manitoba's defined benefit Superannuation Fund ("the Fund").

In accordance with the provisions of the Civil Service Superannuation Act (Act), employees of the Commission are eligible for pension benefits. Plan members are required to contribute to the Fund at prescribed rates for defined benefits and will receive benefits based on the length of service and on the average of annualized earnings calculated on the best five years prior to retirement, termination or death that provides the highest earnings. The Commission is required to match contributions contributed to the Fund by the employees at prescribed rates, which is recorded as an operating expense. Under this Act, the Commission has no further pension liability.

The Commission's portion of contributions to the Fund is recognized as an operating expense in the period of contribution. Total contributions for the year are $184,790. Contributions for the 2008 year were $165,865.

For employees whose annual earnings exceed the limit under the Fund, a pension liability is established. Based on the triennial actuarial report of pension obligations as at March 31, 2009, a reserve of $52,751 has been established as a pension liability for these employees. Actuarial gains and losses are recognized in income immediately. Significant long-term actuarial assumptions used in the March 31, 2008 Valuation and in the determination of the March 31, 2009 present value of the accrued basic pension benefit obligations were:

Annual rate of return	
(iii) inflation component	2.50%
(iv) real rate of return	4.00%
	6.50%
Annual salary escalation rates	
(ii) general increases	
c) salary increase	3.25%
d) productivity component	0.75%
	4.00%

13 Working Capital Advance

The Minister of Finance, with Lieutenant-Governor-in-Council approval by Orders in Council (341/1997) has arranged for working capital advances to be available to the Commission. The aggregate of the outstanding advances is not to exceed $2,000,000 (2008 $2,000,000). As at March 31, 2009 $2,000,000 (2008 $2,000,000) of these advances were unused and available.

14 Comparative Figures

Certain comparative figures have been restated to conform with the financial statement presentation adopted in the current year.

Responsibility for Financial Reporting

The Manitoba Habitat Heritage Corporation

The management of the Manitoba Habitat Heritage Corporation is responsible for the integrity, objectivity and reliability of the financial statements, accompanying notes and other financial information in the annual report.

Management maintains internal control systems to ensure that transactions are accurately recorded in accordance with established policies and procedures. In management's opinion, the financial statements have been properly prepared and out of necessity, include some amounts based upon management's best estimate and judgments up to May 27, 2009.

The responsibility of the Auditor General and staff is to express an independent opinion on whether the financial statements are fairly presented in accordance with Canadian generally accepted accounting principles. The auditors' report outlines the scope of the auditors' examination and provides the audit opinion.

Acting Chief Executive Officer

Manager of Financial Services

May 27, 2009

OFFICE OF THE
AUDITOR GENERAL
MANITOBA

AUDITORS' REPORT

To the Legislative Assembly of Manitoba, and
To the Board of Directors of the Manitoba Habitat Heritage Corporation

We have audited the statement of financial position of The Manitoba Habitat Heritage Corporation as at March 31, 2009 and the statements of operations and changes in fund balances and cash flows for the year then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 2009 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

	$618,139	$217,767	$478,764		$1,314,670	$696,751

The accompanying notes are an integral part of these financial statements.

1. Nature of Organization

The Manitoba Habitat Heritage Corporation (hereinafter called "the Corporation") was established in 1986 as a Crown Corporation under *The Manitoba Habitat Heritage Act*. The objectives of the Corporation are the conservation, restoration and enhancement of Manitoba fish and wildlife habitat and the associated fish and wildlife populations. Donations to the Corporation are tax deductible by the donor pursuant to *The Income Tax Act*, as gifts to Her Majesty. The Corporation is involved in the following initiatives:

a) The North American Waterfowl Management Plan (NAWMP)

Under Order-in-Council 634/89, the Corporation is authorized to be the Provincial agency responsible for coordinating the delivery of the North American Waterfowl Management Plan in Manitoba.

b) The Riparian Program (RP)

In January, 1994, the Board of Directors of the Corporation directed staff to develop a strategy to deal with protection, restoration and enhancement of riparian habitat in agro-Manitoba. In fiscal year 2002/03, the name of the program was changed from Green Banks to the Riparian Stewardship Program. In 2006/07 it was changed to the Riparian Program to reflect the broadening of the program activities.

A management fee is charged by the Corporation for services provided by NAWMP to this program.

2. Significant Accounting Policies

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles. The significant accounting policies are:

a) Revenue Recognition

The Corporation follows the deferral method of accounting for contributions. Restricted contributions are recognized as revenue of the appropriate fund in the year in which the related expenses are incurred. Restricted contributions relating to land and land use rights, which are not amortized, are accounted for as increases in the Capital Assets Fund balance when the capital asset is purchased. Unrestricted contributions are recognized as revenue of the appropriate fund when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Management fees are recognized as revenue in the year the service is provided.

2. Significant Accounting Policies (continued)

b) Capital Assets

The Capital Assets Fund reports the Corporation's capital assets and related amortization expenses.

Purchased capital assets are recorded at cost and donated capital assets are recorded at fair market value at the date the asset is donated.

Amortization of capital assets is recorded on a straight-line basis over the estimated useful lives of the capital assets at the rates indicated below.

Computer hardware	-	20%
Computer software	-	33%
Equipment	-	10%
Furniture and fixtures	-	10%

c) Contributed Services

Services had been contributed by the Province of Manitoba's Department of Water Stewardship, Ecological Services Division to the Corporation up until July 4, 2008 with the retirement of long time CEO, Lorne Colpitts. Contributed services are recorded at cost, which is fair value.

d) Use of Estimates

In preparing the Corporation's financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates.

Accounts receivable are stated after evaluation as to their collectibility and an appropriate allowance for doubtful accounts is provided where considered necessary. Amortization is based on the estimated useful lives of capital assets. These estimates and assumptions are reviewed periodically and, as adjustments become necessary, they are reported in earnings in the periods in which they become known.

e) Financial Instruments - Recognition and Measurement

Section 3855 prescribes the criteria for recognition and presentation of financial instruments on the statement of financial position and the measurement of financial instruments according to prescribed classifications. Under this section, financial assets and liabilities are initially recorded at fair value. This section also addresses how financial instruments are measured subsequent to initial recognition and how the gains and losses are recognized.

2. Significant Accounting Policies (continued)

The Corporation is required to designate its financial instruments into one of the following five categories: held for trading; available for sale; held to maturity; loans and receivables; and other financial liabilities. All financial instruments classified as held for trading or available for sale are subsequently measured at fair value with any change in fair value recorded in net earnings and fund balances, respectively. All other financial instruments are subsequently measured at amortized cost.

The Corporation has designated its financial instruments as follows:

Cash is classified as a financial asset held for trading and is measured at fair value with gains and losses recognized in net earnings. This financial asset is recorded at a carrying value that approximates its fair value.

Funds on Deposit with Province of Manitoba are classified as held to maturity. These financial assets are recorded at their amortized cost using the effective interest rate method.

Accounts receivable are classified as loans and receivables. These financial assets are recorded at their amortized cost using the effective interest rate method.

Accounts payable and accrued liabilities are classified as other financial liabilities. These financial liabilities are recorded at their amortized cost using the effective interest rate method.

The fair value of Funds on Deposit with Province of Manitoba, accounts receivable, accounts payable and accrued liabilities approximates their carrying values due to their short-term maturity and the fact the majority of these instruments are associated with government entities.

Management of Risk:

The Corporation's financial instruments consist of cash, Funds on Deposit with Province of Manitoba, accounts receivable, accounts payable and accrued liabilities.

Unless otherwise noted, it is management's opinion that the entity is not exposed to significant interest, currency or credit risk arising from these financial instruments.

2. Significant Accounting Policies (continued)

f) Capital Disclosures

The Corporation's objective when managing capital is to maintain sufficient capital to cover its costs of operations and to draw on the maximum funds available for environmental projects which fall under its mandate. Capital consists of the unrestricted net assets in the amount of $695,419 (2008 $512,744) and externally restricted funds recorded as Deferred Contributions (see notes 5 and 6). All externally restricted capital must be disbursed on predetermined expenses outlined by the funder or returned to the funder within a specified time period. There were no changes in the Corporation's approach to capital management during the period.

3. New Accounting Policies

a) Section 1535 Capital Disclosures

Effective April 1, 2008, MHHC adopted CICA Section 1535 Capital Disclosures which establishes standards for disclosing information about an entity's capital and how it is managed. These standards require an entity to disclose its objectives, polices and processes for managing capital, a summary of quantitative data about what it manages as capital and whether it complied with any externally-imposed capital requirements to which it is subject and if not, the consequences of such non-compliance. This new section requires additional disclosure in the financial statements.

b) Sections 3862 and 3863 Financial Instruments

The CICA has issued two new standards , CICA 3862: Financial Instruments – Disclosures and CICA 3863:Financial Instruments – Presentation, which enhance the abilities of users of financial statements to evaluate the significance of financial instruments to an entity, related exposures and the management of these risks. CICA eliminated the requirement for not-for-profit entities to adopt these sections. The Corporation has continued to apply Section 3861: Financial Instruments-Disclosure and Presentation in place of sections 3862 and 3863.

4. Funds on Deposit with Province of Manitoba

Funds on deposit with the Province of Manitoba will mature between April 27, 2009, and May 13, 2009, yielding 0.7% and 0.55% respectively.

Notes to Financial Statements
March 31, 2009

5. Deferred Contributions Related to Operations

Deferred contributions reported in the respective funds relate to restricted funding received in the current period that is related to expenses of future periods.

Changes in the deferred contributions balance reported in the respective funds are as follows:

	NAWMP	RP	2009 Total	2008 Total
Balance, beginning of year		$268,514	$268,514	$237,107
Less: revenue recognized in the year		(137,429)	(137,429)	(91,993)
Add: revenue received related to the following year	$323,010	60,000	383,010	123,400
Balance, end of year	$323,010	$191,085	$514,095	$268,514

NAWMP Program

$188,010.00 was received from the Province of Manitoba for the delivery and habitat securement costs of the Wetland Restoration Incentive Program (WRIP). $135,000 was also received from the Province of Manitoba to compensate for the additional salary and related expenses to support the Chief Executive Officer position which has now become the financial responsibility of the Corporation. This grant is to be applied in the 2009/10 fiscal year.

Riparian Program

The balance of $67,107, originating from the Manitoba Rural Adaptation Council, is restricted for riparian conservation and enhancement activities. The balance of $14,456 is restricted to the Watershed Management Planning Program. The remainder of $109,522 is restricted for the delivery of riparian easements.

6. Deferred Contributions Related to Capital Assets

Deferred contributions reported in the Capital Assets Fund represent restricted contributions received with which land and land use rights will be purchased. When the land and land use rights are purchased the related restricted contributions will be transferred from deferred contributions related to capital assets to the Capital Assets Fund balance.

Changes in the deferred contributions balance in the Capital Assets Fund are as follows:

	NAWMP	RP	2009 Total	2008 Total
Balance, beginning of year	$210,102	$311,429	$521,531	$314,125
Add: Contributions received	84,123	140,000	224,123	275,255
Add: Interest Earned				5,186
Less: Amounts transferred to fund balance	(156,669)	(44,081)	(200,750)	(73,035)
Balance, end of year	$137,556	$407,348	$544,904	$521,531

The balance of $544,904 is restricted to signed conservation agreements (land use rights) with landowners, and staff time to complete the projects.

The contributions received in 2009 totalled $224,123 consisting of, $140,000 from the Province of Manitoba, $15,600 from the Turtle Mountain Conservation District, $29,673 from the R.M. of Riverside and $38,850 from Wildlife Habitat Canada. In comparison the contributions received in 2008 included, $228,445 from the Province of Manitoba, and $46,810 from the Turtle Mountain Conservation District.

7. Capital Assets

	Cost	Accumulated Amortization	Net Book Value	
			2009	2008
Land and land use rights	$8,208,854		$8,208,854	$7,081,203
Computer hardware	235,083	$191,452	43,631	53,641
Computer software	74,843	58,565	16,278	15,199
Equipment	122,024	67,562	54,462	36,005
Furniture and fixtures	59,911	56,584	3,327	3,483
Total capital assets	$8,700,715	$374,163	$8,326,552	$7,189,531

Purchases of capital assets in the period are as follows:

	2009	2008
Land and land use rights	$1,127,651	$862,624
Computer hardware	7,960	18,421
Computer software	9,543	8,412
Equipment	23,699	3,135
Furniture and fixtures	3,115	
	$1,171,968	$892,592

The sources of funding for land and land use rights are as follows:

	2009	2008
Environment Canada	$398,850	$298,980
Delta Waterfowl Foundation / U.S. Fish & Wildlife	335,021	356,911
Ducks Unlimited Canada	158,103	
Manitoba Water Stewardship	44,081	54,938
Manitoba Infrastructure and Transportation	67,706	
Manitoba Conservation Districts	2,740	23,310
Manitoba Conservation		340
Wildlife Habitat Canada	61,150	99,445
Donations	60,000	28,700
	$1,127,651	$862,624

8. Interfund Transfers

In 2009, $44,317 was transferred from the NAWMP operating funds to the Capital Asset Fund in order to fund the cash outlays for capital asset acquisitions. In 2008 $30,308 was transferred from NAWMP for the same purpose. No money was transferred from the RP operating funds for capital purchases in either fiscal year.

9. Operational Commitments

a) The Corporation leases space under existing leases for six NAWMP offices. The minimum annual lease payments for the next four years are as follows:

2010	$61,250
2011	$50,270
2012	$49,070
2013	$36,803

b) The Corporation leases vehicles and office equipment under NAWMP. The minimum annual lease payments for the next three years are as follows:

2010	$7,478
2011	$5,085
2012	$5,085

10. Capital Commitments

At March 31, 2009, the NAWMP and RP had signed several commitments to purchase conservation agreements. These conservation agreements (CAs) are to be paid out upon filing of the caveats associated with each CA in the 2010 fiscal year. These commitments to March 31, 2009 totalled approximately $28,043, however, $128,492 worth of CAs negotiated in 2009 were signed in the month of April increasing the total commitments in the 2010 fiscal year to $156,535. (2008 - $238,532)

11. Group Registered Pension Plan (RPP) Employee Benefits

Under the terms of the Corporation's RPP program, employee contributions to RPP's are matched by the Corporation on a current basis. As a result, the Corporation has no future pension benefit liability to employees. The amounts paid by the Corporation in 2009 were $22,317 (2008 - $22,194). All funds contributed to the RPP are paid to and administered by Manulife Financial.

12. Trust Assets and Liabilities

The Corporation holds assets in trust as follows:

	2009	2008
Cash and Funds on Deposit with Province of Manitoba	$488,107	$667,374
Land	593,280	593,280
	$1,081,387	$1,260,654

Details relating to the parties involved and the assets held are included in notes (a) to (e) which follow.

a) The Critical Wildlife Habitat Program (CWHP)

The Corporation provides support to the Wildlife and Ecosystem Protection Branch of Manitoba Conservation for the CWHP.

The Corporation holds title, in trust, to a portfolio of land and provides banking and financial services for CWHP funds held in trust. A management fee is allowed, under the agreement, to be charged by the Corporation to the CWHP for these services. Disbursements, from the funds held in trust, are made at the direction of the Wildlife and Ecosystem Protection Branch.

Trust assets held by the Corporation on behalf of this program include:

	2009	2008
Cash and Funds on Deposit with Province of Manitoba	$199,402	$278,458
Land Portfolio	593,280	593,280
	$792,682	$871,738

12. Trust Assets and Liabilities (continued)

b) The Manitoba Agro Woodlot Program (MAWP)

On November 1, 2004 the Corporation began providing administrative support to Manitoba Agriculture, Food and Rural Initiatives (MAFRI) for the MAWP.

The Corporation provided banking and financial services for MAWP funds held in trust up to and including August 31, 2008 at which time MAFRI absorbed the entire program into the Civil Service. A management fee was allowed, under the agreement, to be charged by the Corporation to the MAWP/MAFRI for these services. Disbursements, from the funds held in trust, were made at the direction of Manitoba Agriculture, Food and Rural Initiatives.

	2009	2008
Cash and Funds on Deposit with Province of Manitoba	Nil	$71,365

c) Prairie Habitat Joint Venture Advisory Board (PHJV)

On May 12, 1990 Manitoba officially joined the PHJV Advisory Board. The PHJV Board's purpose is to oversee implementation of the NAWMP through a joint venture among participating agencies within the prairie provinces. PHJV agreed that the partner agencies would contribute to the costs of a Policy Committee with the Corporation holding the funds in trust.

Trust assets held by the Corporation on behalf of this program include:

	2009	2008
Cash and Funds on Deposit with Province of Manitoba	$160,031	$181,275

12. Trust Assets and Liabilities (continued)

d) Oak Hammock Marsh Wildlife Management Area (OHM-WMA)

On October 2, 2003 the Province of Manitoba, the Corporation and Ducks Unlimited Canada signed a five year infrastructure agreement. The Province of Manitoba and Ducks Unlimited Canada agreed to contribute to the costs of restoration to the OHM-WMA with the Corporation holding the funds in trust.

Trust assets held by the Corporation on behalf of this program include:

	2009	2008
Cash and Funds on Deposit with Province of Manitoba	$128,674	$146,185

e) Prairie Species at Risk Beneficial Management Practices Project (SAR - BMP)

On July 4, 2006 the Corporation entered into a two year agreement with Agriculture and Agri Food Canada under their Greencover Canada Program to hire two consultants to undertake the development and implementation of a "Beneficial Management Practices" package for producers focusing on Species at Risk. The Corporation agreed to hold the funds in trust. The negative cash balance illustrates that The Corporation was lending cash to the program while their funding is based on an expense recovery system.

Trust assets held by the Corporation on behalf of this program include:

	2009	2008
Cash and Funds on Deposit with Province of Manitoba	Nil	($9,909)

13. Management Fees

The Corporation charges for services provided by NAWMP to other programs as follows:

	2009	2008
RP	$34,342	$99,032
MAWP	9,483	19,289
Miscellaneous	Nil	3,458
CWHP	41,856	36,602
	$85,681	$158,381

14. Economic Dependence

The Corporation is economically dependent on the Province of Manitoba to provide the majority of its operational funding.

15. Disclosure Required by the Public Sector Compensation Disclosure Act

Remuneration paid to Board members during the year, in aggregate, totalled $6,300 (2008 - $4,025). Six contract employees were paid the following amounts in the fiscal year:

	2009	2008
T. Sopuck, Acting, Chief Executive Officer	$92,598	$82,199
C. Hullick, Habitat Field Manager	53,644	N/A
G. Ouellette, Manager of Financial Services	64,237	55,049
G. Forsyth, Field Representative	54,739	53,422
R. Bullion, Field Representative	54,739	53,422
A. Bourrier, Field Representative	54,739	53,457

16. Future Accounting Changes

Not-For-Profit Organizations

The CICA amended a number of standards applicable to not-for-profit organizations (NFPOs) and issued new standard, CICA 4470 Disclosures of Allocated Expenses by Not-for-Profit Organizations.

CICA 4400 Financial Statement Presentation by Not-For-Profit Organizations was amended to:

- eliminate the requirement to treat net assets invested in capital assets as a separate component of net assets and, instead, permit a not-for-profit organization (NFPO) to present such an amount as a category of internally restricted net assets when it chooses to do so;
- clarify that revenues and expenses must be recognized and presented on a gross basis when a not-for-profit organization is acting as a principal in transactions;
- make Section 1540 Cash Flow Statements applicable to NFPOs; and
- make Section 1751 Interim Financial Statements applicable to NFPOs that prepare interim financial statements in accordance with GAAP.

Section 4430 Capital Assets Held by Not-For-Profit Organizations was amended to provide additional guidance with respect to the appropriate use of the scope exemption for smaller entities.

Section 4460 Disclosure of Related Party Transactions by Not-For-Profit Organizations was amended to make the language in Section 4460 consistent with Section 3840 Related Party Transactions.

New Section CICA 4470 Disclosure of Allocated Expenses by Not-For-Profit Organizations establishes disclosure standards for not-for-profit organizations that choose to classify their expenses by function and allocate expenses from one function to another. The main features of the new Section are:

- a requirement for an entity that allocates its fundraising and general support expenses to other functions to disclose the policies adopted for the allocation of expenses among functions, the nature of the expenses being allocated and the basis on which such allocations have been made; and
- a requirement for an entity to disclose the amounts allocated from each of its fundraising and general support functions and the amounts and functions to which they have been allocated.

These new requirements are effective April 1, 2009 and will only require additional disclosure in the financial statements.

Auditors' Report

To the Members of
MANITOBA HAZARDOUS WASTE MANAGEMENT CORPORATION

We have audited the balance sheet of **MANITOBA HAZARDOUS WASTE MANAGEMENT CORPORATION** as at March 31, 2009 and the statements of operations and deficit and cash flows for the year then ended. These financial statements are the responsibility of the corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the corporation as at March 31, 2009 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

The accompanying summary of significant accounting policies and notes are an integral part of these financial statements.

MANITOBA HAZARDOUS WASTE MANAGEMENT CORPORATION
Summary of Significant Accounting Policies

March 31, 2009

Basis of Accounting

These financial statements were prepared using the accrual basis of accounting. The accrual basis recognizes revenues as they become available and measurable; expenditures are recognized as they are incurred and measurable as a result of receipts of goods or services and the creation of a legal obligation to pay.

Long-term Investments

The investment in Miller Environmental Corporation is recorded at cost of $3,000,000 less $2,000,000 writedown in 2003 to represent the estimated value of the investment after taking into consideration an impairment in value.

Revenue Recognition

Rental revenue is recognized over the term which it applies and when collectibility is reasonably assured.

Capital Disclosures

The corporation's capital consists of share capital and retained earnings.

The corporation manages its capital to ensure it retains sufficient cash resources to enable it to carry out its objectives. There were no changes in the corporation's approach to capital management during the period.

The corporation is not subject to externally imposed capital requirements.

Future Accounting Policy Changes

Recent accounting pronouncements that have been issued but are not yet effective, and have a potential implication for the corporation, are as follows:

Financial Statement Concepts - CICA Handbook Section 1000, Financial Statement Concepts has been amended to focus on the capitalization of costs that truly meet the definition of an asset and de-emphasizes the matching principle.

The revised requirements are effective for annual and interim financial statements relating to fiscal years beginning on or after October 1, 2008. The corporation is currently evaluating the impact of the adoption of this change on the disclosure within its financial statements.

International Financial Reporting Standards - The AcSB plans to converge Canadian GAAP with International Financial Reporting Standards ("IFRS") over a transition period expected to end in 2011. The impact of the transition to IFRS on the corporation's financial statements has yet to be determined.

1. Nature of Business

The Manitoba Hazardous Waste Management Corporation was established under the Manitoba Hazardous Waste Management Corporation Act. The corporation, as an agent of the Government of the Province of Manitoba, is responsible to establish, operate, and maintain in accordance with all applicable laws in the province, a hazardous waste management system in Manitoba. This system must be operated and maintained in a manner that will protect the health and safety of the public and preserve the environment. Effective January 1, 1996, the corporation entered into various agreements with Miller Waste Systems, a division of Miller Paving Limited and Miller Environmental Corporation (Miller) for the continued operation of the hazardous waste management system in Manitoba.

These agreements provide for the transfer of certain assets and liabilities to Miller in exchange for 50% of the common shares and all the Class A special preferred shares of Miller. Under the agreements, the corporation retains title to its land holdings which are being leased to Miller for an indefinite term, contingent on Miller's continued existence and operation of the hazardous waste management system.

2. Change in Accounting Policies

Effective April 1, 2008, the corporation adopted the following new handbook sections issued by the Canadian Institute of Chartered Accountants (CICA):

Section 1535 Capital Disclosures

Section 1535 establishes standards for disclosing information about an entity's capital and how it is managed. These standards require an entity to disclose its objectives, policies and processes for managing capital, a summary of quantitative data about what it manages as capital and whether it complied with any externally imposed capital requirements to which it is subject and, if not, the consequences of such non-compliance.

Section 3862 Financial Instruments - Disclosures

Section 3862 modifies the disclosure requirements for financial instruments that were included in Section 3861, *Financial Instruments - Disclosure and Presentation.* The new standards require an entity to provide disclosures in its financial statements that enable users to evaluate the significance of financial instruments on its financial position and performance, the nature and extent of the risks to which it is exposed during the period and at the balance sheet date, and how those risks are managed.

Section 3863 Financial Instruments - Presentation

Section 3863 carries forward the presentation requirements of Section 3861, *Financial Instruments - Disclosure and Presentation*, unchanged.

The above noted new standards have no impact on the recognition, measurement or presentation of financial instruments in the corporation's year end financial statements.

3. Financial Instruments and Financial Risk Management

Financial assets and liabilities are initially recorded at fair value. Measurement in subsequent periods depends on the financial instrument's classification. Financial instruments are classified into one of the following five categories: held for trading; available for sale; held to maturity; loans and receivables; and other financial liabilities. All financial instruments classified as held for trading or available for sale are subsequently measured at fair value with any change in fair value recorded in net earnings and other comprehensive income, respectively. All other financial instruments are subsequently measured at amortized cost.

The financial assets and liabilities of the corporation are classified and measured as follows:

Financial Asset/Liability	Category	Subsequent Measurement
Cash and bank	Held for trading	Fair value
Accounts receivable	Loans and receivables	Amortized cost
Rent receivable	Loans and receivables	Amortized cost
Long-term investments	Available for sale	Amortized cost
Accounts payable and accrued liabilities	Other financial liabilities	Amortized cost

Amortized cost is determined using the effective interest rate method.

Gains and losses on financial instruments subsequently measured at amortized cost are recognized in the statement of operations and retained earnings in the period the gain or loss occurs. Changes in fair value on financial instruments classified as held for trading are recognized in the statement of operations and retained earnings for the current period. Changes in fair value on financial instruments classified as available for sale would be recorded in other comprehensive income until realized, at which time they will be recorded in the statement of operations and retained earnings.

Fair Value of Financial Instruments

The fair values of accounts receivable, rent receivable, accounts payable and accrued liabilities approximate their carrying values due to their short-term maturity. Since the shares in long-term investments do not have a quoted market price in an active market, the fair value of these financial instruments has not been disclosed.

Financial Risk Management - Overview

The corporation has exposure to the following risks from its use of financial instruments: credit risk; liquidity risk; market risk; interest risk; and foreign currency risk.

Credit Risk

Credit risk is the risk that one party to a financial instrument fails to discharge an obligation and causes financial loss to another party. Financial instruments which potentially subject the corporation to credit risk consist principally of cash and term deposits and accounts receivable.

3. Financial Instruments and Financial Risk Management (continued)

The maximum exposure of the corporation to credit risk at March 31, 2009 is:

Cash and bank	$ 188,481
Rent receivable	554,486
Long-term investments	1,000,000
	$ 1,742,967

Cash and bank: The corporation is not exposed to significant credit risk as the cash and bank deposits are primarily held by a Canadian chartered bank.

Accounts receivable: The corporation is not exposed to significant credit risk as the receivables are due from another reliable organization and a payment plan is in place. The corporation establishes an allowance for doubtful accounts that represents its estimate of potential credit losses. The allowance for doubtful accounts is based on management's estimates and assumptions regarding current market conditions, customer analysis and historical payment trends. These factors are considered when determining whether past due accounts are allowed for or written off.

Liquidity Risk

Liquidity risk is the risk that the corporation will not be able to meet its financial obligations as they come due.

The corporation manages liquidity risk by maintaining adequate cash balances.

Market Risk

Market risk is the risk that changes in market prices, such as interest rates and foreign exchange rates, will affect the corporation's income or the fair values of its financial instruments. The significant market risks the corporation is exposed to are interest rate risk and foreign currency risk.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The interest rate exposure relates to short-term investments.

The interest rate risk on cash and bank is considered to be low because of the short-term nature of these financial instruments.

3. Financial Instruments and Financial Risk Management (continued)

Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The corporation is not exposed to significant foreign currency risk as it does not have any financial instruments denominated in foreign currency.

4. Share Capital

The authorized capital of the corporation is 350,000 shares for a maximum consideration of $35,000,000.

The issued capital is as follows:

	2009	2008
75,000 common shares	**$ 7,500,000**	$ 7,500,000

5. Gross Profit Rent

On January 1, 1996, Miller Environmental Corporation (MEC) entered into a site lease agreement with the corporation. Up until February 28, 2008, under the terms of the agreement, MEC was committed to annual rent payments of 20% of gross profit to a maximum of $500,000 for each calendar year. On March 1, 2008, the site lease agreement was adjusted and MEC was committed to fixed annual rent payments of $90,000 per calendar year.

The estimated rental profit receivable based on the audited financial statements of MEC for the fiscal years ending February 28 is as follows:

February 28, 2008	**$ 190,740**
February 28, 2007	**180,780**
February 28, 2006	**77,419**
February 28, 2005	**94,817**
February 28, 2004	**21,115**
February 28, 2003	**16,998**
February 28, 2002	**57,323**
February 28, 2001	**15,294**
	654,486
Less payments received from MEC	**(100,000)**
	$ 554,486

6. Contingencies

Under the terms of the agreements with Miller Environmental Corporation, the corporation would be responsible for any claims prior to January 1, 1996 not disclosed during the due diligence process. Any future removal and site restoration costs would be the responsibility of Miller and the Province of Manitoba. An estimate of these costs cannot be determined and therefore no provision has been made in the financial statements for any such costs.

7. Economic Dependence

The corporation is economically dependent on Miller Environmental Corporation. The corporation's main future sources of revenue are site lease rental revenue and dividend income from its affiliate.

8. Public Sector Compensation

Pursuant to the disclosure required by the Public Sector Compensation Disclosure Act, the remuneration paid to Board members during the year, in aggregate, totalled $7,299. No employee's compensation exceeded $50,000 per year.

9. Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management's best estimates as additional information becomes available in the future.

Auditors' Report

To the Legislative Assembly of Manitoba:

We have audited the statement of financial position of **MANITOBA HEALTH RESEARCH COUNCIL** as at March 31, 2009 and the statements of operations and fund balances and cash flows for the year then ended. These financial statements are the responsibility of the organization's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the organization as at March 31, 2009 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Cash (bank indebtedness), beginning of year	587,122	606,700
Cash, end of year	$ 99,964	$ 587,122
Supplementary Information		
Interest received	$ 56,456	$ 52,492

The accompanying summary of significant accounting policies and notes are an integral part of these financial statements.

These financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles.

Financial Instruments

The organization utilizes various financial instruments. Unless otherwise noted, it is management's opinion that the organization is not exposed to significant interest, currency or credit risks arising from these financial instruments and the carrying amounts approximate fair values.

All transactions related to financial instruments are recorded on a trade date basis.

The organization classifies its financial instruments as follows based on the purpose for which the asset was acquired and follows the disclosed accounting policy for each category.

Assets/Liability	Category	Measurement
Cash and bank	Held for trading	Fair value
Short-term investments	Held for trading	Fair value
Accounts receivable	Loans and receivables	Amortized cost
Accounts payable and accrued liabilities	Other financial liabilities	Amortized cost
Research grants payable	Other financial liabilities	Amortized cost

- Held for trading items are carried at fair value, with changes in their fair value recognized in the statement of operations.

- Other financial liabilities are carried at amortized cost, using the effective interest method.

- Loans and receivables are carried at amortized cost, using the effective interest rate method, less any provision for impairment.

Transaction costs are expensed as incurred.

MANITOBA HEALTH RESEARCH COUNCIL
Summary of Significant Accounting Policies

March 31, 2009

Capital Assets	Capital assets are stated at cost less accumulated amortization. Amortization, based on the estimated useful life of the asset, is calculated as follows:

Office equipment	20% diminishing balance basis
Computer equipment	20% diminishing balance basis

Fund Accounting	The Manitoba Health Research Council follows the restricted fund method of accounting for contributions. The General Research Fund reports only restricted resources that are used for research purposes. General research grants are charged to expenditures in the year the funding is committed for, by Council. Research grants returned to or rescinded by the Council are recorded as revenues when received or rescinded. Regional Partnership awards are charged to expenditures when funding is received from the Province of Manitoba. Regional partnership awards returned to or rescinded by the Council are recorded as revenues when received or rescinded.
Revenue Recognition	Grant revenue is reflected in income in the period in which the grant is received or becomes receivable. Interest income is recognized as revenue when earned and is allocated to the General Fund.
Grants and Awards	All grants and awards and their renewals are charged to expenditures when funding is approved by Council.
Administrative Expenditures	Administration expenses are allocated 100% to the General Research Fund.

New Accounting Pronouncements

Recent accounting pronouncements that have been issued but are not yet effective, and have a potential implication for the organization, are as follows:

Financial Statement Concepts

CICA Handbook Section 1000, Financial Statement Concepts has been amended to focus on the capitalization of costs that truly meet the definition of an asset and de-emphasizes the matching principle.

The revised requirements are effective for annual and interim financial statements relating to fiscal years beginning on or after October 1, 2008. The organization is currently evaluating the impact of the adoption of this change on the disclosure within its financial statements.

Financial Statement Presentation by Not-for-Profit Organizations

Section 4400 has been amended for the treatment of net assets invested in capital assets and for the presentation of revenues and expenses. The new standard is effective for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2009. The organization is currently assessing the impact of the new standard.

1. Entity Definition

The Manitoba Health Research Council was established by The Manitoba Health Research Council Act to promote and assist basic, clinical and applied research in the health sciences in Manitoba. The Manitoba Health Research Council is a registered charity and is exempt from tax under the Income Tax Act.

2. Cash and Bank

	2009	2008
Bank of Montreal current account	$ 85,940	$ 44,743
Wellington West cash account	14,024	542,379
	$ 99,964	$ 587,122

3. Capital Assets

	2009		2008	
	Cost	Accumulated Amortization	Cost	Accumulated Amortization
Office equipment	$ 14,599	$ 4,226	$ 2,358	$ 1,633
Computer equipment	11,749	6,328	6,954	4,833
	$ 26,348	$ 10,554	$ 9,312	$ 6,466
Cost less accumulated amortization		$ 15,794		$ 2,846

4. Accounts Payable and Accrued Liabilities

Included in accounts payable are appropriations of $68,958 for Electronic Grants Management System for expenditures committed to in the 2008/09 fiscal year for ongoing work and outstanding expenses incurred on the project.

5. Related Party Transactions

Manitoba Health Research Council is related to all Province of Manitoba departments and agencies. During the year, the Council had the following transactions with related organizations:

	2009	2008
Grant revenue	**$ 6,000,000**	$ 5,103,276

These transactions are in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

6. Commitments

The Manitoba Health Research Council has committed grants and awards under the General Research Fund and the Regional Partnership Fund as follows:

Year	**General Research Fund**	**Regional Partnership Fund**	**Total**
2010	$ 2,267,515	$ 541,215	$ 2,808,730
2011	508,011	190,688	698,699
2012	300,000	-	300,000
2013	$ 300,000	-	300,000
	$ 3,375,526	$ 731,903	$ 4,107,429

Commitments of future years of the General Research Fund and Regional Partnership Fund are not recorded as an expenditure in the year of commitment, they are recorded as an expenditure in the year they are committed for. These commitments will be funded as follows:

Current General Research Fund Balance	**$ 1,853,436**
Future Province of Manitoba grants	**2,253,993**
	$ 4,107,429

6. Commitments (continued)

The organization has a future payment under an operating leases for the next year as follows:

2010	$ 3,386

7. Economic Dependence

The Manitoba Health Research Council relies almost entirely on grants from the Province of Manitoba.

8. Capital Disclosures

The council considers its capital consists of its end of year Fund balances. There have been no changes to what the council considers to be its capital since the previous period.

The council manages its capital to ensure it retains sufficient cash resources to enable it to carry out its mission of providing grants to assist with medical research in Manitoba.

MANITOBA HEALTH RESEARCH COUNCIL
Schedule of Administrative Expenses

For the year ended March 31	2009	2008

Workshops and training	600	-
	$ 733,746	$ 440,220

OFFICE OF THE
AUDITOR GENERAL
MANITOBA

AUDITORS' REPORT

To the Legislative Assembly of Manitoba
To the Minister of Health

We have audited the statement of financial position of the Manitoba Health Services Insurance Plan as at March 31, 2009, and the statement of operations and net assets for the year then ended. These financial statements reflect the Plan's health program expenses for insured services and the funding provided for these programs from the Department of Health appropriations for the Health Services Insurance Fund and Capital Grants. These financial statements are the responsibility of the management of the Department of Health. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the assets, liabilities and net assets of the Manitoba Health Services Insurance Plan as at March 31, 2009, and the revenue and expenses and cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

MANAGEMENT REPORT

Management of Manitoba Health and Healthy Living is responsible to the Minister of Health for the integrity and objectivity of the financial statements and schedules of the Manitoba Health Services Insurance Plan. The financial statements for the year ended March 31, 2009 have been prepared in accordance with accounting principles consistent with prior years. Included in this year's financial statement is the Schedule of Payments pursuant to the provisions of *The Public Sector Compensation Disclosure Act*.

Manitoba Health and Healthy Living maintains a system of internal control designed to provide management with reasonable assurance that confidential data and other assets are safeguarded and that reliable operating and financial records are maintained. This system includes written policies and procedures, an internal audit program and an organization structure which provides for appropriate delegation of authority and segregation of responsibilities. Staff of the Office of the Auditor General review internal controls and report their findings annually to management and to the Minister of Health.

The Office of the Auditor General is responsible to express an independent, professional opinion on whether the financial statements are fairly stated in accordance with the accounting policies stated in the financial statements. The Auditor's Report outlines the scope of the audit examination and provides the audit opinion.

Management has reviewed and approved these financial statements. To assist in meeting its responsibility, an audit committee meets to review audit, financial reporting and related matters.

On behalf of the management,

Manitoba Health Services Insurance Plan
Notes to the Financial Statements
For the Year ending March 31, 2009

1. Nature of Operations

The Manitoba Health Services Insurance Plan (the Plan) operates under the authority of *The Health Services Insurance Act*. The mandate of the Plan is to provide health related insurance for Manitobans by funding the costs of qualified hospital, medical, personal care and other health services. The Plan's financial operations are administered outside of the Provincial Consolidated Fund.

2. Significant Accounting Policies

a. General

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles (GAAP) for not-for-profit entities.

b. New Accounting Policies

Effective April 1, 2008 the Plan adopted the following new accounting standards issued by the Canadian Institute of Chartered Accountants (CICA):

Section 1535, Capital Disclosures
Section 1535 establishes standards for disclosing information about an entity's capital and how it is managed. These standards require an entity to disclose its objectives, policies and processes for managing capital, a summary of quantitative data about what it manages as capital and whether it complied with any externally imposed capital requirements to which it is subject and, if not, the consequences of such non-compliance.

Section 3862, Financial Instruments – Disclosures and Section 3863, Financial Instruments – Presentation
Sections 3862 and 3863 are intended to enhance the abilities of users of financial statements to evaluate the significance of financial instruments to an entity, related exposures and the management of these risks. These sections were subsequently amended to eliminate the requirement for not-for-profit entities and rate-regulated enterprises to adopt these sections. These entities are permitted to continue to apply Section 3861 Financial Instruments - Disclosure and Presentation in place of Sections 3862 and 3863. An entity that does so must disclose this fact.

c. Revenue Recognition

Revenue is recognized as funds are drawn from Province of Manitoba appropriations.

d. Capital Management

The Plan's objective when managing capital is to maintain sufficient capital to cover its costs of operations. The Plan's capital consists of net assets.

The Plan's capital management policy is to
Maintain sufficient capital to meet its objectives through its net assets by managing transfers of surplus funds to the Province of Manitoba,
Meet short-term capital needs with working capital advances from the Province of Manitoba.

The Plan is not subject to externally imposed capital requirements.

There were no changes in the Plan's approach to capital management during the period.

e. Financial Instruments

Financial assets and liabilities are initially recorded at fair value. Measurement in subsequent periods depends on the financial instrument's classification. Financial instruments are classified into one of the following five categories: held for trading; available for sale; held to maturity; loans and receivables; and other financial liabilities. All financial instruments classified as held for trading or available for sale are subsequently measured at fair value with any change in fair value recoded in net earnings and other comprehensive income, respectively. All other financial instruments are subsequently measured at amortized cost.

The Plan has designated its financial instruments as follows:

Cash and funds on deposit are classified as financial assets held for trading and are measured at fair value with gains and losses recognized in the statement of operations and net assets for the current period.

Accounts receivable, and the amounts due from the Province of Manitoba are classified as loans and receivables. These financial assets are recorded at their amortized cost using the effective interest rate method with gains and losses recognized in the statement of operations and net assets in the period the gain or loss occurs.

Accounts payable and accrued liabilities, and accrued vacation pay are classified as other financial liabilities. These financial liabilities are recorded at their amortized cost using the effective interest rate method with gains and losses recognized in the statement of operations and net assets in the period the gain or loss occurs.

The Plan has continued to apply section 3861, Financial Instruments – Disclosures and Presentation in place of Sections 3862 and 3863.

Unless otherwise noted, it is management's opinion that Plan is not exposed to significant interest, currency or credit risk arising from these financial instruments.

Fair value of financial instruments

The fair value of cash, fund on deposit, accounts receivable, due from the Province of Manitoba – vacation pay, accounts payable and accrued liabilities, and accrued vacation pay approximates their carrying values due to their short-term maturity.

The carrying value of the due from the Province of Manitoba – post employment receivable approximates its fair value, as the annual interest accretion is funded.

f. Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingencies at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

g. Administrative and Operating Expenses

The financial statements do not include administrative salaries and operating expenses related to the Plan. These are included in the operating expenses of Manitoba Health.

h. Statement of Cash Flows

These financial statements do not include a Statement of Cash Flows. In the opinion of management, the Statement of Cash Flows does not provide additional disclosure.

i. Future Accounting Policy Changes

Not-For-Profit Organizations
The CICA amended a number of standards applicable to not-for-profit organizations (NFPOs).

CICA 4400 Financial Statement Presentation by Not-For-Profit Organizations was amended to:

- eliminate the requirement to treat net assets invested in capital assets as a separate component of net assets and, instead, permit a not-for-profit organization (NFPO) to present such an amount as a category of internally restricted net assets when it chooses to do so.
- clarify that revenues and expenses must be recognized and presented on a gross basis when a not-for-profit organization is acting as a principal in transactions.
- make Section 1540 Cash Flow Statements applicable to NFPOs.
- make Section 1751 Interim Financial Statements applicable to NFPOs that prepare interim financial statements in accordance with GAAP.

Section 4460 Disclosure of Related Party Transactions by Not-For-Profit Organizations was amended to make the language in Section 4460 consistent with Section 3840 Related Party Transactions.

These new requirements are effective April 1, 2009 and will only require additional disclosure in the financial statements.

3. Accounts Receivable

	2009	2008
Province of Manitoba	**$21,721**	$16,029
Other Provinces and Territories	**23,994**	23,006
Other	**13,957**	13,671
	$59,672	$52,706

4. Employee Benefits

The Plan revised, in 2005, its funding arrangements related to vacation pay and post employment benefits. Prior to 2005, the Plan did not fund the annual vacation leave earned by employees of the Regional Health Authorities (Health Authorities) and Health Care Facilities (Facilities) until the year vacations were taken. As well, the Plan did not fund post-employment benefits earned by employees of Health Authorities and Facilities until those post-employment benefits were paid. Funding is now provided as vacation pay and post employment benefits are earned by employees subsequent to March 31, 2004.

The amount recorded as due from the Province – vacation pay was initially based on the estimated value of the corresponding liability as at March 31, 2004. Subsequent to March 31, 2004, the Province has included in its ongoing annual funding to the Plan, an amount equal to the current year's expense for vacation pay entitlements.

The amount recorded as due from the Province – post employment benefits is the value of the corresponding actuarial liability for post employment costs as at March 31, 2004. There has been no change to the value subsequent to March 31, 2004 because the Province has provided, in its ongoing annual funding to the Plan, an amount equivalent to the change in the post employment liability including annual interest accretion related to the receivable. The receivable will be paid by the Province when it is determined that the funding is required to discharge the related post employment liabilities.

5. Accounts Payable and Accrued Liabilities

	2009	2008
Health Authorities and Facilities	**$187,740**	$123,615
Medical Service Claims	**81,031**	87,172
Pharmacare Claims	**17,174**	15,505
Province of Manitoba	**9,211**	17,742
General	**29,332**	35,570
	$324,488	$279,604

6. Inter-provincial Reciprocal Recoveries

Under inter-provincial reciprocal agreements Canadian residents can obtain necessary hospital and medical services while away from their home provinces or territories. Claims for services are subsequently recovered between provincial governments. In order to reflect the cost of insured services to Manitobans, the recoveries attributable to services for non-Manitoba residents are netted against program expenses.

For the year ended March 31, 2009 the expenses for Health Authorities and Facilities within the Province, of $2,809,721 (2008 - $2,584,836) are net of reciprocal recoveries of $52,480 (2008 - $37,211). The expenses for Medical program of $827,772 (2008 - $764,441) are net of reciprocal recoveries of $13,027 (2008 - $11,997).

7. Regional Health Authorities

The following table summarizes payments to the Health Authorities. These payments are included in the financial statements in the expense categories of Health Authorities and Facilities and Medical.

Regional Health Authority	**2009**			**2008**
	Facilities	Medical	Total	**Total**
Winnipeg	**$1,776,206**	**$155,721**	**$1,931,927**	$1,790,752
Brandon	**164,099**	**10,487**	**174,586**	161,733
North Eastman	**44,483**	**3,090**	**47,573**	42,998
South Eastman	**69,258**	**6,084**	**75,342**	65,410
Interlake	**90,356**	**7,556**	**97,912**	87,601

Parkland	**105,089**	**5,083**	**110,172**	100,233
Norman	**59,266**	**10,327**	**69,593**	64,232
Burntwood	**59,100**	**15,070**	**74,170**	65,741
Churchill	**10,841**	**-**	**10,841**	10,258
CancerCare	**79,139**	**12,014**	**91,153**	86,398
Total Payments	**$2,737,195**	**$253,345**	**$2,990,540**	$2,760,890

The expense category, Health Authorities and Facilities, in the Statement of Operations and Net Assets is comprised of the following:

	2009	**2008**
Health Authorities payments	**$2,737,195**	$2,530,565
Accruals and payments to facilities and third parties	**125,006**	91,482
Reciprocal recoveries	**(52,480)**	(37,211)
Total Expenses	**$2,809,721**	$2,584,836

The expense category, Medical, in the Statement of Operations and Net assets is comprised of the following:

	2009	2008
Fee for Services Medical payments and accruals	**$558,526**	$518,540
Health Authorities payments	**253,345**	230,325
Optometric	**6,120**	5,990
Chiropractic	**9,781**	9,586
Total Expenses	**$827,772**	$764,441

8. Contingencies

The nature of the Plan's activities is such that there may be litigation pending or in progress at any time. With respect to claims at March 31, 2009, no provision has been made in the financial statements as the final outcome of the claims is not determinable at this time.

9. Economic Dependence

The Plan is economically dependent on the Province of Manitoba for its funding.

10. Related Party Transactions

In addition to those related transactions disclosed elsewhere in these financial statements, the Plan is related in terms of common ownership to all Province of Manitoba created departments, agencies and Crown corporations. The Plan enters into transactions with these entities in the normal course of business. These transactions are recorded at the exchange amount.

11. *The Public Sector Compensation Disclosure Act*

The Schedule of Payments pursuant to the provisions of *The Public Sector Compensation Disclosure Act* is included as part of the Annual Report of Manitoba Health.

12. Comparative Figures

Certain of the prior year's figures have been reclassified to conform to the current year's presentation.

OFFICE OF THE
AUDITOR GENERAL
MANITOBA

AUDITORS' REPORT

To the Legislative Assembly of Manitoba, and
To the Board of Commissioners of Manitoba Horse Racing Commission

We have audited the statement of financial position of the Manitoba Horse Racing Commission as at March 31, 2009, and the statements of operating revenue and expenses and fund balances and cash flow for the year then ended. These financial statements are the responsibility of the Commission's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Commission as at March 31, 2009, and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

See accompanying notes to the financial statements

1. Nature of the operations

The Manitoba Horse Racing Commission (Commission) was established under The Horse Racing Commission Act to govern, direct, control and regulate horse racing and the operations of horse race tracks in Manitoba.

The operating expenses of the Commission in excess of revenue derived from its regulatory activities are funded by a grant from the Department of Agriculture, Food and Rural Initiatives, interest earned on the General Fund, as well as a proportionate share of the Pari-Mutuel Levy according to the Plan for Distribution.

Revenues and expenses related to program delivery and administrative activities of the Commission are reported in the General Fund.

Capital Asset Fund represents the net investment of the Commission in capital assets.

Effective April 1, 1997, Pari-mutuel Levy Act (the "Act") was enacted. The Act provides for the establishment of a Pari-mutuel Levy Fund for the promotion of horse racing in Manitoba. The fund is collected by the Commission and distributed in accordance with a Plan For Distribution, as required by the Act.

The Rural Fund is used for funding of the rural circuit as well as Quarter Horse racing. Funding for the Rural Fund is provided through a grant from the Department of Agriculture, Food and Rural Initiatives.

Horsemen's Benevolent Protection Association (H.B.P.A.) Fund is to be used for overnight purses at Assiniboia Downs. Funding for the H.B.P.A. Fund is provided through the Pari-mutuel Levy Act based on the Plan For Distribution approved by the minister responsible for the administration of the Act.

Canadian Thoroughbred Horsemen Society (C.T.H.S.) Fund is to be used for breeder's and owner's incentives at Assiniboia Downs. Funding for the C.T.H.S. Fund is provided through the Pari-mutuel Levy Act based on the Plan For Distribution approved by the minister responsible for the administration of the Act.

2. Significant accounting policies

General

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles (GAAP).

Fund Accounting

The Commission follows the restricted fund method of accounting for contributions.

Financial Instruments

Financial assets and liabilities are initially recorded at fair value. Measurement in subsequent periods depends on the financial instrument's classification. Financial instruments are classified into one of the following five categories: held for trading; available for sale; held to maturity; loans and receivables; and other financial liabilities. All financial instruments classified as held for trading or available for sale are subsequently measured at fair value with any change in fair value recorded in net earnings. All other financial instruments are subsequently measured at amortized cost.

The Commission's financial instruments consist of cash, long term investment, accounts receivable, pari-mutuel levy receivable, receivable from Province of Manitoba - pension and accounts payable and accrued liabilities.

The Commission has designated its financial instruments as follows:

Cash and long term investment are classified as financial assets held for trading and are measured at fair value with gains and losses recognized in net earnings.

Accounts receivable, pari-mutuel levy receivable and receivable from Province of Manitoba - pension are classified as loans and receivables. These financial assets are recorded at their amortized cost using the effective interest rate method.

Accounts payable and accrued liabilities are classified as other financial liabilities. These financial liabilities are recorded at their amortized cost using the effective interest rate method.

Gains and losses on financial instruments subsequently measured at amortized cost are recognized in the statement of operating revenues and expenses in the period the gain or loss occurs. Changes in fair value on financial instruments classified as held for trading are recognized in the statement of operating revenues and expenses for the current period. Changes in fair value on financial instruments classified as available for sale are recorded in the statement of fund balances until realized, at which time they are recorded in the statement of operating revenue and expenses.

Fair value of financial instruments

Due to the redeemable nature of cash its carrying value is considered to be fair value.

The fair value of long term investment, accounts receivable, pari-mutuel levy receivable, receivable from Province of Manitoba - pension, accounts payable and accrued liabilities approximate their carrying values due to their short-term maturity.

Revenue recognition

Restricted contributions are recognized as revenue of the appropriate restricted fund.

Unrestricted contributions are recognized as revenue of the General Fund in the year received or receivable if the amount to be received can be estimated and collection is reasonably assured.

Funding from the Province of Manitoba includes the Commission's share of provisions recorded for unfunded pension liabilities.

Pension costs

These consist of the employer's share of pension benefits paid to retired employees, as well as the increase in the employee pension benefits liability during the fiscal year. This liability is determined actuarially every three years with the balances for the intervening years determined by formula provided by the actuary. The most recent valuation was completed as at December 31, 2007. Experience gains or losses are recognized in the year the actuarial valuation is completed.

Use of estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

These estimates and assumptions are reviewed periodically and, as adjustments become necessary they are reported in excess of revenues and expenses in the periods in which they become known.

New accounting policies adopted

Effective April 1, 2008 the Commission adopted the following new handbook sections issued by the Canadian Institute of Chartered Accountants (CICA):

Section 1535, Capital Disclosures
Section 1535 establishes standards for disclosing information about an entity's capital and how it is managed. These standards require an entity to disclose its objectives, policies and processes for managing capital, a summary of quantitative data about what it manages as capital and whether it complied with any externally imposed capital requirements to which it is subject and, if not, the consequences of such non-compliance (Note 8).

Financial Instruments
In late 2008, the Canadian Institute of Chartered Accountants provided an option to not-for-profit organizations with respect to Financial Instruments. Not-for-profit organizations may choose to apply

Financial Instruments - Disclosure, Section 3862 and Financial Instruments - Presentation, Section 3863 or may elect to continue to apply Financial Instruments - Disclosure and Presentation, Section 3861. The Commission has elected to continue to apply Financial Instruments - Disclosure and Presentation, Section 3861.

Section 1400, General Standards of Financial Statement Presentation
Section 1400 has been amended to include requirements to assess and disclose an entity's ability to continue as a going concern. This amendment is effective for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2008. The adoption of these changes have no impact on the Commission's financial statements.

Fund transfers

i) Capital fund transfers
Fund transfers represent allocations from the General Fund to the Capital Asset Fund for capital acquisitions.

ii) Pari-mutuel levy fund transfer
A pari-mutuel levy is collected by the Commission for the promotion of horse racing in Manitoba. The Pari-mutuel Levy Fund is then distributed in accordance with the Plan for Distribution.

Capital Assets

Capital assets are recorded at cost. Amortization is provided on a straight-line basis over the assets' estimated useful lives, as follows:

Computer equipment	5 years
Security equipment	10 years
Furniture	10 years

Future Accounting Pronouncements

Section 4430, Capital Assets Held by Not-for-profit Organizations (NFPO)
Section 4430 has been amended to provide additional guidance with respect to the appropriate use of the scope exemption for smaller entities that expense their capital assets. It was clarified that the exemption does not allow NFPOs to capitalize but not amortize their capital assets, nor does it allow different methods of accounting for various types of capital assets. This amendment applies to interim and annual financial statements relating to fiscal years beginning on or after January 1, 2009.

Section 4400, Financial Statement Presentation by Not-for-profit Organizations
Section 4400 was amended to remove the requirement to treat net assets invested in capital assets as a separate component of net assets, and, instead, permitting such an amount to be presented as a category of internally restricted net assets. In addition, the requirement to recognize and present revenues and expenses on a gross basis when a not-for-profit

organization is acting as a principal in the transaction was clarified. Finally, guidance was included to reflect that Section 1540 Cash Flow Statements and Section 1751 Interim Financial Statements are applicable to not-for-profit organizations. These new requirements apply to interim and annual financial statements relating to fiscal years beginning on or after January 1, 2009. Early adoption of a Cash Flow Statement was prepared for March 31, 2009.

3. Long term investment

In 2009 the Province of Manitoba made payment of the March 31, 2008 receivable balance related to prior years' funding for the pension liability. This payment has been placed in a trust account (bearing interest at 0.55%) maturing March 30, 2010 on behalf of the Manitoba Horse Racing Commission, and held until the cash is required to discharge the related liabilities. As this is only likely to happen in a future year, this amount has been classified as a long term asset.

4. Provision for employee pension benefits

The Commission follows the accrual method of accounting for its employee pension benefits liability.

An actuarial valuation of the employee pension benefit liability as at December 31, 2007 was conducted by Ellement & Ellement Ltd., Consulting Actuaries. The key actuarial assumptions were a rate of return of 7% (2004 - 7%), 2.50% inflation (2004 – 2.50%), salary rate increases of 3.25% (2004 - 3.25%) and post retirement indexing at 2/3 of the inflation rate. The service to date projected benefit method was used and the liabilities have been estimated to March 31, 2009 using a formula provided by the actuary and adjusted for a provision for adverse experience and a trust fund credit.

Provision for employer's share of employees' pension plan:

	2009	2008
Balance, beginning of year	$ 307,729	$ 288,336
Benefits accrued	14,272	13,163
Interest accrued on benefits	25,680	20,594
Benefits paid	(15,620)	(14,364)
Experience gain	(11,803)	-
Balance, end of year	$ 320,258	$ 307,729

The Commission's pension plan costs consist of the following:

	2009	2008
Benefits accrued	$ 14,272	$ 13,163
Interest accrued on benefits	25,680	20,594
Experience gain	(11,803)	-
Pension cost	$ 28,149	$ 33,757

THE MANITOBA HORSE RACING COMMISSION

Notes to the Financial Statements
For the year ended March 31, 2009

5. Fees, licenses and fines

	2009	2008
Assiniboia Downs		
Daily licenses	$ 71,150	$ 66,975
Fees and licenses	35,436	36,648
Fines	14,212	11,490
	120,798	115,113
Rural Circuit		
Fees and licenses	822	570
Fines	395	1,030
	1,217	1,600
	$ 122,015	$ 116,713

6. Capital assets

	2009		2008	
	Cost	Accumulated Amortization	Cost	Accumulated Amortization
Computer equipment	$ 11,599	$ 3,390	$ 11,599	$ 2,695
Security equipment	2,714	856	1,629	448
Furniture	7,572	4,200	7,571	3,208
	$ 21,885	$ 8,446	$ 20,799	$ 6,351
Net book value		$ 13,439		$ 14,448

7. Financial Instruments Risk Management

The Commission has exposure to the following risks from its use of financial instruments:

Liquidity risk
Interest rate risk
Credit risk
Currency risk

Liquidity risk

Liquidity risk arises from the possibility of the Commission having insufficient financial resources to meet its financial obligations when they come due. The Commission mitigates this risk through cash management. Accounts payable and accrued liabilities are typically paid when due.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The interest rate exposure relates to cash and long term investment. The interest rate risk on cash and long term investment is considered to be low due to their short term nature.

Credit risk

Credit risk is the risk that one party to a financial instrument fails to discharge an obligation and causes financial loss to another party. Financial instruments which potentially subject the Commission to credit risk consist principally of cash, long term investment, pari-mutuel levy receivable, accounts receivable and receivable from Province of Manitoba - pension.

Cash is not exposed to significant credit risk as cash is held with a large reputable financial institution.

Long term investment and receivable from Province of Manitoba - pension are not exposed to significant credit risk as both are with the Province of Manitoba.

Pari-mutuel receivable and accounts receivable are not exposed to significant credit risk as payment in full is typically collected when due. No allowance for doubtful accounts is required.

Currency Risk

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign currency rates. The Commission is not exposed to significant foreign currency risk as it does not have any financial instruments denominated in foreign currency.

8. Capital management

The Commission's objective when managing capital is to ensure that its expenditures closely match their revenues. Capital consists of the various fund balances in the amount of $26,483 (2008 - $68,311). The Commission is not subject to externally imposed capital requirements. There have been no changes in the Commission's approach to capital management during the period.

9. Comparative figures

Certain comparative figures have been reclassified to conform with current year presentation.

THE MANITOBA HORSE RACING COMMISSION

Schedule 1 - General Fund Operating Expenses
For the year ended March 31, 2009

	2009	2008
Expenses		
Bad Debt	$ 184	$ 1,930
Commissioners' per diem and honoraria	23,023	15,816

OFFICE OF THE
AUDITOR GENERAL
MANITOBA

AUDITORS' REPORT

To the Legislative Assembly of Manitoba
To the Board of Directors of The Manitoba Housing and Renewal Corporation

We have audited the balance sheet of The Manitoba Housing and Renewal Corporation as at March 31, 2009 and the statements of operations, fund balances and cash flows for the year then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Corporation as at March 31, 2009 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Office of the Auditor General

Winnipeg, Manitoba
July 3, 2009

500 - 330 Portage Avenue Winnipeg, Manitoba R3C 0C4 office: (204) 945-3790 fax: (204) 945-2169

MANAGEMENT REPORT

The accompanying financial statements of The Manitoba Housing and Renewal Corporation are the responsibility of management and have been prepared in accordance with the accounting policies stated in the financial statements. These accounting policies have been applied on a basis consistent with that of the preceding year. In management's opinion, the financial statements have been properly prepared within reasonable limits of materiality, incorporating management's best judgment regarding all necessary estimates and all other data available up to July 3, 2009.

Management maintains internal controls to provide reasonable assurance of the reliability and accuracy of the financial information and that the assets of The Manitoba Housing and Renewal Corporation are properly safeguarded.

The responsibility of the Office of the Auditor General of the Province of Manitoba is to express an independent, professional opinion on whether the financial statements of The Manitoba Housing and Renewal Corporation are fairly presented in accordance with the accounting policies stated in the notes to the financial statements. The Auditor's Report outlines the scope of the audit examination and provides the audit opinion.

On behalf of Management

Brian Brown, Comptroller, Financial Management

Joy Cramer, Chief Executive Officer

Cash payments of interest paid	$ 35,794,770	$ 37,128,419

(see accompanying notes)

1. Authority

The Manitoba Housing and Renewal Corporation (MHRC) operates under the authority of The Housing and Renewal Corporation Act, being Chapter H 160 Revised Statutes of Manitoba 1987. The purposes and objects of the Act are:

a) to ensure that there is an adequate supply of housing stock in Manitoba;
b) to enhance the affordability of, and accessibility to, adequate housing for Manitobans, particularly those of low and moderate income and those with specialized needs;
c) to maintain and improve the condition of existing housing stock; and
d) to stimulate and influence the activities of the housing market to the benefit of Manitobans as a whole.

MHRC is under the management and control of a Board of Directors appointed by the Lieutenant Governor in Council. The board shall consist of not fewer than five members and not more than 13 members and the Lieutenant Governor in Council may designate one of the members of the board as chairperson and one member as vice-chairperson.

The Corporation is economically dependent on the Government of the Province of Manitoba.

These financial statements include, in note 16, the operating results of MHRC owned properties which are managed by The Manitoba Housing Authority (MHA). The MHA was established in 1992 as an agency of MHRC.

2. Significant accounting policies

a) Basis of accounting

The Corporation's financial statements are prepared using Canadian generally accepted accounting principles.

b) Loans and mortgages receivable

Loans and mortgages receivable are valued at principal amounts less an allowance for loan impairment.

c) Loan forgiveness

Loan forgiveness for forgivable loans is approved in accordance with the terms of the loan agreements. The Corporation records an asset valuation allowance equal to the amount of the loan at the time the loan is granted. As forgiveness conditions are met by the borrower, the Corporation records the annual forgiveness by reducing both the forgivable loan and the accompanying valuation allowance.

d) Allowance for loan impairment

The Corporation maintains an allowance for loan impairment, which reduces the carrying value of loans and mortgages receivable to their estimated realizable amounts. Depending on the program under which the loan or mortgage is made, estimated realizable amounts are determined with reference to the Corporation's historical loss experience on similar loans or the appraised value of the project financed by the loan or mortgage.

Specific allowances are established for individual loans and mortgages for which the estimated realizable amount is less than the carrying value. The Corporation does not provide any additional non-specific, general provision for loan impairment. The Corporation's Board of Directors has approved a policy which defines whether an individual mortgage or loan balance is to be considered impaired based on the time period that it has been in arrears.

e) Housing projects and amortization

i) Social housing projects are valued at cost less accumulated amortization.
ii) Cost includes direct construction costs, land acquisition costs and interest and other related carrying charges incurred during the period of construction.
iii) Housing projects which are declared abandoned or surplus to the needs of the Corporation are valued at the lesser of cost less accumulated amortization and net realizable value.
iv) Housing projects are amortized on a straight-line basis over their estimated useful lives as follows:
    Wood buildings – 25 years
    Brick buildings – 40 years
    Betterments – 10 to 20 years

f) Interest in joint venture

The interest in joint venture is recognized using the proportionate consolidation method. Proportionate consolidation is a method of accounting and reporting whereby MHRC's prorata share of each of the assets, liabilities, revenues and expenses of the joint venture is combined on a line by line basis with similar items in MHRC's financial statements.

g) Land

Land is valued at the lower of cost and appraised value adjusted for estimated disposition costs, except for land leased to co-operatives. Cost includes acquisition costs and related carrying costs. The carrying costs of the land, which include interest, planning and development costs, grants in lieu of taxes, less revenue derived from use of undeveloped land, were capitalized to land to March 31, 1993. Effective April 1, 1993 the carrying costs are charged annually to operations. Cost for land acquired after March 31, 1993 consists of the original purchase price and the acquisition costs.

Land leased to co-operatives is valued at original cost. The Corporation incurs no liabilities or obligations with respect to the lessees' buildings situated on the land. The carrying costs of the land, net of lease revenue, are charged annually to MHRC operations.

h) Land development costs

Land development costs include interest, planning, development and administrative costs. These costs are capitalized as land development costs to the date of sale of the related land.

i) Revenue recognition

Grants are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured. Rental revenue is recognized in the fiscal period during which the service is provided. Subsidy contributions are recognized on an accrual basis in the fiscal period to which they relate. Interest is recognized on an accrual basis in the fiscal period in which it is earned.

j) Interest capitalization

Interest costs on financing related to housing projects and housing investments are capitalized to the date of completion.

k) Pension costs and obligations

Current service contributions for MHA employees are recognized as operating expenses. The Corporation has no further liability associated with the annual cost of pension benefits earned by MHA employees.

The Corporation has a liability associated with the annual cost of pension benefits earned by the former Department of Family Services and Housing employees who were transferred to the Corporation on February 8, 2003.

Current actuarial gains or losses are recognized as operating expenses.

l) Contributed services

Under an agreement entered into between The Manitoba Housing and Renewal Corporation and the Department of Family Services and Housing, in 1984, the Department provides administrative services to MHRC at no cost. The value of these contributed and administrative services is recorded as revenue and expenses.

m) Use of estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates.

n) Comprehensive Income

Section 1530 of the CICA accounting standards requires the presentation of a statement of comprehensive income. Comprehensive income represents the change in equity of an enterprise during a period from transactions and other events arising from non-owner sources including gains and losses from changes in fair value of available for sale financial assets and changes in fair value of the effective portion of cash flow hedging instruments. The Corporation has not recognized any adjustments through other comprehensive income for the year ended March 31, 2009. Because the Corporation has no items related to other comprehensive income, comprehensive income is equivalent to net income.

3. New Accounting Policies Adopted

Effective April 1, 2008 MHRC adopted CICA Handbook section 1535 Capital Disclosures. These disclosure standards require the corporation to provide disclosure of how the corporation manages its capital.

Capital Management
MHRC's objective when managing capital is to maintain sufficient capital to cover its costs of operations. MHRC includes The Housing Development and Rehabilitation Fund and The Manitoba Housing and Renewal Fund Deficit as well as long-term debt in its definition of capital.

MHRC's operating objectives are to ensure that there is an adequate supply of housing stock in Manitoba and to enhance the affordability of, and accessibility to, adequate housing for Manitobans, particularly those of low and moderate income and those with specialized needs. In order to meet these operating objectives, MHRC capital management policy is to:

- Obtain long term debt from the Province of Manitoba and Canada Mortgage and Housing Corporation;
- Obtain rental revenue from its housing stock. This revenue is partially subsidized through provincial and CMHC funding; and
- Earn interest income on loans and mortgages to individuals and organizations that meet pre-defined criteria.

Long term debt and the Manitoba Housing and Renewal Fund are not subject to externally imposed capital requirements. The Housing Development and Rehabilitation Fund is required by legislation to provide support for housing projects in areas of need within a municipality in which the MHRC realized suburban land development profits. There were no changes to MHRC's approach to capital management during the period.

MHRC's capital is as follows:

	2009	2008
Long Term Debt (note 12)	$508,895,430	$495,836,702
Housing Development and Rehabilitation Fund (note 21)	6,417,575	3,678,735
Manitoba Housing and Renewal Fund (deficit)	(221,216,449)	(228,648,778)
Capital	$294,096,556	$270,866,659

Financial Instruments – Disclosure
Section 3862 modifies the disclosure requirements for financial instruments that were included in Section 3861, *Financial Instruments – Disclosure and Presentation*. The new standards require an entity to provide disclosures in its financial statements that enable users to evaluate the significance of financial instruments on its financial position and performance, the nature and extent of the risks to which it is exposed during the period and at the balance sheet date and how those risks are managed.

Financial Instruments – Presentation
Section 3863 carries forward the presentation requirements of Section 3861, *Financial Instruments – Disclosure and Presentation*, unchanged.

The above noted new standards have no impact on the recognition, measurement or presentation of financial instruments in MHRC`s year end financial statements.

4. Cash

	2009	2008
On deposit with the Minister of Finance:		
Trust deposits	$ 77,349,470	$ 80,512,075
Deferred Contributions (note 13)	12,385,799	12,070,497
Mobile home loan guarantee program fund (note 24)	108,678	163,115
	89,843,947	92,745,687
Bank	23,462,466	877,243
Petty cash	8,775	8,825
	$ 113,315,188	$ 93,631,755

5. Accounts receivable and accruals

	2009	2008
Canada Mortgage and Housing Corporation	$ 3,237,350	$ 4,240,935
Government of the Province of Manitoba and its agencies	2,408,614	4,133,689
Rent receivables - net of allowance of $5,311,005 (2008 - $6,350,703)	2,782,921	1,946,139
Accrued interest on loans and mortgages receivable	522,600	461,194
City of Winnipeg - net of allowance of $2,830 (2008 - $67,927)	236,882	256,628
Other - net of allowance of $10,270 (2008- $12,347)	8,351,630	9,914,552
Government of the Province of Manitoba		
- severance benefits (note 20)	1,446,105	1,446,105
- pension recoverable (note 19)	7,055,786	5,556,772
	$ 26,041,888	$ 27,956,014

6. Loans and mortgages receivable

a) Composition of loans and mortgages receivable

	2009	2008
Federal/Provincial Housing:		
Private Non-Profit Housing Program	$ 94,053,650	$ 96,462,775
Rural and Native Housing Program	4,452	6,793
Urban Native Housing Program	27,211,327	29,914,877
	121,269,429	126,384,445
Market Rental Programs:		
Co-operative HomeStart Program	8,040,710	8,189,164
Co-operative Index Linked Program	6,504,489	6,982,342
Manitoba Rural RentalStart Program	254,182	264,034
Manitoba Senior RentalStart Program	4,179,136	4,287,419
	18,978,517	19,722,959
Other Programs:		
Community Residences Program	2,807,160	3,694,792
Market Homeowner Programs	54,116	70,315
Homeowner Rehabilitation Programs	202,462	234,017
Other	2,828,711	2,784,666
	5,892,449	6,783,790
	146,140,395	152,891,194
Less - allowance for loan impairment	(1,872,790)	(5,735,096)
Subtotal repayable loans and mortgages receivable	144,267,605	147,156,098
Forgivable loans	110,944,042	97,223,403
	255,211,647	244,379,501
Less - forgivable loans asset valuation allowance	(110,944,042)	(97,223,403)
Loans and mortgages receivable	$ 144,267,605	$ 147,156,098

Loans and mortgages receivable bear interest at various rates between 0% and 13.50% with maturities at various dates to 2035.

Principal repayments on the loans and mortgages maturing in the next five years are estimated as follows:

2010	$ 206,178
2011	65,715
2012	319,695
2013	3,821,927
2014	2,565,561
Subsequent to 2014	139,161,319
	$ 146,140,395

b) Allowance for loan impairment

The allowance for loan impairment is comprised of the following specific provisions:

	2009	2008
Market rental programs	$ 1,693,568	$ 5,624,414
Other programs	179,222	110,682
	$ 1,872,790	$ 5,735,096

7. Housing projects

	2009	2008
Land	$ 21,753,083	$ 21,743,969
Buildings	411,301,566	398,366,403
Less - accumulated amortization	354,639,945	346,413,491
Buildings – net book value	56,661,621	51,952,912
Under construction	18,316,786	9,437,728
	96,731,490	83,134,609
Less - financing provided by CMHC	(4,039,341)	(4,712,611)
	$ 92,692,149	$ 78,421,998

8. Housing investment

Housing investment represents MHRC's share in social housing projects, which until October 1, 1998 were administered by CMHC and subsequently have been administered by MHRC, under the Rural and Native Housing Program.

On September 3, 1998, MHRC and CMHC executed a Declaration of Trust by which CMHC has transferred their ownership interest in cost-shared and 100% CMHC funded Public Housing projects to MHRC, as trustee. MHRC's interest in these projects will be earned over the remainder of each project's CMHC subsidy commitment period, in amounts which will correspond to the annual amortization of the assets. No increase in housing investment has been recorded by MHRC.

9. Joint venture

The Corporation contributed 179 acres of land, at appraised value, to a joint venture with Ladco Company Limited on May 11, 1989. The appraised value of the land at that time, adjusted for subsequent sales, was $1,052,746 (2008 - $1,174,157) and is included in joint venture land in note 10. The joint venture activities include the servicing, development and sale of approximately 476 acres of land in the City of Winnipeg, Manitoba. In accordance with the terms of the agreement, the Corporation has provided loan guarantees for the purposes of the joint venture development in an amount not to exceed $2,400,000 (note 24).

The following is a summary of the Corporation's pro rata share of the assets, liabilities, revenues and expenses of the Ladco Company Limited joint venture.

	2009	2008
Current Assets:		
Cash and short term investments	$ 1,010,800	$ 619,498
Accounts receivable from land sales	3,778,338	4,146,937
	4,789,138	4,766,435
Long Term Assets:		
Development in progress	(186,151)	1,054,938
Total Assets	$ 4,602,987	$ 5,821,373
Current Liabilities:		
Accounts payable and accrued liabilities	4,203	16,636
Net Assets	$ 4,598,784	$ 5,804,737
Sales of land	$ 3,686,753	$ 5,074,181
Cost of land sales	1,267,093	1,874,340
Gross margin	2,419,660	3,199,841
Expenses:		
Interest on bank indebtedness	10,129	13,196
General	38,293	58,615
Other	133,191	161,178
Total expenses	181,613	232,989
Net income for the year	$ 2,238,047	$ 2,966,852

10. Land

	2009	2008
Future development or sale	$ 9,456,579	$ 9,555,965
Leased to co-operatives	1,659,792	1,659,792
Joint venture	1,052,746	1,174,157
	$ 12,169,117	$ 12,389,914

11. Deferred revenue

	2009	2008
Manitoba Housing Authority tenant prepaid rent	$ 2,055,392	$ 2,076,015
Other prepaid land lease and subsidy contribution received in advance	317,189	298,525
Affordable Housing Initiative commitments	13,268,574	10,346,656
	$ 15,641,155	$ 12,721,196

12. Long-term debt

	2009	2008
Government of the Province of Manitoba:		
Advances, convertible to long-term advances at MHRC's option, at prime interest rates	$ 66,897,319	$ 37,269,512
Long-term advances, at interest rates from 4.75% to 13.375% maturing at various dates to 2029 and requiring annual principal and interest payments of $37,966,316 (2008 - $38,029,946)	283,365,617	294,533,899
Canada Mortgage and Housing Corporation:		
Long-term advances, at interest rates from 5.67% to 8.625% maturing at various dates to 2030 and requiring annual principal and interest payments of $15,024,576 (2008 - $15,022,602)	155,907,762	161,229,610
Mortgages payable (assumed on property acquisitions), at interest rates from 5.125% to 10.50% maturing at various dates to 2028 and requiring annual principal and interest payments of $325,290 (2008 - $325,260)	2,724,732	2,803,681
	$ 508,895,430	$ 495,836,702

Principal repayments on the long-term debt are estimated as follows:

2010	$ 18,780,128
2011	20,297,450
2012	21,933,005
2013	22,776,614
2014	24,124,270
Subsequent to 2014	400,983,963
	$ 508,895,430

13. Deferred contributions

MHRC recognizes federal and provincial contributions towards housing programs as revenue when eligible program expenses are incurred and records deferred contributions for any unexpended amounts. In accordance with the Social Housing Agreement executed by MHRC and CMHC which took effect October 1, 1998, federal contributions must be fully used by August 31, 2031. The Agreement provides that a specified amount of the annual federal contributions must be applied toward housing programs, which assist low income households, as defined in the Agreement. The portion of federal contributions that may be applied toward other housing programs is similarly specified. In addition, the Province contributes funding for its share of housing programs through grants from the Province of Manitoba (note 14). Total unexpended contributions in the amount of $65,188,172 (2008 - $57,271,543) are carried forward by MHRC for future use.

Pursuant to the Social Housing Agreement dated September 3, 1998 between CMHC and MHRC, CMHC made a one-time payment of $12,700,000 to MHRC in 1999. This amount was provided for the purpose of mitigating future operating risks associated with MHRC's financial responsibility for housing programs transferred from CMHC pursuant to the Agreement. This amount has been recorded as a deferred contribution and is increased by interest earned thereon and is reduced as the Corporation incurs expenses as a result of the identified risks. The unexpended balance related to these contributions at March 31, 2009 is $12,385,799 (2008 - $12,070,496).

The breakdown of total unexpended contributions is as follows:

	2009	2008
Deferred Federal contributions	$20,755,147	$12,650,619
Deferred Provincial contributions	44,433,025	44,620,924
	65,188,172	57,271,543
Risk reserve contribution related to the Social Housing Agreement	12,385,799	12,070,496
	$77,573,971	$69,342,039

14. Grants from the Province of Manitoba

	2009	2008
Department of Family Services and Housing:		
MHRC operating programs	$ 57,610,056	$ 46,986,549
MHRC administration	8,891,844	7,103,851
Grants and subsidies	5,975,525	5,172,982
	72,477,425	59,263,382
Grants recovered from the Department of Finance:		
School Tax Assistance for Tenants 55 Plus Program	266,710	266,936
Pension recovery (note 19)	1,499,014	(324,673)
	$ 74,243,149	$ 59,205,645

15. Contributed services

	2009	2008
Administrative services provided by the Department of Family Services and Housing were allocated as follows:		
- included in the Statement of Operations, Administrative Services	$ 521,200	$ 504,000
- included in administration expenses in note 16, Manitoba Housing Authority Housing Operations	772,600	636,500
- included in administration expenses in note 16, Sponsor Managed Housing Operations	27,400	22,700
- included in Rental Subsidies, note 17	286,000	319,000
- included in Statement of Operations, Repair and renovation expense	136,400	101,000
Total Department of Family Services and Housing administrative services provided	$ 1,743,600	$ 1,583,200

16. Housing operations

The management and operation of all MHRC social housing projects are the responsibility of the Manitoba Housing Authority and sponsor managed groups. Their operating results are as follows:

	Manitoba Housing Authority Managed	Sponsor Managed	2009	2008
Revenue				
Rental Revenue	$ 53,031,514	$ 13,180,565	$ 66,212,079	$ 64,282,662
Expenses				
Administration (note 15)	19,957,573	1,871,790	21,829,363	18,213,895
Property operating	52,139,580	9,895,045	62,034,625	58,463,455
Grants in lieu of taxes	9,666,124	1,453,213	11,119,337	10,490,950
Amortization	7,179,892	1,227,245	8,407,137	7,778,614
Interest	18,887,863	3,939,470	22,827,333	23,969,050
	107,831,032	18,386,763	126,217,795	118,915,964
Operating loss	$ 54,799,518	$ 5,206,198	$ 60,005,716	$ 54,633,302

17. Rental subsidies

Rental subsidies are provided in accordance with project operating agreements with third parties which establish the basis of eligibility for subsidy assistance. Their operating results are as follows:

	Not for Profit Housing	Cooperative Housing	Private Landlord	Property Management	2009	2008
Revenue						
Rental Revenue	$ 8,534,352	$ -	$ -	$ 4,819,004	$ 13,353,356	$ 11,246,550
Expenses						
Administration	2,251,687	181,400	158,200	1,144,211	3,735,498	3,621,837
Property operating	21,012,296	3,578,115	4,559,382	10,051,632	39,201,425	37,630,317
Grants in lieu of taxes	1,253,680	-	-	986,439	2,240,119	2,099,151
Amortization	2,494,618	-	-	82,841	2,577,459	2,366,984
Interest	9,659,096	-	-	-	9,659,096	9,978,092
	36,671,377	3,759,515	4,717,582	12,265,123	57,413,597	55,696,381
Operating loss	$ 28,137,025	$ 3,759,515	$ 4,717,582	$ 7,446,119	$ 44,060,241	$ 44,449,831

18. Grants and subsidies

	2009	2008
Manitoba Shelter Benefit	$ 5,875,970	$ 5,172,982
Portable Housing Benefit	99,555	-
School Tax Assistance for Tenants 55 Plus	266,710	266,936
Elderly & Infirm Persons Housing	155,423	155,423
Co-op Homestart	92,226	103,561
	$ 6,489,884	$ 5,698,902

19. Pension obligations

Employees of the Corporation and MHA are eligible for pensions under the Manitoba Civil Service Superannuation Fund. This pension plan is a defined benefit plan, which requires MHA to contribute an amount approximately equal to the employees' contribution to the Superannuation Fund for current services. Such payments are charged to housing operations as incurred and MHRC has no further liability associated with the annual cost of pension benefits earned by MHA employees. Pension expense recorded for MHA employees for the year ended March 31, 2009 is $656,469 (2008 - $597,669).

The Corporation has a liability associated with the annual cost of pension benefits earned by the former Department of Family Services and Housing employees who were transferred to the Corporation on February 8, 2003. This liability consists of the employer's share of pension benefits paid to retired employees, as well as the increase in the unfunded pension liability during the fiscal year. This liability is determined by an actuarial valuation every three years with the balances for the intervening years being estimated by a formula provided by the actuary. The most recent valuation was completed at December 31, 2007.

	2009	2008
Balance at beginning of year	$5,556,772	$5,881,445
Experience (gain) loss	937,944	(884,505)
Benefits accrued	458,196	439,288
Interest accrued on benefits	367,482	387,882
Benefits paid - estimated	(264,608)	(267,338)
Balance at end of year	$7,055,786	$5,556,772

The key actuarial assumptions were a rate of return of 6.5% (2004 - 6.5%), 2.5% inflation (2004 - 2.5%), salary rate increases of 3.25% (2004 – 3.25%) and post retirement indexing at 2/3 of the inflation rate. The projected benefit method was used and the liability has been extrapolated to March 31, 2009 using a formula provided by the actuary.

The Province of Manitoba has accepted responsibility for funding MHRC's liability and related expense which includes an interest component. Therefore MHRC has recorded a receivable from the Province of Manitoba equal to the estimated value of its actuarially determined pension liability of $7,055,786 as of March 31, 2009 (2008-$5,556,772) and has recorded an increase in revenue for 2008/09 equal to the related pension expense increase of $1,499,014 ($2008-decrease $324,673). The Province of Manitoba makes payments on the receivable when it is determined that the cash is required to discharge the related pension obligation.

20. Severance

a) Severance pay liability

Effective April 1, 1998, the Corporation commenced recording the estimated liability for accumulated severance pay benefits for its employees in The Manitoba Housing Authority. The amount of this estimated liability is determined and recorded annually using the method of calculation set by the Province of Manitoba.

Severance pay, at the employee's date of retirement, will be determined by multiplying the eligible employee's years of service (to a maximum of 22 or 15 years) by the employee's weekly salary at the date of retirement. Eligibility will require that the employee has achieved a minimum of nine years of service and that the employee is retiring from the Corporation.

The Corporation recorded a severance liability as at April 1, 2003 in the amount of $569,000 associated with the severance benefits earned by the former Department of Family Services and Housing employees who were transferred to the Corporation on February 8, 2003. The amount of this estimated liability is determined and recorded annually using a method of calculation set by the Province of Manitoba. The

Corporation recorded, effective April 1, 2003, a receivable in the amount of $569,000 from the Province of Manitoba, which is an amount that is equal to the liability recorded for accumulated severance pay benefits at that date.

b) Severance pay receivable

The Province of Manitoba has accepted responsibility for the severance pay benefits accumulated to March 31, 1998 by the Corporation's employees. Accordingly, the Corporation recorded, effective April 1, 1998, a receivable of $877,105 from the Province of Manitoba, which was initially based on the estimated value of the corresponding actuarially determined liability for severance pay as at March 31, 1998. Subsequent to March 31, 1998, the Province provides annual grant funding for severance expense. As a result the change in the severance liability each year is fully funded. The interest component related to the receivable is reflected in the funding for severance expense. The receivable for severance pay will be paid by the Province when it is determined that the cash is required to discharge the related severance pay liabilities.

The amount recorded as a receivable from the Province for severance pay of $569,000 for former Department of Family Services and Housing employees was initially based on the estimated value of the corresponding actuarially determined liability for severance pay as at April 1, 2003. Subsequent to April 1, 2003, the Province provides annual grant funding for severance expense. As a result the change in the severance liability each year is fully funded. The interest component related to the receivable is reflected in the funding for severance expense. The receivable for severance pay will be paid by the Province when it is determined that the cash is required to discharge the related severance pay liabilities.

The carrying value of the receivables approximates its fair value as the interest component described above is comparable to current market rates.

21. Housing Development and Rehabilitation Fund

On November 8, 2007, The Housing and Renewal Corporation Amendment Act provided for the establishment of a fund known as the "Housing Development and Rehabilitation Fund".

The fund is to be credited with suburban land development profits realized by the MHRC in respect of land owned or developed by it or by a partnership or joint venture in which the MHRC is or was a participant. Interest earned on the amounts are to be credited to the fund. Profits are transferred from The Manitoba Housing and Renewal Fund to the Housing Development and Rehabilitation Fund. The fund may be used to provide support for housing projects in areas of need within a municipality in which the Corporation realized profits, including the development of new housing or the rehabilitation of existing housing. The fund has a balance of $6,417,575 (2008 - $3,678,735).

22. Contingencies

The Corporation is involved in legal proceedings arising in the normal course of business, the outcome of which cannot be predicted at this time. In the opinion of management, the disposition of these cases will not materially affect the financial position of the Corporation. Any settlement will be recognized in the year the settlement occurs.

The Corporation provided the City of Winnipeg with a letter of credit under a development agreement. At March 31, 2009 the letter of credit amounted to $1,389,120.

23. Commitments

The Corporation has the following commitments as at March 31, 2009.

a) Housing project modernization and improvement	$3,142,841
b) Repair and renovation expenses	$14,683,669

c) Grants and subsidies:

As a result of the Social Housing Agreement dated September 3, 1998, MHRC is now fully responsible for the funding commitments of all Social Housing Projects in Manitoba. These commitments will expire on a staggered basis over the period ending 2031, concurrent with the Social Housing Agreement funding expiration date of August 31, 2031. An estimate of these commitments for each of the next five years is as follows:

2010	$47,231,000
2011	59,531,500
2012	73,325,900
2013	86,754,200
2014	92,335,100

24. Guarantees

The Corporation has guaranteed the repayment of mortgages and has issued letters of credit which guarantee the terms and conditions of land development agreements and construction contracts. The outstanding guarantees are as follows:

	2009	2008
Joint Venture Investment Guarantee (note 9)	$2,400,000	$2,400,000
Waverley West Letter of Credit	1,389,120	1,389,120
Mobile Home Loan Guarantee Program	108,678	163,115
Affordable Housing Initiative Loan Guarantee Program	1,200,000	2,335,356
	$5,097,798	$6,287,591

A guarantee fee of 2 1/2% is charged for each mortgage under the Mobile Home Loan Guarantee Program. The assets of the Mobile Home Loan Guarantee Program as at March 31, 2009 are $108,678 (2008 - $163,115) and are included in cash (note 4). The trust fund liability is included in accounts payable.

25. Subsidy Contributions

Pursuant to the Social Housing Agreement executed by MHRC and CMHC, CMHC will pay fixed annual contributions to MHRC for individual housing projects over the remainder of the CMHC subsidy commitment period. The Agreement took effect October 1, 1998 and has a funding expiration date of August 31, 2031.

	2009	2008
Federal contributions	$ 48,062,268	$ 54,044,698
Provincial contributions	1,804,261	1,585,869
Municipal contributions	229,485	249,661
	$ 50,096,014	$ 55,880,228

26. Risk Management

MHRC has exposure to the following risks from its use of financial instruments: credit risk, liquidity risk, market risk, interest rate risk and foreign currency risk.

i) Credit Risk

Credit risk arises from the potential that a counterparty to an agreement with the Corporation will fail to perform its obligations. The Corporation conducts an assessment of credit issues prior to committing to such agreements and it actively monitors the credit risks associated with its accounts receivable and loans and mortgages receivable on an ongoing basis.

The maximum exposure of MHRC to credit risk at March 31, 2009 is:

Cash (note 4)	$113,315,188
Accounts receivable and accruals (note 5)	26,041,888
Loans and mortgages receivable (note 6)	144,267,605
	$283,624,681

Cash and deposits with the Minister of Finance: MHRC is not exposed to significant credit risk as these deposits are primarily held by the Minister of Finance.

Accounts receivable and accruals: MHRC is not exposed to significant credit risk as the majority of its accounts are with the Province of Manitoba and CMHC and payment is typically collected when due. MHRC establishes an allowance for doubtful accounts that represents its estimate of potential credit losses. The allowance for doubtful accounts is based on management's estimates and assumptions regarding current market conditions, client analysis and historical payment trends. These factors are considered when determining whether past due accounts are allowed for or written off.

Loans and mortgages receivable: The corporation is not subject to significant credit risk as the loans and mortgages are spread among a large client base and geographic region and payment is typically collected when due. MHRC establishes an allowance for doubtful accounts that represents its estimate of potential credit losses. The allowance for doubtful accounts is based on management's estimates and assumptions regarding current market conditions, client analysis and historical payment trends. These factors are considered when determining whether past due accounts are allowed for or written off.

ii) Liquidity Risk

Liquidity risk is the risk that MHRC will not be able to meet its financial obligations as they become due.

MHRC manages liquidity risk by maintaining adequate cash balances and by review from the Province of Manitoba to ensure adequate funding will be received to meet obligations.

iii) Market risk

Market risk is the risk that changes in market prices, such as interest rates and foreign exchange rates, will affect MHRC's income or the fair values of its financial instruments. The significant market risk MHRC is exposed to is interest rate risk.

iv) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. MHRC does not use derivative instruments to reduce its exposure to interest risk. The interest rate exposure relates to deposits with the Minister of Finance, loans and mortgages receivable and long term debt.

The interest rate risk on funds on deposit with the Minister of Finance is considered to be low because of their short term nature.

MHRC's loans and mortgages are exposed to interest rate fluctuations. This risk is mitigated through the almost exclusive use of fixed rate terms. A change of +100 basis points would result in a decrease in value of $10,721,308 whereas a -100 basis point change would result in an increase in value of $11,945,229.

MHRC manages its interest rate risk on long term debt through the use of fixed rate terms for its long term debt. A change of +100 basis points in the interest rates would have decreased its fair value by $36,562,149 whereas a change of -100 basis points would have increased its fair value by $38,404,549.

v) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. MHRC is not exposed to significant foreign currency risk as it does not have any financial instruments denominated in a foreign currency.

27. Financial Instruments

i) Financial assets and liabilities are initially recorded at fair value. Measurement in subsequent periods depends on the financial instrument's classification. Financial instruments are classified into one of the following five categories: held for trading; available for sale; held to maturity; loans and receivables; and other financial liabilities. All financial instruments classified as held for trading or available for sale are subsequently measured at fair value with any change in fair value recorded in net earnings and other comprehensive income, respectively. All other financial instruments are subsequently measured at amortized cost. The financial assets and liabilities of the Corporation are classified and measured as follows:

Financial Asset/Liability	Category	Subsequent Measurement
Cash and funds on deposit	Held for trading	Fair value
Accounts receivable	Loans and receivables	Amortized cost
Loans and mortgages receivable	Loans and receivables	Amortized cost
Accounts payable	Other financial liabilities	Amortized cost
Accrued liabilities	Other financial liabilities	Amortized cost
Long term debt	Other financial liabilities	Amortized cost

Gains and losses on financial instruments subsequently measured at amortized cost are recognized in the statement of operations in the period the gain or loss occurred. Changes in fair value on financial instruments classified as held for trading are recognized in the statement of operations for the current period. Changes in fair value on financial instruments classified as available for sale are recorded in statement of changes in net assets or other comprehensive income until realized, at which time they recorded in the statement of operations.

ii) The fair value of accounts receivable (excluding receivables related to pension and severance liability), accounts payable, holdbacks and accruals approximates their carrying values due to their short-term maturity.

The carrying value of the Corporation's pension and severance pay liabilities are based on actuarial valuations adjusted over time for the effect of interest and payouts since the valuations were performed. The carrying value of the liabilities approximates their fair values as the interest component is comparable to current market rates. The carrying value of the related pension and severance receivables approximates their fair value as their carrying value is derived from the related pension and severance liabilities.

The fair value of loans receivable is determined using the present value of future cash flows under current funding agreements, based on the Corporation's current estimated lending rate for loans with similar terms and conditions. The fair value of the loans receivable is $177,028,847 at March 31, 2009 ($177,595,296 at March 31, 2008).

The fair value of long-term debt is determined using the present value of future cash flows under current financing agreements, based on the Corporation's current estimated borrowing rate for loans with similar terms and conditions. The fair value of the long-term debt is $615,939,333 at March 31, 2009 ($603,197,970 at March 31, 2008).

28. Comparative Figures

Certain comparative figures in the financial statements have been restated to conform with the presentation of the current year.

Auditors' Report

To the Board of Directors of
THE MANITOBA OPPORTUNITIES FUND LTD.

We have audited the balance sheet of **THE MANITOBA OPPORTUNITIES FUND LTD.** as at March 31, 2009 and the statements of income, comprehensive income and retained earnings and cash flows for the year then ended. These financial statements are the responsibility of the company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the company as at March 31, 2009 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

THE MANITOBA OPPORTUNITIES FUND LTD.
Summary of Significant Accounting Policies

March 31, 2009

Basis of Accounting	The company's financial statements have been prepared by management in accordance with the recommendations of the Public Sector Accounting Board (PSAB) of the Canadian Institute of Chartered Accountants (CICA).
Revenue Recognition	Interest revenue on temporary investments is recorded on an accrual basis. Investment income on portfolio investments is determined by the difference in the present value of the term note and the cost of the term note.
Contributed Services	During the year, the Province of Manitoba provided office space and other administrative services to the company at no cost. Because of the difficulty of estimating the fair value of such expenses, no contributed services are recognized in the financial statements.
Deferred Charges	Deferred charges, which reflect the handling fee to be paid to the Government of Canada upon repayment of funds, are amortized over the five year term the related deposits are held.
Temporary Investments	Temporary investments are carried at cost, which approximates market value. Funds available for investment are invested through the Province of Manitoba.
Portfolio Investments	Portfolio investments are recorded at cost which represents the discounted value of the term notes. Over time, the value of the portfolio investments increase equal to the effective interest rates on the term notes. The increase in the present value of the portfolio investments during the year is recorded as an increase in the portfolio investments and as investment income.
Financial Instruments	The company's financial instruments consist of accrued interest receivable, temporary and portfolio investments, accounts payable and accrued liabilities, and borrowings. Unless otherwise noted, it is management's opinion that the company is not exposed to significant interest, currency or credit risks arising from these financial instruments. The fair values of these financial instruments approximate their carrying values, unless otherwise noted. The fair value of borrowings including current portion will be less than the carrying value because the debt is interest-free.
Use of Estimates	The preparation of financial statements in accordance with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management's best estimates as additional information becomes available in the future.

1. Nature of Operations and Economic Dependence

The Manitoba Opportunities Fund Ltd. (the company) was incorporated under the laws of Manitoba on April 3, 2003. The company was formed due to the requirements of the Fund Agreement between the Minister of Citizenship and Immigration and the Manitoba Fund dated October 21, 2003 to function as an "approved fund" under the Immigrant Investor Program. The Minister of Finance holds the one Class A common share issued as a designated representative of Her Majesty the Queen in right of the Province of Manitoba with a value of $Nil. The company considers itself to be an Other Government Organization as defined by the PSAB of the CICA.

The object of the company is to hold and invest the Provincial allocation of immigrant's investments made through the Federal Department of Citizenship and Immigration Canada's (CIC) Immigrant Investor Program. The Federal Immigrant Investor Program seeks to attract experienced persons and capital to Canada. Investors must demonstrate business experience, a minimum net worth of CDN $800,000 and make an investment of CDN $400,000. The funds invested are distributed among participating Provinces. After five years, the company returns the Provincial allocation of the $400,000 investment, without interest, to the CIC who then returns the funds to the individual investors who have become permanent residents. However, prior to approval and issuance of a Permanent Resident's Visa an investor may withdraw from the program and CIC will request that the company repay the Provincial allocation of the individual investment at such time.

Manitoba, as a participating Province, through the company invests the Provincial allocation funds for a period of five years and uses the interest income generated on the funds to create jobs and help the Manitoba economy grow.

The company is economically dependent on the Province of Manitoba as the Province of Manitoba is liable for the borrowings payable to the Federal Government.

2. Change in Accounting Policy

Effective April 1, 2008, the company changed the basis of accounting used to prepare its financial statements to be in accordance with the recommendations of the PSAB of the CICA. Previously the company followed the recommendations of the Accounting Standards Board of the CICA. The change had no material impact on the company's accounting policies or presentation and resulted in no restatement of prior year results.

3. Temporary Investments

The temporary investments consist of 30 - 90 day deposit certificates held by the Province of Manitoba and 5 year bonds issued by the Province of Quebec.

4. Portfolio Investments

The portfolio investments are made up of several 5 year zero coupon term notes which Manitoba Opportunities Fund Ltd. purchases on a monthly basis from the Province of Manitoba. The maturity dates range monthly from March 2009 to March 2014. The effective interest rates range from 1.60% to 4.60% payable at the end of the 5 year term.

The discount on the bonds are amortized over the 5 year term. The present value of the bond less the face value is recorded each year as interest income.

5. Borrowings

	2009	2008
Government of Canada	**$212,197,936**	$155,655,594
Current portion of borrowings	**38,866,321**	1,897,286
	$173,331,615	$153,758,308

The borrowings represents the Provincial allocation of immigrant's investments repayable to the Federal Government five years after the Federal Government has distributed these funds to the Manitoba Opportunities Fund Ltd. A handling fee is deducted prior to the funds being distributed to the Manitoba Opportunities Fund Ltd.

Principal repayments for the next five years are as follows:

2010	$ 38,866,321
2011	33,914,963
2012	22,753,284
2013	58,223,743
2014	58,439,625
	$212,197,936

6. Growing Through Immigration Strategy Support

Funds transferred to support the Growing Through Immigration Strategy are made up of the following, as approved by the Treasury Board:

	2009	2008
Business Settlement Office	$ -	$ 350,603
Advanced Education and Learning	246,200	157,800
Education, Citizenship, and Youth	113,900	-
Civil Service Commission	132,000	-
Department of Labour and Immigration	1,092,300	990,233
Competitiveness, Training and Trade	99,200	233,392
Manitoba Agriculture, Food and Rural Initiatives	247,500	177,527
Manitoba Culture, Heritage, Tourism and Sport	21,500	19,958
	$ 1,952,600	$ 1,929,513

In 2008, Treasury Board authorized the transfer of the Business Settlement Office expenses from the Manitoba Opportunity Fund - Growing Through Immigration Strategy Support to the Manitoba Development Corporation - Program Administration.

7. Related Party Transactions

The company paid $- (2008 - $433,789) made up of program administration costs of $Nil (2008 - $83,186) and Growing Through Immigration Strategy Support transfers of $Nil (2008 - $350,603) to the Manitoba Development Corporation, which operates under control of a common Board of Directors.

AUDITORS' REPORT

To the Board of Directors of
Manitoba Product Stewardship Corporation

We have audited the balance sheet of **Manitoba Product Stewardship Corporation** as at March 31, 2009 and the statements of operations, changes in net assets and cash flows for the year then ended. These financial statements are the responsibility of the company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the company as at March 31, 2009 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Manitoba Product Stewardship Corporation

NOTES TO FINANCIAL STATEMENTS

March 31

1. NATURE OF ORGANIZATION

Manitoba Product Stewardship Corporation ["MPSC"] was established under the Waste Reduction and Prevention Act ["WRAP"] – Multi-Material Stewardship (Interim Measures) Regulations [the "Regulations"] with the following objectives:

[a] To establish and administer a waste reduction and prevention program for designated materials for Manitoba;
[b] To provide for the effective, efficient and economical management of waste designated materials; and
[c] To administer the Multi-Material WRAP Fund.

The Multi-Material WRAP Fund is an industry-operated fund which provides for, among other initiatives, recycling support payments to municipal and local governments for eligible materials recovered from residential waste and delivered to an approved recycling facility. The Fund is currently funded by the collection of levies on beverage containers supplied by a steward of beverage containers to be consumed in Manitoba.

MPSC is exempt from income tax under Section 149 of the Income Tax Act.

2. SIGNIFICANT ACCOUNTING POLICIES

[a] Going concern considerations

The Government of the Province of Manitoba enacted Regulation 195/2008 under the Waste Reduction and Prevention Act along with Guideline for Packaging and Printed Paper Stewardship and Guideline for Plastic Bags. The intent of the regulation is to transition the government's approach to multi-material handling to an Industry Funding Organization, Multi Material Stewardship Manitoba. There have been no transactions between MPSC and Multi Material Stewardship Manitoba. Three of the ten Directors of MPSC are also Directors of Multi Material Stewardship Manitoba. The wind-up of MPSC is subject to regulatory approval, but it is uncertain when this will occur. The potential impact of the wind-up of the operations of MPSC is currently estimated as outlined in note 2[d] and the board and management have internally restricted net assets and designated cash to cover this amount which is recorded as restricted cash and cash equivalents. As the regulation has not yet been passed, these wind-up costs have not been accrued in these financial statements.

The financial statements have been prepared in accordance with Canadian generally accepted accounting principles on a going concern basis, which presumes MPSC will realize its assets and discharge its liabilities in the normal course of operations. The financial statements do not give effect to any adjustments to the classification and carrying values of assets and liabilities that might be necessary should MPSC be unable to continue its operations as a going concern.

[b] Levy revenue and recycling support payments to municipalities

Levy revenue is charged on all non-deposit [excluding dairy] beverage containers supplied for consumption in Manitoba, subject to certain exemptions, by a Product Steward. Pursuant to the Regulations, a Product Steward is defined as the first person or business in Manitoba who, in the course of business, supplies beverages in containers to another person or business. Beverage levy revenue is recognized based on revenue as reported by the Product Stewards to MPSC, and when the amount is received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Product Stewards are eligible for credits if the beverage containers on which levies have been previously paid were supplied to consumers outside of Manitoba or if the levies are inadvertently paid by two Product Stewards on the same beverage containers. Levies are collected and credits are paid based on self assessments as reported by Product Stewards.

Recycling support payments to municipalities are paid to registered Manitoba municipalities based on the tonnage of eligible materials delivered to an approved recycling facility as reported by the municipalities to MPSC.

[c] Cash and cash equivalents

Cash and cash equivalents are recorded at fair value and include cash and short-term investments with maturities at the date of purchase of up to three months.

[d] Cash and cash equivalents [restricted]

Cash and cash equivalents [restricted] consist of funds held for approximate costs expected to be incurred upon wind-up of MPSC. The timing of the wind-up is subject to legislative approval.

Cash and cash equivalents [restricted] are recorded at fair value and include cash and short-term investments with maturities at the date of purchase of up to three months.

[e] Capital assets

Capital assets are recorded at cost less accumulated amortization. Amortization is provided for by the following annual rates and methods:

Furniture and fixtures	20% declining balance
Computer hardware	30% declining balance
Computer software	100% straight-line

[f] Use of estimates

The preparation of financial statements in accordance with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates.

[g] Financial risk management

It is management's opinion that MPSC is not exposed to significant interest, currency or credit risks arising from its financial instruments. Due to their short-term maturity, the fair value of MPSC's financial instruments approximates their carrying value unless otherwise stated.

[h] Capital disclosures

Effective April 1, 2008, MPSC adopted the recommendations of the Canadian Institute of Chartered Accountants [the "CICA"] Handbook Section 1535, "Capital Disclosures", which require the disclosure of qualitative and quantitative information that enables users of the financial statements to evaluate MPSC's objectives, policies and processes for managing capital. The adoption of these recommendations only required additional disclosures, which are provided in note 7.

[i] Future accounting changes

Disclosure and Presentation of Financial Instruments

The CICA has issued two new standards, Handbook Section 3862, "Financial Instruments –Disclosures" and Handbook Section 3863, "Financial Instruments – Presentation". The new standards are intended to enhance the abilities of users of financial statements to evaluate the significance of financial instruments to an entity, related exposures and the management of these risks.

These new sections, which were effective April 1, 2008, would require additional disclosure in the financial statements. However, the CICA subsequently amended these sections to eliminate the requirement for not-for-profit entities and rate-regulated enterprises to adopt these sections. These entities are permitted to continue to apply Handbook Section 3861, "Financial Instruments -Disclosure and Presentation" in place of Handbook Sections 3862 and 3863. An entity that does so must disclose this fact.

Not-For-Profit Organizations

The CICA amended a number of standards applicable to not-for-profit organizations ["NFPOs"] and issued new standard, CICA Handbook Section 4470, "Disclosures of Allocated Expenses by Not-for-Profit Organizations".

CICA Handbook Section 4400, "Financial Statement Presentation by Not-For-Profit Organizations" was amended to:

- eliminate the requirement to treat net assets invested in capital assets as a separate component of net assets and, instead, permit NFPOs to present such an amount as a category of internally restricted net assets when it chooses to do so;

- clarify that revenues and expenses must be recognized and presented on a gross basis when a not-for-profit organization is acting as a principal in transactions; and
- make Handbook Section 1540, "Cash Flow Statements" applicable to NFPOs.

CICA Handbook Section 4430, "Capital Assets Held by Not-For-Profit Organizations" was amended to provide additional guidance with respect to the appropriate use of the scope examination for smaller entities.

CICA Handbook Section 4460, "Disclosure of Related Party Transactions by Not-For-Profit Organizations" was amended to make the language in Handbook Section 4460 consistent with Handbook Section 3840, "Related Party Transactions".

CICA Handbook Section 4470, "Disclosure of Allocated Expenses by Not-For-Profit Organizations" establishes disclosure standards for NFPOs that choose to classify their expenses by function and allocate expenses from one function to another. The main features of the new Section are:

- requirement for an entity that allocates its fundraising and general support expenses to other functions to disclose the policies adopted for the allocation of expenses among functions, the nature of the expenses being allocated and the basis on which such allocations have been made; and
- requirement for an entity to disclose the amounts allocated from each of its fundraising and general support functions and the amounts and functions to which they have been allocated.

These new requirements are effective April 1, 2009 and will only require additional disclosure in the financial statements.

3. FINANCIAL INSTRUMENTS

Financial instruments include cash and cash equivalents, interest receivable, levies receivable, accounts payable and accrued liabilities and recycling support payments payable. The carrying value of the financial instruments approximates fair value.

The CICA Handbook Section 3861, "Financial Instruments – Disclosure and Presentation"requires MPSC to make the following classifications:

- Cash and cash equivalents are classified as held-for-trading and measured at fair value. The gains or losses arising on the revaluation at the end of the year are included in net income (loss);
- Interest receivable and levies receivable are classified as loans and receivables and recorded at cost, which upon their initial measurement is equal to their fair value. Subsequent measurements are recorded at amortized cost using the effective interest rate method; and
- Accounts payable and accrued liabilities, and recycling support payments payable are classified as other financial liabilities and are initially measured at their fair value. Subsequent measurements are recorded at amortized cost using the effective interest rate method.

MPSC has chosen to apply CICA Handbook Section 3861 in place of Handbook Section 3862, "Financial Instruments – Disclosures" and Handbook Section 3863, "Financial Instruments – Presentation".

4. CASH AND CASH EQUIVALENTS

Included in cash and cash equivalents are term deposits held in trust by the Department of Finance of the Province of Manitoba of $857,563 [2008 - $1,083,006]. The term deposits bear interest at 0.70% [2008 - 3.50%] per annum and mature on April 27, 2009.

5. CAPITAL ASSETS

Capital assets consist of the following:

	2009			2008		
	Cost	Accumulated amortization	Net book value	Cost	Accumulated amortization	Net book value
	$	$	$	$	$	$
Furniture and fixtures	**26,405**	**22,985**	**3,420**	26,405	22,131	4,274
Computer hardware	**94,734**	**85,676**	**9,058**	94,734	81,794	12,940
Computer software	**150,447**	**150,447**	—	150,447	149,967	480
	271,586	**259,108**	**12,478**	271,586	253,892	17,694

6. LEASE COMMITMENTS

MPSC rents office space and equipment under various leases with commitments totalling $55,468 for fiscal 2010.

7. CAPITAL MANAGEMENT

Effective April 1, 2008, MPSC adopted the recommendations of CICA Handbook Section 1535, "Capital Disclosures", which requires the disclosure of qualitative and quantitative information that enables the users of the financial statements to evaluate MPSC's objectives, policies and processes for managing capital.

In managing capital, MPSC focuses on liquid resources available for operations. MPSC's objective is to have sufficient liquid resources to continue despite adverse financial events and to provide it with the flexibility to take advantage of opportunities that will advance its purposes. To offset the impact of the wind-up of the operations of MPSC, internally restricted net assets and cash have been designated to meet the obligations of the wind-up of operations. The need for sufficient liquid resources is considered in the preparation of an annual budget and in the monitoring of cash flows and actual operating results compared to the budget. As at March 31, 2009, MPSC has met its objectives of having sufficient liquid resources to meet its current obligations.

MPSC is not subject to externally imposed capital requirements. There were no changes in MPSC's approach to capital management during the year.

SCHEDULE OF ADMINISTRATIVE EXPENSES

Year ended March 31

THE MANITOBA TRADE AND INVESTMENT CORPORATION
MANAGEMENT REPORT

The accompanying financial statements are the responsibility of management and have been prepared in accordance with Canadian generally accepted accounting principles.

To fulfil this responsibility, management maintains internal control systems to provide reasonable assurance that the accounts and records accurately reflect all transactions and that appropriate policies are established and respected.

The statements are examined by the Office of the Auditor General of Manitoba, whose opinion is included herein. The Auditor General has free access to the Board of Directors, with and without management present, to discuss the results of their audit and the quality of financial reporting to the Board.

AUDITORS' REPORT

To the Legislative Assembly of Manitoba, and
To the Board of Directors of Manitoba Trade and Investment Corporation

We have audited the balance sheet of the Manitoba Trade and Investment Corporation as at March 31, 2009, and the statements of income, comprehensive income and retained earnings and cash flows for the year then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Manitoba Trade and Investment Corporation as at March 31, 2009, and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Supplemental cash flow information		
Interest received	$ 12,250	$ 20,612

See accompanying notes to financial statements.

1. Nature of Operations and Economic Dependence

The Manitoba Trade and Investment Corporation (the Corporation) was formed by an Act of the Legislature in 1974. The objectives of the Corporation, as set out in the Act, are to:

- encourage, promote, develop and increase Manitoba exports and trade;
- promote investment in Manitoba; and
- promote international business opportunities for Manitoba businesses and assist Manitoba businesses in promoting those business opportunities.

The Corporation is economically dependent on the Province of Manitoba as all project deficits incurred by the Corporation are recovered from the Province.

2. Significant Accounting Policies

a. General

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles (GAAP).

b. New Accounting Policies

Effective April 1, 2008 the Corporation adopted the following new accounting standards issued by the Canadian Institute of Chartered Accountants (CICA):

Section 1535 Capital Disclosure
Section 1535 establishes standards for disclosing information about an entity's capital and how it is managed. These standards require an entity to disclose its objectives, policies and processes for managing capital, a summary of qualitative data about what it manages as capital and whether it complied with any externally imposed capital requirements to which it is subject and,if not, the consequences of such non-compliance. (Note 8)

Section 3862 Financial Instruments - Disclosure
Section 3862 modifies the disclosure requirements for financial instruments that were included in Section 3861, *Financial Instruments – Disclosure and Presentation.* The new standards require an entity to provide disclosures in its financial statements that enable users to evaluate the significance of financial instruments on its financial position and performance, the nature and extent of the risks to which it is exposed during the period and at the balance sheet date, and how those risks are managed.

Section 3863 Financial Instruments - Presentation
Section 3863 carries forward the presentation requirements of Section 3861, Financial Instruments – Disclosure and Presentation, unchanged.

The above noted new standards have no impact on the recognition, measurement or presentation of financial instruments in the Corporation's yearend financial statements.

c. Financial Instruments and Financial Risk Management

Financial assets and liabilities are initially recorded at fair value. Measurement in subsequent periods depends on the financial instrument's classification. Financial instruments are classified into one of the following five categories: held for trading; available for sale; held to maturity; loans and receivables; and other financial liabilities. All financial instruments classified as held for trading or available for sale are subsequently measured at fair value with any change in fair value recorded in net earnings and other comprehensive income, respectively. All other financial instruments are subsequently measured at amortized cost.

The financial assets and liabilities of the Corporation are classified and measured as follows:

Financial Asset/Liability	Category	Subsequent Measurement
Cash	Held for trading	Fair value
Short-term investment	Held for trading	Fair value
Accounts receivable - Trade	Loans and receivables	Amortized cost
Accounts payable and accrued liabilities	Other financial liabilities	Amortized cost
Operating advances payable	Other financial liabilities	Amortized cost

Amortized cost is determined using the effective interest rate method.

Gains and losses on financial instruments subsequently measured at amortized cost are recognized in the statement of income, comprehensive income and retained earnings in the period the gain or loss occurs. Changes in fair value of financial instruments classified as held for trading are recognized in the statement of income, comprehensive income and retained earnings for the current period. Changes in fair value on financial instruments classified as available for sale would be recorded in the statement of other comprehensive income until realized, at which time they are recorded in the statement of income, comprehensive income and retained earnings.

Fair value of financial instruments

Due to the redeemable nature of cash, carrying value is considered to be fair value.

The fair values of short-term investment, accounts receivable – trade, accounts payable and accrued liabilities, and operating advances payable approximates their carrying values due to their short-term maturity.

The fair values of financial assets and liabilities, together with the carrying amounts shown in the balance sheet are as follows:

	2009		2008	
Financial Asset/liability	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Cash	$333,051	$333,051	$337,790	$337,790
Short-term investment	500,000	500,000	500,000	500,000
Accounts receivable – trade	17,035	17,035	2,731	2,731
Accounts payable and accrued liabilities	12,554	12,554	17,516	17,516
Operating advances payable	$500,000	$500,000	$500,000	$500,000

Financial risk management – overview

The Corporation has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk
  - Interest risk; and
  - Foreign currency risk

The Corporation manages its exposure to risks associated with financial instruments that have the potential to affect its operating performance in accordance with its risk management framework.

Credit risk

Credit risk is the risk that one party to a financial instrument fails to discharge an obligation and causes financial loss to another party. Financial instruments which potentially subject the Corporation to credit risk consist of cash and short-term investment and accounts receivable – trade.

The maximum exposure of the Corporation to credit risk at March 31, 2009 is:

Cash and short-term investment	$833,051
Accounts receivable – trade	17,035
	$850,086

Cash and short-term investment: the Corporation is not exposed to significant risk as the cash and short-term investment are held by the Minister of Finance.

Accounts receivable – trade: the Corporation is not exposed to significant credit risk as trade receivables are typically collected within 30 days. The Corporation does not establish an allowance for doubtful accounts as the potential for any receivable impairment is negligible.

Liquidity risk

Liquidity risk is the risk that the Corporation will not be able to meet its financial obligations as they come due. The Corporation manages liquidity risk by maintaining adequate cash balances through cash management. Accounts payable and accrued liabilities are typically paid when due. In the case of the operating advances payable a matching short-term investment exists should a demand for repayment occur.

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Corporation's income or the fair value of its financial instruments. The significant market risks the Corporation is exposed to are interest rate risk and foreign currency risk.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The interest rate exposure relates to short term investments and operating advances payable.

The interest rate risk on the short-term investment is low because of its short-term nature.

The interest rate risk on operating advances payable is nil because it is non-interest bearing.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Corporation is not exposed to significant foreign currency risk as it does not have any financial instruments denominated in foreign currency.

d. Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingencies at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

e. Revenue Recognition

Participation fees are recognized as revenue in the same period that the shows, seminars and projects sponsored by the Corporation are actually held. Fees received in advance of event days are reflected as deferred revenue.

f. Contributed Services

During the year, the Province of Manitoba provided office space and other administrative services to the Corporation at nil cost. Because of the difficulty of estimating the fair value of such expenses, no contributed services are recognized in the financial statements.

3. Short-term Investment

Funds available for investment are invested with the Province of Manitoba. A term deposit for the principal amount of $500,000 will mature on March 31, 2010 with an interest rate of 0.55%.

4. Operating Advances Payable

The Corporation has $500,000 in non-interest bearing working capital advances from the Province of Manitoba. The advances are payable on demand.

5. Salaries / Benefits and related Recoveries

Up to January 18, 2008 the Corporation employed a number of staff, and recovered the associated salaries and benefits costs , from the Department of Competitiveness , Training and Trade. Effective January 19, 2008, all the Corporation's employees were transferred to the Department of Competitiveness, Training and Trade, and are no longer employees of the Corporation.

6. Related Party Transactions

The Corporation is related in terms of common ownership to all departments, Crown organizations and government enterprises created by the Province of Manitoba. The Corporation enters into transactions with these entities in the normal course of business. The Corporation records these transactions at the exchange amount, which is the amount, agreed upon by both parties.

During the year, the Corporation's transactions with related entities were as follows:

Participation Fees	$ 6,000
Interest Revenue	$12,250

7. Deferred Revenue

Deferred revenue represents fees received in advance of event days for specific trade projects. Changes in the deferred balance are as follows:

	2009 $	2008 $
Balance, beginning of year	-	16,850
Less amount recognized as revenue in the year	-	(16,850)
Add amounts received and deferred during the year	(2,599)	-
Balance, end of year	(2,599)	-

8. Capital Management

The Corporation's objective when managing capital is to maintain sufficient capital to cover its costs of operations. Capital consists of retained earnings in the amount of $334,933. (2008 - $323,005). The Corporation is not subject to any externally imposed capital requirements. There have been no changes in the Corporation's approach to capital management during the period.

9. Public Sector Compensation Disclosure

The Public Sector Compensation Disclosure Act requires disclosure of the aggregate compensation paid to the Corporation's Board members and of individual compensation paid to Board members or staff, where such compensation is $50,000 or more per year.

In 2008/09, there was no compensation paid to Board members. The Corporation no longer has employees as of January 19, 2008.

The Manitoba Water Services Board

Exhibit C

Statement of Cash Flows

as at March 31, 2009, with comparative figures for 2008

	2009	2008
Cash provided by (used for):		
Operating activities		
Excess of operating revenues over expenses	$ 506,662	$ 359,302
Change in accounts receivable	(431,518)	(1,836,474)
Change in prepaid supplies	15,820	(3,299)
Change in accounts payable and accrued charges	2,544,673	(1,451,782)
Change in accrued interest	11,715	24,857
Cash provided by (used for) operating activities	2,647,352	(2,907,396)
Financing activities		
Advances received	11,600,000	9,900,000
Advances repaid	(13,500,000)	(13,903,909)
Cash provided by (used for) financing activities	(1,900,000)	(4,003,909)
Investing activities		
New construction costs	(38,807,137)	(29,232,547)
Funding recovered from:		
Province of Manitoba	11,671,029	13,326,270
Municipalities	27,548,488	23,122,162
Decrease in construction in progress	412,380	7,215,885
Plant surplus transferred to municipalities on disposition	319,600	24,849
Cash provided by (used for) investing activities	731,980	7,240,734
Increase in cash	1,479,332	329,429
Cash, beginning of the year	921,536	592,107
Cash, end of the year	$ 2,400,868	$ 921,536

Interest paid during the year ended March 31, 2009 amounted to $164,450 (2008 - $491,087)

1. NATURE OF ORGANIZATION

The Manitoba Water Services Board (Board) was established in July 1972 under *The Manitoba Water Services Board Act* to assist in the provision of water and sewage facilities to the residents of rural Manitoba. The Board assists municipalities with the development of sustainable water and wastewater works, including; water supply, treatment, storage and distribution; collection and treatment of sewage; the disposal of treated effluent and waste sludge in an environmentally sustainable manner and the provision of drought resistant, safe water supplies to rural residents for domestic and livestock needs.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of accounting

The financial statements have been prepared using Canadian generally accepted accounting principles (GAAP). Operating results of all water supply plants operated by the Board are reflected on an aggregate basis in the statement of Operating Revenue and Expenses. Separate equity accounts are maintained for each plant operated by the Board (Note 7).

(b) New Accounting Policies Adopted

Effective April 1, 2008, the Board adopted the following new handbook sections issued by the Canadian Institute of Chartered Accountants (CICA):

Section 1535, Capital Disclosure

Section 1535 establishes standards for disclosing information about an entity's capital and how it is managed. These standards require an entity to disclose its objectives, policies and processes for managing capital, a summary of quantitative data about what it manages as capital and whether it complied with any externally imposed capital requirements to which it is subject and, if not, the consequences of such non-compliance. (Note 4)

Section 3862, Financial Instruments - Disclosure

Section 3862 modifies the disclosure requirements for financial instruments that were included in Section 3861, *Financial Instruments - Disclosure and Presentation.* The new standards require an entity to provide disclosures in its financial statements that enable users to evaluate the significance of financial instruments on its financial position and performance, the nature and extent of the risks to which it is exposed during the period and at the balance sheet date, and how those risks are managed.

Section 3863, Financial Instruments - Presentation

Section 3863 carries forward the presentation requirements of Section 3861, *Financial Instruments - Disclosure and Presentation,* unchanged.

The above noted new standards have no impact on the recognition, measurement or presentation of financial instruments in the Board's yearend financial statements.

Section 1400, General Standards of Financial Statement Presentation

Section 1400 has been amended to include requirements to assess and disclose an entity's ability to continue as a going concern. This amendment is effective for interim and annual financial statements beginning on or after January 1, 2008. The adoption of these changes have no impact on the Board's financial statements.

SIGNIFICANT ACCOUNTING POLICIES (continued)

(c) Capital assets

Capital assets represent water supply plants owned by the Board. They are recorded at cost and amortization is calculated on a straight-line basis over the following terms:

Plants constructed prior to January 1, 1972	equipment	18 years
	buildings	35 years
Plants constructed after January 1, 1972	equipment	20 years
	buildings	20 years

Capital assets which are constructed by the Board are recorded as Construction in Progress until the Capital asset is put into use and ownership is transferred to the appropriate municipality. Financing costs are included in the Construction in Progress amounts.

(d) Revenue recognition

Revenue from sale of water is recognized in the period when consumed by the town or municipality.

(e) Administrative expenses paid by the Province of Manitoba

Administrative expenses are paid by the Province of Manitoba on behalf of the Board and recorded at the exchange amount agreed to by the related parties in the financial statements.

(f) Pension costs and obligations

The Board's employees are eligible for membership in the provincially-operated Civil Service Superannuation Plan. The pension liability for Board employees is included in the Province of Manitoba's liability for the Civil Service Superannuation Fund. Accordingly, no provision is recorded in the financial statements related to the effects of participation in the pension plan by the Board and its employees.

3. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

(a) Financial assets and liabilities are initially recorded at fair value. Measurement in subsequent periods depends on the financial instrument's classification. Financial instruments are classified into one of the following five categories: held for trading; available for sale; held to maturity; loans and receivables; and other financial liabilities. All financial instruments classified as held for trading or available for sale are subsequently measured at fair value with any change in fair value recorded in net earnings and other comprehensive income, respectively. All other financial instruments are subsequently measured at amortized cost.

The financial assets and liabilities of the Board are classified and measured as follows:

Financial Asset/Liability	Category	Subsequent Measurement
Cash	Held for trading	Fair value
Accounts receivable	Loans and receivables	Amortized cost
Accrued Interest	Loans and receivables	Amortized cost
Accounts payable and accrued charges	Other financial liabilities	Amortized cost
Advances from Province of Manitoba	Other financial liabilities	Amortized cost

Amortized cost is determined using the effective interest rate method.

FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (continued)

Gains and losses on financial instruments subsequently measured at amortized cost are recognized in the statement of operating revenues and expenses in the period the gain or loss occurs. Changes in fair value on financial instruments classified as held for trading are recognized in the statement of operating revenues and expenses for the current period. Changes in fair value on financial instruments classified as available for sale are recorded in a statement of other comprehensive income until realized, at which time they are recorded in the statement of operating revenues and expenses.

(b) **Fair value of financial instruments**

Due to the redeemable nature of cash its carrying value is considered to be fair value.

The fair values of accounts receivable, accrued interest, accounts payable and accrued charges, and advances from the Province of Manitoba payable on demand approximates their carrying values due to their short-term maturity.

The Board does not establish an allowance for doubtful accounts as the potential for any receivables impairment is negligible.

The aging of accounts receivable as at March 31, 2009 was:

Current	$4,659,695
30-60 days past billing date	$1,297,578
Balance	$5,957,273

(c) **Financial risk management - overview**

The Board has exposure to the following risks from its use of financial instruments:

- credit risk;
- liquidity risk;
- interest rate risk; and
- foreign currency risk

The Board manages its exposure to risks associated with financial instruments that have the potential to affect its operating performance. The Board's Directors have the overall responsibility for the establishment and oversight of the Board's objectives, policies and procedures for measuring, monitoring and managing these risks.

The Board has exposure to the following risks associated with its financial instruments:

Credit risk

Credit risk is the risk that one party to a financial instrument fails to discharge an obligation and causes financial loss to another party. Financial instruments which potentially subject the Board to credit risk consist principally of cash, accounts receivable and accrued interest.

The maximum exposure of the Board's credit risk at March 31, 2009 is:

Cash	$2,400,868
Accounts receivable	$5,957,273
Accrued interest	$ 4,719
	$8,362,860

FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (continued)

Cash: The Board is not exposed to significant credit risk as the cash is primarily held with a large reputable financial institution.

Accounts receivable: The Board is not exposed to significant credit risk as the receivables are with Municipal and other government entities and payment in full is typically collected when it is due. Credit evaluations are done for each Rural Municipality

Accrued Interest: The Board is not exposed to significant credit risk as the accrued interest relates to three receivables with municipalities/towns for ongoing construction and payment is anticipated at the completion of the work.

Liquidity risk

Liquidity risk is the risk that the Board will not be able to meet its financial obligations as they come due.
The Board manages liquidity risk by maintaining adequate cash balances and by appropriately utilizing working capital advances as required. The Board prepares and monitors detailed forecasts of cash flows from operations and anticipated investing and financing activities. Identified capital supply requirements are reviewed and approved by the Minister of Finance to ensure adequate funding will be available to meet the Board's obligations utilizing bridge financing through *The Loan Act*. The Board continuously monitors and reviews both actual and forecasted cash flows through periodic financial reporting.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The interest rate exposure relates to cash, accounts receivable, accrued interest, accounts payable and accrued charges, and advances from the Province of Manitoba.

The interest rate risk on the above exposures is considered to be low because of their short-term nature.

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instruments will fluctuate because of changes in foreign exchange rates. The Board is not exposed to significant foreign currency risk as it does not have financial instruments denominated in foreign currency.

4. CAPITAL MANAGEMENT

The Board's objective when managing capital is to maintain sufficient capital to cover its costs of operation. The Board's capital consists of funds retained (deficit) provided from operations ($401,907) [2008 ($1,228,169)] and interest adjustment fund account $100,000 [2008 - $100,000] allocated from retained earnings.

The Board's capital management policy is to: maintain sufficient capital to meet its objectives through its funds retained (deficit); meet short-term capital needs with working capital advances from the Province of Manitoba through *The Loan Act;* and meet long-term capital needs through long-term debt with the Province of Manitoba. Presently there is no long term debt.

The Board is subject to externally imposed capital requirements relating to the administration of the Board in accordance with The Manitoba Water Services Board Act and accompanying regulations.

There have been no changes in the Board's approach to capital management during this period.

5. CONSTRUCTION IN PROGRESS

	2009	2008
Balance, beginning of year	$ 1,599,544	$ 8,815,429
New construction costs	38,807,137	29,232,547
	40,406,681	38,047,976
Funding recovered from:		
Municipalities	27,548,488	23,122,162
Province of Manitoba	11,671,029	13,326,270
	39,219,517	36,448,432
Balance, end of year	1,187,164	1,599,544
Less: current portion	55,781	574,389
Long-term Construction in Progress	$ 1,131,383	$ 1,025,155

6. PROPERTY PLANT AND EQUIPMENT

	2009	2008
Land and easements	$ 13,304	$ 13,304
Buildings	645,771	645,771
Less: accumulated amortization	645,771	645,771
	-	-
Equipment	189,970	189,970
Less: accumulated amortization	189,970	189,970
Total property plant and equipment	$ 13,304	$ 13,304

7. FUNDS RETAINED (DEFICIT)

Funds retained (deficit) consist of accumulated excess revenues over expenses pertaining to the water supply plants owned and operated by the Board for the benefit of municipalities and pertaining to plants operated by the Board under agreements with municipalities. Separate equity accounts are maintained for each plant operated by the Board. Municipalities are responsible for any deficit balances and are given credit for surplus balances whenever plant operating responsibilities are transferred to the municipalities.

Funds retained (deficit) also include the gain on the sale of the Red River Regional Water Supply System of $31,759.

	No.	2009 Amount	No.	2008 Amount
Plants owned by the Board				
Plants with a deficit	6	$ (952,292)	5	$ (1,516,821)
Plants with a surplus	2	518,626	3	256,893
Total funds retained (deficit), water supply plants	8	$ (433,666)	8	$ (1,259,928)
Other Funds Retained		$ 31,759		$ 31,759
Total funds retained (deficit)		$ (401,907)		$ (1,228,169)

During 2008/2009 disposition of funds includes capital works approved by the Board for the Baldur Water Treatment Plant, the Winnipegosis Water Treatment Plant, and a contingency fund and additional service connections for the Cartier Regional Water System.

The Manitoba Water Services Board

Notes to Financial Statements

for the year ended March 31, 2009

8. INTEREST ADJUSTMENT FUND ACCOUNT

The Board allocates interest costs to construction projects and to the operations of water supply plants at a rate comparable to the Board's cost of borrowing. The interest allocated and the actual net interest cost incurred by the Board are recorded in the Interest Adjustment Fund Account. Board policy is to maintain a balance of $100,000 in the Interest Adjustment Fund Account to absorb any shortfall in the allocation of actual net interest costs for the year. Interest costs were fully allocated for both the current and the preceding year.

9. ADMINISTRATIVE EXPENSES PAID BY THE PROVINCE OF MANITOBA

Administrative expenses paid by the Province of Manitoba and included in expenses are as follows:

	2009	2008
Professional services	$ 8,868	$ 13,856
Salaries and benefits	1,747,272	1,610,166
Telephone and utilities	17,471	14,083
Travel	4,100	4,630
Rental for office premises	153,780	156,117
Other administrative	88,949	83,063
	$ 2,020,440	$ 1,881,915

10. COMMITMENTS

10. COMMITMENTS	2009	2008
The Board has commitments as follows:		
Signed agreements and offers for construction of sewer and water systems for municipalities and cooperatives.	$ 45,291,000	$ 41,366,800
These commitments are expected to be funded as follows:		
Subsidization of construction costs - Province of Manitoba	$ 20,265,900	$ 18,725,800
Recovery of construction costs - Municipalities and Cooperatives	25,025,100	22,941,000
	$ 45,291,000	$ 41,666,800

11. CONTINGENCIES

The Board is involved in legal proceedings arising in the normal course of business, the outcome of which cannot be predicted at this time. In the opinion of management, the disposition of these cases will not materially affect the financial position of the Board. Any settlement will be recognized in the year the settlement occurs.

12. RELATED PARTY TRANSACTIONS

The Board is related in terms of common ownership to all Province of Manitoba created Departments, Agencies and Crown Corporations. The Board enters into transactions in the normal course of operations and they are measured at the exchange amount which is the amount of consideration established and agreed to by the related parties.

13. USE OF ESTIMATES

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

14. ECONOMIC DEPENDENCY

The Board is economically dependent on the Province of Manitoba.

15. SUBSEQUENT EVENT

Subsequent to year-end, a tentative settlement has been reached, dated July 29, 2009, in favour of the Board and other parties, in relation to construction and design deficiencies with respect to an upgrade at a sewage treatment facility. A Statement of Claim was filed in October 2000. All formal agreement and releases are proceeding between the parties.

16. UNFIXED ADVANCES FROM THE PROVINCE OF MANITOBA

The Board finances construction in progress by borrowing advances from the Province through *The Loan Act*. The Board pays interest on these unfixed advances. Interest payable is set at Prime less 0.75%. During 2008/2009 the rate of interest charged was between 2.25% - 4.75% on a quarterly basis. These advances are repaid once funding is received from the municipalities and cooperatives and the Province for their share of the eligible project costs.

As at March 31, 2009, the Province had unused authority of $35,462,500 under *The Loan Act, 2008* to provide future financing to the Board for construction of municipal sewer and water facilities on behalf of municipalities and cooperatives.

To the directors of Metis Child and Family Services Authority

Management is responsible for the preparation and presentation of the accompanying financial statements, including responsibility for significant accounting judgments and estimates in accordance with Canadian generally accepted accounting principles and ensuring that all information in the annual report is consistent with the statements. This responsibility includes selecting appropriate accounting principles and methods, and making decisions affecting the measurement of transactions in which objective judgment is required.

In discharging its responsibilities for the integrity and fairness of the financial statements, management designs and maintains the necessary accounting systems and related internal controls to provide reasonable assurance that transactions are authorized, assets are safeguarded and financial records are properly maintained to provide reliable information for the preparation of financial statements.

The Board of Directors are composed entirely of Directors who are neither management nor employees of the Company. The Board is responsible for overseeing management in the performance of its financial reporting responsibilities, and for approving the financial information included in the annual report. The Board fulfils these responsibilities by reviewing the financial information prepared by management and discussing relevant matters with management and external auditors. The Board is also responsible for recommending the appointment of the Company's external auditors.

Meyers Norris Penny LLP, an independent firm of Chartered Accountants, is appointed by the directors to audit the financial statements and report directly to them; their report follows. The external auditors have full and free access to, and meet periodically and separately with, both the Board and management to discuss their audit findings.

July 9, 2009

Leilani Bushau
Acting Chief Executive Officer

Auditors' Report

To the Directors of Metis Child and Family Services Authority:

We have audited the statement of financial position of Metis Child and Family Services Authority as at March 31, 2009 and the statements of combined programs and changes in net assets and cash flows for the year then ended. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Authority as at March 31, 2009 and the results of its operations for the year then ended in accordance with Canadian generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental information presented in the schedules are presented for the purpose of additional analysis and are not a required part of the basic financial statements. Such supplemental information has been subjected to auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

CASH, End of Year	1,182,131	249,084

1. **Purpose of the Organization**

The Metis Child and Family Services Authority ("Authority") was established under section (4)c of the Child and Family Services Authority Act which was proclaimed into law on November 24, 2003

The Metis Child and Family Services Authority ("Authority") is a Corporation without share capital. The Board of Directors of the Authority is appointed by the Board of Directors of the Manitoba Metis Federation Inc. (Federation). The Authority is responsible for administration and provision of child and family services to Metis and Inuit people. The Authority is non-taxable pursuant to paragraph 149(1)1 of the Income Tax Act.

2. **Significant accounting policies**

The financial statements have been prepared in accordance with Canadian generally accepted accounting principles, and include the following significant accounting policies

Basis of Preparation

The Manitoba Metis Federation Inc. appoints the Board of Directors of the Authority. The Authority mandates the Metis Child, Family and Community Services Agency Inc. (Agency). Separate audited financial statements are prepared for the Authority and the Agency.

The Agency has not been consolidated into the Authority's financial statements as the Agency appoints its own board of directors.

Use of Estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and reported amounts of revenues and expenses during the period. Accounts receivable are stated after evaluation as to their collectability and an appropriate allowance for doubtful accounts is provided where considered necessary. Amortization of capital assets is based on the estimated useful lives of the capital assets.

Capital Assets

Capital assets which are funded by the Province of Manitoba are recorded at cost in the statement of financial position and the related grant funding is recorded as deferred contributions related to capital assets.

The capital assets and the deferred contributions related to capital assets are amortized on the same basis in accordance with the estimated useful lives of the assets.

Capital assets which are not funded by the Province of Manitoba are capitalized at cost and are amortized over the estimated useful lives of the assets.

Capital assets are amortized on a straight-line basis as follows

Office furniture and equipment	5 years
Computer equipment	5 years

Long-lived assets

Long-lived assets consist of capital assets. Long-lived assets held for use are measured and amortized as described in the applicable accounting policies.

The Authority performs impairment testing on long-lived assets held for use whenever events or changes in circumstances indicate that the carrying value of an asset, or group of assets, may not be recoverable. Impairment is measured as the amount by which the asset's carrying value exceeds its fair value. Any impairment is included in earnings loss for the year

2. **Significant accounting policies** *(Continued from previous page)*

Recognition of Revenues

The Authority follows the deferral method of accounting for contributions, which include government grants and donations.

Unrestricted contributions and program grants are recognized as revenues when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Externally restricted contributions and grants are recognized as revenue in the year in which the related expenses are recognized.

Recent accounting pronouncements

Financial instruments deferral of section 3862 and 3863

In December 2006, the Canadian Institute of Chartered Accountants (CICA) issued Section 3862 Financial Instruments – Disclosures and Section 3863 Financial Instruments – Presentation to replace Section 3861 Financial Instruments – Disclosure and Presentation. The effective date for these new Sections was for interim and annual financial statements with fiscal years beginning on or after October 1, 2007, with earlier adoption permitted. However, in light of the uncertainty regarding the future direction in setting standards for not-for-profit organizations, the CICA released a decision to allow deferral of Sections 3862 and 3863 for this sector. Not-for-profit organizations should continue to apply Section 3861 until interim and annual financial statements with fiscal years beginning on or after October 1, 2008.

Financial statement presentation by not-for-profit organizations

In September 2008, amendments were made to CICA Handbook Section 4400 *Financial Statement Presentation by Not-for-profit Organizations*. Amendments to the section included removal of the requirement to treat net assets invested in capital assets as a separate component of net assets, and, instead, permitting such an amount to be presented as a category of internally restricted net assets. In addition, the requirement to recognize and present revenues and expenses on a gross basis when a not-for-profit organization is acting as a principal in the transaction was clarified. Finally, guidance was included to reflect that Section 1540 Cash Flow Statements and Section 1751 Interim Financial Statements are applicable to not-for-profit organizations.

This amendment applies to interim and annual financial statements relating to fiscal years beginning on or after January 1, 2009. The Authority does not expect the change to this standard to have a material impact on its financial statements.

Capital assets held by not-for-profit organizations

CICA Handbook Section 4430 *Capital Assets Held by Not-for-profit Organizations* has been amended to provide additional guidance with respect to the appropriate use of the scope exemption for smaller entities that expense their capital assets. It was clarified that the exemption does not allow not-for-profit organizations to capitalize but not amortize their capital assets, nor does it allow different methods of accounting for various types of capital assets.

This amendment applies to interim and annual financial statements relating to fiscal years beginning on or after January 1, 2009. The Authority does not expect the change to this standard to have a material impact on its financial statements.

Disclosure of allocated expenses by non-for-profit organizations

In September 2008, the Canadian Institute of Chartered Accountants issued new recommendations for disclosures regarding allocated expenses by not-for-profit organizations. CICA Handbook Section 4470 *Disclosure of Allocated Expenses by Not-for-profit Organizations* requires disclosure by not-for-profit organizations that allocate fundraising and general support expenses to other functions of the policies adopted for the allocation of such expenses among functions, the nature of the allocated expenses, and the basis on which allocations are made. The section also requires disclosure of the amounts allocated from each of its fundraising and general support functions and the amounts and functions to which they have been allocated.

This amendment applies to interim and annual financial statements relating to fiscal years beginning on or after January 1, 2009. The Authority does not expect the change to this standard to have a material impact on its financial statements.

2. **Significant accounting policies** *(Continued from previous page)*

Financial instruments

The Authority as part of its operations carries a number of financial instruments. It is management's opinion that the Authority is not exposed to significant interest, currency, or credit risks arising from these financial instruments.

Classification of financial instruments

The Authority has classified cash as held for trading. These instruments are initially recognized at their fair value. Fair value is approximated by the instrument's initial cost in a transaction between unrelated parties.

Held for trading financial instruments are subsequently measured at their fair value. Net gains and losses arising from changes in fair value include interest and are recognized immediately in income.

The Authority has classified accounts receivable and amount due from the Metis Child, Family and Community Services Agency Inc. as loans and receivables. These assets are initially recognized at their fair value. Fair value is approximated by the instrument's initial cost in a transaction between unrelated parties.

Loans and receivables are subsequently measured at their amortized cost. Amortized cost is the amount at which the financial asset is measured at initial recognition less any reduction for impairment or uncollectibility. Net gains and losses arising from changes in fair value are recognized in net income upon impairment.

The Authority has classified accounts payable and accrued liabilities, due to Manitoba Metis Federation Inc., due to Metis Child Family and Community Services Agency Inc. and due to Province of Manitoba as other financial liabilities. These liabilities are initially recognized at their fair value. Fair value is approximated by the instrument's initial cost in a transaction between unrelated parties.

Other financial liabilities are subsequently measured at amortized cost. Amortized cost is the amount at which the financial liability is measured at initial recognition less repayments. Net gains and losses arising from changes in fair value are recognized in net income upon derecognition.

3. **Economic Dependence**

The Authority received the majority of its revenues from the Province of Manitoba and is economically dependent on continued Province of Manitoba revenues to fund future operations and programs.

4. **Related Party Transactions**

The Authority rents office space from the Manitoba Metis Federation Inc. as disclosed in Note 5. Manitoba Metis Federation Inc. is related by virtue of its appointment of the Board of Directors of the Authority.

5. **Commitments**

The Authority has leased office space from the Manitoba Metis Federation Inc. The term of this lease is for five years with one five year renewal term.

The following is a schedule of minimum lease payments:

Year ending March 31, 2010	159,483
Year ending March 31, 2011	159,483
Year ending March 31, 2012	159,483

6 Accounts Receivable

	2009	*2008*
Province of Manitoba	3,916,529	3,836,767
Metis Child, Family and Community Services Agency Inc.	-	33,483
Goods and Services Tax	5,012	3,475
Other Receivables	4,415	118,480
	3,925,956	3,992,205
Less: Allowance for Doubtful Accounts	(1,676)	(2,083)
	3,924,280	3,990,122

7. Capital assets

	Cost	*Accumulated amortization*	*2009 Net book value*	*2008 Net book value*
Office Furniture and Equipment	30,689	7,233	23,456	4,823
Computer Equipment	107,972	40,105	67,867	62,401
	138,661	47,338	91,323	67,224

8. Amount Due to Province of Manitoba/Due From Metis Child, Family and Community Services Agency Inc.

The Province of Manitoba has advanced the Authority a non-interest bearing working capital loan of $2,967,500, which in turn was advanced by the Authority to the Agency as a non-interest bearing working capital loan. The advance is repayable by the Authority to the Province of Manitoba if the Authority's operations cease. The amount due from the Agency has no fixed terms of repayment.

9. Due to Manitoba Metis Federation Inc.

Amounts owing are unsecured, non-interest bearing and due upon demand. Manitoba Metis Federation Inc. is related by virtue of its appointment of the Board of Directors of the Authority.

10. Deferred Contributions

	2009	*2008*
Balance, Beginning of Year	120,664	95,791
Core Contributions Received	100,000	93,619

Office of the Child and Family Services Standing Committee Contributions Received	516,678	-
Office of the Child ant Family Services Standing Committee Revenue Recognized	(151,962)	-
Transition Revenue Recognized	-	(47,579)
Balance, End of Year	462,420	120,664

11. Deferred Contributions Related to Capital Assets

	2009	*2008*
Balance, Beginning of Year	67,224	28,669
Contributions Received	46,193	50,534
Amortization of Deferred Contributions	(22,093)	(11,979)
Balance, End of Year	91,323	67,224

12. Capital management

The Authority's objectives when managing capital are to safeguard the Authority's ability to continue as a going concern, so that it can continue with the improvement of the financial situation of families through the provision of services and information on a range of financial issues.

The Authority sets the amount of capital in proportion to risk and manages the capital structure and makes adjustments to it in light of changes to economic conditions and the risk characteristics of the underlying assets.

The Authority monitors capital quarterly through Board of Directors meetings. During the year, the Authority's strategy is to protect the capital through managing revenues and expenses as well as through maintaining a balanced investment portfolio. The strategy remained unchanged from prior year.

NOTICE TO READER

VOLUME 4 – SECTION 2

Volume 4 – Section 2 contains the audited financial statements for public school divisions. These financial statements have been condensed to reflect only audited financial statements, notes and the schedule of tangible capital assets. The complete audited financial statements for public school divisions include a number of additional schedules that are required for management purposes, which have not been reproduced in this volume. Consequently, they cannot be expected to provide as complete an understanding as provided by the full financial statements, which can be obtained from the respective school division.

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Beautiful Plains School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note # 3 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by Meyers Norris Penny LLP, independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

MEYERS NORRIS PENNY LLP

AUDITOR'S REPORT

(In accordance with subsection 41(11) of the Public Schools Act)

To the Board of Trustees
Beautiful Plains School Division

We have audited the consolidated statement of financial position of the Beautiful Plains School Division as at June 30, 2008 and the consolidated statements of revenue, expenses, and accumulated surplus, change in net debt and cash flow for the year then ended. These consolidated financial statements are the responsibility of the Division's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly in all material respects, the financial position of the School Division as at June 30, 2008 and the results of its operations and cash flow for that fiscal year in accordance with Canadian generally accepted accounting principles.

Further, in our opinion, the other statements and reports, when considered in relation to the aforementioned financial statements, present fairly the supplemental information shown.

Meyers Norris Penny LLP
AUDITOR

Brandon, Manitoba
September 18, 2008

I hereby certify that this report and the statements and reports referenced herein have been presented to the members of the board of the above-mentioned School Division.

* Includes network infrastructure.

1. Nature of Organization and Economic Dependence

The Beautiful Plains School Division is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax and is a registered charity under the Income Tax Act.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. As well, a significant portion of local property taxation is required to maintain educational services. The Division would not be able to continue operations if either of these sources of funding were lost.

2. Comparative Figures

The Division adopted Public Sector Accounting Board (PSAB) standards during the 2006/07 fiscal year. The standards have been applied retroactively with a cumulative adjustment to the opening accumulated surplus presented as a restatement on the Statement of Revenue, Expenses and Accumulated Surplus in the 2006/07 year. Previous to the 2006/07 year Financial Statements were presented in accordance with FRAME, the prescribed method of accounting that the Division followed prior to implementation of PSAB.

3. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

a) Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds and funds held in the Division's Registered Charity. All inter-fund accounts and transactions are eliminated upon consolidation.

b) Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

c) Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable operations held by the Division.

d) School Generated Funds

School generated funds are monies raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

e) Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life (years)
Land Improvements	25,000	10
Buildings - bricks, mortar and steel	25,000	40
Buildings - wood frame	25,000	25
School buses	20,000	10
Vehicles	10,000	5
Equipment	5,000	5
Network Infrastructure	25,000	10
Computer Hardware, Servers & Peripherals	5,000	4
Computer Software	10,000	4
Furniture & Fixtures	5,000	10
Leasehold Improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, donated capital assets and capital leases, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency.

All tangible capital assets, except for land, capital leases, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized. One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

f) Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

However, the Division provides a defined contribution pension plan to all eligible non teachers in the Division. There is no future liability or benefit to be recorded for this type of pension plan. The Division participates in the MAST (Manitoba Association of School Trustees) Pension Plan. The terms and conditions of this pension plan are administered by a provincial committee consisting of school trustees, employee and division management representatives. The Division participates in the plan by virtue of a trust agreement. Participating employees in the plan generally contribute from 4.7% to 6.7% (dependant on age) of earnings to the plan. The Division matches this contribution and remits both contributions monthly.

g) Capital Reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position. The Division has a reserve for school bus purchases in the amount of $ 122,964.

h) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

i) Financial instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

4. Conversion to PSAB

Commencing with the 2006/07 fiscal year, the Board has adopted generally accepted accounting principles established by PSAB.

The following changes have been implemented to comply with the PSAB standard:

(i) Tangible capital assets were restated and amortized over their useful lives to reflect net book value. Amortization of tangible capital assets and gain or loss on disposal of capital assets are recorded in the Statement of Revenue, Expenses and Accumulated Surplus.

(ii) The Operating Fund, Capital Fund and Special Purpose Fund are consolidated in the financial statements. The Special Purpose Fund was created to include school generated funds and charitable donation funds held by the Division.

(iii)The Employee Future Benefits Liability was established to account for the Division's commitment to pay vested future benefits to its employees.

(iv)Accrued Interest Payable was established to account for accrual of interest on Debenture Debt and Other Borrowings from the last payment date. An equal amount is set up as due from the Province to offset the accrued interest payable on debenture.

5. Overdraft

The Division has an operating $ 3,200,000 line of credit with the Beautiful Plains Credit Union by way of overdraft. (By-Law # 244) The operating fund is in an overdraft position due to the timing of property taxation. The Division does not receive any 2008 property taxation until November each year.

In addition, a capital projects $2,500,000 line of credit with the Beautiful Plains Credit Union has also been established. The purpose of the capital projects line of credit is to provide short term financing for the Public Schools Finance Board approved Carberry Collegiate School Construction project. Debentures will be issued to finance the project for the long term.

6. Deferred Revenue

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The Division has a Scholarship Fund which is included in Other Special Purpose Funds below. The following is a breakdown of the account balance:

	Balance as at June 30, 2007	Additions in the period	Revenue recognized in the period	Balance as at June 30, 2008
Community Foundation Donations	$ 750	$ 500	$ 750	$ 500
Payment for Future Copier Lease	-	6,658	-	6,658
Education Property Tax Credits (Fall)	514,760	586,890	514,760	586,890
Carb. Child Care Coop - Capital Pymts.	-	70,249	-	70,249
Charitable Scholarship Fund	73,741	13,894	13,831	73,804
	$ 589,251	$ 678,191	$ 529,341	$ 738,101

7. School Generated Funds Liability & Revenue/Expense Presentation

School Generated Funds Liability includes the non-controlled portion of school generated funds consolidated in the cash and bank balances in the amount of $43,953.

School generated funds revenue and expenses reported in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus as at June 30, 2008 covers a period of twelve months from April 1, 2007 to March 31, 2008.

8. Debenture Debt

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly installments and maturing at various dates from 2009 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba. The debentures carry interest rates that range from 5% to 12.125%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The debenture principal and interest repayments in the next five years are:

	Principal	Interest	Total
2009	$ 966,697	$ 1,167,315	$ 2,134,012
2010	1,026,800	1,099,109	2,125,909
2011	1,083,334	1,026,551	2,109,885
2012	978,840	950,059	1,928,899
2013	1,040,433	888,466	1,928,899
	$ 5,096,104	$ 5,131,500	$ 10,227,604

9. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008
Operating Fund	
Designated Surplus	-
Undesignated Surplus	405,837
	405,837
Capital Fund	
Reserve Accounts	122,964
Equity in Tangible Capital Assets	1,582,555
	1,705,519
Special Purpose Fund	
School Generated Funds	140,587
Other Special Purpose Funds	-
	140,587
Total Accumulated Surplus	$ 2,251,943

Reserve Accounts under the Capital Fund represent internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. A Schedule of Capital Reserve Accounts is provided on page 24 of the audited financial statements.

	2008
School bus reserve	122,964
Other reserves	-
Capital Reserve	$ 122,964

10. Municipal Government – Property Tax and related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense statement is raised over the two calendar (tax) years; 48% from 2007 tax year and 52% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue-Municipal Government-Property Tax	$ 4,549,443	$ 4,531,070
Receivable-Due from Municipal-Property Tax	$ 2,328,202	$ 2,305,463

11. Interest Received and Paid

The Division received interest during the year of $ 26,844 (previous year $ 23,451). Interest expense is included in Fiscal and is comprised of the following:

	2008
Operating Fund	
Fiscal-short term loan, interest and bank charges	$ 21,048
Capital Fund	
Debenture debt interest	1,002,764
Other interest	2,958
	$ 1,026,770

The accrual portion of debenture debt interest expense of $ 569,998 included under the Capital Fund-Debenture debt interest is offset by an accrual of the debt servicing grant from the Province of Manitoba.

12. Expenses by Object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	$ 9,562,325	$ 9,550,423	$ 9,148,163
Employees benefits & allowances	654,144	656,902	637,753
Services	1,159,458	1,176,211	1,071,100
Supplies, materials & minor equipment	1,066,360	981,271	995,532
Interest	1,026,770	891,137	1,238,999
Transfers (Other than Capital)	38,252	39,426	51,095
Payroll tax	205,910	202,000	197,704
Amortization	926,519	-	832,876
Other capital items	3,309	-	52,981
School generated funds	329,307	-	271,392
Other special purpose funds	13,831	-	13,610
	$ 14,986,185	$ 13,497,370	$ 14,511,205

BORDER LAND
SCHOOL DIVISION

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Border Land School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with Canadian generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 2 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by BDO Dunwoody LLP, independent external auditors, appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

Auditors' Report

To the Chairperson and Board of Trustees of
Border Land School Division

We have audited the consolidated statement of financial position of **The Border Land School Division** as at June 30, 2008 and the consolidated statements of revenue, expenses and accumulated surplus, change in net debt and cash flow for the year then ended. These financial statements are the responsibility of the School Division's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly in all material respects, the financial position of the School Division as at June 30, 2008 and the results of its operations and its cash flows for the fiscal year then ended in accordance with Canadian generally accepted accounting principles.

Further, in our opinion, the other schedules and reports, when considered in relation to the aforementioned financial statements, present fairly the supplemental information shown.

BDO Dunwoody LLP

Chartered Accountants

Winnipeg, Manitoba
November 6, 2008

I hereby certify that this report and the statements, schedules and reports referenced herein have been presented to the Members of the Board of Trustees of the above-mentioned School Division.

* Includes network infrastructure.

1. Nature of Organization and Economic Dependence

The Border Land School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax and is a registered charity under the Income Tax Act.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation.

Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life
Land improvements	25,000	10 years
Buildings – bricks, mortar, steel	25,000	40 years
Buildings – wood frame	25,000	25 years
School buses	20,000	10 years
Vehicles	10,000	5 years
Equipment	5,000	5 years
Network infrastructure	25,000	10 years
Computer hardware, servers, peripherals	5,000	4 years
Computer software	10,000	4 years
Furniture and fixtures	5,000	10 years
Leasehold improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency.

All tangible capital assets, except for land, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

However, the Division provides retirement benefits to its non-teaching employees in the form of a defined contribution pension plan, and parental leave benefits to teachers. The Division adopted the following policy with respect to accounting for these employee future benefits:

Defined Contribution Pension Plan

The Division pays the employer portion of a defined contribution plan handled by the Manitoba Association of School Trustees (MAST) for non-teaching employees. Under this plan, specific fixed amounts are contributed by the Division each period for services rendered by the employees, matching employee contributions. No responsibility is assumed by the Division to make any further contribution.

Defined Benefit/Self-Insured Employee Future Benefit Plans

For those defined benefit/self-insured benefit obligations that are event driven such as non-vesting parental leave, the benefit costs are recognized and recorded only in the period when the event occurs.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management's best estimates, as additional information becomes available in the future.

Financial instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, and bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

3. Bank Overdraft

The Division has an authorized line of credit with Altona Credit Union of $7,000,000 by way of overdrafts and is repayable on demand at prime minus .50%; interest is paid monthly. Overdrafts are secured by a line of credit agreement and a borrowing by-law.

4. Employee Future Benefits

The Division sponsors a defined contribution pension plan, run by the Manitoba Association of School Trustees (MAST). The defined contribution plan is provided to non-teaching employees based on their age at the beginning of the year and rates of pay. Each age group under the MAST pension plan has a specific percentage for the employees to contribute. The Division contributions equal the employee contributions to the plan. No pension liability is included in the financial statements.

The employee future benefit expense is a part of the Employee Benefits and Allowances expense account. The total pension expense for the 2008 year was $297,337 ($286,075 in 2007).

5. Deferred Revenue

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The following is a breakdown of the account balance:

	Balance as at June 30, 2007	Additions in the period	Revenue recognized in the period	Balance as at June 30, 2008
Education Property Tax Credit (EPTC)	$ 580,224	$ 1,943,479	$ 1,782,856	$ 740,847
Professional Development	32,099	16,632	10,316	38,415
Manitoba Textbook Bureau Grant	28,753	-	28,753	-
Donations & Special Purpose Funds	12,275	52,240	40,401	24,114
Rhineland Child Care	34,729		17,660	17,069
	$ 688,080	$ 2,012,351	$ 1,879,986	$ 820,445

6. School Generated Funds Liability

School Generated Funds Liability includes the non-controlled portion of school generated funds consolidated in the cash and bank balances in the amount of $nil ($nil in 2007).

7. Debenture Debt

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly instalments and maturing at various dates from 2009 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba, except for the debenture debt on self-funded capital projects. The debentures carry interest rates that range from 4.875% to 11.375%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The debenture principal and interest repayments in the next five years are:

2009	$ 1,020,789
2010	1,019,786
2011	1,020,789
2012	942,736
2013	909,378
	$ 4,913,478

8. Other Borrowings

Other borrowings are debts other than overdrafts or debentures. This includes loans payable for administrative facilities.

	2008	2007
Altona Credit Union, Prime less .50% secured by demand promissory note, financing by-law and banking documents, repayable at $38,650 per year, due September 2022	$ 428,398	$ 442,467

Principal and interest repayment of total Other Borrowings in the next five years are:

	Principal	Interest	Total
2009	$ 17,735	$ 20,915	$ 38,650
2010	21,197	17,453	38,650
2011	22,097	16,553	38,650
2012	23,037	15,613	38,650
2013	24,016	14,634	38,650
	$108,082	$ 85,168	$ 193,250

9. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class. The amount of interest capitalized in the period included in Assets under Construction was nil (nil in 2007).

10. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008	2007
Operating Fund		
Designated Surplus	$ 1,331,654	$ 843,403
Undesignated Surplus	1,096,735	1,203,373
	2,428,389	2,046,776
Capital Fund		
Reserve Accounts	338,960	203,488
Equity in Tangible Capital Assets	3,554,801	2,822,443
	3,893,761	3,025,931
Special Purpose Fund		
School Generated Funds	209,307	187,774
Other	-	-
	209,307	187,774
Total Accumulated Surplus	$ 6,531,456	$ 5,260,481

Designated Surplus under the Operating Fund represents internally restricted amounts appropriated by the Board of Trustees or, in the case of school budget carryovers, by board policy. The details of the Designated Surplus as disclosed at page 5 of the audited financial statements are as follows:

	2008	2007
School budget carryovers by board policy	$ 234,897	$ 80,550
Applied to Budget and Special Levy	674,446	354,608
Various projects	422,311	408,245
Designated surplus	$ 1,331,654	$ 843,403

Reserve Accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. A Schedule of Capital Reserve Accounts is provided on page 24 of the audited financial statements.

	2008	2007
School Building Additions or Renovations	$ 390,695	$ -
Bus Reserve	(51,735)	203,488
Capital Reserve	$ 338,960	$ 203,488

11. Municipal Government – Property Tax and related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students' resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 40% from 2007 tax year and 60% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue – Municipal Government – Property Tax	$ 7,763,505	$ 7,916,237
Receivable – Due from Municipal – Property Tax	$ 4,608,529	$ 4,663,230

12. Interest Received and Paid

The Division received interest during the year of $35,013 ($23,199 in 2007); interest paid during the year was $612,031 ($608,942 in 2007).

Interest expense is included in Fiscal and is comprised of the following:

	2008	2007
Operating Fund		
Fiscal-short term loan, interest and bank charges	$ 47,646	$ 64,368
Capital Fund		
Debenture interest	542,181	520,675
Other interest	22,204	23,899
	$ 612,031	$ 608,942

The accrual portion of debenture debt interest expense of $258,293 ($252,185 in 2007) included under the Capital Fund-Debenture debt interest, is offset by an accrual of the debt servicing grant from the Province of Manitoba.

13. Expenses by object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	$ 17,098,268	$ 17,299,907	$ 16,366,054
Employees benefits and allowances	1,350,048	1,344,778	1,311,667
Services	2,263,801	2,411,198	2,104,805
Supplies, materials & minor equipment	1,875,724	2,138,640	1,790,444
Interest	612,031	591,978	608,942
Bad debts	-	-	-
Payroll tax	368,207	371,945	359,732
Amortization	1,074,847	-	929,494
Transfers	230,253	182,600	212,201
Other capital items	29,833	-	-
Loss on Disposal of Capital Assets	-	-	-
School generated funds	565,719	-	506,313
Other special purpose funds	-	-	-
	$ 25,468,731	$ 24,341,046	$ 24,189,652

14. Special Levy Raised for la Division scolaire franco-manitobaine

In accordance with Section 190.1 of The Public Schools Act, the Division is required to collect a special levy on behalf of la Division scolaire franco-manitobaine. As at June 30, 2008, the amount of this special levy was $117,069 ($95,759 in 2007). These amounts are not included in the Division's consolidated financial statements.

15. Commitments

Commitments of Operating Fund Surplus at year end are detailed in the Analysis of Consolidated Accumulated Surplus. Designated Operating Fund Accumulated Surplus is $1,331,654 at June 30, 2008 ($843,403 at June 30, 2007). The details of the Designated Surplus are disclosed at note 10 and page 5 of the audited financial statements.

The school division has equipment lease agreements. Future annual minimum operating lease commitments as at June 30, 2008 are as follows:

2009	$ 7,094

The school division also incurs annual rental costs in the amount of $10,000 for four colony school buildings.

16. Trust Funds

The school division does not administer trust funds. As such, a separate schedule has not been attached to the notes to financial statements.

17. Subsequent Events

Subsequent to year end, the Board of Trustees approved the sale of the Ecole Letellier School property for proceeds of $25,000.00.

The book value of the property at June 30, 2008 consisted of:

Land	$ 1,550
Building	984,349
Accumulated Amortization	(525,673)
Book Value	$ 460,226

The proceeds from the sale have been allocated to capital reserve accounts for future classroom space requirements.

The Public Schools' Finance Board has approved the sale of the property and the establishment of the capital reserve account.

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Brandon School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 2 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by B.D.O. Dunwoody LLP independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

Auditors' Report

To the Chairperson and Board of Trustees of
Brandon School Division

We have audited the consolidated statement of financial position of **The Brandon School Division** as at June 30, 2008 and the consolidated statements of revenue, expenses and accumulated surplus, change in net debt and cash flow for the year then ended. These financial statements are the responsibility of the School Division's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly in all material respects, the financial position of the School Division as at June 30, 2008 and the results of its operations and its cash flows for the fiscal year then ended in accordance with Canadian generally accepted accounting principles.

Further, in our opinion, the other schedules and reports, when considered in relation to the aforementioned financial statements, present fairly the supplemental information shown.

BDO Dunwoody LLP

Chartered Accountants

Brandon, Manitoba
October 3, 2008

I hereby certify that this report and the statements, schedules and reports referenced herein have been presented to the Members of the Board of Trustees of the above-mentioned School Division.

1. ENTITY DEFINITION AND ECONOMIC DEPENDENCE

The Brandon School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is not subject to income tax.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

The following is a summary of significant accounting polices of the Division:

- Income Recognition

The financial statements are prepared in accordance with Financial Reporting and Accounting in Manitoba Education (FRAME) and have incorporated the Public Service Accounting Board (PSAB) standards. These standards are generally accepted accounting principles for all Manitoba school divisions that became effective July 1, 2006.

Significant accounting polices of FRAME are:

- Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation.

- Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing if capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

- Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

- Unearned Revenue

Grants received for specific purposes are deferred and recorded as revenue at the time the applicable expenditures are made.

- Debenture Payments

Debenture debt payments are reflected in the accounts when due and interest accruals are recorded in the accounts as of the statement date.

- Employee Future Benefits

Benefits plans that provide for future benefits to employees are costed in the period in which the future benefit was earned.

- Tangible Capital Assets

Individual Tangible Capital Assets that meet or exceed the capitalization threshold guidelines provided by PSAB are now recorded at cost as assets in the capital fund.

- Amortization

Amortization is now provided for on Tangible Capital Assets in the Capital Fund in accordance with PSAB. Land is not amortized and all other tangible capital assets are amortized on a straight line basis, with no residual value, based on the useful life of the asset. One half year of amortization is recorded in the year of acquisition and in the year of disposal.

3. SCHOOL GENERATED FUNDS

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

4. TANGIBLE CAPITAL ASSETS

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life
Land Improvements	25,000	10 years
Buildings – bricks, mortar, steel	25,000	40 years
Buildings – wood frame	25,000	25 years
School buses	20,000	10 years
Vehicles	10,000	5 years
Equipment	5,000	5 years
Network Infrastructure	25,000	10 years
Computer Hardware, Servers, Peripherals	5,000	4 years
Computer Software	10,000	4 years
Furniture & Fixtures	5,000	10 years
Leasehold Improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

> Buildings are recorded at historical cost when known. Where actual costs are not determinable, estimated costs have been determined.
>
> Capital leases are recorded at the present value of the minimum lease payments excluding executory costs (e.g. insurance, maintenance costs, etc.). The discount rate used to determine the present value of the lease payments is the lower of the Division's rate for incremental borrowing or the interest rate implicit in the lease.
>
> Donated tangible capital assets are recorded at fair market value at the date of donation. Deferred revenue is recorded in an equivalent amount, for all donated assets except land. The deferred revenue will be recognized as revenue over the useful life of the related asset, on the same basis that the asset is amortized.
>
> All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency.

All tangible capital assets, except for land, capital leases, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized. Capital leases with lease terms that have a bargain purchase option or allow ownership to pass to the Division are amortized over the useful life of the asset class. All other capital leases are amortized over the lesser of the lease term and the useful life of the asset class.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

5. CAPITAL RESERVE

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position.

6. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management's best estimates, as additional information becomes available in the future.

7. FINANCIAL INSTRUMENTS

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, and bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

8. SHORT TERM INVESTMENTS

Short term investments consist of guaranteed investment certificates that mature within one year. The cost of the short term investments is equal to the market. As at June 30, 2008, the cost of short term investment was $1,700 (last year $11,300); investment income earned during the year was $72 (last year $264).

9. BANK OVERDRAFT

The Division has an authorized line of credit with Bank of Montreal of $4,500,000 by way of overdrafts and is repayable on demand at the bank's prime rate less 1.75%; interest is paid monthly.

10. DEFERRED REVENUE

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The following is a breakdown of the account balance:

	Balance as at June 30, 2007	Additions in the period	Revenue recognized in the period	Balance as at June 30,2008
Education property tax credit	$2,282,321	$5,615,648	$5,304,646	$2,593,323
Other special purpose funds	180,758	7,200	39,829	148,129
	$ 2,463,079	$ 318,202	$ 39,829	$ 2,741,452

11. SCHOOL GENERATED FUNDS LIABILITY

School Generated Funds Liability includes the non-controlled portion of school generated funds consolidated in the cash and bank balances in the amount of $118,843.

Parent and student council funds	$118,843

12. DEBENTURE DEBT

The debenture debt of the Division is in the form of fifteen and twenty-year debentures payable, principal and interest, in fifteen and twenty equal yearly instalments and maturing at various dates from 2009 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba, except for the debenture debt on self-funded capital projects. The debentures carry interest rates that range from 5.0% to 12.125%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The total debenture principal and interest repayments in the next five years and thereafter are:

	Total
2009	$ 2,365,090
2010	1,877,048
2011	1,838,543
2012	1,530,144
2013	1,266,161
Thereafter	3,395,742
	$ 12,272,728

13. ACCUMULATED SURPLUS

The consolidated accumulated surplus is comprised of the following:

	2008
Operating Fund	
Designated Surplus	$ 465,597
Undesignated Surplus	2,019,526
	2,485,123
Capital Fund	
Reserve Accounts	658,052
Equity in Tangible Capital Assets	8,959,088
	9,617,140
Special Purpose Fund	
School Generated Funds	389,332
Other Special Purpose Funds	489,966
	879,298
Total Accumulated Surplus	12,981,561

Designated Surplus under the Operating Fund represents internally restricted amounts appropriated by the board or, in the case of school budget carryovers, by board policy. See page 5 of the audited financial statements for a breakdown of the Designated Surplus.

	2008
Prior year designated balances	$380,808
School budget carryovers by board policy	84,789
Designated surplus	465,597

Reserve Accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. A Schedule of Capital Reserve Accounts is provided on page 24 of the audited financial statements.

	2008
Bus reserves	$ 374,015
Other reserves	284,037
Capital Reserve	658,052

School Generated Funds and Other Special Purpose Funds are externally restricted moneys for school use.

	2008
Other Special Purpose Funds	$ 489,966

14. MUNICIPAL GOVERNMENT – PROPERTY TAX AND RELATED DUE FROM MUNICIPAL GOVERNMENT

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 43.5% from 2007 tax year and 56.5% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue – Municipal Government – Property Tax	$ 19,146,125	$ 18,704,104
Receivable – Due from Municipal – Property Tax	$ 10,736,236	$ 10,311,264

15. INTEREST RECEIVED AND PAID

The Division received interest during the year of $256,132 (previous year $213,029); interest paid during the year was $1,072,284 (previous year $1,743,364).

Interest expense is included in Fiscal and is comprised of the following:

	2008
Capital Fund	
Debenture interest	$ 1,072,284

The accrual portion of debenture debt interest expense of $ 417,045 included under the Capital Fund-Debenture debt interest, is offset by an accrual of the debt servicing grant from the Province of Manitoba.

Au président et aux membres de la Commission scolaire
Division scolaire franco-manitobaine

Nous avons vérifié les états consolidés de la situation financière de la **Division scolaire franco-manitobaine** (la «division scolaire») au 30 juin 2008 et les états consolidés des recettes, dépenses et de l'excédent accumulé, du changement de la dette nette et de l'évolution des liquidités pour l'exercice terminé à cette date. La responsabilité de ces états financiers incombe à la direction de la division scolaire. Notre responsabilité consiste à exprimer une opinion sur ces états financiers en nous fondant sur notre vérification.

Notre vérification a été effectuée conformément aux normes de vérification généralement reconnues du Canada. Ces normes exigent que la vérification soit planifiée et exécutée de manière à fournir l'assurance raisonnable que les états financiers sont exempts d'inexactitudes importantes. La vérification comprend le contrôle par sondages des informations probants à l'appui des montants et des autres éléments d'information fournis dans les états financiers. Elle comprend également l'évaluation des principes comptables suivis et des estimations importantes faites par la direction, ainsi qu'une appréciation de la présentation d'ensemble des états financiers.

À notre avis, ces états financiers donnent, à tous égards importants, une image fidèle de la situation financière de la division scolaire au 30 juin 2008 ainsi que les résultats de son exploitation et de ses flux de trésorerie pour l'exercice terminé à cette date selon les principes comptables généralement reconnus du Canada.

De plus, à notre avis, les autres états et annexes, en autant qu'ils se rattachent aux états financiers ci haut mentionné, présentent fidèlement l'information supplémentaire contenu par ces annexes.

BDO Dunwoody s.r.l.

Comptables agréés

Winnipeg (Manitoba)
Le 25 septembre 2008

J'atteste par la présente que le rapport ci-dessus ainsi que les états financiers vérifiés et les renseignements supplémentaires ont été présentés aux membres de la commission scolaire de la Division scolaire franco-manitobaine

30 octobre 2008

*Comprend l'infrastructure du réseau.

1. Nature de l'organisation et dépendance économique

La Division scolaire franco-manitobaine (la « Division scolaire ») est un organisme public qui fournit des services d'éducation à sa population estudiantine francophone du Manitoba. La Division scolaire est financée principalement par des subventions de la Province du Manitoba (la « Province »), et des prélèvements spéciaux. La Division scolaire et les divisions scolaires cédantes se partagent les taxes prélevées en proportion de leur nombre respectif d'élèves par rapport au total de tous les élèves résidant à l'intérieur des frontières des divisions cédantes.

La Division scolaire dépend du financement de la Province pour son fonctionnement ainsi que pour le financement de projets d'immobilisations. Sans ce financement, la Division scolaire ne pourrait pas continuer son fonctionnement.

2. Principales politiques comptables

Les états financiers consolidés ont été préparés par la direction en conformité avec les principes comptables généralement reconnus du Canada établis par le CCSP de l'Institut canadien des comptables agréés (l'« ICCA»).

Entité comptable et consolidation

Les états financiers consolidés comprennent les actifs, passifs, recettes et dépenses des fonds d'administration générale, de capital et d'emprunt et à fins spéciales de la Division scolaire. L'entité comptable de la Division scolaire comprend les fonds générés par les écoles et contrôlés par la Division scolaire.

Tous les soldes et opérations interfonds ont été éliminés à la consolidation.

Fonds en fiducie

Les fonds en fiducie et leurs opérations ne sont pas compris dans les états financiers consolidés puisqu'ils ne sont pas contrôlés par la Division scolaire et ne lui appartiennent pas. Un tableau des fonds en fiducie est annexé aux notes accompagnant les états financiers consolidés.

Selon les normes du CCSP, les fonds en fiducie sont les avoirs confiés à un fiduciaire (la Division scolaire) selon un contrat de fiducie ou la loi. Le fiduciaire administre les modalités de l'accord, et n'à aucun pouvoir unilatéral de changer les modalités du contrat de fiducie.

Méthode de comptabilité

Les recettes et les dépenses sont constatées selon la méthode de comptabilité d'exercice sauf lorsque les comptes de régularisation ne peuvent pas être établis avec un degré de certitude raisonnable ou lorsque leur estimation est irréalisable. Selon la comptabilité d'exercice, les recettes sont constatées à mesure qu'elles sont gagnées et qu'elles peuvent être mesurées, et les dépenses sont constatées à mesure qu'elles sont engagées et qu'elles peuvent être mesurées par suite de la réception des biens ou des services et de l'établissement d'une obligation légale de paiement. Les dépenses incluent l'amortissement des immobilisations corporelles.

Comptabilité par fonds

La méthode de comptabilité par fonds est utilisée par la Division scolaire pour inscrire les opérations financières dans des fonds séparés conformément au manuel Financial Reporting and Accounting in Manitoba Education (FRAME) et selon le but visé au moment de la création du fonds.

Le fonds d'administration générale sert à l'enregistrement de toutes les recettes et dépenses de fonctionnement courantes. Le fonds de capital est utilisé pour comptabiliser l'acquisition, l'amortissement, l'aliénation et le financement des immobilisations. Le fonds à fins spéciales est utilisé pour rendre compte des fonds générés par les écoles et des fondations de bienfaisance contrôlées par la Division scolaire.

Fonds générés par les écoles

Les fonds générés par les écoles sont des sommes recueillies par des écoles, ou sous leurs auspices, dans le cadre d'activités parascolaires pour leur usage exclusif et que les directions peuvent amasser, détenir, administrer et utiliser pour leurs écoles respectives, conformément aux règlements de la Commission scolaire.

Seules les recettes et les dépenses des fonds générés par les écoles et contrôlés par la Division scolaire sont incluses dans l'état consolidé des recettes, des dépenses et de l'excédent accumulé. Pour que ces fonds soient considérés comme étant contrôlés, une école doit avoir le pouvoir unilatéral de décider quand, comment et à quelles fins les fonds sont dépensés.

Le solde de l'encaisse et des placements à court terme de tous les fonds générés par les écoles sont inclus dans l'état consolidé de la situation financière. Le solde des fonds générés par les écoles et non contrôlés par la Division scolaire est présenté comme passif des fonds générés par les écoles dans l'état de la situation financière. Les exemples de fonds générés par les écoles et non contrôlés par la Division scolaire incluent les sommes recueillies par les comités de parents, associations d'étudiants et comités de voyage. Les recettes et les dépenses des fonds générés par les écoles et non contrôlés par la Division scolaire ne sont pas incluses dans les états financiers consolidés.

Immobilisations corporelles

Les immobilisations corporelles sont des actifs non financiers qui sont utilisés par la Division scolaire pour fournir des services à la population et qui ont une durée économique de plus d'un exercice. Les immobilisations corporelles comprennent les terrains, immeubles, améliorations foncières, autobus scolaires, autres véhicules, mobiliers, accessoires, équipements, matériels informatique, logiciels, améliorations locatives, contrats de location-acquisition et immeubles en construction.

Pour être classé comme immobilisation corporelle, chaque actif autre que les terrains doit individuellement respecter le seuil de capitalisation de sa catégorie conformément au manuel FRAME.

Description des biens	Seuil de capitalisation ($)	Durée de vie utile
Améliorations foncières	25 000	10 ans
Immeubles – briques, mortier, acier	25 000	40 ans
Immeubles – charpente en bois	25 000	25 ans
Autobus scolaires	20 000	10 ans
Véhicules	10 000	5 ans
Équipement	5 000	5 ans
Infrastructure du réseau	25 000	10 ans
Matériel informatique	5 000	4 ans
Logiciels	10 000	4 ans
Mobilier et accessoires	5 000	10 ans
Améliorations locatives	25 000	Selon la durée du bail

Le regroupement des actifs n'est pas permis, sauf pour les postes de travail informatisés.

À l'exception des terrains, des immobilisations obtenues à titre gratuit et des contrats de location-acquisition, toutes les immobilisations corporelles sont inscrites au coût d'origine, qui comprend le prix d'achat, les frais d'installation et les autres frais encourus pour mettre l'immobilisation en service.

Les bâtiments sont inscrits au coût d'origine lorsque celui-ci est connu. Pour les bâtiments acquis avant le 30 juin 2005 alors que le coût réel n'était pas connu, la valeur de remplacement aux fins des assurances en date du 30 juin 2005 a été établie par régression selon la date d'acquisition d'après un index fondé sur des indices des coûts de construction de Southam et CanaData.

Les contrats de location-acquisition sont inscrits selon la valeur actualisée des paiements minimaux exigibles à l'exclusion des frais accessoires (p. ex., assurances, entretien, etc.). Le taux d'escompte utilisé pour déterminer la valeur actuelle des paiements de location est le taux le plus bas entre le taux de la Division scolaire pour les emprunts additionnels et le taux d'intérêt implicite dans le bail.

Les immobilisations corporelles obtenues à titre gratuit sont inscrites selon la juste valeur marchande à la date du don. Les recettes reportées sont inscrites selon un montant équivalent pour tous les dons, à l'exception des terrains. Les recettes reportées seront comptabilisées comme recettes durant la vie utile de l'actif visé, comme dans le cas d'un amortissement.

Tous les terrains acquis avant le 30 juin 2006 ont été évalués par la Crown Lands and Property Agency.

Toutes les immobilisations corporelles, à l'exception des terrains, des contrats de location-acquisition et des immobilisations en cours, sont amorties selon la méthode linéaire durant leur durée de vie utile estimative conformément aux règles du manuel FRAME. Les terrains ne sont pas amortis. Les contrats de location-acquisition avec des modalités comprenant une option d'achat à prix préférentiel ou permettant le transfert de la propriété à la Division scolaire sont amortis selon la durée de vie utile de la catégorie d'immobilisations. Toutes les autres locations-acquisitions sont amorties selon la durée moindre entre la durée du contrat de location et la durée de vie utile de la catégorie d'immobilisations.

La moitié de l'amortissement annuel est imputée à l'année d'acquisition et à l'année de l'aliénation si l'amortissement n'est pas terminé.

Les immobilisations en cours ne sont pas amorties avant la date de l'achèvement substantiel des travaux. Les intérêts découlant des fonds utilisés pour financer les bâtiments scolaires en construction sont capitalisés pour les périodes précédant la date de l'achèvement substantiel des travaux.

Avantages sociaux futurs

La Province paie les prestations de l'employeur au Teachers' Retirement Allowances Fund (TRAF) qui est le régime de retraite de tous les enseignants certifiés de la Division scolaire. La Division scolaire ne contribue pas au TRAF, et aucuns frais se rapportant à ce régime ne sont inclus dans les états financiers consolidés de la Division scolaire.

La Division scolaire fournit un régime de retraite et d'autres avantages sociaux à son personnel de soutien. Ces avantages sociaux incluent un régime de retraite à cotisations déterminées, un congé parental et une pension de retraite anticipée. La Division scolaire a adopté les politiques comptables suivantes pour les avantages sociaux futurs :

Régime de retraite à cotisations déterminées

La Division scolaire verse la cotisation de l'employeur au régime de retraite à cotisations déterminées administré par l'Association des commissaires d'écoles du Manitoba - Manitoba Association of School Trustees (MAST) - pour son personnel de soutien. Selon ce régime, des contributions spécifiques et déterminées sont versées par la Division scolaire à chaque période pour les services rendus par les employés à la hauteur des contributions des employés. Aucune responsabilité n'est assumée par la Division scolaire à l'égard de contributions futures.

Régimes à prestations déterminées/et régimes autogérés d'avantages sociaux futurs des employés

En ce qui concerne les obligations liées aux régimes à prestations déterminées/régimes autogérés de prestations en fonction des événements de la vie, comme le congé parental non acquis, le coût des prestations n'est comptabilisé et inscrit que pour la période de l'événement. Pour ce qui est des obligations de bonification liées à la possibilité de prendre une retraite anticipée qui sont aussi liées aux événements de la vie, le coût des prestations est comptabilisé pour la période durant laquelle l'engagement de verser les prestations est approuvé par la Commission scolaire.

Utilisations des prévisions

Pour la préparation des états financiers conformément aux principes comptables généralement reconnus du Canada, la direction doit s'appuyer sur des prévisions et des hypothèses qui influent sur les montants inscrits d'actif et de passif à la date des états financiers, ainsi que sur les montants déclarés de recettes et de dépenses pendant la période visée. Les résultats réels peuvent différer des meilleures prévisions possibles de la direction au fur et à mesure qu'elle dispose de renseignements supplémentaires.

Instruments financiers

Les instruments financiers de la Division scolaire comprennent l'encaisse et fonds en banque, les placements à court terme, les sommes recevables et payables (gouvernement du Manitoba, gouvernement fédéral, administration municipale, autres divisions scolaires et Premières nations), les comptes clients, les revenus de placements à recevoir, les découverts, les comptes fournisseurs, les charges à payer, les avantages sociaux futurs, les intérêts courus à payer, la dette obligatoire et les autres emprunts.

À moins d'indication contraire, la direction est d'avis que la Division scolaire n'est pas exposée d'une façon significative au risque d'intérêt, d'échange ou de crédit découlant de ces instruments financiers.

3. Découverts

La Division a autorisé des marges de crédit sous forme de découverts bancaires auprès de la Banque de Montréal pour des sommes de 13 500 000 $ pour le financement d'activités et de 12 500 000 $ pour le financement de projets d'immobilisations, sommes qui sont remboursables sur demande au taux préférentiel de la banque moins 0,5 % et dont l'intérêt est payé mensuellement. Les découverts comprennent des sommes pour projets d'immobilisations totalisant environ 1 223 700 $ qui seront présentés à la Commission des finances des écoles publiques aux fins du financement d'obligations. Les garanties sont un contrat de sûreté en plus d'une résolution d'emprunt.

4. Avantages sociaux futurs

La Division scolaire participe à un régime de retraite à cotisations déterminées administré par l'Association des commissaires d'écoles du Manitoba - Manitoba Association of School Trustees (MAST). Le régime à cotisations déterminées est offert aux membres du personnel de soutien selon leur âge au début de l'année et leur rémunération. Dans le cadre du régime de retraite du MAST, les contributions des employés sont établies en fonction d'un pourcentage spécifique selon leur groupe d'âge. La Division scolaire verse des contributions équivalentes à celles des employés. Aucun passif découlant du régime de retraite n'est présenté dans les états financiers.

Les dépenses liées aux avantages sociaux futurs sont incluses aux postes avantages sociaux et indemnités des employés. Le total des contributions au régime de retraite à cotisations déterminées pour l'exercice terminé le 30 juin 2008 se chiffre à 423 181 $ (351 975 $ en 2007).

5. Recettes reportées

On se sert de la méthode du report pour comptabiliser les recettes qui, en vertu de lois, de règlements ou d'ententes, ne peuvent être utilisées qu'à des fins spécifiques. Ces montants sont constatés comme recettes dans l'exercice au cours duquel les dépenses connexes sont engagées ou les services sont fournis. Voici les détails des soldes :

	Solde au 30 juin 2007	Montants reçus au cours de l'exercice	Constatés au cours de l'exercice	Solde au 30 juin 2008
	$	$	$	$
Administration – École en santé	-	11 150	-	11 150

6. Passif des fonds générés par les écoles

Le passif des fonds générés par les écoles et non contrôlés par la Division scolaire comprend l'encaisse de 198 701 $ au 30 juin 2008 (216 541 $ au 30 juin 2007) présentés au poste des découverts dans l'état consolidé de la situation financière.

7. Dette obligatoire

La dette obligatoire de la Division scolaire se présente sous la forme d'obligations de 20 ans acquittables, capital et intérêts, en 20 versements annuels égaux et arrivant à échéance à diverses dates de 2008 à 2028. Le remboursement du capital et des intérêts est entièrement financé par des subventions de la Province du Manitoba. Les obligations portent des taux d'intérêt variant de 4,875 % à 12,25 %. La dépense liée aux intérêts courus sur la dette obligatoire au 30 juin 2008 est comptabilisée au poste des intérêts courus à payer, et une subvention équivalente aux intérêts courus sur la dette obligatoire est comptabilisée et présentée au poste des sommes recevables du gouvernement du Manitoba. Voici les versements du principal et de l'intérêt pour les cinq prochaines années :

	Principal	Intérêts	Total
	$	$	$
2009	1 955 836	1 897 111	3 852 947
2010	1 822 163	1 736 549	3 558 712
2011	1 717 513	1 592 156	3 309 669
2012	1 637 210	1 464 582	3 101 792
2013	1 553 824	1 350 902	2 904 726
	8 686 546	8 041 300	16 727 846

8. Autres emprunts

Les autres emprunts incluent les dettes autres que les découverts et la dette obligatoire. Ils comprennent les emprunts pour l'amélioration du rendement énergétique, l'emprunt pour amélioration de garderie et des contrats de location-acquisition pour des photocopieuses.

	2008	2007
	$	$
Amélioration du rendement énergétique	803 553	892 038
Amélioration de garderies	581 864	594 503
Contrats de location-acquisition	195 009	220 224
	1 580 426	1 706 765

Les emprunts pour l'amélioration du rendement énergétique et l'amélioration de garderies portent des intérêts au taux préférentiel de la banque moins 0,5 % arrivant à échéance sur demande, et les versements mensuels sont de 10 485 $ et 3 452 $, respectivement, principal et intérêts. Les garanties sont un contrat de sûreté en plus d'une résolution d'emprunt.

Les contrats de location-acquisition pour les photocopieuses et voitures portent des intérêts à des taux allant de 4,08 % à 9,85 % par année, assortis d'échéances qui vont de 2008 à 2014 et d'un paiement mensuel global d'environ 8 498 $, principal et intérêts. Ces emprunts sont garantis par un contrat de location-acquisition.

Voici les versements de principal et d'intérêts des autres emprunts pour les cinq prochaines années :

	Principal	Intérêts	Total
	$	$	$
2009	174 083	77 384	251 467
2010	160 299	67 892	228 191
2011	155 125	58 984	214 109
2012	155 417	50 476	205 893
2013	137 391	42 484	179 875
	782 315	297 220	1 079 535

9. Immobilisations corporelles nettes

L'état des immobilisations corporelles, qui est inclus à la page 23 des états financiers vérifiés, donne la ventilation des coûts, amortissements cumulés et valeurs comptables nettes par catégorie. Le montant des intérêts capitalisés au cours de l'exercice terminé le 30 juin 2008 et inclus au poste immeubles en construction s'élève à néant $ (257 283 $ en 2007).

10. Excédents accumulés

Les excédents accumulés consolidés comprennent les éléments suivants au 30 juin 2008 :

	2008	2007
	$	$
Fonds d'administration générale		
Excédent désigné	-	-
Excédent non désigné	827 037	192 057
	827 037	192 057
Fonds de capital		
Comptes de réserve de capital	-	-
Avoir propre dans les immobilisations corporelles	7 856 821	4 998 085
	7 856 821	4 998 085
Fonds à fins spéciales		
Fonds générés par les écoles	296 227	282 900
Autres fonds à fins spéciales	19 407	10 483
	315 634	293 383
Excédents accumulés consolidés	8 999 492	5 483 525

11. Administration municipale – Impôt foncier et sommes recevables connexes auprès de l'administration municipale

Des impôts fonciers scolaires ou un prélèvement spécial sont recueillis à titre de la contribution de la Division au financement des coûts de la prestation des services d'éducation publique auprès des élèves qui résident au sein de la division. Le montant inclus au poste Recettes - Administration municipale - Impôt foncier qui figure dans l'état consolidé des recettes, des dépenses et de l'excédent accumulé est prélevé sur une période de deux années civiles (d'imposition); dont 40 % provient de l'année d'imposition 2007 et 60 % de l'année d'imposition 2008. Voici ci-dessous les recettes et les créances connexes à percevoir :

	2008	2007
	$	$
Recettes – Administration municipale – Impôt foncier	12 790 320	12 456 169
Sommes recevables auprès de l'administration municipale – Impôt foncier	7 732 666	7 593 358

12. Intérêts reçus et versés

La Division a reçu au cours de l'exercice terminé le 30 juin 2008 des intérêts de 18 054 $ (21 112 $ en 2007); et a versé des intérêts de 2 136 282 $ (3 038 470 $ en 2007).

Voici les dépenses d'intérêts incluses aux postes frais et impôts pour l'exercice terminé le 30 juin 2008 :

	2008	2007
	$	$
Fonds d'administration générale		
Frais et impôts – prêt à court terme, intérêts et frais bancaires	85 313	136 044
Fonds de capital		
Intérêts sur la dette obligatoire	1 962 647	2 803 823
Autres intérêts	88 322	98 603
	2 050 969	2 902 426
	2 136 282	3 038 470

La part cumulative des dépenses d'intérêts sur la dette obligatoire de 967 317 $ au 30 juin 2008 (1 020 893 $ au 30 juin 2007) qui est incluse au poste Fonds de capital et d'emprunt - Intérêts sur la dette obligatoire, est contrebalancée par le montant cumulatif de la subvention pour le remboursement de la dette de la Province du Manitoba.

13. Provision pour créances douteuses

Toutes les créances à percevoir présentées dans l'état consolidé de la situation financière sont inscrites après déduction de la provision pour les créances douteuses spécifiques. Voici la provision totale pour créances douteuses en date du 30 juin 2008 :

	2008	2007
	$	$
Provision pour créances douteuses (recouvrement) déduites des créances	(52)	39 245
Créances douteuses (recouvrement) (incluses au poste frais et impôts)	(52)	39 245

14. Dépenses selon l'objet

Les dépenses incluses dans l'état consolidé des recettes, des dépenses et de l'excédent accumulé sont présentées par fonction conformément au manuel FRAME. Voici les détails des dépenses par objet :

	Chiffres réels 2008	Budget 2008	Chiffres réels 2007
	$	$	$
Salaires	36 014 254	35 562 061	33 684 752
Avantages sociaux et indemnités des employés	2 458 322	2 596 393	2 206 679
Services	10 516 015	11 171 885	9 740 019
Fournitures, matériel et petit équipement	2 497 528	2 713 643	2 598 589
Intérêts et frais bancaires	2 136 282	2 237 040	3 038 470
Créances douteuses (recouvrements)	(52)	-	39 245
Impôt sur la paie	778 806	780 000	715 797
Transferts	196 962	235 100	183 203
Amortissements	1 536 686	-	1 342 351
Autres éléments de capital	90 980	-	156 793
Fonds générés par les écoles	1 177 429	-	885 077
Autres fonds à fins spéciales	59 186	-	44 856
	57 462 398	55 296 122	54 635 831

15. Éventualités

La Division scolaire a inscrit dans son fonds de capital et d'emprunt les coûts liés à l'actif immobilisé de l'École Taché. La DSFM est en voie d'effectuer l'expropriation d'un terrain adjacent à l'École Taché. Les coûts engagés jusqu'à maintenant pour l'expropriation sont inscrits dans le fonds de capital et d'emprunt. Les coûts supplémentaires seront enregistrés au fonds de capital et d'emprunt dans l'année où ces coûts seront déterminés.

La Cour d'appel a déposé une décision en mai 2007 qui rejetait une partie de la décision de la Commission de l'évaluation foncière. Cette décision demandait à la Division scolaire de payer immédiatement les dépenses associées aux pertes d'affaires de l'entreprise suite à l'expropriation. Les pertes d'affaires comprises dans la réclamation seront seulement identifiées une fois que l'entreprise a déménagé dans leurs nouveaux locaux. Il est donc impossible de déterminer les pertes ou les gains relativement à cette situation en ce moment. Si des pertes sont déclarées, les charges seront inscrites au cours de l'exercice dès qu'elles seront connues.

16. Engagements contractuels

Des ententes pour le transport des élèves ont été conclues jusqu'à juin 2009. Les frais pour ces services se chiffrent à environ 4 500 000 $ par année.

Des ententes de location des écoles ont été conclues avec diverses divisions scolaires et organismes. Un montant estimé a été inscrit comme créance et comme dépense pour l'année courante car les montants pour la location n'ont pas été finalisés. Tous les ajustements rétroactifs seront enregistrés dans l'année où ils auront été déterminés

17. Fonds en fiducie

La Division scolaire n'administre aucun fonds en fiducie.

18. Société contrôlée

La Division scolaire contrôle un organisme de bienfaisance. Les actifs, passifs et excédent accumulé de l'organisme de bienfaisance sont présentés dans l'état de la situation financière du fonds à fins spéciales. Les recettes, dépenses et retraitement de l'excédent accumulé d'ouverture de l'organisme de bienfaisance sont présentés dans l'état des recettes, des dépenses et de l'excédent accumulé du fonds à fins spéciales.

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Evergreen School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 2 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by Collins Barrow independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

Auditors' Report

To the Chairperson and Trustees
Evergreen School Division

We have audited the Consolidated Statement of Financial Position for the Evergreen School Division as at June 30, 2008, and the Consolidated Statement of Revenue, Expenses, Consolidated Statement of change in Net Debt and Consolidated Statement of Cash Flow for the year ended June 30, 2008. These financial statements are the responsibility of the school division's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In common with many not for profit organizations, certain revenues are not susceptible to satisfactory audit verification for completeness. Accordingly, our verification of revenue for the special purpose fund was limited to the amounts recorded in the Division and we were not able to determine whether any adjustments might be necessary to revenue, current year surplus (deficit) and accumulated surplus.

In our opinion, except for the adjustments, if any, which we might have determined to be necessary had we been able to satisfy ourselves concerning the completeness of revenue, as described in the preceding paragraph, these financial statements present fairly, in all material respects, the financial position of the school division as at June 30, 2008 and the results of its operations and its cash flows for the year then ended in accordance with accepted accounting principles for school divisions in Manitoba as set out in note 2 to the financial statements.

Further, in our opinion, the other statements and reports, when considered in relation to the aforementioned financial statements, present fairly in all material respects, the supplementary information shown.

Winnipeg, Canada
September 25, 2008

Collins Barrow
CHARTERED ACCOUNTANTS

I hereby certify that this report and the statements and reports referenced herein have been presented to the members of the Board of the above mentioned School Division.

1. Nature of Organization and Economic Dependence

The School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

a) Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds and The Evergreen Foundation of Manitoba Inc. controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation wherever possible.

b) Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

c) Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

d) School Generated Funds

School generated funds are monies raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, may raise, hold, administer and expend for the purposes of the school, subject to the rules of the school board.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

2. Significant Accounting Policies - Continued

d) School Generated Funds - Continued

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

e) Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life (years)
Land Improvements	25,000	10
Buildings - bricks, mortar and steel	25,000	40
Buildings - wood frame	25,000	25
School buses	20,000	10
Vehicles	10,000	5
Equipment	5,000	5
Network Infrastructure	25,000	10
Computer Hardware, Servers & Peripherals	5,000	4
Computer Software	10,000	4
Furniture & Fixtures	5,000	10
Leasehold Improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land and buildings acquired before June 30, 1995, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

All land acquired prior to June 30, 1995 has been valued by the Crown Lands and Property Agency.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

All tangible capital assets, except for land and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

2. Significant Accounting Policies - Continued

(f) Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

(g) Capital Reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position.

(h) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

(i) Financial instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

3. Overdraft

The Division has an authorized line of credit with The Gimli Credit Union Limited of $4,000,000.00 by way of overdrafts and is repayable on demand at prime less .875%; interest is paid monthly). In addition, the Division has a line of credit with The Gimli Credit Union Limited of $2,000,000 by way of overdraft for a capital project totaling approximately $1,964,000 which will be submitted to PSFB for debenture funding. Overdrafts are secured by a temporary borrowing by-law.

4. Short Term Investments

Short term investments consist of deposit certificates that mature within one year. Investment income earned during the year was $4,321.

5. Deferred Revenue

The deferral method of accounting is used to properly match revenues with expenditures. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed.

6. School Generated Funds Liability

School Generated Funds Liability represents the non-controlled portion of school generated funds consolidated in the cash and bank balances in the amount of $4,487.

7. Debenture Debt

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly installments and maturing at various dates from 1987 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba. The debentures carry interest rates that range from 4.875% to 11.75%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The debenture principal and interest repayments in the next five years are:

	Principal	Interest	Total
2009	$ 644,522	$ 849,290	$ 1,493,812
2010	670,754	811,573	1,482,327
2011	714,823	767,505	1,482,328
2012	741,919	720,410	1,462,329
2013	789,935	672,403	1,462,338
	$ 3,561,953	$ 3,821,181	$ 7,383,134

Other Borrowings

Other borrowings are debts other than overdrafts or debentures. This includes loans to purchase school buses.

The school bus loan bears interest at June 30, 2008 of 4.75% and is repayable in monthly installments of $8,808, Principal and interest included, and matures April 15, 2009.

Principal and interest repayment of total Other Borrowings in the next year is:

	Principal	Interest	Total
2009	$ 83,318	$ 1,765	$ 85,083
	$ 83,318	$ 1,765	$ 85,083

8. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class

	Gross Amount	Accumulated Amortization	2008 Net Book Value	2007 Net Book Value
Owned-tangible capital assets	$ 27,860,138	$ 11,798,013	$ 16,062,125	$ 14,445,929
Capital lease	-	-	-	-
	$ 27,860,138	$ 11,798,013	$ 16,062,125	$ 14,445,929

9. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008	2007
Operating Fund		
Designated Surplus	188,266	431,148
Undesignated Surplus	300,124	472,666
	488,390	903,814
Capital Fund		
Reserve Accounts	1,135,710	433,064
Equity in Tangible Capital Assets	1,924,776	1,560,350
	3,060,486	1,993,414
Special Purpose Fund		
School Generated Funds	112,587	69,726
Other Special Purpose Funds	151,274	149,466
	263,861	219,192
Total Accumulated Surplus	$ 3,812,737	$ 3,116,420

Designated Surplus under the Operating Fund represents internally restricted amounts appropriated by the board or, in the case of school budget carryovers, by board policy. See page 5 of the audited financial statements for a breakdown of the Designated Surplus.

Reserve Accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. A Schedule of Capital Reserve Accounts is provided on page 24 of the audited financial statements.

School Generated Funds and Other Special Purpose Funds are externally restricted monies for school use, Scholarship Awards and donations for school projects.

10. Municipal Government – Property Tax and related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 44% from 2007 tax year and 57% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue-Municipal Government-Property Tax	$ 5,543,992	$ 5,219,149
Receivable-Due from Municipal-Property Tax	$ 2,955,994	$ 2,833,715

11. Interest Received and Paid

The Division received interest during the year of $42,997 (previous year $25,917); interest paid during the year was $847,874 (previous year $1,148,281).

Interest expense is included in Fiscal and is comprised of the following:

	2008	2007
Operating Fund		
Fiscal-short term loan, interest and bank charges	$ 10,682	$ 32,447
Capital Fund		
Debenture debt interest	829,401	1,102,248
Other interest	7,791	13,586
	$ 847,874	$ 1,148,281

The accrual portion of debenture debt interest expense of $387,049 included under the Capital Fund-Debenture debt interest, is offset by an accrual of the debt servicing grant from the Province of Manitoba.

12. Expenses by object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	$ 11,075,988	$ 11,154,972	$ 10,379,998
Employees benefits & allowances	903,427	947,730	840,175
Services	1,533,665	1,654,075	1,538,442
Supplies, materials & minor equipment	1,190,581	1,231,376	1,129,114
Interest	847,874	801,655	1,148,281
Bad debts	-	-	-
Payroll tax	239,735	220,000	221,209
Transfers	49,352	75,500	51,979
Amortization	858,355	-	822,775
Other capital items	-	-	-
School generated funds	296,027	-	262,953
Other special purpose funds	14,960	-	13,050
	$ 17,009,964	$ 16,085,308	$ 16,407,976

13. Subsequent Events

Subsequent to June 30, 2008, debentures listed below have been committed from the Province of Manitoba. These debentures cover the overdraft and account payable in the Capital Fund in addition to other project costs covered in the overdraft in the Operating Fund.

Debenture Date	By-law	Debenture Amount
October 31, 2008	5/08	$ 102,400

AUDITOR'S REPORT

To the Board of Trustees
Flin Flon School Division
Flin Flon, Manitoba

We have audited the Consolidated statements of Financial Position, Revenue, Expenses, and Accumulated Surplus, Change in Net Debt and Cash Flow of the Flin Flon School Division as at June 30, 2008 and for the year then ended. The consolidated financial statements include the operating, capital and special purpose funds.

These financial statements are the responsibility of the School Division's administration. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by administration, as well as evaluation the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the School Division as at June 30, 2008 and the results of its operations and the changes in its financial position for the year then ended, in accordance with generally accepted accounting principles.

Our examination also included supplemental schedules of revenue and expenditure details for the year ended June 30, 2008. In our opinion, supplemental schedules when considered in relation to the basic financial statements, present fairly in all material respects, the information shown therein.

Our examination did not include the budget figures, student enrolments, and full time equivalent personnel.

1. NATURE OF ORGANIZATION AND ECONOMIC DEPENDENCE

The Flin Flon School Division is a public body that provides education services to the residents within its geographic location. The Division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax and is a registered charity under the Income Tax Act.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

a) Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds controlled by the Division.

b) Trust Funds

The Division administers a number of bursary and scholarship funds. These bursary and scholarship funds and their related expenses are not included in the consolidated financials statements as they are not owned or controlled by the Division. A schedule of trust funds is attached as part of the notes to the consolidated financial statements. (see Note # 10)

c) Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

d) Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

e) School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school. Funds raised for this purpose within the Flin Flon School Division are used for such activities as travel for school teams, school clubs and graduation.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

f) Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction. To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold	Estimated Useful Life (Years)
Land Improvements	$ 25,000	10
Buildings – brick, mortar, steel	$ 25,000	40
Buildings – wood frame	$ 25,000	25
School Buses	$ 20,000	10
Vehicles	$ 10,000	5
Equipment	$ 5,000	5
Network Infrastructure	$ 25,000	10
Computer Hardware, Servers, Peripherals	$ 5,000	4
Computer Software	$ 10,000	4
Furniture and Fixtures	$ 5,000	10
Leasehold Improvements	$ 25,000	Over term of lease

Grouping of assets in not permitted except for computer work stations. With the exception of land, donated capital assets and capital leases, all tangible capital assets are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

Capital leases are recorded at the present value of the minimum lease payments excluding executory costs (e.g. insurance, maintenance costs, etc). The discount rate used to determine the present value of the lease payments is the lower of the Division's rate for incremental borrowing or the interest rate implicit of the lease.

Donated tangible capital assets are recorded at fair market value at the date of donation. Deferred revenue is recorded in an equivalent amount, for all donated assets except land. The deferred revenue will be recognized as revenue over the useful life of the related asset, on the same basis that the asset is amortized.

All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency.

All tangible capital assets except for land, capital leases, and assets under construction, are amortized on a straight line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized. Capital leases with lease terms that have a bargain purchase option or allow ownership to pass to the Division are amortized over the useful life of the asset class. All other capital leases are amortized over the lesser of the lease term and the useful life of the asset class.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

g) Employees Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no cost relating to this plan are included in the Division's financial statements.

However, the Division provides retirement and future benefits to its employees. These benefits include life insurance and supplemental unemployment benefits, dental, prescription drugs and long term disability.

The Division has adopted the following policies with respect to accounting for these employee future benefits.

(i) Defined Contribution/Insured Benefit Plans

Under these plans, specific fixed amounts are contributed by the Division each period for services rendered by the employees. No responsibility is assumed by the Division to make any further contribution.

Support staff who belong to the Manitoba Association of School Trustees (MAST) pension plan, make defined contributions into the plan based upon age and CPP insurable earnings. The Division matches 100% of the employee contribution. In addition the Division cost shares the basic life insurance premium. The Division fully funds a prescription drug plan for support staff employees, spouses/partners and dependent children.

Other benefit plans available to teaching staff such as long term disability, and extended health care benefits are fully paid by the employees. The Division collects the premiums and remits the funds to the appropriate organization.

h) Capital Reserves

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), can be set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Statement of Financial Position.

The Flin Flon School Division has NO amounts set aside in Capital Reserves at this time.

I) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

j) Financial Instruments

There are no significant terms and conditions related to financial instruments(cash, accounts receivable, investments, bank indebtedness, accounts payable and long term debt) that may affect the amount, timing, and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial, and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

3. CONVERSION TO PUBLIC SECTOR ACCOUNTING BOARD (PSAB)

Commencing with the 2006/2007 fiscal year, the Board has adopted generally accepted accounting principles established by PSAB. The following changes have been implemented to comply with the PSAB standard:

(i) Tangible capital assets were restated and amortized over their useful lives to reflect net book value. Amortization of tangible capital assets and gain or loss on disposal of capital assets are recorded in the Statement of Revenue, Expenses and Accumulated Surplus.

(ii) The Operating Fund, Capital Fund and Special Purpose Fund are consolidated in the financial statements. The Special Purpose Fund was created to include school generated funds and charitable foundations controlled by the Division.

(iii) The Employees Future Benefit Liability was not required at June 30, 2008.

(iv) Accrued Interest Payable was established to account for the accrual of interest on Debenture Debt and Other Borrowings from the last payment date. An equal amount is set up as due from the Province to offset the accrued interest payable on debenture.

4. OVERDRAFT

The Division has an authorized revolving line of credit with the Royal Bank of Canada valued at $ 3,050,000. The line of credit is used as required when inflow of revenues do not match the outflow of expenses. It is generally used in the latter half of the year as the payment from the City of Flin Flon for the Municipal Special Levy is not paid to the Division until January 31st of each year. The Division receives funding from the province on the 10th and 25th of each month from September through June. It does not receive any funding in July and August, although the Division incurs similar expenses in these months as during the rest of the year.

The Division's Operating Fund was in an overdraft position of $ 31,864 at June 30, 2008.

5. SHORT TERM INVESTMENTS

The Division does not invest in short term investments because it's cash flow is such that there are never any substantial amount of funds to invest for any length of time. Instead the Division receives interest on its positive balance in the operating bank account at a rate of prime less 2%.

6. DEBENTURE DEBT

Issue	Interest Rate	Maturity Date	Balance June 30, 2008	Balance June 30, 2007
$ 62,000	8.375%	15/12/2013	29,673.67	33,370.92
$ 90,000	8.875%	30/09/2015	54,335.77	58,881.55
$ 74,000	6.125%	30/04/2019	51,073.95	54,267.35
$ 170,000	6.625%	31/01/2022	139,391.10	145,344.17
$ 563,500	5.375%	30/06/2025	511,679.70	529,864.95
$ 119,200	5.000%	28/02/2026	111,809.98	115,595.08
$ 257,100	4.875%	15/02/2027	249,221.35	257,100.00
$ 372,300	5.125%	15/05/2027	361,188.58	372,300.00
			$1,508,374.10	$1,566,724.02

Under the terms of the debenture agreements, the approximate annual principal payments over the next five years are as follows:

2009	$ 61,773
2010	$ 65,406
2011	$ 69,263
2012	$ 73,357
2013	$ 77,704

The payments are being made by the Public Schools Finance Board, Province of Manitoba

7. DEFERRED REVENUE

Deferred Revenue on Consolidation valued at $ 412,941 at June 30, 2008 consists of the following:

a) Education Property Tax Credit is valued at $ 706,387 for Calendar 2008. $ 353,194 or 50% was taken into Revenue in the 2007/2008 school year for the period from January to June 30, 2008, while the remaining $ 353,193.34 relating to July through December 2008 was setup as Deferred Revenue at June 30, 2008 and will be taken into Revenue in the 2008/2009 school year. An amount of $ 2,654 representing band fees collected in June 2008 but relating to the 2008/2009 school year makes up the remaining difference in the Deferred Revenue account. These balance sit on the Operating Fund.

b) Playground Equipment purchased by the McIsaac Playground Committee has been recognized as a donation in accordance with rules as per the Public Sector Accounting Board. The original value of the donation recorded as Deferred Revenue in 2006/2007 was $ 71,367. The equipment is considered to have a useful life of 5 years. An amount of $ 14,274 was recognized as revenue in 2007/2008, reducing the Deferred Revenue balance to $ 57,093 at June 30, 2008. This item sits on the Capital Fund.

8. DISCLOSURE UNDER PUBLIC SECTOR COMPENSATION DISCLOSURE ACT

(a) There were no members of the Board of Trustees who individually received compensation $50,000 or more.

(b) Total compensation paid to the Board of Trustees in aggregate was $ 42,705.

(c) The employees and officers of the Flin Flon School Division who received compensation $50,000 or more are as follows:

Abbott, R.	Teacher	$ 62,383	Hyndman, M.	Teacher	$ 57,882
Anderson, T	Teacher	$ 68,129	Mack, D.	Teacher	$ 73,085
Aune, L.	Teacher	$ 62,661	Halpin, G.	Teacher	$ 70,876
Baker. L.	Teacher	$ 57,515	Hill, R.	Teacher	$ 63,794

Wollenhaupt, D.	Teacher	$ 72,443	Tuttosi, T	Teacher	$74,642
Bedford, N.	Teacher	$ 60,557	Priddle, S.	Vice-Principal	$82,041

Salary information is based on the 2007 calendar year payroll information.

* Sandra Garinger is on secondment to the Department of Education and although her salary is paid by the division, it is subsequently recovered from Manitoba Education

9. FISCAL INTEREST

Fiscal interest is recorded at June 30, 2008 in the amount of $ 124,344. This is comprised of the following:

Interest on Short Term borrowing	$ 47,935
Interest on Debenture Debt	$ 76,409

10. TRUST FUNDS

The School Division administers a number of Trust Funds established primarily for student bursaries. These trust funds are not reflected in these Financial Statements. The total balance in the Trust Funds is as follows:

	2008	2007
Bank Balance at Beginning	**$ 146,518**	$ 144,349
Add:		
Contributions	**6,889**	11,201
Interest/Change In Investments	**6,176**	5,795
	159,583	161,335
Deduct: Scholarships Paid/Transferred	**(28,281)**	(14,817)
Ending Bank Balance	**131,302**	146,518
Deduct: Scholarships Payable	**(8,000)**	(5,150)
Add: Due (to) from Operating	**(1,400)**	(6,710)
Ending Fund Balance	**$ 121,902**	$ 134,658

11. BUDGET FIGURES

Budget figures have been included for information purposes only and have not been audited.

12. ALLOWANCE FOR DOUBTFUL ACCOUNTS

An amount Due from First Nations of $ 32,487 setup at June 30, 2007 as an allowance for doubtful accounts, proved uncollectible and has been taken off the books.

13. NET TANGIBLE CAPITAL ASSETS

The Schedule of Tangible Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class.

	Gross Amount	Accumulated Amortization	2008 Net Book Value
Owned-tangible Capital Assets	$ 10,428,079	$ 7,467,969	$ 2,960,110

The Division does not have any capital leases at this time.

14. OTHER THAN TANIGIBLE CAPITAL ASSETS

An adjustment of $ 47,992 was required to the School Accounts to reflect the actual bank balances at June 30, 2007, as compared to an estimate of some balances that was used. As a result of this estimate the bank balances at June 30, 2007 were underestimated.

15. OTHER BORROWINGS

The Division purchased a new maintenance truck in August of 2007 for $ 30,012 with a borrowing cost of 2.99% over three years. The balance of the loan outstanding at June 30, 2008 was $ 22,246.

16. ACCUMULATED SURPLUS – JUNE 30, 2008

The operating surplus at June 30, 2008 was $ 321,020 or 2.8% of operating expenditures for the 2007/2008 school year.

Carryovers of professional development and bulk budgets in accordance with Policy 7:9 are valued at $ 52,624, and if fully expended in the current year would reduce the surplus by a similar amount.

The accumulated surplus is comprised of the following:

Operating Fund	
Designated Surplus	$ 52,624
Undesignated Surplus	$ 268,396
Total Operating Fund	$ 321,020
Capital Fund	
Reserve Accounts	$ 0
Equity in Tangible Capital Assets	$1,370,411
Total Capital Fund	$1,370,411
Special Purpose Fund	
School Generated Funds	$ 0
Other Special Purpose Funds	$ 0
Total Special Purpose Fund	$ 0
Total Accumulated Assets	$ 1,691,431

MANAGEMENT RESPONSIBILITY REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of The Fort La Bosse School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 3 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by Meyers Norris Penny LLP independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

Chairperson	Secretary-Treasurer

October 15, 2008

MNP
MEYERS NORRIS PENNY LLP

AUDITOR'S REPORT

(In accordance with subsection 41(11) of the Public Schools Act)

To the Board of Trustees
Fort La Bosse School Division

We have audited the consolidated statement of financial position of the Fort La Bosse School Division as at June 30, 2008 and the consolidated statements of revenue, expenses, and accumulated surplus, change in net debt and cash flow for the year then ended. These consolidated financial statements are the responsibility of the Division's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly in all material respects, the financial position of the School Division as at June 30, 2008 and the results of its operations and cash flow for that fiscal year in accordance with Canadian generally accepted accounting principles.

Further, in our opinion, the other statements and reports, when considered in relation to the aforementioned financial statements, present fairly the supplemental information shown.

Meyers Norris Penny LLP
AUDITOR

Brandon, Manitoba
October 17, 2008

I hereby certify that this report and the statements and reports referenced herein have been presented to the members of the board of the above-mentioned School Division.

* Includes network infrastructure.

1. Nature of Organization and Economic Dependence

The Fort La Bosse School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax and is a registered charity under the Income Tax Act.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Comparative Figures

The Division adopted Public Sector Accounting Board (PSAB) standards during the 2006/07 fiscal year. The standards have been applied retroactively with a cumulative adjustment to the opening accumulated surplus presented as a restatement on the Statement of Revenue, Expenses and Accumulated Surplus. The 2006 comparative figures have not been restated and are presented in accordance with FRAME, the prescribed method of accounting that the Division followed prior to the implementation of PSAB.

3. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

a) Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds and the Fort La Bosse School Division Foundation Inc. controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation.

b) Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

c) Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

d) School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

e) Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life (years)
Land Improvements	25,000	10
Buildings - bricks, mortar and steel	25,000	40
Buildings - wood frame	25,000	25
School buses	20,000	10
Vehicles	10,000	5
Equipment	5,000	5
Network Infrastructure	25,000	10
Computer Hardware, Servers & Peripherals	5,000	4
Computer Software	10,000	4
Furniture & Fixtures	5,000	10
Leasehold Improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, donated capital assets and capital leases, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

Capital leases are recorded at the present value of the minimum lease payments excluding executory costs (e.g. insurance, maintenance costs, etc.). The discount rate used to determine the present value of the lease payments is the lower of the Division's rate for incremental borrowing or the interest rate implicit in the lease.

Donated tangible capital assets are recorded at fair market value at the date of donation. Deferred revenue is recorded in an equivalent amount, for all donated assets except land. The deferred revenue will be recognized as revenue over the useful life of the related asset, on the same basis that the asset is amortized.

All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency.

All tangible capital assets, except for land, capital leases, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized. Capital leases with lease terms that have a bargain purchase option or allow ownership to pass to the Division are amortized over the useful life of the asset class. All other capital leases are amortized over the lesser of the lease term and the useful life of the asset class.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

f) Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

However, the Division provides retirement and other future benefits to its employees. These benefits include pension, continuation of benefits for health care, life insurance, long-term disability, supplemental unemployment benefits. The Division adopted the following policy with respect to accounting for these employee future benefits:

(i) Defined contribution/ insured benefit plans

Under these plans, specific fixed amounts are contributed by the Division each period for services rendered by the employees. No responsibility is assumed by the Division to make any further contribution:

The employee future benefits liability is the difference between the contribution owing for the period and what has been paid; while the employee future benefits expense is the Division's fixed contribution for the period.

g) Capital Reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position.

h) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

i) Financial Instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

4. Conversion to PSAB

Commencing with the 2006/07 fiscal year, the Board has adopted generally accepted accounting principles established by PSAB. As explained in Note 2, the comparative figures included in these financial statements have not been restated to conform to the accounting standards adopted for the current year.

The following changes have been implemented to comply with the PSAB standard:

(i) Tangible capital assets were restated and amortized over their useful lives to reflect net book value. Amortization of tangible capital assets and gain or loss on disposal of capital assets are recorded in the Statement of Revenue, Expenses and Accumulated Surplus.

(ii) The Operating Fund, Capital Fund and Special Purpose Fund are consolidated in the financial statements. The Special Purpose Fund was created to include school generated funds and charitable foundations controlled by the Division.

(iii)The Employee Future Benefits Liability was established to account for the Division's commitment to pay vested future benefits to its employees.

(iv)Accrued Interest Payable was established to account for accrual of interest on Debenture Debt and Other Borrowings from the last payment date. An equal amount is set up as due from the Province to offset the accrued interest payable on debenture.

5. Overdraft

The Division has an authorized line of credit with CIBC of $3,600,000 by way of overdrafts and is repayable on demand at prime less .5%; interest is paid monthly.

6. Other Investments

Other investments consist of guaranteed investment certificates that mature between 2008 and 2009. Other investments are recorded at the lower of cost or market. As at June 30, 2008, the cost of short term investments was $88,039; investment income earned during the year was $3,005.

7. Deferred Revenue

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The following is a breakdown of the account balance:

	Balance as at June 30, 2007	Additions in the period	Revenue recognized In the period	Balance as at June 30, 2008
Local Government General Support Grant	83,447	84,840	83,447	84,840
Education Property Tax Credit	420,403	476,220	420,403	476,220
Teacher PD Inservice	0	2,654		2,654
Donated Capital Assets	45,570		10,738	34,832
	549,420	563,714	514,588	598,546

8. Debenture Debt

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly installments and maturing at various dates from 2009 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba. The debentures carry interest rates that range from 5.000% to 12.250%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The debenture principal and interest repayments in the next five years are:

	Principal	Interest	Total
2009	682,975	556,178	1,239,153
2010	556,842	496,081	1,052,923
2011	564,689	452,489	1,017,178
2012	598,718	408,444	1,007,162
2013	526,462	361,952	888,414
	2,929,686	2,275,144	5,204,830

9. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class.

	Gross Amount	Accumulated Amortization	2008 Net Book Value
Owned-tangible capital assets	22,879,497	11,664,085	11,215,412
Capital Lease	0	0	0
	22,879,497	11,664,085	11,215,412

10. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008
Operating Fund	
Designated Surplus	
Undesignated Surplus	569,015
	569,015
Capital Fund	
Reserve Accounts	408,000
Equity in Tangible Capital Assets	2,786,676
	3,194,676
Special Purpose Fund	
School Generated Funds	252,501
Other Special Purpose Funds	100,547
	353,048
Total Accumulated Surplus	4,116,739

Designated Surplus under the Operating Fund represents internally restricted amounts appropriated by the board or, in the case of school budget carryovers, by board policy. See page 5 of the audited financial statements for a breakdown of the Designated Surplus.

	2008
Board approved appropriation by motion	0
School budget carryovers by board policy	0
Designated surplus	0

Reserve Accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. A Schedule of Capital Reserve Accounts is provided on page 24 of the audited financial statements.

	2008
Bus reserves	122,975
Other reserves	285,025
	408,000

School Generated Funds and Other Special Purpose Funds are externally restricted moneys for school and Foundation-Scholarship use.

	2008
Foundation Scholarship	100,547
Other	0
Other Special Purpose Funds	100,547

11. Restatement of Accumulated Surplus

Restatement of Opening Accumulated Surplus is comprised of:

	2007
Capital Fund	
Tangible Capital Assets	299,426
Accumulated amortization	(10,124,087)
Donated Assets	
Accumulated amortization of deferred revenue	(4,808)
	(9,829,469)
Special Purpose Fund	
School Generated Funds	123,393
Other Special Purpose Funds	98,599
	221,992
Total Restatement of Opening Accumulated Surplus	(9,607,477)

Restatements of the above accounts are prior period cumulative adjustments to the opening balance of the accumulated surplus (deficit) of the current period. These adjustments are the result of adopting PSAB standards.

12. Municipal Government – Property Tax and Related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 43% from 2007 tax year and 57% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue-Municipal Government-Property Tax	4,863,835	4,737,627
Receivable-Due from Municipal-Property Tax	2,740,555	2,661,793

13. Interest Received and Paid

The Division received interest during the year of $5,045 (previous year $1,470); interest paid during the year was $667,031 (previous year $1,017,487).

Interest expense is included in Fiscal and is comprised of the following:

	2008
Operating Fund	
Fiscal-short term loan, interest and bank charges	73,775
Capital Fund	
Debenture debt interest	592,862
Other interest	394
	667,031

The accrual portion of debenture debt interest expense of $252,509 included under the Capital Fund-Debenture debt interest, is offset by an accrual of the debt servicing grant from the Province of Manitoba.

14. Expenses by Object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	10,243,225	10,089,650	9,818,187
Employee benefits & allowances	692,846	721,500	673,430
Services	1,482,627	1,535,417	1,462,994
Supplies, materials & minor equipment	1,263,384	1,267,215	1,107,849
Interest	667,031	102,000	1,017,487
Bad debts	0	0	0
Payroll tax	221,374	216,000	211,737
Tuition and transfers	157,616	133,000	139,902
Amortization	789,406		750,592
School generated funds	460,509		403,412
Other special purpose funds	21,216		16,665
	15,999,234	14,064,782	15,602,255

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Frontier School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 2 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by Deloitte and Touche LLP, independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

AUDITORS' REPORT

TO THE BOARD OF TRUSTEES
FRONTIER SCHOOL DIVISION

We have audited the following financial statements of Frontier School Division (the "Division") as at June 30, 2008 and for the year then ended:

Consolidated – Statement of Financial Position
Consolidated – Statement of Revenues, Expenses and Accumulated Surplus
Consolidated – Statement of Change in Net Debt
Consolidated – Statement of Cash Flow
Operating Fund – Schedule of Financial Position
Operating Fund – Schedule of Revenues, Expenses and Accumulated Surplus
Capital Fund – Schedule of Financial Position
Capital Fund – Schedule of Revenues, Expenses and Accumulated Surplus
Capital Fund – Schedule of Tangible Capital Assets
Capital Fund – Schedule of Reserve Accounts
Special Purpose Fund – Schedule of Financial Position
Special Purpose Fund – Schedule of Revenues, Expenses and Accumulated Surplus
Notes to the Financial Statements

These consolidated financial statements are the responsibility of the Division's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, the above mentioned financial statements present fairly, in all material respects, the financial position of the Division as at June 30, 2008 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles established by the Public Sector Accounting Board of the Canadian Institute of Chartered Accountants.

Our examination also included the statements presented on pages 5 and 8 to 20. In our opinion, such supplemental exhibits and schedules when considered in relation to the basic financial statements, present fairly, in all material respects, the information shown therein.

Our opinion on these financial statements does not extend to any budget information contained there-in.

Deloitte & Touche LLP
Chartered Accountants

Winnipeg, Manitoba
November 7, 2008

I hereby certify that this report and the statements and reports referenced herein have been presented to the members of the Board of the above-mentioned school division.

1. NATURE OF ORGANIZATION AND ECONOMIC DEPENDENCE

The School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries, and funding from First Nation government. The Division is exempt from income tax.

2. COMPARATIVE FIGURES

Certain of the prior year comparative figures have been reclassified to conform to the current year's method of presentation.

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

a) *Reporting Entity and Consolidation*

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds and controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation.

b) *Trust funds*

The Division administers various trust funds. Trust funds and their related operations are not included in the consolidated financial statements as they are not owned or controlled by the Division. A schedule of trust funds is attached as part of the notes to the consolidated financial statements.

Trust funds, under PSAB are properties assigned to a trustee (school division) under a trust agreement or statute; the trustee merely administers the terms and conditions embodied in the agreement, and it has no unilateral authority to change the conditions set out in the trust indenture.

c) *Basis of Accounting*

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

d) Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

e) School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extracurricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

School generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses, and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generate funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled schools generated funds are parent council funds, other parent group funds, student council funds, and travel club funds. Uncontrolled school generated funds are not included in the consolidated financial statements.

f) Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

f) *Tangible Capital Assets (continued)*

Asset Description	Capitalization Threshold	Estimated Useful Life (years)
Land improvements	$ 25,000	10
Buildings – bricks, mortar and steel	25,000	40
Buildings – wood frame	25,000	25
School buses	20,000	10
Vehicles	10,000	5
Equipment	5,000	5
Network infrastructure	25,000	10
Computer hardware, servers and peripherals	5,000	4
Computer software	10,000	4
Furniture and fixtures	5,000	10
Leasehold improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, donated capital assets and capital leases, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

Capital leases are recorded at the present value of the minimum lease payments excluding executor costs (e.g. insurance, maintenance costs, etc.). The discount rate used to determine the present value of the lease payments is the lower of the Division's rate for incremental borrowing or the interest rate implicit in the lease.

Donated tangible capital assets are recorded at fair market value at the date of donation. Deferred revenue is recorded in an equivalent amount, for all donated assets except land. The deferred revenue will be recognized as revenue over the useful life of the related asset, on the same basis that the asset is amortized.

All land acquired prior to June 30, 2006 has been valued at $1,225,210.

All tangible capital assets, except for land, capital leases, and assets under construction, are amortized on a straight-line basis over their estimated useful lives.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

f) Tangible Capital Assets (continued)

Land is not amortized. Capital leases with lease terms that have a bargain purchase option or allow ownership to pass to the Division are amortized over the useful life of the asset class. All other capital leases are amortized over the lesser of the lease term and the useful life of the asset class.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

g) Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

However, the Division provides retirement and other future benefits to its employees. These benefits include pension, life insurance, and retirement allowances. The Division adopted the following policy(ies) with respect to accounting for these employee future benefits:

(i) *Defined contribution/insured benefit plans*

Frontier School Division established a future benefit liability for life insurance premiums paid on behalf of retired employees.

(ii) *Defined benefit/self-insured employee future benefit plans*

Under these plans, benefits to be received by employees or the method for determining those benefits have been specified by the Division. The actuarial risk (with respect to the amount of the benefit that each employee will receive) and the investment risk (with respect to the investment returns on any assets set aside to pay for the cost of these benefits) are assumed by the Division.

Frontier School Division has a Defined Benefit Pension Plan for non-teaching employees. Employees and Frontier School Division currently contribute equal amounts (2007/08, 7%, 2006/07, 6%, and 2005-6 5%). The plan is evaluated using both the "Going Concern Valuation" and the "Solvency Valuation". The last review was on December 2005 and there was a surplus in the plan using both methods.

The Employee contribution for 2005 was $1,088,800 (2006/07 estimate is $1,138,439; 2007/08 estimate is $2,313,951). Frontier School Division contributed an equal amount.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Employee Future Benefits (continued)

For self-insured employee future benefits other than pension plans, that are vesting and accumulating over the employees' length of service (e.g. vesting sick days; continuation of benefits for health care, dental or life insurance), the benefit costs are accounted for on a full accrual basis determined using actuarial valuation of salary escalation, accumulated sick days, insurance & health care costs trends, long-term inflation rates.

For those self-insured benefit obligations that are event driven (e.g. supplemental unemployment benefits; non-vesting parental leave), the benefit costs are recognized and recorded only in the period when the event occurs.

The employee future benefits liability is the total accrued benefit obligation. The employee future benefits expense includes the Division's contribution for the period.

h) Capital Reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position.

i) Use of Estimates

The preparation of the consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from the estimates. Changes in estimates are recorded in the accounting period in which these changes are determined.

j) Financial instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, accounts payable accrued liabilities, accrued interest payable, debenture debt and other borrowings) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to a potential risk any time credit is granted. The carrying amounts of the financial instruments approximate their fair value, unless otherwise noted.

4. CONVERSION TO PSAB

Commencing with the 2006/07 fiscal year, the Board has adopted generally accepted accounting principles established by PSAB.

The following changes have been implemented to comply with the PSAB standard:

i. Tangible capital assets were restated and amortized over their useful lives to reflect net book value. Amortization of tangible capital assets and gain or loss on disposal of capital assets is recorded in the Statement of Revenue, Expenses and Accumulated Surplus.

ii. Asset acquired under capital leases as well as the related obligations were capitalized.

iii. The Operating Fund, Capital Fund and Special Purpose Fund are consolidated in the financial statements. The Special Purpose Fund was created to include school generated funds and charitable foundations controlled by the Division.

iv. The Employee Future Benefits Liability was established to account for the Division's commitment to pay vested future benefits to its employees.

v. Accrued Interest Payable was established to account for accrual of interest on Debenture Debt and Other Borrowings from the last payment date. An equal amount is set up as due from the Province to offset the accrued interest payable on debenture.

5. OVERDRAFT

The Division has an authorized Line of Credit with the Royal Bank of $15,000,000 by way of overdrafts and is repayable on demand at prime less 0.75%; interest paid monthly. Any overdrafts are secured through a Borrowing By-Law.

6. EMPLOYEE FUTURE BENEFITS

Employee future benefits are benefits earned by employees in the current period, but will not be paid out until future periods. Employee future benefits are comprised of future insurance payments to retired employees, provision for teacher special leave, and a provision for Superintendents retirement, as follows:

	2008	2007
Employee Future Benefit Liability (EFBL)		
Retirement Insurance Plan	**$ 80,000**	$ 80,000
Superintendent Retirement	**511,538**	458,870
Special Leave	**441,551**	118,112
	$ 1,033,089	$ 656,982

6. EMPLOYEE FUTURE BENEFITS (continued)

The defined benefit plan provided to non-teaching staff is actuarially valuated every three years using a number of assumptions about future events, including, interest rates, wage and salary increases, and employee turnover and mortality to determine the accrued benefit obligation. The most recent actuarial report was prepared on December 31, 2005. The net unamortized actuarial gain is amortized on a straight-line basis over the expected average remaining service life of the related employee groups. Pension plan assets are valued at market values and the expected rate of return is 6.25%. See Appendix 1.

Long-term disability benefits are covered by an insured plan. The costs of salary compensation paid to employees on long-term disability leave are fully insured and are not included in the financial statements.

Continuation of benefits for life insurance are defined benefits and vesting to certain employees at or after retirement. The related benefit costs and liabilities are included in the financial statements.

Supplemental unemployment benefits are defined benefits that are recognized and recorded only in the period when the events occur (e.g. maternity top up).

The employee future benefit expense is a part of the Employee Benefits and Allowances expense account. It includes the Division's contribution and amortized actuarial gains for the period. Any related pension interest expense is recorded under the Interest and Bank Charges account of the Operating Fund.

7. SCHOOL GENERATED FUNDS LIABILITY

School Generated Funds Liability includes the non-controlled portion of school generated funds consolidated in the cash and bank balances in the amount of $272,960.

	2008	2007
Student Council funds	$ **38,204**	$ 33,333
Travel clubs	**52,681**	66,266
Graduation	**8,673**	38,383
Music enhancement	**33,853**	55,530
Community development	**29,854**	56,501
Other	**136,005**	72,604
	$ **272,960**	$ 324,617

8. DEBENTURE DEBT

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly installments and maturing at various dates from 2009 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba, except for the debenture debt on self-funded capital projects. The debentures carry interest rates that range from 4.875% to 11.75%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The debenture principal and interest repayments in the next five years are:

	Principal	Interest	Total
2009	$ 1,247,551	$ 1,591,956	$ 2,839,507
2010	1,318,694	1,509,418	2,828,112
2011	1,254,423	1,422,228	2,676,652
2012	1,311,308	1,344,587	2,655,896
2013	1,382,523	1,264,194	2,646,717
	$ 6,514,499	$ 7,132,384	$ 13,646,883

The fair market value of the debenture debt is approximately $18,186,424.

9. OTHER BORROWINGS

Other borrowings are debts other than overdrafts or debentures and include obligations related to capital leases.

Capital lease loans on buses, satellite equipment and copiers have interest rates ranging from 3.6% to 7.3% per annum, due between 2009 and 2013. Payments are monthly, quarterly and annual and include principal and interest.

Principal and interest repayment of total Other Borrowings in the next five years are:

	Principal	Interest	Total
2009	$ 503,438	$ 65,259	$ 568,697
2010	473,936	39,384	513,320
2011	292,413	18,755	311,168
2012	173,674	8,055	181,729
2013	65,405	1,425	66,829
	$ 1,508,866	$ 132,878	$ 1,641,743

The fair value of Other Borrowing is approximately $1,519,851.

10. NET TANGIBLE CAPITAL ASSETS

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class.

	2008			2007
	Gross Amount	**Accumulated Amortization**	**Net Book Value**	Net Book Value
Tangible capital assets	**$ 100,748,930**	**$ 68,618,159**	**$ 32,130,771**	$ 31,948,926
Capital lease	**3,048,177**	**886,237**	**2,161,940**	1,618,83
	$ 103,797,107	**$ 69,504,396**	**$ 34,292,711**	$ 33,567,763

11. ACCUMULATED SURPLUS

The consolidated accumulated surplus is comprised of the following:

	2008	2007
Operating Fund		
Designated		
Undesignated	**$ 2,582,538**	$ 2,229,679
Capital Fund		
Reserve Accounts	**260,715**	237,214
Equity in Tangible Assets	**4,667,143**	4,474,646
Special Purpose Funds	**$ 36,893**	$ 38,913
Total Accumulated Surplus	**$ 7,547,289**	$ 6,980,452

Reserve Accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. A Schedule of Capital Reserve Accounts is provided on page 24 of the audited financial statements.

	2008	2007
Bus reserves	**$ 260,715**	$ 237,214

School Generated Funds and Other Special Purpose Funds are externally restricted moneys for school and (*provide details of Other Special Purpose Funds*) use.

12. MUNICIPAL GOVERNMENT – PROPERTY TAX AND RELATED DUE FROM MUNICIPAL GOVERNMENT

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 60% from 2007 tax year and 40% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue – Municipal Government – Property Tax	**$ 3,104,371**	$ 3,502,474
Receivable – Due from Municipal – Property Tax	**$ 1,950,000**	$ 2,100,841

13. INTEREST RECEIVED AND PAID

The Division received interest during the year of $2,222,995 (2006/07 - $2,099,846); interest paid during the year was $2,060,653 (2006/07 - $2,118,157).

Interest expense is included in Fiscal and is comprised of the following:

	2008
Operating Fund	
Fiscal – short term loan, interest and bank charges	**$ 394,532**
Capital Fund	
Debenture debt interest	**1,597,266**
Other interest	**68,855**
	$ 2,060,653

The accrual portion of debenture debt interest expense of $721,605 included under the Capital Fund-Debenture debt interest is offset by an accrual of the debt servicing grant from the Province of Manitoba.

14. ALLOWANCE FOR DOUBTFUL ACCOUNTS

All receivables presented on the consolidated statement of financial position are net of an allowance for doubtful accounts. Below is the total allowance for doubtful accounts as at June 30, 2008:

	2008
Allowance for doubtful accounts deducted from Receivables below:	
Due from First Nations	$ -
Accounts receivable	230,000
	$ 230,000
Bad debts expense (included in fiscal-Other)	$ 230,000

15. EXPENSES BY OBJECT

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	$ 62,713,623	$ 62,311,442	$ 58,705,943
Employees benefits and allowances	6,662,923	6,755,972	6,344,480
Services	14,710,800	14,758,859	13,402,602
Supplies, materials and minor equipment	7,959,778	7,503,265	6,955,034
Interest	394,532	300,000	333,907
Bad debts	230,000	-	-
Payroll tax	1,350,284	1,300,000	1,256,434
Amortization	1,967,080	-	1,801,594
Other capital items	-	-	-
School generated funds	698,018	-	20,551
Other special purpose funds	-	-	-
	$ 96,687,038	$ 92,929,538	$ 88,928,657

16. Comparative Figures

Certain of the prior year's comparative figures have been reclassified to conform to the current year's method of presentation.

Auditors' Report

To the Chairperson and Board of Trustees of
Garden Valley School Division

We have audited the consolidated statement of financial position of **The Garden Valley School Division** as at June 30, 2008 and the consolidated statements of revenue, expenses and accumulated surplus, change in net debt and cash flow for the year then ended. These financial statements are the responsibility of the School Division's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly in all material respects, the financial position of the School Division as at June 30, 2008 and the results of its operations and its cash flows for the fiscal year then ended in accordance with Canadian generally accepted accounting principles.

Further, in our opinion, the other schedules and reports, when considered in relation to the aforementioned financial statements, present fairly the supplemental information shown.

BDO Dunwoody LLP

Proceeds from Disposal of Capital As	-	-	-	-	-	-	-			-	55,493

* Includes network infrastructure.

1. Nature of Organization and Economic Dependence

The Garden Valley School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax and is a registered charity under the Income Tax Act.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation.

Trust Funds

The Division administers a trust fund. Trust funds and their related operations are not included in the consolidated financial statements as they are not owned or controlled by the Division. A schedule of trust funds is attached as part of the notes to the consolidated financial statements.

Trust funds, under PSAB are properties assigned to a trustee (school division) under a trust agreement or statute; the trustee merely administers the terms and conditions embodied in the agreement, and it has no unilateral authority to change the conditions set out in the trust indenture.

Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

School Generated Funds (continued)

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life
Land improvements	25,000	10 years
Buildings – bricks, mortar, steel	25,000	40 years
Buildings – wood frame	25,000	25 years
School buses	20,000	10 years
Vehicles	10,000	5 years
Equipment	5,000	5 years
Network infrastructure	25,000	10 years
Computer hardware, servers, peripherals	5,000	4 years
Computer software	10,000	4 years
Furniture and fixtures	5,000	10 years
Leasehold improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, donated capital assets and capital leases, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

Capital leases are recorded at the present value of the minimum lease payments excluding executory costs (e.g. insurance, maintenance costs, etc.). The discount rate used to determine the present value of the lease payments is the lower of the Division's rate for incremental borrowing or the interest rate implicit in the lease.

Donated tangible capital assets are recorded at fair market value at the date of donation. Deferred revenue is recorded in an equivalent amount, for all donated assets except land. The deferred revenue will be recognized as revenue over the useful life of the related asset, on the same basis that the asset is amortized.

All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency.

All tangible capital assets, except for land, capital leases, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized. Capital leases with lease terms that have a bargain purchase option or allow ownership to pass to the Division are amortized over the useful life of the asset class. All other capital leases are amortized over the lesser of the lease term and the useful life of the asset class.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

However, the Division provides retirement and other future benefits to its administrative employees. These benefits include defined contribution pension, parental leave and early retirement window enhancements. The Division adopted the following policy with respect to accounting for these employee future benefits:

Defined Contribution Pension Plan

The Division pays the employer portion of a defined contribution plan handled by the Manitoba Association of School Trustees (MAST) for administrative employees. Under this plan, specific fixed amounts are contributed by the Division each period for services rendered by the employees, matching employee contributions. No responsibility is assumed by the Division to make any further contribution.

Defined Benefit/Self-Insured Employee Future Benefit Plans

For those defined benefit/self-insured benefit obligations that are event driven such as non-vesting parental leave, the benefit costs are recognized and recorded only in the period when the event occurs. For early retirement window enhancements obligations which are also event driven, the benefit costs are recognized in the period when the commitment to pay the benefit is approved by the Board of Trustees.

Capital Reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management's best estimates, as additional information becomes available in the future.

Financial Instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, and bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

3. Bank Overdraft

The Division has an authorized line of credit with the Heartland Credit Union Ltd. of $5,200,000 by way of overdrafts and is repayable on demand. The various overdrafts bear interest at the bank's prime rate minus .50% and minus .625%; interest is paid monthly. Included in the overdraft are capital projects totalling approximately $1,389,767 which will be submitted to PSFB for debenture funding. Overdrafts are secured by a demand promissory note, line of credit agreement, borrowing by-law and banking documents.

4. Employee Future Benefits

The Division sponsors a defined contribution pension plan, run by the Manitoba Association of School Trustees (MAST). The defined contribution plan is provided to administrative employees based on their age at the beginning of the year and rates of pay. Each age group under the MAST pension plan has a specific percentage for the employees to contribute. The Division contributions equal the employee contributions to the plan. No pension liability is included in the financial statements.

The employee future benefit expense is a part of the Employee Benefits and Allowances expense account. The total pension expense for the 2008 year was $243,927 ($226,580 in 2007).

5. Deferred Revenue

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The following is a breakdown of the account balance:

	Balance as at June 30, 2007	Additions in period	Revenue recognized in period	Balance as at June 30, 2008
Education Property Tax Credit (EPTC)	$ 976,946	2,296,086	2,124,989	1,148,043

6. Debenture Debt

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly instalments and maturing at various dates from 2008 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba. The debentures carry interest rates that range from 5% to 12.125%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The total debenture principal and interest repayments in the next five years are:

2009	$ 2,206,603
2010	2,197,867
2011	2,159,874
2012	1,841,011
2013	1,799,563
	$ 10,204,918

7. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class. The amount of interest capitalized in the period included in School Buildings was $nil (included in School Buildings in previous year $78,596).

8. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008	2007
Operating Fund		
Designated Surplus	$ 144,513	128,974
Undesignated Surplus	386,980	1,073,170
	$ 531,493	1,202,144
Capital Fund		
Reserve Accounts	$ (7,094)	12,214
Equity in Tangible Capital Assets	11,185,633	11,260,145
	$11,178,539	11,272,359
Special Purpose Fund		
School Generated Funds	$ 90,077	83,516
Other Special Purpose Funds	-	-
	$ 90,077	83,516
Total Accumulated Surplus	$11,800,109	12,558,019

Designated Surplus under the Operating Fund represents internally restricted amounts appropriated by the Board of Trustees or, in the case of school budget carryovers, by board policy. The details of the Designated Surplus as disclosed at page 5 of the audited financial statements are as follows:

	2008	2007
School budget carryovers by board policy	$ 144,513	73,481
Board approved appropriation by motion	-	55,493
Designated surplus	$ 144,513	128,974

Reserve Accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. A Schedule of Capital Reserve Accounts is provided on page 24 of the audited financial statements.

	2008	2007
Bus reserves (deficit)	$ (7,094)	12,214
Other reserves	-	-
Capital Reserve	$ (7,094)	12,214

School Generated Funds and Other Special Purpose Funds are externally restricted moneys for school use.

9. Municipal Government – Property Tax and related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 50% from 2007 tax year and 50% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue – Municipal Government – Property Tax	$ 6,613,011	7,795,300
Receivable – Due from Municipal – Property Tax	$ 3,220,957	3,762,053

10. Interest Received and Paid

The Division received interest during the year of $1,767,622 (previous year $1,587,009); interest paid during the year was $1,789,219 (prior year $1,089,381).

Interest expense is included in Fiscal and is comprised of the following:

	2008	2007
Operating Fund		
Fiscal-short term loan, interest and bank charges	$ 76,779	81,200
Capital Fund		
Debenture interest	1,186,826	1,533,796
Other interest	-	-
	$1,263,605	1,614,996

The accrual portion of debenture debt interest expense of $506,557 at June 30, 2008 ($525,615 at June 30, 2007) included under the Capital Fund-Debenture debt interest is offset by an accrual of the debt servicing grant from the Province of Manitoba.

11. Expenses by Object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	$ 20,776,700	20,386,800	18,782,081
Employees benefits and allowances	1,584,841	1,456,100	1,445,061
Services	2,170,724	1,959,685	2,018,281
Supplies, materials & minor equipment	1,630,989	1,436,400	2,029,734
Interest	1,263,605	36,000	1,614,996
Payroll tax	439,979	356,000	407,004
Transfers	211,910	147,000	198,810
Amortization	1,658,360	-	1,446,663
Other capital items	-	-	-
School generated funds	244,990	-	233,820
Other special purpose funds	-	-	-
	$ 29,982,098	25,777,985	28,176,450

12. Commitments

Commitments of Operating Fund Surplus at year end are detailed in the Analysis of Consolidated Accumulated Surplus. Designated Operating Fund Accumulated Surplus is $144,513 at June 30, 2008 ($128,974 at June 30, 2007). The details of the Designated Surplus as disclosed at note 8 and page 5 of the audited financial statements

The school division has equipment lease agreements. Future annual minimum operating lease commitments as at June 30, 2008 are as follows:

2009	$ 17,200
2010	8,900

The school division has committed to purchase administrative offices property and equipment located at 750 Triple E Boulevard in Winkler, Manitoba with possession in July 2008 for $2,400,000 plus GST. The purchase will be financed by a mortgage secured by real property for $2,500,000.

The school division approved the purchase of land in Schanzenfeld, Manitoba for construction of a future school for $240,000 subject to PSFB and financing approval.

Auditors' Report

To the Chairperson and Board of Trustees of
Hanover School Division

We have audited the consolidated statement of financial position of **Hanover School Division** as at June 30, 2008 and the consolidated statements of revenue, expenses and accumulated surplus, change in net debt and cash flow for the year then ended. These financial statements are the responsibility of the School Division's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly in all material respects, the financial position of the School Division as at June 30, 2008 and the results of its operations and its cash flows for the fiscal year then ended in accordance with Canadian generally accepted accounting principles.

Further, in our opinion, the other schedules and reports, when considered in relation to the aforementioned consolidated financial statements, present fairly the supplemental information shown.

BDO Dunwoody LLP

Chartered Accountants

Winnipeg, Manitoba
September 18, 2008

I hereby certify that this report and the statements, schedules and reports referenced herein have been presented to the Members of the Board of Trustees of the above-mentioned School Division.

HANOVER SCHOOL DIVISION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
As at June 30, 2008

1. Nature of Organization and Economic Dependence

The Hanover School Division is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba, and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by the Public Sector Accounting Board (PSAB) of the Canadian Institute of Chartered Accountants (CICA).

Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation.

Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life
Land Improvements	25,000	10 years
Buildings – bricks, mortar, steel	25,000	40 years
Buildings – wood frame	25,000	25 years
School buses	20,000	10 years
Vehicles	10,000	5 years
Equipment	5,000	5 years
Network Infrastructure	25,000	10 years
Computer Hardware, Servers, Peripherals	5,000	4 years
Computer Software	10,000	4 years
Furniture & Fixtures	5,000	10 years
Leasehold Improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency.

All tangible capital assets, except for land, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

However, the Division provides retirement and other future benefits to its administrative employees as a defined contribution plan, under the Manitoba Association of School Trustees Pension Plan (MAST). The Division adopted the following policy with respect to accounting for these employee future benefits:

Defined contribution plan

Under this plan, specific fixed amounts are contributed by the Division each period for services rendered by the employees. No responsibility is assumed by the Division to make any further contribution.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management's best estimates, as additional information becomes available in the future.

Financial Instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

3. Bank Overdraft

The Division has an authorized line of credit with Royal Bank of $ 23,000,000 by way of overdrafts and is repayable on demand at the bank's prime rate less .75%; interest is paid monthly. Overdrafts are secured by a borrowing by-law.

4. Employee Future Benefits

The Division sponsors a defined contribution pension plan, run by the Manitoba Association of School Trustees (MAST). The defined contribution plan is provided to administrative employees based on their age at the beginning of the year and rates of pay. Each age group under the MAST pension plan has a specific percentage for the employees to contribute. The Division contributions equal the employee contributions to the plan. No pension liability is included in the financial statements.

The employee future benefit expense is a part of the Employee Benefits and Allowances expense account. It includes the Division's contribution of $633,773 in 2008 ($560,334 in 2007).

Employee future benefits recorded as a liability represents vacation and sick leave payable for administrative employees.

5. Deferred Revenue

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The following is a breakdown of the account balance:

	Balance as at June 30, 2007	Additions in period	Revenue recognized in period	Balance as at June 30, 2008
Education Property Tax Credit (EPTC)	$ 1,409,948	$ 4,167,522	$3,901,148	$1,676,322

6. School Generated Funds Liability

School Generated Funds Liability includes the non-controlled portion of school generated funds consolidated in the cash and bank balances in the amount of $ 111,478.

As a transition measure in the implementation of the new accounting policies in 2007, school generated funds revenue and expenses reported in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus as at June 30, 2007 covers a period of twelve months from April 1, 2006 to March 31, 2007 with the difference in cash at June 30, 2007 and the net income for the year ending March 31, 2007 being booked to School Funds liability.

School generated funds revenue and expenses reported as at June 30, 2008 covers the twelve month period from July 1, 2007 to June 30, 2008. An adjustment was made in the amount of $43,742 to decrease Opening Accumulated Surplus for the deficit for the period April 1, 2007 to June 30, 2007.

7. Debenture Debt

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly instalments and maturing at various dates from 2008 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba, except for the debenture debt on self-funded capital projects. The debentures carry interest rates that range from 5% to 12.25%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The debenture principal and interest repayments in the next five years are:

	Total
2009	$ 3,412,248
2010	3,274,883
2011	3,126,001
2012	2,880,694
2013	2,784,269
	$ 15,478,096

8. Other Borrowings

Other borrowings are debts other than overdrafts or debentures. This includes two loans to fund the acquisition and renovation of the new Hanover School Division Administration Building.

	2008	2007
RBC Term Loan, unsecured, payable at 5.35%, due January 2017 Interest is paid monthly with principal repayments of $200,000.	$ 1,800,000	-
RBC Term Loan, unsecured, payable at 4.75%, due January 2017 Interest is paid monthly with principal repayments of $70,000 annually beginning January 2009	$ 630,000	-
Bus Garage loan	-	$ 450,000
	2,430,000	$450,000

The bus garage loan was paid out in November 2007.

Principal repayments for the next five years and thereafter are as follows:

	Total
2009	$ 270,000
2010	270,000
2011	270,000
2012	270,000
2013	270,000
Thereafter	1,080,000
	$ 2,430,000

9. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class. The amount of interest capitalized in the period included in Assets under Construction was $ 0 (previous year $ 0).

10. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008	2007
Operating Fund		
Designated Surplus	0	0
Undesignated Surplus	$ 713,963	2,557,801
	713,963	2,557,801
Capital Fund		
Reserve Accounts	0	0
Equity in Tangible Capital Assets	8,175,549	6,852,304
	8,889,512	6,852,304
Special Purpose Fund		
School Generated Funds	290,606	330,791
	290,606	330,791
Total Accumulated Surplus	9,180,118	9,740,896

11. Municipal Government – Property Tax and related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 40% from 2007 tax year and 60% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue – Municipal Government – Property Tax	$ 17,168,057	$ 16,971,484
Receivable – Due from Municipal – Property Tax	$ 7,809,634	$ 8,067,969

12. Interest Received and Paid

The Division received interest during the year of $ 6,402 (previous year $ 6,683); interest paid during the year was $ 2,078,180 (previous year $2,113,751).

Interest expense is included in Fiscal and is comprised of the following:

	2008	2007
Operating Fund		
Fiscal-short term loan, interest and bank charges	$ 212,372	176,548
Capital Fund		
Debenture interest	1,750,502	1,937,203
Other interest	115,306	0
	$ 2,078,180	2,113,751

13. Expenses by object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	$ 38,826,649	$38,024,471	$ 35,520,587
Employees benefits and allowances	2,836,831	2,750,176	2,623,936
Services	3,658,301	3,212,402	3,106,057
Supplies, materials & minor equipment	4,658,126	4,868,889	3,968,157
Interest	2,078,180	225,000	2,113,751
Bad debts	0	0	0
Payroll tax	795,016	800,000	734,363
Amortization	2,073,708	0	1,962,868
Transfers	423,783	388,000	344,477
Other capital items	(4,898)	0	0
School generated funds	1,632,832	0	1,906,236
Other special purpose funds	0	0	0
	$ 56,978,528	$ 50,268,938	$ 52,280,432

14. Special Levy Raised for la Division scolaire franco-manitobaine

In accordance with Section 190.1 of The Public Schools Act, the Division is required to collect a special levy on behalf of la Division scolaire franco-manitobaine. As at June 30, 2008, the amount of this special levy was $ 120,231 (2007 - $113,845). These amounts are not included in the Division's consolidated financial statements.

15. Commitments

The school division has equipment lease agreements. Future annual minimum operating lease commitments as at June 30, 2008 are as follows:

2009	$ 366,838
2010	326,082
2011	259,067
2012	73,699
2013	31,217
Thereafter	3,755

Auditors' Report

To the Chairperson and Board of Trustees of
Interlake School Division

We have audited the consolidated statement of financial position of **Interlake School Division** as at June 30, 2008 and the consolidated statement of revenues, expenses and accumulated surplus, change in net debt and cash flow for the year then ended. These financial statements are the responsibility of the School Division's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating overall financial statement presentation.

In our opinion, these financial statements present fairly in all material respects, the financial position of the School Division as at June 30, 2008 and the results of its operations for the fiscal year then ended in accordance with Canadian generally accepted accounting principles.

Further, in our opinion, the other statements, schedules and reports, when considered in relation to the aforementioned financial statements, present fairly the supplemental information shown.

BDO Dunwoody LLP

Chartered Accountants

Winnipeg, Manitoba
October 1, 2008

I hereby certify that this report and the statements, schedules and reports referenced herein have been presented to the Members of the Board of Trustees of the above-mentioned School Division.

* Includes network infrastructure.

1. Nature of Organization and Economic Dependence

The Interlake School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax and is a registered charity under the Income Tax Act.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation.

Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life
Land Improvements	25,000	10 years
Buildings – bricks, mortar, steel	25,000	40 years
Buildings – wood frame	25,000	25 years
School buses	20,000	10 years
Vehicles	10,000	5 years
Equipment	5,000	5 years
Network Infrastructure	25,000	10 years
Computer Hardware, Servers, Peripherals	5,000	4 years
Computer Software	10,000	4 years
Furniture & Fixtures	5,000	10 years
Leasehold Improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency, except for the land at 192 2nd Avenue North, which is valued at historical cost as management believes the Crown Lands and Property Agency to have overvalued this land by $221,867.

All tangible capital assets, except for land, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion.

Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

However, the Division provides retirement and other future benefits to its employees. These benefits include pension, sick leave payouts, and supplementary unemployment benefits. The Division adopted the following policy with respect to accounting for these employee future benefits:

Defined Contribution Plan

Under these plans, specific fixed amounts are contributed by the Division each period for services rendered by the employees. No responsibility is assumed by the Division to make any further contribution.

Pension - No amounts are recorded in the financial statements for future pension costs. The Division participates in the Manitoba Association of School Trustees (MAST) Pension Plan for non-teaching employees. Contributions are made by the Division and each eligible employee. After two years of participating, contributions become vested. The Division pays the operating costs of the plan and investment management fees for the plan for all active employees. Contribution costs are calculated as a percentage of salary, which ranges from 9.0% to 11.65%, depending upon the employees age, less the employees contributions to the Canada Pension Plan in that particular year.

Long-term Disability - Long term disability benefits are covered by a defined contribution/insured plan fully financed by employees. The costs of salary compensation paid to employees on long-term disability leave are fully insured and are not included in the financial statements.

Life Insurance - The Division participates in the Manitoba Public School Employee Life Insurance Plan, underwritten by Canada Life. Costs for the compulsory 200% x salary coverage are shared equally by the employee and the Division. Expenses are recorded as incurred. No future obligation is recorded on the financial statements.

Defined Benefit Plan

Under these plans, benefits to be received by employees or the method for determining those benefits have been specified by the Division. The actuarial risk (with respect to the amount of the benefit that each employee will receive) and the investment risk (with respect to the investment returns on any assets set aside to pay for the cost of these benefits) are assumed by the Division.

Sick Leave Allowance - The Division offers a sick leave allowance to employees, of which unused days are accumulated to maximum ranging from 85 to 120 days depending upon the employee group. Employees with five years of continuous year's employment are eligible upon their retirement, death or severance to receive a lump sum payment equal to one half of their accumulated allowance. The lump sum is paid out at the rate of pay in effect at the time of payment. Costs recorded in the financial statements are based on current earnings of employees.

Supplemental Employment Benefits Plan - The Division offers Teachers a Supplemental Employment Benefits (SEB) plan for members taking parenting leave, which provides a top up to employment insurance for seventeen weeks. Benefit costs are accrued and expensed when an employee commences their leave. Future obligations for employees who have commenced their leaves are recorded in the financial statements based on current earnings of employees.

Capital Reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management's best estimates, as additional information becomes available in the future.

Financial Instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, and bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

3. Overdraft

The Division has an authorized revolving demand facility with Sunova Credit Union of $8,000,000 by way of overdrafts. Overdrafts bear interest at Prime less 0.75% and are secured by a borrowing by-law supporting the facility.

4. Employee Future Benefits

The Division sponsors a defined contribution pension plan, run by the Manitoba Association of School Trustees (MAST). The defined contribution plan is provided to non-teaching employees based on their age at the beginning of the year and rates of pay. Each age group under the MAST pension plan has a specific percentage for the employees to contribute. The Division contributions equal the employee contributions to the plan. No pension liability is included in the financial statements. Employee benefits and allowances include the Division's contribution of $340,279 ($316,650 in 2007).

Employee future benefits recorded as a liability represents sick leave allowance and supplemental employment benefits payable for eligible employees of $1,132,982 ($748,654 in 2007).

5. Deferred Revenue

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The following is a breakdown of the account balance:

	Balance as at June 30, 2007	Additions in period	Revenue recognized in period	Balance as at June 30, 2008
Education Property Tax Credit (EPTC)	$ 1,176,285	$ 2,860,474	$ 2,663,731	$ 1,373,028

6. School Generated Funds Liability

School Generated Funds Liability includes the non-controlled portion of school generated funds consolidated in the cash and bank balances in the amount of $ 174,907 ($226,149 in 2007).

7. Debenture Debt

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly instalments and maturing at various dates from 2008 to 2027. Payment of principal and interest is funded entirely by grants from the Province of Manitoba, except for the debenture debt on self-funded capital projects. The debentures carry interest rates that range from 5.00% to 12.125%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The debenture principal and interest repayments in the next five years are:

	Interest	Principal	Total
2008/2009	$ 582,461	$ 547,411	$ 1,129,872
2009/2010	541,728	580,297	1,122,025
2010/2011	498,610	609,560	1,108,170
2011/2012	453,510	630,455	1,083,964
2012/2013	407,567	555,335	962,903
	$ 2,483,876	$ 2,923,058	$ 5,406,934

8. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class. The amount of interest capitalized in the period included in Assets under Construction was $ nil (previous year $ nil).

9. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008	2007
Operating Fund		
Designated Surplus	$ -	$ -
Undesignated Surplus	1,092,508	1,194,855
	1,092,508	1,194,855
Capital Fund		
Reserve Accounts	422,959	339,286
Equity in Tangible Capital Assets	2,811,066	2,821,650
	3,234,025	3,160,936
Special Purpose Fund		
School Generated Funds	162,134	77,861
Other Special Purpose Funds	-	-
	162,134	77,861
Total Accumulated Surplus	$ 4,488,677	$ 4,433,652

Reserve Accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. A Schedule of Capital Reserve Accounts is provided on page 24 of the audited financial statements.

	2008	2007
Bus Reserve	$ 347,959	339,286
Stonewall Collegiate Gym Reserve	75,000	-
Capital Reserve	$ 422,959	339,286

10. Municipal Government – Property Tax and Related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students' resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 48% from 2007 tax year and 52% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue – Municipal Government – Property Tax	$ 8,910,700	$ 8,999,380
Receivable – Due from Municipal – Property Tax	$ 4,461,789	$ 4,608,160

11. Interest Received and Paid

The Division received interest during the year of $48,203 (previous year $46,123); interest paid during the year was $636,677 (previous year $654,178).

Interest expense is included in Fiscal and is comprised of the following:

	2008	2007
Operating Fund		
Fiscal-short term loan, interest and bank charges	$ 29,917	$ 44,544
Capital Fund		
Debenture interest	606,760	609,634
Other interest	-	-
	$ 636,677	$ 654,178

The accrual portion of debenture debt interest expense of $ 221,083 ($239,456 in 2007) included under the Capital Fund-Debenture debt interest is offset by an accrual of the debt servicing grant from the Province of Manitoba.

12. Expenses by Object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	$ 21,061,604	$ 21,179,268	$ 20,327,156
Employees benefits and allowances	1,469,125	1,513,414	1,430,406
Services	2,833,752	2,452,730	2,398,102
Supplies, materials & minor equipment	1,979,194	1,929,488	1,822,385
Interest	636,677	661,753	654,178
Payroll tax	457,246	460,000	438,137
Amortization	937,097	-	903,765
Transfers	386,957	416,100	446,242
Loss / (Gain) on disposal of capital assets	-	-	(3,102)
School generated funds	598,219	-	661,554
Other special purpose funds	1,188	-	-
	$ 30,361,059	$ 28,612,753	$ 29,078,823

13. Special Levy Raised for la Division scolaire franco-manitobaine

In accordance with Section 190.1 of The Public Schools Act, the Division is required to collect a special levy on behalf of la Division scolaire franco-manitobaine. As at June 30, 2008, the amount of this special levy was $11,568 ($10,810 in 2007). These amounts are not included in the Division's consolidated financial statements.

14. Trust Funds

The school division does not administer trust funds. As such, a separate schedule has not been attached to the notes to financial statements.

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Kelsey School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 3 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by Haugen Morrish Angers, Chartered Accountants, independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

AUDITORS' REPORT

(in accordance with subsection 41(11) of the Public Schools Act)

KELSEY SCHOOL DIVISION NO. 45

We have audited the consolidated statement of financial position of Kelsey School Division No. 45 as at June 30, 2008 and the consolidated statement of revenue, expenses and accumulated surplus, consolidated statement of change in net debt and the consolidated statement of cash flow for the year then ended. These financial statements are the responsibility of the school division's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Kelsey School Division No. 45 as at June 30, 2008 and the results of its operations and cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Further, in our opinion, the other statements and reports, when considered in relation to the aforementioned financial statements, present fairly the supplemental information shown.

Haugen Morrish Angers
CHARTERED ACCOUNTANTS

The Pas, Manitoba
February 5, 2009

I hereby certify that this report and the statements and reports referenced herein have been presented to the members of the Board of the above mentioned School Division.

* Includes network infrastructure.

1. NATURE OF ORGANIZATION AND ECONOMIC DEPENDENCE

Kelsey School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. COMPARATIVE FIGURES

The 2007 comparative figures have been restated to account for a change in the amortization period from 15 to 25 years for the buildings in the capital fund.

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants.

a) Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation.

b) Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

c) Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds controlled by the Division.

d) School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

e) *Tangible Capital Assets*

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life (years)
Land Improvements	25,000	10
Buildings - bricks, mortar and steel	25,000	40
Buildings - wood frame	25,000	25
School buses	20,000	10
Vehicles	10,000	5
Equipment	5,000	5
Network Infrastructure	25,000	10
Computer Hardware, Servers & Peripherals	5,000	4
Computer Software	10,000	4
Furniture & Fixtures	5,000	10
Leasehold Improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, donated capital assets and capital leases, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

Capital leases are recorded at the present value of the minimum lease payments excluding executory costs (e.g. insurance, maintenance costs, etc.). The discount rate used to determine the present value of the lease payments is the lower of the Division's rate for incremental borrowing or the interest rate implicit in the lease.

Donated tangible capital assets are recorded at fair market value at the date of donation. Deferred revenue is recorded in an equivalent amount, for all donated assets except land. The deferred revenue will be recognized as revenue over the useful life of the related asset, on the same basis that the asset is amortized.

All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency.

All tangible capital assets, except for land, capital leases, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized. Capital leases with lease terms that have a bargain purchase option or allow ownership to pass to the Division are amortized over the useful life of the asset class. All other capital leases are amortized over the lesser of the lease term and the useful life of the asset class.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

f) *Employee Future Benefits*

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

The Division adopted the following policy(ies) with respect to accounting for these employee future benefits:

I) Defined contribution / insured benefit plans

Under these plans, specific fixed amounts are contributed by the Division each period for services rendered by the employees. No responsibility is assumed by the Division to make any further contribution:

TRAF pension is determined by number of years of service and salary. Contributions are 6.8% of salary and 8.4% when you reach your yearly maximum pensionable earnings amount.

The employee future benefits liability is the difference between the contribution owing for the period and what has been paid; while the employee future benefits expense is the Division's fixed contribution for the period.

g) *Use of Estimates*

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

h) *Financial Instruments*

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

4. OVERDRAFT

The Division has an authorized borrowing agreement with the Westoba Credit Union of $3,000,000 by way of overdrafts and is repayable on demand at prime less .05%, interest is paid monthly. Overdrafts are secured by the assignment of all taxes levied or to be levied by the School Division for the current year.

5. DEFERRED REVENUE

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The following is a breakdown of the account balance:

	Balance as at June 30, 2007	Additions in the period	Time Expired Funding Lost	Balance as at June 30, 2008
Environmental Assistance	$ 14,720	$ -	$ 4,860	$ 9,860
Kelsey Learning Centre		191,380		191,380
Heathy Schools Grant		9,723		9,723
	$ 14,720	$ 201,103	$ 4,860	$ 210,963

6. SCHOOL GENERATED FUNDS LIABILITY

School Generated Funds Liability includes the non-controlled portion of school generated funds consolidated in the cash and bank balances in the amount of $260,748 (2007 - $48,695).

7. DEBENTURE DEBT

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly installments and maturing at various dates from 2009 to 2026. Payment of principal and interest is funded entirely by grants from the Province of Manitoba. The debentures carry interest rates that range from 5% to 12.5%. Debenture interest expense payable as at June 30, 2008 is accrued and recorded in accrued interest payable and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in due from provincial government.

The debenture principal and interest repayments in the next five years are:

	Principal	Interest	Total
2009	$ 249,073	$ 209,617	$ 458,690
2010	230,630	187,906	413,536
2011	241,120	168,577	409,697
2012	207,422	148,584	356,006
2013	207,498	131,126	338,624
	$ 1,135,743	$ 845,810	$ 1,981,553

8. NET TANGIBLE CAPITAL ASSETS

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class.

	Gross Amount	Accumulated Amortization	2008 Net Book Value	2007 Net Book Value
Owned-tangible capital assets	$ 15,928,753	$ 12,604,085	$ 3,324,668	$ 3,021,797
	$ 15,928,753	$ 12,604,085	$ 3,324,668	$ 3,021,797

9. ACCUMULATED SURPLUS (DEFICIT)

The consolidated accumulated surplus is comprised of the following:

	2008	2007
Operating Fund		
Designated Surplus	-	-
Undesignated Surplus	455,875	157,026
	455,875	157,026

Capital Fund		
Reserve Accounts	-	-
Equity in Tangible Capital Assets (as restated)	242,953	325,434
	242,953	325,434
Special Purpose Fund		
School Generated Funds	210,144	204,646
Other Special Purpose Funds	-	-
	210,144	204,646
Total Accumulated Surplus (Deficit)	$ 908,972	$ 687,106

10. RESTATEMENT OF OPENING CAPITAL FUND ACCUMULATED SURPLUS

The restatement of Opening Capital Fund Accumulated Surplus is a prior period adjustment and is comprised of:

	2007
Capital Fund	
Tangible Capital Assets, as previously reported at June 30, 2007	(14,583)
Accumulated Amortization for 2006 & prior	304,006
Change in Amortization for 2007	36,011
Capital Surplus, as restated	$ 325,434

These adjustments are a result of the change in the amortization policy for buildings. Amortization period increased from 15 to 25 years for 2007 year and prior on certain additions.

11. MUNICIPAL GOVERNMENT - PROPERTY TAX AND RELATED DUE FROM MUNICIPAL GOVERNMENT

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 40% from 2007 tax year and 60% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue-Municipal Government-Property Tax	$ 4,102,107	$ 3,303,642
Receivable-Due from Municipal-Property Tax	$ 1,726,810	$ 1,600,244

12. INTEREST RECEIVED AND PAID

The Division received interest during the year of $512 (previous year $793); interest paid during the year was $244,161 (previous year $362,969).

Interest expense is included in Fiscal and is comprised of the following:

	2008
Operating Fund	
Fiscal-short term loan, interest and bank charges	$ 34,021
Capital Fund	
Debenture debt	210,140
Interest	
Other interest	-
	$ 244,161

The accrual portion of debenture debt interest expense of $91,338 (2007 - $95,872) included under the capital fund - debenture debt interest is offset by an accrual of the debt servicing grant from the Province of Manitoba.

13. EXPENSES BY OBJECT

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	$ 11,902,786	$ 11,776,328	$ 11,460,869
Employees benefits & allowances	1,001,553	1,000,912	1,004,018
Services	1,299,500	1,323,270	1,322,235
Supplies, materials & minor equipment	871,530	938,408	904,381
Interest	244,161	40,000	362,969
Bad debts	-	-	-
Payroll tax	253,848	245,000	251,800
Amortization	339,626	-	363,632
Other capital items	15,692	-	11,242
School generated funds	403,355	-	468,478
Transfers	14,897	20,000	15,753
	$ 16,346,948	$ 15,343,918	$ 16,165,377

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Lakeshore School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 2 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by Collins Barrow independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

Auditors' Report

To the Chairperson and Trustees
Lakeshore School Division

We have audited the Consolidated Statement of Financial Position for the Lakeshore School Division as at June 30, 2008, and the Consolidated Statement of Revenue, Expenses and Accumulated Surplus, Consolidated Statement of Change in Net Debt and Consolidated Statement of Cash Flow for the year ended June 30, 2008. These financial statements are the responsibility of the school division's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In common with many not for profit organizations, certain revenues are not susceptible to satisfactory audit verification for completeness. Accordingly, our verification of revenue for the special purpose fund was limited to the amounts recorded by the Division and we were not able to determine whether any adjustments might be necessary to Special Purpose Fund Revenue, Net Current year surplus (deficit) and Closing Accumulated Surplus.

In our opinion, except for the adjustments, if any, which we might have determined to be necessary had we been able to satisfy ourselves concerning the completeness of Special Purpose Fund Revenue, as described in the preceding paragraph, these financial statements present fairly, in all material respects, the financial position of the school division as at June 30, 2008 and the results of its operations and its cash flows for the year then ended in accordance with accepted accounting principles for school divisions in Manitoba as set out in note 2 to the financial statements.

Further, in our opinion, the other statements and reports, when considered in relation to the aforementioned financial statements, present fairly, in all material respects, the supplementary information shown.

Winnipeg, Canada
October 30, 2008

Collins Barrow
CHARTERED ACCOUNTANTS

I hereby certify that this report and the statements and reports referenced herein have been presented to the members of the Board of the above mentioned School Division.

* Includes network infrastructure.

1. Nature of Organization and Economic Dependence

The School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

a) Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds and The Lakeshore Foundation of Manitoba Inc. controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation wherever possible.

Trust Funds

The Division administers various trust funds. Trust funds and their related operations are not included in the consolidated financial statements as they are not owned or controlled by the Division. A schedule of trust funds is attached as part of the notes to the consolidated financial statements.

Trust funds, under PSAB are properties assigned to a trustee (school division) under a trust agreement or statue. The trustee merely administers the terms and conditions embodied in the agreement, and it has no unilateral authority to change the conditions set our in the trust indenture.

b) Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

c) Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

2. Significant Accounting Policies - Continued

d) School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are student council funds, yearbook funds, graduation funds and specified sports and cultural funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

e) Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life (years)
Land Improvements	25,000	10
Buildings - bricks, mortar and steel	25,000	40
Buildings - wood frame	25,000	25
School buses	20,000	10
Vehicles	10,000	5
Equipment	5,000	5
Network Infrastructure	25,000	10
Computer Hardware, Servers & Peripherals	5,000	4
Computer Software	10,000	4
Furniture and Fixtures	5,000	10
Leasehold Improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land and buildings acquired before June 30, 1995, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

All land acquired prior to June 30, 1995 has been valued using information provided by the Crown Lands and Property Agency and adjusted by the Division where further information was available.

2. Significant Accounting Policies - Continued

e) Tangible Capital Assets - Continued

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

All tangible capital assets, except for land and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

f) Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

However, the Division provides other future benefits to its employees. Theses benefits include supplemental employment benefits and sick leave. These benefits are event driven and the costs are recognized when the event becomes known.

g) Capital Reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position.

h) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

i) Financial instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

3. Overdraft

The Division has an authorized line of credit with the Canadian Imperial Bank of Commerce of $3,000,000 by way of overdrafts and is repayable on demand at prime less 0.25%: interest is paid monthly. $3,000,000 remains available on this line of credit. Overdrafts are secured by temporary borrowing by-laws.

4. School Generated Funds Liability

School Generated Funds Liability represents the non-controlled portion of school generated funds consolidated in the cash and bank balances.

5. Debenture Debt

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly installments and maturing at various dates from 2008 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba. The debentures carry interest rates that range from 4.875% to 11.625%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The debenture repayments in the next five years are:

	Principal	Interest	Total
2009	$ 463,995	645,105	1,109,100
2010	484,329	617,450	1,101,779
2011	512,878	588,901	1,101,779
2012	543,194	558,585	1,101,779
2013	557,771	526,389	1,084,160
	$2,562,167	$2,936,430	$5,498,597

6. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class.

	Gross Amount	Accumulated Amortization	2008 Net Book Value	2007 Net Book Value
Owned-tangible capital assets	$ 22,990,329	$ 9,169,845	$ 13,820,484	$ 14,155,310
Capital lease	-	-	-	-
	$ 22,990,329	$ 9,169,845	$ 13,820,484	$ 14,155,310

7. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008	2007
Operating Fund		
Designated Surplus	$ -	$ -
Undesignated Surplus	549,827	673,650
	549,827	673,850
Capital Fund		
Reserve Accounts	585,877	3,097
Equity in Tangible Capital Assets	1,989,625	2,307,558
	2,575,502	2,310,655
Special Purpose Fund		
School Generated Funds	107,135	103,991
Other Special Purpose Funds	14,400	17,046
	121,535	121,037
Total Accumulated Surplus	$ 3,246,864	$ 3,105,342

Designated Surplus under the Operating Fund represents internally restricted amounts appropriated by the board or, in the case of school budget carryovers, by board policy.

Reserve Accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. A Schedule of Capital Reserve Accounts is provided on page 24 of the audited financial statements.

School Generated Funds and Other Special Purpose Funds are externally restricted moneys for school use, Scholarship Awards and donations for school projects.

8. Municipal Government - Property Tax and related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 40% from 2007 tax year and 60% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue-Municipal Government-Property Tax	$2,864,787	$3,445,326
Receivable-Due from Municipal-Property Tax	$1,700,872	$1,868,562

9. Interest Received and Paid

The Division received interest during the year of $37,891 (2007; $40,135); interest paid during the year was $641,212 (2007; $695,283).

Interest expense is included in Fiscal and is comprised of the following:

	2008	2007
Operating Fund		
Fiscal-short term loan, interest and bank charges	$ -	$ 11,089
Capital Fund		
Debenture debt interest	641,212	684,194
	$ 641,212	$ 695,283

The accrual portion of debenture debt interest expense of $295,891 (2007; $293,596) included under the Capital Fund-Debenture debt interest, is offset by an accrual of the debt servicing grant from the Province of Manitoba.

10. Expenses by Object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	$ 9,516,018	$ 9,500,542	$ 9,056,782
Employees benefits and allowances	775,224	822,959	763,778
Services	1,285,515	1,039,209	1,117,900
Supplies, materials and minor equipment	1,046,680	1,188,865	1,380,783
Interest	641,212	25,000	695,283
Payroll tax	199,681	200,000	193,253
Transfers	671,332	43,100	35,958
Amortization	676,895		542,774
Loss (Gain) and disposal of capital assets	159,097		(3,097)
School generated funds	343,368		438,098
Other special purpose funds	12,696		9,332
	$ 15,327,718	$ 12,819,675	$ 14,230,844

11. Budget Figures and Non Financial Information

The 2008 budget figures, student enrolments (FRAME) and transportation statistics, full time equivalent personnel, and senior staff allocations are unaudited and have been presented for information purposes only.

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Lord Selkirk School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with Canadian generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 2 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by BDO Dunwoody LLP, independent external auditors, appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

Auditors' Report

To the Chairperson and Board of Trustees of
Lord Selkirk School Division

We have audited the consolidated statement of financial position of **Lord Selkirk School Division** as at June 30, 2008 and the consolidated statement of revenues, expenses and accumulated surplus, change in net debt and cash flow for the year then ended. These financial statements are the responsibility of the School Division's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly in all material respects, the financial position of the School Division as at June 30, 2008 and the results of its operations and its cash flows for the fiscal year then ended in accordance with Canadian generally accepted accounting principles.

Further, in our opinion, the other statements, schedules and reports, when considered in relation to the aforementioned consolidated financial statements, present fairly the supplemental information shown.

BDO Dunwoody LLP

Chartered Accountants

Winnipeg, Manitoba
October 2, 2008

I hereby certify that this report and the statements, schedules and reports referenced herein have been presented to the Members of the Board of Trustees of the above-mentioned School Division.

October 21, 2008
Date

Jean Olivier
Chairperson

Lord Selkirk School Division

LORD SELKIRK SCHOOL DIVISION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
As at June 30, 2008

1. Nature of Organization and Economic Dependence

The Lord Selkirk School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax and is a registered charity under the Income Tax Act.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation.

Trust Funds

The Division administers various trust funds. Trust funds and their related operations are not included in the consolidated financial statements as they are not owned or controlled by the Division. A schedule of trust funds is attached as part of the notes to the consolidated financial statements.

Trust funds, under PSAB are properties assigned to a trustee (school division) under a trust agreement or statute; the trustee merely administers the terms and conditions embodied in the agreement, and it has no unilateral authority to change the conditions set out in the trust indenture.

Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life
Land Improvements	25,000	10 years
Buildings – bricks, mortar, steel	25,000	40 years
Buildings – wood frame	25,000	25 years
School buses	20,000	10 years
Vehicles	10,000	5 years
Equipment	5,000	5 years
Network Infrastructure	25,000	10 years
Computer Hardware, Servers, Peripherals	5,000	4 years
Computer Software	10,000	4 years
Furniture & Fixtures	5,000	10 years
Leasehold Improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency.

All tangible capital assets, except for land, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

However, the Division provides retirement and other future benefits to its administrative employees as a defined contribution plan, under the Manitoba Association of School Trustees Pension Plan (MAST). The Division adopted the following policy with respect to accounting for these employee future benefits:

Defined Contribution Plan

Under this plan, specific fixed amounts are contributed by the Division each period for services rendered by the employees. No responsibility is assumed by the Division to make any further contribution.

Capital Reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management's best estimates, as additional information becomes available in the future.

Financial Instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, and bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

3. Bank Overdraft

The Division has an authorized line of credit with TD Canada Trust of $4,500,000 by way of overdrafts and is repayable on demand at prime less .75%; interest is paid monthly. Overdrafts are secured by a borrowing by-law.

4. Employee Future Benefits

The Division sponsors a defined contribution pension plan, run by the Manitoba Association of School Trustees (MAST). The defined contribution plan is provided to administrative employees based on their age at the beginning of the year and rates of pay. Each age group under the MAST pension plan has a specific percentage for the employees to contribute. The Division contributions equal the employee contributions to the plan. No pension liability is included in the financial statements.

The employee future benefit expense is a part of the Employee Benefits and Allowances expense account. It includes the Division's contribution of $592,305 in 2008.

5. Deferred Revenue

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The following is a breakdown of the account balance:

	Balance as at June 30, 2007	Additions in period	Revenue recognized in period	Balance as at June 30, 2008
Operating Fund				
Education Property Tax Credit (EPTC)	$ 1,397,549	$ 4,740,949	$4,317,455	$ 1,821,043
Making Education Work	17,618	82,648	85,925	14,341
START	20,648	55,079	48,240	27,487
Breakfast Programs	9,461	5,209	8,698	5,972
International Students Program	164,886	178,102	191,653	151,335
Community Stadium	27,590	1,109	-	28,699
Other	24,997	139,656	24,997	139,656
	1,662,749	5,202,752	4,676,968	2,188,533
Capital Fund				
Capital Fund Donations	107,391	6,000	5,895	107,496
Total	$ 1,770,140	5,208,752	4,682,863	2,296,029

6. School Generated Funds Liability

School Generated Funds Liability includes the non-controlled portion of school generated funds consolidated in the cash and bank balances in the amount of $ 70,153.

7. Debenture Debt

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly instalments and maturing at various dates from 2007 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba, except for the debenture debt on self-funded capital projects. The debentures carry interest rates that range from 4.875% to 12%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The debenture principal and interest repayments in the next five years are:

	Total
2009	$ 2,136,619
2010	2,101,550
2011	1,969,010
2012	1,891,062
2013	1,871,989
	$ 9,970,230

8. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class. The amount of interest capitalized in the period included in Assets under Construction was $ nil (previous year $ nil).

9. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008	2007
Operating Fund		
Designated Surplus	$ -	807,016
Undesignated Surplus	1,433,349	1,567,052
	1,433,349	2,374,068
Capital Fund		
Reserve Accounts	431,109	196,395
Equity in Tangible Capital Assets	7,870,850	8,591,114
	8,301,859	8,787,509
Special Purpose Fund		
School Generated Funds	310,777	276,964
Other Special Purpose Funds	-	-
	310,777	276,964
Total Accumulated Surplus	$10,045,985	11,438,541

10. Municipal Government – Property Tax and related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 40% from 2007 tax year and 60% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue – Municipal Government – Property Tax	$ 18,587,317	$ 18,568,903
Receivable – Due from Municipal – Property Tax	$ 8,306,271	$ 8,762,510

11. Interest Received and Paid

The Division received interest during the year of $55,778 (previous year $42,026); interest paid during the year was $1,122,998 (previous year $820,023).

Interest expense is included in Fiscal and is comprised of the following:

	2008	2007
Operating Fund		
Fiscal-short term loan, interest and bank charges	$ 65,180	$ 64,755
Capital Fund		
Debenture interest	1,151,905	755,268
Other interest	-	-
	$ 1,217,085	$ 820,023

The accrual portion of debenture debt interest expense of $ 557,970 included under the Capital Fund-Debenture debt interest is offset by an accrual of the debt servicing grant from the Province of Manitoba.

12. Expenses by object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	$ 32,814,972	$32,383,665	$31,140,183
Employees benefits and allowances	2,730,627	2,568,295	2,523,319
Services	3,357,171	3,235,765	3,045,313
Supplies, materials & minor equipment	3,219,197	3,322,275	2,531,246
Interest	1,217,085	75,000	820,023
Bad debts	-	-	-
Payroll tax	711,851	697,505	673,872
Amortization	2,020,934	-	1,810,537
Transfers	202,653	245,800	194,659
Other capital items	281,891	-	-
School generated funds	1,120,863	-	970,184
Other special purpose funds		-	-
	$ 47,677,244	$ 42,528,305	$ 43,709,336

DIVISION SCOLAIRE
LOUIS RIEL
SCHOOL DIVISION

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Louis Riel School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 2 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by BDO Dunwoody LLP Chartered Accountants and Advisors, independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

Auditors' Report

To the Chairperson and Board of Trustees of
Louis Riel School Division

We have audited the consolidated statement of financial position of **Louis Riel School Division** as at June 30, 2008 and the consolidated statements of revenue, expenses and accumulated surplus, change in net debt and cash flow for the year then ended. These financial statements are the responsibility of the School Division's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly in all material respects, the financial position of the School Division as at June 30, 2008 and the results of its operations and its cash flows for the fiscal year then ended in accordance with Canadian generally accepted accounting principles.

Further, in our opinion, the other schedules and reports, when considered in relation to the aforementioned financial statements, present fairly the supplemental information shown.

BDO Dunwoody LLP

Chartered Accountants

Winnipeg, Manitoba
September 25, 2008

I hereby certify that this report and the statements, schedules and reports referenced herein have been presented to the Members of the Board of Trustees of the above-mentioned School Division.

Oct 31, 2008
Date

Chairperson

Louis Riel School Division

CONSOLIDATED STATEMENT OF FINANCIAL POSITION

as at June 30

LOUIS RIEL SCHOOL DIVISION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2008

1. Nature of Organization and Economic Dependence

The Louis Riel School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax and is a registered charity under the Income Tax Act.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

a) Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation.

b) Trust funds

The Division administers various trust funds. Trust funds and their related operations are not included in the consolidated financial statements as they are not owned or controlled by the Division. A schedule of trust funds is attached as part of the notes to the consolidated financial statements.

Trust funds, under PSAB are properties assigned to a trustee (school division) under a trust agreement or statute; the trustee merely administers the terms and conditions embodied in the agreement, and it has no unilateral authority to change the conditions set out in the trust indenture.

c) Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

d) Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

e) School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

f) Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life (years)
Land Improvements	25,000	10
Buildings - bricks, mortar and steel	25,000	40
Buildings - wood frame	25,000	25
School buses	20,000	10
Vehicles	10,000	5
Equipment	5,000	5
Network Infrastructure	25,000	10
Computer Hardware, Servers & Peripherals	5,000	4
Computer Software	10,000	4
Furniture & Fixtures	5,000	10
Leasehold Improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, donated capital assets and capital leases, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

Donated tangible capital assets are recorded at fair market value at the date of donation. Deferred revenue is recorded in an equivalent amount, for all donated assets except land. The deferred revenue will be recognized as revenue over the useful life of the related asset, on the same basis that the asset is amortized.

All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency.

All tangible capital assets, except for land, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

g) Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

However, the Division provides retirement and other future benefits to its employees. These benefits include pension and supplemental unemployment benefits. The Division adopted the following policies with respect to accounting for these employee future benefits:

(i) Defined contribution plan

The division provides retirement benefits to its administrative employees through a defined contribution plan under the Manitoba Association of School Trustees Pension Plan (MAST). Under this plan, specific fixed amounts are contributed by the Division each period for services rendered by the employees. No responsibility is assumed by the Division to make any further contributions.

(ii) Self-insured Employee Future Benefits Plan

For those self-insured benefit obligations that are event driven (e.g. supplemental unemployment benefits; non-vesting parental leave), the benefit costs are recognized and recorded only in the period when the event occurs.

h) Capital Reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position.

i) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management's best estimates as additional information becomes available in the future.

j) Financial instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

3. Overdraft

The Division has an authorized line of credit with The Royal Bank of $25,000,000 by way of overdrafts and is repayable on demand at prime less .75%; interest is paid monthly. Overdrafts are secured by a borrowing by-law.

4. Employee Future Benefits

The Division sponsors a defined contribution pension plan run by the Manitoba Association of School Trustees (MAST). The defined contribution plan is provided to administrative employees based on their age at the beginning of the year and rates of pay. Each age group under the MAST pension plan has a specific percentage for the employee to contribution. The Division contributions equal the employee contributions to the plan. No pension liability is included in the financial statements.

The employee benefit expense is part of the Employee Benefits and Allowances expense account. It includes the Division's contribution of $1,596,530 in 2007/2008.

Long term disability benefits are covered by a defined contribution/ insured plan. The costs of salary compensation paid to employees on long-term disability leave are fully insured and are not included in the financial statements.

Supplemental unemployment benefits are defined benefits that are recognized and recorded only in the period when the events occur (e.g. maternity top up).

5. Deferred Revenue

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The following is a breakdown of the account balance:

	Balance as at June 30, 2007	Additions in the period	Revenue recognized in the period	Balance as at June 30, 2008
Manitoba Textbook Bureau	$ -	$ -	$ -	$ -
Education Property Tax Credit	5,962,528	7,561,588	6,625,032	$ 6,899,084
Other	147,824	167,083	133,230	$ 181,677
	$ 6,110,353	$ 7,728,671	$ 6,758,262	$ 7,080,761

The above amounts are included in the total deferred revenue balance of the Division for funding that will not be recognized until the following fiscal year. The total deferred revenue balance at June 30, 2008 is $7,080,761 (2007 $6,110,353).

6. School Generated Funds Liability (Asset)

School Generated Funds Liability includes the non-controlled portion of school generated funds consolidated in the cash and bank balances in the amount of ($39,419).

	2008
Parent council funds	$ 14,473
Other parent group funds	
Students council funds	(75,389)
Travel club funds	21,497
	$ (39,419)

7. Debenture Debt

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly installments and maturing at various dates from 2008 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba, except for the debenture debt on self-funded capital projects. The debentures carry interest rates that range from 5.125% to 12.125%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The debenture principal and interest repayments in the next five years are:

	Principal	Interest	Total
2009	2,407,631	1,663,491	4,071,122
2010	2,046,748	1,443,781	3,490,529
2011	976,105	3,153,247	4,129,352
2012	1,827,723	1,118,904	2,946,627
2013	1,572,432	971,823	2,544,255
	$ 8,830,639	$ 8,351,246	$ 17,181,885

8. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class.

9. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008
Operating Fund	
Designated Surplus	1,495,783
Undesignated Surplus	5,286,516
	6,782,299
Capital Fund	
Reserve Accounts	1,927,042
Equity in Tangible Capital Assets	16,288,180
	18,215,222
Special Purpose Fund	
School Generated Funds	2,002,548
Other Special Purpose Funds	-
	2,002,548
Total Accumulated Surplus	$ 27,000,069

Designated Surplus under the Operating Fund represents internally restricted amounts appropriated by the board or, in the case of school budget carryovers, by board policy. See page 5 of the audited financial statements for a breakdown of the Designated Surplus.

	2008
Board approved approriation by motion	899,954
School budget carryovers by board policy	595,829
Designated surplus	$ 1,495,783

Reserve Accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. A Schedule of Capital Reserve Accounts is provided on page 24 of the audited financial statements.

	2008
Bus reserves	$ 1,927,042
Other reserves	
Capital Reserve	$ 1,927,042

School Generated Funds and Other Special Purpose Funds are externally restricted moneys for schools.

10. Restatement of Opening Accumulated Surplus

Restatement of Opening Accumulated Surplus is comprised of:

	2008
Operating Fund	
Employee Future Benefits	-
Capital Fund	
Tangible Capital Assets	-
Accumulated Amortization	(64,317)
	64,317
Special Purpose Fund	
School Generated Funds	-
Other Special Purpose Funds	-
	-
Total Restatement of Opening Accumulated Surplus	$ 64,317

Restatements of the above accounts are prior period cumulative adjustments to the opening balance of the accumulated surplus (deficit) of the current period.

11. Municipal Government – Property Tax and related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 40% from 2007 tax year and 60% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue-Municipal Government-Property Tax	$ 42,659,165	$ 41,880,844
Receivable-Due from Municipal-Property Tax	$ 24,463,184	$ 24,233,619

12. Interest Received and Paid

The Division received interest during the year of $329,369 (previous year $304,696); interest paid during the year was $1,760,378 (previous year $2,770,018).

Interest expense is included in Fiscal and is comprised of the following:

	2008
Operating Fund	
Fiscal-short term loan, interest and bank charges	$ 22,891
Capital Fund	
Debenture debt interest	1,737,487
Other interest	
	$ 1,760,378

13. Expenses by Object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	$ 100,483,320	$ 101,117,595	$ 95,992,016
Employees benefits & allowances	7,282,129	6,731,678	6,800,720
Services	13,554,179	12,673,063	13,370,454
Supplies, materials & minor equipment	6,354,622	5,745,542	6,740,954
Interest	1,760,378	150,000	2,770,018
Bad debts	-	-	-
Payroll tax	2,159,999	2,156,338	2,043,275
Amortization	2,627,116	-	2,565,310
Other capital items	175,169	-	-
School generated funds	2,647,866	-	4,597,270
Transfers	1,360,333	1,411,000	1,003,167
	$ 138,405,111	$ 129,985,216	$ 135,883,184

14. Contractual Obligations

Agreements respecting student transportation were entered into for terms ranging from one to three years. Future annual minimum operating commitments as at June 30, 2008 are as follows:

2009	$1,346,000
2010	$1,386,000

21. Special Levy Raised for la Division scolaire franco-manitobaine

In accordance with Section 190.1 of The Public Schools Act the Division is required to collect a special levy on behalf la Division scolaire franco-manitobaine. As at June 30, 2008, the amount of the special levy was $6,894,616 ($6,673,135 in 2007).

These amounts are not included in the Division's consolidated financial statements.

MANAGEMENT RESPONSIBILITY REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Mountain View School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 3 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by Meyers Norris Penny independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

MEYERS NORRIS PENNY LLP

AUDITOR'S REPORT

(In accordance with subsection 41(11) of the Public Schools Act)

To the Board of Trustees
Mountain View School Division

We have audited the consolidated statement of financial position of the Mountain View School Division as at June 30, 2008 and the consolidated statements of revenue, expenses, and accumulated surplus, change in net debt and cash flow for the year then ended. These consolidated financial statements are the responsibility of the Division's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly in all material respects, the financial position of the School Division as at June 30, 2008 and the results of its operations and cash flow for that fiscal year in accordance with Canadian generally accepted accounting principles.

Further, in our opinion, the other statements and reports, when considered in relation to the aforementioned financial statements, present fairly the supplemental information shown.

Meyers Norris Penny LLP
AUDITOR

Brandon, Manitoba
October 2, 2008

I hereby certify that this report and the statements and reports referenced herein have been presented to the members of the board of the above-mentioned School Division.

1. Nature of Organization and Economic Dependence

The School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax and is a registered charity under the Income Tax Act.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Comparative Figures

The Division adopted Public Sector Accounting Board (PSAB) standards during the 2006/07 fiscal year. The standards have been applied retroactively with a cumulative adjustment to the opening accumulated surplus presented as a restatement on the Statement of Revenue, Expenses and Accumulated Surplus.

3. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

a) Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds.

All inter-fund accounts and transactions are eliminated upon consolidation.

b) Trust funds

The Division administers various trust funds. Trust funds and their related operations are not included in the consolidated financial statements as they are not owned or controlled by the Division. A schedule of trust funds is attached as part of the notes to the consolidated financial statements.

Trust funds, under PSAB are properties assigned to a trustee (school division) under a trust agreement or statute; the trustee merely administers the terms and conditions embodied in the agreement, and it has no unilateral authority to change the conditions set out in the trust indenture.

c) Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

d) Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

e) School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

f) Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life (years)
Land Improvements	25,000	10
Buildings - bricks, mortar and steel	25,000	40
Buildings - wood frame	25,000	25
School buses	20,000	10
Vehicles	10,000	5
Equipment	5,000	5
Network Infrastructure	25,000	10
Computer Hardware, Servers & Peripherals	5,000	4
Computer Software	10,000	4
Furniture & Fixtures	5,000	10
Leasehold Improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, donated capital assets and capital leases, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

Capital leases are recorded at the present value of the minimum lease payments excluding executory costs (e.g. insurance, maintenance costs, etc.). The discount rate used to determine the present value of the lease payments is the lower of the Division's rate for incremental borrowing or the interest rate implicit in the lease.

Donated tangible capital assets are recorded at fair market value at the date of donation. Deferred revenue is recorded in an equivalent amount, for all donated assets except land. The deferred revenue will be recognized as revenue over the useful life of the related asset, on the same basis that the asset is amortized.

All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency.

All tangible capital assets, except for land, capital leases, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized. Capital leases with lease terms that have a bargain purchase option or allow ownership to pass to the Division are amortized over the useful life of the asset class. All other capital leases are amortized over the lesser of the lease term and the useful life of the asset class.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

g) Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

The Division also provides retirement benefits to its non-teaching employees. The Division adopted the following policy with respect to accounting for these employee future benefits:

(i) Defined contribution/ insured benefit plans

Under this plan, specific fixed amounts are contributed by the Division each period for services rendered by the employees.

h) Capital Reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position.

i) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

j) Financial instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

4. Conversion to PSAB

Commencing with the 2006/07 fiscal year, the Board has adopted generally accepted accounting principles established by PSAB.

The following changes have been implemented to comply with the PSAB standard:

(i) Tangible capital assets were restated and amortized over their useful lives to reflect net book value. Amortization of tangible capital assets and gain or loss on disposal of capital assets are recorded in the Statement of Revenue, Expenses and Accumulated Surplus.

(ii) The Operating Fund, Capital Fund and Special Purpose Fund are consolidated in the financial statements. The Special Purpose Fund was created to include school generated funds and charitable foundations controlled by the Division.

(iii)The Employee Future Benefits Liability was established to account for the Division's commitment to pay vested future benefits to its employees.

(iv)Accrued Interest Payable was established to account for accrual of interest on Debenture Debt and Other Borrowings from the last payment date. An equal amount is set up as due from the Province to offset the accrued interest payable on debenture.

5. Overdraft

The Division has an authorized line of credit with the Bank of Montreal of $ 2,950,876 by way of overdrafts and is repayable on demand at prime - .6%; interest is paid monthly.

6. Short Term Investments

Currently the Division has no short term investments.

7. Employee Future Benefits

Employee future benefits are benefits earned by employees in the current period, but will not be paid out until future periods. The employee future benefit is the annual vacation earned by the twelve month non-teaching employees during the fiscal year. Typically this earned vacation entitlement is taken in the subsequent fiscal year.

	Type of Plan		2008
Employee Future Benefit Liabilities (EFBL)			
Vacation Accrual	defined benefits		$ 139,413
Pension plan	defined benefits		
Accrued EFBL		$ -	
Deduct: Pension plan assets		-	
Unamortized actuarial (gains)/losses		-	-
Long-term disability	defined contribution		-
Continuation benefits-health care, dental or life ins.	defined benefits/ vesting		-
Supplemental unemployment benefits	defined benefits/event driven		-
Total Employee Future Benefit Liability			$ 139,413
Employee future benefit expense (EFB)			$ 139,413
Payment made during the year			$ 141,646

The Division sponsors a defined contribution pension plan. The defined contribution plan is provided to non-teaching staff through the MAST Pension Plan. Eligible employees contributed a percentage of their regular salary or wage. The percentage varies according to the age of the employee. The Division contributions equal the employee contributions to the plan. No pension liability is included in the financial statements other than late payment interest owing for the period.

Long term disability benefits are covered by a defined contribution/ insured plan. The costs of salary compensation paid to employees on long-term disability leave are fully insured and are not included in the financial statements.

Supplemental unemployment benefits are defined benefits that are recognized and recorded only in the period when the events occur (e.g. maternity top up).

8. Deferred Revenue

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The following is a breakdown of the account balance:

	Balance as at June 30, 2007	Additions in the period	Revenue recognized in the period	Balance as at June 30, 2008
Manitoba Textbook Bureau	$ -	$ -	$ -	$ -
Donated Capital Assets	-	-	-	-
Property Tax Credit & Healthy Child	1,121,082	1,240,748	1,121,082	1,240,748
	$ 1,121,082	$ 1,240,748	$ 1,121,082	$ 1,240,748

9. School Generated Funds Liability

School Generated Funds Liability includes the non-controlled portion of school generated funds consolidated in the cash and bank balances in the amount of $34,111.

	2008
Parent council funds	$ -
Other parent group funds	-
Students council funds	34,111
Travel club funds	-
	$ 34,111

As a transition measure in the implementation of the new accounting policies, school generated funds revenue and expenses reported in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus as at June 30, 2008 covers a period of twelve months from April 1, 2007 to March 31, 2008.

10. Debenture Debt

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly installments and maturing at various dates from 2008 to 2027. Payment of principal and interest is funded entirely by grants from the Province of Manitoba, except for the debenture debt on self-funded capital projects . The debentures carry interest rates that range from 4.875% to 12.125%.

	Principal	Interest	Total
2009	$ 555,542	$ 601,803	$ 1,157,345
2010	552,199	560,357	1,112,556
2011	564,824	520,423	1,085,247
2012	551,447	480,181	1,031,628
2013	544,111	443,066	987,177
	$ 2,768,123	$ 2,605,830	$ 5,373,953

11. Other Borrowings

Other borrowings are debts other than overdrafts or debentures. This includes short term financing for the Administration facility and loans to purchase division vehicles.

	2008	2007
Admin Facility Financing - Short term	$ -	
Division Vehicle Loan	62,500	
Capital Finance for Video Conf Systems	72,760	96,363
	$ 135,260	$ 96,363

Admin Facility-short term financing loan had an interest rate of prime - .6%, due upon receipt of debenture and interest charges paid monthly. This loan is secured by way of a borrowing by-law.

Capital Financing for Division vehicles has an interest rate of prime - .6% interest per annum, due in 2012 and a monthly payment of $1,562 principal. This loan is secured by way of borrowing by-law.

Capital Financing for the Video Conferencing systems has an interest rate of prime - .6% interest per annum, due in 2011 and a monthly payment of $1,967 principal. This loan is secured by way of borrowing by-law.

12. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class. The amount of interest capitalized in the period included in Assets under Construction was $0.00 (previous year $0.00).

	Gross Amount	Accumulated Amortization	2008 Net Book Value
Owned-tangible capital assets	$ 41,005,142	$ 28,271,826	$ 12,733,316
Capital lease	-	-	-
	$ 41,005,142	$ 28,271,826	$ 12,733,316

13. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008
Operating Fund	
Designated Surplus	84,856
Undesignated Surplus	403,439
	488,295
Capital Fund	
Reserve Accounts	100,275
Equity in Tangible Capital Assets	2,771,509
	2,871,784
Special Purpose Fund	
School Generated Funds	249,215
Other Special Purpose Funds	-
	249,215
Total Accumulated Surplus	$ 3,609,294

Designated Surplus under the Operating Fund represents internally restricted amounts appropriated by the board or, in the case of school budget carryovers, by board policy. See page 5 of the audited financial statements for a breakdown of the Designated Surplus.

	2008
Board approved approriation by motion	-
School budget carryovers by board policy	84,856
Designated surplus	$ 84,856

Reserve Accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. A Schedule of Capital Reserve Accounts is provided on page 24 of the audited financial statements.

	2008
Bus reserves	100,275
Other reserves	-
Capital Reserve	$ 100,275

School Generated Funds and Other Special Purpose Funds are externally restricted moneys for school use.

	2008
Foundation-Scholarship	-
Other - *Specify*	-
Other Special Purpose Funds	$ -

14. Restatement of Opening Accumulated Surplus

Restatement of Opening Accumulated Surplus is comprised of:

	2008
Operating Fund	
Employee Future Benefits	-
Capital Fund	
Tangible Capital Assets	-
Accumulated Amortization	-
	-
Special Purpose Fund	
School Generated Funds	-
Other Special Purpose Funds	-
	-
Total Restatement of Opening Accumulated Surplus	$ -

Restatements of the above accounts are prior period cumulative adjustments to the opening balance of the accumulated surplus (deficit) of the current period. These adjustments are the result of adopting PSAB standards.

15. Municipal Government – Property Tax and related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 40% from 2006 tax year and 60% from 2007 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue-Municipal Government-Property Tax	$ 8,524,182	$ 8,393,654
Receivable-Due from Municipal-Property Tax	$ 5,137,235	$ 5,089,587

16. Interest Received and Paid

The Division received interest during the year of $1,093 (previous year $3,966); interest paid during the year was $ 736,622 (previous year $ 931,958).

Interest expense is included in Fiscal and is comprised of the following:

	2008
Operating Fund	
Fiscal-short term loan, interest and bank charges	$ 100,639
Capital Fund	
Debenture debt interest	629,344
Other interest	6,639
	$ 736,622

17. Allowance for Doubtful Accounts

All receivables presented on the consolidated statement of financial position are net of an allowance for doubtful accounts. Below is the total allowance for doubtful accounts as at June 30, 2008:

	2008
Allowance for doubtful accounts deducted from Receivables below:	
Due from First Nations	$ -
Accounts Receivable	-
	$ -
Bad debts expense (included in fiscal-Other)	$ -

18. Expenses by object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	$ 23,379,312	$ 23,242,156	$ 22,551,462
Employees benefits & allowances	1,939,197	1,869,836	1,908,221
Services	2,747,345	2,667,142	2,690,633
Supplies, materials & minor equipment	2,576,133	2,664,511	2,432,264
Interest	736,622	90,000	931,958
Bad debts	-	-	-
Payroll tax and Transfer	546,523	472,209	520,983
Amortization	1,213,680	-	1,151,315
Other capital items		-	
School generated funds	459,236	-	348,885
Other special purpose funds	-	-	-
	$ 33,598,048	$ 31,005,854	$ 32,535,721

19. Contractual Obligations

Currently there are no contractual obligations affecting Mountain View School Division.

20. Contingent Liabilities

No legal action has been initiated against the Division.

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Mystery Lake School District are the responsibility of the District management and have been prepared in compliance with legislation, and in accordance with Canadian generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 3 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgement, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. District management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the District met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by Kendall Wall Pandya, Chartered Accountants, independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibility, the scope of their examination and their opinion of the District consolidated financial statements.

AUDITOR'S REPORT TO THE BOARD OF TRUSTEES

We have audited the Consolidated Statements of Financial Position, Revenue, Expenses and Accumulated Surplus, changes in Net Debt and Cash Flow of Mystery Lake School District as at June 30, 2008 for the year then ended. These financial statements are the responsibility of the School District's Management. Our responsibility is to express an opinion of these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects the financial position of the School District as at June 30, 2008, and the results of its operations and cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Further, in our opinion the other schedules and reports, when considered in relation to the aforementioned financial statements, present fairly the supplemental information shown.

THOMPSON, MANITOBA

1. NATURE OF ORGANIZATION AND ECONOMIC DEPENDENCE

The Mystery Lake School District is a public body that provides education services to residents within its geographic location. The District is funded mainly by grants from the Province of Manitoba and a special levy on the property assessment included in the District's boundaries. The District is exempt from income tax under the Income Tax Act.

The District is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the District would not be able to continue its operations.

2. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

a) Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenue and expenses for the operating fund, capital fund, and special purpose fund of the District. The District reporting entity includes school generated funds controlled by the District.

b) Basis of Accounting

Revenue and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenue as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods and services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

c) Fund Accounting

The fund method of accounting is employed by the District to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds controlled by the District.

d) School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school. Funds raised for this purpose within the Mystery Lake School District are used for such activities as student activities, lunch programs, student council and physical education.

Only revenue and expenses of school generated funds controlled by the District are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, and student funds for activities such as year book, prom, graduation and drama. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

e) Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the District to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimate Useful Life (years)
Land Improvement	25,000	10
Buildings – bricks, mortar, steel	25,000	40
Buildings – wood frame	25,000	25
School Buses	20,000	10
Vehicles	10,000	5
Equipment	5,000	5
Network Infrastructure	25,000	10
Computer Hardware, Servers Peripherals	5,000	4
Computer Software	10,000	4
Furniture & Fixtures	5,000	10
Leasehold Improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, donated capital assets and capital leases, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

Capital leases are recorded at the present value of the minimum lease payments excluding executory costs (e.g. insurance, maintenance costs, etc.). The discount rate used to determine the present value of the lease payments is the lower of the District's rate for incremental borrowing or the interest rate implicit in the lease.

Donated tangible capital assets are recorded at fair market value at the date of donation. Deferred revenue is recorded in an equivalent amount, for all donated assets except land. The deferred revenue will be recognized as revenue over the useful life of the related asset, on the same basis that the asset is amortized.

All land acquired prior to June 30, 2007 has been valued by the Crown Lands and Property Agency.

All tangible capital assets, except for land, capital leases, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized. Capital leases with lease terms that have a bargain purchase option or allow ownership to pass to the District are amortized over the useful life of the asset class. All other capital leases are amortized over the lesser of the lease term and the useful life of the asset class.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

f) Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the District. The District does not contribute to TRAF, and no costs relating to this plan are included in the District's financial statements.

However, the District provides retirement and other future benefits to its employees. These benefits include life insurance, extended health benefits, dental, prescription drugs, vision and long term disability. The District has adopted the following policies with respect to accounting for these employee future benefits.

i) Defined Contribution / Insured Benefit Plans

Under these plans, specific fixed amounts are contributed by the District each period for services rendered by the employees. No responsibility is assumed by the District to make any further contribution.

The District fully funds long term, short term disability, vision, dental, prescription drugs and extended health benefits for the teachers. Additionally the District pays 50% of the teachers life insurance premiums.

The employee future benefits liability is the difference between the contribution owing for the period and what has been paid; while the employee future benefits expense is the District's fixed contribution for the period including interest accrued for late remittance.

As described under the terms of Article 23 of the Collective Agreement, certain teaching staff have been offered an early leave incentive plan. The agreement states that the payment terms under this plan will be based on annual instalments depending on the age of the teacher at the time of acceptance of the offer.

The District makes defined contributions on behalf of support staff who belong to the Manitoba School of Trustees (MAST) pension plan. The contribution amount is 10% of the total of the employee's gross earnings, employer paid benefits, CPP, and EI premiums. The District fully funds the basic life insurance, long term disability, vision, dental, prescription drugs and extended health benefits for support staff.

ii) Defined Benefits / Self Insured Employee Future Benefit Plans

Under these plans, benefits to be received by employees or the method for determining those benefits have been specified by the District. The actuarial risk (with respect to the amount of the benefit that each employee will receive) and the investment risk (with respect to the investment returns on any assets set aside to pay for the cost of these benefits) are assumed by the District.

For self-insured employee future benefits other than pension plans, that are vesting and accumulating over the employees' length of service (e.g. vesting sick days;) the benefit costs are accounted for on a full accrual basis determined using management's best estimate of salary escalation, accumulated sick days, insurance & health care costs trends, long-term inflation rates.

The employee self-insured benefit obligations that are event driven (e.g. supplemental unemployment benefits; non-vesting parental leave), the benefit costs are recognized and recorded only in the period when the event occurs.

For those future benefits liability is the total accrued benefit obligation. The employee future benefits expense includes the Districts contribution for the period.

g) Capital Reserves

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position.

The Mystery Lake School District has no amounts set aside in Capital Reserves at this time.

h) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

i) Financial Instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The District is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

3. CONVERSION TO PUBLIC SECTOR ACCOUNTING BOARD

Commencing with the 2006 / 2007 fiscal year, the Board has adopted generally accepted accounting principles established by PSAB.

The following changes have been implemented to comply with the PSAB standard:

i) Tangible capital assets were restated and amortized over their useful lives to reflect net book value. Amortization of tangible capital assets and gain or loss on disposal of capital assets are recorded in the Statement of Revenue, Expenses and Accumulated Surplus.

ii) The Operating Fund, Capital Fund and Special Purpose Fund are consolidated in the financial statements. The Special Purpose Fund was created to include school generated funds controlled by the District.

iii) The Employee Future Benefits Liability was established to account for the District's commitment to pay vested future benefits to its employees.

iv) Accrued Interest Payable was established to account for accrual of interest on Debenture Debt and Other Borrowings from the last payment date. An equal amount is set up as due from the Province to offset the accrued interest payable on debenture.

4. OVERDRAFT

The District has an authorized line of credit with the CIBC valued at $8,000,000. The line of credit is used as required when inflow of revenues do not match the outflow of expenses. It is generally used in the latter half of the year as the payment from the City of Thompson for the Municipal Special Levy is not paid until November of each year. The District receives funding from the province on the 10th and 25th of each month from September through June. It does not receive any funding in July and August, although the District incurs similar expenses in these months as during the rest of the year.

The District was not in an overdraft position at June 30, 2008.

5. SHORT TERM INVESTMENTS

The District does not invest in short term investments because its cash flow is such that there are never any substantial amount of funds to invest for any length of time.

6. EMPLOYEE FUTURE BENEFITS

Employee future benefits are benefits earned by employees in the current period, but will not be paid out until future periods. The employee future benefits are comprised of the following:

Employee Future Benefit Liabilities	Type of Plan	2008
Sick Leave Buyout Teachers	Defined Contribution	$ 281,372
Early Leave Incentive Plan Teachers	Defined Contribution	644,050
		$ 925,422

7. DEFERRED REVENUE

Deferred revenue valued at $930,529 at June 30, 2008 consisted of the following:

a) Education Property Tax Credit is valued at $1,516,463 for the 2008 calendar year. $909,873 or 60% was taken into revenue in the 2007 / 2008 school year for the period from January to June 30, 2008 while the remaining $606,585 relating to September to December 2007 was set up as deferred revenue at June 30, 2008 and will be taken into revenue in the 2008 / 2009 school year.

b) Because of the change to PSAB effective the 2006 / 2007 financial reporting period, the purchases of playground equipment at Burntwood School, Deerwood School, Ecole Riverside School, Juniper School, Westwood School and Wapanohk School funded by the Playground Committees are considered to have been donated to the Schools. It is recorded on the District's books by debiting Capital Assets and crediting Deferred Revenue. The equipment is considered to have a useful life of ten years. In each of the ten years, one tenth of the value of the assets will be recorded as Revenue with an offsetting debit to Deferred Revenue. At the end of the ten year time period, the assets will be fully depreciated and the Deferred Revenue account will have a value of zero. The value of the equipment at the time of the donations was $373,009. The deferred revenue related to playground equipment is $276,233.

c) During the year a number of grants were received from various sources to be used for specific projects. Grant revenues are recognized as expenses are incurred for the related project. Revenues exceeding the project expenses are deferred until the related expenses are incurred. Deferred revenue related to specific projects was $47,711.

8. SCHOOL GENERATED FUNDS LIABILITY

School Generated Funds Liability includes the non-controlled portion of school generated funds consolidated in the cash and bank balances in the amount of $160,456. The breakdown is as follows:

	2008
Parent Council Fund	$ 48,543
Playground Committees	5,520
Other Parent Group Funds	13,670
Student Funds	92,723
	$160,456

9. DEBENTURE DEBT

Debenture debt is comprised of the following:

Interest Rate %	Maturity Date	Balance (Dollars)
10.375	October 31, 2009	$ 18,516
10.750	May 15, 2011	56,089
9.250	September 15, 2012	37,059
7.625	February 28, 2014	169,474
8.625	October 31, 2015	260,954
7.375	November 30, 2016	228,661
7.625	February 15, 2017	88,600
6.125	April 30, 2018	199,761
5.875	February 15, 2019	238,389
5.875	February 15, 2019	310,316
6.750	October 15, 2019	93,886
7.250	February 28, 2020	159,908
6.625	April 15, 2021	379,566
6.500	January 15, 2022	835,243
6.875	May 31, 2022	733,068
6.000	February 15, 2024	814,645
6.125	June 15, 2024	671,544
5.375	June 30, 2025	395,451
5.25	March 15, 2028	482,600
		$6,173,730

Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The debenture principal and interest repayments in the next five years are:

	Principal	Interest	Total
2009	$ 348,310	$ 399,268	$ 747,578
2010	372,533	375,046	747,579
2011	387,782	349,074	736,856
2012	391,671	322,332	714,003
2013	417,865	296,139	714,004
	$1,918,161	$1,741,859	$3,660,020

10. NET TANGIBLE CAPITAL ASSETS

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class.

	Gross Amount	Accumulated Amortization	2008 Net Book Value	2007 Net Book Value
Owned Tangible Capital Assets	$31,450,011	$20,655,289	**$10,794,722**	$10,764,450

The District does not have any Capital Leases at this time.

11. OBLIGATION UNDER OPERATING LEASES

Operating lease commitments for the next five years are:

Year ending June 30, 2009	$ 26,143
2010	15,157
2011	-
2012	-
2013	-
	$ 43,300

12. ACCUMULATED SURPLUS

The consolidated accumulated surplus is comprised of the following:

	2008	2007
Operating Fund		
Designated Surplus	$ -	$ -
Undesignated Surplus	103,841	746,929
	$ 103,841	$ 746,929
Capital Fund		
Reserve Accounts	$ -	$ -
Equity in Tangible Capital Assets	4,344,760	4,348,664
	$4,344,760	4,348,664
Special Purpose Fund		
School Generated Funds	$ 60,204	$ 118,439
Other Special Purpose Funds	-	-
	$ 60,204	$ 118,439
Total Accumulated Surplus	$4,508,805	$5,214,032

Designated Surplus under the Operating Fund represents internally restricted amounts appropriated by the board or, in the case of school budget carryovers, by board policy. The District does not have any designated surplus at this time.

Reserve Accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. The District does not have any reserve accounts at this time.

School generated Funds and Other Special Purpose Funds are externally restricted moneys for school use.

	2008	2007
Other Student Activity	$ 60,204	$118,439
Other Special Purpose Funds	-	-
	$ 60,204	$118,439

13. RESTATEMENT OF OPENING ACCUMULATED SURPLUS

Restatement of Opening Accumulated Surplus is comprised of:

	2008	2007
Operating Fund		
Employee Future Benefits	$ -	$ -
Accounts payable to Province	(350,000)	-
	(350,000)	-
Capital Fund		
Tangible Capital Assets	$ -	$ (299,138)
Accumulated Amortization	-	(19,367,181)
Other than Tangible Capital Assets	(43,548)	(246,131
	$ (43,548)	(19,912,450)
Special Purpose Fund		
School Generated Funds	$ -	$ 84,883
Other Special Purpose Funds	-	-
	-	84,883
Total Restatement of Opening Accumulated Surplus	$ (393,548)	$(19,827,567)

Restatements of the above accounts are prior period cumulative adjustments to the opening balance of the accumulated surplus (deficit) of the current period. These adjustments in 2007 are the result of adopting PSAB standards.

14. MUNICIPAL GOVERNMENT – PROPERTY TAX AND RELATED DUE FROM MUNICIPAL GOVERNMENT

Education property tax or Special Levy is raised as the District's contribution to the cost of providing public education for the student residents in the District. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 40% from 2007 tax year and 60% from 2008 tax year. The Municipal receivable and revenue does not include the Vale Inco Grant the district receives. Below are the related revenue and receivable amounts:

		2008	2007
Revenue	Municipal Government Property Tax	$5,191,213	$5,914,129
Receivable	Due from Municipal Property Tax	$3,262,700	$3,600,973

15. INTEREST RECEIVED AND PAID

The District received interest during the year of $566,567 (2007-$566,824); interest paid during the year was $450,235 (2007-$468,626).

	2008	2007
Operating Fund		
Fiscal-short Term Loan, Interest and Bank Charges	$ 50,006	$ 15,324
Capital Fund		
Debenture Debt Interest	520,687	566,824
Other Interest	-	7,369
	$ 570,693	$ 589,517

The accrual portion of debenture debt interest expense of $120,458 (2007-$120,892) included under the Capital Fund-Debenture debt interest, is offset by an accrual of debt servicing grant.

16. ALLOWANCE FOR DOUBTFUL ACCOUNTS

All receivables presented on the Consolidated Statement of Financial Position are net of an allowance for doubtful accounts. There is no allowance for doubtful accounts as at June 30, 2008.

17. BUDGET FIGURES

Budget figures have been included for information purposes only and have not been audited.

MANAGEMENT RESPONSIBILITY REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Park West School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 3 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by Meyers Norris Penny LLP independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

Chairperson

Secretary-Treasurer

MNP
MEYERS NORRIS PENNY LLP

AUDITOR'S REPORT

(In accordance with subsection 41(11) of the Public Schools Act)

To the Board of Trustees
Park West School Division

We have audited the consolidated statement of financial position of the Park West School Division as at June 30, 2008 and the consolidated statements of revenue, expenses, and accumulated surplus, change in net debt and cash flow for the year then ended. These consolidated financial statements are the responsibility of the Division's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly in all material respects, the financial position of the School Division as at June 30, 2008 and the results of its operations and cash flow for that fiscal year in accordance with Canadian generally accepted accounting principles.

Further, in our opinion, the other statements and reports, when considered in relation to the aforementioned financial statements, present fairly the supplemental information shown.

Meyers Norris Penny LLP
AUDITOR

Brandon, Manitoba
October 8, 2008

I hereby certify that this report and the statements and reports referenced herein have been presented to the members of the board of the above-mentioned School Division.

PARK WEST SCHOOL DIVISION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2008

1. Nature of Organization and Economic Dependence

The School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax and is a registered charity under the Income Tax Act.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Comparative Figures

The Division adopted Public Sector Accounting Board (PSAB) standards during the 2006/07 fiscal year. The standards have been applied retroactively with a cumulative adjustment to the opening accumulated surplus presented as a restatement on the Statement of Revenue, Expenses and Accumulated Surplus. The 2006 comparative figures have not been restated and are presented in accordance with FRAME, the prescribed method of accounting that the Division followed prior to the implementation of PSAB.

3. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

a) Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation.

b) Trust funds

The Division administers various trust funds. Trust funds and their related operations are not included in the consolidated financial statements as they are not owned or controlled by the Division. A schedule of trust funds is attached as part of the notes to the consolidated financial statements.

Trust funds, under PSAB are properties assigned to a trustee (school division) under a trust agreement or statute; the trustee merely administers the terms and conditions embodied in the agreement, and it has no unilateral authority to change the conditions set out in the trust indenture.

c) Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

d) Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds controlled by the Division.

e) School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

f) Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life (years)
Land Improvements	25,000	10
Buildings - bricks, mortar and steel	25,000	40
Buildings - wood frame	25,000	25
School buses	20,000	10
Vehicles	10,000	5
Equipment	5,000	5
Network Infrastructure	25,000	10
Computer Hardware, Servers & Peripherals	5,000	4
Computer Software	10,000	4
Furniture & Fixtures	5,000	10
Leasehold Improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, donated capital assets and capital leases, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

Capital leases are recorded at the present value of the minimum lease payments excluding executory costs (e.g. insurance, maintenance costs, etc.). The discount rate used to determine the present value of the lease payments is the lower of the Division's rate for incremental borrowing or the interest rate implicit in the lease.

Donated tangible capital assets are recorded at fair market value at the date of donation. Deferred revenue is recorded in an equivalent amount, for all donated assets except land. The deferred revenue will be recognized as revenue over the useful life of the related asset, on the same basis that the asset is amortized.

All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency.

All tangible capital assets, except for land, capital leases, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized. Capital leases with lease terms that have a bargain purchase option or allow ownership to pass to the Division are amortized over the useful life of the asset class. All other capital leases are amortized over the lesser of the lease term and the useful life of the asset class.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

g) Capital Reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position.

h) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

i) Financial instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

4. Conversion to PSAB

Commencing with the 2006/07 fiscal year, the Board has adopted generally accepted accounting principles established by PSAB. As explained in Note 2, the comparative figures included in these financial statements have not been restated to conform to the accounting standards adopted for the current year.

The following changes have been implemented to comply with the PSAB standard:

(i) Tangible capital assets were restated and amortized over their useful lives to reflect net book value. Amortization of tangible capital assets and gain or loss on disposal of capital assets are recorded in the Statement of Revenue, Expenses and Accumulated Surplus.

(ii) The Operating Fund, Capital Fund and Special Purpose Fund are consolidated in the financial statements. The Special Purpose Fund was created to include school generated funds and charitable foundations controlled by the Division.

(iii)The Employee Future Benefits Liability was established to account for the Division's commitment to pay vested future benefits to its employees.

(iv)Accrued Interest Payable was established to account for accrual of interest on Debenture Debt and Other Borrowings from the last payment date. An equal amount is set up as due from the Province to offset the accrued interest payable on debenture.

5. Overdraft

The Division has an authorized line of credit with Vanguard Credit Union of $4,000,000 by way of overdrafts and is repayable on demand at prime less .5%; interest is paid monthly. Included in the overdraft are capital projects totaling approximately $267,833 which will be submitted to PSFB for debenture funding. Overdrafts are secured by borrowing by-law.

6. Deferred Revenue

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The following is a breakdown of the account balance:

	Balance as at June 30, 2007	Additions in the period	Revenue recognized in the period	Balance as at June 30, 2008
Manitoba Textbook Bureau	$ 3,213	$ 53,220	$ 56,433	$
	-			
Donated Capital Assets	-	-	-	-
Education Property Tax Credit	537,678	480,466	537,678	480,466
	$ 540,891	$ 533,686	$ 594,111	$ 480,466

7. Debenture Debt

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly installments and maturing at various dates from 2009 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba, except for the debenture debt on self-funded capital projects. The debentures carry interest rates that range from 5.00% to 11.75%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The debenture principal and interest repayments in the next five years are:

	Principal	Interest	Total
2009	$ 692,300	$ 500,568	$ 1,192,868
2010	491,512	438,064	929,576
2011	503,071	399,397	902,468
2012	496,252	360,295	856,547
2013	492,508	323,152	815,660
	$ 2,675,643	$ 2,021,476	$ 4,697,119

8. Other Borrowings

Other borrowings are debts other than overdrafts or debentures. This includes a loan to purchase a school bus garage.

School bus garage loan bears 7.5% interest per annum, due in 2010 and a yearly payment of $14,569 principal and interest. This loan is secured by way of borrowing resolution.

Principal and interest repayment of total Other Borrowings in the next five years are:

	Principal	Interest	Total
2009	12,597	1,976	14,573
2010	13,760	1,032	14,792
2011	-	-	-
2012	-	-	-
	$ 26,357	$ 3,008	$ 29,365

9. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class.

	Gross Amount	Accumulated Amortization	2008 Net Book Value
Owned-tangible capital assets	$ 23,208,545	$ 14,530,017	$ 8,678,528
Capital lease	-	-	-
	$ 23,208,545	$ 14,530,017	$ 8,678,528

10. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008
Operating Fund	
Designated Surplus	0
Undesignated Surplus	186,709
	186,709
Capital Fund	
Reserve Accounts	800,000
Equity in Tangible Capital Assets	1,072,857
	1,872,857
Special Purpose Fund	
School Generated Funds	253,097
Other Special Purpose Funds	-
	253,097
Total Accumulated Surplus	$ 2,312,663

Designated Surplus under the Operating Fund represents internally restricted amounts appropriated by the board or, in the case of school budget carryovers, by board policy. See page 5 of the audited financial statements for a breakdown of the Designated Surplus.

	2008
Board approved appropriation by motion	
School budget carryovers by board policy	-
Designated surplus	$

Reserve Accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. A Schedule of Capital Reserve Accounts is provided on page 24 of the audited financial statements.

	2008
Bus reserves	650,000
Other reserves	150,000
Capital Reserve	$ 800,000

School Generated Funds are externally restricted moneys for school use.

	2008
Foundation-Scholarship	-
Other- specify	-
Other Special Purpose Funds	-

11. Municipal Government – Property Tax and related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students resident in the division. The Municipal Government-Property Tax shown on the statement of revenue and expense is raised over the two calendar (tax) years; 44.4% from 2007 tax year and 55.6% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue-Municipal Government-Property Tax	$ 5,471,599	$ 5,656,009
Receivable-Due from Municipal-Property Tax	$ 2,980,379	$ 3,100,891

12. Interest Received and Paid

The Division received interest during the year of $28,047 (previous year $21,002); interest paid during the year was $580,698(previous year $867,435).

Interest expense is included in Fiscal and is comprised of the following:

	2008
Operating Fund	
Fiscal-short term loan, interest and bank charges	$ 44,970
Capital Fund	
Debenture debt interest	532,865
Other interest	2,863
	$ 580,698

The accrual portion of debenture debt interest expense of $179,747 included under the Capital Fund-Debenture debt interest, is offset by an accrual of the debt servicing grant from the Province of Manitoba.

13. Expenses by object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	$ 12,514,034	$ 12,414,028	$ 12,214,114
Employees benefits & allowances	902,659	875,614	883,534
Services	2,890,912	2,674,995	2,566,270
Supplies, materials & minor equipment	1,757,793	1,515,871	1,466,245
Interest	580,698	35,000	867,435
Transfers	131,902	89,800	92,824
Payroll tax	265,205	290,000	265,530
Amortization	765,271	-	755,259
Other capital items		-	
School generated funds	872,990	-	854,526
Bad Debts	614,341	-	-
	$ 21,295,805	$ 17,895,308	$ 19,965,737

15. Contractual Obligations

Agreements respecting student transportation and contract cleaning were entered into. The specific costs for student transportation services are approximately $855,000 for 2008-09.

The specific costs for contract cleaning services are approximately $240,000 for 2008-09.

16. Special Levy Raised for Division scolaire franco-manitobaine

In accordance with Section 190.1 of The Public Schools Act the Division is required to collect a special levy on behalf of la Division scolaire franco-manitobaine. As at June 30, 2008, the amount of this special levy was $432,016 (2007 - $436,773). These amounts are not included in the Division's consolidated financial statements.

PEMBINA TRAILS SCHOOL DIVISION
MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Pembina Trails School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 3 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by Grant Thornton independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

Auditors' Report

To The Board of Trustees of
Pembina Trails School Division

We have audited the consolidated statement of financial position of the **Pembina Trails School Division** as at June 30, 2008, and the consolidated statements of revenues, expenses and accumulated surplus, change in net debt, and cash flows for the year then ended. These financial statements are the responsibility of the Division's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Division as at June 30, 2008 and the results of its operations and changes in its financial position for the year then ended in accordance with the generally accepted accounting principles as established by the Public Sector Accounting Board.

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The current year's supplementary information included in the other statements, schedules and reports is presented for purposes of additional analysis. Such supplementary information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and, in our opinion, is fairly stated in all material respects in relation to the consolidated financial statements taken as a whole.

Our examination did not include the budget figures and we do not express any opinion concerning them.

Winnipeg, Manitoba

October 10, 2008

Grant Thornton LLP

Chartered Accountants

I hereby certify that the preceding report and the statements and reports referenced herein have been presented to the members of the Board of Trustees of Pembina Trails School Division.

Jacqueline Field
Chairman of the Board

1. Nature of Organization and Economic Dependence

The Pembina Trails School Division (Division) is a public body that provides education services to residents within its geographic location. The Division is funded by grants from the Province of Manitoba (Province) and by special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax.

The Division is economically dependent on the Province and on special levy for its revenue and capital financing requirements. Without these funding sources, the Division would not be able to continue its operations.

2. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

a) Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds, and the Pembina Trails Education Support Fund, Pembina Trails Voices and InForm Net which are entities controlled by the Division. All inter-fund accounts and transactions are eliminated upon consolidation.

b) Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

c) Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds controlled by the Division.

d) Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life (years)
Land Improvements	25,000	10
Buildings - brick, mortar and steel	25,000	40
Buildings - wood frame	25,000	25
School Buses	20,000	10
Vehicles	10,000	5
Equipment	5,000	5
Network Infrastructure	25,000	10
Computer Hardware, Servers & Peripherals	5,000	4
Computer Software	10,000	4
Furniture & Fixtures	5,000	10
Leasehold Improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, donated capital assets and capital leases, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

Capital leases are recorded at the present value of the minimum lease payments excluding executory costs (e.g. insurance, maintenance costs, etc.). The discount rate used to determine the present value of the lease payments is the lower of the Division's rate for incremental borrowing or the interest rate implicit in the lease.

Donated tangible capital assets are recorded at fair market value at the date of donation. Deferred revenue is recorded in an equivalent amount, for all donated assets except land. The deferred revenue will be recognized as revenue over the useful life of the related asset, on the same basis that the asset is amortized.

All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency.

All tangible capital assets, except for land, capital leases, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized. Capital leases with lease terms that have a bargain purchase option or allow ownership to pass to the Division are amortized over the useful life of the asset class. All other capital leases are amortized over the lesser of the lease term and the useful life of the asset class.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized. Assets under construction are not amortized until the date of substantial completion.

e) Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements. However, the Division provides retirement and other future benefits to its employees. These benefits include the MAST Pension Plan, Maternity and Parental Leave and Vacation Days. The Division adopted the following policies with respect to accounting for these employee future benefits:

(i) Defined contribution plan – MAST Pension Plan

Under this plan, specific fixed amounts are contributed by the Division each period for services rendered by the employees. No responsibility is assumed by the Division to make any further contribution:

The employee future benefits liability is the difference between the contribution owing for the period and what has been paid; while the employee future benefits expense is the Division's fixed contribution for the period.

(ii) Defined employee future benefit plans – Maternity Leave

For benefit obligations that are event driven (non-vesting maternity and parental leave), the benefit costs are recognized and recorded only in the period when the event occurs. The employee future benefits liability is the total accrued benefit obligation; while the employee future benefit expense is the Division's contribution for the period.

(iii) Defined employee future benefit plans – Accumulated Vacation Days

For benefit obligations that are vested and accumulate over the employees' length of service (vacation days), the benefit costs are recognized and recorded as service is rendered by employees. The employee future benefits liability is the total accrued benefit obligation; while the employee future benefit expense is the Division's contribution for the period.

f) School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are specific purpose student fees and fund raising, school meal programs, scholarship funds, and parent or student council funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

g) Capital Reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position.

h) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

i) Financial instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

3. Overdraft

The Division has an authorized line of credit with Royal Bank of Canada of $30,000,000 by way of overdrafts and is repayable on demand at the Bank's Prime Interest Rate minus 0.75%. Overdrafts are secured by a borrowing by-law document.

4. Employee Future Benefits

The following employee future benefits are benefits earned by employees in the current period, but will not be paid out until future periods.

	Type of Plan	2008	2007
MAST Pension Plan	Defined Contribution	$ -	$ -
Maternity and Parental Leave	Defined Benefit - Event Driven	69,206	12,479
Accumulated Vacation Days	Defined Benefit - Vesting	756,631	709,240
		$ 825,837	$ 721,719

5. Deferred Revenue

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The following is a breakdown of the account balance:

	June 30, 2007	Additions	Recognized	June 30, 2008
Education Property Tax Credit	$ 5,697,423	$ 6,609,070	$ 5,697,423	$ 6,609,070
International Student Program Fees	198,210	178,050	198,210	178,050
Fibre Access Agreements	29,867	-	2,133	27,734
Externally Funded Programs	289,218	259,607	289,218	259,607
Donated Capital Assets	317,729	134,301	65,764	386,266
	$ 6,532,447	$ 7,181,028	$ 6,252,748	$ 7,460,727

6. School Generated Funds Liability

School Generated Funds Liability includes the non-controlled portion of school generated funds consolidated in the cash and bank balances in the amount of $963,146. The following is a breakdown of the account balance:

	2008	2007
Student Fees - Activities, Clubs, Trips	$ 366,782	$ 346,492
Student - Fees, Yearbooks, Agendas	279,973	264,486
Specific Purpose Fund Raising	134,310	126,880
Breakfast and Lunch Programs	116,810	110,348
Scholarship Funds	57,700	54,508
Parent/ Student Council Funds, Other	7,572	7,153
	$ 963,146	$ 909,867

7. Debenture Debt

The debenture debt of the Division is in the form of twenty-year debentures payable in twenty equal yearly installments of principal and interest and maturing at various dates from 2008 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba. The debentures carry interest rates that range from 4.875% to 12.25%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The debenture principal and interest repayments in the next five years are:

	Principal	Interest	Total
2008/09	$ 2,190,579	$ 1,434,171	$ 3,624,750
2009/10	2,072,226	1,233,345	3,305,571
2010/11	1,796,117	1,048,568	2,844,685
2011/12	1,549,714	899,163	2,448,877
2012/13	1,415,071	780,321	$ 2,195,392
	$ 9,023,707	**$ 5,395,568**	**$ 14,419,275**

8. Other Borrowings

Other borrowings are debts other than overdrafts or debentures. The following borrowings include short term borrowings by way of Bankers Acceptances and contractual obligations related to capital leases.

	2008	2007
Bankers Acceptances	$ 13,399,130	$ 14,361,620
Vehicle Leases	-	169,816
Equipment Leases (Copiers)	270,302	405,453
	$ 13,669,432	**$ 14,936,889**

Capital lease loans on equipment have an interest rate of 4.5% per annum, due by 2010 with annual payments of principal and interest. These loans are secured by the related assets. Principal and interest repayment of capital leases for the remaining term of the lease is:

	Principal	Interest	Total
2008/09	$ 135,151	$ 12,107	$ 147,258
2009/10	135,151	12,107	147,258
	$ 270,302	**$ 24,213**	**$ 294,515**

9. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the financial statements, provides a breakdown of cost, accumulated amortization and net book value by class. The breakdown between owned and leased assets is as follows:

	Gross Amount	Accumulated Amortization	2008 Net Book Value
Owned Tangible Capital Assets	$ 88,170,426	$ 49,362,874	$ 38,807,552
Leased Tangible Capital Assets	675,755	364,585	311,170
	$ 88,846,181	**$ 49,727,459**	**$ 39,118,722**

10. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008	2007
Operating Fund		
Designated Surplus	$ 1,644,369	$ 775,976
Undesignated Surplus	3,378,062	4,862,972
	$ 5,022,431	**$ 5,638,948**
Related Entities		
Pembina Trails Education Support Fund	$ 155,656	$ 142,933
Pembina Trails Voices	$ 71,883	$ 70,503
InForm Net	(336)	697
	$ 227,203	**$ 214,133**
Capital Fund		
Reserve Accounts	$ 1,864,687	$ 1,236,486
Equity in Tangible Capital Assets	18,217,541	17,745,721
	$ 20,082,228	**$ 18,982,207**
Special Purpose Fund		
School Generated Funds	$ 629,332	$ 396,532
Other Special Purpose Funds	-	-
	$ 629,332	**$ 396,532**
Total Accumulated Surplus	**$ 25,961,194**	**$ 25,231,820**

Designated Surplus under the Operating Fund represents internally restricted amounts appropriated by the board or, in the case of school budget carryovers, by board policy. See page 5 of the financial statements for a breakdown of the Designated Surplus. Related entities are entities that are controlled by the Division and consolidated into the Operating fund.

Reserve Accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. A Schedule of Capital Reserve Accounts is provided on page 24 of the financial statements.

School Generated Funds are externally restricted moneys for school use.

11. Municipal Government – Property Tax and related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for resident students in the Division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 40% from 2007 tax year and 60% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue - Municipal Government Property Tax	$ 50,722,423	$ 51,747,990
Receivable - Due from Municipal Government Property Tax	$ 29,886,466	$ 30,212,718

12. Interest Received and Paid

The Division received and paid interest during the year as follows:

Interest Received	2008	2007
Operating Fund - Interest Earned	**$ 517,441**	**$ 436,323**
Interest Paid		
Operating Fund - Interest and Bank Charges	$ 178,200	$ 192,493
Capital Fund - Debenture Debt Interest	1,526,457	1,750,413
Capital Fund - Capital Lease Interest	34,406	74,449
Total Interest Paid	**$ 1,739,063**	**$ 2,017,355**

13. Contractual Obligations

The Division has an agreement with King Transportation for student transportation services for a term of 5 years ending in June 2011. The specific costs for these services are approximately $392,000 for 2008/09.

14. Special Levy Raised for la Division scolaire franco-manitobaine

In accordance with Section 190.1 of The Public Schools Act the Division is required to collect a special levy on behalf la Division scolaire franco-manitobaine. The special levy for 2008 was $457,707 (2007 - $423,488). These amounts are not included in the Division's consolidated financial statements.

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Pine Creek School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 3 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by Meyers Norris Penny LLP, independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

Chairperson

Secretary-Treasurer

September 24, 2008

AUDITOR'S REPORT

(In accordance with subsection 41(11) of the Public Schools Act)

To the Board of Trustees
Pine Creek School Division

We have audited the consolidated statement of financial position of the Pine Creek School Division as at June 30, 2008 and the consolidated statements of revenue, expenses, and accumulated surplus, change in net debt and cash flow for the year then ended. These consolidated financial statements are the responsibility of the Division's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly in all material respects, the financial position of the School Division as at June 30, 2008 and the results of its operations and cash flow for that fiscal year in accordance with Canadian generally accepted accounting principles.

Further, in our opinion, the other statements and reports, when considered in relation to the aforementioned financial statements, present fairly the supplemental information shown.

Meyers Norris Penny LLP
AUDITOR

Brandon, Manitoba
September 24, 2008

I hereby certify that this report and the statements and reports referenced herein have been presented to the members of the board of the above-mentioned School Division.

1. Nature of Organization and Economic Dependence

The Pine Creek School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax and is a registered charity under the Income Tax Act.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Comparative Figures

The Division adopted Public Sector Accounting Board (PSAB) standards during the 2006/07 fiscal year. The standards have been applied retroactively with a cumulative adjustment to the opening accumulated surplus presented as a restatement on the Statement of Revenue, Expenses and Accumulated Surplus. The 2006 comparative figures have not been restated and are presented in accordance with FRAME, the prescribed method of accounting that the Division followed prior to the implementation of PSAB.

3. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

a) Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Pine Creek School Division. The Division reporting entity includes school generated funds.

All inter-fund accounts and transactions are eliminated upon consolidation.

b) Trust funds

The Division administers various trust funds. Trust funds and their related operations are not included in the consolidated financial statements as they are not owned or controlled by the Division. A schedule of trust funds is attached as part of the notes to the consolidated financial statements.

Trust funds, under PSAB are properties assigned to a trustee (school division) under a trust agreement or statute; the trustee merely administers the terms and conditions embodied in the agreement, and it has no unilateral authority to change the conditions set out in the trust indenture.

c) Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

d) Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

e) School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

f) Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life (years)
Land Improvements	25,000	10
Buildings - bricks, mortar and steel	25,000	40
Buildings - wood frame	25,000	25
School buses	20,000	10
Vehicles	10,000	5
Equipment	5,000	5
Network Infrastructure	25,000	10
Computer Hardware, Servers & Peripherals	5,000	4
Computer Software	10,000	4
Furniture & Fixtures	5,000	10
Leasehold Improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, donated capital assets and capital leases, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

Capital leases are recorded at the present value of the minimum lease payments excluding executory costs (e.g. insurance, maintenance costs, etc.). The discount rate used to determine the present value of the lease payments is the lower of the Division's rate for incremental borrowing or the interest rate implicit in the lease.

Donated tangible capital assets are recorded at fair market value at the date of donation. Deferred revenue is recorded in an equivalent amount, for all donated assets except land. The deferred revenue will be recognized as revenue over the useful life of the related asset, on the same basis that the asset is amortized.

All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency.

All tangible capital assets, except for land, capital leases, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized. Capital leases with lease terms that have a bargain purchase option or allow ownership to pass to the Division are amortized over the useful life of the asset class. All other capital leases are amortized over the lesser of the lease term and the useful life of the asset class.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

g) Capital Reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position.

h) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

i) Financial instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

4. Conversion to PSAB

Commencing with the 2006/07 fiscal year, the Board has adopted generally accepted accounting principles established by PSAB. As explained in Note 2, the comparative figures included in these financial statements have not been restated to conform to the accounting standards adopted for the current year.

The following changes have been implemented to comply with the PSAB standard:

(i) Tangible capital assets were restated and amortized over their useful lives to reflect net book value. Amortization of tangible capital assets and gain or loss on disposal of capital assets are recorded in the Statement of Revenue, Expenses and Accumulated Surplus.

(ii) The Operating Fund, Capital Fund and Special Purpose Fund are consolidated in the financial statements. The Special Purpose Fund was created to include school generated funds and charitable foundations controlled by the Division.

(iii)The Employee Future Benefits Liability was established to account for the Division's commitment to pay vested future benefits to its employees.

(iv)Accrued Interest Payable was established to account for accrual of interest on Debenture Debt and Other Borrowings from the last payment date. An equal amount is set up as due from the Province to offset the accrued interest payable on debenture.

5. Overdraft

The Division has an authorized line of credit with Austin Credit Union of $3,500,000 by way of overdrafts and is repayable on demand at prime less .25%; interest is paid monthly. Overdrafts are secured by borrowing by-law.

6. Deferred Revenue

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The following is a breakdown of the account balance:

	Balance as at June 30, 2007	Additions in the period	Revenue recognized in the period	Balance as at June 30, 2008
Manitoba Textbook Bureau	$ 0	$ 35,889	$ 29,286	$ 6,603
Education Property Tax Credit	$333,182	$370,659	$333,183	$370,658
International Tuition	$ 0	$ 0	$ 0	$ 0
Donated Capital Assets	$ 0	$ 0	$ 0	$ 0
Other special purpose funds	$ 0	$ 0	$ 0	$ 0
	$333,182	$406,548	$362,469	$377,261

7. Debenture Debt

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly installments and maturing at various dates from 2009 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba, except for the debenture debt on self-funded capital projects. The debentures carry interest rates that range from 5.125% to 12.25%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The debenture principal and interest repayments in the next five years are:

	Principal	Interest	Total
2009	$153,358	$155,130	$308,488
2010	$148,672	$142,950	$291,622
2011	$143,465	$131,689	$275,154
2012	$142,773	$121,357	$264,130
2013	$137,350	$111,512	$248,862
	$725,618	$662,638	$1,388,256

8. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class. The amount of interest capitalized in the period included in Assets under Construction was $0 (previous year $0).

	Gross Amount	Accumulated Amortization	2008 Net Book Value
Owned-tangible capital assets	$12,598,522	$8,270,347	$4,328,175

9. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008
Operating Fund	
Designated Surplus	$ 47,206
Undesignated Surplus	$ 132,986
	$ 180,192
Capital Fund	
Reserve Accounts	$ 362,345
Equity in Tangible Capital Assets	$1,990,342
	$2,352,687
Special Purpose Fund	
School Generated Funds	$ 106,702
Other Special Purpose Funds	$ 0
	$ 106,702
Total Accumulated Surplus	$ 2,639,581

Designated Surplus under the Operating Fund represents internally restricted amounts appropriated by the board or, in the case of school budget carryovers, by board policy. See page 5 of the audited financial statements for a breakdown of the Designated Surplus.

	2008
Board approved appropriation by motion	$ 0
School budget carryovers by board policy	$ 47,206
Designated surplus	$ 47,206

Reserve Accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. A Schedule of Capital Reserve Accounts is provided on page 24 of the audited financial statements.

	2008
Bus reserves	$362,345
Other reserves	$ 0
Capital Reserve	$362,345

10. Municipal Government – Property Tax and related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the student's resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 50.5% from 2007 tax year and 49.5% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue–Municipal Government-Property Tax	$3,146,992	$3,125,430
Receivable-Due from Municipal-Property Tax	$1,535,503	$1,518,689

11. Interest Received and Paid

The Division received interest during the year of $23,373 (previous year $51,450); interest paid during the year was $170,289 (previous year $261,560).

Interest expense is included in Fiscal and is comprised of the following:

	2008
Operating Fund	
Fiscal-short term loan, interest and bank charges	$ 13,464
Capital fund	
Debenture debt interest	$156,825
Other interest	$ 0

$170,289

The accrual portion of debenture debt interest expense of $66,905 included under the Capital Fund-Debenture debt interest, is offset by an accrual of the debt servicing grant from the Province of Manitoba.

12. Expenses by object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	$ 8,301,698	$ 8,082,840	$ 8,005,407
Employees benefits & allowances	$ 674,849	$ 604,305	$ 618,800
Services	$ 1,221,394	$ 1,095,864	$ 1,068,344
Supplies, materials & minor equipment	$ 995,570	$ 1,006,815	$ 1,358,447
Interest	$ 170,289	$ 1,500	$ 261,560
Bad debts	$ 0	$ 0	$ 0
Payroll tax – and transfers	$ 220,951	$ 172,277	$ 209,045
Amortization	$ 490,584	$ 0	$ 479,181
Other capital items	$ 0	$ 0	$ 0
School generated funds	$ 283,483	$ 0	$ 250,436
Other special purpose funds	$ 0	$ 0	$ 0
	$12,358,818	$10,963,601	$12,251,220

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Portage la Prairie School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 2 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by Meyers Norris Penny LLP independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

Chairperson

G. Taylor
Secretary-Treasurer

October 6, 2008

Auditors' Report

To the Chairman and Members of the Board
Portage la Prairie School Division
Portage la Prairie, Manitoba

We have audited the consolidated statement of financial position, and the consolidated statement of revenues, expenditures and accumulated surplus, the consolidated statement of change in net debt, the consolidated statement of cash flow and the supporting schedules of the Operating, Capital and Special Purpose Funds of **THE PORTAGE LA PRAIRIE SCHOOL DIVISION** as at June 30, 2008. These financial statements have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of the Canadian Institute of Chartered Accountants.

These financial statements are the responsibility of the school division's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the school division as at June 30, 2008 and the results of its operations for the year then ended in accordance with generally accepted accounting principles.

Further, in our opinion, the other statements and reports, when considered in relation to the aforementioned financial statements, present fairly the supplemental information shown.

Meyers Norris Penny LLP

Portage la Prairie, Manitoba
October 6, 2008

Chartered Accountants

I hereby certify that this report and the statements and reports referenced herein have been presented to the members of the Board of the above-mentioned School Division.

PORTAGE LA PRAIRIE SCHOOL DIVISION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2008

1. Nature of Organization and Economic Dependence

The School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

a) Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds and controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation.

b) Trust funds

The Division administers various trust funds. Trust funds and their related operations are not included in the consolidated financial statements as they are not owned or controlled by the Division. A schedule of trust funds is attached as part of the notes to the consolidated financial statements.

Trust funds, under PSAB are properties assigned to a trustee (school division) under a trust agreement or statute; the trustee merely administers the terms and conditions embodied in the agreement, and it has no unilateral authority to change the conditions set out in the trust indenture.

2. Significant Accounting Policies (Continued)

c) Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

d) Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds controlled by the Division.

e) School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

2. Significant Accounting Policies (Continued)

f) Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold	Estimated Useful Life
	($)	(years)
Land improvements	25,000	10
Buildings – brick, mortar and steel	25,000	40
Buildings – wood frame	25,000	25
School buses	20,000	10
Vehicles	10,000	5
Equipment	5,000	5
Network infrastructure	25,000	10
Computer Hardware, Servers & Peripherals	5,000	4
Computer Software	10,000	4
Furniture & Fixtures	5,000	10
Leasehold Improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, donated capital assets and capital leases, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

Capital leases are recorded at the present value of the minimum lease payments excluding executory costs (e.g. insurance, maintenance costs, etc.). The discount rate used to determine the present value of the lease payments is the lower of the Division's rate for incremental borrowing or the interest rate implicit in the lease.

2. Significant Accounting Policies (Continued)

Donated tangible capital assets are recorded at fair market value at the date of donation. Deferred revenue is recorded in an equivalent amount, for all donated assets except land. The deferred revenue will be recognized as revenue over the useful life of the related asset, on the same basis that the asset is amortized.

All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency.

All tangible capital assets, except for land, capital leases, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized. Capital leases with lease terms that have a bargain purchase option or allow ownership to pass to the Division are amortized over the useful life of the asset class. All other capital leases are amortized over the lesser of the lease term and the useful life of the asset class.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

g) Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

h) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

2. Significant Accounting Policies (Continued)

i) Financial instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

3. Overdraft

The Division has an authorized a line of credit with the Bank of Montreal of $5,000,000 by way of overdrafts and is repayable on demand at prime less .6%; interest is paid monthly. The line of credit is currently nil ($3,044,647 in 2007). Overdrafts are secured by line of credit agreement.

4. Short Term Investments

Short term investments consist of a patronage equity account. Short term investments are recorded at the lower of cost or market. As at June 30, 2008, the cost of short term investment was $69,992 ($80,647 in 2007); investment income earned during the year was nil ($10,202 in 2007).

5. Deferred Revenue

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The following is a breakdown of the account balance:

	Balance as at June 30, 2007	Additions in the period	Revenue recognized in the period	Balance as at June 30, 2008
Manitoba Textbook Bureau	$57,620	$191,254	$184,440	$64,434
Education Property Tax Credit Advance	1,099,807	2,410,153	2,283,029	1,226,931
Education & Literacy Advance Payment 2008/2009	0	58,800	0	58,800
	$1,157,427	$2,660,207	$2,467,469	$1,350,165

6. School Generated Funds Liability

School Generated Funds Liability includes the non-controlled portion of school generated funds consolidated in the cash and bank balances in the amount of $4,125 ($22,888 in 2007).

7. Debenture Debt

The debenture debt of the Division is in the form of twenty-year supportable and non-supportable debentures payable, principal and interest, in twenty equal yearly installments and maturing at various dates from 2009 to 2028. Payment of principal and interest for the supportable debentures is funded entirely by grants from the Province of Manitoba. The payment of principal and interest for the non-supportable debentures must be funded by the Division as the Division does not receive grants from the Province of Manitoba to pay these types of debentures. The debentures carry interest rates that range from 5% to 11.625%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The debenture principal and interest repayments in the next five years are:

	Principal	Interest	Total
2009	$626,000	$681,000	$1,307,000
2010	$681,000	$622,000	$1,303,000
2011	$660,000	$607,000	$1,267,000
2012	$701,000	$558,000	$1,259,000
2013	$634,000	$619,000	$1,253,000
	$3,302,000	$3,087,000	$6,389,000

8. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class.

	Gross Amount	Accumulated Amortization	2008 Net Book Value
Owned-tangible capital assets	$34,188,518	$17,917,095	$16,271,423

9. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008	2007
Operating Fund		
Undesignated Surplus	$1,108,563	$1,093,408
Capital Fund		
Equity in Tangible Capital Assets	5,083,016	4,903,038
Special Purpose Fund		
School Generated Funds	375,461	292,493
Total Accumulated Surplus	$6,567,040	$6,288,939

10. Municipal Government – Property Tax and related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 52% from 2007 tax year and 48% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue- Municipal Government-Property Tax	$9,344,465	$9,191,572
Revenue-Due from Municipal-Property tax	$3,685,794	$4,627,583

11. Interest Received and Paid

The Division received interest during the year of $31,622 ($6,377 in 2007); interest paid during the year was $890,907 ($818,337 in 2007).

Interest expense is included in Fiscal and is comprised of the following:

	2008
Operating Fund	
Fiscal-short term loan, interest and bank charges	$210,034
Capital Fund	
Debenture debt interest	680,873
	$890,907

11. Interest Received and Paid (Continued)

The accrual portion of debenture debt interest expense of $203,961 included under the Capital Fund-Debenture debt interest, is offset by an accrual of the debt servicing grant from the Province of Manitoba.

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Prairie Rose School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 2 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by Collins Barrow independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

Auditors' Report

To the Chairperson and Trustees
Prairie Rose School Division

We have audited the Consolidated Statement of Financial Position for the Prairie Rose School Division as at June 30, 2008, and the Consolidated Statement of Revenue, Expenses, Consolidated Statement of change in Net Debt and Consolidated Statement of Cash Flow for the year ended June 30, 2008. These financial statements are the responsibility of the school division's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In common with many not for profit organizations, certain revenues are not susceptible to satisfactory audit verification for completeness. Accordingly, our verification of revenue for the Special Purpose Fund was limited to the amounts recorded by the Division and we were not able to determine whether any adjustments might be necessary to revenue, current year surplus and accumulated surplus.

In our opinion, except for the adjustments, if any, which we might have determined to be necessary had we been able to satisfy ourselves concerning the completeness of revenue, as described in the preceding paragraph, these financial statements present fairly, in all material respects, the financial position of the school division as at June 30, 2008 and the results of its operations and its cash flows for the year then ended in accordance with accepted accounting principles for school divisions in Manitoba as set out in notes 3 and 4 to the financial statements.

Further, in our opinion, the other statements and reports, when considered in relation to the aforementioned financial statements, present fairly, in all material respects, the supplementary information shown.

Collins Barrow

Winnipeg, Canada
October 15, 2008

CHARTERED ACCOUNTANTS

I hereby certify that this report and the statements and reports referenced herein have been presented to the members of the Board of the above mentioned School Division.

* Includes network infrastructure.

1. Nature of Organization and Economic Dependence

The School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

a) Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds and The Prairie Rose Foundation of Manitoba Inc. controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation wherever possible.

b) Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

c) Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

2. Significant Accounting Policies - Continued

d) School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

e) Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life (years)
Land Improvements	25,000	10
Buildings - bricks, mortar and steel	25,000	40
Buildings - wood frame	25,000	25
School buses	20,000	10
Vehicles	10,000	5
Equipment	5,000	5
Network Infrastructure	25,000	10
Computer Hardware, Servers & Peripherals	5,000	4
Computer Software	10,000	4
Furniture and Fixtures	5,000	10
Leasehold Improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land and buildings acquired before June 30, 1995, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

All land acquired prior to June 30, 1995 has been valued using information provided by the Crown Lands and Property Agency and adjusted by the Division where further information was available.

2. Significant Accounting Policies - Continued

e) Tangible Capital Assets - continued

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

All tangible capital assets, except for land and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

f) Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

g) Capital Reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position.

h) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

i) Financial instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

3. Overdraft

The Division has an authorized line of credit with The Dufferin Credit Union Limited of $3,900,000 by way of overdrafts and is repayable on demand at 4.25%; interest is paid monthly. $3,900,000 remains available on this line of credit. Overdrafts are secured by a temporary borrowing by-law.

4. Short Term Investments

Short term investments consist of deposit certificates that mature within one year. Investment income earned during the year was $221 (2007: $271).

5. Deferred Revenue

The deferral method of accounting is used to properly match revenues with expenditures. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed.

6 Debenture Debt

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly installments and maturing at various dates from 2009 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba. The debentures carry interest rates that range from 4.875% to 11.75%. Debenture interest expense payable as at June 30, 2008 and 2007, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The debenture repayments in the next five years are:

2009	$1,187,328
2010	1,079,858
2011	1,070,466
2012	1,058,425
2013	1,058,425
	$5,354,502

7. School Generated Funds Liability

School Generated Funds Liability represents the non-controlled portion of school generated funds consolidated in the cash and bank balances in the amount of $18,306 (2007: $19,107).

8. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class.

	Gross Amount	Accumulated Amortization	2008 Net Book Value	2007 Net Book Value
Owned-tangible capital assets	$ 21,886,008	$ 13,845,201	$8,596,124	$8,631,248
Capital lease	-	-	-	-
	$ 21,886,008	$ 13,845,201	$8,596,124	$8,631,248

9. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008	2007
Operating Fund		
Designated Surplus	$1,016,320	$1,775,864
Undesignated Surplus	550,000	-
	1,566,320	1,775,864
Capital Fund		
Reserve Accounts	841,342	834,745
Equity in Tangible Capital Assets	1,224,918	931,927
	2,066,260	1,766,672
Special Purpose Fund		
School Generated Funds	90,148	88,325
Other Special Purpose Funds	10,990	11,909
	101,138	100,234
Total Accumulated Surplus	$3,733,718	$3,642,770

Designated Surplus under the Operating Fund represents internally restricted amounts appropriated by the board or, in the case of school budget carryovers, by board policy.

Reserve Accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. A Schedule of Capital Reserve Accounts is provided on page 24 of the audited financial statements.

School Generated Funds and Other Special Purpose Funds are externally restricted moneys for school use, Scholarship Awards and donations for school projects.

10. Municipal Government - Property Tax and related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 42% from 2007 tax year and 58% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue-Municipal Government-Property Tax	$7,314,850	$7,471,746
Receivable-Due from Municipal-Property Tax	$4,033,317	$4,137,362

In accordance with Section 190.1 of the Public Schools Act, the Division is required to collect a special levy on behalf of la Division Scolaire Franco-Manitobaine. As at June 30, 2008, the amount of this special levy was $322,236 (2007: $290,955). These amounts are not included in the Division's financial statements.

11. Interest Received and Paid

The Division received interest during the year of $69,297 (2007: $97,386); interest paid during the year was $526,904 (2007: $829,854).

Interest expense is included in Fiscal and is comprised of the following:

	2008	2007
Operating Fund		
Fiscal-short term loan, interest and bank charges	$ 5,894	$ 74,507
Capital Fund		
Debenture debt interest	521,010	755,347
	$ 526,904	$ 829,854

The accrual portion of debenture debt interest expense of $223,725(2007: $232,831) included under the Capital Fund-Debenture debt interest, is offset by an accrual of the debt servicing grant from the Province of Manitoba.

12. Expenses by Object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	$ 15,665,886	$ 15,778,607	$ 15,089,132
Employees benefits and allowances	1,160,679	1,146,825	1,133,282
Services	2,125,130	2,041,758	1,973,685
Supplies, materials and minor equipment	1,662,457	1,699,543	1,619,210
Interest	526,904	15,000	829,854
Bad debts	-	-	-
Payroll tax	337,523	341,000	317,383
Transfers	406,281	774,000	208,405
Amortization	722,130		680,050
(Gain) and disposal of capital assets	(9,726)		112,462
School generated funds	451,981		352,425
Other special purpose funds	10,262		7,532
	$ 23,059,507	$ 21,199,713	$ 22,323,420

13. Budget Figures and Non Financial Information

The 2008 budget figures, student enrolments (FRAME) and transportation statistics, full time equivalent personnel, and senior staff allocations are unaudited and have been presented for information purposes only.

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Prairie Spirit School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 2 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by Collins Barrow independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

Auditors' Report

To the Chairperson and Trustees
Prairie Spirit School Division

We have audited the Consolidated Statement of Financial Position for the Prairie Spirit School Division as at June 30, 2008, and the Consolidated Statement of Revenue, Expenses and Accumulated Surplus, Consolidated Statement of Change in Net Debt and Consolidated Statement of Cash Flow for the year ended June 30, 2008. These financial statements are the responsibility of the school division's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In common with many not for profit organizations, certain revenues are not susceptible to satisfactory audit verification for completeness. Accordingly, our verification of revenue for the special purpose fund was limited to the amounts recorded by the Division and we were not able to determine whether any adjustments might be necessary to Special Purpose Fund Revenue, Net Current Year Surplus (Deficit) and Closing Accumulated Surplus.

In our opinion, except for the adjustments, if any, which we might have determined to be necessary had we been able to satisfy ourselves concerning the completeness of Special Purpose Fund Revenue, as described in the preceding paragraph, these financial statements present fairly, in all material respects, the financial position of the school division as at June 30, 2008 and the results of its operations and its cash flows for the year then ended in accordance with accepted accounting principles for school divisions in Manitoba as set out in note 2 to the financial statements.

Further, in our opinion, the other statements and reports, when considered in relation to the aforementioned financial statements, present fairly, in all material respects, the supplementary information shown.

Winnipeg, Canada
October 3, 2008

Collins Barrow
CHARTERED ACCOUNTANTS

I hereby certify that this report and the statements and reports referenced herein have been presented to the members of the Board of the above mentioned School Division.

* Includes network infrastructure.

1. Nature of Organization and Economic Dependence

The School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

a) Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds and The Prairie Spirit Foundation of Manitoba Inc. controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation wherever possible.

Trust Funds

The Division administers various trust funds. Trust funds and their related operations are not included in the consolidated financial statements as they are not owned or controlled by the Division. A schedule of trust funds is attached as part of the notes to the consolidated financial statements.

Trust funds, under PSAB are properties assigned to a trustee (school division) under a trust agreement or statue. The trustee merely administers the terms and conditions embodied in the agreement, and it has no unilateral authority to change the conditions set our in the trust indenture.

b) Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

c) Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

d) School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

2. Significant Accounting Policies - Continued

d) School Generated Funds - continued

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are student council funds, yearbook funds, graduation funds and specified sports and cultural funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

e) Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life (years)
Land Improvements	25,000	10
Buildings - bricks, mortar and steel	25,000	40
Buildings - wood frame	25,000	25
School buses	20,000	10
Vehicles	10,000	5
Equipment	5,000	5
Network Infrastructure	25,000	10
Computer Hardware, Servers & Peripherals	5,000	4
Computer Software	10,000	4
Furniture and Fixtures	5,000	10
Leasehold Improvements	25,000	Over term of lease

All land acquired prior to June 30, 1995 has been valued using information provided by the Crown Lands and Property Agency and adjusted by the Division where further information was available.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

All tangible capital assets, except for land and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

2. Significant Accounting Policies - Continued

f) Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

However, the Division provides other future benefits to its employees. Theses benefits include supplemental employment benefits and sick leave. These benefits are event driven and the costs are recognized when the event becomes known.

g) Capital Reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position.

h) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

i) Financial instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

3. Overdraft

The Division has an authorized line of credit with Caisse Pembina Ltee. of $4,000,000 by way of overdrafts and is repayable on demand at prime less 0.60%; interest is paid monthly. $2,394,608 remains available on this line of credit. Overdrafts are secured by a temporary borrowing by-law. Subsequent to June 30, 2008, the authorized line of credit was increased to $5,000,000.

4. Employee Future Benefits

Employee Future Benefits are benefits earned by employees in the current period, but will not be paid out until future periods and include supplemental employment and sick leave benefits.

5. Deferred Revenue

The deferral method of accounting is used to properly match revenues with expenditures. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed.

6. Debenture Debt

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly installments and maturing at various dates from 2008 to 2027. Payment of principal and interest is funded entirely by grants from the Province of Manitoba. The debentures carry interest rates that range from 5.00% to 11.75%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The debenture repayments in the next five years are as follows:

2009	$1,142,028
2010	958,397
2011	827,296
2012	804,283
2013	789,225
	$4,521,229

7. School Generated Funds Liability

School Generated Funds Liability represents the non-controlled portion of school generated funds consolidated in the cash and bank balances in the amount of $80,766 ($84,780 in 2007).

8. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class.

	Gross Amount	Accumulated Amortization	2008 Net Book Value	2007 Net Book Value
Owned-tangible capital assets	$ 30,581,203	$ 19,989,107	$ 10,592,096	$ 10,871,662
Capital lease	-	-	-	-
	$ 30,581,203	$ 19,989,107	$ 10,592,096	$ 10,871,662

9. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008	2007
Operating Fund		
Designated Surplus	$ -	$ 77,066
Undesignated Surplus	688,676	1,296,310
	688,676	1,373,376
Capital Fund		
Reserve Accounts	341,703	230,722
Equity in Tangible Capital Assets	3,421,333	3,377,145
	3,763,036	3,607,867
Special Purpose Fund		
School Generated Funds	162,250	143,732
Other Special Purpose Funds	-	-
	162,250	143,732
Total Accumulated Surplus	$ 4,613,962	$ 5,124,975

Designated Surplus under the Operating Fund represents internally restricted amounts appropriated by the board or, in the case of school budget carryovers, by board policy.

9. Accumulated Surplus -continued

Reserve Accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. A Schedule of Capital Reserve Accounts is provided on page 24 of the audited financial statements.

School Generated Funds and Other Special Purpose Funds are externally restricted moneys for school use, Scholarship Awards and donations for school projects.

10. Municipal Government - Property Tax and related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 43% from 2007 tax year and 57% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue-Municipal Government-Property Tax	$7,569,223	$8,029,040
Receivable-Due from Municipal-Property Tax	$4,185,941	$4,521,498

In accordance with Section 190.1 of the Public Schools Act, the Division is required to collect a special levy on behalf of la Division Scolaire Franco-Manitobaine. As at June 30, 2008, the amount of this special levy was $589,053 (2007: $572,484). These amounts are not included in the Division's financial statements in 2008.

11. Interest Received and Paid

The Division received interest during the year of $40,282 (2007; $37,339); interest paid during the year was $566,504 (2007; $900,888).

Interest expense is included in Fiscal and is comprised of the following:

	2008	2007
Operating Fund		
Fiscal-short term loan, interest and bank charges	$ 60,131	$ 58,397
Capital Fund		
Debenture debt interest	506,373	842,491
	$ 566,504	$ 900,888

The accrual portion of debenture debt interest expense of $217,195 (2007: $245,935) included under the Capital Fund-Debenture debt interest, is offset by an accrual of the debt servicing grant from the Province of Manitoba.

12. Expenses by Object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	$ 16,564,830	$ 16,635,200	$ 16,254,685
Employees benefits and allowances	1,450,451	1,214,300	1,508,399
Services	2,849,255	2,421,600	2,627,426
Supplies, materials and minor equipment	2,183,729	1,896,400	1,947,342
Interest	566,504	40,000	900,888
Bad debts	-	-	-
Payroll tax	350,160	350,000	351,042
Transfers	203,070	388,330	146,310
Amortization	978,291		999,469
Loss and disposal of capital assets			
School generated funds	444,393		365,304
Other special purpose funds	-	-	-
	$ 25,590,683	$ 22,574,900	$ 25,100,865

13. Budget Figures and Non Financial Information

The 2008 budget figures, student enrolments (FRAME) and transportation statistics, full time equivalent personnel, and senior staff allocations are unaudited and have been presented for information purposes only.

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Red River Valley School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with Canadian generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 2 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by BDO Dunwoody LLP, independent external auditors, appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

Auditors' Report

To the Chairperson and Board of Trustees of
Red River Valley School Division

We have audited the consolidated statement of financial position of **The Red River Valley School Division** as at June 30, 2008 and the consolidated statements of revenue, expenses and accumulated surplus, change in net debt and cash flow for the year then ended. These financial statements are the responsibility of the School Division's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly in all material respects, the financial position of the School Division as at June 30, 2008 and the results of its operations and its cash flows for the fiscal year then ended in accordance with Canadian generally accepted accounting principles.

Further, in our opinion, the other schedules and reports, when considered in relation to the aforementioned financial statements, present fairly the supplemental information shown.

BDO Dunwoody LLP

Chartered Accountants

Winnipeg, Manitoba
September 5, 2008

I hereby certify that this report and the statements, schedules and reports referenced herein have been presented to the Members of the Board of Trustees of the above-mentioned School Division.

1. Nature of Organization and Economic Dependence

The Red River Valley School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax and is a registered charity under the Income Tax Act.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation.

Trust Funds

The Division administers various trust funds. Trust funds and their related operations are not included in the consolidated financial statements as they are not owned or controlled by the Division. A schedule of trust funds is attached as part of the notes to the consolidated financial statements.

Trust funds, under PSAB are properties assigned to a trustee (school division) under a trust agreement or statute; the trustee merely administers the terms and conditions embodied in the agreement, and it has no unilateral authority to change the conditions set out in the trust indenture.

Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life
Land Improvements	25,000	10 years
Buildings – bricks, mortar, steel	25,000	40 years
Buildings – wood frame	25,000	25 years
School buses	20,000	10 years
Vehicles	10,000	5 years
Equipment	5,000	5 years
Network infrastructure	25,000	10 years
Computer hardware, servers, peripherals	5,000	4 years
Computer software	10,000	4 years
Furniture and fixtures	5,000	10 years
Leasehold improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency.

All tangible capital assets, except for land, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

However, the Division provides retirement benefits to its administrative employees in the form of a defined contribution pension plan. The Division adopted the following policy with respect to accounting for these employee future benefits:

Defined Contribution Pension Plan

The Division pays the employer portion of a defined contribution plan handled by the Manitoba Association of School Trustees (MAST). Under this plan, specific fixed amounts are contributed by the Division each period for services rendered, matching employee contributions. No responsibility is assumed by the Division to make any further contribution.

Capital Reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management's best estimates, as additional information becomes available in the future.

Financial Instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, and bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

3. Bank Overdraft

The Division has an authorized line of credit with Bank of Montreal of $5,000,000 by way of overdrafts and is repayable on demand at prime less .6%; interest is paid monthly. Overdrafts are secured by a borrowing by-law.

4. Employee Future Benefits

The Division sponsors a defined contribution pension plan, run by the Manitoba Association of School Trustees (MAST). The defined contribution plan is provided to administrative employees based on their age at the beginning of the year and rates of pay. Each age group under the MAST pension plan has a specific percentage for the employees to contribute. The Division contributions equal the employee contributions to the plan. No pension liability is included in the financial statements.

The employee future benefit expense is a part of the Employee Benefits and Allowances expense account. The total pension expense for the 2008 year was $250,474 ($242,551 in 2007).

Employee future benefits recorded as a liability represent vacation payable for administrative employees.

5. Deferred Revenue

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The following is a breakdown of the account balance:

	Balance as at June 30, 2007	Additions in period	Revenue recognized in period	Balance as at June 30, 2008
Education Property Tax Credit (EPTC)	$ 548,486	1,581,764	1,497,545	632,705
Manitoba Text Book Bureau	3,694	121,260	121,260	3,694
Tax Incentive Grant	-	419,033	251,420	167,613
Other	-	16,501	-	16,501
	$ 552,180	2,138,558	1,870,225	820,513

6. School Generated Funds Liability

School Generated Funds Liability includes the non-controlled portion of school generated funds consolidated in the cash and bank balances in the amount of $34,754.

7. Debenture Debt

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly instalments and maturing at various dates from 2009 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba, except for the debenture debt on self-funded capital projects. The debentures carry interest rates that range from 5.125% to 11.875%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The total debenture principal and interest repayments in the next five years are:

2009	$ 1,153,496
2010	1,136,904
2011	1,086,433
2012	1,071,657
2013	1,070,671
	$ 5,519,161

8. Other Borrowings

Other borrowings are debts other than overdrafts or debentures. This includes financing for the acquisition of a board office and an energy retrofit loan.

	2008	2007
Board office loan – Bank of Montreal	$ 189,753	214,282
Energy Retrofit – Pacific & Western Bank	85,332	124,192
	$ 275,085	338,474

The Board office loan has 5.75% interest per annum, due in fiscal year 2015 and a monthly payment of $3,019 principal and interest.

Energy retrofit loan has 6.39% interest per annum, due in fiscal year 2010 and an annual payment of $46,800 principal and interest. This loan is secured by way of borrowing resolution.

Total principal and interest repayment of total Other Borrowings in the next five years are:

2009	$ 83,028
2010	83,028
2011	36,228
2012	36,228
2013	36,228
	$ 274,740

9. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class. The amount of interest capitalized in the period included in Assets under Construction was $nil (previous year $nil).

10. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008	2007
Operating Fund		
Designated Surplus	$ 704,410	507,226
Undesignated Surplus	157,525	889,702
	$ 861,935	1,396,928
Capital Fund		
Reserve Accounts	$ 521,452	138,052
Equity in Tangible Capital Assets	3,664,842	3,429,578
	$4,186,294	3,567,630
Special Purpose Fund		
School Generated Funds	$ 141,022	138,759
Other Special Purpose Funds	-	-
	$ 141,022	138,759
Total Accumulated Surplus	$5,189,251	5,103,317

Designated Surplus under the Operating Fund represents internally restricted amounts appropriated by the Board of Trustees or, in the case of school budget carryovers, by Board policy. The details of the Designated Surplus as disclosed at page 5 of the audited financial statements are as follows:

	2008	2007
School budget carryovers by board policy	$ 321,448	312,289
Red River surplus agreement	164,172	194,937
Future Vocational Programming	44,000	-
Staffing due to enrolment increase in schools	105,000	-
Building Property Infrastructure Plan Projects	69,790	-
Designated surplus	$ 704,410	507,226

Reserve Accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. In June 2007, the PSFB approved the establishment of a capital reserve to finance the relocation and expansion of the division's vocational/career development program in the amount of $1,200,000. A Schedule of Capital Reserve Accounts is provided on page 24 of the audited financial statements.

	2008	2007
Bus Reserve	$ 21,452	138,052
Vocational Programming Reserve	500,000	-
Other Reserves	-	-
Capital Reserve	$ 521,452	138,052

11. Municipal Government – Property Tax and Related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 40% from 2007 tax year and 60% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue – Municipal Government – Property Tax	$ 6,827,611	7,058,339
Receivable – Due from Municipal – Property Tax	$ 3,669,847	4,016,341

12. Interest Received and Paid

The Division received interest during the year of $14,002 (previous year $20,978); interest paid during the year was $682,697 (previous year $1,007,309).

Interest expense is included in Fiscal and is comprised of the following:

	2008	2007
Operating Fund		
Fiscal-short term loan, interest and bank charges	$ 50,630	46,036
Capital Fund		
Debenture interest	612,433	937,952
Other interest	19,634	23,321
	$ 682,697	1,007,309

The accrual portion of debenture debt interest expense of $259,489 ($268,017 in 2007) included under the Capital Fund-Debenture debt interest is offset by an accrual of the debt servicing grant from the Province of Manitoba.

13. Expenses by Object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	$ 14,695,879	14,652,356	14,343,886
Employees benefits and allowances	1,039,345	997,283	1,012,290
Services	2,046,620	1,753,503	1,911,315
Supplies, materials and minor equipment	1,706,839	2,046,646	1,594,819
Interest	682,697	45,000	1,007,309
Bad debts	-	-	-
Payroll tax	314,490	315,026	306,924
Transfers	344,462	297,200	313,502
Amortization	890,945	-	855,620
Other capital items	-	-	-
School generated funds	547,273	-	618,787
Other special purpose funds	-	-	-
	$ 22,268,550	20,107,014	21,964,452

14. Special Levy Raised for la Division scolaire franco-manitobaine

In accordance with Section 190.1 of The Public Schools Act, the Division is required to collect a special levy on behalf of la Division scolaire franco-manitobaine. As at June 30, 2008, the amount of this special levy was $2,024,822 ($1,923,096 in 2007). These amounts are not included in the Division's consolidated financial statements.

15. Contingent Liabilities

A lawsuit has been filed against the school division. In the opinion of management, the outcome of the lawsuit, now pending, is not determinable. Should any loss result from the resolution of this claim, such loss will be charged to operations in the year of resolution.

16. Commitments and Appropriations of Operating Fund Surplus

Commitments of Operating Fund Surplus at year end are detailed in the Analysis of Consolidated Accumulated Surplus. Designated Operating Fund Accumulated Surplus is $704,410 at June 30, 2008 ($507,226 at June 30, 2007). The details of the Designated Surplus are disclosed at note 10 and page 5 of the audited financial statements.

The school division has equipment lease agreements. Future annual minimum operating lease commitments as at June 30, 2008 are as follows:

2009	$ 11,886
2010	11,682
2011	10,344

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of River East Transcona School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 2 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by Deloitte & Touche LLP, independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

AUDITORS' REPORT

TO THE BOARD OF TRUSTEES
RIVER EAST TRANSCONA SCHOOL DIVISION

We have audited the following financial statements of River East Transcona School Division (the "Division") as at June 30, 2008 and for the year then ended:

Consolidated – Statement of Financial Position
Consolidated – Statement of Revenue, Expenses and Accumulated Surplus
Consolidated – Statement of Change in Net Debt
Consolidated – Statement of Cash Flow
Operating Fund – Schedule of Financial Position
Operating Fund – Schedule of Revenue, Expenses and Accumulated Surplus
Capital Fund – Schedule of Financial Position
Capital Fund – Schedule of Revenue, Expenses and Accumulated Surplus
Capital Fund – Schedule of Tangible Capital Assets
Capital Fund – Schedule of Reserve Accounts
Special Purpose Fund – Schedule of Financial Position
Special Purpose Fund – Schedule of Revenue, Expenses and Accumulated Surplus
Notes to the Financial Statements

These financial statements are the responsibility of the Division's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, the above mentioned financial statements present fairly, in all material respects, the financial position of the Division as at June 30, 2008 and the results of its operations and cash flows for the year then ended in accordance with Canadian generally accepted accounting principles established by the Public Sector Accounting Board of the Canadian Institute of Chartered Accountants.

Our examination also included the statements presented on pages 3, 5 and 8 to 20. In our opinion, such supplemental exhibits and schedules when considered in relation to the basic financial statements, present fairly, in all material respects, the information shown therein.

Our opinion on these financial statements does not extend to any budget information contained therein.

Deloitte & Touche LLP
Chartered Accountants

Winnipeg, Manitoba
October 21, 2008

I hereby certify that this report and the statements and reports referenced herein have been presented to the members of the Board of the above-mentioned school division.

1. Nature of Organization and Economic Dependence

The River East Transcona School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax and is a registered charity under the Income Tax Act.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

a) Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation.

b) Trust funds

The Division administers various trust funds. Trust funds and their related operations are not included in the consolidated financial statements as they are not owned or controlled by the Division. A schedule of trust funds is attached as part of the notes to the consolidated financial statements.

Trust funds, under PSAB are properties assigned to a trustee (school division) under a trust agreement or statute; the trustee merely administers the terms and conditions embodied in the agreement, and it has no unilateral authority to change the conditions set out in the trust indenture.

c) Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

d) Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by FRAME in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

2. Significant Accounting Policies (continued)

e) School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extracurricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

f) Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

With the exception of land, donated capital assets and capital leases, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

Capital leases are recorded at the present value of the minimum lease payments excluding executory costs (e.g. insurance, maintenance costs, etc.). The discount rate used to determine the present value of the lease payments is the lower of the Division's rate for incremental borrowing or the interest rate implicit in the lease.

Donated tangible capital assets are recorded at fair market value at the date of donation. Deferred revenue is recorded in an equivalent amount, for all donated assets except land. The deferred revenue will be recognized as revenue over the useful life of the related asset, on the same basis that the asset is amortized.

All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency at their estimated fair market value at the time of acquisition.

All tangible capital assets, except for land, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as follows:

2. Significant Accounting Policies (continued)

f) Tangible Capital Assets (continued)

Asset Description	Estimated Useful Life (years)
Land Improvements	10
Building - brick, mortar and steel	40
Buildings - wood frame	25
School buses	10
Vehicles	5
Equipment	5
Network Infrastructure	10
Computer Hardware, Servers & Peripherals	4
Computer Software	4
Furniture & Fixtures	10
Leasehold Improvements	Over term of lease

Land is not amortized. Capital leases with lease terms that have a bargain purchase option or allow ownership to pass to the Division are amortized on a straight line basis over the useful life of the asset class. All other capital leases are amortized over the lesser of the lease term and the useful life of the asset class.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

g) Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

Under the Manitoba Association of School Trustees (MAST) Pension Plan for non-teaching staff, the Division's contributions equals the employee's contributions to the plan. No responsibility is assumed by the Division to make any further contributions.

An employee future benefit liability is accrued for maternity and parental leave top up payments, a self insured benefit obligation that is event driven. The benefit costs are recognized and recorded only in the period the event occurred.

h) Capital Reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position.

2. Significant Accounting Policies (continued)

i) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from the estimates. Changes in estimates are recorded in the accounting period in which these changes are determined.

j) Financial Instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their fair value, unless otherwise noted.

3. Overdraft

The Division has an authorized demand operating loan of $35,000,000 by way of overdrafts and is repayable on demand at prime less 0.75%; interest is paid monthly. Included in the overdrafts are capital projects, which will be submitted to Public Schools Finance Branch for debenture funding, totaling approximately $575,000 (2007 - $228,000). Overdrafts are secured by a Borrowing By-law.

4. Employee Future Benefits

An employee future benefit liability of $151,925 (2007 - $118,441) has been accrued as at June 30, 2008 relating to maternity and parental leave top up payments. The employee future benefit expense is a part of the Employee Benefits and Allowances expense account.

During the year ended June 30, 2008, the employer contributions to MAST amounted to $1,794,872 (2007 - $1,641,991). This amount has been expensed in the Division's financial statements for the year ended June 30, 2008.

5. Deferred Revenue

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services are performed. The following is a breakdown of the account balance:

	Balance as at June 30, 2007	**Additions in the period**	**Revenue Recognized in the period**	**Balance as at June 30, 2008**
Province of Manitoba – EPTC*	$ 6,828,471	**$ 7,838,398**	**$ 6,828,471**	**$ 7,838,398**
Province of Manitoba - Other	189,687	**454,449**	**390,913**	**253,223**
Tuition Fees	221,880	**555,301**	**221,880**	**555,301**
Donated Capital Assets	634,377	**49,321**	**86,709**	**596,989**
Miscellaneous	74,384	**233,287**	**223,294**	**84,377**
	$ 7,948,799	**$ 9,130,756**	**$ 7,751,267**	**$ 9,328,288**

*EPTC = Education Property Tax Credit

6. School Generated Funds Liability

School Generated Funds Liability includes the non-controlled portion of school generated funds consolidated in the cash and bank balances in the amount of $1,581,828 (2007 - $1,399,420).

7. Debenture Debt

The debenture debt of the Division is in the form of ten or twenty-year debentures payable, principal and interest, in twenty equal yearly installments and maturing at various dates from 2007 to 2027. Payment of principal and interest is funded entirely by grants from the Province of Manitoba, except for the debenture debt on self-funded capital projects. The debentures carry interest rates that range from 4.875% to 12.125%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The debenture principal and interest repayments in the next five years are:

	Principal	Interest	Total
2009	$ 3,025,603	$ 2,174,363	$ 5,199,966
2010	2,772,485	1,915,269	4,687,754
2011	2,274,722	1,689,412	3,964,134
2012	2,043,073	1,508,396	3,551,469
2013	2,045,936	1,359,470	3,405,406
	$ 12,161,819	$ 8,646,910	$ 20,808,729

The fair value of the debenture debt is approximately $31,881,966.

8. Other Borrowings

Other borrowings are debts other than overdrafts or debentures and includes obligations related to capital leases.

Capital lease loans have interest rates ranging from 2.4% to 12.0% per annum and have lease terms that expire between 2009 to 2013. These loans are secured by the assets to which the leases relate.

Principal and interest repayments related to obligation under capital leases are as follows:

	Principal	Interest	Total
2009	$ 1,489,189	$ 146,282	$ 1,635,471
2010	1,127,821	89,024	1,216,845
2011	845,505	49,054	894,559
2012	472,395	18,078	490,473
2013	14,627	517	15,144
	$ 3,949,537	$ 302,955	$ 4,252,492

The fair value of obligations under capital lease is approximately $3,849,000.

9. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by asset class. The amount of interest capitalized in the period included in Assets under Construction was $3,971 (2007 - $2,930). Included in net tangible capital assets are assets relating to obligations under capital lease for the gross amount, accumulated amortization and net book value at June 30, 2008 are $8,673,146, $4,949,259 and $3,723,887 respectively.

10. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008	2007
Operating Fund		
Designated Surplus	$ 2,602,300	$ 3,388,383
Undesignated Surplus	4,313,920	2,604,133
	6,916,220	5,992,516
Capital Fund		
Reserve Accounts	188,513	188,513
Equity in Tangible Capital Assets	13,364,994	11,833,904
	13,553,507	12,022,417
Special Purpose Fund		
School Generated Funds	269,426	255,109
Other Special Purpose Funds	-	-
	269,426	255,109
Total Accumulated Surplus	$ 20,739,153	$ 18,270,042

An adjustment was required to Accumulated Surplus related to the correction of a prior period error associated with the calculation of the 2006/2007 capital lease obligation. The correction resulted in a reduction in the capital lease obligation and an increase to Accumulated Surplus of $131,040.

Designated Surplus under the Operating Fund represents internally restricted amounts appropriated by the board or, in the case of school budget carryovers, by board policy. See page 5 of the audited financial statements for a detailed breakdown of the Designated Surplus.

	2008	2007
Board approved appropriation by motion	$ 1,627,849	$ 2,184,077
School budget carryovers by board policy	974,451	1,204,306
Designated surplus	$ 2,602,300	$ 3,388,383

Reserve Accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. A Schedule of Capital Reserve Accounts is provided on page 24 of the audited financial statements.

	2008	2007
Other reserve	$ 188,513	$ 188,513
Bus reserve	-	-
Capital reserve	$ 188,513	$ 188,513

School Generated Funds and Other Special Purpose Funds are externally restricted moneys for school use.

11. Municipal Government – Property Tax and related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 40% from 2007 tax year and 60% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue-Municipal Government-Property Tax	$ **44,930,541**	$ 45,101,908
Receivable-Due from Municipal-Property Tax	$ **26,746,254**	$ 26,288,059

12. Interest Received and Paid

The Division received interest during the year of $305,556 (2007 - $297,107).

Interest expense is included in Fiscal and is comprised of the following:

	2008	2007
Operating Fund		
Fiscal-short term loan, interest and bank charges	$ **78,216**	$ 74,887
Capital Fund		
Debenture debt interest	**2,285,478**	3,390,989
Interest on obligation under capital lease	**211,247**	169,849
Other interest	**22,903**	346,817
Total Accumulated Surplus	$ **2,597,844**	$ 3,982,542

The accrued portion of debenture debt interest expense at June 30, 2008 of $975,346 (2007- $1,042,277) included under the Capital Fund-Debenture debt interest, is offset by an accrual of the debt servicing grant from the Province of Manitoba.

13. Expenses by Object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	**Budget 2008**	Actual 2007
Salaries	$ **114,576,361**	$ **113,225,534**	$ 110,969,990
Employees benefits & allowances	**8,141,045**	**7,801,000**	7,877,298
Services	**14,287,624**	**13,891,700**	13,903,530
Supplies, materials, minor equipment	**7,398,951**	**7,840,666**	7,369,463
Interest	**2,597,844**	**2,224,170**	3,982,540
School Divisions	**773,735**	-	691,165
Other operating expenses	**55,546**	**209,400**	64,461
Payroll tax	**2,455,409**	**2,419,000**	2,363,002
Amortization	**4,652,488**	-	4,170,373
Other capital items	**41,600**	-	95,418
School generated funds	**1,015,202**	-	959,762
	$ **155,995,805**	$ **147,611,470**	$ 152,447,002

14. Special Levy Raised for la Division scolaire franco-manitobaine

In accordance with Section 190.1 of The Public Schools Act the Division is required to collect a special levy on behalf la Division scolaire franco-manitobaine. As at June 30, 2008, the amount of this special levy was $262,716 (2007 - $233,442). These amounts are not included in the Division's consolidated financial statements.

15. Trust Fund

The Division administers the following trust funds, which are not reflected in the financial statements:

	2008	2007
Scholarship Funds		
Balance, beginning of year	$ 324,606	$ 305,572
Cash contributions received during the year	245	22,761
Interest income	12,800	12,640
Scholarships awarded	(14,805)	(16,367)
Balance, end of year	$ 322,846	$ 324,606
Assets		
Cash and investments	$ 322,846	$ 324,606

16. Comparative Figures

Certain of the prior year's comparative figures have been reclassified to conform to the current year's method of presentation.

17. Conversion to PSAB

During the 2006/07 fiscal year, the Board adopted generally accepted accounting principles established by PSAB.

The following changes were implemented to comply with the PSAB standard:

(i) Tangible capital assets were restated and amortized over their useful lives to reflect net book value. This includes the recognition of donated capital assets and the related deferred revenue. Amortization of tangible capital assets and gain or loss on disposal of capital assets are recorded in the Statement of Revenue, Expenses and Accumulated Surplus.

(ii) Assets acquired under capital leases as well as the related obligations were capitalized.

(iii) The Operating Fund, Capital Fund and Special Purpose Fund are consolidated in the financial statements. The Special Purpose Fund was created to include school generated funds and charitable foundations controlled by the Division.

(iv) The Employee Future Benefits Liability was established to account for the Division's commitment to pay vested future benefits to its employees.

(v) Accrued Interest Payable was established to account for the accrual of interest on Debenture Debt and Other Borrowings from the last payment date. An equal amount is set up as due from the Province to offset the accrued interest payable on debenture.

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Rolling River School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 3 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by Meyers Norris Penny independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

(In accordance with subsection 41(11) of the Public Schools Act)

To the Board of Trustees
Rolling River School Division

We have audited the consolidated statement of financial position of the Rolling River School Division as at June 30, 2008 and the consolidated statements of revenue, expenses, and accumulated surplus, change in net debt and cash flow for the year then ended. These consolidated financial statements are the responsibility of the Division's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly in all material respects, the financial position of the School Division as at June 30, 2008 and the results of its operations and cash flow for that fiscal year in accordance with Canadian generally accepted accounting principles.

Further, in our opinion, the other statements and reports, when considered in relation to the aforementioned financial statements, present fairly the supplemental information shown.

Meyers Norris Penny LLP
AUDITOR

Brandon, Manitoba
October 8, 2008

I hereby certify that this report and the statements and reports referenced herein have been presented to the members of the board of the above-mentioned School Division.

1. Nature of Organization and Economic Dependence

The School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax and is a registered charity under the Income Tax Act.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Comparative Figures

The Division adopted Public Sector Accounting Board (PSAB) standards during the 2006/07 fiscal year. The standards have been applied retroactively with a cumulative adjustment to the opening accumulated surplus presented as a restatement on the Statement of Revenue, Expenses and Accumulated Surplus as of June 30, 2007.

3. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

a) Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation.

b) Trust funds

The Division administers various trust funds. Trust funds and their related operations are not included in the consolidated financial statements as they are not owned or controlled by the Division. A schedule of trust funds is attached as part of the notes to the consolidated financial statements.

Trust funds, under PSAB are properties assigned to a trustee (school division) under a trust agreement or statute; the trustee merely administers the terms and conditions embodied in the agreement, and it has no unilateral authority to change the conditions set out in the trust indenture.

c) Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

d) Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

e) School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

f) Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life (years)
Land Improvements	25,000	10
Buildings - bricks, mortar and steel	25,000	40
Buildings - wood frame	25,000	25
School buses	20,000	10
Vehicles	10,000	5
Equipment	5,000	5
Network Infrastructure	25,000	10
Computer Hardware, Servers & Peripherals	5,000	4
Computer Software	10,000	4
Furniture & Fixtures	5,000	10
Leasehold Improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, donated capital assets and capital leases, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

Capital leases are recorded at the present value of the minimum lease payments excluding executory costs (e.g. insurance, maintenance costs, etc.). The discount rate used to determine the present value of the lease payments is the lower of the Division's rate for incremental borrowing or the interest rate implicit in the lease.

Donated tangible capital assets are recorded at fair market value at the date of donation. Deferred revenue is recorded in an equivalent amount, for all donated assets except land. The deferred revenue will be recognized as revenue over the useful life of the related asset, on the same basis that the asset is amortized.

All tangible capital assets, except for land, capital leases, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized. Capital leases with lease terms that have a bargain purchase option or allow ownership to pass to the Division are amortized over the useful life of the asset class. All other capital leases are amortized over the lesser of the lease term and the useful life of the asset class.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

g) Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

However, the Division provides retirement and other future benefits to its employees. These benefits include pension, life insurance and supplemental employment benefits. The Division adopted the following policies with respect to accounting for these employee future benefits:

(i) Defined contribution/ insured benefit plans

Under these plans, specific fixed amounts are contributed by the Division each period for services rendered by the employees. No responsibility is assumed by the Division to make any further contribution:

The pension plan contributions are based on 9% to 11.65% of eligible earnings. The life insurance policy contributions are based on 0.12% to 0.24% of eligible earnings. Supplementary employment benefits top up employment insurance benefits to 90% of regular earnings at the time the leave commenced.

The employee future benefits liability is the difference between the contribution owing for the period and what has been paid; while the employee future benefits expense is the Division's fixed contribution for the period

(ii) Defined benefit/self-insured employee future benefit plans

Under these plans, benefits to be received by employees or the method for determining those benefits have been specified by the Division. The actuarial risk (with respect to the amount of the benefit that each employee will receive) and the investment risk (with respect to the investment returns on any assets set aside to pay for the cost of these benefits) are assumed by the

Division.

For self-insured employee future benefits other than pension plans, that are vesting and accumulating over the employees' length of service (e.g. vesting sick days) the benefit costs are accounted for on a full accrual basis determined using management's best estimate.

For those self-insured benefit obligations that are event driven (e.g. supplemental unemployment benefits; non-vesting parental leave), the benefit costs are recognized and recorded only in the period when the event occurs.

h) Capital Reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position.

i) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

j) Financial instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, and bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk are minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

4. Conversion to PSAB

Commencing with the 2006/07 fiscal year, the Board has adopted generally accepted accounting principles established by PSAB. As explained in Note 2, the comparative figures included in these financial statements have not been restated to conform to the accounting standards adopted for the current year.

The following changes have been implemented to comply with the PSAB standard:

(i) Tangible capital assets were restated and amortized over their useful lives to reflect net book value. Amortization of tangible capital assets and gain or loss on disposal of capital assets are recorded in the Statement of Revenue, Expenses and Accumulated Surplus.

(ii) The Operating Fund, Capital Fund and Special Purpose Fund are consolidated in the financial statements. The Special Purpose Fund was created to include school generated funds and charitable foundations controlled by the Division.

(iii)The Employee Future Benefits Liability was established to account for the Division's commitment to pay vested future benefits to its employees.

(iv)Accrued Interest Payable was established to account for accrual of interest on Debenture Debt and Other Borrowings from the last payment date. An equal amount is set up as due from the Province to offset the accrued interest payable on debenture.

5. Overdraft

The Division has an authorized line of credit with Minnedosa Credit Union of $5,000,000.00 by way of overdrafts and is repayable on demand at prime less 0.75%, interest is paid monthly. Overdrafts are secured by borrowing by law.

6. Employee Future Benefits

Employee future benefits are benefits earned by employees in the current period, but will not be paid out until future periods.

The Division sponsors a defined contribution pension plan. The defined contribution plan is provided to support employees based on their length of service and rates of pay. Eligible employees contribute 9% to 11.65% of their earnings to the plan. The Division contributions equal the employee contributions to the plan. No pension liability is included in the financial statements.

Long term disability benefits are covered by an insured plan. The costs of salary compensation paid to employees on long-term disability leave are fully insured and are not included in the financial statements.

Supplemental unemployment benefits are defined benefits that are recognized and recorded only in the period when the events occur (e.g. maternity top up).

The employee future benefit expense is a part of the Employee Benefits and Allowances expense account. It includes the Division's contribution and amortized actuarial gains for the period. Any related pension interest expense is recorded under the Interest and Bank Charges account of the Operating Fund.

7. Deferred Revenue

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The following is a breakdown of the account balance:

	Balance as at June 30, 2007	Additions in the period	Revenue recognized in the period	Balance as at June 30, 2008
Manitoba Textbook Bureau	$ -	$ -	$ -	$ -
General Support Grant	118,318		118,318	-
Education Proptery Tax Credit	287,290	154,784	287,290	154,784
	$ 405,608	$ 154,784	$ 405,608	$ 154,784

8. Debenture Debt

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly installments and maturing at various dates from 2009 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba, except for the debenture debt on self-funded capital projects. The debentures carry interest rates that range from 4.875 % to 11.50 %. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The debenture principal and interest repayments in the next five years are:

	Principal	Interest	Total
2009	$ 569,996	$ 513,154	$ 1,083,150
2010	586,156	466,356	1,052,512
2011	524,797	418,853	943,650
2012	533,915	378,708	912,623
2013	555,254	338,832	894,086
	$ 2,770,118	$ 2,115,903	$ 4,886,021

9. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class. The amount of interest capitalized in the period included in Assets under Construction was nil (previous year nil).

	Gross Amount	Accumulated Amortization	2008 Net Book Value
Owned-tangible capital assets	$ 20,033,705	$ 10,948,008	$ 9,085,697
Capital lease	-	-	-
	$ 20,033,705	$ 10,948,008	$ 9,085,697

10. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2007
Operating Fund	
Designated Surplus	
Undesignated Surplus	600,254
	600,254
Capital Fund	
Reserve Accounts	486,282
Equity in Tangible Capital Assets	1,316,019
	1,802,301
Special Purpose Fund	
School Generated Funds	270,612
Other Special Purpose Funds	-
	270,612
Total Accumulated Surplus	$ 2,673,167

Designated Surplus under the Operating Fund represents internally restricted amounts appropriated by the board or, in the case of school budget carryovers, by board policy. See page 5 of the audited financial statements for a breakdown of the Designated Surplus.

	2008
Board approved approriation by motion	-
School budget carryovers by board policy	300,000
Designated surplus	$ 300,000

Reserve Accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. A Schedule of Capital Reserve Accounts is provided on page 24 of the audited financial statements.

	2008
Bus reserves	186,282
Other reserves	300,000
Capital Reserve	$ 486,282

School Generated Funds and Other Special Purpose Funds are externally restricted moneys for school and use.

	2008
Foundation-Scholarship	-
Other - *Specify*	-
Other Special Purpose Funds	$ -

11. Municipal Government – Property Tax and related Due from Municipal

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students who reside in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 42.3% from 2007 tax year and 57.7% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue-Municipal Government-Property Tax	$ 6,044,107	$ 5,994,034
Receivable-Due from Municipal-Property Tax	$ 3,354,301	$ 3,392,035

12. Interest Received and Paid

The Division received interest during the year of $13,997 (previous year $15,912); interest paid during the year was $600,417 (previous year $915,516).

Interest expense is included in Fiscal and is comprised of the following:

	2008
Operating Fund	
Fiscal-short term loan, interest and bank charges	$ 77,497
Capital Fund	
Debenture debt interest	522,920
Other interest	-
	$ 600,417

The pension and other employee benefit interest expenses of $0 are included under the Operating Fund-Fiscal-short term loan, interest and bank charges.

The accrual portion of debenture debt interest expense of $250,293 included under the Capital Fund-Debenture debt interest is offset by an accrual of the debt servicing grant from the Province of Manitoba.

13. Allowance for Doubtful Accounts

All receivables presented on the consolidated statement of financial position are net of an allowance for doubtful accounts. Below is the total allowance for doubtful accounts as at June 30, 2008:

	2008
Allowance for doubtful accounts deducted from Receivables below:	
Due from First Nations	$ -
Accounts Receivable	-
	NIL
Bad debts expense (included in fiscal-Other)	NIL

14. Expenses by object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	$ 14,262,799	$ 14,117,420	$ 13,627,656
Employees benefits & allowances	1,053,212	1,072,650	1,014,900
Services	1,581,905	1,513,050	1,537,467
Supplies, materials & minor equipment	1,545,901	1,499,200	1,411,953
Interest	600,417	70,000	915,516
Transfers	164,924	-	144,391
Payroll tax	286,455	306,000	279,015
Amortization	770,691	-	727,207
Other capital items	-	-	3,600
School generated funds	641,805	-	668,354
Other special purpose funds	-	-	-
	$ 20,908,109	$ 18,578,320	$ 20,330,059

15. Special Levy Raised for la Division scolaire franco-manitobaine

In accordance with Section 190.1 of The Public Schools Act the Division is required to collect a special levy on behalf of la Division scolaire franco-manitobaine. As at June 30, 2008, the amount of this special levy was $9,804 (2007 - $20,468). These amounts are not included in the Division's consolidated financial statements.

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Seine River School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with Canadian generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 2 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by BDO Dunwoody LLP, independent external auditors, appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

Auditors' Report

To the Chairperson and Board of Trustees of
Seine River School Division

We have audited the consolidated statement of financial position of **Seine School Division** ("The Division") as at June 30, 2008 and the consolidated statements of revenue, expenses and accumulated surplus, change in net debt and cash flow for the year then ended. These financial statements are the responsibility of the Division's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly in all material respects, the financial position of the Division as at June 30, 2008 and the results of its operations and its cash flows for the fiscal year then ended in accordance with Canadian generally accepted accounting principles.

Further, in our opinion, the other schedules and reports, when considered in relation to the aforementioned financial statements, present fairly the supplemental information shown.

BDO Dunwoody LLP

1. Nature of Organization and Economic Dependence

The Seine River School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax and is a registered charity under the Income Tax Act.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation.

Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life
Land improvements	25,000	10 years
Buildings – bricks, mortar, steel	25,000	40 years
Buildings – wood frame	25,000	25 years
School buses	20,000	10 years
Vehicles	10,000	5 years
Equipment	5,000	5 years
Network infrastructure	25,000	10 years
Computer hardware, servers, peripherals	5,000	4 years
Computer software	10,000	4 years
Furniture and fixtures	5,000	10 years
Leasehold improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency.

All tangible capital assets, except for land, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

However, the Division provides retirement and other future benefits to its administrative employees. These benefits include defined contribution pension, parental leave and early retirement window enhancements. The Division adopted the following policy with respect to accounting for these employee future benefits:

Defined Contribution Pension Plan

The Division pays the employer portion of a defined contribution plan handled by the Manitoba Association of School Trustees (MAST) for administrative employees. Under this plan, specific fixed amounts are contributed by the Division each period for services rendered by the employees, matching employee contributions. No responsibility is assumed by the Division to make any further contribution.

Defined Benefit/Self-Insured Employee Future Benefit Plans

For those defined benefit/self-insured benefit obligations that are event driven such as non-vesting parental leave, the benefit costs are recognized and recorded only in the period when the event occurs. For early retirement window enhancements obligations that are also event driven, the benefit costs are recognized in the period when the commitment to pay the benefit is approved by the Board of Trustees.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management's best estimates, as additional information becomes available in the future.

Financial Instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, and bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

3. Bank Overdraft

The Division has an authorized line of credit with La Caisse Populaire La Prairie Ltée of $5,000,000 by way of overdrafts and is repayable on demand at prime; interest is paid monthly. Overdrafts are secured by a borrowing by-law.

4. Employee Future Benefits

The Division sponsors a defined contribution pension plan, run by the Manitoba Association of School Trustees (MAST). The defined contribution plan is provided to administrative employees based on their age at the beginning of the year and rates of pay. Each age group under the MAST pension plan has a specific percentage for the employees to contribute. The Division contributions equal the employee contributions to the plan. No pension liability is included in the financial statements.

The employee future benefit expense is a part of the Employee Benefits and Allowances expense account. The total pension expense for the 2008 year was $202,857 ($192,776 in 2007).

5. Deferred Revenue

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The following is a breakdown of the account balance:

	Balance as at June 30, 2007	Additions in the period	Revenue recognized in the period	Balance as at June 30, 2008
Adult Learning Centre	$ -	119,880	-	119,880
Conference	39,675	-	39,675	-
Education Property Tax Credit (EPTC)	1,215,872	3,050,345	3,112,244	1,153,973
Other	-	8,000	-	8,000
	$ 1,255,547	3,178,225	3,151,919	1,281,853

6. School Generated Funds Liability

School Generated Funds Liability includes the non-controlled portion of school generated funds consolidated in the cash and bank balances in the amount of $21,977.

7. Debenture Debt

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly instalments and maturing at various dates from 2008 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba, except for the debenture debt on self-funded capital projects. The debentures carry interest rates that range from 4.875% to 12.25%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The debenture principal and interest repayments in the next five years are:

2009	$ 2,281,257
2010	2,226,309
2011	1,925,275
2012	1,799,847
2013	1,775,674
	$ 10,008,362

8. Other Borrowings

Other borrowings are debts other than overdrafts or debentures. This includes loans payable for to acquisition of school buses and for energy management system retrofit.

	2008	2007
Energy Management System Retrofit Loan – Pacific & Western Bank	$ 678,319	$ 785,972

The energy management system retrofit loan has 6.07% interest per annum, due in 2009 and a monthly payment of $12,654 principal and interest. The debt retirement will be financed from funds held by the Energy Management Debt Repayment Reserve and future borrowings. This loan is secured by way of a security agreement.

9. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class. The amount of interest capitalized in the period included in Assets under Construction was nil (nil in 2007).

10. Accumulated Surplus

The consolidated accumulated surplus for 2008 is comprised of the following:

	2008	2007
Operating Fund		
Designated Surplus	$ 454,198	786,260
Undesignated Surplus	843,467	1,099,964
	1,297,665	1,886,224
Capital Fund		
Reserve Accounts	768,887	354,582
Equity in Tangible Capital Assets	3,092,671	2,697,047
	3,861,558	3,051,629
Special Purpose Fund		
School Generated Funds	198,428	161,093
Other	-	-
	198,428	161,093
Total Accumulated Surplus	$ 5,357,651	5,098,946

Designated Surplus under the Operating Fund represents internally restricted amounts appropriated by the Board of Trustees or, in the case of school budget carryovers, by board policy. The details of the Designated Surplus as disclosed at page 5 of the audited financial statements are as follows:

	2008	2007
School budget carryovers by board policy	$ 104,696	174,292
Various projects	349,502	611,968
Designated surplus	$ 454,198	786,260

Reserve Accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. A Schedule of Capital Reserve Accounts is provided on page 24 of the audited financial statements.

	2008	2007
Bus Reserve	$ 29,467	4,907
Energy Management Debt Repayment Reserve	365,013	302,100
Board Office Roof Replacement Reserve	49,407	47,575
Bus Garage Reserve	325,000	-
Capital Reserve	$ 768,887	354,582

11. Municipal Government – Property Tax and related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students' resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 42% from 2007 tax year and 58% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue – Municipal Government – Property Tax	$ 8,328,670	$ 8,226,060
Receivable – Due from Municipal – Property Tax	$ 4,396,992	$ 4,415,064

12. Interest Received and Paid

The Division received interest during the year of $17,052 ($14,676 in 2007); interest paid during the year was $1,243,211 ($1,740,576 in 2007).

Interest expense for the year ended June 30, 2008 is comprised of the following:

	2008	2007
Operating Fund		
Fiscal-short term loan, interest and bank charges	$ 47,181	23,737
Capital Fund		
Debenture interest	1,151,840	1,660,267
Other interest	44,190	56,572
	$ 1,243,211	1,740,576

The accrual portion of debenture debt interest expense of $503,733 ($499,925 in 2007) included under the Capital Fund - Debenture debt interest is offset by an accrual of the debt servicing grant from the Province of Manitoba.

13. Expenses by Object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	$ 24,445,254	23,181,133	22,610,728
Employees benefits and allowances	1,797,382	1,744,797	1,679,717
Services	2,767,265	2,615,958	2,734,595
Supplies, materials and minor equipment	2,350,022	2,674,962	2,307,033
Interest	1,243,211	1,123,012	1,740,576
Bad debts	-	-	-
Payroll tax	530,052	483,016	491,985
Amortization	1,275,107	-	1,218,491
Transfers	551,953	629,350	611,302
Other capital items	35,168	-	-
Loss/(Gain) on Disposal of Capital Assets	-	-	-
School generated funds	787,026	-	1,107,688
Other special purpose funds	-	-	-
	$ 35,782,440	32,452,228	34,502,115

14. Special Levy Raised for la Division scolaire franco-manitobaine

In accordance with Section 190.1 of The Public Schools Act, the Division is required to collect a special levy on behalf of la Division scolaire franco-manitobaine. As at June 30, 2008, the amount of this special levy was $3,564,697 ($3,331,812 in 2007). These amounts are not included in the Division's consolidated financial statements.

15. Commitments

Commitments of Operating Fund Surplus at year end are detailed in the Analysis of Consolidated Accumulated Surplus. Designated Operating Fund Accumulated Surplus is $454,198 at June 30, 2008 ($786,260 at June 30, 2007). The details of the Designated Surplus are disclosed at note 10 and page 5 of the audited financial statements.

The school division has equipment lease agreements. Future annual minimum operating lease commitments as at June 30, 2008 are as follows:

2009	$ 429,031
2010	290,037
2011	113,602
2012	21,834
2013	8,733

The school division entered into an agreement to purchase a bus garage for $725,000 and made a $10,000 deposit on July 11, 2008 with possession on April 1, 2009. The purchase will be funded by the issuance of debentures. Future renovations to the building will be funded from the Bus Garage Reserve

16. Trust Funds

The school division does not administer trust funds. As such, a separate schedule has not been attached to the notes to financial statements.

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Seven Oaks School Division are the responsibility of the Division's management and have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in note 3 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by KPMG LLP independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

AUDITORS' REPORT TO THE BOARD OF TRUSTEES

We have audited the consolidated statement of financial position of Seven Oaks School Division as at June 30, 2008 and the consolidated statements of revenues, expenses and accumulated surplus, changes in net debt and cash flows for the year then ended. These financial statements have been prepared to comply with the Public Schools Act. These financial statements are the responsibility of the Division's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Division as at June 30, 2008 and the results of its operations and its cash flows for the year then ended in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of the Canadian Institute of Chartered Accountants.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The current year's supplementary information included in the other statements and reports is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole. Budgeted figures provided for information purposes are unaudited.

* Includes network infrastructure.

1. Nature of organization and economic dependence:

Seven Oaks School Division (the Division) is a public corporate body that provides educational programming to residents within its geographic location. The Division is funded mainly by grants from the Province of Manitoba (the Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax under the *Income Tax Act*.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Significant accounting policies.

The significant accounting policies of the Division include:

(a) Reporting entity and consolidation:

The Division's reporting entities are comprised of the Division and school generated funds.

The consolidated financial statements reflect the assets, liabilities, revenues and expenditures of the Division's Operating Fund, Capital Fund, and Special Purpose Fund.

(b) Trust funds:

The Division administers various trust funds. Trust funds and their related operations are not included in the consolidated financial statements as they are not owned or controlled by the Division.

The Division holds funds in trust (amounts contributed in trust) for the following organizations:

Maples Youth Activity Centre	$ (10,734)
Kildonan Youth Activity Centre	4,716
Village Project Activity Centre	50,934
Seven Oaks Parents in Support of Aboriginal Education	(76,287)
Safe Youth Program - from Federal Government Grant	9,656
Immigrant Integration program	291
Healthy Baby	4,408
	$ (17,016)

The amounts contributed by the Division will be reimbursed by these organizations.

2. Significant accounting principles (continued).

(c) Basis of accounting:

These consolidated statements are prepared by management in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of the Canadian Institute of Chartered Accountants (PSAB). Revenues and expenditures are reported on the accrual basis of accounting. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenditures are recognized as they are incurred and measurable as a result of the receipt of goods and services acquired in the period whether or not payment has been made or invoices received.

(d) Fund accounting:

The Division records financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME).

The Operating Fund is maintained to record all the day to day operating revenues and expenditures. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds controlled by the Division.

(e) Deferred revenue:

Certain amounts are received pursuant to legislation, regulation or agreement and may only be used in the conduct of certain programs or in the delivery of specific services and transactions. These amounts are recognized as revenue in the fiscal year the related expenditures are incurred or services performed.

(f) Tangible capital assets:

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

2. Significant accounting principles (continued).

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset description	Capitalization threshold	Estimated useful life (years)
Land improvements	$ 25,000	10
Buildings - bricks, mortar and steel	25,000	40
Building - wood frame	25,000	25
School buses	20,000	10
Vehicles	10,000	5
Equipment	5,000	5
Network infrastructure	25,000	10
Computer hardware, services and peripherals	5,000	4
Computer software	10,000	4
Furniture and fixtures	5,000	10
Leasehold improvements	25,000	Over term of the lease

With the exception of buildings all tangible capital assets are recorded at historical cost.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

Tangible capital assets are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

(g) Capital reserve:

Certain amounts approved by the Board of Trustees and the Public Schools Finance Board have been set aside in reserve accounts for future capital purposes as detailed on page 24 of the consolidated financial statements. These capital reserve accounts are internally restricted funds that form part of the accumulated surplus presented in the consolidated statement of financial position.

2. Significant accounting principles (continued).

(h) Government transfers:

Government transfers, including legislative grants, are recognized in the consolidated financial statements in the period in which events giving rise to the transfer occur, providing the transfers are authorized, any eligibility criteria have been met and reasonable estimates of the amount can be made.

(i) Development revenue:

Revenue from the sale of lands held for development was recognized when the contractual obligations of the Division had been completed.

(j) Use of estimates:

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates.

3. Overdraft:

The Division has authorized revolving lines of credit with the Royal Bank of Canada (RBC) of $20,000,000 and $9,000,000 by way of overdrafts, flex financing, and letter of guarantee. The loan is repayable on demand at RBC prime less .25 percent. Interest is paid monthly. RBC also provides a non-revolving term facility of $631,468 with an interest rate of 5.15%, renewable on October 15, 2008.

4. Commitments:

(a) The Division entered into a Land Development Agreement with the City of Winnipeg in September 2003. The development agreement was for the amount of $725,329 excluding GST. Of those costs, $259,689 relate to the future school site and will not be incurred until a school is constructed.

(b) On June 25, 2008, the Division received approval from the Public Schools Finance Board to proceed with the Garden City Collegiate 'addition and renovation' project at a cost of $8,308,000 plus G.S.T. This project will be funded 100 percent by the Division.

5. Deferred revenue:

	Balance, June 30, 2007	Additions in the period	Revenue recognized in the period	Balance, June 30, 2008
Education property tax credit	$ 3,368,310	$ 8,935,859	$ 8,729,826	$ 3,574,343
Community school partnership initiative	34,989	50,600	65,509	20,080
Bus pass fees	46,243	330,700	337,067	39,876
Other special purpose funds	87,364	138,404	138,936	86,832
	$ 3,536,906	$ 9,455,563	$ 9,271,338	$ 3,721,131

6. School generated funds liability:

School generated funds are monies raised by the school, or under the auspices of the school, which each school's principal may raise, hold, administer or expend subject to the rules of the Division. At June 30, 2008, school funds held totaled $698,822 (2007 - $744,246).

The school generated funds liability of $526,259 at June 30, 2008 (2007 - $593,764) comprises the portion of the school generated funds that are not controlled.

7. Debenture debt:

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly installments and maturing at various dates from 2009 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba. The debentures carry interest rates that range from 5.0 percent to 11.625 percent. The debenture principal and interest repayments in the next five years and thereafter are:

	Principal	Interest	Total
2009	$ 2,303,592	$ 1,952,627	$ 4,256,219
2010	2,140,600	1,755,156	3,895,756
2011	1,921,926	1,579,641	3,501,567
2012	2,010,285	1,430,681	3,440,966
2013	1,557,210	1,275,999	2,833,209
Thereafter	20,078,137	8,199,950	28,278,087
	$ 30,011,750	$ 16,194,054	$ 46,205,804

During 2008 the Division had submitted claims for capital projects to the Public Schools Finance Board totaling $10,759,500 (2007 - $4,491,000) and received debenture proceeds of this amount in 2008.

8. Other borrowings:

The other borrowings of the Division are in the form of long-term capital leases and a loan agreement held with the Royal Bank of Canada for the purchase of buses and energy efficiency projects respectively. The leases carry floating interest rates that range from 3.15 percent to 5.63 percent and the loan has a fixed rate of 5.15 percent. Principal and interest payments in the next five years and thereafter are as follows:

	Principal	Interest	Total
2009	$ 825,793	$ 80,401	$ 906,194
2010	162,823	38,716	201,539
2011	131,326	28,838	160,164
2012	138,166	21,998	160,164
2013	145,364	14,801	160,165
Thereafter	30,800	2,753	33,553
	$ 1,434,272	$ 187,507	$ 1,621,779

9. Net tangible capital assets:

The schedule of tangible capital assets (TCA), page 23 of the consolidated financial statements provides a breakdown of cost, accumulated amortization and net book value by class

	Gross amount	Accumulated amortization	Net book value
Tangible capital assets	$ 88,672,701	$ 32,083,434	$ 56,589,267
Capital lease	2,009,749	888,187	1,121,562
	$ 90,682,450	$ 32,971,621	$ 57,710,829

10. Expense by object:

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget* 2008 (Unaudited)	Actual 2007
Salaries	$ 62,103,913	$ 60,551,557	$ 58,099,947
Employees benefits and allowances	5,849,924	5,372,380	5,226,347
Services	5,978,592	5,842,625	5,660,891
Supplies, materials and minor equipment	4,273,401	4,469,356	3,845,488
Interest	145,785	236,500	241,850
Payroll tax	1,338,830	1,299,453	1,245,947
School divisions and other organizations	1,149,895	1,032,505	1,033,434
Total Operating Fund	80,840,340	78,804,376	75,353,904
Amortization	2,030,615	–	1,737,834
Debenture debt interest	2,296,058	–	1,417,379
Other capital items	130,999	–	309,913
Total Capital Fund	4,457,672	–	3,465,126
Total school generated funds	99,926	–	139,208
	$ 85,397,938	$ 78,804,376	$ 78,958,238

*The "2008 budget" includes operational expenses and is exclusive of the funds budgeted for capital purchases and debt financing of $1,062,505. The total 2008 budget is $79,866,881.

Budgeted figures are presented in accordance with FRAME, the prescribed method of accounting that the Division followed prior to the implementation of PSAB.

11. Related party transactions:

The Seven Oaks Education Foundation Inc. (the Foundation) was incorporated on July 17, 2001 to take over the capital and administration of the Seven Oaks Scholarship Board (the Board). The Board had previously been established to assist students to further their education beyond the high school level. Certain trustees of the Division sit on the Foundation's Board.

During fiscal 2008, the Division provided a grant to the Foundation in the amount of $16,000 (2007 - $16,000) to the Board.

12. Land:

Included in land are costs of $836,380 (2007 - $836,380) related to the future school site located in Swinford Park/Riverbend area. These costs were allocated to the future school site during the development of the Swinford Park subdivision.

13. Residential lot sales:

In fiscal years 2005 and 2006, the Division developed and sold 71 residential lots in the Swinford Park subdivision. The net surplus resulting from the lot sales, including additional costs incurred in 2007, was $388,576 which was recorded to capital fund surplus in prior years. There were no residual costs or revenues recorded in fiscal 2008 with regard to the Swinford Park subdivision.

14. Interest paid:

Interest paid during the fiscal year is comprised of the following:

	2008	2007
Operating Fund:		
Overdraft interest	$ –	$ 115,941
Capital Fund:		
Debenture debt interest - PSFB funded	2,296,058	1,417,478
Debenture interest	46,012	46,348
Lease interest	99,773	79,462
	$ 2,441,843	$ 1,659,229

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Southwest Horizon School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 3 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by Meyers Norris Penny LLP independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

Chairperson

Secretary-Treasurer

October 20, 2008

MEYERS NORRIS PENNY LLP

AUDITOR'S REPORT

(In accordance with subsection 41(11) of the Public Schools Act)

To the Board of Trustees
Southwest Horizon School Division

We have audited the consolidated statement of financial position of the Southwest Horizon School Division as at June 30, 2008 and the consolidated statements of revenue, expenses, and accumulated surplus, change in net debt and cash flow for the year then ended. These consolidated financial statements are the responsibility of the Division's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly in all material respects, the financial position of the School Division as at June 30, 2008 and the results of its operations and cash flow for that fiscal year in accordance with Canadian generally accepted accounting principles.

Further, in our opinion, the other statements and reports, when considered in relation to the aforementioned financial statements, present fairly the supplemental information shown.

Meyers Norris Penny LLP
AUDITOR

Brandon, Manitoba
October 21, 2008

I hereby certify that this report and the statements and reports referenced herein have been presented to the members of the board of the above-mentioned School Division.

SOUTHWEST HORIZON SCHOOL DIVISION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2008

1. Nature of Organization and Economic Dependence

The School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax and is a registered charity under the Income Tax Act.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Comparative Figures

The Division adopted Public Sector Accounting Board (PSAB) standards during the 2006/07 fiscal year. The standards have been applied retroactively with a cumulative adjustment to the opening accumulated surplus presented as a restatement on the Statement of Revenue, Expenses and Accumulated Surplus. The 2006 comparative figures have not been restated and are presented in accordance with FRAME, the prescribed method of accounting that the Division followed prior to the implementation of PSAB.

3. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

a) Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation.

b) Trust Funds

The Division administers various trust funds. Trust funds and their related operations are not included in the consolidated financial statements as they are not owned or controlled by the Division. A schedule of trust funds is attached as part of the notes to the consolidated financial statements.

Trust funds, under PSAB are properties assigned to a trustee (school division) under a trust agreement or statute; the trustee merely administers the terms and conditions embodied in the agreement, and it has no unilateral authority to change the conditions set out in the trust indenture.

c) Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

d) Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

e) School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

f) Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life (years)
Land Improvements	25,000	10
Buildings - bricks, mortar and steel	25,000	40
Buildings - wood frame	25,000	25
School buses	20,000	10
Vehicles	10,000	5
Equipment	5,000	5
Network Infrastructure	25,000	10
Computer Hardware, Servers & Peripherals	5,000	4
Computer Software	10,000	4
Furniture & Fixtures	5,000	10
Leasehold Improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, donated capital assets and capital leases, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

Capital leases are recorded at the present value of the minimum lease payments excluding executory costs (e.g. insurance, maintenance costs, etc.). The discount rate used to determine the present value of the lease payments is the lower of the Division's rate for incremental borrowing or the interest rate implicit in the lease.

Donated tangible capital assets are recorded at fair market value at the date of donation. Deferred revenue is recorded in an equivalent amount, for all donated assets except land. The deferred revenue will be recognized as revenue over the useful life of the related asset, on the same basis that the asset is amortized.

All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency.

All tangible capital assets, except for land, capital leases, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized. Capital leases with lease terms that have a bargain purchase option or allow ownership to pass to the Division are amortized over the useful life of the asset class. All other capital leases are amortized over the lesser of the lease term and the useful life of the asset class.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion.

g) Capital Reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position.

h) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

i) Financial Instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

4. Conversion to PSAB

Commencing with the 2006/07 fiscal year, the Board has adopted generally accepted accounting principles established by PSAB. As explained in Note 2, the comparative figures included in these financial statements have not been restated to conform to the accounting standards adopted for the current year.

The following changes have been implemented to comply with the PSAB standard:

(i) Tangible capital assets were restated and amortized over their useful lives to reflect net book value. Amortization of tangible capital assets and gain or loss on disposal of capital assets are recorded in the Statement of Revenue, Expenses and Accumulated Surplus.

(ii) The Operating Fund, Capital Fund and Special Purpose Fund are consolidated in the financial statements. The Special Purpose Fund was created to include school generated funds and charitable foundations controlled by the Division.

(iii)The Employee Future Benefits Liability was established to account for the Division's commitment to pay vested future benefits to its employees.

(iv)Accrued Interest Payable was established to account for accrual of interest on Debenture Debt and Other Borrowings from the last payment date. An equal amount is set up as due from the Province to offset the accrued interest payable on debenture.

5. Overdraft

The Division has an authorized line of credit and bankers' acceptance note with Royal Bank of Canada of $5,700,000.00 by way of overdrafts and is repayable at prime less .25% interest paid monthly. Included in the overdraft are capital projects totaling approximately $98,000 which will be submitted to PSFB for debenture funding. Overdrafts are secured by borrowing by-laws.

6. Deferred Revenue

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The following is a breakdown of the account balance:

	Balance as at 30-Jun-07	Additions in the period	Revenue recognized in the period	Balance as at 30-Jun-08
Manitoba Textbook Bureau	-	49,650	49,650	-
Canadian Council Learners	18,000	-	18,000	-
Manitoba Council for Leadership in Education	-	5,000	-	5,000
Special Levy + Tax Incentive Grant	3,673,100	3,898,581	3,673,100	3,898,581
	$ 3,691,100	$ 3,953,231	$ 3,740,750	$ 3,903,581

7. Debenture Debt

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly installments and maturing at various dates from 2009 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba, except for the debenture debt on self-funded capital projects. The debentures carry interest rates that range from 4.875% to 11.125%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The debenture principal and interest repayments in the next five years are:

	Principal	Interest	Total
2009	724,675	918,340	1,643,015
2010	711,278	870,437	1,581,715
2011	734,390	825,865	1,560,255
2012	770,104	780,531	1,550,635
2013	799,935	733,403	1,533,338
	$3,740,382	$4,128,576	$7,868,958

8. Other Borrowings

Other borrowings are debts other than overdrafts or debentures. This includes a loan to complete technology infrastructure upgrade including cabling and a new voip phone system. Loan bears 5.06% interest per annum, due in 2014 and a yearly payment of $92,124 principal and interest.

Principal and interest repayment of total other borrowings in the next five years are:

	Principal	Interest	Total
2008	$ 66,771	$ 25,353	$ 92,124
2009	70,230	21,894	92,124
2010	73,867	18,257	92,124
2011	77,694	14,430	92,124
2012	81,716	10,408	92,124
	$ 370,278	$ 90,342	$ 460,620

9. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class.

	Gross Amount	Accumulated Amortization	2008 Net Book Value
Owned-tangible capital assets	$ 28,373,322	$ 11,296,131	$ 17,077,191
Capital lease	-	-	-
	$ 28,373,322	$ 11,296,131	$ 17,077,191

10. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008
Operating Fund	
Designated Surplus	-
Undesignated Surplus	653,192
	653,192
Capital Fund	
Reserve Accounts	190,048
Equity in Tangible Capital Assets	815,056
	1,005,104
Special Purpose Fund	
School Generated Funds	185,047
Other Special Purpose Funds	-
	185,047
Total Accumulated Surplus	$1,843,343

Reserve Accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. A Schedule of Capital Reserve Accounts is provided on page 24 of the audited financial statements.

	2008
Bus reserves	190,048
Other reserves	
Capital Reserve	190,048

School Generated Funds and Other Special Purpose Funds are externally restricted moneys for school use.

	2008
Foundation - Scholarship	-
Other – Specify	-
Other Special Purpose Funds	-

11. Restatement of Opening Accumulated Surplus

Restatement of Opening Accumulated Surplus is comprised of:

	2007	2008
Operating Fund		
Employee Future Benefits	-	-
Capital Fund		
Tangible Capital Assets	(14,039,660)	640,813
Accumulated Amortization	-	122,146
	(14,039,660)	762,959
Special Purpose Fund		
School Generated Funds	76,864	
Other Special Purpose Funds	-	-
	76,864	
Total Restatement of Opening Accumulated Surplus	($13,962,796)	$762,959

Restatements of the above accounts are prior period cumulative adjustments to the opening balance of the accumulated surplus (deficit) of the current period. These adjustments are the result of adopting PSAB standards.

12. Municipal Government – Property Tax and related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 46% from 2007 tax year and 54% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue-Municipal Government-Property Tax	$ 6,533,449	$ 6,391,954
Receivable-Due from Municipal-Property Tax	$ 6,522,760	$ 6,534,343

13. Interest Received and Paid

The Division received interest during the year of $15,107 (previous year $19,984); interest paid during the year was $1,133,774 (previous year $1,404,050).

Interest expense is included in Fiscal and is comprised of the following:

		2008
Operating Fund		
Fiscal-short term loan, interest and bank charges	$	184,793
Capital Fund		
Debenture debt interest		948,981
Other interest		
		$1,133,774

The accrual portion of debenture debt interest expense of $433,131 included under the Capital Fund-Debenture debt interest, is offset by an accrual of the debt servicing grant from the Province of Manitoba.

14. Expenses by Object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	$12,196,593	$12,053,000	$11,802,867
Employees benefits & allowances	888,756	901,200	829,592
Services	1,922,970	1,894,627	1,823,641
Supplies, materials & minor equipment	1,663,074	1,650,063	1,579,655
Interest	1,133,774	65,000	1,404,050
Transfers	99,663	107,000	85,269
Payroll tax	264,462	250,000	258,138
Amortization	924,157	-	876,852
Other capital items	-	-	-
School generated funds	858,773	-	359,375
Other special purpose funds	-	-	-
	$19,952,222	$16,920,890	$19,019,439

15. School Generated Funds

School Generated Funds includes the controlled portion of school generated funds consolidated in the cash and bank balances in the amount of $185,047.

As a transition measure in the implementation of the new accounting policies, school generated funds revenue and expenses reported in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus as at June 30, 2008 covers a period of fifteen months from April 1, 2007 to June 30, 2008. In 2007, the reporting period shown was ending March 31, 2007. For June 30, 2008 we have reported a fifteen month period to correct the reporting period.

Auditors' Report

To the Board of Trustees,
St. James-Assiniboia School Division

We have audited the consolidated statement of financial position of **St. James-Assiniboia School Division** as at June 30, 2008, the consolidated statements of revenue, expenses and accumulated surplus, change in net debt and cash flows for the year then ended. These financial statements have been prepared to comply with Canadian generally accepted accounting principles established by the public sector accounting board of the Canadian Institute of Chartered Accountants. These financial statements are the responsibility of the School Division's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of St. James-Assiniboia School Division as at June 30, 2008 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles established by the public sector accounting board of the Canadian Institute of Chartered Accountants.

PricewaterhouseCoopers LLP

Chartered Accountants

I hereby certify that the preceding report has been presented to the members of the Board of St. James-Assiniboia School Division.

Dec 09, 2008
Date

Chairperson

"PricewaterhouseCoopers" refers to PricewaterhouseCoopers LLP, an Ontario limited liability partnership, or, as the context requires, the PricewaterhouseCoopers global network or other member firms of the network, each of which is a separate and independent legal entity.

1 Nature of organization and economic dependence

St. James-Assiniboia School Division (the "Division") is a public body that provides education services to residents within its geographic location. The Division is funded mainly by grants from the Province of Manitoba (the "Province"), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax and is a registered charity under the Income Tax Act.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2 Basis of presentation

Commencing in fiscal 2007, the Division adopted Public Sector Accounting Board (PSAB) standards as a result of the Financial Reporting and Accounting in Manitoba Education (FRAME) Manual being updated with PSAB standards as its basis. The standards were applied retroactively without restatement as a cumulative adjustment to the 2007 opening accumulated surplus.

The following changes were implemented to comply with the PSAB standards:

i) Tangible capital assets were restated and amortized over their useful lives to reflect net book value. Amortization of tangible capital assets and gain or loss on disposal of capital assets are recorded in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. Deferred revenue was recognized for donated tangible capital assets.

ii) The Operating Fund, Capital Fund and Special Purpose Fund are consolidated in the financial statements. The Special Purpose Fund was created to include school generated funds and charitable foundations controlled by the Division.

iii) Accounting for Employee Future Benefits was adopted to recognize the Division's commitment to pay vested future benefits to its employees, including pensions and other employee future benefits.

iv) Accrued Interest Payable, and related expense, was established to account for accrual of interest on debenture debt and other borrowings from the last payment date. An equal revenue amount is set up as due from the Province as interest payable accrues on the debenture.

A summary of the impact of the restatements to the 2007 opening accumulated surplus is comprised of:

	$
Operating Fund	
Employee future benefits other than pensions	(767,144)
Pension	-
	(767,144)
Capital Fund	
Tangible capital assets - net of accumulated amortization of $36,090,327	(5,794,076)
Deferred revenue	(310,362)
	(6,104,438)
Special Purpose Fund	
Cash	369,887
Total restatement of opening accumulated surplus	(6,501,695)

3 Significant accounting policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

a) Reporting entity and consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation.

b) Basis of accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

c) Fund accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by FRAME in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

d) School generated funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Year end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

e) Tangible capital assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset description	**Capitalization threshold $**	**Estimated useful life (years)**
Land improvements	25,000	10
Buildings		
Bricks, mortar and steel	25,000	15 - 40
Wood frame	25,000	15 - 25
School buses	20,000	10
Vehicles	10,000	5
Equipment	5,000	5
Network infrastructure	25,000	10
Computer hardware, servers and peripherals	5,000	4
Computer software	10,000	4
Furniture and fixtures	5,000	10

Grouping of assets is not permitted except for computer work stations.

With the exception of land, donated capital assets and all tangible capital assets, are recorded at historical cost. Cost includes the purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the historical cost was not known, buildings have been recorded based on the replacement value for insurance purposes as at June 30, 2005 regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

Donated tangible capital assets are recorded at fair market value at the date of donation. Deferred revenue is recorded in an equivalent amount, for all donated assets except land. The deferred revenue is recognized as revenue on the same basis that the related asset is amortized.

Land is recorded at historical cost when known. For land acquired prior to June 30, 2006, where historical cost was not known, land has been recorded based on values determined by the Crown Lands and Property Agency.

All tangible capital assets, except for land and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

f) Employee future benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

However, the Division provides retirement and other future benefits to its employees. These benefits include a defined benefit pension plan for non-teacher employees, vacation pay and parental leave benefits. The Division adopted the following policies with respect to accounting for these employee future benefits:

i) Defined benefit pension plan

Under this plan, benefits to be received by employees or the method for determining those benefits have been specified by the Division. The actuarial risk (with respect to the amount of the benefit that each employee will receive) and the investment risk (with respect to the investment returns on any assets set aside to pay for the cost of these benefits) are assumed by the Division.

A market discount rate is used to measure the benefit obligations. The expected return on pension plan assets is calculated on the market related value of the assets. The cost of the plan is actuarially determined using the projected benefit method prorated on years of employee service, final average salary levels during specified years of employment, retirement ages of employees and other actuarial factors, together with the expected rate of return on pension plan assets. Current service costs and interest costs on the benefit obligation are charged to income as they accrue. Past service costs, plan amendments, changes in assumptions, the cumulative unrecognized net actuarial gains and losses are amortized to earnings on a straight-line basis over the expected average remaining service lives (13 years) of active plan members.

ii) Other future benefits

For those benefit obligations that are event driven (vacation pay and parental leave), the benefit costs are recognized and recorded when earned.

The employee future benefits expense includes the Division's contribution for the period.

g) Capital reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These capital reserve accounts are internally restricted funds that form part of the accumulated surplus presented in the Consolidated Statement of Financial Position (note 11).

h) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

i) Financial instruments

There are no significant terms and conditions related to financial instruments (due from amount, accounts receivable, overdraft, accounts payable, accrued liabilities and debenture debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable and due from amounts. However, the majority of these financial assets are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values.

4 Overdraft

The Division has an authorized line of credit with The Royal Bank of Canada of $15,000,000 by way of overdrafts and is repayable on demand at prime less .25%; interest is paid monthly.

5 Employee future benefits

Employee future benefits are benefits earned by employees, but will not be paid out until future years.

	2008 $	2007 $
Employee future benefit liabilities		
Defined benefit pension plan		
Accrued employee benefit obligation	31,616,241	29,777,721
Deduct: Pension plan assets	(31,842,453)	(32,608,228)
Valuation allowance	226,212	2,830,507
	-	-
Maternity leave earned	259,445	104,121
Vacation payable	566,942	614,989
Total employee future benefit liability	826,387	719,110

The Division sponsors a defined benefit plan for non-teaching employees that is actuarially valued every three years using a number of assumptions about future events, including inflation rate (2%), wage and salary increases (4%), and employee turnover and mortality to determine the accrued benefit obligation (includes any related interest owing). The most recent actuarial report was prepared as at December 31, 2005. The net unamortized actuarial gain is amortized on a straight-line basis over the expected average remaining service life of the related employee groups (13 years). Pension plan assets are valued at market related values and the expected rate of return is 6%.

As at June 30, 2008, there were 495 active members, 123 deferred benefit members and 212 pensioners receiving payments.

	2008 $	2007 $
Change in accrued benefit obligation		
Balance - beginning of year	29,777,721	28,045,837

Valuation allowance increase	214,559	163,117
Net benefit plan expense for the year	773,532	764,254

Plan assets in equities (includes real estate)	74.39%	62.11%
Plan assets in fixed income	25.61%	37.89%

	2008 %	2007 %
Significant assumptions		
Accrued benefit obligation as of June 30		
Discount rate	6.00	6.00
Rate of compensation increase	4.00	4.00
Net benefit plan cost for the year ended June 30		
Discount rate	6.00	6.00
Expected return on plan assets	6.00	6.00
Rate of compensation increase	4.00	4.00
Expected Average Remaining Service Life (EARSL)	13 years	13 years

Maternity leave earned and vacation payable are defined benefits that are recognized and recorded when earned (e.g. maternity top up).

6 Deferred revenue

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The following is a breakdown of the account balance:

	Balance as at June 30, 2007 $	Additions in the year $	Revenue recognized in the year $	Balance as at June 30, 2008 $
Donated capital assets	247,191	48,470	62,594	233,067
International education student fees	68,036	183,206	68,036	183,206
Leases	11,476	11,618	11,476	11,618
Western reading recovery	96,180	-	96,180	-
Property tax	4,350,594	4,950,138	4,350,594	4,950,138
	4,773,477	5,193,432	4,588,880	5,378,029

7 School generated funds liability

School generated funds liability includes the non-controlling portion of school generated funds consolidated in the overdraft balance in the amount of $189,573.

	2008 $	2007 $
Parent council funds	16,893	7,751
Other parent group funds	-	4,829
Student funds (including travel)	158,651	31,838
Other	14,029	6,545
	189,573	50,963

8 Debenture debt

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly instalments and maturing at various dates from 2008 to 2027 and is owing to public schools finance board (PSFB). Payment of principal and interest is funded entirely by grants from the Province of Manitoba, except for the debenture debt on self-funded capital projects. The debentures carry interest rates that range from 5% to 11.125%.

Debenture interest expense payable as at June 30, 2008, is accrued and recorded in accrued interest payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in due from the Provincial Government. The debenture principal and interest repayments in the next five years are:

	Principal $	Interest $	Total $
2008 - 2009	638,022	625,816	1,263,838
2009 - 2010	568,306	575,312	1,143,618
2010 - 2011	572,959	533,672	1,106,631
2011 - 2012	550,308	492,608	1,042,916
2012 - 2013	549,967	455,464	1,005,431
	2,879,562	2,682,872	5,562,434

9 Net tangible capital assets

The Schedule of Tangible Capital Assets (schedule attached) of the audited consolidated financial statements provides a breakdown of cost, accumulated amortization and net book value by class.

A summary is as follows:

			2008	2007
Tangible capital assets	Gross amount $	Accumulated amortization $	Net book value $	Net book value $
	69,087,334	39,107,642	29,979,692	27,702,591

10 Accumulated surplus

The consolidated accumulated surplus is comprised of the following:

	2008 $	2007 $
Operating Fund		
Designated surplus	259,251	180,787
Undesignated surplus	2,831,006	362,851
	3,090,257	543,638
Capital Fund		
Reserve accounts	3,341,993	3,853,132
Equity in tangible capital assets	19,748,444	17,354,822
	23,090,437	21,207,954
Special Purpose Fund		
School generated funds	306,943	331,362
Total accumulated surplus	26,487,637	22,082,954

Designated surplus under the Operating Fund represents internally restricted amounts appropriated by the board or, in the case of school budget carryovers, by board policy.

	2008 **$**	**2007** **$**
School budget carryovers by board policy	259,251	180,787
Designated surplus	259,251	180,787

Reserve accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB.

	2008 **$**	**2007** **$**
School building reserve	1,200,000	-
School bus reserve	196,000	-
Other reserves - Sturgeon Heights Reserve	1,445,993	3,853,132
Lease reserve	500,000	-
Capital reserve	3,341,993	3,853,132

School generated funds and other special purpose funds are externally restricted monies for school use.

11 Municipal Government - property tax and related due from Municipal Government

Education property tax or special levy is raised as the Division's contribution to the cost of providing public education for the students resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 54.4% from 2007 tax year and 45.6% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008 **$**	**2007** **$**
Gross revenue, Municipal Government - property tax	22,381,983	21,824,122
Less: Education property tax credit	(5,905,428)	(5,190,182)
Receivable, due from Municipal Government - property tax	16,476,555	16,633,940

12 Interest received and paid

The Division received interest during the year of $346,847 (2007 - $309,394); interest paid during the year was $665,716 (2007 - $919,176).

Interest expense is included in fiscal and is comprised of the following:

	2008 $	2007 $
Operating Fund		
Fiscal short-term loan, interest and bank charges	8,633	62,529
Capital Fund		
Debenture debt interest	657,083	856,647
	665,716	919,176

The accrual portion of debenture debt interest expense of $172,311 is offset by an accrual of the debt servicing grant from the Province.

13 Expenses by object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008 $	Actual 2007 $
Salaries	59,397,403	58,185,362
Employees' benefits and allowances	4,502,298	4,077,996
Services	7,768,492	8,182,155
Supplies, materials and minor equipment	4,169,783	4,591,495
Interest	8,633	62,529
Interest - debenture	657,083	856,647
Payroll tax	1,293,594	1,313,979
Transfers	633,292	583,467
Amortization	1,815,804	1,672,991
School generated funds	957,525	1,889,726
	81,203,907	81,416,347

14 Contractual obligations

Agreements respecting student transportation were entered into for terms ranging from one to five years. The specific costs for these services are approximately $835,000 for 2008-09. As costs are based on student enrolment and transportation requirements, the service agreements do not contain predetermined costs for subsequent years.

15 Lease revenue

The Division recorded lease revenue of $694,748 from other sources relating to various unoccupied building space. Minimum payments under the lease terms over the next three years are as follows:

	$
2009	495,020
2010	243,974
2011	164,977

16 Special levy raised for la Division scolaire franco-manitobaine

In accordance with Section 190.1 of The Public Schools Act, the Division is required to collect a special levy on behalf of la Division scolaire franco-manitobaine. As at June 30, 2008, the amount of this special levy was $227,289 (2007 - $241,877). These amounts are not included in the Division's consolidated financial statements.

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Sunrise School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with Canadian generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 2 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by BDO Dunwoody LLP, independent external auditors, appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

Auditors' Report

To the Chairperson and Board of Trustees of
Sunrise School Division

We have audited the consolidated statement of financial position of **Sunrise School Division** as at June 30, 2008 and the consolidated statements of revenue, expenses and accumulated surplus, change in net debt and cash flow for the year then ended. These financial statements are the responsibility of the School Division's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the School Division as at June 30, 2008 and the results of its operations and its cash flows for the fiscal year then ended in accordance with Canadian generally accepted accounting principles.

Further, in our opinion, the other statements, schedules and reports, when considered in relation to the aforementioned financial statements, present fairly the supplemental information shown.

BDO Dunwoody LLP

SUNRISE SCHOOL DIVISION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
For the Year Ended June 30, 2008

1. Nature of Organization and Economic Dependence

The Sunrise School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax and is a registered charity under the Income Tax Act.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by the Public Sector Accounting Board (PSAB) of the Canadian Institute of Chartered Accountants (CICA).

Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation.

Trust Funds

The Division administers various trust funds. Trust funds and their related operations are not included in the consolidated financial statements as they are not owned or controlled by the Division. A schedule of trust funds is attached as part of the notes to the consolidated financial statements.

Trust funds, under PSAB are properties assigned to a trustee (school division) under a trust agreement or statute; the trustee merely administers the terms and conditions embodied in the agreement, and it has no unilateral authority to change the conditions set out in the trust indenture.

Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life
Land Improvements	25,000	10 years
Buildings – bricks, mortar, steel	25,000	40 years
Buildings – wood frame	25,000	25 years
School buses	20,000	10 years
Vehicles	10,000	5 years
Equipment	5,000	5 years
Network Infrastructure	25,000	10 years
Computer Hardware, Servers, Peripherals	5,000	4 years
Computer Software	10,000	4 years
Furniture & Fixtures	5,000	10 years
Leasehold Improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency.

All tangible capital assets, except for land, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

However, the Division provides retirement and other future benefits to its non-teaching employees as a defined contribution plan, under the Manitoba Association of School Trustees Pension Plan (MAST). The Division adopted the following policy with respect to accounting for these employee future benefits:

Defined Contribution Plan

Under this plan, specific fixed amounts are contributed by the Division each period for services rendered by the employees. No responsibility is assumed by the Division to make any further contribution.

Capital Reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from management's best estimates, as additional information becomes available in the future.

Financial Instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, and bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

3. Bank Overdraft

The Division has an authorized line of credit with Sunova Credit Union of $12,000,000 by way of overdrafts and is repayable on demand at the bank's prime rate; interest is paid monthly. Overdrafts are secured by a borrowing by-law.

4. Employee Future Benefits

The Division sponsors a defined contribution pension plan, run by the Manitoba Association of School Trustees (MAST). The defined contribution plan is provided to administrative employees based on their age at the beginning of the year and rates of pay. Each age group under the MAST pension plan has a specific percentage for the employees to contribute. The Division contributions equal the employee contributions to the plan. No pension liability is included in the financial statements.

The employee future benefit expense is a part of the Employee Benefits and Allowances expense account. It includes the Division's contribution of $586,558 in 2008.

Employee future benefits recorded as a liability represents maternity/parental benefits of $116,044.

5. Deferred Revenue

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The following is a breakdown of the account balance:

	Balance as at June 30, 2007	Additions in the period	Revenue recognized in the period	Balance as at June 30, 2008
Education Property Tax Credit	$ 661,935	$ 6,408,917	$ 4,988,272	$ 2,082,580
International Student Program	167,338	-	167,338	-
North Eastman Health Authority	64,780	-	64,780	-
Capital D Grant	145,080	-	145,080	-
Grants from outside sources	42,205	47,683	7,673	82,215
Other	3,050	200	3,050	200
	$ 1,084,388	$ 6,456,800	$ 5,376,193	$ 2,164,995

6. School Generated Funds

School generated funds revenue and expenses reported in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus as at June 30, 2008 covers a period of twelve months from July 1, 2007 to June 30, 2008.

7. Debenture Debt

The debenture debt of the School Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly installments and maturing at various dates from 2009 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba except for the debenture debt on self-funded capital projects. The debentures carry interest rates that range from 5.250% to 12.125%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The total debenture principal and interest repayments in the next five years are:

2009	$ 2,549,563
2010	2,184,899
2011	2,140,191
2012	2,081,921
2013	1,994,209
	$ 10,950,783

Interest on this debt and the related provincial government support is recorded in the period in which interest is paid.

8. Other Borrowings

	2008	2007
P.S.F.B., Capital Projects loan, repayable over 10 years in annual payments of $141,644 including interest at 6.875% per annum, due in 2010	$ 256,589	372,568

Required principal repayments over the next three years are estimated to be as follows:

2009	$ 124,004
2010	132,585

9. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class. The amount of interest capitalized in the period included in Assets under Construction was nil (previous year was nil).

10. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008	2007
Operating Fund		
Designated Surplus	$ -	$ -
Undesignated Surplus	2,041,506	2,535,275
	2,041,506	2,535,275
Capital Fund		
Reserve Accounts	1,271,978	1,219,126
Equity in Tangible Capital Assets	7,798,324	6,713,939
	9,070,302	7,933,065
Special Purpose Fund		
School Generated Funds	475,511	404,776
Other	9,586	-
	485,097	404,776
Total Accumulated Surplus	$11,596,905	$10,873,116

11. Municipal Government – Property Tax and related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the student's resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 42.5% from 2007 tax year and 57.5% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue – Municipal Government – Property Tax	$ 24,286,189	$ 22,490,290
Receivable – Due from Municipal – Property Tax	$ 10,509,923	$ 10,495,505

12. Interest Received and Paid

The Division received interest during the year of $65,374 (previous year $104,942); interest paid during the year was $1,402,060 (previous year $1,477,264).

Interest expense is included in Fiscal and is comprised of the following:

	2008	2007
Operating Fund		
Fiscal-short term loan, interest and bank charges	$ 182,155	$ 127,466
Capital Fund		
Debenture interest	1,174,694	1,280,393
Other interest	45,211	69,405
	$ 1,402,060	$1,477,264

The accrual portion of debenture debt interest expense of $475,728 included under the Capital Fund-Debenture debt interest, and netted with an accrual of the debt servicing grant from the Province of Manitoba.

13. Expenses by Object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	$36,631,753	$37,116,103	$ 34,232,612
Employees benefits and allowances	2,651,272	2,646,318	2,519,469
Services	5,401,040	4,668,721	5,065,982
Supplies, materials and minor equipment	3,561,355	3,532,192	3,927,357
Interest	1,402,060	120,000	1,477,264
Bad debts	95,898	-	-
Payroll tax	771,320	782,800	738,519
Amortization	1,653,322	-	1,556,307
Transfers	579,855	579,668	547,807
Other capital items	21,406	-	-
Loss (gain) on disposal of capital assets	-	-	-
School generated funds	1,169,959	-	1,171,140
Other special purpose funds	18,790	-	6,057
	$53,958,030	$ 49,445,802	$ 51,236,457

14. Commitments

The school division has equipment lease agreements. Future annual minimum operating lease commitments as at June 30, 2008 are as follows:

2009	$ 489,921
2010	111,095
2011	34,052
2012	34,052
2013	34,052

15. Other

A legal action had been initiated against the Division by the contractor of a new school built in the division. The disputed amount represents monies which have not been paid by the Division because the architects have refused to provide certificates for payment due to non-compliance and unfinished work. The Division has accordingly not drawn the required funds. The Division has recorded a liability for work completed and for the holdback on this completed work, but not for any non-compliant work performed.

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Swan Valley School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 3 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by Kowal Hardie & Company independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

AUDITOR'S REPORT

(in accordance with subsection 41(11) of the Public Schools Act)

SWAN VALLEY SCHOOL DIVISION
(Name of School Division/District)

TO THE CHAIRPERSON AND MEMBERS OF THE BOARD OF TRUSTEES

We have audited the consolidated statements of financial position of the Swan Valley School Division as at 30 June 2008 and the consolidated statements of revenues, expenditures and accumulated surplus and the consolidated statements of change in net debt, and consolidated statements of cash flow for the year then ended. These financial statements are the responsibility of the school division's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the school division as at 30 June 2008 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

Kowal Hardie & Company
CHARTERED ACCOUNTANTS

Swan River, Manitoba
24 October 2008

I hereby certify that this report and the statements and reports referenced herein have been presented to the members of the Board of the above mentioned School Division/District.

1. Nature of Organization and Economic Dependence

The Swan Valley School Division (Division) is a public body that provides education services to residents within its geographic location. The Division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax and is a registered charity under the Income Tax Act.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Comparative Figures

The Division adopted Public Sector Accounting Board (PSAB) standards during the 2006/07 fiscal year. The standards have been applied retroactively with a cumulative adjustment to the opening accumulated surplus presented as a restatement on the Statement of Revenue, Expenses and Accumulated Surplus.

3. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

a) Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds controlled by the Division and funds held in the Division's Registered Charity.

All inter-fund accounts and transactions are eliminated upon consolidation.

b) Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

c) Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

d) School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

e) Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life (years)
Land Improvements	25,000	10
Buildings - bricks, mortar and steel	25,000	40
Buildings - wood frame	25,000	25
School buses	20,000	10
Vehicles	10,000	5
Equipment	5,000	5
Network Infrastructure	25,000	10
Computer Hardware, Servers & Peripherals	5,000	4
Computer Software	10,000	4
Furniture & Fixtures	5,000	10
Leasehold Improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, donated capital assets and capital leases, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

Capital leases are recorded at the present value of the minimum lease payments excluding executory costs (e.g. insurance, maintenance costs, etc.). The discount rate used to determine the present value of the lease payments is the lower of the Division's rate for incremental borrowing or the interest rate implicit in the lease.

Donated tangible capital assets are recorded at fair market value at the date of donation. Deferred revenue is recorded in an equivalent amount, for all donated assets except land. The deferred revenue will be recognized as revenue over the useful life of the related asset, on the same basis that the asset is amortized.

All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency.

All tangible capital assets, except for land, capital leases, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized. Capital leases with lease terms that have a bargain purchase option or allow ownership to pass to the Division are amortized over the useful life of the asset class. All other capital leases are amortized over the lesser of the lease term and the useful life of the asset class.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

f) Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

However, the Division provides a defined contribution pension plan to all eligible non teachers in the Division. There is no future liability or benefit to be recorded for this type of pension plan. The terms and conditions of the Pension Plan for the Employees of Swan Valley School Division are administered by the school division trustees and a division management representative. Participating employees in the plan generally contribute from 7.0% to 9.0% (dependant on age and years of plan membership as outlined in the plan's text) of eligible earnings to the plan. The Division matches this contribution and remits both contributions monthly. No responsibility is assumed by the Division to make any further contribution.

g) Capital Reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position.

h) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

i) Financial instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

4. Conversion to PSAB

Commencing with the 2006/07 fiscal year, the Board has adopted generally accepted accounting principles established by PSAB.

The following changes have been implemented to comply with the PSAB standard:

(i) Tangible capital assets were restated and amortized over their useful lives to reflect net book value. Amortization of tangible capital assets and gain or loss on disposal of capital assets are recorded in the Statement of Revenue, Expenses and Accumulated Surplus.

(ii) The Operating Fund, Capital Fund and Special Purpose Fund are consolidated in the financial statements. The Special Purpose Fund was created to include school generated funds and charitable foundations controlled by the Division.

(iii)The Employee Future Benefits Liability was established to account for the Division's commitment to pay vested future benefits to its employees.

(iv)Accrued Interest Payable was established to account for accrual of interest on Debenture Debt and Other Borrowings from the last payment date. An equal amount is set up as due from the Province to offset the accrued interest payable on debenture.

5. Other Investments

	2008	2007
Swan Valley Credit Union Patronage Shares	$ 905	$ 978

6. Overdraft

The Division has an authorized line of credit with TD Canada Trust of $4,000,000 by way of overdrafts and is repayable on demand at prime less 0.60%; paid monthly. Overdrafts are secured by borrowing by-law.

7. Employee Future Benefits

The Division sponsors and administers a defined pension contribution plan. The defined contribution plan is provided to all eligible non teaching employees. Eligible employees contributed, in accordance with the plan text 7.0% to 9.0% of their eligible earnings to the plan. The Division contributions equal the employee required contributions to the plan. Some employees have exercised their right to make voluntary contributions to the plan, which are not matched by the Division. No pension liability is included in the financial statements.

A liability of $210,446 for maternity/parental and sick leave benefits is reflected in the financial statements.

8. Deferred Revenue

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The following is a breakdown of the account balance:

	Balance as at June 30, 2007	Additions in the period	Revenue recognized in the period	Balance as at June 30, 2008
Healthy Child Manitoba Grant	$ 10,000	$ 41,000	$ 38,300	$ 12,700
Technical Vocational Initative Grant	15,000	-	2,398	12,602
Making Education Work	8,171	9,717	4,896	12,992
Education Property Tax Credit	521,500	1,412,786	1,312,163	622,123
Other Province of Manitoba Grants	14,883	1,500	10,593	5,790
Grants from outside sources	5,200	-	1,300	3,900
Capital Fund		76,199	7,620	68,579
Charitable Scholarship and Other Fund	92,558	83,314	79,262	96,610
School Generated Funds	23,455	56,569	23,455	56,569
	$ 690,767	$ 1,681,085	$ 1,479,987	$ 891,865

9. School Generated Funds Liability

School Generated Funds Liability includes the non-controlled portion of school generated funds consolidated in the cash and bank balances in the amount of $905.

School generated funds revenue and expenses reported in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus as at June 30, 2008 covers a period of twelve months from July 1, 2007 to June 30, 2008.

10. Debenture Debt

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly installments and maturing at various dates from 2007 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba. The debentures carry interest rates that range from 4.875% to11.125%. Debenture interest expense payable as at June 30, 2007, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The debenture principal and interest repayments in the next five years are:

	Principal	Interest	Total
2009	$ 274,946	$ 290,408	$ 565,354
2010	249,419	269,472	518,891
2011	251,069	251,987	503,056
2012	268,179	234,876	503,055
2013	274,581	216,547	491,128
	$ 1,318,194	$1,263,290	$ 2,581,484

11. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class. The amount of interest capitalized in the period included in Assets under Construction was $199 (previous year $5).

12. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008	2007
Operating Fund		
Designated Surplus	15,949	124,757
Undesignated Surplus	649,729	1,390,181
	665,678	1,514,938
Capital Fund		
Reserve Accounts	1,266,321	429,586
Equity in Tangible Capital Assets	1,765,333	1,775,218
	3,031,654	2,204,804
Special Purpose Fund		
School Generated Funds	125,227	143,399
Other Special Purpose Funds	-	-
	125,227	143,399
Total Accumulated Surplus	$ 3,822,559	3,863,141

Designated Surplus under the Operating Fund represents internally restricted amounts appropriated by the board or, in the case of school budget carryovers, by board policy. See page 5 of the audited financial statements for a breakdown of the Designated Surplus.

	2008	2007
Board approved appropriation by motion	-	80,951
School budget carryovers by Board policy	15,949	43,806
Designated surplus	$ 15,949	124,757

Reserve Accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. A Schedule of Capital Reserve Accounts is provided on page 24 of the audited financial statements.

	2008	2007
Bus reserves	639,021	429,586
Other reserves	627,300	-
Capital Reserve	$ 1,266,321	429,586

13. Restatement of Opening Accumulated Surplus

Restatement of Opening Accumulated Surplus is comprised of:

	2008	2007
Operating Fund		
Employee Future Benefits	-	-
Capital Fund		
Tangible Capital Assets	-	(2,088,220)
Accumulated Amortization	-	11,392,211
	-	(13,480,431)
Special Purpose Fund		
School Generated Funds	-	126,997
Other Special Purpose Funds	-	-
	-	126,997
Total Restatement of Operating Accumulated Surplus	$ -	(13,353,434)

Restatements of the above accounts are prior period cumulative adjustments to the opening balance of the accumulated surplus (deficit) of the prior period. These adjustments are the result of adopting PSAB standards.

14. Municipal Government – Property Tax and related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the student's resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 45% from 2007 tax year and 55% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue - Municipal Government-Property Tax	$ 4,387,669	$ 4,290,615
Receivable - Due from Municipal-Property Tax	$ 2,419,113	$ 2,256,543

15. Interest Received and Paid

The Division received interest during the year of $98,928 (previous year $86,295); interest paid during the year was $199 (previous year $1).

Interest expense is included in Fiscal and is comprised of the following:

	2008
Operating Fund	
Fiscal-short term loan, interest and bank charges	$ -
Capital Fund	
Debenture debt interest	440,451
Other interest	199
	$ 440,650

The accrual portion of debenture debt interest expense of $160,968 included under the Capital Fund-Debenture debt interest, is offset by an accrual of the debt servicing grant from the Province of Manitoba.

16. Expenses by object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	$ 12,423,152	$ 12,742,170	$ 12,157,929
Employees benefits & allowances	1,113,466	1,242,307	1,125,496
Services	1,380,492	1,507,493	1,423,699
Supplies, materials & minor equipment	1,489,094	1,401,046	1,547,891
Interest	440,451	4,000	279,974
Bad debts	-	-	-
Payroll tax	268,981	271,000	261,928
Amortization	718,927	-	681,741
Other capital items	-	-	(4,499)
School generated funds	319,002	-	323,646
Other special purpose funds	96,417	-	23,080
	$ 18,249,982	$ 17,168,016	$ 17,820,885

17. Commitment

As a result of a resolution approved at the 23 June 2008 school trustees meeting the Division is committed to purchase two new school buses in the amount of approximately $179,986 during 2008/2009 fiscal year end.

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Turtle Mountain School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 3 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by Meyers Norris Penny LLP, independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

MNP
MEYERS NORRIS PENNY LLP

AUDITOR'S REPORT

(In accordance with subsection 41(11) of the Public Schools Act)

To the Board of Trustees
Turtle Mountain School Division

We have audited the consolidated statement of financial position of the Turtle Mountain School Division as at June 30, 2008 and the consolidated statements of revenue, expenses, and accumulated surplus, change in net debt and cash flow for the year then ended. These consolidated financial statements are the responsibility of the Division's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly in all material respects, the financial position of the School Division as at June 30, 2008 and the results of its operations and cash flow for that fiscal year in accordance with Canadian generally accepted accounting principles.

Further, in our opinion, the other statements and reports, when considered in relation to the aforementioned financial statements, present fairly the supplemental information shown.

Meyers Norris Penny LLP
AUDITOR

Brandon, Manitoba
November 20, 2008

I hereby certify that this report and the statements and reports referenced herein have been presented to the members of the board of the above-mentioned School Division.

TURTLE MOUNTAIN SCHOOL DIVISION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2008

1. Nature of Organization and Economic Dependence

The School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax and is a registered charity under the Income Tax Act.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Comparative Figures

The Division adopted Public Sector Accounting Board (PSAB) standards during the 2006/07 fiscal year. The standards have been applied retroactively with a cumulative adjustment to the opening accumulated surplus presented as a restatement on the Statement of Revenue, Expenses and Accumulated Surplus. The 2006 comparative figures have not been restated and are presented in accordance with FRAME, the prescribed method of accounting that the Division followed prior to the implementation of PSAB.

3. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

a) Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation.

b) Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

c) Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds and charitable foundations controlled by the Division.

d) School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

e) Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life (years)
Land Improvements	25,000	10
Buildings - bricks, mortar and steel	25,000	40
Buildings - wood frame	25,000	25
School buses	20,000	10
Vehicles	10,000	5
Equipment	5,000	5
Network Infrastructure	25,000	10
Computer Hardware, Servers & Peripherals	5,000	4
Computer Software	10,000	4
Furniture & Fixtures	5,000	10
Leasehold Improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, donated capital assets and capital leases, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency.

All tangible capital assets, except for land, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

f) Capital Reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position.

g) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

h) Financial Instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

4. Conversion to PSAB

Commencing with the 2006/07 fiscal year, the Board has adopted generally accepted accounting principles established by PSAB. As explained in Note 2, the comparative figures included in these financial statements have not been restated to conform to the accounting standards adopted for the current year.

The following changes have been implemented to comply with the PSAB standard:

(i) Tangible capital assets were restated and amortized over their useful lives to reflect net book value. Amortization of tangible capital assets and gain or loss on disposal of capital assets are recorded in the Statement of Revenue, Expenses and Accumulated Surplus.

(ii) The Operating Fund, Capital Fund and Special Purpose Fund are consolidated in the financial statements. The Special Purpose Fund was created to include school generated funds and charitable foundations controlled by the Division.

(iii)The Employee Future Benefits Liability was established to account for the Division's commitment to pay vested future benefits to its employees.

(iv)Accrued Interest Payable was established to account for accrual of interest on Debenture Debt and Other Borrowings from the last payment date. An equal amount is set up as due from the Province to offset the accrued interest payable on debenture.

5. Overdraft

The Division has an authorized line of credit with Westoba Credit Union of $2,500,000.00 by way of overdrafts and is repayable on demand at prime less 0.5%; interest is paid monthly. Overdrafts are secured by borrowing by-law.

6. Deferred Revenue

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The following is a breakdown of the account balance:

Description	Balance at June 30, 2008
Provincial Education Property Tax Credit Advance	$355,169
Professional Development Seminar Prepaid	0
	$355,169

7. School Generated Funds Liability

School Generated Funds Liability includes the non-controlled portion of school generated funds consolidated in the cash and bank balances in the amount of $95,138.

8. Debenture Debt

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly installments and maturing at various dates from 2009 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba, except for the debenture debt on self-funded capital projects. The debentures carry interest rates that range from 5.125% to 11.75%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government.

9. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class.

10. Municipal Government – Property Tax and related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense statement is raised over the two calendar (tax) years; 40.5% from 2007 tax year and 59.5% from 2008 tax year. Below are the related revenue and receivable amounts:

Description	2008	2007
Revenue-Municipal Government-Property Tax	$3,538,829	$3,449,553
Receivable-Due from Municipal-Property Tax	$2,084,355	$2,011,777

11. Commitments

Agreements respecting photocopiers were entered into for terms ranging from one to four years. The cost for the lease of this equipment is $18,997 for 2007-08.

12. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008
Operating Fund	
Designated Surplus	97,329
Undesignated Surplus	115,026
	212,355
Capital Fund	
Reserve Accounts	148,308
Equity in Tangible Capital Assets	389,055
	537,363
Special Purpose Fund	
School Generated Funds	36,836
Other Special Purpose Funds	0
	36,836
Total Accumulated Surplus	$786,554

Designated Surplus under the Operating Fund represents internally restricted amounts appropriated by the board or, in the case of school budget carryovers, by board policy. See page 5 of the audited financial statements for a breakdown of the Designated Surplus.

	2008
Board approved appropriation by motion	41,590
School budget carryovers by board policy	55,739
Designated surplus	$97,329

Reserve Accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. A Schedule of Capital Reserve Accounts is provided on page 24 of the audited financial statements.

	2008
Bus reserves	148,308
Other reserves	0
Capital Reserve	$148,308

School Generated Funds and Other Special Purpose Funds are externally restricted moneys for school use.

	2008
School generated funds	36,836
Other	0
Other Special Purpose Funds	$36,836

13. Restatement of Opening Accumulated Surplus

Restatement of Opening Accumulated Surplus is comprised of:

	2008
Operating Fund	
Employee Future Benefits	$0
Capital Fund	
Tangible Capital Assets	5,300
Accumulated Amortization	0
	5,300
Special Purpose Fund	
School Generated Funds	0
Other Special Purpose Funds	0
	0
Total Restatement of Opening Accumulated Surplus	5,300

Restatements of the above accounts are prior period cumulative adjustments to the opening balance of the accumulated surplus (deficit) of the current period. These adjustments are the result of adopting PSAB standards.

14. Interest Received and Paid

The Division received interest during the year of $13,590 (previous year $17,969); interest paid during the year was $316,658 (previous year $459,801).

Interest expense is included in Fiscal and is comprised of the following:

	2008
Operating Fund	
Fiscal-short term loan, interest and bank charges	$29,064
Capital Fund	
Debenture debt interest	287,594
Other interest	0
	$316,658

The accrual portion of debenture debt interest expense of $105,849 included under the Capital Fund-Debenture debt interest is offset by an accrual of the debt servicing grant from the Province of Manitoba.

15. Expenses by object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

Description	Actual 2008	Budget 2008	Actual 2007
Salaries	$7,841,094	$7,680,671	$7,478,067
Employee benefits and allowances	612,848	604,289	588,374
Services	947,215	956,391	955,851
Supplies, materials & minor equip.	717,523	1,105,926	980,967
Interest	316,658	25,000	459,801
Payroll tax / Transfers/Bad Dept Exp	200,278	162,000	189,931
Amortization	399,363	0	383,767
School generated funds	200,613	0	162,671
Total	$11,235,592	$10,534,277	$11,199,429

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Turtle River School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies is described in Note 3 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by Meyers Norris Penny LLP independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

MNP
MEYERS NORRIS PENNY LLP

AUDITOR'S REPORT

(In accordance with subsection 41(11) of the Public Schools Act)

To the Board of Trustees
Turtle River School Division

We have audited the consolidated statement of financial position of the Turtle River School Division as at June 30, 2008 and the consolidated statements of revenue, expenses, and accumulated surplus, change in net debt and cash flow for the year then ended. These consolidated financial statements are the responsibility of the Division's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly in all material respects, the financial position of the School Division as at June 30, 2008 and the results of its operations and cash flow for that fiscal year in accordance with Canadian generally accepted accounting principles.

Further, in our opinion, the other statements and reports, when considered in relation to the aforementioned financial statements, present fairly the supplemental information shown.

Meyers Norris Penny LLP
AUDITOR

Brandon, Manitoba
October 17, 2008

I hereby certify that this report and the statements and reports referenced herein have been presented to the members of the board of the above-mentioned School Division.

TURTLE RIVER SCHOOL DIVISION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2008

1. Nature of Organization and Economic Dependence

The Turtle River School Division is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba, and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax and is a registered charity under the Income Tax Act.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Comparative Figures

The Division adopted Public Sector Accounting Board (PSAB) standards during the 2006/07 fiscal year. The standards have been applied retroactively with a cumulative adjustment to the opening accumulated surplus presented as a restatement on the Statement of Revenue, Expenses and Accumulated Surplus. Previous to the 2006/07 year Financial Statements were presented in accordance with FRAME, the prescribed method of accounting that the Division followed prior to implementation of PSAB.

3. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

a) Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds.
All inter-fund accounts and transactions are eliminated upon consolidation.

b) Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

c) Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds held by the Division.

d) School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

e) Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life (years)
Land Improvements	25,000	10
Buildings - bricks, mortar and steel	25,000	40
Buildings - wood frame	25,000	25
School buses	20,000	10
Vehicles	10,000	5
Equipment	5,000	5
Network Infrastructure	25,000	10
Computer Hardware, Servers & Peripherals	5,000	4
Computer Software	10,000	4
Furniture & Fixtures	5,000	10
Leasehold Improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, donated capital assets and capital leases, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency.

All tangible capital assets, except for land, capital leases, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized. One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

f) Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

However, the Division provides a defined contribution pension plan to all eligible non teachers in the Division. There is no future liability or benefit to be recorded for this type of pension plan. The Division participates in the MAST (Manitoba Association of School Trustees) Pension Plan. The terms and conditions of this pension plan are administered by a provincial committee consisting of school trustees, employee and division management representative. The Division participates in the plan by virtue of a trust agreement. Participating employees in the plan generally contribute from 4.7% to 6.7% (dependant on age) of earnings to the plan. The Division matches this contribution and remits both contributions monthly.

g) Capital Reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position. The Division has a reserve for school bus purchases in the amount of $419,293. The Board of Trustees of Turtle River School Division committed (Resolution Number 15, June 24, 2008) to purchase 2 each 46 passenger and 1 each 64 passenger bus from this reserve in the approximate amount of $265,715 including net taxes.

h) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period.

i) Financial instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their carrying values, unless otherwise noted.

4. Conversion to PSAB

Commencing with the 2006/07 fiscal year, the Board has adopted generally accepted accounting principles established by PSAB.

The following changes have been implemented to comply with the PSAB standard:

(i) Tangible capital assets were restated and amortized over their useful lives to reflect net book value. Amortization of tangible capital assets and gain or loss on disposal of capital assets are recorded in the Statement of Revenue, Expenses and Accumulated Surplus.

(ii) The Operating Fund, Capital Fund and Special Purpose Fund are consolidated in the financial statements. The Special Purpose Fund was created to include school generated funds and charitable foundations controlled by the Division.

(iii)The Employee Future Benefits Liability was established to account for the Division's commitment to pay vested future benefits to its employees.

(iv)Accrued Interest Payable was established to account for accrual of interest on Debenture Debt and Other Borrowings from the last payment date. An equal amount is set up as due from the Province to offset the accrued interest payable on debenture.

5. Overdraft

The Division has an operating $1,000,000 line of credit with the Royal Bank of Canada by way of overdraft. (By-Law #151) The Division does not receive any 2008 property taxation until October 31 each year.

In addition small capital projects are funded out of the operating fund.

6. Deferred Revenue

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The following is a breakdown of the account balance:

	Balance as at June 30, 2007	Additions in the period	Revenue recognized in the period	Balance as at June 30, 2008
Municipal Revenue	$921,770	$1,166,086	$921,770	$1,166,086
Eduction Property Tax Credit	264,581	298,481	264,581	298,481
Prepaid Transportation Fees	-	375		375
	$ 1,186,351	$ 1,464,942	$ 1,186,351	$ 1,464,942

7. School Generated Funds Liability & Revenue/Expense Presentation

School generated funds revenue and expenses reported in the Consolidated Statement of Revenue, Expenses and Accumulated Surplus as at June 30, 2008 covers a period of twelve months from July 1, 2007 to June 30, 2008.

8. Debenture Debt

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly installments and maturing at various dates from 2008 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba. The debentures carry interest rates that range from 5.125% to 12.125%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The debenture principal and interest repayments in the next five years are:

	Principal	Interest	Total
2009	$ 218,032	$ 193,203	$ 411,235
2010	238,922	190,003	428,925
2011	258,680	170,245	428,925
2012	272,594	148,775	421,369
2013	285,660	126,353	412,013
	$ 1,273,888	$ 828,579	$ 2,102,467

9. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008
Operating Fund	
Designated Surplus	28,016
Undesignated Surplus	297,760
	325,776
Capital Fund	
Reserve Accounts	419,293
Equity in Tangible Capital Assets	732,195
	1,151,488
Special Purpose Fund	
School Generated Funds	101,078
Other Special Purpose Funds	-
	101,078
Total Accumulated Surplus	$ 1,578,342

Designated Surplus under the Operating Fund represents internally restricted amounts appropriated by the board or, in the case of school budget carryovers, by board policy. See page 5 of the audited financial statements for a breakdown of the Designated Surplus.

	2008
School budget carryovers by board policy	28,016
Designated surplus	$ 28,016

Reserve Accounts under the Capital Fund represent internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. A Schedule of Capital Reserve Accounts is provided on page 24 of the audited financial statements.

	2008
Bus reserves	419,293
Other reserves	-
Capital Reserve	$ 419,293

10. Municipal Government – Property Tax and related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 50% from 2007 tax year and 50% from 2008 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue-Municipal Government-Property Tax	$ 1,809,639	$ 2,053,989
Receivable-Due from Municipal-Property Tax	$ 2,114,566	$ 1,966,264

11. Interest Received and Paid

The Division received interest during the year of $15,636 (previous year $27,962).

Interest expense is included in Fiscal and is comprised of the following:

	2008
Operating Fund	
Fiscal-short term loan, interest and bank charges	$ 3,557
Capital Fund	
Debenture debt interest	202,974
Other interest	-
	$ 206,531

The accrual portion of debenture debt interest expense of $92,075 included under the Capital Fund-Debenture debt interest, is offset by an accrual of the debt servicing grant from the Province of Manitoba.

12. Expenses by object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	$ 5,617,812	$ 5,630,425	$ 5,535,720
Employees benefits & allowances	435,930	472,120	431,231
Services	894,296	1,017,703	921,802
Supplies, materials & minor equipment	804,490	700,767	724,481
Interest	206,531	206,458	307,272
Transfers	153,226	170,000	162,692
Payroll tax	113,887	118,104	117,378
Amortization	427,467	-	408,811
Other capital items	-	-	-
School generated funds	337,674	-	301,947
Other special purpose funds	-	-	-
	$ 8,991,313	$ 8,315,577	$ 8,911,334

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Western School Division are the responsibility of the Division management and have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 2 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. Division management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the Division met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by Gislason Targownik Peters, Certified General Accountants, independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the Division's consolidated financial statements.

AUDITORS' REPORT

To the board of trustees
Western School Division

We have audited the Consolidated Statement of Financial Position for the Operating Fund, Capital Fund and Special Fund of Western School Division as at June 30, 2008, and the Consolidated Statements of Revenue, Expenses and Accumulated Surplus and Cash Flow for the year then ended. These financial statements are the responsibility of the organization's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the organization as at June 30, 2008 and the results of operations and cash flow of the organization for the year then ended, in accordance with Canadian generally accepted accounting principles.

Gislason Targownik Peters

CERTIFIED GENERAL ACCOUNTANTS

Winkler, Manitoba
September 25, 2008

I hereby certify that this report and the statements and reports referenced herein have been presented to the members of the board of the above mentioned School Division.

1. Nature of Organization and Economic Dependence

The School Division (Division) is a public body that provides education services to residents within its geographic location. The division is funded mainly by grants from the Province of Manitoba (Province), and a special levy on the property assessment included in the Division's boundaries. The Division is exempt from income tax and is a registered charity under the Income Tax Act.

The Division is economically dependent on the Province for the majority of its revenue and capital financing requirements. Without this funding, the Division would not be able to continue its operations.

2. Significant Accounting Policies

The consolidated financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles established by PSAB of the Canadian Institute of Chartered Accountants (CICA).

a) Reporting Entity and Consolidation

The consolidated financial statements reflect the assets, liabilities, revenues and expenses of the operating fund, capital fund, and special purpose fund of the Division. The Division reporting entity includes school generated funds controlled by the Division.

All inter-fund accounts and transactions are eliminated upon consolidation.

b) Basis of Accounting

Revenues and expenses are reported on the accrual basis of accounting except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay. Expenses also include the amortization of tangible capital assets.

c) Fund Accounting

The fund method of accounting is employed by the Division to record financial transactions in separate funds as defined by Financial Reporting and Accounting in Manitoba Education (FRAME) in accordance with the purpose for which the funds have been created.

The Operating Fund is maintained to record all the day to day operating revenues and expenses. The Capital Fund is used to account for the acquisition, amortization, disposal and financing of capital assets. The Special Purpose Fund is used to account for school generated funds controlled by the Division.

d) School Generated Funds

School generated funds are moneys raised by the school, or under the auspices of the school, through extra curricular activities for the sole use of the school that the principal of each school, subject to the rules of the school board, may raise, hold, administer and expend for the purposes of the school.

Only revenue and expenses of school generated funds controlled by the Division are included in the Consolidated Statement of Revenue, Expenses and Accumulated

Surplus. To be deemed as controlled, a school must have the unilateral authority to make the decisions as to when, how and on what the funds are to be spent.

Period end cash balances of all school generated funds are included in the Consolidated Statement of Financial Position. The uncontrolled portion of this amount is reflected in the School Generated Funds Liability account. Examples of uncontrolled school generated funds are parent council funds, other parent group funds, student council funds and travel club funds. Revenues and expenses of uncontrolled school generated funds are not included in the consolidated financial statements.

e) Tangible Capital Assets

Tangible capital assets are non-financial assets that are used by the Division to provide services to the public and have an economic life beyond one fiscal year. Tangible capital assets include land, buildings, buses, other vehicles, furniture and equipment, computers, capital leases, leasehold improvements, and assets under construction.

To be classified as tangible capital assets, each asset other than land must individually meet the capitalization threshold for its class as prescribed by FRAME.

Asset Description	Capitalization Threshold ($)	Estimated Useful Life (years)
Land Improvements	25,000	10
Buildings - bricks, morter and steel	25,000	40
Buildings - wood frame	25,000	25
School buses	20,000	10
Vehicles	10,000	5
Equipment	5,000	5
Network Infrastructure	25,000	10
Computer Hardware, Servers & Peripherals	5,000	4
Computer Software	10,000	4
Furniture & Fixtures	5,000	10
Leasehold Improvements	25,000	Over term of lease

Grouping of assets is not permitted except for computer work stations.

With the exception of land, donated capital assets and capital leases, all tangible capital assets, are recorded at historical cost, which includes purchase price, installation costs and other costs incurred to put the asset into service.

Buildings are recorded at historical cost when known. For buildings acquired prior to June 30, 2005 where the actual cost was not known, the replacement value for insurance purposes as at June 30, 2005 was regressed to the date of acquisition using a regression index based on Southam and CanaData construction cost indices.

Donated tangible capital assets are recorded at fair market value at the date of donation. Deferred revenue is recorded in an equivalent amount, for all donated assets except land. The deferred revenue will be recognized as revenue over the useful life of the related asset, on the same basis that the asset is amortized.

All land acquired prior to June 30, 2006 has been valued by the Crown Lands and Property Agency.

All tangible capital assets, except for land, capital leases, and assets under construction, are amortized on a straight-line basis over their estimated useful lives as prescribed by FRAME. Land is not amortized.

One-half of the annual amortization is charged in the year of acquisition and in the year of disposal if not fully amortized.

Assets under construction are not amortized until the date of substantial completion. Interest on funds used to finance school buildings under construction is capitalized for the periods preceding the date of substantial completion.

f) Employee Future Benefits

The Province of Manitoba pays the employer portion of the Teachers' Retirement Allowances Fund (TRAF), the pension plan for all certified teachers of the Division. The Division does not contribute to TRAF, and no costs relating to this plan are included in the Division's financial statements.

g) Capital Reserve

Certain amounts, as approved by the Board of Trustees and the Public Schools Finance Board (PSFB), have been set aside in reserve accounts for future capital purposes. These Capital Reserve accounts are internally restricted funds that form part of the Accumulated Surplus presented in the Consolidated Statement of Financial Position.

h) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. These estimates are subject to measurement uncertainty and the effect on the financial statements of changes in such estimates in future periods could be significant.

i) Financial instruments

There are no significant terms and conditions related to financial instruments (cash, accounts receivable, investments, bank indebtedness, accounts payable and long-term debt) that may affect the amount, timing and certainty of future cash flows. The Division is exposed to credit risk from the potential non-payment of accounts receivable. However, the majority of the receivables are from local, provincial and federal governments, and therefore, the credit risk is minimal. The carrying amounts of the financial instruments approximate their fair values, unless otherwise noted.

3. Overdraft

The Division has an authorized line of credit with Agassiz Credit Union Limited of $2,800,000 by way of overdrafts and is repayable on demand at prime less 0.5%.

4. Deferred Revenue

The deferral method of accounting is used for revenues received that, pursuant to legislation, regulation or agreement, may only be used for specific purposes. These amounts are recognized as revenue in the fiscal year the related expenses are incurred or services performed. The following is a breakdown of the account balance:

	Balance as at June 30, 2007	Additions in the period	Revenue recognized in the period	Balance as at June 30, 2008
Manitoba Textbook Bureau	$ 25,096	$ 44,193	$ 41,984	$ 27,305

International Education Tuition	-	-	-	-
Other	27,569	46,762	-	74,331
Restricted Capital Fund Donation	1,275,144	-	1,275,144	-
	$ 1,802,796	$ 644,049	$ 1,792,115	$ 654,730

The Restricted Capital Fund Donation of $1,275,144 was recognized as revenue during the year due to the removal of the restriction on the funds.

5. Debenture Debt

The debenture debt of the Division is in the form of twenty-year debentures payable, principal and interest, in twenty equal yearly installments and maturing at various dates from 2010 to 2028. Payment of principal and interest is funded entirely by grants from the Province of Manitoba, except for the debenture debt on self-funded capital projects. The debentures carry interest rates that range from 5.375% to 11.875%. Debenture interest expense payable as at June 30, 2008, is accrued and recorded in Accrued Interest Payable, and a grant in an amount equal to the interest accrued on provincially funded debentures is recorded in Due from the Provincial Government. The debenture principal and interest repayments in the next five years are:

	Principal	Interest	Total
2009	482,409	332,787	$ 815,196
2010	528,746	286,450	815,196
2011	381,337	235,558	616,895
2012	373,513	201,216	574,729
2013	345,804	165,401	511,205
	$ 2,111,809	$ 1,221,412	$ 3,333,221

6. Other Borrowings

Other borrowings are debts other than overdrafts or debentures. This includes a loan to purchase property.

	2007	2006
Property loan	$ 401,788	$ 438,172

The property loan has prime less 0.5% interest per annum, due in 2017 and a monthly payment of $4,885 principal and interest. This loan is secured by way of a demand promissory note.

Principal and interest repayment of total Other Borrowings in the next five years are:

	Principal	Interest	Total
2009	$ 42,369	$ 16,257	$ 58,626
2010	44,205	14,421	58,626
2011	46,121	12,505	58,626
2012	48,119	10,507	58,626
2013	50,205	8,421	58,626
	$ 231,019	$ 62,111	$ 293,130

7. School Generated Funds Liability

School Generated Funds Liability includes the non-controlled portion of school generated funds consolidated in the cash and bank balances in the amount of $86,438.

8. Net Tangible Capital Assets

The Schedule of Tangible Capital Assets (TCA), page 23 of the audited financial statements, provides a breakdown of cost, accumulated amortization and net book value by class.

	Gross Amount	Accumulated Amortization	2008 Net Book Value
Owned-tangible capital assets	$ 13,357,473	$ 7,564,955	$ 5,792,518

9. Accumulated Surplus

The consolidated accumulated surplus is comprised of the following:

	2008
Operating Fund	
Designated Surplus	-
Undesignated Surplus	524,130
	524,130
Capital Fund	
Reserve Accounts	216,900
Equity in Tangible Capital Assets	2,530,723
	2,747,623
Special Purpose Fund	
School Generated Funds	7,215
Other Special Purpose Funds	-
	7,215
Total Accumulated Surplus	$ 3,278,968

Reserve Accounts under the Capital Fund represents internally restricted reserves for specific purposes approved by the Board of Trustees and PSFB. A Schedule of Capital Reserve Accounts is provided on page 24 of the audited financial statements.

	2008
Bus reserves	216,899

School Generated Funds and Other Special Purpose Funds are externally restricted moneys for school use.

10. Municipal Government – Property Tax and related Due from Municipal Government

Education property tax or Special Levy is raised as the Division's contribution to the cost of providing public education for the students resident in the division. The Municipal Government-Property Tax shown on the consolidated revenue and expense is raised over the two calendar (tax) years; 40% from 2006 tax year and 60% from 2007 tax year. Below are the related revenue and receivable amounts:

	2008	2007
Revenue-Municipal Government-Property Tax	$ 3,663,644	$ 3,796,742
Receivable-Due from Municipal-Property Tax	$ 2,151,323	$ 2,148,483

11. Interest Received and Paid

The Division received interest during the year of $75,649 (previous year $9,591); interest paid during the year was $416,943 (previous year $453,561).

Interest expense is included in Fiscal and is comprised of the following:

	2008
Operating Fund	
Fiscal-short term loan, interest and bank charges	$ 19,720
Capital Fund	
Debenture debt interest	358,350
Other interest	22,241
	$ 400,311

The accrual portion of debenture debt interest expense of $149,323 included under the Capital Fund-Debenture debt interest, is offset by an accrual of the debt servicing grant from the Province of Manitoba.

12. Expenses by object

Expenses in the consolidated statement of revenue, expenses and accumulated surplus are reported by function as defined by FRAME. Below is the detail of expenses by object:

	Actual 2008	Budget 2008	Actual 2007
Salaries	$ 9,431,238	$ 9,352,403	$ 8,991,723
Employees benefits & allowances	644,087	624,091	628,227
Services	1,173,524	1,129,728	1,048,371
Supplies, materials & minor equipment	942,314	879,152	750,762
Interest	400,311	43,285	619,514
Payroll tax	204,077	190,834	199,687
Amortization	458,385	-	471,216
Other capital items	35,900	-	-
School generated funds	46,214	-	45,572
Transfers	163,851	154,850	130,183
	$ 13,499,901	$ 12,374,343	$ 12,885,255

13. Contractual Obligations

The Division has entered into a lease agreement for its Adult Learning Centre premises at $3,333 per month expiring November 2008.

The minimum annual lease payments for the next year are as follows:

2009	$13,333

A sublet agreement has been entered into for a portion of these premises. The sublet pays $1,013 per month to the Division expiring November 2008.

MANAGEMENT REPORT

Management's Responsibility for the Financial Statements

The accompanying consolidated financial statements of Whiteshell School District are the responsibility of the District management and have been prepared in compliance with legislation, and in accordance with generally accepted accounting principles established by the Public Sector Accounting Board of The Canadian Institute of Chartered Accountants. A summary of the significant accounting policies are described in Note 2 to the consolidated financial statements.

The preparation of consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. District management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Board of Trustees of the District met with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by Collins Barrow independent external auditors appointed by the Board. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the District's consolidated financial statements.

Auditors' Report

To the Chairperson and Trustees
Whiteshell School District

We have audited the Consolidated Statement of Financial Position for the Whiteshell School District as at June 30, 2008, and the Consolidated Statement of Revenue, Expenses, Consolidated Statement of change in Net Debt and Consolidated Statement of Cash Flow for the year ended June 30, 2008. These financial statements are the responsibility of the school district's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.
